FRONT

Tuesday – June 27, 2017 - 3:00 p.m.

Worksession - Draft Living Asheville Comprehensive Plan

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman W. Keith Young; Acting City Manager Cathy Ball; and City Clerk Magdalen Burleson

Absent: Councilman Gordon D. Smith

Director of Planning & Urban Design Todd Okolichany said that the purpose of this work session and presentation is for informal purposes and is to share the Draft Comprehensive Plan with City Council.

He said that the Comprehensive Plan is a tool that the City uses to establish a high-level vision to guide city policy decisions over a 10-15 year period. The update to the Comprehensive Plan, titled, *Living Asheville: a Comprehensive Plan for our Future,* will provide a visionary framework to help guide Asheville's long term development and provide an essential tool that will be used across the City's many departments to guide future decision making. It presents a vision for the future, with long-range goals and objectives for all activities that affect the local government. Asheville's first Comprehensive Plan was the City Development Plan 2025, which was completed in 2003.

He explained staff would appreciate Council input on the Comprehensive Plan "Big Ideas," the Principles, the Growth Strategies, and potential neighborhood planning strategies. He then highlighted the various methods of community engagement.

Mr. Roger Weber, representing Skidmore Owens and Merrill, talked about what is in the plan. The following 12 ideas reflect the boldest concepts heard throughout the planning process, and have been used as a framework for informing the plan's themes, principles, goals, and strategies: (1) strengthen urban transit corridors; (2) integrate a car-free green network; (3) connect our urban centers; (4) make housing accessible and affordable; (5) support placemaking by artists; (6) innovate beyond conservation; (7) beautify our City; (8) grow a thriving urban environment; (9) foster resilient neighborhoods; (9) design with nature in mind; (10) expand equitable, upward mobility; and (12) invest in the future of Asheville. From those 12 ideas, the following six themes were identified: (1) livable built environment; (2) resilient economy; (3) harmony with natural environment; (4) interwoven equity; (5) health community; and (6) responsible regionalism. Out of those six themes, goals were established.

Mr. Okolichany said five growth areas were identified, along with objectives: (1) downtown; (2) transit-supportive corridors; (3) community places; (4) form-based code districts; and (5) innovation districts.

Staff would also like to hear Councils' thoughts on the following Plan implementation (1) Plan will be updated once every five years; (2) an annual report on progress to City Council; (and (3) a dashboard will be created to monitor one outcome and performance measure per goal.

Mr. Weber provided Council with a summary of public comments received to date. Plan strengths include (1) most respondents from the public feel the Plan does accurately incorporate their input; (2) most respondents feel the Plan is clear and easy to read; and (3) most respondents feel the Plan's strategies are feasible. Outstanding concerns include (1) ensuring the Plan is a resource for both policymakers and the public; and (2) ensuring progress on the Plan is measurable and verifiable.

2

The Draft Plan will be open for comment on Open City Hall through July 6th, but there will be additional opportunity to collect Council comments through July 21st before Skidmore Owings and Merrill begins compiling all the comments in preparation for development of the Final Draft of the Plan.

Mr. Okolichany then provided Council with the Living Asheville Comprehensive Plan Schedule as follows:

June 6 -July 6	Draft Plan posted for public review
June 27	Council work session (overview and discussion)
June 28	Public workshop with the consultant team led by Skidmore Owings Merrill
June 29	Meetings w/ Advisory and Technical Committees
July/August	Planning and Zoning Commission review and comment
September/October	Final presentation to Planning and Zoning Commission for recommendation
October	Final presentation to City Council/anticipated adoption

Mr. Weber, along with Mr. Okolichany and Mr. Don Bryson, responded to various questions/comments from Council, some being, but are not limited to: has this Plan taking into account the expected drop of the number of vehicles by 2030; City Council will eventually need to adopt the different strategies in the Plan because financial resources are unknown at this time and there might be agencies that the City can partner with to achieve the strategy; how will this Plan going to inform Council's decisions differently that the current Plan informs Council now; when will the outcomes be prioritized in the Plan; and was there any discussion or support on a prepared food beverage tax.

Councilwoman Mayfield asked if there was anything specific in the Plan education. Mr. Okolichany said that they struggled with that; however, they tried to think about what the City has control over. They looked at it from an institutions approach, along with a multimodal approach, e.g., sidewalks.

Vice-Mayor Wisler suggested the Plan be reviewed to see where our boards and commissions fit in. They can really help us advance and prioritize some of the goals.

Vice-Mayor Wisler adjourned the worksession at 4:03 p.m.

Tuesday – June 27, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman W. Keith Young; Acting City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: Councilman Gordon D. Smith

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Mayor Manheimer said that City Manager Gary Jackson provided the following written statement to City Clerk Burleson on June 23, 2017: "I will be out of the office from June 24, 2017 until June 30, 2017. By this email, for the time that I am absent, I am designating Assistant City Manager, Cathy Ball, to serve as Acting City Manager, and during that time, Cathy Ball is authorized by me to exercise my powers, and to perform any and all of my duties as City Manager, and I hereby delegate the same to her. This designation will terminate upon my return on July 1, 2017. Gary" Pursuant to N. C. Gen. Stat. sec. 160A-149, " By letter filed with the city clerk, the manager may designate, subject to the approval of the council, a qualified person to exercise the powers and perform the duties of manager during his temporary absence or disability. During this absence or disability, the council may revoke that designation at any time and appoint another to serve until the manager returns or his disability ceases." She said that City Council will need to approve this designation, and asked that this be considered as Consent Agenda Item "O".

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 13, 2017

B. RESOLUTION NO. 17-126 - RESOLUTION AUTHORIZING THE PARKS AND RECREATION DIRECTOR AND CHIEF FINANCIAL OFFICER TO SIGN A PARTNERSHIP AGREEMENT WITH JUST FOLKS FOR TRIANGLE PARK FOR FISCAL YEAR 2017-18

Summary: The consideration of a resolution authorizing the Parks and Recreation Director and the Chief Financial Officer to sign a partnership agreement with Just Folks for Triangle Park for Fiscal Year 2017-2018.

Just Folks is a local non-profit organization whose primary purpose is to support community-building activities in the Eagle/Market Street area known as "The Block". Beginning in 2012, City Council has annually approved a resolution authorizing the partnership agreement with Just Folks that includes a waiver of permit fees at the reduced rate provided for local non-profits.

The waiver makes it possible for Just Folks to produce events that utilize Triangle Park by providing a variety of positive activities including music festivals, community cookouts and other community-building events in the park. These events contribute to more positive use of the area and result in the park being used by a more diverse group of city residents and visitors.

Just Folks is requesting renewal of its partnership agreement with the City for FY 2017-2018 with a waiver of fees in the amount of $3,321 for building, operational and inspection permits.

In return for the fee waiver, Just Folks commits to daily litter collection in Triangle Park valued at $6,276. The value is calculated at 260 volunteer hours per year at $24.14 per hour. The volunteer hourly rate is set each year by Independent Sector, the leading professional in industry standards in the non-profit, charitable and volunteer sector in the United States.

Pros:

- Strategic partnerships allow the City to leverage programming and events to reach a wider and more diverse audience.
- Provides additional quality cultural programming and diversity in a park that is generally not used for this type of event.
- Reduces staff time in processing fee and permitting waiver requests related to this group's events.
- Consistent with other partnerships for park programming in key community development areas.
- Creates a sense of place in an historic area of the city.

Con:

- The waiver of permit fees result in lost revenue for the City; however, the City has not budgeted for this revenue.

The value of the waived permit fees is $3,321. This revenue is not included in the City's FY 2017-2018 General Fund budget.

Staff recommends City Council adopt a resolution authorizing the Parks and Recreation Director and the Chief Financial Officer to sign the partnership agreement with Just Folks including a permit fee waiver of $3,321 associated with programming in Triangle Park.

When Councilwoman Mayfield asked if the City owns Triangle Park, Real Estate Manager Nikki Reid said that the City leases it from Asheville Oil Company. She said the City has leased the property over 30 years and they will begin the process of renewing the lease well ahead of the termination date so they can continue that relationship.

RESOLUTION BOOK NO. 39 - PAGE 1

C. RESOLUTION NO. 17-127 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXERCISE THE SECOND-YEAR OPTION TO RENEW THE CONTRACT WITH US SECURITY FOR SECURITY SERVICES IN VARIOUS PARKS, GREENWAYS AND FACILITIES IN THE CITY'S PARK SYSTEM; AND RENEW THE CONTRACT FOR ONE ADDITIONAL YEAR

Summary: The consideration of a resolution authorizing the City Manager to: (1) Exercise the second-year option to renew the contract with US Security in the amount of $59,576.65 for security services in various parks, greenways and facilities in the City's parks system in the cumulative amount of $110,333.65; and (2) Exercise the option to renew the contract for one additional twelve-month period based on the contractor's satisfactory performance and available budget.

The Parks and Recreation Department (Department) contracts for security services to secure park gates and restrooms on a daily basis in various parks, greenways and facilities. The City entered into a one-year contract with US Security in FY 2016-2017 in the amount of $50,757.00 for security services in various parks, greenways and facilities in the City's park system with the option to renew for two twelve-month periods based on contractor performance. By electing to exercise the second year in the amount of $59,576.65 increases the cumulative amount of the contract to $110,333.65, an amount which requires City Council consideration and approval.

Pro: • Supports the efficient delivery of core park maintenance services.

Con: • None

The $59,576.65 funding required to support this security services contract is budgeted in the FY 2017-2018 Department operating budget as part of the Parks Maintenance division budget.

Staff recommends City Council to adopt a resolution authorizing the City Manager to: (1) Exercise the second-year option to renew the contract with US Security in the amount of $59,576.65 for security services in various parks, greenways and facilities in the City's park system in the cumulative amount of $110,333.65; and (2) Exercise the option to renew the contract for one additional twelve-month period based on the contractor's satisfactory performance and available budget.

RESOLUTION BOOK NO. 39 - PAGE 2

D. RESOLUTION NO. 17-128 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXERCISE THE SECOND-YEAR OPTION TO RENEW THE CONTRACT WITH LANDMARK CAROLINA, INC. FOR GROUNDS MAINTENANCE SERVICES IN VARIOUS PARKS, GREENWAYS AND FACILITIES IN THE CENTRAL AND WEST ONE DISTRICTS; AND REVENUE THE CONTRACT FOR ONE ADDITIONAL YEAR

Summary: The consideration of a resolution authorizing the City Manager to: (1) Exercise the second-year option to renew the contract with Landmark Carolina, Inc. in the amount of $89,070.00 for grounds maintenance services in various parks, greenways and facilities in the central and west one districts in Asheville in the cumulative amount of $178,140.00; and (2) Exercise the option to renew the contract for one additional twelve-month period based on the contractor's satisfactory performance and available budget.

The Parks and Recreation Department (Department) contracts for ground maintenance services in various parks, greenways and facilities in the City's park system. The City entered into a one-year contract with Landmark Carolina, Inc. in FY 2016-17 in the amount of $89,070.00 for ground maintenance service in the central and west one districts with the option to renew for two twelve-month periods based on contractor performance. By electing to exercise the second year in the amount of $89,070.00 increases the cumulative amount of the contract to $178,140.00, an amount which requires City Council consideration and approval.

Pro:
- Supports the efficient delivery of core park maintenance services.

Con:
- None

The $89,070.00 funding required to support this ground maintenance contract is budgeted in the FY 2017-2018 Department operating budget as part of the Parks Maintenance division budget.

Staff recommends City Council to adopt a resolution authorizing the City Manager to: (1) Exercise the second-year option to renew the contract with Landmark Carolina, Inc. in the amount of $89,070.00 for grounds maintenance services in various parks, greenways and facilities in the central and west one districts in Asheville in the cumulative amount of $178,140.00; and (2) Exercise the option to renew the contract for one additional twelve-month period based on the contractor's satisfactory performance and available budget.

RESOLUTION BOOK NO. 39 - PAGE 3

E. RESOLUTION NO. 17-129 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY AN EASEMENT TO DUKE ENERGY PROGRESS INC. OVER A PORTION OF CITY-OWNED PROPERTY ON HIAWASSEE STREET

Summary: The consideration of a resolution authorizing the City Manager to convey an easement to Duke Energy Progress, Inc. over a portion of City-owned property on Hiawassee Street.

The City of Asheville owns real property at PIN # 9649312536 and it is a small vacant parcel consisting of .03 acres, located between Hiawassee Street and Interstate 240. There are no improvements on the site. It is adjacent to a small condominium complex and is across from the side entrance of the U.S. Cellular Center. The manager of the U.S. Cellular Center has been consulted and he has no plans to use this small parcel and does not object to the easement.

Duke Energy is replacing transmission lines between the West Asheville and the Vanderbilt Substation. At this location, the work involves moving an existing pole approximately 8 feet in a westerly direction. Since Duke is relocating an existing pole, no compensation is being offered for this request. These upgrades are being done in order to improve reliability to the Downtown Asheville community.

The easement area being requested covers an area around the new pole for a total square footage of 0.024 acres. This represents a total of 1,045.44 square feet of permanent easement being requested.

Pros:

- Granting of the easement will allow Duke Energy to upgrade power infrastructure to provide improved service to the Downtown Asheville neighborhood.
- Granting of the easement in no way affects existing operations or parking at the US Cellular Center.

Con:

- None Noted.

Duke Energy Progress is offering no compensation for this easement because they are moving an existing power pole less than 10 feet.

City staff recommends City Council approve a resolution authorizing the City Manager to convey a 1,045.44 square foot easement over a portion of City-owned property at Hiawassee Street to Duke Energy Progress, Inc.

RESOLUTION BOOK NO. 39 - PAGE 4

F. RESOLUTION NO. 17-130 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE TERMS OF THE CURRENT AGREEMENT WITH PARK RIDGE HEALTH TO PROVIDE ANNUAL PHYSICAL EXAMINATIONS FOR FIREFIGHTERS IN FISCAL YEAR 2017-18

Summary: The consideration of a resolution authorizing the City Manager to amend the terms of the current agreement with Park Ridge Health to provide annual physical examinations for firefighters in FY 2017 – 2018 in the amount of $77,125.

This agreement allows firefighters to receive required annual physical examinations in accordance with standards set forth by the National Fire Protection Association. The current agreement, executed and amended in FY 2016 – 2017, allows for 275 physical examinations to be performed by Park Ridge Health for a total of $63,750 and ends on June 30, 2017. The new agreement is a renewal that extends the contract of 275 physical examinations for one year to June 30, 2018 and includes x-rays for 130 firefighters. The new agreement amount will be $77,125. Due to the amount of the total contract over its lifetime, $140,875, Council approval is required.

Prior to entering the original contract with Park Ridge Health, similar organizations were solicited to provide estimates of their services. SiteMed, which held the contract previously, did not provide the organizational efficiency needed to examine 275 firefighters throughout the course of the year. The costs of Mission Hospital's services were prohibitive. Thus, the services and costs of Park Ridge Health best fit the mission of Asheville Fire Department's desire to provide its firefighters with the best care to meet and exceed health standards while controlling costs. A review of the costs, operational efficiencies, and satisfaction of the firefighters with the services, factored into making the determination to renew the agreement with Park Ridge Health.

This will be heard at the June 27th Finance Committee meeting. If there is not a unanimous vote this will be brought to the attention of Council at June 27th Council meeting.

Pros:

- Meets best practices for the industry by complying with consensus standards of NFPA 1582 that will reduce risks and provide for the health, safety, and effectiveness of firefighters
- Allows for the continued medical monitoring and testing of firefighters to ensure they are fit for the challenges of emergency response
- Allows the City to begin the practice of providing initial baseline x-rays and subsequently repeated every five years to help control preventable risks to the City's firefighters

Con:

- None Identified.

All funds for the physicals and x-rays have been assigned in the adopted FY 2017 – 2018 budget, thus there are no additional impacts.

Staff recommends City Council adopt a resolution authorizing the City Manager to amend the terms of the contract with Park Ridge Health to provide annual physical examinations for firefighters in FY 2017 – 2018 in the amount of $77,125.

RESOLUTION BOOK NO. 39 - PAGE 5

G. RESOLUTION NO. 17-131 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF GRANTED, ACCEPT, COMMUNITY IMPACT GRANT FUNDS FROM THE DUKE ENERGY FOUNDATION FOR THE PURPOSE OF INSTALLING THREE SOLAR TREES ON CITY PROPERTY

Summary: The consideration of a resolution authorizing the City Manager to apply for, and if granted, accept, Community Community Impact grant funds from the Duke Energy Foundation for the purpose of installing three solar trees on City property.

The Office of Sustainability applied for grant funds from Duke Energy Foundation's Community Impact Grant to support the following City resolutions:

- Resolution 11-77, Establishing a 4% CO_2 Reduction Goal
- Resolution 13-228, Supporting Clean Energy Economy – Duke Partnership
- Resolution 15-200, Adopting a Community Clean Energy Policy Framework
- Resolution 16-64, Establishing the Energy Innovation Task Force

The Community Impact Grant is designed to support philanthropic programs and initiatives that provide access to and encourage appreciation of arts and culture. Additionally, the Community Impact Grant supports strategic community initiatives that address specific needs within a region. This grant was by invitation only, and the City received an invite to apply in late May. The grant application deadline was May 31st.

The City applied for the grant with the purpose of receiving funding to install three (3) solar trees. These solar installations are unlike other solar applications in the sense that they are uniquely artistic and provide the opportunity to offer public amenities, such as space creation, shelter from elements, and power outlets to charge electronics. Solar trees will promote City resolutions by creating visible clean energy generation. Electricity generated by the solar trees can be routed back to the grid or can be used to power City facilities, such as the Pack Square Park Pavilion. The City requested $200,000 to fund the purchase of the solar trees and their installation.

This will be heard at the June 27 Finance Committee meeting. If there is not a unanimous vote this will be brought to the attention of Council at the June 27 meeting.

Pros:

- Foster space creation on City property
- Provide public amenities
- Promote Asheville's unique arts-driven culture through creative and functional installations
- Support City resolutions to reduce carbon emissions and promote clean energy while leveraging Duke Energy Foundation funding
- Advance sustainable tourism and renewable energy education through visible solar energy applications

Con:

- None identified at this time.

As noted above, the total cost of the project is estimated to be $200,000 with the grant covering 100% of the cost. The final grant award cannot be determined at this time.

City staff recommends City Council authorize the City Manager to apply for and if granted, accept, all grant funds awarded from the Duke Energy Foundation for the purpose of installing three solar trees on City property.

RESOLUTION BOOK NO. 39 - PAGE 6

H. ORDINANCE NO. 4591 - BUDGET AMENDMENT TO INVEST IN ENERGY EFFICIENCY IMPROVEMENTS TO THE CIVIC CENTER PARKING DECK

Summary: The consideration of a budget amendment in the Parking Services Capital Fund in the amount of $155,663 to invest in energy efficiency improvements to the Civic Center Parking Deck.

The City of Asheville's Office of Sustainability and Parking Services staff examined the opportunity to work with the City's utility provider, Duke Energy Progress (DEP), to explore opportunities to utilize DEP's Small Business Energy Saver Program around energy efficiency. The scope of work includes upgrading the Civic Center Parking Deck to LED lighting; prebuilt with daylight sensors.

Additionally, the upgrade will yield an estimated $27,413 in annual energy savings and eliminate annual maintenance in the amount of $8,000.00. In terms of carbon reductions, the project will yield 277 MTCO2e – 1% of the annual 4% carbon reduction goal the City has adopted.

Pros:

- Supports Resolution No. 11-77, reducing the City's municipal carbon footprint
- Improves visibility and safety within the parking deck
- Reduces external lighting impact, increasing compliance with the City's outdoor lighting standards
- Decreases lighting impact on residential occupancies
- Leverages a DEP incentive which contributes to 34% of the total project cost

Con:

- None identified.

As noted above the total cost of the project is $155,663, with funding utilized from the Green Revolving Fund in the amount of $100,000 and Parking Services Operating Fund in the amount of $55,663. Once complete, the upgrade will produce an estimated $27,413 savings on energy per year and an $8,000 savings on maintenance.

Staff recommends City Council adopt a budget amendment allowing for the Civic Center Parking Deck energy efficiency improvements.

When Councilwoman Mayfield asked if we are looking at making energy efficiency improvements to any of the other parking decks, Transportation Director Ken Putnam said that the others have already been improved.

ORDINANCE BOOK NO. 31 - PAGE 240

I. **RESOLUTION NO. 17-132 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE INGLES INDEPENDENCE CELEBRATION**

RESOLUTION NO. 17-133 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ACSC PLAYOFF GAME

RESOLUTION NO. 17-134 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE 14 RIVERSIDE DRIVE OPENING PARTY

RESOLUTION NO. 17-135 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE VEGFEST

RESOLUTION NO. 17-136 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE AIA ASHEVILLE DESIGN AWARDS GALA

Summary: The consideration of resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Ingles Independence Day Celebration, ACSC Playoff Game, 14 Riverside Drive Opening Party, Asheville VegFest, and the AIA Asheville Design Awards Gala.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Ingles Independence Day Celebration and allow for consumption at this event.

  The Ingles Independence Day Celebration will be held on Tuesday, July 4, 2017 from 2:00 p.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the ACSC Playoff Game and allow for consumption at the event.

  The ACSC Playoff Game will be held on Tuesday, July 11, 2017 from 6:00 p.m. – 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- Asheville Chamber of Commerce has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the 14 Riverside Drive Opening Party and allow for consumption at this event.

  The 14 Riverside Drive Opening Party will be held on Friday, July 21, 2017 from 3:00 p.m. to 7:00 p.m. within the boundaries of 14 Riverside Drive as per the area limits referenced on the accompanying site map.

- Asheville Vegan Society has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville VegFest and allow for consumption at this event.

  Asheville VegFest will be held on Sunday, September 3, 2017 from 10:00 a.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- AIA Asheville has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the AIA Asheville Design Awards Gala and allow for consumption at this event.

  AIA Asheville Design Awards Gala will be held on Thursday, September 7, 2017 from 7:00 p.m. to 9:30 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for the Asheville Downtown Association, Asheville Brewers Alliance, Asheville Chamber of Commerce, Asheville Vegan Society, and AIA Asheville

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve resolutions making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Ingles Independence Day Celebration, ACSC Playoff Game, 14 Riverside Drive Opening Party, Asheville VegFest, and the AIA Asheville Design Awards Gala.

RESOLUTION NO. 17-136 - RESOLUTION BOOK NO. 39- PAGE 19

J. RESOLUTION NO. 17-144 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR THE SALE OF 0.02 ACRES OF REAL PROPERTY LOCATED AT 11 MARTIN LUTHER KING JR. DRIVE TO ETHELYN MORGAN AND CLARENCE HOLCOMB

Summary: The consideration of a resolution directing the City Clerk to advertise for upset bids for the sale of 0.02 acres (approximately 871.2 square feet) of real property located at 11 Martin Luther King, Jr. Drive to Ethelyn Morgan and Clarence Holcomb.

The City of Asheville owns a remnant parcel of property located at 11 Martin Luther King Jr. Drive (PIN # 964858350400000). The property was transferred from the Housing Authority to the City of Asheville in 1995 as a disposal parcel after the Urban Renewal program concluded.

This lot is unbuildable due to the small size and shape of this parcel, and it would appear that it is a remnant of the right-of-way of Martin Luther King Drive. Behind the remnant is a parcel with a structure whose pin is 964858357300000. This parcel measures .13 acres and it is owned by the heirs of Betty Lou Parker. There was a fire in the residence and it is currently uninhabitable. The original homeowner was unaware that this remnant belonged to the City of Asheville and had been maintaining it. Her heirs only learned that the parcel was landlocked during a title search. The elderly owner has passed away and her heirs are attempting to sell the property. There is currently a driveway that has been in use for many years, and it crosses this remnant owned by the City. The owners of the property approached the City with an offer to buy the land for $300.00. There are few comparables in the area for this type of property. The property is only of value to the owner of the parcel directly behind it at 11 Martin Luther King Drive, in order to insure access.

The Community Development office has been consulted and recommends that this Urban Renewal remnant be designated as surplus and thus eligible to be sold. It has been determined that the best use of this property would be to return it to the heirs of Betty Lou Parker who owned the parcel in 1995. They are recommending that it be sold to them for $300.00.

The method chosen to establish fair market value is the upset bid process set forth in NCGS 160A-269. If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the bid of $300. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $330 or higher). Since the function of the upset bid process is to confirm fair market value, the resolution provides that if no qualifying, competing bid is received, then the City Council agrees to convey the parcel to Ethelyn Morgan and Clarence Holcomb for $300.

Pro:

- Private sale will convert public land into taxable real property and will relieve the City of Asheville of any maintenance responsibility.

Con:

- None noted.

Because this property is associated with Federal Funds via Urban Renewal, the financial proceeds are to benefit the Community Development Block Grant fund.

City staff recommends City Council adopt a resolution directing the City Clerk to advertise for upset bids for a property located at 11 Martin Luther King Drive.

RESOLUTION BOOK NO. 39 - PAGE 31

K. RESOLUTION NO. 17-140 - RESOLUTION AUTHORIZING EXECUTION OF AN INSTALLMENT FINANCING CONTRACT FOR FISCAL YEAR 2017 CAPITAL IMPROVEMENT PROGRAM VEHICLES AND OTHER EQUIPMENT

Summary: The consideration of a resolution authorizing execution of an installment financing contract for Fiscal Year (FY) 2017 Capital Improvement Program (CIP) Vehicles and Other Equipment in an amount not to exceed $4,350,000.

Appropriations for FY 2017 include $4,350,000 for various vehicles, computer equipment and fire department equipment with the capital expenditures financed through debt proceeds.

On May 22, 2017, the City distributed a Request for Proposal ("RFP") seeking competitive bids for the financing to selected financing partners willing to take a UCC filing for the

security of the financing. Five proposals were received, the most favorable of which was submitted by Regions Capital Advantage, Inc (the "Bank") at an interest rate of 1.62% per annum for a term of 48 months (computer equipment) and 1.70% per annum for a term of 59 months (vehicles).

The proposed resolution authorizes an installment financing contract between the City of Asheville and the Bank for the purchase of the vehicles and computer equipment and it authorizes the City Manager, City Attorney, Finance Director and City Clerk to execute and deliver any and all necessary documents. The contract will place a security interest in the vehicles and computer equipment in favor of the Bank in order to secure the City's obligation under the contract. Pursuant to a previously adopted reimbursement resolution, proceeds from this financing contract will allow the City to reimburse itself for the cost of the vehicles and computer equipment which have already been procured.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over several years of the useful life of the asset.
- Reimbursing this capital purchase with the proceeds of the financing, as opposed to paying for the purchase by using the City's available cash balances, increases currently available funds through restoration of fund balance.
- The financing conforms to the approved Financing Plan for capital expenditures.

Con:

- Financing the purchase increases nominally the lifetime cost of the acquisition due to the payment of interest and closing costs on the amount financed.

The annual debt service payments for this financing range between approximately $949,000 in the first year and approximately $819,000 in the fifth year. Funds are included in the City's FY 2017-18 proposed debt service budget to cover this cost.

City staff recommends that City Council adopt the resolution authorizing the City Manager to execute an installment purchase contract and closing process with Regions Capital Advantage, Inc. for the acquisition of the vehicles and computer equipment.

RESOLUTION BOOK NO. 39 - PAGE 25

L. RESOLUTION NO. 17-141 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A LEASE AGREEMENT WITH BEVERLY-GRANT/BARNHILL TO USE FOR 314 RIVERSIDE DRIVE AS CONSTRUCTION JOB OFFICES DURING THE CONSTRUCTION OF TIGER VI PROJECTS

Summary: The consideration of a resolution authorizing the City Manager to execute a lease agreement between the City of Asheville (City) and Beverly-Grant/Barnhill Contractors (BGB) for an office/storage/warehouse site located at 314 Riverside Drive (formerly Stewart Plumbing) for the RADTIP Construction offices.

In 2016, the City acquired the property and improvements at 314 Riverside Drive as a part of the River Arts Improvement Project (RADTIP). Although the project will significantly impact access to the property and the area used for vehicle storage, the office and warehouse space will remain intact without demolition. The City sought to find a use that would benefit the City while finding a useful purpose for these improvements in the short term. The City's Capital Projects Department indicated that the construction managers at risk (BGB) would be able to use the site as the RADTIP project headquarters. The property identified as PIN #9638-89-4390, has 0.65 acres of land and two structures. Improvements consist of one, two story structure that has 1,656

square feet and has been used for office space. The warehouse consists of 4,550 square feet and has a loading dock and storage. BGB has indicated that this is suitable space and they are willing to make repairs identified by the Fire Marshall to bring the structures up to code. This includes but is not limited to moving electrical boxes for accessibility, labeling handicapped parking spots, securing rear doors and so forth.

Real Estate has been working with Legal and Capital Projects to craft a workable lease. Capital Projects will monitor lease compliance after it has been executed. The tenant will be responsible for the maintenance of the facility and the City requires the tenant to have adequate insurance. The lease term is 39 months beginning July 1st of 2017 and there will be a lease renewal option for an additional six months. The rental rate is negligible ($5.00 per year) and this in-kind service to BGB will be realized as cost savings within the construction contract for RADTIP.

Pros:

- Lessor will be able to provide office and warehouse space in the project area to BGB at no additional cost to the City.
- Lessee will be responsible for all maintenance of the facility during the lease term.

Con:

- None.

The finalization of this lease will allow the City to provide working space for BGB and their contractors without additional costs that would normally be borne by the City via the construction contract.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a lease agreement with BGB for them to use this site during construction of the RADTIP improvements.

RESOLUTION BOOK NO. 39 - PAGE 27

M. RESOLUTION NO. 17-142 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE METROPOLITAN PLANNING PROGRAM, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grant administration and reporting activities, short range and long range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Projects Coordinator position (90% of the grant) and a portion of the Transportation Planning Manager position (the remaining 10%) for time spent on transit planning.

This funding makes possible to have dedicated staff developing and engaging in complex processes such as the transit master plan implementation, route changes, and to develop programs required by the Federal Transit Administration for recipient and sub-recipients to ensure compliance with federal regulations.

FY 2017-18 funding totals $75,000. The subject grant will provide 80% of the anticipated funding ($60,000), the North Carolina Department of Transportation will provide 10% ($7,500), and the City will provide the remaining 10% ($7,500). The grant funding and the City's local match in the amount of $7,500 are currently budgeted in the Transportation Department's approved operating budget for the current fiscal year.

Pros:

- Supplements funding for two existing positions.
- Enables the City of Asheville to use $67,500 in Federal and State funds for transit planning activities.

Con:

- A 10% local match in the amount of $7,500 is required.

The total grant funding for Fiscal Year 2017-18 is $75,000. The City is required to provide a 10% local match in the amount of $7,500. The anticipated grant funding and the City's local match in the amount of $7,500 are currently budgeted in the Transportation Department's operating budget.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2017-18.

RESOLUTION BOOK NO. 39 - PAGE 28

N. RESOLUTION NO. 17-143 - RESOLUTION IN SUPPORT OF HOUSE BILL 185 AND SENATE BILL 648, AND ENCOURAGING THE NORTH CAROLINA LEGISLATURE TO ENACT LEGISLATION THAT WOULD LEGALIZE THE USE OF CANNABIS FOR MEDICAL PURPOSES

Summary: The City Council hereby encourage the North Carolina State Legislature to take immediate action to approve Comprehensive Medical Cannabis legislation, in order to ensure our City and State residents are receiving the most effective medical therapies possible, which includes the use of medical cannabis.

The following individuals spoke in support of the resolution, with some providing personal stories, for various reasons, noting that it will make it possible for a healthier and brighter future for some:

Todd Stimson
Timothy Sadler
Ms. Bowers
Ms. Williams
Milton Byrd
Aaron Clark
Taylon Breeden
Andrew Fletcher
Joshua Schaffer
Gregory Witts
Lindsay Witts
Jennifer Evans
Terri Boyd
Douglas Jones
Two gentlemen

Councilman Bothwell noted that Dr. Ron Paulus, CEO of Mission Hospitals, has said the only way we are going to cure the opiate epidemic is to replace opiate with cannabis.

Mayor Manheimer thanked Mr. Stimson for bringing this resolution to the attention of City Council. She said there is pending legislation to make this legal. Since cities don't have the authority to legalize medical cannabis, this is the only way for Council to show support for this legislation.

RESOLUTION BOOK NO. 39 - PAGE 39

O. DESIGNATION OF ACTING CITY MANAGER

Mayor Manheimer said that City Manager Gary Jackson provided the following written statement to City Clerk Burleson on June 23, 2017: "I will be out of the office from June 24, 2017 until June 30, 2017. By this email, for the time that I am absent, I am designating Assistant City Manager, Cathy Ball, to serve as Acting City Manager, and during that time, Cathy Ball is authorized by me to exercise my powers, and to perform any and all of my duties as City Manager, and I hereby delegate the same to her. This designation will terminate upon my return on July 1, 2017. Gary" Pursuant to N. C. Gen. Stat. sec. 160A-149, " By letter filed with the city clerk, the manager may designate, subject to the approval of the council, a qualified person to exercise the powers and perform the duties of manager during his temporary absence or disability. During this absence or disability, the council may revoke that designation at any time and appoint another to serve until the manager returns or his disability ceases."

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ANNUAL STATE OF THE AIRPORT ADDRESS

Airport Executive Director Lew Bleiweis updated the City of Asheville on the State of the Airport.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 175 LYMAN STREET FROM RIVER DISTRICT TO MIXED USE EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 133 RESIDENTIAL UNITS, COMMERCIAL SPACE, RESTAURANT IN 5 BUILDINGS AND A PARKING STRUCTURE

Councilman Bothwell moved to continue this public hearing until July 25, 2017. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CHANGING THE NAME OF HILLCREST DRIVE TO LUNA LANE

RESOLUTION NO. 17-145 - RESOLUTION TO CHANGE THE NAME OF HILLCREST DRIVE TO LUNA LANE

Mr. Stuart Rohrbaugh, Emergency Address Coordinator, said that this is the consideration of a resolution accepting the street name change from "Hillcrest Drive" to "Luna Lane." This public hearing was advertised on June 17, 2017.

The duplication of street names has the potential for misdirection or miscommunication, which can hinder the response of emergency services. The map shows the street segment with the duplicated name "Hillcrest." The street is currently a City maintained street. Changes to existing public street names shall be approved through a resolution of the City Council following a public hearing.

The Public Safety Committee reviewed the renaming request at their April 24, 2017, meeting and recommended Hillcrest Drive be renamed if the majority of the property owners could agree on a new street name. A super majority of the property owners have agreed and petitioned the City of Asheville to rename the street to "Luna Lane."

Buncombe County Emergency Services Department, Buncombe County Planning Department Director, City of Asheville Traffic Engineering Division, and Asheville and Police Fire Departments have confirmed that Luna Lane will not duplicate another street name elsewhere in Buncombe County or impair the delivery of municipal or emergency services.

Notice of the public hearing has been posted prominently at a minimum of two places on the street and notice was published at least once in a newspaper of general circulation.

Pro:

- Potential emergency response will be enhanced with a unique street name.

Con:

- Cost and labor of replacing two street name signs.

The cost to re-install new street name sign blades to the existing poles are about $100 each and is included in the current operating budget for the Transportation Department.

Staff recommends City Council adopt a resolution accepting a street name change from "Hillcrest Drive" to "Luna Lane."

Mayor Manheimer opened the public hearing at 5:55 p.m., and when no one spoke, she closed the public hearing at 5:55 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 17-145. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 32

C. PUBLIC HEARING TO CONSIDER CHANGING THE SPELLING OF KITCHEN PLACE TO KITCHIN PLACE

RESOLUTION NO. 17-146 - RESOLUTION TO CHANGE THE SPELLING OF KITCHEN PLACE TO KITCHIN PLACE

Mr. Stuart Rohrbaugh, Emergency Address Coordinator, said that this is the consideration of a resolution accepting the street name change spelling from "Kitchen Place" to "Kitchin Place". This public hearing was advertised on June 16, 2017.

Many of the property owners and businesses have spelled the name after the family name "Kitchin." The City's E911 database, the City's currently displayed street name signs show the street segment with the spelling of "Kitchen." The property owners brought the street name spelling to staff's attention and petitioned the City to rename the street to "Kitchin Place." The street is currently a City maintained street. Changes to an existing public street name shall be approved through a resolution of the City Council subsequent to a public hearing.

The Public Safety Committee reviewed the renaming request at their April 24, 2017, meeting and recommended Kitchen Place be renamed with the spelling of "Kitchin Place."

Buncombe County Emergency Services Department, Buncombe County Planning Department Director, City of Asheville Traffic Engineering Division, and Asheville and Police Fire Departments have confirmed that Kitchin Place will not duplicate another street name elsewhere in Buncombe County or impair the delivery of municipal or emergency services.

Notice of the public hearing has been posted prominently at a minimum of two places on the street and notice was published at least once in a newspaper of general circulation.

Pro:

- Potential emergency response will be enhanced with a consistent street spelling.

Con:

- Cost and labor of replacing two street name signs.

The cost to re-install new street name sign blades to the existing poles are about $100 each and is included in the current operating budget for the Transportation Department.

Staff recommends City Council adopt a resolution accepting the street name change spelling from "Kitchen Place" to "Kitchin Place."

Mayor Manheimer opened the public hearing at 5:59 p.m., and when no one spoke, she closed the public hearing at 5:59 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 17-146. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 34

D. PUBLIC HEARING TO CONSIDER AN ECONOMIC DEVELOPMENT GRANT TO RIVERBEND MALT HOUSE

RESOLUTION NO. 17-147 - RESOLUTION GRANTING AN ECONOMIC DEVELOPMENT GRANT TO RIVERBEND MALT HOUSE

Director of Community & Economic Development Sam Powers said that this is the consideration of a resolution to grant an economic development grant to Riverbend Malt House. This public hearing was advertised on June 16, 2017.

City of Asheville has been requested by Asheville-Buncombe EDC for consideration of a performance based incentive grant under the City Economic Development policy to an existing manufacturing company, Riverbend Malt House.

Riverbend Malt House makes high quality, locally sourced craft malt for the craft beer and craft distilling industries. The company has existed since 2010 and based upon customer demand is now poised to expand significantly. Riverbend Malt House has noted in their request for consideration that a critical part of their mission and business model is to source grain (barley, rye, wheat) from local farmers, and to pay substantially higher prices than those farmers are able to get from selling grain for other uses. Further they stated that "purchasing locally sourced malt from Riverbend means that local breweries/distilleries are reducing the amount of malt which needs to be trucked in from thousands of miles away; this reduces transportation related carbon emissions".

The purpose of the City's participation would be to induce Riverbend Malt House to make investments in the City for expenditures to acquire and install machinery/equipment, make facility improvements which increase the tax value as determined by the Buncombe County Tax Department in the amount of $9,500,000, and create 22 quality jobs within four years; at least 5 of these will be hired in 2017. Riverbend is committed as a compensation strategy to always paying above living wage levels.

The City of Asheville is considering offering a performance based grant in an amount not to exceed $95,000. North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

Pros:

- Performance driven grant that is distributed after job and investment is achieved or mutually agreed performance bench marks are established;
- Supports job creation and capital investment in Asheville;
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of a portion of the new incremental increase from property tax revenue generated by the project for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive 50% of the new incremental property tax revenues, as well as the existing property tax revenues from the project. After the grant period of 5 years, the City will henceforth receive 100% capture of all city taxes.

City staff recommends Council approve a resolution authorizing a performance based economic development incentive grant agreement to support Riverbend Malt House, in an amount not to exceed $95,000 over a five year grant agreement.

Mr. Scott Hickman, CEO of Riverbend Malt House, explained their request and asked City Council for their support of the resolution.

Mayor Manheimer opened the public hearing at 6:06 p.m., and when no one spoke, she closed the public hearing at 6:06 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 17-147. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 36

E. PUBLIC HEARING TO CONSIDER A VOLUNTARY ANNEXATION OF PROPERTY AT 421 AIRPORT ROAD

ORDINANCE NO. 4593 - ORDINANCE TO EXTEND THE CORPORATE LIMITS OF THE CITY OF ASHEVILLE TO PROPERTY AT 421 AIRPORT ROAD

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to extend the corporate limits of the City of Asheville to property at 421 Airport Road. This public hearing was advertised on June 16, 2017.

The property owner, MPG Kernersville LLC, has petitioned the City of Asheville for the annexation of 1.26 acres located at 421 Airport Road and identified in the Buncombe County tax records as PIN 9643-85-0724. The property is currently under construction for a commercial building, under permits issued by Buncombe County. The property is contiguous to the primary corporate limits and qualifies for annexation by petition as set forth in North Carolina General Statutes (NCGS) 160A-31 and N.C. General Assembly Session Law 2005-139.

Pursuant to NCGS 160A-31, a public hearing must be held prior to adopting an ordinance for voluntary annexation. If City Council decides to proceed with this request, the effective date for the annexation would be June 27, 2017.

Considerations:

- Provides for the orderly growth of the City and the tax base through the acceptance of appropriate areas into the corporate limits where owners desire annexation.
- Complies with the 2025 Comprehensive Plan in that it supports the strategy of promoting voluntary annexations of developing areas.

This request includes the voluntary annexation of 1.26 acres of commercial property into the City which will provide new property tax revenue with only a very small increase to services. There is a commercial restaurant project under construction which, at completion, would generate approximately $6,000-7,000 in city property tax based on comparable commercial properties in the city.

City staff recommends that City Council adopt the ordinance annexing the property at 421 Airport Road.

Mayor Manheimer opened the public hearing at 6:09 p.m., and when no one spoke, she closed the public hearing at 6:09 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to adopt Ordinance No. 4593. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 244

F. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 28 FORSYTHE STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL USE ZONING TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING FOR THE PURPOSE OF ADJUSTING PROPERTY LINES AND OTHER MINOR SITE PLAN CHANGES

ORDINANCE NO. 4594 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT AT 28 FORSYTHE STREET FROM RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL USE ZONING TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING FOR THE PURPOSE OF ADJUSTING PROPERTY LINES AND OTHER MINOR SITE PLAN CHANGES

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to conditionally zone property located at 28 Forsythe Street from RM-16 Residential Multi-Family High Density District/Conditional Use Zoning to RM-16 Residential Multi-Family High Density District/Conditional Zoning for the purpose of adjusting property lines and other minor site plan changes. This public hearing was advertised on June 16 and 23, 2017.

The project consists of a single .32 acre through-lot with frontage on Forsythe St. and West St. in the Five Points neighborhood. The PIN for the property is 9649-24-2315 and the property owner is Ellen and Mary Ellen Bethel.

The property received a Conditional Use Rezoning in July of 2004 (Ord. No. 3138) to allow for the conversion of a small neighborhood church into a four unit, multi-family structure. A multi-family structure would not normally have been allowed in the previous RS-8 zoning designation and, in order to support the adaptive reuse of the existing church structure, the property was rezoned to RM-16 CUZ.

This newest request primarily seeks to recombine a very small portion (approximately 280 square feet) of the subject property with the single family residential property to the north. The properties had, at one time, shared a driveway that no longer serves the multi-family structure and the driveway currently straddles the property line. The adjacent property owner is seeking to acquire the portion of the CUZ property that supports the driveway so that the entire driveway may be located on the property of the single family home. To achieve this recombination, the side property line will move closer to the northern edge of the multi-family structure and create a side setback that measures 4.5 - 5.0 feet along the northern side of the building.

While the slight adjustment to the property line is minor, the 4.5 - 5.0 setback along the building face becomes a nonconformity in the RM16 zoning district where a minimum six foot setback is normally required. As a result, this change could not be approved administratively and will require either an amendment to the original Conditional ***Use*** Zoning or a new Conditional Zoning application. Because the conditional zoning process allows for customizable conditions agreed to by both the property owner and City Council, and is consistent with the current format found in the UDO, it is the preferable way to move forward with this request.

Both the subject property and the adjacent residential property face, and have primary access from, Forsythe St which also has an existing sidewalk. The subject property also has three secondary access points (driveways) on West St. behind the building. No changes to access are proposed.

The original 2004 CUZ referred to seven off-street parking spaces to be improved to accommodate the new multi-family use. According to information supplied by the applicant, off-street parking had been established and was accessed from an existing driveway on West St. The driveway remains in place, however, access has been blocked by the existing bamboo screening. The current tenants do not utilize the off-street parking area and the gravel has become naturally re-vegetated over time.

Open space is provided as originally approved and no changes are proposed. The 2004 CUZ included the addition of some perimeter landscaping intended to help screen the parking area. The open space/parking area is currently screened with a semi-opaque bamboo fence

along with some evergreen and deciduous tree and shrubs and no changes to the landscape are proposed.

This conditional zoning was approved by the Technical Review Committee (TRC) on May 15, 2017 and requires review by the Planning and Zoning Commission, City Council and Final TRC prior to zoning permits being issued.

The Planning & Zoning Commission reviewed this request at their meeting on June 7, 2017, and voted 5-0 in support of the proposed request. One member of the public spoke expressing concern regarding the parking conditions in the neighborhood.

A former owner successfully rezoned the property in 2004 from RS-8 to RM-16 CUZ to allow for the adaptive reuse and conversion of the old church building into four multi-family units. The current CZ application (same underlying zoning designation) is primarily for the purpose of adjusting a property line. Additionally, reconsideration of the off-street parking requirement is also being requested. No new development or site improvements are proposed.

A condition that the subject property be developed in accordance with the submitted site plan and elevations were part of the original order. The only deviation from the original plan is the change to the property line and the abandoned off-street parking. All other conditions appear to have been met. As an alternative to providing off-street parking, a condition that requires that the West. St. driveway be maintained to provide access to up to seven off-street parking spaces is proposed so that parking may be added in the future as desired.

The conditional use zoning for 28 Forsythe St. was approved on July 13, 2004. More recent zoning actions in the area have included the rezoning of a small portion of property located at the intersection of Broadway St. and Magnolia Ave., and the conditional zoning for the Greater Works Church (RS8-CZ) is located across the street at 25 Forsythe St.

The subject property is surrounded by RS8 zoning which is intended to support moderately dense, single family living and other non-residential uses intended to support the residential community (i.e. places of worship, schools, community centers, etc.). The existing structure had once been a small community church and is in keeping with the character of the neighborhood which includes single family homes and the Greater Works Church across the street.

As identified in the previous report, the Asheville City Development Plan 2025 highlights the importance of smart growth and very specifically identifies the need for, and value of, infill housing on vacant or underdeveloped properties and adaptive reuse. The former CUZ request to adaptively reuse an abandoned church structure for housing is re-affirmed in the current CZ application.

Considerations:

- No new development or site improvements are proposed.
- Adjusting the property line will create a setback nonconformity to be addressed as a condition, should the application be approved.
- Adjusting the property line resolves questions over ownership and use of the existing driveway.
- The Five Points neighborhood has a historical development pattern of providing limited off-street parking, resulting in competition for on-street parking spaces.
- The subject property has the ability to provide off-street parking through an existing driveway on West St.

Based on policies stated in the Comprehensive Plan and other plans staff finds this request to be reasonable, and within the best public interest, and recommends support of the proposed conditional zoning as proposed.

Mayor Manheimer opened the public hearing at 6:15 p.m., and when no one spoke, she closed the public hearing at 6:15 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the Conditional Zoning request from Residential Multi-family, high density Conditional Use Zone (RM16-CUZ) to Residential Multi-family, high density Conditional Zone (RM16-CZ) to allow for a change in the property line and off-street parking requirements, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: 1) supports residential infill; 2) encourages the adaptive reuse of abandoned structures; and 3) resolves an existing property line issue. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 245

G. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING THE CHARTER TO PROVIDE FOR SIX SINGLE-MEMBER ELECTORAL DISTRICTS GOVERNING THE NOMINATION AND ELECTION OF CITY COUNCIL MEMBERS

Mayor Manheimer said that Council is following a statutory process for the City Council to place on the November ballot a referendum asking voters whether or not they would like to have City Council drawn into six City Council seats. There is a parallel process at the state legislature. The House took a vote on Senator Edwards bill and voted to amend it and then approve it. The legislation requiring Asheville to be drawn into six City Council seats is also making its way through the legislature. There was an objection to the third reading, so they will have to vote on it again. Because they changed the vote in the House, it will have to go back to the Senate for concurrence.

Assistant City Attorney Catherine Hofmann said that this is the consideration of an ordinance amending the Charter to provide for six single-member electoral districts governing the nomination and election of City Council members. This public hearing was advertised on June 16, 2017.

The City of Asheville Charter provides for the composition of the City Council, as well as the method used for electing Councilmembers and the Mayor. Currently, the Charter provides that the Council is comprised of six Councilmembers and a Mayor. All Councilmembers and the Mayor are elected by all qualified voters of the City (commonly referred to as an "at-large" method of election). N.C. Gen. Stat. §160A-102 allows the City Council to change the mode of election by ordinance, and also allows Council to provide that such an ordinance will only become effective "if approved by a vote of the people."

A bill ("SB 285") has been filed in the North Carolina General Assembly, which would require the City to amend the Charter to create six, single-member electoral districts, to govern the nomination and election of Councilmembers. The bill also requires that the qualified voters of each electoral district shall nominate and elect City Council candidates who reside in the district for the seat apportioned to that district. The Mayor would still be elected at-large. At this time, SB 285 provides that the City must create electoral districts to be used beginning with the 2019 municipal election and, if the City fails to create electoral districts within the time set forth in the bill, the General Assembly will establish electoral districts for the City.

The citizens of Asheville, through a poll, indicated that they would like the opportunity to vote on a proposal to change the mode of nominating and electing City Council members. At the

June 13, 2017, Council meeting, City Council began the process to enact such Charter amendments and to submit the same to a vote of the people by referendum at the November 2017 election. As explained at the June 13, 2017, Council meeting, the General Statutes set forth a statutory process that cities must follow when enacting Charter amendments which change the mode of electing City Council members, and to submit the same to a vote of the people by referendum. The statutes require action at a series of three Council meetings. Below is a summary of the steps Council must take at each Council meeting, as well as the date on which each meeting will be held, to allow Council to vote to approve the charter amendments prior to the current proposed deadline for Council to act in SB 285, and to place the ordinance on the ballot in November.

First Council Meeting (Step Completed at June 13, 2017, Council Meeting)	Adopted a resolution of intent to consider an ordinance amending the Charter and called a public hearing on June 27, 2017 on the proposed Charter amendments.
Second Council Meeting (June 27, 2017)	Hold a public hearing on the proposed Charter amendments.
Third Council Meeting (July 25, 2017)	Adopt an ordinance amending the Charter. If Council chooses to make that ordinance effective only upon a vote by the people, at the same meeting, adopt a resolution calling for an election on the referendum.

The action taken at the June 27 Council meeting will be the second step in the statutory process.

Conduct a public hearing to consider an ordinance amending the City of Asheville's Charter to provide for six electoral districts, governing the nomination and election of City Council members.

Mayor Manheimer said that from the floor debate today, several amendments were run. Representative John Ager ran an amendment that would allow the whole City to vote on a representative from each particular district, rather than just the voters for that district - the amendment failed. Representative Susan Fisher ran an amendment requiring that the referendum results be binding - the amendment failed. Representative Brian Turner ran an amendment requiring that an independent commission draw the districts and that City Council adopt the independent commission's results - the amendment passed. But, on the City's parallel track, we are following the statutory process which does not speak to an independent commission at all. In fact, we are not in a position to ask voters, via this referendum, whether they want an independent commission or not. Under the statutory process, City Council will need to make that final decision.

Councilman Bothwell also noted that the reason we are putting the idea of six districts on a ballot is because that is the plan the state is working on. For a referendum we need a specific plan. It doesn't mean that Council wants six districts, but that we want the people of Asheville to decide. We are not advocating for this.

Councilwoman Mayfield said that people should not mistake Council's vote in support of this to be in support of the actual concept of six districts.

Mayor Manheimer opened the public hearing at 6:23 p.m.

Mr. Vijay Kapoor was opposed to having districts. He thanked Council for putting this issue before the voters. He was unsure what the problem is that the state legislature is trying to solve.

Mayor Manheimer closed the public hearing at 6:26 p.m.

Mayor Manheimer said that at the Council's July 25, 2017, Council will consider adoption of an ordinance amending the Charter. If Council chooses to make that ordinance effective only upon a vote by the people, at the same meeting, Council with then need to adopt a resolution calling for an election on the referendum.

V. UNFINISHED BUSINESS:

A. **RESOLUTION NO. 17-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH BEVERLY-GRANT/BARNHILL JV FOR CONSTRUCTION OF THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT AND FIVE POINTS ROUNDABOUT PORTION OF THE TIGER VI PROJECTS**

RESOLUTION NO. NO. 17-138 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH SEPI ENGINEERING AND CONSTRUCTION FOR CONSTRUCTION INSPECTION AND MATERIAL TESTING SERVICES ON THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT AND FIVE POINTS ROUNDABOUT PORTION OF THE TIGER VI PROJECTS

RESOLUTION NO. 17-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH CDM SMITH ENGINEERING CO. FOR CONSTRUCTION ADMINISTRATION AND VALUE ENGINEERING SERVICES FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT AND FIVE POINTS ROUNDABOUT PORTION OF THE TIGER VI PROJECTS

ORDINANCE NO. 4592 - BUDGET AMENDMENT ASSOCIATED WITH THE TIGER VI SUITE OF PROJECTS WHICH INCLUDE BUT ARE NOT LIMITED TO UTILITY RELOCATION AND THE PURCHASE OF PROPERTY

Riverfront Redevelopment Coordinator Stephanie Monson-Dahl said that this is the consideration to adopt resolutions authorizing the City Manager to execute multiple contracts to implement a portion of the TIGER VI suite of projects, including: (a) Construction Manager at Risk (CMAR) contract amendment with Beverly-Grant, Inc./Barnhill a 50/50 Joint Venture for $27,065,150; (b) Inspection and material testing contract with SEPI Engineering and Construction for $854,841; (c) Construction administration and engineering contract amendment with CDM Smith for $928,275; (2) directing staff to work with Norfolk Southern to make changes to the scope of work within the existing construction agreement, to modify the northern railroad crossing to ensure safe bicycle accessibility through the at grade crossing; (3) a budget amendment in the amount of $6.0 million from debt proceeds, grant funding, and Enterprise Fund contributions to fully fund the contracts above and all of the remaining costs associated with the TIGER VI suite of projects which include but are not limited to utility relocation and the purchase of property; and (4) directing staff to commit to planning and community engagement efforts which will: (a) prioritize the future phasing of greenway projects; and (b) evaluate multimodal transportation alternatives associated with the south roadway improvement, including greenway widening.

The Wilma Dykeman Riverway Masterplan was officially adopted by City Council in 2004 and since that time has steadily progressed through the planning, public input and design stages. In June 2016 the project received a considerable boost when the City was obligated $14.6 Million in federal funds through the TIGER VI Discretionary Grant Program (FHWA) to aid in executing a portion of this plan.

Following the construction document design process for each of the six separate TIGER VI project elements, City staff worked with FHWA to develop a construction procurement strategy

that would ensure a solid understanding of construction costs for the entire project, rather than incrementally completing the individual sub-projects one at a time. It was felt that combining projects would produce the most efficiency and present a lower overall project cost. With the rapidly increasing construction cost index, the underlying intent of this strategy was to ensure that the budget was sufficient to complete all aspects of the project.

In December 2016, the City went through a public selection process to hire a Construction Manager at Risk (CMAR) for preconstruction services. Beverly, Grant/Barnhill was selected to help the City through pre-construction work including bidding, disadvantage business outreach, and advertising. Additionally the CMAR helped City staff to evaluate alternatives for bidding the project which would provide the project with the greatest flexibility in determining how to award the work in a difficult bidding environment. The City and CMAR worked to package and bid the entire project package as six separate construction projects in a manner that would allow transparency in construction costs, and to allow for flexibility in awarding portions of the work if construction costs exceeded the project budget.

After the projects were bid in May of 2017, it became apparent that the costs to construct all aspects of the TIGER VI projects were significantly more than the budget would support. Taking advantage of the flexibility that was built into the project bid, City staff was quickly able to propose modifications to the project that allow for the preservation of core vehicular, pedestrian, and bicycle transportation improvements. By focusing on these core project elements Asheville also presented a modification that provided the best potential to preserve Federal funding.

City staff quickly engaged with FHWA to discuss a modified scope of the TIGER VI project in a way that would preserve the $14.6 Million in federal funding, deliver the most critical portions of the program of work, and keep the final Guaranteed Maximum Price (GMP) within the TIGER VI budget proposed by the City Manager (as CIP cash flow) to Council in spring 2017. In June of 2017, FHWA approved a modified project scope and authorized the project with the notice to proceed for construction.

The project consists of 2.2 miles of greenway that provide healthy multimodal transportation options throughout the corridor. We will have 6 acres of open space that is clean and open to the public for free recreation. We will get 25 bicycle racks that help bicycles be conveniently and safety stored. There will be 120 spaces for cars, two new parking lots, and 40 new on-street parking spaces. In the ¼ mile of realigned Riverside Drive, a turn lane and other traffic improvements will help mitigate the most congested part of the River Arts District. Two acres of stormwater gardens and wetlands that improve water quality and provide a place for the community to learn about native habitats. There will be a mile of new underground storm sewer system that will help better drain dangerous roadway ponding. There will be 1.5 miles of sidewalk that will make it safer to get around and promote cleaner. Sixteen hundred, forty eight new trees which will be a net gain of 1,100 trees, plus over 2,500 bear root plantings along the riverbank and thousands of other plants that are used for landscaping. There will be 1.25 mile that has 5-foot wide separated bicycle lanes.

We could not be doing this without partnerships. North Carolina State University in providing the first mountain region experimental stormwater garden. We will partner with Bee City USA and GreenWorks on a pollinator garden. We will also partner with the Public Art & Cultural Commission to work on two projects funded through the City's Public Art Policy. They have worked with partners to develop four new river access points in the City. They are developing a wetland that will be a stormwater BMP including benches and seating areas so people can observe the natural environment of western North Carolina. City-property will be redeveloped with new sidewalks and a community plaza. There will also be a small plaza around the preserved smokestack part of the legacy of the Carolina Power & Light ownership and the City's legacy of buying the old Ice Plant building. Other partners are the EDA, TDA, Buncombe County, RiverLink and many other partners, including New Belgium Brewing. They have been working with Pigeon River Fund, RiverLink, Wildlife Resources Commission and private business

owners to clean the area up and make it safe for the four river access sites. Without working with the Asheville Design Center, and partnering with WECAN, we could never have provided the kind of connectivity to the 13 Bone pedestrian bridge.

She showed the area for a greenway, showing what would become a one-way street, noting they will be coming to Council for a naming process, which front runner name is River Arts Row.

The current adopted budget for the TIGER VI suite of projects is $48.6 million; funded through a combination of federal, state, and local grants and City debt proceeds. To date, approximately $13.5 million has been spent or encumbered on pre-construction activities such as design, land and right of way acquisition, demolition, and utility relocation. The project currently has an available balance of $35.1 million. To fully fund the contracts included in this staff report and all other remaining costs associated with this suite of projects, staff is requesting a budget amendment in the amount of $6.0 million. The total project budget is $54.6 Million.

As noted above, the budget amendment will be funded through a combination of debt proceeds, grant funding, and Enterprise Fund contributions. Debt service on the amended budget has already been built into the General Capital Improvement Program (CIP) five-year cash flows that were presented to City Council during the recent budget process.

The modified scope for the TIGER VI project includes all of the core elements of the RADTIP and Five Points Roundabout. It preserves the key bicycle and pedestrian connectivity throughout the River Arts District, as well as needed roadway intersection and alignment improvements. Portions of the project that are not included in this construction contract and will need to be phased at a future time include: portions of roadway improvements at the North and South ends of the RADTIP project; Town Branch and Bacoate Branch Greenways; French Broad River Greenway West; and the Livingston Street Complete Street. Council will have to consider at another time how to prioritize those projects and to look at other funding options.

Ms. Monson-Dahl then explained one of the modifications involving the removal of a retaining wall having a delayed cost of $2.5 Million. Another modification is looking up Riverside Drive from the old 12 Bones site on the River side they planned a greenway, protected bike lanes, two travel lanes, landscaping and a sidewalk on the east side of the road. The new proposal is asking Council to build out the greenway and delaying the protected bike lanes, two travel lanes, landscaping and sidewalk. That cost savings in delaying is $4.6 Million. The greenway along Lyman Street would also include crosswalks from emerging commercial centers. And, there is a possibility staff can take a look at the width of the greenway but the materials and some other important design features.

If Council approves these actions, the City will be signing a partnership agreement with both the River Arts District Artists and the River Arts District Business Association to help them stay vibrant during the course of construction in the next 3 years. The CVB is a partner and is being funded out of an allocation from the City Manager's Office of $25,000 which will help with additional wayfinding and district signage to help the small, local businesses thrive during this construction.

City staff have met with community stakeholders regarding the future phases of this work and are committed to continuing the discussion about the project development. Additional efforts will include a citizen engagement process that will allow for input into the prioritization of project phasing and evaluation of multimodal transportation alternatives as they relate to the south roadway improvements. It is very important that these efforts are open and inclusive but have a focus on being completed expeditiously. Through this process the community will continue to stay involved and have input into to the continued project development in the River Arts District.

The Asheville Area Riverfront Redevelopment Commission (AARRC) has provided

project review and advisory assistance since the initial public meeting in May 2010. AARRC was most recently involved on May 11, 2017, when they were asked to provide pre-bid review of the project. This review took place in advance of final analysis of bids, modification of agreement with FHWA, and development of a Guaranteed Maximum Price (GMP) for the project. Because there would not be another opportunity to present to the AARRC before the City Council review, staff requested that the AARRC provide general comments about how this project did or did not contribute to the overall revitalization of the riverfront, and comments about what factors might be important for Council to consider when authorizing a final budget and contract award. The AARRC voted unanimously to express continued support for the TIGER VI program of work, while asking Council to consider fiscal responsibility to the citizens of Asheville when funding the program. Opportunities to cut costs from, amend or phase the projects were encouraged.

These actions align with Council's 2036 Vision in the following areas: (1) Transportation and Accessibility: The project addresses this goal by improving road alignment, traffic calming, stormwater management facilities, sidewalks, greenways and bike facilities to create a comprehensive transportation network and much needed connectivity throughout the River Arts District. The project meets the specific Council Strategic Priority Area 22: Complete the appropriate phases of TIGER VI including RADTIP; and (2) A Well Planned and Livable Community: This project addresses this goal by strengthening Riverside Drive and Lyman Street as a corridor that can support a variety of uses and reflects the River Arts District's unique character. The project implements a portion of the community's vision from the Wilma Dykeman RiverWay Masterplan, adopted by City Council in 2004. The project helps address Council Strategic Priority Area 9d: Implement the River Arts District Innovation District.

Pros:

- TIGER VI will help implement several strategic council priority areas
- TIGER VI will fulfill the City's commitment to the community by implementing several masterplans including the Greenways Masterplan, Riverside Drive Redevelopment Plan and the Wilma Dykeman RiverWay Masterplan

Cons:

- Not fully funding the original project scope may lead to community expectations not being fulfilled
- Phasing the unfunded components of the project will extend the time that it takes to construct these improvements.

Staff recommends that City Council adopt resolutions authorizing the City Manager to execute multiple contracts to implement a portion of the TIGER VI suite of projects, including: (a) Construction Manager at Risk (CMAR) contract amendment with Beverly-Grant, Inc./Barnhill a 50/50 Joint Venture for $27,065,150; (b) Inspection and material testing contract with SEPI Engineering and Construction for $854,841; (c) Construction administration and engineering contract amendment with CDM Smith for $928,275; (2) directing staff to work with Norfolk Southern to make changes to the scope of work within the existing construction agreement, to modify the northern railroad crossing to ensure safe bicycle accessibility through the at grade crossing; (3) a budget amendment in the amount of $6.0 million from debt proceeds, grant funding, and Enterprise Fund contributions to fully fund the contracts above and all of the remaining costs associated with the TIGER VI suite of projects which include but are not limited to utility relocation and the purchase of property; and (4) directing staff to commit to planning and community engagement efforts which will: (a) prioritize the future phasing of greenway projects; and (b) evaluate multimodal transportation alternatives associated with the south roadway improvements, including greenway widening.

Vice-Mayor Wisler was pleased that the City will be able to move forward on the River Arts District Transportation Improvement Project with the help of so many partners; however, she was disappointed in the large budget overruns. She felt the public input has been great up to a point but then after the bids came in it seems there was no more public involvement. She felt staff should have let Council and the public know about the sizable overruns and allow the public

to weigh in on the portions of the project that were being delayed and how that selection was made. One of the overriding issues that determined the entire scope of the project was connectivity of some of our underserved communities to economic opportunities and other community facilities. She asked how that overriding equity issue addressed when deciding what stayed and what was delayed. She wondered what the opportunity is to delay this decision in order to receive more public input. If there is no opportunity for delay, she asked what the plan is to make the next steps transparent. How can we make sure that the public has a real voice in the choices to be made going forward? How can we be assured that an equity lens is being applied when completing this project? Also, given the fact that we are getting ready to spend a lot of money on RADTIP and on our bond projects, she wanted to understand how we can stay on top of whether the City is on budget or is overrunning the budget. As Chair of the Finance Committee, she suggested staff very routinely update the Finance Committee on the status of all the projects - RADTIP, bond program, and the rest of the CIP, and keep Council in a loop as to what the current estimates are and what the issues are, so that we allow the public to weigh in on some of the changes if we are off budget.

Acting City Manager Ball said that there was a team approach in making sure people were engaged noting we have several partners. When the City received the bids (5-6 weeks ago), staff's primary concern was how to work the FHWA to be able to maintain the $14.6 Million. The effort on the part of the team to work with the FHWA to (1) make sure we were able to keep the funding; and (2) make sure what scope of work they would fund. This project was funded because of a planning effort that happened as part of the TIGER II funding in the 2010 timeframe. The original scope of work dealt with the issues of connectivity. In the application the City submitted in 2014, it spoke to the core part of this project being the scope before you now. In the process of dealing not only with the state level, FHWA, dealing with the national level and giving the dynamics of a changing world in Washington we were very concerned about being able to move fast and get this funding secured. We valued and used all of the input we received in the previous planning effort to help guide those decisions. They were all guided through the principles that we heard from our community from the many years of planning. She assured Council that staff took into consideration everything that had been done before in order to help us get to this position. Also, at the same time we approached the Tourism Development Authority because we have $2.5 Million of Tourism Development Product money in this project - which is significant in order to make it happen. We immediately approached them and asked them about being able to secure that funding. She was happy to report that the Tourism Development Product Committee has approved that and it will go before the full board. While she understood, and not having access to the information, she understood why people would be concerned about the radio silence. She assured Council that staff worked in every way that they could to guarantee that this community would get the funding for this project. Regarding the issue of serving the underserved community, the TIGER II grant was specifically for this purpose. One of the issues is having a greenway to be able to serve this community from a multimodal standpoint. After touring with Housing Authority Executive Director Gene Bell, he said that greenway would be a tremendous help. We want to make sure the Hillcrest community has access to the riverfront via a sidewalk. In the bond project, there is sidewalk along Hill Street that will allow that community to connect to this. She regretted that we received no bids for the Livingston Street portion of this project. The Livingston Street Complete Street is a high priority in the upcoming budget cycle to look at that street and make sure we are coordinating what the community wants to see happen there. If Council does not act on these actions, she could not guarantee we would be able to keep the $14.6 Million in funding without the approval of funding of the overall contract. The verbal agreement from the FHWA is contingent upon being able to turn dirt on August 1, 2017. Our goal is to always be transparent and we will have a process every budget cycle and when any grant is available to ask our community what they want to see funded. Regarding the bonds, we want the community know that we are able and we will be able to do the work we said we would do with the bonds. She felt going to the Finance Committee on a regular basis is totally appropriate. The transparency piece will include a community dashboard so people can see how much was allocated and how much spent.

In response to Vice-Mayor Wisler, Acting City Manager Ball said that when bids are received, the City has 60 days to either act on the bid or the bid expires.

When Councilman Bothwell wondered how we could have been this surprised by the bids, Acting City Manager Ball said that in November we hired a construction manager and part of their responsibility was to do preliminary estimates. At that time the preliminary estimates indicated that we needed $6 Million (which was appropriated in the Capital Improvement Program for Fiscal Year 2017-18). We were very surprised, six months later, to receive bids that were in the $20 Million range above that. They performed an investigation and noted that they did not, on any part of the project, receive more than 2 bidders. There is a lack of competition in western North Carolina for this kind of work which drives up prices. Also, per state statute, when we receive a bid, we have to receive 3 the first time. If we don't receive 3, we re-bid the project and then we can open it with less than 3. That can be a disadvantage because you can have pricing going up in that instance too. There is a combination of issues that happened that we are prepared to work on including breaking projects down so that small businesses have an opportunity to do more of the work as well. We are trying to find strategies to have more people bid on the projects.

Councilwoman Mayfield has heard that we have chosen the wrong things and we should have focused on building and re-designing the greenways. Acting City Manager Ball said they were not sure they would have kept the FHWA funding if they were only to ask for greenways. When they went back to the FHWA, the guiding principle of the request was the core part of the project. Our initial application said the primary element is the first phase of the Wilma Dykeman Riverway Plan.

In response to Councilwoman Mayfield, Transportation Director Ken Putnam said that we have a plan to make a crosswalk on Depot Street in front of Green's Grocery. The supplemental signs will have lights around the sign itself.

In response to Councilwoman Mayfield, Acting City Manager Ball said that the City will build a lower cost (asphalt) sidewalk on Hill Street for access, knowing that it will be torn up and replaced during the I-26 Connector Project.

When Councilwoman Mayfield asked about the public process going forward about the improvements on the Lyman Street segment and prioritizing the other delayed greenways, Ms. Monson-Dahl said that the Greenway Coordinator will be having a Greenway Master Plan update. That will be the longer-term plan on top of the short-term plan.

Mayor Manheimer acknowledged the hard work of staff and the public engagement process was stellar. The main key stakeholders that actually own property on the River have already had a chance to talk with staff. She was also shocked to hear what the bids came in at and knows staff spent an enormous amount of time to reconfigure the project so we could preserve the FHWA and TDA funding for this project. She was glad that none of the items were dropped off the list, but just moved further down the list. Even though the Livingston Street Complete Street Project did not receive any bids, she felt that is a very important piece of the project and it needs to continue to be a priority. Perhaps we might be able to fit that funding into next year. Regarding the Lyman Street portion between the old 12 Bones and the Amboy Road bridge, the greenway was proposed to be 10-feet wide with a separate protected bike lane. Since the road piece has been delayed, she felt it was important to look for an alternative to widen the greenway to accommodate the volume we anticipate in that section. The alternative suggested was a 16-foot multi-use path and staff assures her that it can be done through a change order process, after engineering and pricing.

Councilwoman Bothwell asked if contractors have to be qualified under federal rules when federal money is involved. Capital Projects Program Manager Dustin Clemens responded that there are additional requirements for Disadvantaged Business Enterprise participation but as

far as being a general contractor, they do not have to be on a certified list. If it is a N.C. Dept. of Transportation (NCDOT) project they have to be certified through the state. But because we are direct recipients from the federal government, contractors were not limited to be on the list of certified NCDOT contractors.

When Councilwoman Mayfield wondered why we didn't get more bids, Mr. Clemens thought that contractors were reluctant to commit to a price further out in the schedule, as the Livingston Street Complete Street project was scheduled 2 years out.

Mr. Marc Hunt and Mr. Matthew Fusco asked Council to widen the portion of greenway on Lyman from 10 to 16 feet with stripes to separate users in lieu of a protected bike lane. Then when we do rebuild the rest of that portion, there would be no need to build the bike lanes. He suggested Council direct staff to expedite due diligence and determine feasibility with a view to adapting the design of the 16-foot multi-use path and execute a change order in order for the work to occur on August 1, 2017.

Mr. Jonathan Wainscott was disappointed with the cost overruns for this project.

A member of the Bike & Ped Task Force urged Council to prioritize bike and pedestrian infrastructure higher than parks and play areas that may not be as critical.

Ms. Kim Roney, member of the Multimodal Transportation Commission, stressed the need for the public to be able to access information.

Mr. Carleton Collins, Chair of the Asheville Area Riverfront Commission, supported staff's work and their next steps of open engagement. He was pleased there would be some dedicated process for discovering how to widen the greenway on Lyman to accommodate bikes.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolutions and ordinance and they would not be read.

Councilman Bothwell moved to authorize the City Manager to execute multiple contracts to implement a portion of the TIGER VI suite of projects, including: (a) Construction Manager at Risk (CMAR) contract amendment with Beverly-Grant, Inc./Barnhill a 50/50 Joint Venture for $27,065,150; (b) Inspection and material testing contract with SEPI Engineering and Construction for $854,841; and (c) Construction administration and engineering contract amendment with CDM Smith for $928,275. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION NO. 17-137 - RESOLUTION BOOK NO. 39 - PAGE 22
RESOLUTION NO. 17-138 - RESOLUTION BOOK NO. 39 - PAGE 23
RESOLUTION NO. 17-139 - RESOLUTION BOOK NO. 39 - PAGE 24

Councilman Bothwell moved to direct staff to work with Norfolk Southern to make changes to the scope of work within the existing construction agreement, to modify the northern railroad crossing to ensure safe bicycle accessibility through the at grade crossing. This motion was seconded by Councilwoman Mayfield and carried unanimously.

Councilman Bothwell moved to adopt a budget amendment in the amount of $6.0 million from debt proceeds, grant funding, and Enterprise Fund contributions to fully fund the contracts above and all of the remaining costs associated with the TIGER VI suite of projects which include but are not limited to utility relocation and the purchase of property. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 242

Councilman Bothwell moved to direct staff to commit to planning a community

engagement effort which will prioritize the future phasing of greenway projects and prioritize re-engineering the multi-use path between the old 12 Bones and Amboy Road to accommodate an appropriate width to compensate for the loss of the protected bike lane, with said process being completed within 60 days. This motion was seconded by Councilwoman Mayfield and carried unanimously.

In response to Councilwoman Mayfield, Acting City Manager Ball said that staff is supportive of the concept of expanding the 10-foot wide multi-use path to a 16-foot wide multi-use path. However, staff wants to honor the process of going through committees (Multimodal Transportation Commission; Greenway Committee; Bike & Ped Task Force; and Asheville Area Riverfront Redevelopment Commission) to collectively get input. Staff also wants to make sure that they are able to make changes without knowing the cost, the design parameters, whether the FHWA will approve the change, so they are open to doing this, but would like to do more feasibility. She suggested Council allow staff 60 days to perform their feasibility analysis, and there would be no delay to the August 1, 2017, start date.

Ms. Monson-Dahl clarified that the proposal by staff is that there is a process during the month of July, including all the committees, and then staff will report back to the Planning & Economic Development Committee and the Finance Committee on those findings in order for Council to move forward to Council.

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Allison Frank spoke to Council about the need for safety for the citizens against bears. Acting City Manager Ball said that she will investigate special trash cans to see if they will be compatible with our automated trash trucks out and what the pricing would be to offer those cans to the citizens.

Mayor Manheimer reported that after investigation from a complaint by Sharon Sumrall regarding clear cutting on Beaucatcher Mountain revealed no violations. Councilman Bothwell said that the Tree Commission is working on educating homeowners on the benefits of tree retention.

Mayor Manheimer reported that after investigation from a complaint by Dewana Little of discrimination at a summer camp location revealed there was a communication error about the grant program.

Mayor Manheimer asked Acting City Manager to investigate a request for a basketball court at West Asheville Park at the end of Vermont Avenue.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:51 p.m.

Magdalen Bowleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – July 25, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson/Deputy City Clerk Sarah Terwilliger

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Mayor Manheimer announced that Items J.1 and J.2. on the Consent Agenda will be removed for discussion and an individual vote.

Mayor Manheimer announced that a budget amendment, in the amount of $6,000, for the gap analysis for the City's Urban Forest Program, will be added to the Consent Agenda as Item Q.2.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JUNE 27, 2017

B. MOTION TO REQUEST THE BUNCOMBE COUNTY BOARD OF ELECTIONS TO ARRANGE FIVE ADDITIONAL EARLY VOTING SITES (ONE EACH IN CENTRAL, NORTH, SOUTH, EAST AND WEST SECTIONS OF ASHEVILLE) THE ONE WEEK (INCLUDING SATURDAY) IMMEDIATELY PRECEDING THE 2017 CITY COUNCIL GENERAL ELECTION

Summary: The Buncombe County Board of Elections has asked if the City of Asheville will be requesting remote additional early voting sites for the General election on November 7, 2017. There are 37 normal polling places for City Council elections - during the primary and the general elections. The City must notify the Board of Elections 30-45 days prior to the election if they would like to have more remote sites, in order for them to submit a plan of implementation to the State Board of Elections for approval. The City can let the Board of Elections know what locations they would like for a remote site; however, the Board of Elections will ultimately have to find a suitable site in that area.

In 2015, City Council approved four additional early voting sites (one each in the North, South, East and West sections of Asheville, preferably at a library or community center) the one week (including Saturday) immediately preceding the City Council general election. The cost for each additional additional site is approximately $5,000. In 2015, 3,832 people voted in the four additional early voting locations and the total cost was approximately $20,000.

In 2015, a request was made to have a downtown location included in the early voting site since the Board of Elections moved from out of downtown. At the time the request was received, it was too late for that to be included. After checking with the Board of Elections, a downtown site would be no problem to add at this time. They will check with Pack Library but are open to other locations as well.

Staff has budgeted funds in the Fiscal Year 2018 budget for the 2017 City Council election.

Due to the deadline for submission to the State Board of Elections, this action will be presented to the Governance Committee at their July 25, 2017, meeting. If there is anything other than full support to move forward to Council, it will be noted at the Council meeting.

C. ORDINANCE NO. 4595 - ORDINANCE AMENDING CHAPTER 11 OF THE CODE OF ORDINANCES PERTAINING TO SALE OF ALCOHOLIC BEVERAGES BEGINNING AT 10:00 A.M. ON SUNDAYS

Summary: The consideration of an amendment to Chapter 11 of the City's Code of Ordinances pertaining to sale of alcoholic beverages beginning at 10:00 a.m. on Sundays.

On June 29, 2017 the North Carolina General Assembly enacted Senate Bill 155, entitled "An Act to Make Various Changes to the Alcoholic Beverage Control Commission Laws." Section 4 of the bill authorizes city and county governments to adopt an ordinance to allow alcohol sales beginning at 10:00 a.m. on Sundays. Previous to the enactment of Senate Bill 155, state law prohibited the sale or consumption of alcoholic beverages on any licensed premises until noon on Sundays across the state. By enacting Senate Bill 155, North Carolina joins 47 other states in allowing alcohol service before noon on Sunday. The new law went into effect on June 30, 2017.

Pro:

- Allows the hospitality community and retail merchants to meet the needs of their customers.
- Benefits the small business community by bringing customers into business districts earlier in the day.

Con:

- None.

City staff recommends City Council consider an amendment to Chapter 11 of the City's Code of Ordinances pertaining to sale of alcoholic beverages beginning at 10:00 a.m. on Sundays.

ORDINANCE BOOK NO. 31 - PAGE 249

D. RESOLUTION NO. 17-148 - RESOLUTION AMENDING THE 2017 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE OCTOBER 10, 2017, CITY COUNCIL FORMAL MEETING

RESOLUTION BOOK NO. 39 - PAGE 37

E. RESOLUTION NO. 17-149 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE LEAF DOWNTOWN AVL

RESOLUTION NO. 17-150 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE OUTDOOR CINEMA

RESOLUTION NO. 17-151 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BLUE RIDGE PRIDE FESTIVAL

Summary: The consideration of resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the LEAF Downtown AVL, Asheville Outdoor Cinema, and the Blue Ridge Pride Festival.

- LEAF Community Arts has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at LEAF Downtown AVL and allow for consumption at this event.

  LEAF Downtown AVL will be held on Friday, August 4 from 3:00 p.m. to 10:00 p.m. and Saturday, August 5 from 9:00 a.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Blue Ridge Pride has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Outdoor Cinema and allow for consumption at the event.

  Asheville Outdoor Cinema will be held on Saturdays, August 26, September 2, September 9, October 7, and October 14, 2017 from 6:00 p.m. – 11:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

- Blue Ridge Pride has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Blue Ridge Pride Festival and allow for consumption at this event.

  The Blue Ridge Pride Festival will be held on Saturday, September 30, 2017 from 11:00 a.m. to 7:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for LEAF Community Arts and Blue Ridge Pride

Con:

- Potential for public safety issues

Staff recommends City Council adopt resolutions authorizing the City Manager to make provisions for the possession and consumption of malt beverages and/or unfortified wine at LEAF Downtown AVL, Asheville Outdoor Cinema, and the Blue Ridge Pride Festival.

RESOLUTION NO. 17-149 - RESOLUTION BOOK NO. 39 - PAGE 38
RESOLUTION NO. 17-150 - RESOLUTION BOOK NO. 39 - PAGE 41
RESOLUTION NO. 17-151 - RESOLUTION BOOK NO. 39 - PAGE 44

F. RESOLUTION NO. 17-152 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PARTICIPATE IN DUKE ENERGY PROGRESS' SMALL BUSINESS ENERGY SAVERS PROGRAM AND TO ENTER INTO A SOLE SOURCE CONTRACT FOR THE PURPOSE AND INSTALLATION OF ENERGY EFFICIENT LIGHTING IN THE CIVIC CENTER PARKING DECK

Summary: The consideration of a resolution authorizing the City Manager to participate in Duke Energy Progress' Small Business Energy Saver Program and to enter into sole source provider contract for the purchase and installation of energy efficient lighting in the Civic Center Parking Deck.

The electric utility Duke Energy Progress' Small Business Energy Saver (SBES) Program pays for energy efficiency upgrades up front, and covers up to 80% of the total project costs.

The Civic Center Parking Deck provides an opportunity to utilize the SBES program while yielding an estimated $27,413 in annual energy savings and eliminate annual maintenance in the amount of $8,000.00. In terms of carbon reductions, the project will yield 277 MTCO2e – 1% of the annual 4% carbon reduction goal the City has adopted.

Staff has analyzed the potential and costs for the project and determined that the SBES Program is a unique opportunity to leverage a significant up front capital funding from Duke Energy Progress. The total cost to the City for the Civic Center Parking Deck upgrade would be $264,348; however, utilizing Duke Energy Progress' utility incentive program, the project offsets the cost by 34%. The total cost of the project is $155,663 and was recently approved by City Council via budget amendment funding from the Green Revolving Fund in the amount of $100,000 and Parking Services Operating Fund in the amount of $55,663. These costs include parts, labor and project management.

The SBES Program is run through a single authorized contractor, Lime Energy. In order to participate in the SBES Program, the City needs to pursue a single source provider contract with Duke Energy Progress / Lime Energy. See Exhibit A. This is allowable as per N.C.G.S. 143-129(e)(6) which states that "the governing body of a political subdivision of the state shall approve the purchase of apparatus, supplies, material or equipment without formal bidding when (i) performance or price competition for a product are not available; (ii) a needed product is available from only one source of supply; or (iii) standardization or compatibility is the overriding consideration."

The total cost of the project was recently approved by City Council via Budget Amendment Ordinance No. 4591.

Pros:

- Supports Resolution 11-77, reducing the City's municipal carbon footprint
- Improves visibility and safety within the parking deck
- Reduces external lighting impact, increasing compliance with the City's outdoor lighting standards
- Decreases lighting impact on residential occupancies
- Leverages a DEP incentive which contributes to 34% of the total project cost

Con:

- None Identified.

As noted above the total cost of the project is $155,663, with funding utilized from the Green Revolving Fund in the amount of $100,000 and Parking Services Operating Fund in the amount of $55,663. Once complete, the upgrade will produce an estimated $27,413 savings on energy per year and an $8,000 savings on maintenance.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a sole source contract to purchase and install energy efficiency lighting as part of Duke Energy Progress' Small Business Energy Savers Program.

RESOLUTION BOOK NO. 39 - PAGE 47

G. RESOLUTION NO. 17-153 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE APPRENTICE/INTERN PROGRAM FOR FISCAL YEAR 2017-18

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the apprentice/intern program for Fiscal Year (FY) 2017-18.

The NCDOT Public Transportation Apprenticeship Program gives current college seniors the opportunity to work in the field of public transportation management upon receiving their undergraduate degree. The 12-month program which started June 19, 2017, provides exposure to all aspects of a transit system and allows apprentices to gain experience in managing public transportation operations.

The City applied for this program and was granted funding. After a selection program conducted by the NCDOT, the City has hired an apprentice to work in the Transportation Planning Division of the Transportation Department. The apprentice will assist with route planning, analyzing transit-related data, helping with the upcoming Transit Master Plan, and special projects.

FY 2017-18 funding totals $37,498. The NCDOT will provide 90% of the anticipated funding ($33,747) and the City will provide the remaining 10% ($3,751).

Pros:

- The subject grant supplements funding for an apprentice position for FY 2017-18.
- The subject grant enables the City of Asheville to use $33,747 in State funds for transit planning activities.

Con:

- A 10% local match in the amount of $3,751 is required.

The total grant funding for Fiscal Year 2017-18 is $37,498. The City is required to provide a 10% local match in the amount of $3,751. The anticipated grant funding and the City local match are currently budgeted in the FY 2017-18 Transit Services Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into an agreement with the NCDOT to fund the Apprentice/Intern Program for FY 2017-18.

RESOLUTION BOOK NO. 39 - PAGE 48

H. RESOLUTION NO. 17-154 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PUBLIC/PRIVATE PARTNERSHIP AGREEMENT WITH THE DEVELOPER/OWNER OF 150 COXE AVENUE (CONABEER VENTURES, LLC), FOR THE PAVING OPERATION WITHIN THE PUBLIC RIGHT-OF-WAY ALONG BANKS AVENUE AND RESTORATION OF COLLIER AVENUE BOARDING 150 COXE AVENUE

ORDINANCE NO. 4596 - BUDGET AMENDMENT FOR PUBLIC/PRIVATE PARTNERSHIP WITH CONABEER VENTURES LLC

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a public/private partnership agreement with the developer/owner of 150 Coxe Avenue (Conabeer Ventures, LLC), for the paving operation within the public right of way along Banks Avenue and restoration of Collier Avenue boarding 150 Coxe Avenue; and (2) a budget amendment in the amount of $32,660 to receive and budget the payment from the developer.

The City has plans to mill and resurface the entire length of Banks Ave and a section of Collier Avenue. As part of the construction of the development at 150 Coxe Avenue, work within the City's rights of way required the developer to resurface a section of Banks Avenue and restore Collier Avenue.

In order to have smooth transitions in the riding surface of the roadway, City staff discussed the potential partnership with the development team, a plan to perform the necessary work within public rights of way became the most cost effective and viable option in order to minimize conflicts and disruptions to the traveling public and to also provide cost savings through the partnership.

As part of the permitting for the property, the developer is required to resurface one lane of Banks Avenue fronting the property. Also, Collier Avenue is located on the west side of the property, the developer is required to restore the roadway fronting their property by re-establishing the stone base and asphalt surface. The plan would be for the City to contract the paving operations for the entire project within the public right of way, inspect the work and administer the contract, rather than the developer/owner undertaking their portion of the work separately, and the developer/owner will reimburse the City for their share of the work. The owner will be responsible for the estimated work associated with their development. The total cost to the developer will be $32,660.

Pros:

- If approved, the City team would be able to move quickly on the work, minimizing impacts to the traveling public.
- The project will improve the riding surfaces of these roads
- This project will maximize City's funding to allow for more infrastructures to be installed through this public private partnership.

Con:

- The paving operation will be disruptive to the area during construction.

The estimate for this project is $170,356. The developer will be responsible for $32,660 toward this project. The remaining cost is proposed to be paid by the City through the annual resurfacing program.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to execute a public/private partnership agreement with the developer/owner of 150 Coxe Avenue (Conabeer Ventures, LLC), for the paving operation within the public right of way along Banks Avenue and restoration of Collier Avenue boarding 150 Coxe Avenue; and (2) a budget amendment in the amount of $32,660 to receive and budget the payment from the developer.

RESOLUTION BOOK NO. 39 - PAGE 49
ORDINANCE BOOK NO. 31 - PAGE 250

I. RESOLUTION NO. 17-155 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH UNC-ASHEVILLE TO WAIVE FEES FOR ASHEVILLE'S SOLAR ECLIPSE FESTIVAL TO BE HELD AT PACK SQUARE PARK ON AUGUST 21, 2017

Summary: The consideration of resolution authorizing the City Manager to waive fees for Asheville's Solar Eclipse Festival.

The City of Asheville entered into a Memorandum of Understanding with UNC Asheville in October, 2013 to establish a framework by which UNC Asheville and the City of Asheville could facilitate activity in several agreed-upon collaboration areas, to the extent that they align with the strategic priorities of each party. While it is stipulated that there are no pre-existing obligations between parties, consideration of activities under the Agreement are to be undertaken pursuant to separate implementing agreements, to be agreed upon by the parties.

In March, 2017 the Lookout Observatory at the Physics Department with UNC Asheville reached out to the City of Asheville, inviting staff to participate in an event planning group, joining representatives from the Asheville Museum of Science, Buncombe County Schools and Asheville City Schools. The group was formed to consider a scope of work that would address public interest and public safety during the solar eclipse on August 21, 2017, where in Asheville the sky will darken with 99% of the sun covered by the Moon at its maximum. Staff with the Community & Economic Development Department participated in an advisory capacity.

The work group efforts resulted in an application for special event permit to the City of Asheville from UNC Asheville for a solar eclipse viewing event to take place at Pack Square Park on August 21, 2017 between the hours of 12:00 p.m. – 3:00 p.m. Referencing the MOU between UNC Asheville and the City of Asheville, UNC Asheville has requested consideration for fee waivers estimated at a value of $1,600. Fees waived by the City would include park use fees, permit fees, police and medic support, use of supplemental waste receptacles and barricades.

Pros:

- Allows the City to leverage resources to provide accommodations for a significant event of public interest that focuses on solar eclipse viewing safety and education.
- Activates intent of MOU with UNC Asheville for collaboration on areas of mutual interest and public benefit.

Cons:

- Lost revenue for City fees, equipment rentals, and overtime for Police and Fire staff
- Potential for public safety issues

Fee waivers result in lost revenue, and labor support results in increased personnel expenses.

City Council consider adopting a resolution authorizing the City Manager to enter into an agreement with UNC Asheville, authorizing an estimated value of $1,600 in fees to be waived to support Asheville's Solar Eclipse Festival.

Mr. Brian Hart, Manager of Lookout Observatory at UNC-Asheville, thanked City Council for waiving the fees and invited the public to attend.

RESOLUTION BOOK NO. 39 - PAGE 50

J. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH MCDONALD TRANSIT FOR OPERATIONS AND MAINTENANCE OF THE ASHEVILLE TRANSIT SYSTEM

BUDGET AMENDMENT TO FUND THE FISCAL YEAR 2017-18 COSTS FOR OPERATING AND MAINTAINING THE ASHEVILLE TRANSIT SYSTEM

These items were removed from the Consent Agenda for discussion and an individual vote.

K. RESOLUTION NO. 17-157 - RESOLUTION GRANTING AN ADDITIONAL PERMIT FEE WAIVER TO THE ASHEVILLE ART MUSEUM ASSOCIATED WITH CONSTRUCTION AT 2 SOUTH PACK SQUARE (CITY-OWNED FACILITY)

Summary: The consideration of a resolution granting an additional permit fee waiver to the Asheville Art Museum (AAM) associated with construction at 2 South Pack Square (City-owned facility).

The AAM, which incorporated in 1948, has occupied an important place in the City's visual arts community in various locations – Charlotte Street, BB&T Building on Biltmore, Montford, and the Civic Center. In 1992, the AAM moved into its current location on South Pack Square – supplemented by an expansion in 1999 that now occupies approximately 24,000 square feet. In early 2016, the AAM culminated over ten years of planning and a capital campaign by starting the renovation and construction of the existing facility. When complete, the renovation and construction will result in a 55,000 square foot museum. Construction work is already underway at the project site, and construction is anticipated to be completed in 2018.

On April 12, 2016, via Resolution No. 16-84, the City Council authorized a waiver of up to $90,000 in permit fees for the construction/renovation of the AAM, which is a tenant in the City-owned facility under a lease approved in 2014. Following the submittal of plans to the permit office and the current cost of work, the projected permit fees total $102,000, which is $12,000 in excess of the original $90,000 waiver amount granted. As outlined in the correspondence, AAM submitted a letter on June 8, 2017, requesting approval of a waiver for this additional of $12,000 in permit fees.

The City's policy limits the waiver of permit fees to property owned, operated, and occupied by the City. In the instance where a property is owned, operated and occupied by the City, permits for work conducted on such properties must be obtained but no permit fees paid. In this instance, while the building at 2 South Pack Square is owned by the City, it is neither occupied nor operated by City.

The permit fee waiver reinvests funds otherwise collectible as revenue into the improvement of a publicly owned building.

Pros:

- Supports local non-profit reinvestment of funds into public infrastructure improvement.
- Enhances the improvement of a publicly-owned facility.

Cons:

- Removes an additional amount of $12,000 from City's revenue stream collectible as a permit fee.
- Provides a permit fee waiver for a property that is owned by but not operated or occupied by the City as indicated in the permit fee waiver policy.

The fiscal impact of this request, if approved, is the removal of up to $12,000 in additional permit fees from the City's revenue stream.

Staff recommends City Council adopt a resolution granting an additional permit fee waiver for an amount up to $12,000 to the Asheville Art Museum associated with construction and renovation at 2 South Pack Square, a City-owned facility.

RESOLUTION BOOK NO. 39 - PAGE 52

L. RESOLUTION NO. 17-158 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE NATIONAL RECREATION AND PARKS ASSOCIATION FOR PROGRAMMING COST OF THE HEALTHY OUT-OF-SCHOOL TIME GRANT

ORDINANCE NO. 4598 - BUDGET AMENDMENT FOR HEALTHY OUT-OF-SCHOOL TIME GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to accept a grant from the National Parks and Recreation Association (NRPA) and the Walmart Foundation in the amount of $25,000 for the Healthy Out-of-School Time Grant.; and (2) a budget amendment

in the amount of $25,000 from the NRPA and Walmart Foundation grant award to establish an operating budget in the General Fund.

Earlier this year the City of Asheville (City) applied to the NRPA for the Healthy Out-of-School Time Grant for $25,000. NRPA partners with the Walmart Foundation to support this grant program. No matching funds are required. The grant will be used in the Parks and Recreation Department to enhance the existing food service program in the summer camp and after school program to 1) increase the number of healthy meals and snacks served to children in low-income communities; 2) provide evidence based nutrition education; 3) implement the Healthy Eating and Physical Activity (HEPA) standards; and 4) reduce food waste.

Grant funds will be used to enhance the existing food service program at six after school and 11 summer camp sites. These sites serve children ages 5 to 14 where 70% to 90% receive free and reduced school lunch thereby increasing healthy foods to low income youth. In addition to healthy foods, participants will engage in a nutrition literacy program to learn the importance of healthy eating and increase their opportunities of physical activity.

The grant funds will enhance the existing after school and summer camp food service program by supporting the cost of equipment, supplies and materials, program activities, and technical support with NRPA.

The Finance Committee approved the recommendation to accept the grant at its meeting on June 27, 2017, and forwarded it to the full City Council for its consideration.

Pro:

- The grant will support program cost in the amount of $25,000

Con:

- None

If accepted, the $25,000 grant will be spent during FY 2017-2018. No matching funds are required. This increase is funded by the NRPA and the Walmart Foundation. There is no impact to the City's General Fund budget.

Staff recommends that the City Council adopt: 1) a resolution authorizing the City Manager to accept a grant from the NRPA and the Walmart Foundation in the amount of $25,000 for the Healthy Out-of-School Time Grant.; and 2) a budget amendment in the amount of $25,000 from the NRPA and Walmart Foundation grant award to establish an operating budget in the General Fund.

RESOLUTION BOOK NO. 39 - PAGE 53
ORDINANCE BOOK NO. 31 - PAGE 254

M. RESOLUTION NO. 17-159 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AMENDMENT TO THE CONTRACT WITH HYDROCYCLE ENGINEERING FOR ADDITIONAL SERVICES FOR THE WATERSHED ASSESSMENT FOR THE WELLINGTON STREET DRAINAGE AREA

Summary: The consideration of a resolution authorizing the City Manager to sign an amendment to the contract with HydroCycle Engineering for additional services for the watershed assessment for the Wellington Street drainage area which extends the time of completion from March 13, 2017, to a total of 1 year from the notice to proceed and extends the total compensation from $47,000 to $49,000.

During heavy rainfall events the neighborhood located in the Wellington Street area experience flooding issues due to overland flow. Citizens of this neighborhood, expressed

concerns to council in June 2016, in which Council asked Staff to perform a watershed assessment of the area to identify possible solutions to these issues.

The City contracted with HydroCycle Engineering to provide data collection to identify the existing stormwater conveyance systems including field survey to obtain missing system data; conduct a stakeholder meeting that identified specific stormwater issues; evaluate the hydrologic and hydraulic conditions of the existing stormwater conveyance systems; develop alternative solutions that meet the City's stormwater standards and planning level costs for each of the alternative solutions; conduct a final stakeholder meeting to present the solutions; and prepare a report that summarizes the entire process and recommended solution(s).

HydroCycle Engineering has expended a great amount of time working with the property owners to understand their specific issues and discussing small remedies (if possible) to the larger more complex solutions and how these solutions are incorporated into our Capital Improvement Program. The request for the amendment is to allow HydroCycle Engineering to complete the Summary Report and for some additional services for which they were not originally contracted; the services include a presentation to the City Manager's Office and/or a sub-committee of the Council and some additional assessment considerations based on HydroCycle's findings.

Because the total compensation requested is still under $50,000, this amendment will still meet the Exemption of the qualification based selection process.

Pros:

- The total compensation is under $50,000.
- The additional assessment considerations include staging several components of the initial recommendations in an effort to try to address some of the ongoing stormwater issues for the community earlier than it would take to complete an entire Capital Improvement Project and;

Con:

- The additional compensation was not budgeted for this year.

The City's Stormwater Utility will be responsible for the additional $2,000 cost for the professional services contract. The total contract for professional services will still be less than $50,000. This amount will be absorbed within the existing FY 2017-18 Stormwater Fund budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute an amendment to the contract with HydroCycle Engineering for the additional professional services associated with the watershed assessment for the Wellington Street area and the associated extension of time and compensation. The total cost of the extended design services for this project is $2,000.

RESOLUTION BOOK NO. 39 - PAGE 54

N. RESOLUTION NO. 17-160 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH T & K UTILITIES INC. FOR THE NEIGHBORHOOD ENHANCEMENT PROJECT AREA 1 WATER DISTRIBUTION SYSTEMS PHASE 2 PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with T & K Utilities, Inc., for the NEP Area 1 Water Distribution Systems Phase 2 Project for the bid amount of $2,383,610.00 plus a 10% contingency in the amount of $238,361.00 for a total project budget in the amount of $2,621,971.00.

On June 14, 2017, the Water Resources Department (WRD) issued an Advertisement for Bids for the NEP Area 1 Water Distribution Systems Phase 2 Project. The scope of work for this

project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of approximately 20,600 Linear Feet of 6-inch, 8-inch, and 12-inch Ductile Iron Pipe located along Eliada Road, Wilson Road and Enka Lake Road in the west area of the City of Asheville Water Distribution System.

In response to the Advertisement for Bids, the department received three bids on July 11, 2017. Companies responding were:

1. Buckeye Bridge, LLC; Canton, NC – Bid: $2,694,494.46 (***Corrected for Mathematical Errors)**
2. T & K Utilities, Inc.; Hendersonville, NC – Bid: $2,383,610.00
3. Thomas Construction Company, Inc.; Johnson City, TN – Bid: $2,694,060.00

Following a review of the bids by City Staff and the project engineers, McGill Associates, T & K Utilities, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $2,383,610.00. A contingency amount of $238,361.00 has been added for a total project budget in the amount of $2,621,971.00.

Pros:

- This project will replace existing waterlines. The subject lines are undersized, provide inadequate fire protection, and/or have a high risk of failure. Replacement of these lines will help to improve the service and reliability of the water system.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

The funding needed for the construction agreement is currently allocated within the Water Resources Capital Improvements Project (CIP) Fund in the Small Waterline Replacement Project.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with T & K Utilities, Inc., for the NEP Area 1 Water Distribution Systems Phase 2 Project for the bid amount of $2,383,610.00 plus a 10% contingency in the amount of $238,361.00 for a total project budget in the amount of $2,621,971.00.

RESOLUTION BOOK NO. 39 - PAGE 55

O. RESOLUTION NO. 17-161 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A LEASE AGREEMENT WITH CLIMBMAX, INC. FOR A CLIMBING WALL LOCATED AT 43 WALL STREET

Summary: The consideration of a resolution authorizing the City Manager to execute a lease agreement between the City of Asheville (City) and Climbmax, Inc. (Climbmax) for a climbing facility located at 43 Wall Street.

In 2002, the City entered into a lease agreement with Climbmax for a portion of the lower level of the property known as the Wall Street Parking Garage (identified as PIN# 9649-20-9249). The City agreed to lease both an interior and exterior space. The interior consists of 2,440 square feet which is relatively unfinished with the exception of HVAC improvements made by the tenant. A diagram of the space and its dimensions is provided as an exhibit. The exterior space subject to lease is used as an outdoor climbing wall and consists of ground area, overhead air space and a portion of the exterior wall of the Parking Garage Facility. Both the interior and exterior spaces

are used to support a recreational climbing experience that has operated downtown for over ten years.

The most recent lease between the City and Climbmax expired in 2005 and the lessee has been leasing on a "month to month" basis since that time. The owner of Climbmax has agreed to formalize a new lease with the City based on the following terms. The new lease would have a term of three years and one renewal possibility for an additional five years. The lessee has agreed to a monthly payment of $1,215 until March 31, 2018. After that date, the rent will increase 5% every year until March 31, 2020. Should Climbmax exercise the renewal option, the rent will increase by 3% every year. The rental rate is based on an increase to the current amount being paid, with aggressive escalations each year to achieve market-based rental by 2020. This is a unique space that would require costly improvements to up-fit for a more conventional use such as an office. The tenant has an excellent track record with respect to payment history and activates an area of the parking garage that may otherwise have a highest and best use as storage. In consultation with the City's Downtown Development Specialist, Dana Frankel, the continued use of this property for a climbing facility is consistent with the goals and vision for a vibrant Wall Street.

Existing terms of the lease will continue, such as the Lessee's responsibility to maintain the HVAC system. The City has agreed make minor site improvements, including screens to prohibit pigeons from roosting in the eaves near the entrance and an outside water spigot for climbing wall maintenance. The City will continue to require the tenant to have an insurance that protects the City from any liability by climbing wall users.

Pros:

- Lessee has agreed to an escalation rate that will insure that the rental payment that meets market rates.
- Lessee continues to be responsible for most internal maintenance such as the care of the HVAC system.
- The City is able to lease a unique space that it currently does not need without costly upgrades.

Con:

- None

In that this property was constructed as part of the Wall Street Parking Facility, the proceeds of this lease will be deposited into the Parking Services Enterprise Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a lease agreement with Climbmax to continue its operation at this downtown site.

RESOLUTION BOOK NO. 39 - PAGE 56

P. RESOLUTION NO. 17-162 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH COOPER CONSTRUCTION COMPANY INC. FOR THE NEIGHBORHOOD ENHANCEMENT PROJECT AREA 4 WATER DISTRIBUTION SYSTEMS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Cooper Construction Company, Inc., for the NEP Area 4 Water Distribution Systems Project for the bid amount of $4,566,286.02 plus a 10% contingency in the amount of $456,629.00 for a total project budget in the amount of $5,022,915.00.

On June 5, 2017, the Water Resources Department (WRD) issued an Advertisement for Bids for the NEP Area 4 Water Distribution Systems Project. The scope of work for this project

includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of approximately 24,000 Linear Feet (LF) of 6-inch and 8-inch Ductile Iron Pipe and approximately 550 LF of 2-inch High Density Polyethylene (HDPE) in various areas of the City of Asheville Water Distribution System located near Warren Wilson Road, Hanover Street, Waynesville Avenue, North Street, Dogwood Court, Willis Way, Piney Mountain Church Road, and Conestee Street.

In response to the Advertisement for Bids, the department received three bids on June 29, 2017. Companies responding were:

1. Buckeye Bridge, LLC; Canton, NC – Bid: $5,081,768.55
2. Cooper Construction Company, Inc.; Hendersonville, NC – Bid: $4,566,286.02
3. T&K Utilities; Asheville, NC – Bid: $5,270,741.63

Following a review of the bids by City Staff and the project engineers, Kimley-Horn and Associates, Cooper Construction Company, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $4,566,286.02. A contingency amount of $456,629.00 for a total project budget in the amount of $5,022,915.00.

Pros:

- This project will replace existing waterlines. The subject lines are undersized, provide inadequate fire protection, and/or have a high risk of failure. Replacement of these lines will help to improve the service and reliability of the water system.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

The funding needed for the construction agreement is currently allocated within the Water Resources Capital Improvements Project (CIP) Fund in the Small Waterline Replacement Project.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Cooper Construction Company, Inc., for the NEP Area 4 Water Distribution Systems Project for the bid amount of $4,566,286.02 plus a 10% contingency in the amount of $456,629.00 for a total project budget in the amount of $5,022,915.00.

RESOLUTION BOOK NO. 39 - PAGE 57

Q. RESOLUTION NO. 17-163 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A GRANT FROM THE N.C. DEPT. OF AGRICULTURE AND CONSUMER SERVICES TO ASSIST IN PERFORMING A GAP ANALYSIS FOR THE CITY'S URBAN FOREST PROGRAM, AND IF AWARDED, ENTER INTO SAID GRANT AGREEMENT

ORDINANCE NO. 4601 - BUDGET AMENDMENT FOR GAP ANALYSIS FOR THE CITY'S URBAN FOREST PROGRAM

Summary: The consideration of a resolution allowing the City Manager to apply for and accept a grant from the North Carolina Department of Agriculture and Consumer Services through the North Carolina Forest Service, Urban & Community Forestry Program to assist in performing a gap analysis for the City's Urban Forest program; and the associated budget amendment, in the amount of $6,000.

The City is seeking to continually improve the urban tree program within the City. Trees provide value to our citizens by providing a sense of well-being, security, providing stormwater values, and promotes aesthetics for our community.

The City's Tree Commission is actively working toward promoting the efforts city staff provide, a necessary component for the City to continue to move forward with an Urban Forestry Plan is to perform an Urban Forest Gap Analysis of current programs and policies. This gap analysis will be the building block for the Urban Forest Plan that will be the next step in the City's effort.

City staff is seeking assistance from the North Carolina Department of Agriculture and Consumer Services through the North Carolina Forest Service, Urban & Community Forestry Program for funding for this analysis. City Council, through the budget process, provided funds to move forward with this effort. The grant will allow City funds to be maximized. The grant will total $6,000.

Pros:

- Approval of this action will allow the City to move forward with the Urban Forest Gap Analysis
- The analysis will provide guidance to City Staff on areas to improve regarding the urban forest program
- This project will be the building block for the Urban Forest Plan

Con:

- The remaining funding for the analysis will be funded from the general fund.

By obtaining this grant, the City's funds will be maximized to allow for completion of the analysis.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for and accept a grant from the North Carolina Department of Agriculture and Consumer Services through the North Carolina Forest Service, Urban & Community Forestry Program to assist in performing a gap analysis for the City's Urban Forest program, and the associated budget amendment, in the amount of $6,000.

ORDINANCE BOOK NO. 31 - PAGE 267

R. RESOLUTION NO. 17-164 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AMENDMENT TO AN EXISTING LEASE AGREEMENT WITH SKYLAND VOLUNTEER FIRE DEPARTMENT INC. FOR SPACE TO BE LEASED AT 11 POND ROAD

Summary: The consideration of a resolution authorizing the City Manager to sign an amendment to an existing ground lease agreement that will change the premises being leased by Asheville Police Department (APD) to a new building owned by the Skyland Volunteer Fire Department South Asheville.

In 1995, the Skyland Volunteer Fire Department (Skyland VFD) signed a 99 year ground lease with the City of Asheville (as tenant) to allow the Asheville Fire Department (AFD) to lease space in the building at 9 Miller Road in South Asheville. In 1999, the City determined that it was in the public interest to establish a police substation in the same space and the original lease was amended to allow for that use. The amendment allowed for a five year lease with one five-year renewal. That lease that governs APD's use will expire in 2020.

In May of 2016, the Skyland VFD purchased an adjacent building that fronts Pond Street. It was formerly operated as a daycare center. Skyland VFD has been up-fitting the space for use by administrative staff and they have requested that the Asheville Police Department relocate and occupy space in the new building. The Asheville Fire Department will continue to occupy space in the structure at 9 Miller Road. APD will have exclusive use of three rooms within the Pond Street building for a total of 1,385.5 square feet of usable space. They will also be able to utilize the following common areas: exercise room, wash room, kitchen and break room. They will also have access to ten non-exclusive parking spaces adjacent to the building at 1 Pond Street. They would be allowed to continue parked vehicles south and east of 9 Miller Road. An additional exhibit shows the layout within the Pond Street facility.

Pros:

- APD will be able to move in and begin using the premises.
- APD will have access to more space with better facilities.
- The current rental rates will not change.

Con:

- None.

There is no fiscal impact in that the City will continue to pay the $5,000 per year that they currently pay to lease the facility.

Staff recommends City Council adopt a resolution authorizing the City Manager to sign this Ground Lease Agreement Amendment to include the new facility.

RESOLUTION BOOK NO. 39 - PAGE 59

S. RESOLUTION NO. 17-165 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDING FROM THE FEDERAL TRANSIT ADMINISTRATION SECTION 5339, BUSES AND BUS FACILITIES GRANTS PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to accept funding from the Federal Transit Administration (FTA) Section 5339; Buses and Bus Facilities Grants Program.

The Section 5339 grants program provides funding through formula allocations and competitive grants. The City of Asheville receives an annual allocation from the formula program that averages about $245,000. The funds can be used to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.

Transportation Department staff has identified a much needed project to completely renovate the Transit Center which is located between Asheland Avenue and Coxe Avenue in the Central Business District. This project, which is identified as the "Transit Station Renovation", has a total of $750,000 in City Funds committed to it and staff would like to add the Federal Fiscal Year 2014 Section 5339 formula allocation of $213,911 in order to establish a total project budget in the amount of $963,911.

Previously, staff would just move forward and set up projects using these funds but a new Grants Policy with an effective date of May 15, 2017 has changed that action. In order to provide consistency and a good audit trail throughout all of the City's departments, it is important that City Council officially accept all funds that the City receives.

Pros:

- The renovated Transit Center would provide a more comfortable and modern setting for transit customers.

- The renovated Transit Center would likely increase ridership.
- The renovated Transit Center would meet current ADA compliance requirements.

Con:

- Local match in the amount of $53,477.

The total project budget equals $963,911 including Federal Fiscal Year 2014 Section 5339 formula funds in the amount of $213,911 and City Funds in the amount of $750,000. The required Local match of $53,477 is included in the City's commitment. The appropriate budget amendment will come to City Council for review and approval before the project begins.

Staff recommends that City Council approve a resolution authorizing the City Manager to accept the Federal Fiscal Year 2014 Section 5339 formula funds in the amount of $213,911 to be used for the "Transit Station Renovation" project.

RESOLUTION BOOK NO. 39 - PAGE 60

T. RESOLUTION NO. 17-166 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PUBLIC/PRIVATE PARTNERSHIP AGREEMENT WITH THE DEVELOPER/OWNER OF 10 BROADWAY (MHG TOWER, LLC) FOR THE PAVING OPERATIONS WITHIN THE PUBLIC RIGHT-OF-WAY ALONG COLLEGE STREET

ORDINANCE NO. 4599 - BUDGET AMENDMENT FOR PUBLIC/PRIVATE PARTNERSHIP WITH MHG TOWER, LLC

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a public/private partnership agreement with the developer/owner of 10 Broadway (MHG Tower, LLC), for the paving operation within the public right of way along College Street; and (2) a budget amendment in the amount of $14,304 to receive and budget the payment from the developer.

The City has plans to mill and resurface College Street from Spruce Street to Broadway. As part of the construction of the development at 10 Broadway, work within the City's rights of way required the developer to mill and resurface a section of College Street.

In order to have smooth transitions in the riding surface of the roadway, City staff discussed the potential partnership with the development team, a plan to perform the necessary work within public rights of way became the most cost effective and viable option in order to minimize conflicts and disruptions to the traveling public and to also provide cost savings through the partnership.

As part of the permitting for the property, the developer is required to mill and resurface one lane of College Street. The plan would be for the City to contract the paving operations for the entire project within the public right of way, inspect the work and administer the contract, rather than the developer/owner undertaking their portion of the work separately; and the developer/ owner will reimburse the City for their share of the cost of the work. The owner will be responsible for the estimated work associated with their development, and the total cost to the developer will be $14,304. The coordination of the work will be critical as this is a very heavily used section of our City.

Pros:

- If approved, the City team would be able to move quickly on the work, minimizing impacts to the traveling public.
- The project will improve the riding surfaces of these roads

- This project will maximize City's funding to allow for more infrastructures to be installed through this public private partnership.

Cons:

- The paving operation will be disruptive to the area during construction.

The estimate for this project is $64,563. The developer will be responsible for $14,304 toward this project. The remaining cost is proposed to be paid by the City through the annual resurfacing program.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to execute a public/private partnership agreement with the developer/owner of 10 Broadway (MHG Tower, LLC), for the paving operation within the public right of way along College Street; and (2) a budget amendment in the amount of $14,304 to receive and budget the payment from the developer.

RESOLUTION BOOK NO. 39 - PAGE 61
ORDINANCE BOOK NO. 31 - PAGE 256

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda, minus Consent Agenda Items J1. And J2, and with the addition of Item Q2. This motion was seconded by Councilman Bothwell and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

J. RESOLUTION NO. 17-156 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH MCDONALD TRANSIT FOR OPERATIONS AND MAINTENANCE OF THE ASHEVILLE TRANSIT SYSTEM

ORDINANCE NO. 4597 - BUDGET AMENDMENT TO FUND THE FISCAL YEAR 2017-18 COSTS FOR OPERATING AND MAINTAINING THE ASHEVILLE TRANSIT SYSTEM

Assistant City Manager Cathy Ball, along with Transit Coordinator Ely Mathis said that this is the consideration of: 1) a resolution authorizing the City Manager to enter into an agreement with McDonald Transit for operations and maintenance of the Asheville transit system (ART); and 2) a budget amendment in the amount of $441,000 in both the General Fund and the Transit Services Fund utilizing General Fund unassigned fund balance to fully fund the FY 2017-18 costs for operating and maintaining the Asheville transit system.

On August 23, 2016, the Finance Committee directed staff to move forward with an RFP that would transition the transit system from the current Management Company model to a 'Turn-Key' Operations and Maintenance Contract (O&M) model. The O&M contracting method is new to the City of Asheville, which currently operates its transit service under a transit management contract with operations and maintenance personnel employed by Transit Management of Asheville. Under the new O&M Contract, all of the elements necessary to provide the transit service will be the responsibility of the contractor, with City oversight, and the contractor will be responsible for providing all the specified scope of services for a fixed price. The O&M contract places the performance responsibility and cost risk associated with the transit service on the contractor, rather than the City. The new contract includes higher performance standards and penalties which can be imposed if performance standards are not met.

Because of the complexities of the new management model, the RFP process and draft O&M Contract were developed with a consulting team managed by the City's Transit Coordinator. The team included NWC Partners of California who specialize in organizational and optimization strategies to public transportation agencies, and Kent Woodman of the Thompson Coburn law firm in Washington, D.C. who specializes in FTA procurement policies and transit labor agreements.

The RFP was issued on February 20, 2017, with proposals due May 2, 2017. Seven companies attended the pre-bid conference and three companies submitted proposals; a higher level of interest than the previous management company RFP which only received two proposals. The Evaluation Committee that was selected to review the proposals was composed of: the Transit Projects Coordinator, the Transportation Planning Manager, one Transit Committee member, one representative from the Transit Union, and one transit rider who is a former bus driver and former member of the Transit Committee. The evaluation included two sections, each with a different weight for scoring: Technical Qualifications (60%) and Price (40%). The evaluation process also included an interview of each firm's management team as well as an opportunity for each firm to submit a Best and Final Offer based on feedback received during their interviews. After scoring all proposals based on both price and technical qualifications, the Evaluation Committee selected McDonald Transit as the highest ranked firm.

McDonald Transit is the bus services division of RATP Dev North America and operates in 32 communities in the United States, including the Mountain Mobility paratransit service provided by Buncombe County. Some of the areas where McDonald Transit stood out from the competition are: a highly experienced General Manager and Management Team, a significantly high level of driver training, a focus on bicycle and pedestrian safety within their proposed Safety Plan, high standards for equipment and facility maintenance, and a commitment to community outreach and partnerships.

Staff are confident in the results of the RFP process and the final selection made by the Evaluation Committee. Staff believe McDonald Transit is offering a higher quality of service for a price that is consistent with findings in the Independent Cost Estimates provided by our consultant team.

The new contract will include additional requirements which aim to significantly improve overall performance of the transit system and transfer liability to the Contractor. These changes include:

- Three new managerial positions: Director of Operations, Director of Maintenance, and Director of Safety and Security.
- One new Route Supervisor position, bringing the total number of Route Supervisors to four.
- Higher on-time performance standards, with penalties and bonuses to incentivize and ensure compliance.
- A uniformed security officer on duty whenever the Downtown ART Station is open.
- Higher vehicle and facility maintenance standards which will reduce delays and missed trips associated with mechanical issues.
- New support vehicles, which will be owned and operated by the Contractor, removing this liability from the City.
- New IT and office equipment, provided by the Contractor.
- A new Customer Complaint System. All complaints will be taken by City Staff, logged, and provided to ART Staff to follow up. City Staff will be able to monitor the Contractor's response to complaints and assess penalties if issues are not resolved in a timely manner.

In order to fully fund the contract with McDonald Transit for operations and maintenance of the Asheville transit system in FY 2017-18, staff is requesting a budget amendment in the amount of $441,000 from General Fund unassigned fund balance. The Adopted FY 2017-18 General Fund budget included a $1,181,000 appropriation from General Fund unassigned fund balance, which left fund balance levels at the 15.0% City policy target. With this additional $441,000 appropriation, unassigned fund balance would decrease to approximately 14.6% of the FY 2017-18 General Fund budget, slightly below the policy target.

It should be noted that the FY 2017-18 fund balance appropriation will only provide a one-year funding source for this agreement, an ongoing revenue source will need to be identified during the FY 2018-19 budget process.

Staff recommends City Council adopt: 1) a resolution authorizing the City Manager to enter into an agreement with McDonald Transit for operations and maintenance of the Asheville transit system; and 2) a budget amendment in the amount of $441,000 in both the General Fund and the Transit Services Fund utilizing General Fund unassigned fund balance to fully fund the FY 2017-18 costs for operating and maintaining the Asheville transit system.

Mr. Mathis responded to some questions raised by the Finance Committee as follows: (1) according to Federal Transit Administration regulations, modifications leading to price changes is prohibited (would require a new RFP); (2) fuel is retained by the City as it is cheaper through City operations; and (3) a delay in execution would result in a month-to-month basis with the current contractor.

Ms. Ball, Mr. Mathis and Chief Finance Officer Barbara Whitehorn then responded to various questions/comments from Council, some being, but are not limited to: who is responsible for what if a bus breaks down; if we went to fare free, would that speed up the loading for the buses to be on-time; detailed information on the estimated budgeted amount in the Fiscal Year 2017-18 budget and the additional budget amendment request of $441,000 today; why didn't Council see the contract before today; and at what time can we bring up an issue and what would be the procedure for doing that.

Councilwoman Mayfield noted that this is just about maintaining the contract; and, it just puts the point on the conversation we have agreed to have about finding some sort of dedicated source of funding for transit.

When Mayor Manheimer asked for public comment, no one spoke.

Councilwoman Mayfield moved for the adoption of Resolution No. 17-156. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 51

Councilwoman Mayfield moved to adopt Ordinance No. 4597. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 252

III. PRESENTATIONS & REPORTS:

A. COUNCIL STRATEGIC PRIORITIES UPDATE

Assistant City Manager Cathy Ball provided Council with a brief update of their VISION 2036. Although there are numerous accomplishments, she highlighted some of the following:

- A Diverse Community - (1) Equity and Inclusion Manager hired; and (2) Disparity Study underway.
- A Well Planned and Livable Community - (1) Comprehensive Plan process ongoing; (2) Food Action Plan progressing; (3) August consideration of Haywood Street interim uses; and (4) Neighborhood planning process ongoing.
- A Clean and Healthy Environment - (1) Compost Pilot Program at Thomas Wolfe; (2) Recycling extended to Pisgah View; (3) LED lighting upgrades at U.S. Cellular Center Parking Deck; (4) Workplace Challenge recognitions awarded; and (5) Energy Innovative Task Force action items budgeted
- Affordable Housing - (1) Development agreement reached for Hilliard; (2) RFQ issued for study of City-owned land; (3) supporting Lee Walker Heights Tax Credit Application; and (4) Eagle-Market Street Project progressing
- Transportation and Accessibility - (1) new Transit Management Contract recommended; (2) extended transit service budgeted; (3) Parking Study recommendations adopted; and (4) parking garage video call center activated.
- Thriving Local Economy - (1) Buncombe County Capital Loan Program stalled; (2) Minority Business Program outreach; (3) County/City housing and economic development partnerships to be explored; and (4) small business support ongoing.
- Connected and Engaged Community - (1) tracking reports on diversity on boards and commissions ongoing; (2) initial rounds of boards and commissions training completed; (3) survey of boards and commissions complete; report to Governance pending; and (4) NC DOT/I-26 Working Group collaborating

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 175 LYMAN STREET FROM RIVER DISTRICT TO MIXED USE EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 133 RESIDENTIAL UNITS, COMMERCIAL SPACE, RESTAURANT IN 5 BUILDINGS AND A PARKING STRUCTURE

At the request of the applicant, Councilman Smith moved to continue this meeting until August 22, 2017. This motion was seconded by Councilman Young and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 39 GERBER ROAD FROM COMMERCIAL BUSINESS II DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE PURPOSE OF CONSTRUCTING A THREE STORY, 85,000 SQUARE FOOT SELF STORAGE FACILITY

ORDINANCE NO. 4600 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 39 GERBER ROAD FROM COMMERCIAL BUSINESS II DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE PURPOSE OF CONSTRUCTING A THREE STORY, 85,000 SQUARE FOOT SELF STORAGE FACILITY

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to conditionally zone property located at 39 Gerber Road from Commercial Business District II to Highway Business District/Conditional Zoning for the purpose of constructing a three story, 85,000 square foot self storage facility. This public hearing was advertised on July 14 and 21, 2017.

The project site consists of a single moderately sized parcel of approximately 4.24 acres with frontage on Gerber Rd. A significant portion of the property, approximately 1.74 acres, is covered by road right-of-way and not considered part of the project area which is approximately

2.5 acres. The property is currently zoned CBII and is vacant, undeveloped property. The PIN for the property is 9655-26-2216 and the property owner is Asheville Gerber LLC.

The applicant is proposing to develop a large, three-story, 85,000 square foot commercial building that contains 675 storage units and a small 900 square foot office that supports the facility. Also included in the proposal is the creation of 25 off-street parking spaces, sidewalk, an internal pedestrian connection to the property to the south, and a 16,335 square foot green space to be made available to the community as a passive park.

Vehicular access to the property will be from Gerber Rd. at two separate driveway entrances located at either end of the proposed building, while pedestrian access is provided with new sidewalk to be constructed along the property frontage and along entrances to the building.

The majority of the off-street parking is located on the western side of the building nearest the office. Three additional groupings of two spaces each are located adjacent to the primary loading areas found around the perimeter of the building. Three handicap accessible parking spaces are provided, along with two bicycle parking spaces.

A significant portion (1.74 acres or 41%) of the subject property falls within the Gerber Rd. right-of-way and is excluded when calculating open space requirements. The portion of the property outside of the right-of-way is approximately 2.5 acres requiring a minimum open space requirement of .375 acres (16,335 square feet). The open space is also proposed to be designed and made available to the community as a small pocket park with walkways, a rain garden water feature, pollinator meadow, trees, shrubs, and park benches.

Landscaping is required on the site and includes street trees along the road frontage; building impact, and parking lot landscaping on the site; and dumpster screening around all dumpster locations.

This conditional zoning was approved by the Technical Review Committee (TRC) on May 1, 2017, and requires review by the Planning and Zoning Commission, City Council and Final TRC prior to zoning permits being issued.

The Planning & Zoning Commission reviewed this request at their meeting on June 7, 2017, and voted 5-0 in support of the proposed request. Nine members of the public commented on the proposed project. Seven of the nine supported the project for various reasons including:

- A preference for low traffic, low impact uses (*challenges with traffic were cited including a suggestion to look at adding a lane to Gerber Rd.*).
- The value/benefit of a community park
- Convenience to residents in the area
- Improved connectivity with new sidewalk connections
- The developer's willingness to revise the proposal based on community input

One individual opposed the project stating the overabundance of storage facilities in south Asheville, and another member of the public was neutral but requested consideration for a crosswalk across Gerber Rd.

The applicant is seeking to conditionally rezone the property to Highway Business-CZ for the purpose of expanding the uses permitted to allow for the self storage facility not normally allowed under the current CBII zoning district. The Highway Business district is intended to support commercial, automobile oriented businesses along major commercial thoroughfares. Gerber Rd. is not classified as a major thoroughfare.

Conditions – A condition that reduces the front setback from 35 feet to 20 feet has been requested by the applicant.

The Planning & Zoning Commission also added the following conditions, as agreed to by the applicant:

1) Widen the sidewalk along Gerber Rd. to a minimum 6 feet
2) Add an awning to the door on Gerber Rd. or otherwise enhance the entrance
3) Limit internally illuminated signs to the west side of the project facing Gerber Rd.
4) Replace false windows with real windows where possible (not hitting the floor plate)
5) Limit free-standing business signage to no more than 50 square feet and 12 feet in height
6) Work with the community redefine the park as an open space amenity area

The subject property was rezoned from Urban Village (UV) to Community Business II (CBII) in 2012. Some of the remaining undeveloped UV zoned property received Conditional Zoning approval in 2012 for a large senior affordable housing project (Givens Gerber Park Apartments) which was subsequently amended in 2015 for a slight increase in density and minor site plan changes. The Palisades apartment development received a Conditional Use Permit in 2013 for its Level III apartment development located to the east/southeast of the subject property.

The subject property is bordered to the north by Community Business II (Gerber Village) and Highway Business-CZ (Givens Gerber Apartments). Directly west and south of the property is Commercial Industrial zoning supporting a mix of retail and service uses including the Earth Fare grocery. Lastly, to the east/southeast of the property is more Commercial Industrial property (Palisades Apartments).

Following a smart growth development policy, the subject property was originally part of the Gerber Urban Village proposal approved in 2001 that originally included 16 acres. Approximately 7.5 acres was developed under the plan, however, the balance of the property went undeveloped and the subject property was eventually rezoned to Community Business II in 2012. As stated in the 2012 staff report, the CBII zoning was chosen, *"to provide areas for medium to high density commercial uses serving several residential neighborhoods. The district requires parking to be placed to the side or rear of the building which is a pedestrian oriented building standard to encourage pedestrian access and movement through the district. The location for CB II zoned areas is appropriately located on major thoroughfare streets to ensure adequate access. The list of allowed uses is extensive in anticipation of the wide range of commercial uses needed to serve as a community base".*

The zoning in this area represents a transition from a history of commercial and light industrial uses to one of a mix of residential, service, employment and community based businesses. The Highway Business zoning has been restricted to the west side of Hendersonville Rd. where suburban highway oriented development is expected. Self service storage facilities are typically utilized by individuals outside the neighborhood and do not directly support the immediate community and has not been regarded as a use that is community based. The small green space proposed, however, does help support the community.

The Asheville City Development Plan 2025 highlights the importance of smart growth and very specifically identifies the need for, and value of compatible infill housing and quality employment opportunities. The proposed storage facility does not achieve any of these goals and fails to contribute to an inclusive, multi-modal, mixed use, urban community identified on the Future Land Use and Transportation Plan map.

Additionally, while not yet adopted, the draft comprehensive plan continues to identify the same area as a mixed-use, "transit supportive node" illustrating a continuity of community interest for infill development that supports larger community goals.

The proposed development most closely aligns with the goal of a Connected and Engaged Community where, on April 24, 2017, the developer and their design team met with a

group of South Asheville residents to explore options for the property that would be desirable from the standpoint of the south Asheville residential community. The developer responded by retaining (and slightly expanding) the lowest traffic generating piece of the proposal (self storage), while adding a passive park and green space that took the place of 6000 square feet of future service/retail space. The revised proposal also removed a small amount of on-street parking at the request of the residents.

While supporting the goal of a Connected and Engaged Community, the current proposal is contrary to other goals stated in the Plan especially in the areas of housing, diversity, and economic development and fails to meet the community vision for a vibrant, mixed-use, multi-modal community reflected in this and other plans.

Considerations:

- A self-storage facility does not provide housing, a needed community service, or employment opportunities.
- The self-storage facility does not activate the street or engage the pedestrian with a single door entrance, blank walls and false windows.
- A self-storage facility is a low traffic generator.
- Proposal includes 16,335 s.f. green space to be made accessible to the community but will be privately maintained.
- The building is designed to accommodate future adaptive reuse.
- There have been eight applications for self storage facilities received in the last 24 months including:
    - 890 Hendersonville Rd. (CZ denied at Council)
    - 1292 Hendersonville Rd. (Level II)
    - 2130 Hendersonville Rd. (Level II)
    - 3175 Hendersonville Rd. (Level II)
    - 39 Gerber Rd. (CZ)
    - 311 Sardis Rd. (Level II)
    - 165 Glenn Bridge Rd. (Level II)
    - 701 Bleachery Boulevard. (Level II)
- There are approximately 19 storage facilities (not including the eight applications noted above) located in the Asheville area.

Based on policies stated in the Comprehensive Plan and other plans staff finds this request is not reasonable, and is not within the best public interest, and recommends denial of the proposed conditional zoning as proposed.

Mr. W. Louis Bissette, attorney representing the Gerber Road Self-Storage Facility, briefed Council on the the history of Gerber Village. He said there are approximately 1200 apartments in a one mile radius of the proposed project that are built or are in the process of being built. Since many homes are getting smaller, there is not a lot of room for on-site storage. Also in the area there are many businesses, small service oriented offices and professionals that don't have available storage. The storage facility will be able to fee up office space by storing items workers don't use regularly, will provide a space for extra furniture and equipment until the business needs it, allows a business to save money by buying office supplies in bulk and storing them for future use, etc. He felt that this location will provide a convenient storage area for businesses and residents, will reduce travel miles (and thus reduce traffic congestion) for those that have to travel to other storage locations. He provided a letter dated July 24, 2017, from Chief Executive Officer of Givens Kenneth Partin, that states "Givens supports the proposed Gerber self-storage project by Pulliam Properties. We feel that the use and the look of the project is a good fit for the community and will be a useful amenity to Gerber residents. We recommend that the Council approve of this project." This project will have no impact on services or utilities. Due to the zoning designations around this project, this use is allowed, but just not on this property.

He said the building will fit in the topography of the site and the exterior will be consistent with other sues in the area. He urged the Commission to approve this conditional zoning request.

Mr. Bissette said that they are agreeable to a condition that the developer install a crosswalk as shown on the revised site plan.

Mr. Chris Day, from Civil Design Concepts, provided the Commission with a brief update on the site design. He said that the project will include a sidewalk from Gerber Road all the way up to the railroad tracks. Their will be a 5-foot planting strip with a 5-foot sidewalk. After their two neighborhood meetings and TRC, they changed their project to remove the retail and create a pocket park available to the residents and community. He noted that the crosswalk actually exists but it doesn't lead anywhere. They have coordinated their site plans so the crosswalk aligns with the front of their building and ties in with the connectivity onto the Earth Fare Shopping Center. Now it is a high visibility crosswalk painted on the pavement and they will add signage to yield to pedestrians in accordance with the City's Transportation staff.

Mr. Hobert Orton, applicant, briefly explained their neighborhood meetings and asked Council for their support.

In response to Councilman Bothwell, Mr. Day explained the rain garden feature..

Mayor Manheimer opened the public hearing at 6:02 p.m.

Ms. Pat Deck, representing the Sweeten Creek Association of Neighborhoods (SCAN), said that they support the proposed self-storage facility. At their neighborhood meeting, they made two suggestions, both of which have been incorporated into their plan.

Mayor Manheimer closed the public hearing at 6:06 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the Conditional Zoning request from Community Business II (CBII) to Highway Business Conditional Zone (HB-CZ) to allow for the construction and operation of a self-storage facility at 39 Gerber Rd., with the condition (being added to the B.1 conditions) that the developer install a crosswalk from the front of their building to the Earth Fare Shopping Center, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) supports moderately scaled commercial development near a commercial highway corridor, and (2) engages community partners in the design for the site. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 258

C. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ADOPT THE RIVER ARTS DISTRICT FORM BASED CODE FOR THE GREATER RIVER ARTS DISTRICT AREA AND THE ASSOCIATED PROPERTY REZONING

Project Manager for the River Arts District Form Based Code Sasha Vrtunski said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to adopt the River Arts District Form-Based Code for the greater River Arts District area and the associated property rezoning. This public hearing was advertised on July 14 and 21, 2017.

Over the last two years, the city has been engaged with the River Arts District on new zoning districts for the area. The code calls for the creation of seven new zoning districts that are

tailored to the area. Form-Based Codes are a newer zoning tool that focuses on the form and placement of new structures on parcels instead of relying on a list of permitted uses. By emphasizing the building form, the character of the area is enhanced and protected because the buildings - with their defining features and their placement in relation to the street and sidewalk - create a strong neighborhood context.

For each district in the area, the focus is on the placement of buildings in relation to the public realm - or rather the street and sidewalk. The districts also define different allowable heights, setbacks, uses, and building frontage. This code divides the district into seven zoning types based on their location, topography, road widths and potential for a mix of development.

District Name	Primary Uses	Notes
RAD – Residential	Residential – some small in-home commercial/studios	Relatively small area of the district is in this zoning category.
RAD – Neighborhood Transition RAD – Shopfront RAD – Lyman Hollow RAD – River	Mixed Use, various heights depending on location Includes light industrial and in some districts, industrial.	Maximum heights vary between 3 and 7 stories. Scale is sensitive to adjacent neighborhoods. Height bonus for affordable housing in the RIV and SHP districts.
RAD – Industrial	Industrial uses, some secondary commercial allowed	Currently only on New Belgium location, but other property owners could request it
RAD - Open Space/Public Facilities	Park land, open space, trails, public facilities including community centers, playgrounds, fire stations, etc.	Allows for a small amount of commercial uses in support of recreation, such as bike rentals, snack bar, etc.

In addition to the above areas, there are a small number of parcels on the outside edge of the district where rezoning is being proposed to ensure that zoning is in line with community goals. Two of these parcels have remnants of older commercial zoning, but would not be able to be developed commercially because of size, topography and streets. All three parcels in this case will be rezoned or partially zoned to RM-8, which is harmony with the surrounding parcels. These areas are noted on the map with a purple hatch symbol.

Changes to the Draft Code

Since the release of the previous draft code (on 12/12/16) the following changes have been made to the current proposal:

- Buildings that are adjacent to neighborhoods are limited to 3 stories on Roberts Street and the side streets near Craven Street.
- More flexible building placement requirements for areas north of the I-240 bridge. These properties have the railroad line in the front of the properties, and the river on the rear, so development may be more oriented to the river.
- Affordable housing bonus in the RAD-RIV district was increased to 2 stories for 20% of units

being affordable as defined by the city. Through input, staff gathered that the 1 story bonus would not be enough to incent the affordable units.

- A section of City-owned land on Ralph Street (behind the Green's gas station) has been added to the residential zoning area. This land could accommodate a small amount of units that could help activate this part of the street. This property is not a part of future park development planning.
- Some reductions in requirements, such as strict floor heights for ground floors, reduction in transparency for the Residential district from 30% to 20%, live/work unit size limit.
- Murray Hill Park was originally included in the form-based code project area and was proposed to be re-zoned from RM-16 to Open Space/Public Facilities district and the RAD-RES district. After conversations with the community, the area was taken out of the proposed rezoning area. This site is still to be considered for potential future housing as part of the city's strategy to repurpose city-owned land for that use, but both staff and community members agreed that a more in depth process for this site would result in a tailored solution for this property. Current zoning already allows for multifamily housing.

Short-Term Rentals

As with other mixed use districts in the city, short-term rentals (up to 20 rooms) would be allowed as-of-right under the proposed form-based code with the exception of the RAD-RES, RAD-IND and RAD-OSP districts (a short-term rental with 21 or more rooms would fall into a rezoning application via conditional zoning). Short-term rentals are considered as "lodging facilities" in the Permitted Use Table. Lodging facilities also include hotels and motels (short-term rentals are not a separate use from hotels). Under the current zoning in the River Arts District, lodging facilities (up to 20 rooms) are a permitted use in the Commercial Industrial (CI) and River (RIV) districts. Bed and breakfast inns, which are defined as having between 4 and 20 guest rooms and have an onsite manager who provides supervision throughout the day/night, are a separate use from lodging facilities.

There are some properties along Craven Street and Roberts Street that are currently zoned RM-8, and one zoned RM-16CZ, that are not allowed to have lodging facilities. There has been general agreement in the community over the past two years that the areas around Craven Street and other areas on the east side of the river are appropriate for mixed use development. Concerns about lodging uses in the form of short-term rentals, have only arisen in the last two months.

Some residents of East West Asheville have raised concerns that Craven Street would become mostly devoted to short-term rentals across from New Belgium Brewing. Staff is aware of several property owners interested in pursuing development of short-term units on Craven Street.

Staff provides the following options for City Council consideration:

1. Allow lodging facilities (up to 20 rooms) throughout the River Arts District Form-Based Code area with the exception of the RAD-RES, RAD-IND and RAD-OSP districts (as the proposed code is currently written);
2. Allow lodging facilities (up to 20 rooms) where they are currently allowed - this would require an overlay district to be created since the new zoning district boundaries do not align with the existing zoning districts;
3. Remove lodging facilities (up to 20 rooms) from the RAD-NT district, which includes Craven Street, and across the river: Roberts Street, parts of Clingman Avenue and Haywood Road; or,
4. Eliminate short-term rentals throughout the entire form code area by removing lodging facilities (up to 20 rooms) as a permitted use in the Permitted Use Table. Any lodging

facilities would then have to apply for conditional zoning. Bed and breakfast inns could remain in the Permitted Use Table as an allowed use.

Public Participation and Outreach

The final version of the code was developed after an extensive two year process:

- An advisory committee of property owners, business owners and artists was formed and this group met approximately 10 times throughout the process.
- A kickoff meeting was held in June 2015 to introduce the process and encourage participation in the charette.
- A five day charette was held at 372 Depot Street in July 2015. This included a public workshop, stakeholder meetings, individual interviews and a closing public meeting.
- The first draft was released in March 2016, followed by a large community meeting and smaller meetings with stakeholders in April.
- An Open City Hall survey was posted on the city's website along with the draft code.
- Based on public and staff comments, revisions were made to the code and a second draft was released in December, 2016. Another public meeting followed the release of that draft.
- In January 2017, a joint work session of the Planning and Zoning Commission and the Asheville Area River Redevelopment Commission (AARRC) was held to discuss the code in depth with Lee Einsweiler, the lead consultant.
- Throughout the process, staff has worked and met with property owners, the RAD Business Association (RADBA) and neighbors of the area.
- Letters were mailed to all property owners whose property was under consideration for a zoning change when the initial draft was released in 2015, and again when the April 2017 draft was released in advance of the AARRC meeting in May.

Recent Notification

- Legal advertisement in the newspaper listing all property parcel identification numbers.
- Approximately 463 letters sent to owners affected by the proposed zoning changes and to neighboring property owners within 200 feet of those properties (for both Planning and Zoning and City Council hearings).
- Posting of 'Z' signs with date of the meeting in the district area.
- Updates to the City website, blog and social media notification.
- Updates to the River Arts District Business Association and River Arts District Artists Association.
- Email to an on-going list of interested residents and property owners

There were about 8 citizen inquiries before the Planning & Zoning Commission meeting to staff via email or phone calls to understand the zoning changes, and most of these were from neighbors, not owners within the district.

The draft code was reviewed by the Advisory Committee in late March and members felt that it had improved significantly from the first draft and felt comfortable with it moving forward in the approval process. In May, the Recreation Board reviewed the rezoning of Murray Hill Park and the Dr. Wesley Grant Sr. Southside Center property to the RAD-OSP district and the proposal to rezone parts of these parks for future housing. The Board voted to support the plan with a 7-0 vote, with a strong recommendation that if any city park land is used for housing that it be limited to affordable housing.

On May 11, the Asheville Area Riverfront Redevelopment Commission (AARRC) reviewed the code and voted 8-5 in support of it. There were several members who thought the rezoning of the areas along the French Broad River that are currently zoned River District should

wait until the RADTIP improvements are complete, but did not offer any suggestions of how the code could be changed to make it more acceptable.

On June 7, the Planning and Zoning Commission reviewed the code and held a public hearing on it. The Commission voted 5-0 in support of the code. There were 12 citizens who spoke during the public comment time. These comments can be grouped into several categories, which she addressed separately: concern about short-term rentals along Craven Street; concern about height allowed on Lyman Street in the Lyman Hollow area noting that the existing height allowed is 80 feet and with the proposed code the height is reduced to 65 feet (or 5 stories) plus a 20-foot planted buffer; concern about housing being placed on Murray Hill Park; and, one speaker preferred to remove a large portion of the rezoning area (between the river and the railroad tracks) from the proposed form code.

The Comprehensive Plan encourages denser sustainable infill development along existing corridors in the city. Changes to the UDO that further these goals is encouraged. Form codes are a newer innovative tool that focus on community goals developed through public processes highlighting input and involvement and this is encouraged in the Comprehensive Plan. This plan created with extensive community input provides a vision for the future of the River Arts District that includes mixed-use development and multimodal transportation along with a number of other community identified goals such as historic preservation, flexibility for property owners and economic health. The details of the form code proposal provide specific requirements that mesh with the community vision and furthers the objectives of the Comprehensive Plan.

Additionally, The Wilma Dykeman Riverway Master Plan envisions reuse and redevelopment of property and buildings in the River Arts District. The form-based code provides a predictable framework for that redevelopment to happen over time.

The River Arts District Form-Based Code fits within City Council's vision for A Well-Planned and Livable Community and A Thriving Local Economy. The code takes the community vision developed during the charette process and numerous input sessions and brings it together in the zoning. The code provides a greater level of clarity and predictability for the community, property owners and developers. Given the large investment that the city is making in the district with new multimodal transportation infrastructure, the form-based code will complement those improvements. When the city has made investments in walkable urban realms, private investment has quickly followed as evidenced in the downtown. Lastly, the process used to develop the code also aligns with Council's goal of a Connected and Engaged Community, through the high level of engagement with stakeholders.

Staff recommends the adoption of the River Arts District Form-Based Code and believes that the form code and rezoning proposal are reasonable, are in the public interest and are consistent with the Comprehensive Plan by laying the framework for mixed-use development, future job growth and housing. Moreover, the rezoning aligns with the River Arts District Transportation Improvement Project (RADTIP) and The Wilma Dykeman Riverway Master Plan in that it will help create a walkable, vibrant public realm and mixed-use district. After 12-18 months, staff will review and evaluate the code and address changes if needed.

Ms. Vrtunski responded to various questions/comments from Council, some being, but are not limited to: what options are available if a new business wants to orient toward the railroad track and not place their building against the sidewalk; what kind of requirements are placed on owners if they are currently an existing use but what to add or change their building; what is the threshold to where the owner would have to comply with the new Code if they are rebuilding a structure which suffered catastrophic damage; further explanation on areas where short term rentals are currently allowed on Roberts Street and Craven Street; what is the rationale for changing the area above New Belgium from RM-16/CZ; and is the East-West Neighborhood Association taken a position on this proposed Code.

Mayor Manheimer opened the public hearing at 6:43 p.m.

The following individuals expressed concerns regarding the Form Based Code for various reasons, some being, but are not limited to: potential loss of industrial zoning along the river; remove the area between the railroad tracks and the river until such time as the traffic pattern is completed; possible conflict in different provisions regarding recycling plants; request that RAD-Lyman Hollow be limited to 3 stories (not 5 stories) as it adjoins a residential neighborhood; possibility of rezoning out industrial uses with will affect the livelihood of people who work there now; short-term rentals should be allowed in the RAD Neighborhood Transition District if the owner of the residence lives in the home as an Asheville citizen and if the owner is home a certain percent of the year; and if any changes are made to this proposed code that it be re-advertised for additional public comment:

Mac Swicegood
George Morosani
Albert Sneed, representing Asheville Waste Paper
Michael Caldwell, resident on Vernell Avenue (presented petition)
R.L. Bailey
Scott Welch, owner of Consolidated Waste Services
Hannah Choueke, member of the Craven Street Property Owners Association
Business owner in the RAD
Marion Patton
Mike Figura, property owner on Craven Street
Jerry Sternberg, President of the River Rats
Jonathan Wainscott, resident off Craven Street
John Mason, Co-trustee of two trusts in the RAD
Eddy Dewey

Mayor Manheimer closed the public hearing at 7:20 p.m.

Councilman Bothwell agreed with removing the portion between the railroad tracks and the river because the uses will remain the same and we should wait to see what will happen when the traffic pattern is completed. He would support tabling this matter and reconsidering it at a later date.

In response to Councilman Smith, City Attorney Currin said that for property owners who suffer a catastrophe (e.g., fire, 500-year flood), they would need to apply for a variance through the Board of Adjustment, or they might be able to apply for a conditional zoning - but it's really depending on the circumstances on a case by case basis.

After hearing public comments, Ms. Vrtunski responded to the various questions raised by the public, along with the Council. Some questions/comments being, are not limited to: do any of the businesses in the area between the railroad and the river make use of the railroad; and confirmation that this proposal reduces the height limit in the RAD Lyman Hollow District.

Councilman Smith felt that there will be a massive influx of development in that area. We need to look at how we want this area to develop for the community and not the tourists. He felt we need to exclude lodging from the allowable uses throughout this zoning district. He noted applicants can go through the conditional zoning process if they wish to place a short-term rental in an area, but it won't be by right allowed in the district.

Councilman Smith moved to approve the River Arts District Form-Based Code but eliminating short term rentals throughout the entire Form-Based Code area through (or by) removing lodging facilities up to 20 rooms as a permitted use in the permitted use table. Any lodging facilities would then have to apply for conditional zoning. Bed and breakfast inns could remain in the permitted use table as an allowed use; and find that the request is reasonable, is in

the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the code will encourage infill development and facilitate vibrant mixed-use neighborhoods; (2) the rezoning will complement the future RADTIP road realignment and infrastructure improvements; and (3) the proposal was developed with a robust input process that included input from property owners, businesses and stakeholders. This motion was seconded by Councilwoman Mayfield.

Councilman Smith noted that the homestay allowance remains.

Councilwoman Mayfield said that this Form Based Code is about us as a community and about how we will grow and what we want that growth to look like.

Councilman Haynes agreed that the area between the railroad and the river should be removed from consideration. He did not support taking out lodging facilities in a commercial zone when that is something allowed in other commercial zones in the City.

Councilman Smith said that he would initiate a review of lodging facilities in commercial zones throughout the City with the Planning & Economic Development Committee.

When Councilman Haynes disclosed that he owns two properties on Roberts Street, Ms. Vrtunski said that at this time, Councilman Haynes' properties are not included in this Form Based Code.

Because of the change in the proposal regarding short-term rents, City Attorney Currin said that this action will need to be remanded to the Planning & Zoning Commission for their consideration, which will require a public hearing and recommendation.

City Attorney Currin said that Council can give specific direction to the Planning & Zoning Commission on what Council wants them to look at, e.g., the area between the railroad and the river, or whether or not to include Councilman Haynes' properties or not. That way, the scope of the Planning & Zoning Commission review (and then Council review) will be limited to those changes.

Councilman Young is pleased with the growth in the RAD and supported the Form Based Code; however, he was not comfortable moving it forward at this time. He was also not comfortable with the way we are approaching short-term rentals peace-meal throughout the City. He felt the individuals who want the area removed from between the railroad and the river have not had the opportunity to adequately state their cases. Remanding this back to the Planning & Zoning Commission will give them that opportunity.

Vice-Mayor Wisler said that the idea of the Form Based Code is to look ahead to the future. She clearly believed that having short- term rentals in any residential is inconsistent with our vision for the RAD and inconsistent with the Comprehensive Plan.

Mayor Manheimer said that a major question we receive from the community is what is Council doing about growth for the people who live here. Since our toolbox is fairly limited, this is a tool we can use to shape our growth and help guide it. If we don't move forward with adopting this Code, it will be a missed opportunity to ensure that the future of the RAD reflects what the people want.

Councilman Bothwell supported remanding this matter back to the Planning & Zoning Commission.

The motion made by Councilman Smith and seconded by Councilwoman Mayfield carried on a 4-3 vote, with Councilmen Bothwell, Hayes and Young voting "no".

City Attorney Currin said that because the action did not pass by a 5-2 vote, a second reading will be required in order to adopt the ordinance.

City Attorney Currin restated that this action will need to be remanded to the Planning & Zoning Commission for their consideration, which will require a public hearing and recommendation. It will then be brought back to Council for another public hearing (limited to the change) and Council consideration.

D. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE RIVER PARKING REDUCTION AREA IN ITS ENTIRETY

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to remove River Parking Reduction Area in its entirety. This public hearing was advertised on July 14 and 21, 2017.

In March 2011, the City of Asheville adopted reduced parking standards for the River Arts District (RAD) to support the redevelopment of buildings in the area. The current section 7-11-2(c)(5) is provided as follows:

> (5) *Parking requirements for the River Parking Reduction Area.* All properties located within the River Parking Reduction Area (see map: Planning and Development Department) will be eligible for reductions based on the following:
>
> a. Projects with a base requirement of 30 spaces or less may receive a 50% reduction
> b. Projects with a base requirement of 31-50 spaces may receive a 30% reduction
> c. Projects with a base requirement of 51-75 spaces may receive a 20% reduction
>
> These reductions may not be combined with other reductions offered through individual zoning districts.

Since that time, a number of new businesses have opened in the area, New Belgium has opened, and a new greenway on the west side of the river has been completed. All of which have resulted in a higher number of visitors to the RAD and parking has become generally scarce during peak times. If the new form code is approved, there will be new parking standards for this area which are slightly lower than the Unified Development Ordinance (UDO) standards for most other districts. Property and business owners have indicated to staff that more parking is needed in the area. Since the new Form Based Code has a new parking table, this existing section needs to be removed so there is no conflict in the Code. This wording amendment is staff initiated to respond to changing circumstances and respond to community needs.

This wording amendment was reviewed by the Planning and Zoning Commission on June 22, 2017, and was approved 5-0. Staff has received no public comment on the amendment.

This wording amendment complies with City's Comprehensive Plan as it relates to exploring zoning tools that align with current trends and needs to encourage redevelopment and new investment.

The wording amendment aligns with the 2036 Council vision in the area of a Well-Planned and Livable Community. This amendment ensures that future development will provide adequate parking for those uses.

This proposal supports the goals outlined in the Comprehensive Plan and City Council 2036 Vision, the draft RAD form-code and staff recommends approval of the wording amendment.

Councilwoman Mayfield understood that the property owners in the RAD want parking. But, mandatory parking requirements do not create the kind of walkable community we are trying to create with this Form Based Code. We are trying to generate a walkable, pedestrian oriented place and having parking in front of every building and every studio does not do that. She encouraged the property owners in that area to explore more creative and better solutions around parking. Artists get traffic by people walking by their studios.

Mayor Manheimer opened the public hearing at 8:02 p.m. and when no one spoke, she closed the public hearing at 8:02 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the wording amendment removing the River Parking Reduction Area from Section 7-11-2(c)(5) in its entirety and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) Provides a consistent parking standard to support the viability of local businesses; and, (2) Ensures that the zoning code can adapt to the changing needs of the River Arts District as it continues to grow. This motion was seconded by Councilman Smith.

City Attorney Currin said that Council may wish to withdraw the motion pending a decision on the Form Based Code.

Vice-Mayor Wisler moved to reconsider her motion and replace it with a motion to remand this wording amendment back to the Planning & Zoning Commission, along with the RAD Form Based Code, and to consider those in conjunction with each other. This motion was seconded by Councilman Smith and carried unanimously.

E. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO A PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4548) IN THE URBAN PLACE DISTRICT/CONDITIONAL ZONING FOR CHANGES TO THE CONDITIONS FOR DEVELOPMENT OF A MIXED USE PROJECT AT THE PROPERTY LOCATED AT 146 ROBERTS STREET

ORDINANCE NO. 4602 - ORDINANCE AMENDING A PREVIOUSLY APPROVED CONDITIONAL ZONING (ORDINANCE NO. 4548) IN THE URBAN PLACE DISTRICT/CONDITIONAL ZONING FOR CHANGES TO THE CONDITIONS FOR DEVELOPMENT OF A MIXED USE PROJECT AT THE PROPERTY LOCATED AT 146 ROBERTS STREET

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to amend a previously approved conditional zoning Ordinance (Ordinance No. 4548) in the Urban Place District/Conditional Zoning for changes to the conditions for development of a mixed use project at the property located at 146 Roberts Street. This public hearing was advertised on July 14 and 21, 2017.

The project site consists of two separate parcels with a combined area of approximately 3.26 acres and frontage on Roberts Street, Clingman Avenue Extension and Park Avenue (north) in the River Arts District. The parcels were conditionally rezoned to Urban Place by City Council in 2013.

The project was first approved by City Council on October 22, 2013, under Ordinance no. 4241 and later modified under Ordinance 4414 on May 26, 2015 and amended again with Ordinance 4548 on January 10, 2017. Each time components of the building mix of uses have

changed or design and scale of the building have been modified.

Summary of Changes - The applicant is proposing an AMENDMENT to the previous approval.

	Proposed Change	***2016/17 Approval***	***2015 Approval***	***Additional Information***
Gross Floor Area	412,294 SF	408,400 SF	421,489 SF	**<1%** increase
Footprint	+/-85,985 SF	82,531 SF	82,531 SF	+/-4% increase
Residential Density	No change	235 (138 1bd, 97 2bd)	243 (146 1bd, 97 2bd)	No change
Retail	16,304 SF	17,872 SF	19,378 SF	8.7% decrease
Office	No change	None	8,789 SF	None provided
Building Height on Clingman Avenue	No change	50 feet	60 feet	No change
Parking	386 spaces (358 garage, 20 Roberts Street lot, 8 on-street, interior "surface" lot omitted	394 spaces (334 garage, 20 Roberts Street lot, 8 on-street, 32 "surface")	375 spaces (343 garage, 24 Roberts Street lot, 8 on-street)	**Loss of 8 spaces overall, 2% decrease**

The design and site layout is essentially unchanged from the previous approval. The project provides one large building on a base of structured parking. There are two levels of parking and four levels of retail and residential spaces but with the existing grade change on site, the overall height varies. The building remains 50 feet on Clingman and 68 feet from Roberts Street.

The access is unchanged from the previous proposal - there are two access points into the site, one two-way driveway from Roberts Street and the other two-way driveway from Clingman Avenue. The parking lot has two single-access driveways off Roberts Street. New sidewalks are shown along both sides of Roberts Street (6.5 feet along surface parking and 10 feet along building side) as well as the project frontage on Clingman Avenue and widths range from 7.5 to 12 feet. Additionally, the project has been designed to incorporate areas of pedestrian amenities both at the corner of Clingman and Roberts.

This project incorporates parking in several locations; there is a 386-space parking structure within the development *(previously 334 spaces)* and the 32 in an exposed surface lot accessed from the lower level in the garage has been omitted; the separate parcel across Roberts Street to the south is shown as a standalone parking lot with 20 spaces (2 HC accessible) and approximately 8 on-street spaces will be delineated through streetscape enhancements *(for a total of 386 spaces)*. Bike parking is also included throughout the site.

Landscaping is required on the site and includes street trees along all road frontages, building impact plantings, parking deck and dumpster screening and parking lot landscaping with a street buffer. Open space is also required in this zoning district, equal to 5% of the lot area. There was an approved condition related to landscaping which remains with this amendment.

Urban Place zoning includes specifics for building design and includes well-defined

operable entrances at regular intervals, fenestration requirements for the ground and upper levels and treatments to break up long façades. The previous approval included two variances related to distance between entrances and amount of fenestration; these variance approvals remain in place with this amendment.

Conditions - The current proposal includes the following conditions that will need to be approved by City Council. ***The only new or modified conditions relate to parking and building size.*** All others are unchanged but still carry over to this approval.

1. **Density** - The maximum density allowed by right in Urban Place is 64 units per acre, or 209 units for this site. The applicant is requesting an additional 26 units (a 12% increase - up to approximately 72 units per acre). Five percent of the units will be designated as affordable by the City's standards. ***This condition is the same as the January 2017 approval.*

2. **Building Size –** For buildings exceeding three stories, the maximum footprint is limited to 50,000 square feet with a maximum gross floor area of 200,000. The proposed footprint of the building is increased to 85,985 square feet (from the previous condition of 82,531 SF) and the gross floor area is increased to 408,400 square feet (from the previous condition of 408,400 SF). This condition is a result of building upon a base of structured parking and the loss of the interior surface parking lot. ***This condition is changed from the previous approval.*

3. **Sidewalks** - Sidewalks in the Urban Place District are required to be a minimum of 10' in width. Sidewalks are shown down to 6.5 feet along Roberts Street adjacent to the surface lot but a minimum of 10 feet along the building side and between 7.5 -12 feet along Clingman Avenue. There is an existing 5' sidewalk along Park Avenue which will remain. ***This condition is the same as the January 2017 approval.*

4. **Landscaping** – The applicant is requesting to greatly reduce parking deck landscaping requirements based on the existing site conditions where a grade change effectively shields the exposed deck levels and creates challenges to planting. ***This condition is the same as the January 2017 approval.*

5. **Setback** on Roberts Street - The maximum front setback is 15' and there is an area along Roberts Street that exceeds this standard. ***This condition is the same as the January 2017 approval.*

6. **Retaining Wall Screening** - The amendment includes a wall of approximately 25 feet in height at the northern edge of the interior parking area. Vegetative screening requirements apply to walls over 20 feet but due to the location and configuration of the parking and site; the applicant is requesting to include a creative aesthetic screening treatment.

The Urban Place zoning district was created to foster "higher density, mixed-use development that is economically viable, pedestrian oriented, visually attractive and contributing to the place making character of the City...to enhance the streetscape and offer a wide range of complementary land uses and employment opportunities...[and] intended in areas where the appearance of the built environment is important to the vitality of the area." Additionally, the zoning district was created with areas along the French Broad River in mind. The proposed amendments are in line with the Urban Place zoning district.

The amendment was recommended for approval by the Planning & Zoning Commission by a unanimous vote (4-0) at their meeting on June 22, 2017. One member of the public was present and expressed concerns related to the impact of the construction process on the neighboring studios.

66

The compatibility for this development was evaluated in detail with the previous approvals; the proposed amendment modifying details of the development can be considered minor and does not impact the high level of compatibility as previously reviewed.

This proposal is aligned with numerous aspects of the *City Development Plan 2025* as previously reviewed and the amendment as proposed does not impact the compliance with adopted plans.

Considerations:

- The amendment further reduces the mixed-use aspect of the project.
- City goals support mixed-use, infill development, especially providing residential uses in a walkable location proximate to transit and the Central Business District.
- All previous conditions as noted in the B.1 list still apply as well as variances previously approved.

Staff recommends approval of the amendment to the previously approved project for the construction of a mixed-use development, including the conditions as proposed by the applicant as detailed above. Staff has some concerns that the retail component has been reduced. Staff is recommending that the proposal approval include a range for many of the specific components of the proposal. With a project of this scale, having an allowance for smaller scale changes is both practical and addresses minor amendments as specific building details and funding are resolved. The overall impact of the development is still considered at the high end and for the low end of the approved range.

Planning & Zoning Commission recommended for approval by a unanimous vote.

Mayor Manheimer opened the public hearing at 8:08 p.m. and when no one spoke, she closed the public hearing at 8:08 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the conditional zoning amendment request for 146 Roberts, LLC for property located at 146 Roberts Street from Urban Place Conditional Zone (UP-CZ) to Urban Place Conditional Zone (UP-CZ) including the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on encouraging mixed-use development, especially in areas walkable to downtown and proximate to transit; (2) The proposal supports the goal found in the City's comprehensive plan of pursuing more intense infill development where appropriate; and (3) The design and uses create a pedestrian-oriented streetscape along Roberts Street and part of Clingman Avenue Extension. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 269

Closed Session

At 8:09 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including,

but not limited to: Kron vs. City of Asheville; Siemens Real Estate Holdings, LLC and Jim Siemens, Individually vs. City of Asheville; City of Asheville vs. Anne Marie Doherty; and Sidney M. Bach and Chris Peterson vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To establish, or to instruct the City's staff concerning the position to be taken by or behalf of the City in negotiating the price or other material terms of a contract or proposed contract related to real property. The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11(a)(5). This motion was seconded by Councilman Bothwell and carried unanimously.

At 8:56 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

F. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 1500 TUNNEL ROAD FROM HIGHWAY BUSINESS DISTRICT TO LODGING EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 5-STORY HOTEL WITH 86 ROOMS AND A TOTAL SQUARE FOOTAGE OF 42,200 SQUARE FEET

ORDINANCE NO. 4604 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 1500 TUNNEL ROAD FROM HIGHWAY BUSINESS DISTRICT TO LODGING EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A 5-STORY HOTEL WITH 86 ROOMS AND A TOTAL SQUARE FOOTAGE OF 42,200 SQUARE FEET

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone property located at 1500 Tunnel Road from Highway Business District to Lodging Expansion District/Conditional Zoning for the development of a 5-story hotel with 86 rooms and a total square footage of 42,200 square feet. This public hearing was advertised on July 14 and 21, 2017.

The project site is 1.8 acres at the eastern end of the City corporate limits on Tunnel Road/US 70. Properties to the north and east are not in the city and are zoned R-2, which is similar to a RM district in the city. The property has frontage along Tunnel Road and Briggs Road; both are state maintained roads.

Surrounding zoning is HB to the east. North and west of the parcel is Residential District (R-2) zoning, a Buncombe County zoning district which allows multifamily development and would be considered a Residential Multi-Family (RM) district in the city.

The applicant proposes to build an 86-room hotel. A portion of the parcel (.72 acre) on the east side has been left vacant for future development. This parcel will not be a part of the conditional zoning, and will be subdivided from the parent tract.

Access to the site is provided by a shared access driveway on the adjoining lot from Tunnel Road that is approximately 85 feet wide, with a 20 foot island. Staff has identified that this will need to be narrowed. There is a second access from Briggs Road, which is approximately 24 feet wide. There are a total of 90 spaces, including four ADA spaces, shown on the plans. Four bicycle spaces will be added at the building entrance. The hotel is an approximately three minute walk from the last stop of the E2 line of Asheville Redefines Transit (ART).

Plans show landscaping being provided for Property Line Buffer, Vehicular Usage Area, street trees and retaining wall screening. Open space is required for this project for 15% of the lot area. Plans indicate that this standard will be met.

The new Lodging Expansion District has several design standards in Section 7-8-45. As proposed, the project complies with most of the standards. The new standards require that within

100 feet of residentially zoned land, height is limited to that of the residential district. The hotel building is set 100 feet away from the residentially zoned property to the east and north, as the height of the building is is 62 feet. Fenestration requirements are set at 50% of the front facade, which this building meets.

The one design standard that the project does not meet is the building placement. The district requirements direct buildings to be place at the corner of corner lots. The design team for the project worked with several different layouts for the hotel, attempting to bring it closer to the street, and to be located outside of the 100 foot zone buffering residentially zoned lots, which is the project achieves. The final proposal has the building placed approximately 280 from the front property line. The main constraint is the topography of the site and an existing retaining wall that separates the site from the future development site to the west.

Conditions - The applicant is requesting a number of conditions including but not limited to:

1. A greater setback than set forth in the Lodging Expansion District.
2. A five foot sidewalk is provided along the full frontage of the parcel on Tunnel Road with a five foot planting strip.
3. Operator will run a shuttle to downtown and other destinations in Asheville. Bus passes offered to employees who request them for traveling to work.
4. Recharging stations for electric vehicles.

This project was approved with conditions by the Technical Review Committee (TRC) on June 4, 2017. On June 22nd, the Planning and Zoning Commission reviewed the proposal and recommended approval with a 5-0 vote. The majority of the discussion during the Planning and Zoning Commission meeting centered on sidewalks and connectivity. The applicant was proposing a 10 foot sidewalk along Tunnel Road, as required by zoning, and a five foot sidewalk from Tunnel Road to the entrance on Briggs Road. There was no sidewalk along Briggs north of the driveway to the end of the property. At the Planning and Zoning Commission the applicant agreed to provide a five foot sidewalk for the entire frontage along Briggs, and that the sidewalk along Tunnel Road would be a five foot sidewalk with a five foot planting strip instead of a ten foot sidewalk. There are approximately 18-20 homes at the top of Briggs Road. The City's Traffic Engineer looked at the average daily traffic counts for the hotel and the residents on Briggs Road does exceed 300 cars a day which is another trigger for sidewalks.

Public comment was very limited at the Planning and Zoning Commission. One resident from the neighborhood to the north commented that a sidewalk along Briggs was not necessary and that she and her neighbors did not want outsiders walking in their neighborhood. Staff received a phone call from a neighboring hotelier saying that traffic is dangerous on this section of Tunnel Road already, and they would like to see safety improvements.

If the proposal is approved by City Council it will be go through a Final TRC review.

The change in zoning to the expansion district is required because the project reaches the Level III threshold of 21 or more lodging rooms.

In June, 2016, City Council approved the ABCCM Veterans Housing Project located at 1401 Tunnel Road. This was a Conditional Use Permit (CUP) for an 88-unit, six story multifamily building. No other rezoning actions have been noted in the nearby area.

The proposed project, though somewhat taller than most buildings in the area, should be compatible with the surrounding context. Parcels to the west are zoned Highway Business and there are also a four-story Holiday Inn and Quality Inn and Suites. Residential properties are located above the hotel site to the north, approximately 23 feet above the ground level of the hotel, and will have a 30 foot buffer in addition to the 100 foot building setback from the rear

property line. This is similar for the property to the east (currently a wooded site), where the hotel will be lower than the adjacent residential parcels.

The redevelopment of this parcel aligns with the *City Development Plan 2025* in that it supports infill development where infrastructure is already present. However, the proposal does not align with the plan's strategy for more intense mixed-use development at commercial nodes as the surrounding area already contains several other hotels at this gateway area into the city.

The proposal aligns with the 2036 Council vision in the area of *A Well-Planned and Livable Community* – The project is located on a previous hotel site, which is now vacant, and will re-use the land for the proposed hotel use. The subject site is also located near a highway exit and the ART E2 bus line.

Considerations:

- Project reuses a previous hotel site that is now currently vacant.
- A five foot sidewalk with a five foot planting strip will be provided along Tunnel Road.
- A sidewalk is being provided for the lower section of Briggs Road, but not the section north of the driveway.

Staff recommends approval of the proposal based on policies stated in the Comprehensive Plan and *City Council's 2036 Vision Considerations.* The Department is recommending that the owner/developer complete the sidewalk along Briggs Road, but the applicant has not agreed to this condition. Staff finds this request to be reasonable and within the public interest and recommends support of the proposed conditional zoning as proposed.

Ms. Vrtunski said that in addition to the B.1 conditions, the following are revised conditions agreed to by the City and the developer:

1. The developer will contribute $10,000 into a fund maintained by the City to be used for the construction of a sidewalk along Tunnel Rd. east from Burleson Rd.
2. With respect to any of the items listed ... the City may elect to require the developer to pay an amount equal to the estimated cost of said item ... into a fund maintained by the City to be used to complete said item at such time as the City designates. This election must be made within 60 days of the date following the date of approval of the Conditional Zoning for the Subject Property.
3. The developer will include an allowance in the project budget of up to $10,000 for works of local art in the public areas of the building, including a sculpture to be placed near the eastern point of the property, in an area visible to traffic on Tunnel Rd., signifying the entrance into the City. Proof of a binding contract(s) for this work must be provided prior to the issuance of a certificate of occupancy.
4. The hotel owner/operator will provide passes for Asheville's bus system for those employees who request them in order to travel to and from work at the hotel.

Mr. W. Louis Bissette, attorney representing the applicant, gave a brief history of the property, noting that it was formerly the site of the Days Inn with an out of state owner. The applicant, H.P. Patel, bought the property in 2009 with the intent to build a hotel, but due to the economic downturn he could not obtain financing. Mr. Patel currently operates the Days Inn hotel across the street. This will be a small 86-room hotel targeted at customers looking for modern, affordable accommodations at a mid-range price point of $90-100 a night. The last hotel built in this area over 25 years ago. The hotel will basically serve the travelling public and a number of facilities in east Asheville. Regarding the sidewalk on Briggs Road, there are few houses at the

top of Briggs road and there is a lot of topographical challenges along the upper portion of Briggs Road. They will lose the vegetation on the east side of the property due to grading. They have heard from a number of residents on Briggs Road and they would prefer a sidewalk not be built. As an alternative to building a sidewalk on Briggs Road, the applicant proposes (1) build no sidewalk along Briggs Road; however, to to extend the sidewalk along Tunnel Road to the eastern edge of Burleson Road; (2) build a pedestrian access across his property from the lower end of Briggs Road to Tunnel Road; (3) install and maintain landscaping on that corner, which is the eastern gateway to the City; (4) install local art in his hotel and on his property at the gateway - possibly a sculpture; and (5) to contribute $10,000 into a fund maintained by the City to be used for the construction of a sidewalk east of Burleson Road. He will comply with the "Green Lodging Profile" promulgated by the American Hotel and Lodging Association. Mr. Patel and his family have lived in this area and operated hotels in this area for decades. This hotel will employ approximately 25 people in full and part-time positions. His employees are treated well and paid fairly and there is little turnover. Mr. Patel runs a good small business. He urged Council to support this request.

Mr. Marvin Mercer, civil engineer on the project, gave some specifics on the site plan. He said there are no additional curb cuts.

Mr. H.P. Patel, applicant, showed Council a rendering of the hotel. He briefly went over some of the points Mr. Bissette brought forward. They would like their property to be welcoming to the people coming in from the eastern gateway. He plans to make the property environmentally sustainable and outlined some of the green initiative to be implemented. They have a family environment at the hotel. He is a local small business owner and would like to expand his business. He asked Council to support his conditional zoning request.

Mayor Manheimer opened the public hearing at 9:30 p.m.

Ms. Linda Brooks, resident on Briggs Road, was opposed to the sidewalk being built on Briggs Road and questioned if the patrons of the hotel or the residents on Briggs Road would have the stop sign on the access road between the hotel and Briggs Road (near Tunnel Road).

Ms. Sue Wagner, General Manager of the Days Inn, spoke in support of Mr. Patel and his practices at the Days Inn.

Mr. Drew Crawford, adjacent property owner and resident on Burleson Road, is in general support of this; however, he asked that the applicant (1) follow the Dark Sky Policies and not allow lighting to spill onto the adjoining properties; (2) install a fence between the two properties because he has livestock on his property; and (3) provide a right-of-way on Burleson Road so that in the future the road could be widened and improved.

Mayor Manheimer closed the public hearing at 9:40 p.m.

Mr. Mercer said that the stop sign on the access road will be on the hotel's property. The residents on Briggs Road will have the right-of-way. Regarding lighting, the applicant will follow the City's lighting requirements. Regarding the installation of a fence, Mr. Patel would be agreeable to adding it between the hotel property and Mr. Caldwell's property. And, regarding the right-of-way, there is an in between parcel between the hotel lot and Burleson Road so they would not be able to give a right-of-way.

There was discussion regarding building a sidewalk on Briggs Road (and the cost) vs. the developer contributing $10,000 for the City to use for construction of a sidewalk along Tunnel Road east from Burleson Road. After clarification by City Attorney Currin on the fee in lieu of option, it was the consensus of the Council and the applicant agreed that the $10,000 contributed by the applicant will be used to improve the bus infrastructure on Tunnel Road in the vicinity of

the hotel (instead of the City constructing a sidewalk along Tunnel Road east from Burleson Road).

The applicant also agreed to build a fence along the common property line between the hotel property and Mr. Crawford's property (PIN 9678-06-9000).

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the conditional zoning request from Highway Business District to Lodging Expansion Conditional zone for the Hotel Krish project with the revised B.1 conditions, along with the additional/revised conditions (1) that the $10,000 contributed by the applicant be used to improve the bus infrastructure on Tunnel Road in the vicinity of the hotel (instead of the City constructing a sidewalk along Tunnel Road east from Burleson Road); and (2) the applicant will install a fence along the common property line between the hotel and the property with PIN No. 9678-06-9000; and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the project redevelops a blighted property; (2) the pedestrian realm will be improved along Tunnel Road in this location; and, (3) the development of a hotel in this location fits with the existing surrounding development. This motion was seconded by Councilwoman Mayfield and carried on a 6-1 vote, with Vice-Mayor Wisler voting "no".

ORDINANCE BOOK NO. 31 - PAGE 284

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4603 - ORDINANCE AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE FOR SIX SINGLE-MEMBER ELECTORAL DISTRICTS GOVERNING THE NOMINATION AND ELECTION OF CITY COUNCIL MEMBERS

RESOLUTION NO. 17-167 - RESOLUTION CALLING FOR A SPECIAL REFERENDUM FOR THE PURPOSE OF SUBMITTING TO A VOTE THE ORDINANCE AMENDING THE CITY OF ASHEVILLE CHARTER TO PROVIDE FOR SIX SINGLE-MEMBER ELECTORAL DISTRICTS GOVERNING THE NOMINATION AND ELECTION OF CITY COUNCIL MEMBERS

Assistant City Attorney Catherine Hofmann, said that the City of Asheville Charter provides for the composition of the City Council, as well as the method used for electing Councilmembers and the Mayor. Currently, the Charter provides that the Council is comprised of six (6) Councilmembers and a Mayor. All Councilmembers and the Mayor are elected by all qualified voters of the City (commonly referred to as an "at-large" method of election). N.C. Gen. Stat. §160A-102 allows the City Council to change the mode of election by ordinance, and also allows Council to provide that such an ordinance will only become effective "if approved by a vote of the people."

The North Carolina General Assembly passed a bill ("SB 285"), which provides that the City, by November 1, 2017, must amend the City Charter to create six (6), single-member electoral districts, to govern the nomination and election of Councilmembers. SB 285 requires that the qualified voters of each electoral district shall nominate and elect City Council candidates who reside in the district for the seat apportioned to that district. The Mayor would still be elected at-large. The bill also requires that the electoral districts be used beginning with the 2019 municipal election and, provides that, if the City fails to create electoral districts within the time set forth in the bill, the General Assembly in 2018 will establish electoral districts for the City.

The General Statutes set forth a statutory process that cities must follow when enacting Charter amendments, and submitting the same to a vote of the people by referendum. Below is a summary of these steps and the action Council has taken thus far.

First Council Meeting **(Completed at June 13, 2017 Council Meeting)**	Adopted a resolution of intent to consider an ordinance amending the Charter and called a public hearing on June 27, 2017 on the proposed Charter amendments.
Second Council Meeting **(Completed at June 27, 2017 meeting)**	Held a public hearing on the proposed Charter amendments.
Third Council Meeting (July 25, 2017)	Adopt an ordinance amending the Charter. If Council chooses to make that ordinance effective only upon a vote by the people, at the same meeting, adopt a resolution calling for an election on the referendum.

The action taken at the July 25 Council meeting will be the final Council step in the statutory process.

The recommendation is to 1) Adopt an ordinance amending the City of Asheville's Charter to provide for six electoral districts, governing the nomination and election of City Council members; 2) Adopt a resolution calling a special election for the purpose of submitting to a vote the ordinance amending the City of Asheville Charter to provide for six single member electoral districts governing the nomination and election of City Council members.

Mayor Manheimer said that this is not an indication of any support of this by City Council, but only we want to ask the voters of Asheville if they want districts rather than simply having our legislators impose districts upon us without us having any say in the matter.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolution and ordinance and they would not be read.

Councilman Bothwell moved to adopt the proposed ordinance amending the City of Asheville Charter to provide for six single-member electoral districts governing the nomination and election of City Council members and providing that such amendments be effective only upon approval by a vote of the people. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 31 -PAGE 282

Councilman Bothwell moved to adopt the proposed resolution calling a special election on Tuesday, November 7, 2017, for the purpose of submitting to a vote an ordinance amending the City of Asheville Charter to provide for six single-member electoral districts governing the nomination and election of City Council members. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 62

B. RESOLUTION AUTHORIZING THE CITY MANAGER TO CREATE A PROGRAM OF WORK FOR THE AFFORDABLE HOUSING ACTIVITIES AND ALLOCATION FOR THE USE OF $10 MILLION IN AFFORDABLE HOUSING BOND FUNDS FOR DIRECT PROJECT INVESTMENT

Mayor Manheimer announced that this action will be considered at the August 22, 2017, meeting. Councilman Smith, Chair of the Housing & Community Development Committee, said that the Committee discussed holding some community meetings in regard to the policy recommendations and hoped that those could happen before August 22.

VI. NEW BUSINESS:

A. RESOLUTION SUPPORTING THE BUNCOMBE COUNTY AGE-FRIENDLY COMMUNITY INITIATIVE

Mayor Manheimer said that consideration of this resolution has been removed from the agenda at this time. City Manager Jackson said that staff will provide additional information for the Finance Committee.

B. BOARDS & COMMISSIONS

Regarding the Sustainability Advisory Committee on Energy & the Environment, the following individuals have applied for a vacancy: Michael Whitmire, Kenneth Dierks, Travis Smith, Gerry Leonard, Andrew Malone, Lateef Cannon, Zephyr Jost, Larry Haas, David Penrose, Renee Mazurek, Anna Priest, Catherine Rosfjord, Red Moonsong, Patrick Ciccotoo, Rick Freeman, Frank Wolf, Bob Roepnack, E. Benjamin Edwards, Kelly Gloger, Lin Orndorf and Ursula Jorch. It was the consensus of Council to interview Anna Priest and Ursula Jorch.

RESOLUTION NO. 17-170 - RESOLUTION APPOINTING A MEMBER TO THE AFRICAN AMERICAN HERITAGE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of DeWayne Barton, as a member on the African American Heritage Commission, expires July 1, 2017.

The following individuals have applied for a vacancy: Michael Zuckerman, Debra Barnes and Samantha Singer.

The Boards & Commission Committee recommended reappointing Mr. Barton.

Vice-Mayor Wisler moved to reappoint DeWayne Barton to serve a three-year term, term to expire July 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 66

MOTION APPOINTING MEMBERS TO THE BLUE RIBBON COMMITTEE ON HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler said that on June 13, 2017, Council approved the following charge of the Blue Ribbon Committee on Human Relations Commission: "The purpose of the Blue Ribbon Committee on a Human Relations Commission will be to serve in an advisory capacity to define a mission and scope concerning a newly created Human Relations Commission. The Committee will hold one initial orientation meeting at which time the Chair, Vice-Chair and subcommittees will be formed. The Committee shall hold at least three broad community meetings. The Committee will meet at least one time a month. The City Manager's Office, with Legal Department support, will be responsible for providing support to the Committee. The Committee will select its own Chair and self-facilitate. The Committee and all subcommittees shall adhere to the City of Asheville Rules on Boards and Commissions and North Carolina Open Meeting Laws and all other applicable laws and regulations. The Committee is expected to achieve the following goals: define and provide recommendations of the mission, scope and duties of the Human Relations

Commission. After the Committee's first meeting, the Chair and Vice-Chair shall present at the next regular Boards & Commissions Committee meeting the operation and process strategy of the Committee. The Committee must submit final recommendations to City Council by November 6, 2017. The Committee shall be composed of no more than 15 members. Appointments to the Committee shall be made in accordance with the Rules of Procedure for City Council. All recommendations for appointments to the Blue Ribbon Committee will be made by the Boards and Commissions Committee and voted on by Council in an open meeting. Decisions of the Committee are reached by a simple majority vote of the members unless otherwise required by law. All voting will be conducted in open meetings with a quorum present. When the Committee has completed its function, as determined by City Council, the Committee shall be dissolved and the members of the committee shall be informed of the termination by e-mail from the City Clerk's office. City Council will consider, but not be bound by, the Committee's recommendations or concerns."

Also on June 13, 2017, City Council appointed Mr. Patrick Conant, Dr. Dwight B. Mullen, Dr. Darin J. Waters, Mr. Joseph Hackett and Ms. Marta Alcala-Williams to serve on the Blue Ribbon Committee for the Human Relations Commission.

The following individuals applied for the vacancies: Priscilla Ndiaye, Dewanna Little, Carol Hallstrom, Lucia Daugherty, Alfred Whitesides, Steven Lawrence, Joseph Gibson, Tracy Elliott, Ashley Cooper, Andrew Monroe, Andrew Fletcher, Susan Bean and Matthew Bacoate.

At the suggestion of the Boards & Commissions Committee, Vice-Mayor Wisler moved to appoint Priscilla Ndiaye, Dewana Little, Lucia Daugherty, Alfred Whitesides and Matthew Bacoate Jr. to the Blue Ribbon Committee on Human Relations Council; and to also appoint Cliff Joslin as the Citizens-Police Advisory Committee representative. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION NO. 17-171 - RESOLUTION APPOINTING A MEMBER TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Richard Carpenter, has resigned from the Board of Adjustment as a regular member, thus leaving an unexpired term until January 21, 2020.

The following individuals have applied for a vacancy: Carter Webb and John Kledis. Current interested alternate members include Paul Wilczynski and Daniel Summerlin.

The Boards & Commission Committee recommended appointing Daniel Summerlin (currently serving as an Alternate) to the Regular member seat and appointing John Kledis to serve the unexpired term of Mr. Summerlin's alternate seat, term to expire

Vice-Mayor Wisler moved to (1) appoint Daniel Summerlin to serve the unexpired term of Mr. Carpenter as a Regular member, term to expire January 21, 2020, or until his successor has been appointed; and (2) appoint John Kledis to serve the unexpired term of Mr. Summerlin as an Alternate member, term to expire January 21, 2018, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 67

RESOLUTION NO. 17-172 - RESOLUTION APPOINTING A MEMBER TO THE CIVIC CENTER COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Corey Atkins, as a member on the Civic Center Commission, expired on June 30, 2017.

The following individual has applied for a vacancy: Larry Layton.

The Boards & Commission Committee recommended reappointing Mr. Atkins.

Vice-Mayor Wisler moved to reappoint Corey Atkins to serve a three-year term, term to expire June 30, 2020, or until his successors has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 68

RESOLUTION NO. 17-173 - RESOLUTION APPOINTING MEMBERS TO THE ASHEVILLE-BUNCOMBE HISTORIC RESOURCES COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Brendan Ross and Richard Fast, as members of the Asheville-Buncombe Historic Resources Commission, expire on July 1, 2017.

The following individuals have applied for a vacancy: Leslie Humphrey, Kevin Saum, Wayne Wheeler, Gerry Leonard, Janet Whitworth, Emily Spreng and Rick Freeman.

The Boards & Commission Committee recommended appointing Janet Whitworth and Emily Spreng.

Vice-Mayor Wisler moved to appoint Janet Whitworth and Emily Spreng to each serve a three-year term respectively, terms to expire July 1, 2020, or until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 69

RESOLUTION NO. 17-168 - RESOLUTION APPOINTING MEMBERS TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the terms of Rich Lee, John Stuart Ridout and Till Dohse, at-large members on the Multimodal Transportation Commission, expire on July 1, 2017.

The following individuals have applied for a vacancy: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Scott Dickens, Andrew Stephen Kirby and Randy Warren.

The Boards & Commission Committee, at the request of the Multimodal Transportation Commission, recommended reappointing Mr. Lee and Mr. Ridout. It was the consensus of Council to interview Han Winogrond and Randy Warren to the other open seat.

Vice-Mayor Wisler moved to (1) reappoint Rich Lee and John Stuart Ridout to each serve a three-year term respectively, terms to expire July 1, 2020, or until their successors have been appointed; and (2) to interview Han Winogrond and Randy Warren This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 64

RESOLUTION NO. 17-169 – RESOLUTION APPOINTING MEMBERS TO THE NEIGHBORHOOD ADVISORY COMMITTEE

76

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Elaine Poovey (at-large member) expired on July 1, 2017. In addition, Greta Bush (at-large member) resigned, thus leaving an unexpired term until July 1, 2018.

The following individuals applied for a vacancy: Fred Caudle, Gerry Leonard, Kristin Baldwin, Carter Webb, Jackson Tierney and Mike Wasmer.

It was the consensus of City Council to interview Carter Webb, Mike Wasmer and Jackson Tierney.

After Council spoke highly of all candidates, Carter Webb received 3 votes, Mike Wasmer received 4 votes and Jackson Tierney received 5 votes. Therefore, Jackson Tierney (at large member) was appointed to serve a three-year term, term to expire July 1, 2020, or until his successor has been appointed; and (2) appoint Mike Wasmer (at-large member) to serve the unexpired term of Ms. Bush, term to expire July 1, 2018, or until his successor is appointed. (Mayor Manheimer was not in the room when the vote was taken.)

RESOLUTION BOOK NO. 39- PAGE 65

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Edward Peters and Ms. Kelli Early both spoke in support of an independent commission to draw the districts.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 10:18 p.m.

Magdalen Bowlesson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – August 22, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. EMPLOYEE RECOGNITION

City Manager Jackson, along with Mr. Lewis Berry, Solid Waste Supervisor with the City of Hickory and Past President of the APWA-NC Solid Waste Division Board, and Public Works Director Greg Shuler, recognized Mr. Bryant Williams for receiving the Herman Drake Award recognizing the top non-supervisory level Sanitation worker in the entire state.

Mayor Manheimer thanked Mr. Williams on what he does on behalf of the City of Asheville and City Council. She was proud of City staff and looked forward to highlighting more accomplishments.

B. RESOLUTION NO. 17-186 - RESOLUTION CONDEMNING THE ACTIONS OF WHITE SUPREMACISTS AND RACIAL VIOLENCE IN CHARLOTTESVILLE, VIRGINIA

Mayor Manheimer read the resolution as follows: "Whereas, on Saturday, August 12, 2017, the people of Charlottesville, Virginia endured an act of racist violence causing harm to many and claiming the lives of three people; and Whereas, the City of Asheville is saddened and outraged at the escalation of anger, hatred, and bigotry that hold no place in our society; and Whereas, racism is an affront to the ideals of our nation and the conscience of our residents; and Whereas, the Ku Klux Klan, Neo-Nazis, White Supremacists and other hate groups do not represent the opinions and values of the people of Asheville; and Whereas, Asheville is a community with a spirit of inclusion where we celebrate and honor our diversity; and Whereas, Mayor Esther Manheimer has condemned the actions of people who espouse hate speech against any race or ethnicity, and especially those who promote white supremacy; and Whereas, in December 2016 the City of Asheville passed Resolution No. 16-254, "Resolution Against Discrimination and Intimidation," stating that we take great pride in being a welcoming and diverse community where all citizens can live and work without fear of physical violence, threats or intimidation; and Whereas, in October of 2013 the City of Asheville passed Resolution No. 13-227, "Resolution Endorsing the Protection of Civil Liberties for all Citizens," affirming its pledge to uphold the constitutional rights and civil liberties of any and all persons...and to protect against discrimination on the basis of race, skin color, national or ethnic origin, gender, sexual orientation, mental or physical disability, immigration status, religious or political opinion or activity, or homed or homeless status; and Whereas, the City of Asheville stands with the residents of Charlottesville, Virginia, and across the country, united against those who seek to divide us; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The Asheville City Council does hereby reject the message of all hate groups; renounce racism, white supremacy, anti-Semitism, the KKK, neo-Nazis, domestic terrorism and hatred; declare that those who want to spread hatred, bigotry and violence have no place in the City of

Asheville; and commit to ensuring that Asheville remains a place of love and compassion, where hate is not, and never will be, welcome. FURTHERMORE, BE IT RESOLVED THAT: The Asheville City Council does hereby task the Governance Committee, with timely review of policy recommendations in furtherance of this Resolution, including, but not limited to the review and consideration of the relevant General Statutes and other applicable laws related to historical markers and monuments on city property."

Councilman Bothwell felt we should to go further by taking a stand to endorse Governor Roy Cooper's call to remove all confederate monuments from the State of North Carolina, and would ask for the majority of Council to support the City of Asheville removing the three confederate monuments in downtown Asheville. We should also inform the General Assembly that it's their moral obligation to permit municipal governments to address racism and hate in their own communities and to remove symbols of hate if the communities agree with that idea.

Councilwoman Mayfield said that the monument conversation is actively happening and the City Attorney's Office is looking into our options as a City, as well as who owns the monuments. Apart from the state law that does not allow the City to take down these monuments, the City Attorney's Office is investigating what legal obligations we have or what legal leeway we have to do anything with these monuments.

Councilman Smith said that everyone on Council is keenly aware that this must change and hoped we move this along as expeditiously as possible.

Councilman Young supported the resolution. He felt that once you understand why these monuments were erected and what they stand for, then you will understand that they must come down.

Mayor Manheimer noted that there were two amendments which run on the floor when the 2015 bill was being considered that barred cities from removing monuments or otherwise altering them. Both of those amendments were defeated.

Several individuals spoke in support of the resolution, and some offered other actions, such as: remove the confederate monuments in Asheville, align with the vision of Black Lives Matter, make Asheville a sanctuary city; put a plaque on the monument about the history about what was going on in that period of time; aggressively seek to change state law; and place the Vance Monument at the Vance Homestead.

Mayor Manheimer said that there is an African American Heritage Commission which is funded by both the City and the County. The have the funds they need to engage in a process for coming up with their vision for how to commemorate the contributions of the African American community in Asheville. It may be in the form of some type of commemorative, historical or educational marker that can be placed in a public area. They are just beginning that process and we hope that this will help us as a community.

Councilman Bothwell moved for the adoption of Resolution No. 17-186. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 90

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JULY 25, 2017

B. RESOLUTION NO. 17-174 - RESOLUTION SUPPORTING THE RECOMMENDATION AND DESIGNATION OF CRAGGY MOUNTAINS WILDERNESS AREA NEAR ASHEVILLE, N.C.

Summary: The U.S. Forest Service is considering recommending an expanded Craggy Mountain Wilderness Area for official congressional designation as part of its Pisgah-Nantahala National Forest Management Plan. City Council requests that the expanded Craggy Mountains Wilderness Study Area be recommended for designation as a wilderness area by the U.S. Forest Service and designated by the U.S. Congress.

Several individuals spoke in support of the resolution to protect Big Ivy as Craggy/Big Ivy is one of the most popular and ecologically important recreation destinations in Southern Appalachia. They urged Council to keep Big Ivy wild, scenic, adventurous and uncut for future generations.

RESOLUTION BOOK NO. 39 - PAGE 70

C. RESOLUTION NO. 17-175 - RESOLUTION ENCOURAGING CONGRESS TO CREATE A RELIABLE, PREDICTABLE STREAM OF RESOURCES TO ADDRESS DEFERRED MAINTENANCE NEEDS IN AMERICA'S NATIONAL PARK SYSTEM

Summary: The City of Asheville urges Congress to create a reliable, predictable stream of resources to address deferred maintenance needs in America's National Park System, and to ensure that federal infrastructure initiatives include provisions to address park maintenance.

RESOLUTION BOOK NO. 39 - PAGE 72

D. RESOLUTION NO. 17-176 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT GRANT FUNDING FROM THE CLEAN WATER MANAGEMENT TRUST

Summary: The consideration of a resolution authorizing the City Manager to accept grant funding from Clean Water Management Trust Fund in the amount of $300,000.

In February of 2016, the City of Asheville, with the support of RiverLink, applied for a grant from the state of North Carolina Clean Water Management Trust Fund (CWMTF) to aid in funding an innovative storm water project within the River Arts District Transportation Improvement District (RADTIP). In October of 2016, CWMTF awarded the City up to $300,000 to aid in construction of two wetlands utilizing an innovative soil media designed to improve the water quality of storm water before it enters the French Broad River. This grant will aid in the construction of the wetlands, pre & post construction water quality monitoring and eventual reporting of water quality results.

The City continues to look for ways to support a clean and healthy environment for all citizens. This includes community partnerships and the wise use of taxpayer money to achieve this vision. Council's vision specifically calls for Asheville to be..." recognized as a Tree City USA for decades; streets, greenways, and parks embody an urban forest for riparian restoration planning and Storm water BMPs along the French Broad River" and notes that..." Thanks to an extremely high-quality water source nestled in the gentle folds of the Blue Ridge Mountains, Asheville continues to attract companies that depend on clean water". The work proposed via this grant is in alignment with the Wilma Dykeman RiverWay Master Plan, the Sustainability Management Plan, the 2025 plan (Comprehensive Plan), and the implementation of the site plan for RADTIP.

Pro:

- Helps further Council and Community goals with no additional impact to the City budget.

Con:

- Requires City staff management/use of human resources (opportunity cost).

The match funds for this grant are already incorporated in the approved Capital Budget for the RADTIP. No additional City funds are required to match this grant. The grant dollars were approved in the RADTIP budget at the June 27, 2017, City Council meeting so there is no additional budget action needed.

Staff recommends City Council adopt a resolution authorizing the City Manager to accept funding from the Clean Water Management Trust Fund up to the amount of $300,000.

RESOLUTION BOOK NO. 39 - PAGE 74

E. RESOLUTION NO. 17-177 - RESOLUTION AUTHORIZING THE CITY MANAGER TO COMMIT THE CITY OF ASHEVILLE TO PROVIDE THE LOCAL SHARE REQUIRED FOR VARIOUS FEDERAL TRANSIT ADMINISTRATION GRANTS INCLUDING THE 5307 URBANIZED AREA FORMULA FUNDING PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to commit the City of Asheville to provide the local share required for various FTA grants including the 5307 Urbanized Area Formula Funding Program.

The 5307 Urbanized Area Formula Funding Program is made available to designated recipients that are public bodies having the legal authority to receive and dispense federal funds. The program assists with transit capital and operating assistance in urbanized areas and for transportation-related planning.

Although providing a local match is already standard practice, the FTA is now requiring all Designated Recipients to have local resolutions in place to formalize this policy. This request does not relieve the Transportation Department from future grant transparency. Transportation Department staff will continue to present specific grant applications to City Council for review and consideration on a case by case basis that will define the specific project, the grant amount, and the exact local share amount required for that grant application.

This request will be reviewed by the Finance Committee on August 22, 2017 and if there is anything other than unanimous approval, it will be noted during the City Council meeting on August 22, 2017.

Pros:

- These grant funds offset operating and preventive maintenance costs for the transit system.
- These grant funds can be used for capital projects including new bus purchases.

Con:

- The City is required to provide the local match which is typically 20% of the grant amount.

There is no specific fiscal impact for this item; only a commitment that the City will provide the required local match for Federal Transit Administration (FTA) grants including the 5307 Urbanized Area Formula Funding Program. Staff will continue to plan for these grants as part of the annual budget process.

Staff recommends that City Council approve a resolution authorizing the City Manager to commit the City of Asheville to provide the local share required for various FTA grants including the 5307 Urbanized Area Formula Funding Program.

RESOLUTION BOOK NO. 39 - PAGE 75

F. RESOLUTION NO. 17-178 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH PASSPORT INC. FOR PARKING CITATION MANAGEMENT SERVICES

Summary: The consideration of a resolution authorizing the City Manager to enter into an information and technology services exception contract in the amount of $240,000 including contingencies (not to exceed $80,000 per fiscal year) with Passport, Inc. to provide parking citation management services.

Parking Services issues, on average, about 21,000 parking citations annually. In addition, Parking Services administers parking citations issued by the Asheville Police Department and the Asheville Fire Department. Prior to July 1, 2017, we also administered citations issued by the Asheville Airport Police. In 2013, the City thru Parking Services, moved away from an in-house hosted citation management system to a contractor supplied cloud based system. This was part of the City's plans to move away from HTE and in-house hosting to more up to date cloud based systems. The City published a Request for Proposal in late 2012 soliciting vendors interested in providing citation management services to the City. The City chose Brekford Corporation as the vendor. The system provided was an improvement on the HTE system but did face some continual challenges. These challenges, developing staff concerns on the viability of Brekford, City policies, as well as significant changes in the parking industry motivated Parking Services to seek new proposals for the services.

In March 2017 the City published a Request for Proposals, under the provisions of NCGS 143-129.8 for purchase of information goods and services, for interested firms to provide citation management services to the City. By doing so, the City sought to build upon the successes of the Brekford system, eliminate the continual challenges, improve customer service, make Parking Services' operations more efficient and effective, and improve financial reporting. By publishing the Request for Proposal the City was able to focus on a holistic solution and not just cost which was just one factor. Included was a requirement for a 90 day test to ensure services proposed by the vendor are actually delivered.

Three proposals were received:

- Brekford Corporation, Hanover, MD, total estimated annual cost: Not provided
- COMPLUS, Tarrytown, NY, total estimated annual cost:$96,000.00
- Passport, Wilmington, DE, total estimated annual cost: $80,000.00

After a thorough review, the Selection Committee decided that Passport, Inc. would be able to provide the best product to the City. The inter-departmental Selection Committee included staff from the Parking Services Division, Transportation Department, the Information Technology Services Department, and the Finance Department.

Key components/Improvements:

- Provides citizens with three payment options; credit/debit card, mail-in, or walk-in.
- Improved services for citizen inquiry, e.g. picture on the citation and on appeal page.
- Provides on-line appeals process as well as an option for written appeals.
- Faster response to appellants following appeal determination, i.e. immediate email response versus contractor mailing a letter.
- Passport provides the best network platform for cloud based storage.
- Improved financial reporting and reconciliation.

- Utilizes the City's current lock box system for mail in payments instead of a third party's thereby ensuring faster depositing of funds.
- Passport will utilize the City's current credit/debit card merchant processor.
- Improved "back office" administrative suite of reports and interactive pages increases Parking Services' efficiency and effectiveness.
- Improved one piece handheld citation writers will provide near time (30 second delay) visibility of citations, with pictures, for citizen and staff review.

Pros:

- Provides improved citation review and appeal options to our citizens.
- Provides the latest in parking management technology and information systems.
- Builds upon the City's relationship with Passport as the provider of mobile payment for parking meters.
- Improves financial reporting and reconciliation.
- Increased efficiency and effectiveness of Parking Services' resources.

Cons:

- Extensive staff effort to transition from existing system to Passport.
- Some interruption of service during the transition to new citation management system.
- Estimated expenditures of $240K over three years

Funds for the first year are available in the current Parking Services' Fund Operating Budget. Funding for the second and third years of service will be included in the City Manager's proposed 2018-19 and 2019-2020 Budgets.

City staff recommends that City Council approve a resolution authorizing the City Manager City to execute an initial three year term contract not to exceed $240,000.00 with Passport, Inc. to provide parking citation issuance and administration support. And the option to extend the term of the contract for up to an additional two years. Also, further authorized to execute any change order to said contract which might arise during the time period of the contract up to the budgeted amount.

RESOLUTION BOOK NO. 39 - PAGE 76

G. RESOLUTION NO. 17-179 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE YEAR 1 BOND RESURFACING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,273,149.50 plus a contingency of 15% ($190,972.42) with French Broad Paving, Inc. for the project known as Year 1 Bond Resurfacing, City of Asheville Project Number X-1711.

A list of warranted streets was assembled to be addressed by this contract. The project was advertised on June 19, 2017. The first bid opening was scheduled for July 19, 2017, but we did not receive enough bids to open. The contract was re-advertised and bids were opened on July 27, 2017. The bids were as follows:

French Broad Paving, Inc. of Marshall, NC	$1,273,149.50
Rogers Group, Inc. of Nashville, TN	$1,424,036.10

A 15% contingency ($190,972.42) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix a number of roads that are in need of repair.

Pros:

- Will repair approximately 3.1 miles of roadways within the Asheville City limits.
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The project will be funded through the City's available cash resources.

City staff recommends City Council adopt the resolution awarding the contract to French Broad Paving, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,273,149.50 plus a contingency of $190,972.42 (15%) for the contract known as Year 1 Bond Resurfacing, City of Asheville Project X1711.

RESOLUTION BOOK NO. 39 - PAGE 77

H. RESOLUTION NO. 17-180 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT BEER CITY CUP

RESOLUTION NO. 17-181 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE LIVING ASHEVILLE ARTS FESTIVAL

RESOLUTION NO. 17-182 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE GOOMBAY FESTIVAL

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Beer City Cup, the Living Asheville Arts Festival, and the Goombay Festival.

- WNC Soccer Foundation has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Beer City Cup and allow for consumption at this event.

  The Beer City Cup will be held on Sunday, September 3, 2017 from 8:00 a.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- Arts 2 People has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Living Asheville Arts Festival and allow for consumption at this event.

  The Living Asheville Arts Festival will be held on Sunday, September 3, 2017 from 11:00 a.m. to 10:00 p.m. within the boundaries of Lexington Avenue, Walnut Street, and Hiawassee Street as per the area limits referenced on the accompanying site map.

- The YMI Cultural Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Goombay Festival and allow for consumption at this event.

  The Goombay Festival will be held on Friday, September 8, 2017 from 6:00 p.m. to 10:00 p.m. and Saturday, September 9, 2017 from 11:00 a.m. to 10:00 p.m. within the

boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for WNC Soccer Foundation, Arts 2 People, and the YMI Cultural Center

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Beer City Cup, the Living Asheville Arts Festival, and the Goombay Festival.

RESOLUTION NO. 17-180 - RESOLUTION BOOK NO. 39 - PAGE 78
RESOLUTION NO. 17-181 - RESOLUTION BOOK NO. 39 - PAGE 81
RESOLUTION NO. 17-182 - RESOLUTION BOOK NO. 39 - PAGE 84

I. RESOLUTION NO. 17-183 - RESOLUTION AUTHORIZING THE CITY MANAGER ENTER INTO A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE FISCAL YEAR 2017 ASPHALT PAVING IMPROVEMENTS - RESURFACING CONTRACT 2

ORDINANCE NO. 4605 - BUDGET AMENDMENT TO PAY FOR STORMWATER ELEMENTS ASSOCIATED WITH THE FISCAL YEAR 2017 ASPHALT PAVING IMPROVEMENTS - RESURFACING CONTRACT 2

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $904,963.00 plus a contingency of 5% ($45,243.15) with French Broad Paving, Inc. for the project known as FY 17 Asphalt Paving Improvements – Resurfacing (Contract 2), City of Asheville Project Number K1701; and a budget amendment in the General Capital Projects Fund in the amount of $45,938 from a transfer from the Stormwater Fund to pay for stormwater elements associated with this project.

A list of warranted streets was assembled to be addressed by this contract. The project was advertised on June 19, 2017. The first bid opening was scheduled for July 19, 2017, but we did not receive enough bids to open. The contract was re-advertised and bids were opened on July 26, 2017. The bids were as follows:

French Broad Paving, Inc. of Marshall, NC:	$904,863.00
Rogers Group, Inc. of Nashville, TN:	$1,012,361.30

A 5% contingency ($45,243.15) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix a number of roads that are in need of repair. As noted in the summary statement, there are stormwater improvements included in this contract that will cost an estimated $45,938. A budget amendment is included with this action to move the stormwater funding into the FY17 Streets Program Project in the General Capital Projects Fund.

Pros:

- Will repair approximately 1.1 miles of roadways within the Asheville City limits.
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The total budget for the FY17 Streets Program is $2.8 million. This is the second contract for FY 17 resurfacing. The first contract, which is ongoing is with French Broad Paving and Grading, totaled $1,718,077.74. The total cost of this second contract, including contingency, is $950,106.15. As noted above, the Stormwater Fund will contribute $45,938 toward this contract amount.

Staff recommends City Council adopt a resolution awarding the contract to French Broad Paving, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $904,863 plus a contingency of $45,243.15 (5%) for the contract known as FY 17 Asphalt Paving Improvements – Resurfacing (Contract 2), City of Asheville Project Number K1701, and a budget amendment in the General Capital Projects Fund in the amount of $45,938 from a transfer from the Stormwater Fund to pay for stormwater elements associated with this project.

RESOLUTION BOOK NO. 39 - PAGE 87
ORDINANCE BOOK NO 31 - PAGE 292

J. RESOLUTION NO. 17-184 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH BUNCOMBE COUNTY TO PARTNER ON THE SOUTHEAST SUSTAINABILITY DIRECTOR'S NETWORK GRANT APPLICATION FOR A WEATHERIZATION PROGRAM

Summary: The consideration of an authorization for the City Manager to enter into an Intergovernmental Agreement with Buncombe County to develop a partnership to implement grant funding for a weatherization program.

At the June 27, 2017, meeting of Asheville City Council, the Council discussed the possibility of funding a weatherization program for low income households. The Council decided to move the consideration of funding a city weatherization project to the Housing and Community Development Committee for further discussion.

Grant funding became available through the Kendeda Fund. Staff was approached about applying for funding with the county. A joint letter of intent to apply was sent from the city and the county.

Key elements of the Intergovernmental Agreement will include:

a. Buncombe County will be the lead agency in applying for and implementing grant funding.
b. The City of Asheville will advise the project design, participate in stakeholder discussions, identify eligible homes within city limits and utilize data to measure project impact within city limits.
c. Upon completion of the grant funding the intergovernmental agreement will expire.

The Finance Committee will review this on August 22, 2017, and if there is anything other than unanimous approval to move forward to the full Council, it will be brought forward at the meeting. The application is due on September 5.

Housing and Economic Development Committee unanimously approved the memorandum of understanding between the City of Asheville and Buncombe County move forward to City Council's consent agenda during their August meeting.

This action supports the following Resolutions signed by Council:

- Resolution 13-228, Supporting a Clean Energy Economy
- Resolution 15-200, Adopting a Community Clean Energy Policy Framework
- Resolution 16-64, Establishing a joint City, County and Utility Energy Innovation Task Force

Buncombe County intends to apply for grant funding through the Southeast Sustainability Directors Network and will be the fiscal manager of grant funds. As a result the only fiscal impact to the city is staff time to assist in the grant application and program implementation as it relates to homes within the city limits.

City staff recommends City Council to approve the establishment of a Buncombe County Weatherization partnership and application to Kendeda for grant funding and authorization for the City Manager to enter into an Intergovernmental Agreement with Buncombe County to develop a partnership to implement grant funding for a weatherization program.

Councilwoman Mayfield said that this is a direct outgrowth of the discussions during the budget process from the Energy Innovation Task Force recommending a low income weatherization program for the City and County. The Task Force will be achieving some exciting milestones in their work and there will be some public announcements in the near future, including a public community focus campaign that will be a vehicle for everyone who is interested in helping us reach our goal of avoiding the 3rd peaker plant at the Lake Julian site.

RESOLUTION BOOK NO. 39 - PAGE 88

K. RESOLUTION NO. 17-185 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH ESRI, INC. FOR A 3-YEAR CONTRACT FOR GIS SOFTWARE MAINTENANCE

Summary: The consideration of a resolution authorizing the City Manager to sign a new Enterprise License Agreement with ESRI, Inc. in the amount of $150,000 over 3 years payable in $50,000 yearly installments for Geographic Information Systems (GIS) software.

The City of Asheville has used ESRI GIS software for 16+ years as a keystone software information system. Many internal processes including asset management, code enforcement, permitting, public safety dispatch, stormwater utility billing, infrastructure maintenance, sanitation service, development services, etc., rely on GIS expertise and software. Citizens also rely on GIS for Internet information portals such as Simplicity, Asheville's Open Data Portal, and mapAsheville. City Council also relies on the City's GIS via planning and development decision visualizations.

The existing contract has held maintenance flat for the past 3 years. Typical increases in such software maintenance contracts average approximately 5% per year. With the execution of another 3 year contract, we will be able to hold our maintenance costs at $50,000 per year for next 3 years. Annual maintenance payments are required in order to keep software in a reliable and supported state. This contract also means that the City may provide unlimited staff installations as well as server software installation of this software thus saving money on additional licensing fees as a result of expanded services.

Pros:

- Increased support of departmental business requirements via greater options for GIS software licensing.
- Ability to install additional software without additional purchases.
- Hold the line on increasing software maintenance costs.

Con:

- If continued funding for future years is not appropriated, some staff will lose ability to utilize GIS software and data.

Maintenance for a three year period at a rate of $50,000.00 per year.

Staff recommends City Council adopt a resolution authorizing the City Manager to sign an Enterprise License Agreement with ESRI, Inc.

RESOLUTION BOOK NO. 39 - PAGE 89

L. RESOLUTION NO. 17-187 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH MCGILL ASSOCIATES PA FOR THE ASHEVILLE PARKS BALLFIELD UPGRADES/RENOVATIONS BOND PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with McGill Associates, PA to provide design services for Asheville Parks Ballfield Upgrades/ Renovations Bond Project, for an amount not to exceed $167,255.00, and further authorizing the execution of any contract amendments up to 10% ($16,726) above of the contract price, which may arise during execution of said project.

The goals of the project are to address the ballfield maintenance backlog and to build for the future. These goals will be accomplished by replacing out of date site components that have reached the end of their service life.

The ballfield projects have been prioritized with a focus on improvements in underserved areas of the city. These improvements will address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods and their long-term recreation requirements.

The ballfields that are being improved within the current scope of work are: Ray L. Kisiah Park & Vance ballfield. The ballfields will be designed to improve the level of service and meet contemporary needs of athletic leagues and neighborhood residents. Ballfield upgrades may include new equipment, surfacing, fencing, grading, lighting, irrigation, site furniture, plant materials, shade structures, open play areas, vehicular parking lots, accessible pedestrian circulation systems, among other Park and Recreation park standard elements.

A Request for Qualifications (RFQ) was issued by the City of Asheville (City) for services to design the Asheville Parks Ballfield Upgrades/Renovations Bond Project. In response to the RFQ, the City received five (5) Statements of Qualifications to be considered for this project. After thorough review and evaluation, staff recommended McGill Associates, PA, 55 Broad Street, Asheville, North Carolina as the most qualified to perform the design services for this project.

Scope of Work: McGill Associates, PA has presented a scope of work and fee proposal for professional services associated with the Asheville Parks Ballfield Upgrades/Renovations Bond Project and will provide full design services, bidding administration, and contract administration/reporting during construction.

Project Budget: $1,200,000 million in General Obligation (GO) Bond Funding.

Tentative Project Timeline:

Engineering/Design Services	Fall 2017
Permitting	Winter 2017
Request for Construction Bid	Winter/Spring 2018

Construction Begin	Spring/Summer 2018
Construction Complete	Summer 2019

Pros:

- Address immediate maintenance needs and critical failures that are otherwise unattached to capital investments
- Focus on underserved areas of the city
- Address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods
- Meet the Parks and Recreation goal of increasing accessibility and equity

Con:

- None

The project will be funded through the City's available cash resources.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with McGill Associates, PA to provide design services for Asheville Parks ballfield upgrades/renovations for an amount not to exceed $167,255.00, and further authorizing the execution of any contract amendments up to 10% ($16,726) above of the contract price, which may arise during execution of said project.

RESOLUTION BOOK NO. 39 - PAGE 92

M. ORDINANCE NO. 4606 - TECHNICAL CAPITAL PROJECT BUDGET AMENDMENT FOR THE DESIGN OF THE MONTFORD PARK COMPLEX

Summary: The consideration of a technical capital project budget amendment in the amount of $52,911 to move funding for the design of the Montford Park Complex from the General Fund to the Montford Park Complex Bond Project in the General Capital Projects Fund.

The original contract with Site Design Studio for design of the Montford Park Complex was entered into in June 2015, prior to adoption of the 2016 General Obligation Bond, and funded through the Parks and Recreation Department's General Fund budget. In order to provide more accurate fixed asset accounting, staff is recommending that the remaining contract amount be moved to the Montford Park Complex Bond Project. In order to accomplish this, the General Capital Projects Fund budget must be increased by $52,911. The amendment is funded by a transfer from the General Fund to the General Capital Projects Fund.

Pros:

- Provides budget authorization for project expenses.
- Conforms the City's financial records with generally accepted accounting and reporting standards.

Con:

- None.

There is no net fiscal impact to this budget amendment. Budget is simply being transferred from one fund to another.

City staff recommends City Council adopt the technical capital project budget amendment in the amount of $52,911 to move funding for the design of the Montford Park Complex from the General Fund to the Montford Park Complex Bond Project in the General Capital Projects Fund.

ORDINANCE BOOK NO. 31 - PAGE 294

N. RESOLUTION NO. 17-192 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES SUPPLEMENTAL AGREEMENT WITH CDM SMITH FOR THE MILLS RIVER WATER TREATMENT PLANT MISCELLANEOUS UPGRADES

Summary: The consideration of a resolution authorizing the City Manager to execute a Professional Engineering Services Supplemental Agreement with CDM Smith, Inc., for the proposed amount of $216,000 plus a contingency amount of $10,000 for a total project budget in the amount of $226,000 for the Mills River Water Treatment Plant Miscellaneous Upgrades Project.

On August 11, 2014, the Water Resources Department (WRD) issued a Request for Qualifications (RFQ) for On-Call Professional Services for Water Treatment Plant (WTP) Projects. In response to the RFQ, seven engineering firms submitted Statements of Qualifications (SOQ). A WRD review team selected three engineering firms with proven experience and expertise to provide professional and engineering services for various water treatment plant repair, replacement, and/or expansion projects: Brown and Caldwell, CDM Smith Inc., and GHD Consulting Services. With guidance from the City's Legal and Purchasing Departments, the WRD executed Master Agreements with all three firms to establish initial contractual terms. Specific projects would be authorized under a separate Supplemental Agreement between the WRD and individual engineering firm. The WRD desires to enter into a Supplemental Agreement with CDM Smith, Inc., for the Mills River WTP Miscellaneous Upgrades Project.

The Mills River WTP was originally constructed in 1999. While the plant has undergone minor upgrades to improve treatment performance and comply with regulatory requirements, the plant is nearly 20 years old and some equipment is nearing the end of its useful life. In January 2017, CDM Smith completed a Miscellaneous Upgrades Preliminary Engineering Report (PER) outlining the various upgrades recommended at the WTP. The WRD has identified a number of projects from that report that are ready to move into the design and construction phases. The projects consist of: (1) Submersible Raw Water Pumps Inspection and Repair; (2) Raw Water Pump Variable Frequency Drive (VFD) Replacement; (3) Ozone Generation System Upgrade/Replacement; (4) Ozone Diffuser Replacement; (5) Transfer Pump VFD Replacement; (6) Finished Water Pump VFD Replacement; (7) Sodium Hypochlorite Bulk Storage Tank Replacement; (8) Sodium Hypochlorite Day Tank Replacement; and (9) Fluoride Room Ventilation Upgrades. Services to be provided by CDM Smith for these tasks include engineering analysis, design, specifications development, permitting, bidding assistance, project management, and construction services.

Pros:

- This project will make needed repairs to the Mills River WTP in order to operate the plant at the most efficient level possible
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- A delay in award of an engineering services agreement for this project would postpone needed repairs to the Mills River Water Treatment Plant. As equipment is nearing the end of its useful lifecycle, the availability of essential parts becomes limited and the possibility of process failure increases.

The funding needed for this agreement is currently allocated within the Water Treatment Plant Improvements Project in the Water Resources Capital Improvement Projects (CIP) Fund.

City staff recommends City Council approval of a resolution authorizing the City Manager to execute a Professional Engineering Services Supplemental Agreement with CDM Smith, Inc., for the proposed amount of $216,000 plus a contingency amount of $10,000 for a total project budget in the amount of $226,000 for the Mills River Water Treatment Plant Miscellaneous Upgrades Project.

RESOLUTION BOOK NO. 39 - PAGE 97

O. RESOLUTION NO. 17-188 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE CONTRACTS WITH CHERRY BEKAERT LLP FOR AUDITING SERVICES FOR FISCAL YEAR 2016-17

Summary: The consideration of a resolution authorizing the Mayor to execute contracts with Cherry Bekaert LLP for auditing services for fiscal year 2016-2017.

North Carolina General Statute §159-34 requires that a local governments have its accounts audited each fiscal year and submit a copy of the audit report and financial statements to the Local Government Commission. As such, staff recommends retaining the services of Cherry Bekaert LLP to conduct the audit of the city's accounts for the fiscal year ending June 30, 2017. The estimated fee for fiscal year 2016-2017 audit and financial statement preparation is $89,000.

Execution of this contract complies with City Council's Strategic Operating Plan of operating the City of Asheville's organization at the highest level of fiscal responsibility, as well as the Audit Policy portion of City Council's Financial Policies which states that the City "shall enter into multi-year agreements of not more than five years in duration through a series of single-year contracts as consistent with applicable legal requirements." This will be the fifth consecutive year of contracting Cherry Bekaert LLP to perform the City's audit. No competitive bid process was conducted this year; however, because this is the fifth year, staff will be issuing a Request for Proposal (RFP) from qualified audit firms for the FY 2017-18 audit as part of another multi-year audit contract.

Pro:

- Contracting with Cherry Bekaert LLP aligns with City Council's financial policy and will help ensure the timely and successful completion of the annual audit.

Con:

- None noted.

Fees of $89,000 for the annual audit are budgeted in the Finance Department's operating budget (FY 2016-17). These funds were encumbered as of June 30, 2017.

Staff recommends adoption of the resolution authorizing the Mayor to execute contracts with Cherry Bekaert LLP in the amount of $89,000 for auditing services for fiscal year 2016-2017.

RESOLUTION BOOK NO. 39 - PAGE 93

P. RESOLUTION NO. 17-189 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ACCEPT FUNDING IF AWARDED FROM THE FEDERAL TRANSIT ADMINISTRATION FISCAL YEAR 2017 COMPETITIVE FUNDING OPPORTUNITY SECTION 5339 GRANT TO BE USED FOR THE TRANSIT CENTER RENOVATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to apply for and accept funding if awarded from the Federal Transit Administration (FTA) FY 2017

Competitive Funding Opportunity; Grants for Buses and Bus Facilities Infrastructure Investment Program, Section 5339 to be used for the Transit Center renovation project.

The FY 2017 Competitive Funding Opportunity; Grants for Buses and Bus Facilities Infrastructure Investment Program, Section 5339 provides a 90% federal contribution which means the City of Asheville only needs to contribute a 10% local match. Since this is a competitive grant, the Transportation and Sustainability Departments recommend contributing a 15% local match to make the award more likely.

Transportation Department staff has identified a much needed project to completely renovate the Transit Center which is located between Asheland Avenue and Coxe Avenue in the Central Business District. At the last Council meeting held on July 25, 2017, Council approved a resolution for the "Transit Station Renovation" project, which already has a total of $750,000 in City Funds committed from the Infrastructure Reserve, along with $213,911 in federal funds for a total available amount of $963,911. If this current grant funding opportunity is awarded, the city would potentially be able to increase the total project budget to $1.5 million (understanding that the project may need the additional resources) while at the same time reducing the City's contribution by $525,000. If the funds are awarded, FTA would provide $1,275,000 towards the cost of the project and the City would only need to provide $225,000, a $525,000 savings. The Sustainability Department has agreed to provide $25,000 of the local match out of their Green Savings.

This request will be reviewed by the Finance Committee on August 22, 2017, and if there is anything other than a unanimous approval, it will be noted during the City Council meeting on August 22, 2017.

Pros:

- The renovated Transit Center would provide a more comfortable and modern setting for transit customers.
- The renovated Transit Center would likely increase ridership.
- The renovated Transit Center would meet current ADA compliance requirements.
- The funding opportunity provides a 90% match.
- If the funds are awarded the city would better leverage federal funds that would therefore allow the city to repurpose $525,000 as needed.

Con:

- The local match in the amount of $200,000 from the General Fund and $25,000 from Green Savings.

As noted above, a portion of the City match for this grant ($25,000) would come from Green Savings. The remaining match amount of $200,000 would come from General Fund balance that City Council assigned to the Infrastructure Reserve at the end of FY 2015-16. If awarded, the appropriate budget amendment will come to City Council at that time for review and approval before the project begins.

Staff recommends that City Council approve a resolution authorizing the City Manager to apply for and accept if awarded the FY 2017 Competitive Funding Opportunity; Grants for Buses and Bus Facilities Infrastructure Investment Program, Section 5339 in the amount of $1,500,000 to be used for the "Transit Station Renovation" project.

RESOLUTION BOOK NO. 39 - PAGE 94

Q. RESOLUTION NO. 17-190 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ROGERS GROUP INC. FOR THE MARTIN LUTHER KING JR. DRIVE PAVEMENT AND SIDEWALK IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $2,530,105.00 plus a contingency of 15% ($379,515.75) with Rogers Group, Inc. for the Martin Luther King, Jr. Drive Pavement and Sidewalk Improvements, City of Asheville Project X1710.

The Martin Luther King Jr. Project was identified as a bond improvement project which will provide the reconstruction of the roadway and also address sidewalk issues throughout the project area. The project was advertised on June 19, 2017. The first bid opening was scheduled for July 27, 2017, but we did not receive enough bids to open. The contract was re-advertised and bids were opened on August 10, 2017. The one bid received is as follows:

Rogers Group, Inc. of Nashville, TN $2,530,105

The bid cost of this project is $682,120.75 more than the original estimates proposed for the project. The increase in the cost of the project results from the need for more substantial improvements to the road and the subsurface of the road. These needs were discovered through preconstruction due diligence (for example core samples of the pavement depth which revealed deficiencies). This testing was conducted for the project prior to being bid in order to limit unexpected changes during construction. A 15% contingency ($379,515.75) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix the roadway and sidewalk sections that are in need of repair.

Pros:

- Will repair the entire section of Martin Luther King Jr. Drive from S. Charlotte to College Street.
- Will address needed sidewalk issues through the project area
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The project will be funded through the City's available cash resources.

City staff recommends City Council adopt the resolution awarding the contract to Rogers Group, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $2,530,105 plus a contingency of $379,515.75 (15%) for the Martin Luther King, Jr Drive. Pavement and Sidewalk Improvements, City of Asheville Project X1710.

Councilwoman Mayfield questioned what bond project would not be funded because this project is $682,120.75 more than the original estimate. City Manager Jackson said that there are two resurfacing projects being considered at this meeting. In one project, the cost was under budget. This project came over budget. On this project, core samples revealed that additional work needed to be done. As we move into the implementation of the bond projects, we will find some project estimates will be over and some will be under. You can expect to see, with each of these bond projects, a specific project status update, which will detail the specific cost of the project compared to estimates and how it fits into the overall context of that program. A comment section will also be included which will give you an idea of the causes and the remedies of that project. Staff will provide a quarterly report of the three bond issues to the Finance Committee meeting. Staff also provides the full Council with quarterly reports.

RESOLUTION BOOK NO. 39 - PAGE 95

R. RESOLUTION NO. 17-191 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ADC ENGINEERING FOR THE

ASHEVILLE PARKS SPORT COURT UPGRADES/RENOVATIONS BOND PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with ADC Engineering to provide design services for Asheville Parks Sport Court Upgrades/ Renovations Bond Project Bond Project for an amount of $148,000, and further authorizing the execution of any contract amendments up to 10% ($14,800) above of the contract price, which may arise during execution of said project.

The primary goal of the project is to address maintenance backlog for sport courts and to build for the future. These goals will be accomplished by replacing out of date site components that have reached the end of their service life.

The sport court projects have been prioritized with a focus on improvements in underserved areas of the city. These improvements will address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods and their long-term recreation requirements.

The sport courts that are being improved within the current scope of work are: Murphy-Oakley Park, Montford Park, Weaver Park, Malvern Hills Park, & a portion of Aston Park. The sport courts will be designed to improve the level of service and meet contemporary needs of neighborhood residents. Sport court upgrades may include new equipment, surfacing, fencing, site furniture, plant materials, shade structures, associated facilities, open play areas, vehicular parking lots, accessible pedestrian circulation systems, among other Park and Recreation park standard elements.

The City of Asheville (City) issued a Request for Qualifications (RFQ) for design services for the Asheville Parks Sport Court Upgrades/Renovations Bond Project. In response to the RFQ, the City received five (5) Statements of Qualifications to be considered for this project. After thorough review and evaluation, staff recommended ADC Engineering, 25 Woods Lake Road, Suite 210, Greenville, South Carolina as the most qualified to perform the design services for this project.

Scope of Work: ADC Engineering has presented a scope of work and fee proposal for professional services associated with the Asheville Parks Sport Court Upgrades/Renovations Bond Project and will provide full design services, bidding administration, and contract administration/reporting during construction.

Project Budget: $1,015,000 million in General Obligation (GO) Bond Funding.

Tentative Project Timeline:

Engineering/Design Services	Fall 2017
Permitting	Winter 2017
Request for Construction Bid	Winter/Spring 2018
Construction Begin	Spring/Summer 2018
Construction Complete	Summer 2019

Pros:

- Address immediate maintenance needs and critical failures that are otherwise unattached to capital investments
- Focus on underserved areas of the city
- Address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods
- Meet the Parks and Recreation goal of increasing accessibility and equity

Cons:

- None

The project will be funded through the City's available cash resources.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with ADC Engineering to provide design services for Asheville Parks Sport Court Upgrades/Renovations for an amount not to exceed $148,000, and further authorizing the execution of any contract amendments up to 10% ($14,800) above of the contract price, which may arise during execution of said project.

City Manager Jackson said that staff is moving forward with the bond projects that met the equity based criteria with which we are prioritizing park courts and ballfield renovations. He provided Council with the document the Parks & Recreation Department is using which provides detail on the criteria that is going into evaluating the parks. He also provided a spreadsheet which goes through each park facility and gives it a rating based on various criteria.

RESOLUTION BOOK NO. 39 - PAGE 196

S. RESOLUTION NO. 17-195 - INITIAL FINDINGS RESOLUTION AND SETTING A PUBLIC HEARING ON SEPTEMBER 12, 2017, FOR THE LIMITED OBLIGATION BONDS

RESOLUTION NO. 17-196 - INITIAL FINDINGS RESOLUTION FOR THE SPECIAL OBLIGATION BONDS

Summary: The consideration of two resolutions authorizing: (1) The City to refinance a portion of the 2016 Limited Obligation Bond (approximately $18 million), refinance all or a portion of the currently outstanding 2012 Limited Obligation Bonds ($11.685 million), and make application to the Local Government Commission of not to exceed $31.2 million Limited Obligation Refunding Bonds (the "2017 LOBs Refunding"), Series 2017, and (2) The City to refinance a portion of the 2016 Limited Obligation Bond and make application to the Local Government Commission for the issuance of not to exceed $20 million Special Obligation Refunding Bonds (the "2017 SOBs Refunding"), Series 2017, of the City of Asheville, North Carolina.

The City is refinancing the short-term construction debt related to some capital projects. The refinancing is made up of Limited Obligation Bonds (LOBs) and Special Obligation Bonds (SOBs). The City is required to hold a public hearing for the LOBs but not for the SOBs. Nevertheless, Council will hear comments on the SOBs during the public hearing on September 12.

Based on internal analysis and advice from the City's financial advisor and bond counsel, staff is recommending that City Council take action to move forward with the refunding of the 2012 Limited Obligation Bonds and the refunding of the 2016 Installment Purchase Agreement with the 2017 LOBs Refunding and the 2017 SOBs Refunding (the "Refunded Bonds"). Based on current interest rates (at August 14, 2017), the refunding of the 2012 Limited Obligation Bonds is expected to produce total debt service savings of approximately $655,000. This figure may increase or decrease prior to the sale of the 2017 Limited Obligation Refunding Bonds based on potential changes in interest rates and overall municipal market conditions. The refunding of the 2016 Installment Purchase Agreement will not produce debt service savings but will convert the mode from short-term variable-rate into long-term fixed-rate Limited Obligation Bonds and long-term fixed-rate Special Obligation Bonds.

The Resolution for the 2017 Limited Obligation Refunding Bonds provides the following:

- Authorizing staff to begin negotiations to refund the 2012 Limited Obligation Bonds, to refund a portion of the 2016 Installment Financing Agreement, and to pay cost of issuance in connection with the Limited Obligation Bonds, the 2017 Limited Obligation Refunding Bonds are authorized by City Council and shall be issued pursuant to North Carolina General Statues, Section 160A-20;
- The principal amount of the 2017 Limited Obligation Refunding Bonds shall not exceed $31.2 million;
- Authorizes City Staff to make application to the Local Government Commission;
- Authorizes the retention of professionals and financing team needed to accomplish the transaction; and
- Authorizes the City to conduct a public hearing on September 12, 2017.

The Resolution for the 2017 Special Obligation Refunding Bonds provides the following:

- Authorizes the purpose of the 2017 Special Obligation Refunding Bonds to provide funds to refinance a portion of the 2016 Installment Financing Agreement and to pay cost of issuance in connection with the Special Obligation Bonds pursuant to North Carolina General Statues, Section 159I-30;
- The principal amount of the 2017 Special Obligation Refunding Bonds shall not to exceed $20 million;
- Authorizes City Staff to make application to the Local Government Commission;
- The true interest cost of the Special Obligation Bonds shall not exceed 5.00%;
- Authorizes the retention of professionals and financing team needed to accomplish the transaction; and
- City Council determines and asks the LGC to make its required findings through the City's application and supporting documentation.

Pros:

- Anticipated total debt service savings of the refunding of the 2012 Limited Obligation Bonds based on current market conditions is approximately $655,000. Actual savings level will be determined on the date the 2017 Limited Obligation Refunding Bonds are sold, which is scheduled for October 12, 2017.
- Converts the 2016 Installment Financing Agreement from short-term variable-rate into long-term fixed rate debt which will set total cost of the 2016 projects financed.

Con:

- None noted.

As noted above, anticipated total debt service savings of the 2012 Limited Obligation Bonds based on current market conditions is approximately $655,000 million. Annual debt service payments of the City will increase by the issuance of new long-term fixed rate debt of the 2017 Limited Obligation Refunding Bonds and the 2017 Special Obligation Refunding Bonds. The final amounts of the new debt service payments will be determined on the sale dates of October 12, 2017, for the 2017 Limited Obligation Refunding Bonds and October 19, 2017 for the 2017 Special Obligation Refunding Bonds.

City staff recommends City Council adopt the following: (1) Resolution authorizing the City to refinance a portion of the 2016 Installment Financing Contract (approximately $18 million), refinance all or a portion of the currently outstanding 2012 Limited Obligation Bonds ($11.685 million), and make application to the Local Government Commission of not to exceed $31.2 million Limited Obligation Refunding Bonds (the "2017 LOBs Refunding"), Series 2017, and (2) Resolution authorizing the City to refinance a portion of the 2016 Installment Financing Contract and make application to the Local Government Commission for the issuance of not to exceed $20

million Special Obligation Refunding Bonds (the "2017 SOBs Refunding"), Series 2017, of the City of Asheville, North Carolina.

RESOLUTION NO. 17- 195 - RESOLUTION BOOK NO. 39 - PAGE 100
RESOLUTION NO. 17- 196 - RESOLUTION BOOK NO. 39 - PAGE 105

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. INTRODUCTION OF EQUITY AND INCLUSION MANAGER KIMBERLEE ARCHIE

City Manager Jackson was pleased to introduce the City's new Equity and Inclusion Manager Kimberlee Archie.

Ms. Archie briefly explained her work plan and how she is looking forward to working the the Department Directors and the community in achieving equity in the City.

B. QUARTERLY I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam updated City Council on the I-26 Connector Project. The decision by the N.C. Dept. of Transportation (NCDOT) is that there will be six thru lanes throughout the project, instead of the eight thru lanes. At the last working group meeting, the NCDOT announced that the final environmental statement should be available for public review in the summer of 2018. The record of decision is scheduled to be either late 2018 or early 2019. The record of decision is an important milestone for this Project. It signals formal federal approval and authorizes the NCDOT to proceed with the Project. The City is also moving forward with hiring a consultant and it will be brought forward for Council consideration on September 12, 2017.

Councilwoman Mayfield announced some other good news, along with noting that they will continue to work hard to reduce the impact and overall size of the Project.

C. SIX-MONTH UPDATE ON REVIEW PROCESS FOR LEVEL III PROJECTS

The following update on the a six month update following the adoption of changes to the review process for Level III projects was provided to Council:

"On February 4, 2017, The Asheville City Council approved a zoning text amendment to the Unified Development Ordinance (UDO) concerning the method for reviewing larger scale Level III developments. This amendment had several components:

1) Changes to the Level III development review thresholds city-wide.

Outside the CBD-	Development 100,000 s.f. or larger, 50 or residential units Lodging uses with 21 or more guest rooms
Inside the CBD-	Development 100,000 s.f. or larger Buildings 100 feet tall or taller Lodging uses with 21 or more guest rooms

2) Clarifying that Level III development is a use that is only allowed in an Expansion District which is reviewed as a conditional zoning application. With a conditional zoning Council and developer agree to a specific set of conditions for project approval.

3) Creation of new floating zoning districts called *Expansion Districts* for large scale projects with specific development standards for each. The expansion districts include:

7-8-40 Central Business Expansion District
7-8-41 Institutional Expansion District
7-8-42 Commercial Expansion District
7-8-43 Residential Expansion District
7-8-44 Industrial Expansion District
7-8-45 Lodging Expansion
7-8-46 Mixed Use Expansion

Since the adoption of the changes there have been three Level III applications requiring an application to an Expansion District Conditional Zone:

- 1500 Tunnel Road for a Lodging Expansion CZ application for the Hotel Krish with 86 guest rooms. Approved by City Council 7/25/17
- 49 Tunnel Road for a Lodging Expansion CZ application for the Candlewood Hotel with 103 guest rooms. Being reviewed by Council on 8/22/17
- 175 Lyman Street for a Mixed –Use Expansion CZ application for the Stoneyard Apartments project with 133 apartments and commercial space. Public hearing was continued to a date certain on 8/22/17.

Conditional zoning applications require a large amount of communication between the developer(s) and staff as a proposal works its way through the review process. Although the conditional zones are underlying zoning districts with specific development standards, the development conditions concerning the proposal must be agreed to by both the developer and City Council. In addition Council may learn about a project prior to the actual public hearing where the project is considered.

Conditional zoning is often a useful tool available for projects when the underlying zoning is not completely compatible with the specific aspects of a development proposal. The conditional zoning application provides a level of customization while maintaining compliance with the Comprehensive Plan.

Some of the initiation of the wording change was in response to the growth of lodging uses in downtown which was coupled with the previously allowed larger review thresholds in the Central Business District zone. As with any new development review process there have been discussions with developers and community members to share the specific aspects of the changes."

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE ESTABLISHING REQUIREMENTS FOR UTILITY SUBSTATIONS

Councilman Smith moved to continue this public hearing until September 26, 2017. This motion was seconded by Councilman Young and carried unanimously.

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 175 LYMAN STREET FROM RIVER DISTRICT TO MIXED USE EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 133 RESIDENTIAL UNITS, COMMERCIAL SPACE, AND RESTAURANT IN 5 BUILDINGS AND A PARKING STRUCTURE

At the applicant's request, Councilman Smith moved to continue this public hearing to a date uncertain. This motion was seconded by Vice-Mayor Wisler and carried unanimously. She noted that when it comes back to Council it will be re-advertised.

C. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 3, 10, 12, 18 AND 99999 TRIED STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RS-8/CZ RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A SINGLE-FAMILY PROJECT

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located on 3, 10, 12, 18 and 99999 Tried Street from RS-8 Residential Single-Family High Density District to RS-8/CZ Residential Single-Family High Density District/Conditional Zoning for the development of a single-family residential project with conditions related to lot area, lot width and right-of-way. This public hearing was advertised on August 11 and 18, 2017.

The project site consists of five parcels with a combined area of approximately 4.16 acres, located at 3, 10, 12, 18 and 99999 Tried Street in Shiloh. The site is zoned RS-8 as are adjacent parcels. The area is characterized by single-family houses. The project site is mostly vacant and was recently occupied by a manufactured home development. The site is adjacent to a tributary of Sweeten Creek with associated 100-year floodway and stream buffer requirements.

The applicant is proposing to create a new public road to provide access to twenty single-family home lots. The conditional zoning is requested as the lots as shown do not comply with current RS-8 standards.

There is a private street in place already; however this proposal is to alter that road layout as shown on plans. The new public street is proposed according to a modified road standard, with 32 feet of right-of-way (minimum) and 22 feet of pavement, terminating in a hammerhead turnaround. Sidewalks are shown along one side of Tried Street and along West Chapel Road heading west. The homes are accessed via individual driveways.

Street trees are required for this project and are shown. Open space (approximately 0.7 acres) and tree save area (approximately 1.05 acres) are also required due to the number of lots and this is also provided for on plan. The open space is proposed in a permanent easement across the rear of multiple parcels to preserve environmentally sensitive areas but a condition is requested to eliminate any public access to this open area.

The underlying zoning allows approximately 33 units based on the overall project area, however due to the limited use of land encumbered by the stream buffer and flood areas as well as the proposed road location, the applicant has designed the layout shown on plans. With this request, the density proposed is 20 units however some of the lots are smaller than the zoning district permits. The average lot size for this project is approximately 6,817 square feet (or 4,677 square feet with the outlier removed) and the average lot width is approximately 44 feet. The project is otherwise similar in look and layout to other single-family residential developments that would be allowed in the area, with those smaller lots incorporated.

Conditions - The applicant is requesting the following conditions (see Exhibit B.1 for full list of project conditions):

1. **Lot Area** - lots range from approximately 4,000 to 8,000 square feet (RS8 minimum lot size is 5,000 SF)
2. **Lot Width** - lots have a minimum frontage of 40 feet (RS8 minimum lot frontage is 50 feet)
3. **Right-of-Way Width** - proposed ROW of 32 feet with 22 feet of pavement for main street; minimum 40 feet ROW for hammerhead (typical standard is 50 feet ROW)
4. **Access to Open Space –** the project contains an adequate amount of preserved open space but due to ownership of the lot and development, the applicant proposes that public access to the area is restricted.

Regarding open space, 20% of the project is required to be set aside for open space. The applicant does meet the 20% requirement, but in the interest of the developer (Mountain Housing Opportunities (MHO)), to keep the units as affordable as they can, they are seeking to avoid the creation of a homeowners association and the additional financial burdens that it would bring onto the homeowners in the maintenance and upkeep of the open space area. At the writing of the report, the proposal was to have the 20% of dedicated preserved open space, but it wouldn't be publicly available. Most of that area is along the stream and to the backs of several parcels. Those people would have what looks like a bigger back yard and there would be an easement prohibiting development along that open space area, but since it would be on individual properties, it wouldn't be open for just anyone. The applicant is working with the Shiloh Community Association for another alternative, which would be to create a 21st parcel (not for development) just for open space which would then be turned over by the developer to the Shiloh Community Association and they could then take that on for the maintenance of the open space which would be open for the public. A condition now reads: "The open space will be provided by either (1) through an easement across privately owned parcels and not intended to be publicly accessible; or (2) the 21st lot that would be transferred by the developer/owner to the Shiloh Community Association (SCA) and in that case would be accessible to the public." The developer would like to have the flexibility to pursue either option. One other possible condition is that there be no open space requirement - noting they are preserving 20% of the project area.

The applicant held the required community meeting on April 25, 2017; the project was approved with conditions by the Technical Review Committee on June 5, 2017. If approved, the applicant will return to the TRC following the Major Subdivision review process for plat approval.

The Planning & Zoning Commission voted unanimously (6-0) to recommend approval of this project with the conditions as noted in the recommendation form as well as reflected in the Exhibit B.1 list.

There were a number of community members present at the meeting to offer public comment including questions regarding how this development would complement the existing fabric of the neighborhoods, concerns about gentrification and affordability of the homes and support of the development, the single-family home-ownership aspect and for the future homeowners to have the ability to expand or use their homes with the same rights as any other home owner in the RS-8 zoning district. This has been reflected in the conditions. Residents did wish to see privacy fences in certain area where the existing homes are closer to the proposed development and also desired to have single-story homes in locations where the grade may warrant a lower-height to maintain privacy.

While about half of the lots (11 out of 20) have less than the minimum area in the underlying and surrounding zoning district and almost all have less than the minimum lot frontage, the layout of the subdivision and proposed single-family development is visually similar to what would be allowed otherwise and is expected to be compatible with the surrounding neighborhood. The density of the overall proposal is appropriate and similar to the single-family development in the area.

This project is aligned with elements in the Comprehensive Plan (*2025 Plan)* in that it provides infill residential development in a layout that avoids the sensitive environmental area and further the *Plan* suggests that the City should be flexible with standards to enable infill lots to be developed. The project provides sidewalks and the developer has been engaging with the neighborhood association as recommended in the *Plan*. While the proposed density is lower than recommendations in the *Plan* with regards to infill development supporting transit, the density is more aligned with the neighborhood's desires.

There are aspects of the project that correspond to goals and visions in the *Shiloh Community Plan* such as the density is mostly consistent with the character of the community at just above four units per acre; avoiding and preserving area along the stream as green space; sidewalks on the new road and along part of West Chapel Road help to improve pedestrian accessibility in the project area; and the design of the houses as shown on plans with front porches and orientation towards the street is aligned with the visions of the plan.

Considerations:

- The single-family residential development is compatible with the character of the surrounding Shiloh neighborhood as far as density, use and layout.
- The project preserves sensitive environmental area and provides dedicated open space.
- Sidewalks will be provided on the new street and along part of West Chapel Road.
- The project does include some initial affordability.
- Most of the lots are smaller than the surrounding zoning allows but driveways are proposed at the current maximum width.

Based on policies in the *2025 Plan,* City Council's 2036 Vision Considerations and compatibility with elements in the Shiloh Neighborhood Plan, staff recommends approval of the conditional zoning for the residential single-family project with the conditions noted in the B.1 list.

The Planning & Zoning Commission recommended approval by a 6-0 vote with the conditions as detailed previously in this report and in the B.1 conditions.

Councilwoman Mayfield was concerned that if the property remains as part of the back lots and those property owners can do what they want with the property (like put up fences), it would frustrate the purpose behind open space. If that remains as an option, she would like to add a condition that the people who own those lots are not allowed to put up fences in the area that makes up the open space.

Mr. Mike Vance, representing MHO, explained some of the difficulties in building traditional single-family neighborhoods within the current Unified Development Ordinance. Stormwater detention and open space are the biggest difficulties in the joint ownership components that are required. A goal from the beginning was not to burden the homeowners financially with a homeowners association for the maintenance of stormwater detention and open space. We found a way to put the stormwater detention on one single lot and they will continue to own and maintain that system so the other homeowners do not have to create an association to do that. This is a little different than an apartment community where those people don't have the benefit of their own individual lots that they can fence off. He said that eliminating the open space requirement for a single-family neighborhood would really be their ultimate goal. But, if Council is not amenable to that, they would suggest calling it open space with an easement across the lots. They have worked with the SCA and have made some changes at their request. Very recently the SCA asked if they would be willing to donate the land along the creek (which is part of the open space requirement). It has not been decided at this time on whether they will take it or not. They would like to option to continue that discussion after this meeting.

There was considerable discussion regarding the open space. In particular, discussion surrounded if the SCA has agreed to take on the maintenance of the 21st lot. If not, then it was

hoped that some creative solutions can be reached to protect that area, possibility dedicating the open space to the future Community Land Trust.

Mayor Manheimer opened the public hearing at 6:40 p.m.

Ms. Norma Baynes, liaison to the SCA, said that they have worked with MHO to see how the project can fit into their neighborhood. The SCA will not take responsibility for the stormwater detention. They have asked Neighborhood Housing to help them with the maintenance of the creek and garden over the years. This would be an extension of their trail from their garden and trail over to the development. They are willing to do what they can but are also asking for assistance.

Mayor Manheimer closed the public hearing at 6:43 p.m.

In response to Councilwoman Mayfield, Mr. Vance said this is not part of the City's Greenway Master Plan.

Because Council felt they could not proceed with this until the SCA takes time to understand and agree to the maintenance of the open space, with possibly a partnership with RiverLink, Councilman Smith moved to continue this matter until September 12, 2017. This motion was seconded by Councilman Young and carried unanimously.

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 49 TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A NEW LODGING FACILITY AND ASSOCIATED SITE IMPROVEMENTS

ORDINANCE NO. 4607 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 49 TUNNEL ROAD FROM REGIONAL BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A NEW LODGING FACILITY AND ASSOCIATED SITE IMPROVEMENTS

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located on 49 Tunnel Road from Regional Business District to Lodging Expansion/Conditional Zoning for the development of a new lodging facility and associated site improvements. This public hearing was advertised on August 11 and 18, 2017.

The project site consists of one parcel located at 49 Tunnel Road with an area of approximately 1.91 acres. The parcel is a flag lot with frontage on Tunnel Road and is sited among a variety of commercial uses; Ingles to the north, Innsbruck Shopping center to the west and south and McDonalds and Mikado Japanese Restaurant to the east.

The project site is currently surface parking used by a variety of neighboring uses; the zoning on the parcel as well as all surrounding parcels is Regional Business.

The applicant is proposing to construct a hotel building on the site with approximately 103 rooms. The building is five stories (approximately 54' according to plans). The conditional zoning is required due to the number of rooms.

Vehicular access to the site is primarily via the driveway from Tunnel Road along the flag portion of the lot. This driveway is a shared easement with adjacent uses and is not proposed to be changed. There are additional cross-access points to the users on several sides; some that will be removed or modified but others that will remain.

Surface parking for the hotel is provided to the front, sides and rear of the building with a total of 100 spaces included on plans, not to exceed 102 per Exhibit B.1 conditions.

Sidewalks already exist along Tunnel Road and the Lodging Expansion standards require connectivity to the road as well as to other uses in the development. Plans show a six foot wide (internal) sidewalk to Tunnel Road, steps to provide access to Ingles and a crossing to McDonalds for compliance with Access & Mobility Standards in the Lodging Expansion district. There is also a six-foot bike lane into the development along the driveway.

Landscaping is required for this project and includes parking lot landscaping, building impact landscaping and dumpster screening. Fifteen percent of the lot area is required for designated open space; the project provides more than the minimum with a large hardscaped patio to the rear of the hotel, a small dog park toward the front and green roof features. With these elements, 19% of the site is considered under open space.

There are standards relating to building orientation and fenestration in zoning district and the design complies.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on April 25, 2017. The project was approved with conditions by the Technical Review Committee on June 25, 2017.

The Planning & Zoning Commission reviewed this request at their meeting on July 20, 2017, and voted 4-1 in support of the project. Much of the discussion was focused on the open space compliance condition and ways the applicant could integrate additional open space onto the site. The Commission's vote included a condition that the square footage encumbered by the driveway easement be removed from the area used to calculate the open space requirement, given that this easement is encumbered by the shared access to other property owners and thereby should not be used to factor the developable area for the project.

While this was the recommendation of the Commission, the applicant revised the plan subsequent to the meeting to provide more than the minimum amount of open space required with keeping the driveway easement area in consideration.

At the meeting, several public comments in support of the developer and the proposal were received.

Lodging uses with over 21 rooms are required to undergo a conditional zoning review to the Lodging Expansion District. This proposal is located along a commercial corridor where lodging uses exist and can be expected. The use is appropriate in this location and the project complies with the standards in the expansion district.

As stated, the lodging use is appropriate in this location given the underlying Regional Business zoning and the project has the ability to comply with the standards in the Lodging Expansion District. There are a number of hotels in the vicinity (seven within a half-mile radius) and the existing infrastructure along Tunnel Road is suited to accommodate the additional vehicular traffic created by the use. While most of the existing buildings along this side of the street are only a single-story in height, there are other taller buildings across Tunnel Road in the vicinity. The hotel itself does not include a restaurant component; walkways and access points to Ingles and the neighboring restaurants have been provided to allow hotel guests to have a clear way to utilize these existing commercial businesses, integrating into the corridor in a complementary way.

There is a concern regarding compatibility as it relates to the surrounding surface parking lot and how the layout and design will be affected by development on this parcel, which is currently a part of what visually appears to be one consolidated surface parking area (even

though it is a separate parcel). The applicant has submitted a draft restriping plan that appears to alleviate most of the concern but the adjacent property owner will need to agree to the plan.

This project is aligned with elements in the Comprehensive Plan (*2025 Plan)* in that it provides infill development along a commercial corridor with infrastructure already suited to accommodate the use. Additionally, the proposal considers multiple methods of transportation access; including sidewalk walkways, bike paths, vehicular access and located along a transit line. Also the *Plan* does recognize tourism and the 'availability of adequate lodging facilities" as a key strength of the City.

Considerations:

- Project provides vertical development on a site that is currently surface parking
- Design integrates landscaping thereby reducing the impervious surface area and more than the required amount of open space via green roof features
- The use is along a commercial corridor and transit line where lodging uses are anticipated and appropriate
- Integration of development with existing parking lot layout on property owned by others

Based on policies in the *2025 Plan* and City Council's 2036 Vision Considerations as well as the ability to comply with standards in the Lodging Expansion District, staff recommends approval of the conditional zoning for the construction of a new lodging facility.

The Planning & Zoning Commission recommended approval by a 4-1 vote with the condition to exclude the driveway easement from the area used to calculate the open space requirement. *As noted above, the applicant has revised plans, exceeding the requirement while including the driveway area.*

In response to Councilman Smith, Councilwoman Mayfield said there is not a corridor plan for Tunnel Road; however, once the Comprehensive Plan is adopted she hoped that we work quickly to put in place the zoning and requirements that will get us the kind of development the Comprehensive Plan says we want.

Mr. Marvin Mercer, civil engineer for the project, said that they held a neighborhood meeting which was attended by several property owners in the area. He explained that at first they did not meet the open space requirements; however, they have now included a green roof and they are well over the open space requirements. He urged City Council to approve the project.

Mr. T. C. Morphis said that the only concern the Planning & Zoning Commission had was open space and that has been addressed now. This project meets both the Comprehensive Plan and Council's 2036 Vision. He urged Council to approve the project.

Ms. Twinkle Patel, applicant, explained her history in the hotel business. She said this will be an extended stay hotel with no food service. Because of no food service, patrons from their hotel will frequent the several neighboring eating establishments. They will maintain a stairway access to Ingles. They will add a crosswalk to the McDonalds and they are working with the owners of the Innsbrook Mall to repave and restripe the disrupted area. They are working with local artists for art work for the rooms and lobby area. The project will include a bicycle lane, a dog park, charging stations, recycling/dumpster, LED lights and a green roof. Even though she and her family currently reside in Maggie Valley, N.C., they will move to Asheville and manage the hotel full-time. She asked for the Council's support because this will add vibrancy to the area.

Mayor Manheimer opened the public hearing at 7:13 p.m.

The following individuals spoke in support of the conditional zoning for 49 Tunnel Road because the Patels are committed to community involvement, treat their employees well, run a well-maintained operation, and will support surrounding businesses:

Mr. Billy Chase, Maggie Valley Planning Board Chairman
Mr. Joe McGuire, former co-owner of the property
Ms. Haney, employee of Patel family in Maggie Valley
Mr. Steve Perkins, representing the Teleco Credit Union on Tunnel Road
Ms. Linda Richardson, representing the owners of the Innsbruck Mall
Owner of Mikado Japanese Steak House on Tunnel Road

Mayor Manheimer closed the public hearing at 7:19 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the conditional zoning request for Milestone 1, LLC for the property located at 49 Tunnel Road from Regional Business (RB) to Lodging Expansion District Conditional Zone (LODG EXP CZ), and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on infill development, multi-modal transportation elements and tourism; and (2) The design includes landscaping and green roof, reducing the impervious surface area. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 296

Closed Session

At 7:21 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: City of Asheville v. VG Enterprises, LLC and Siemens Real Estate Holdings, LLC; and Jim Siemens, individually v. City of Asheville. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:04 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

D. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO INCENTIVIZE SMALL-SCALE RESIDENTIAL DEVELOPMENT

ORDINANCE NO. 4608 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO INCENTIVIZE SMALL-SCALE RESIDENTIAL DEVELOPMENT

Interim Transportation Planning Manager Vaidila Satvika said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to incentivize small-scale residential development. This public hearing was advertised on August 11 and 18, 2017.

He said these proposed wording amendments are intended to revise regulations affecting residential development citywide to encourage more compatible, small-scale infill housing.

In February 2016, the Department of Planning and Urban Design presented City Council with a list of potential amendments to encourage small-scale residential infill. These UDO amendments would give more flexibility to landowners to help address the city's gap in housing supply as identified in the 2015 Housing Needs Assessment. The proposed changes would provide more housing units, provide different types of housing units, and change the pattern of residential development to use land more efficiently.

The following strategies were proposed to be studied in greater detail:

- Cottage Developments
- Multifamily Districts
- Lot Standards
- Tiny House Zoning
- Higher Density Residential Buffer Zone
- Conservation Development
- Sustainable Development

Since then, it was determined that staff should focus on fewer topics in order to bring about timely changes as a first phase so as not to overwhelm staff and the public.

Staff determined that changes to lot width standards and multifamily regulations had the greatest potential, and has developed the following recommendations to support small-scale residential infill:

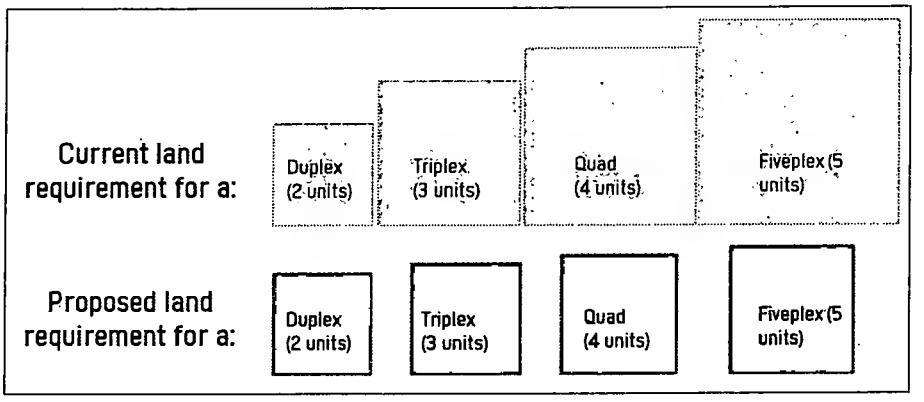
1) **Minimum dimensional standards**. Reduce the minimum lot width for parcels in all residential districts by twenty (20) percent. This change would help residential districts to get closer to reaching allowable densities which for the most part are not being met. This change primarily makes land more accessible for development, where lot width is a key constraint. The steep slope ordinance would continue to protect land above 2220' elevation and 15% grade. It is anticipated that these changes could potentially "create" 9% new parcels that would be distributed throughout the city incrementally, over many years. The following chart shows the current versus proposed standards:

Dimensional Standards - Lot Width

		RS2	RS4	RS8	RM6	RM8	RM16
Min Lot Width*	Current	100'	80'	50'	70'	50'	50'
	Proposed (20% less)	80'	60'	40'	60'	40'	40'

*RS4 proposed minimum lot width rounded from 64' to 60'; RM6 rounded from 56' to 60'

2) **Incentivize small-scale multifamily in multifamily zoning districts.** For multifamily zoning districts, update the density standards to allow extra multifamily units for each 1,000 square feet of additional lot area above the minimum lot standard, provided that parking and other requirements can be met. This proposal mimics an earlier Asheville zoning rule that contributed to diverse neighborhoods, like Montford and the Charlotte Street area where single-family properties are mixed in among small-scale multifamily buildings. Under this proposal, the maximum number of dwelling units per building is twelve and minimal design guidelines would guide residential multifamily buildings to fit in to neighborhoods, having them resemble large residential homes.

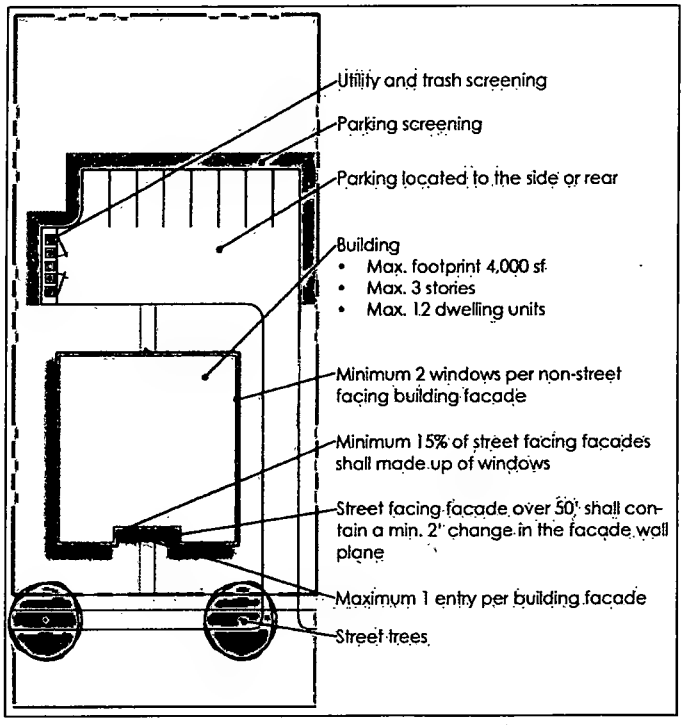


Proposed design requirements would address neighborhood compatibility for small-scale multifamily homes and include:

a. One ground-floor entrance per street-facing facade
b. Minimum two windows per building facade
c. No street-facing facade or roof to exceed 50 feet in length without variation
d. Parking to be provided to the side or rear and screened
e. Increased side setback for structures with more than four units (from 6' to 10')
f. Orientation of structures to the street
g. Maximum height of three stories or 40 feet, whichever is less

Visual: Neighborhood-Scale Multifamily Design Standards

To ensure neighborhood compatibility, design elements hide parking, control building scale, and reduce driveway impacts to differentiate vehicular space from pedestrian areas.



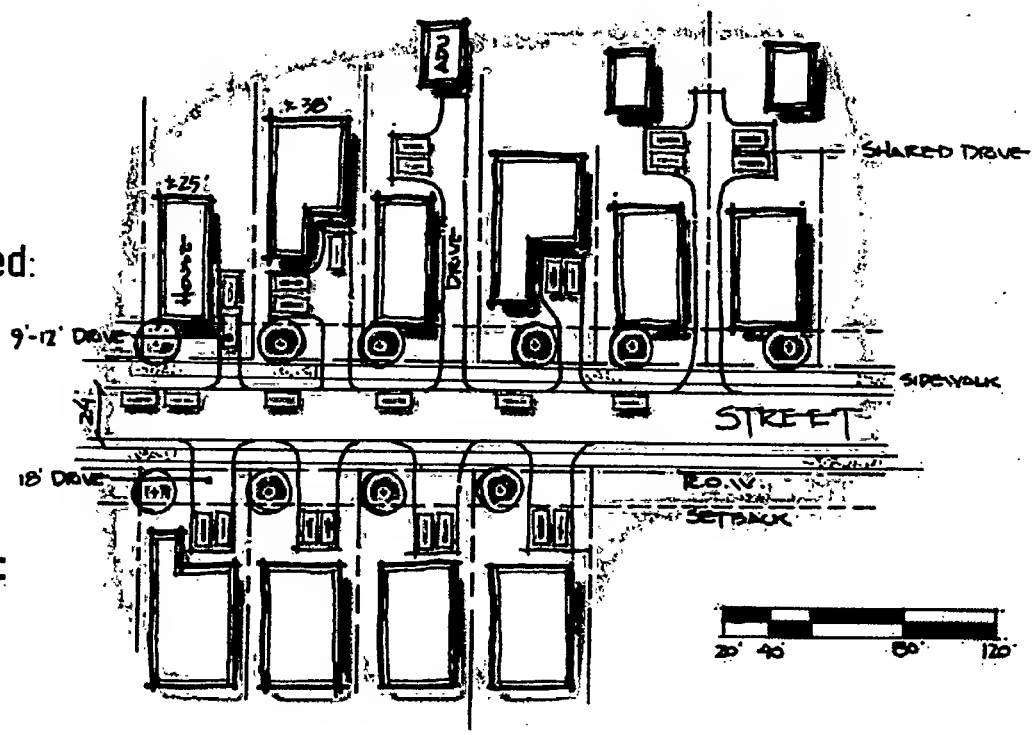
Utility and trash screening
Parking screening
Parking located to the side or rear
Building
• Max. footprint 4,000 sf
• Max. 3 stories
• Max. 12 dwelling units
Minimum 2 windows per non-street facing building facade
Minimum 15% of street facing facades shall made up of windows
Street facing facade over 50' shall contain a min. 2' change in the facade wall plane
Maximum 1 entry per building facade
Street trees

3) **Related UDO changes.** The following proposed amendments are in support of the amendments noted above and help to clarify related regulations:

a. Clarifying definitions (Sec. 7-2-5)
b. Clarifying number of buildings permitted on residential lots (Sec. 7-10-1)
c. Updating off-street parking requirements (Sec. 7-11-2)
d. Removing duplicative, substandard *Alternative Access* regulations (Sec. 7-11-2)
e. Reducing driveway maximums and encouraging shared driveways (Sec. 7-11-2)
f. Revising flag lots to set maximum lot size based on zoning district (Sec. 7-11-2)
g. Permitting duplexes on standard lots in multifamily districts (Sec. 7-8)
h. Adding "townhomes" as a permitted use in RS8 (Sec. 7-16)

Driveways (e above): There have been some questions raised from some members of the public and the Affordable Housing Advisory Committee (AHAC) about reducing driveway widths for single-family development. The proposal aims to reduce the amount of area used for vehicular access close to the street in order to reduce the vehicle and pedestrian conflict points and to provide more on-street parking because wide driveways reduce on-street parking opportunities. The visual below highlights the difference between the current and proposed effect on the streetscape. This change may help to shift the built environment as well to better locate parking areas away from the street. These changes also provide multifamily flexibility by allowing driveways to be reduced from the current minimum width of 24 feet, especially appropriate for small-scale multifamily (i.e. a triplex).

Although we believe this change will benefit the public by shifting the development form, we understand that it may pose challenges where the land quickly falls away or becomes steep. A solution may be to provide an exemption for properties over a certain grade, such as 20%. See attached driveway standards chart and options for City Council to consider.



Updating off-street parking requirements (c above): There has recently been pushback from some members of the public and development community relating to the proposal to increase the off-street parking requirements within one mile of the Central Business District (CBD) from none required to a 50% reduction. Staff included this consideration after the removal of proposed impervious surface standards. A minor increase in parking requirements could provide some relief to the concern that the infill housing recommendations are not responding to the potential negative community effects of infill development, including existing concerns from some neighborhoods regarding the loss of on-street parking.

One consideration that was supported earlier by the Multimodal Transportation Commission (MMTC) was to link a parking reduction to transit (e.g. a 50% off-street parking reduction to projects near bus stops). Considering that a transit master plan is beginning next month and concluding in the spring of 2018, staff recommends holding off on linking parking reductions within proximity to transit stops until after that study is completed. An alternative would be to not pursue staff's proposed change to parking within a mile of the CBD.

The bulk of the above considerations were presented at two public forums that each attracted approximately 100 participants. In addition, a survey was conducted through Open City Hall to gauge the public's interest. By and large, public feedback on the small-scale infill housing considerations has been favorable.

Most public concern relating to residential infill revolved around issues of neighborhood compatibility, possible stormwater, parking, and infrastructure impacts. We believe that these concerns have been addressed with these wording amendments that aim to balance neighborhood context and housing need. We have confirmed infrastructure capacity with relevant departments.

At the April 26, 2017, Multimodal Transportation Commission (MMTC) meeting, the Commission voted unanimously to recommend the transportation-related changes to the Planning & Zoning Commission, which focused on reducing residential driveway widths and reducing residential off-street parking requirements for projects close to bus stops. Since that time, staff revisited the current parking exemption for residential uses within one mile of the CBD and instead proposed a 50% parking reduction for residential uses in order to address neighborhood concerns related to limited on-street parking in some areas of the city.

At their July 6, 2017, meeting the Affordable Housing Advisory Committee (AHAC) reviewed these considerations and supported the infill housing proposals but not the proposed changes to driveway width reductions. AHAC also supported linking parking reductions to proximity to transit.

The Planning & Zoning Commission voted unanimously to support all of the above recommendations on August 2, 2017, and, in addition, recommended that staff continue to explore the following: (1) Permitting duplexes and triplexes in some single-family zoning districts; (2) Reducing minimum area standards by 20%; (3) Greater driveway flexibility; and (4) To not increase the parking requirements within a mile of the CBD.

The Housing & Community Development Committee (HCD) reviewed the proposed wording amendments at their August 15, 2017, meeting and agreed that more flexibility is needed for driveways and encouraged staff to continue to explore changes that garner more community consensus. HCD was also against the proposed off-street parking requirement increase within a mile of the CBD. The Committee unanimously recommended that:

- the proposed changes to the off-street parking exemption within a mile of the CBD **not** be implemented, and
- driveway standards should only be changed as follows:
  - ✓ Single-family driveway minimums width standards should be reduced to 9 feet while the maximum should not be changed (18 feet)
  - ✓ Multifamily driveway minimum width standards for properties within 150 feet of a street should be reduced to 9 feet while the maximum should not be changed (36 feet)
  - ✓ Multifamily driveway minimum width standards for properties beyond 150 feet of a street should be reduced to 20 feet while the maximum should not be changed (36 feet)

This wording amendment is consistent with the City's 2025 Comprehensive Plan in the following areas: (1) It provides compatible redevelopment and infill development; (2) It supports walkable neighborhoods by incentivizing location-efficient housing; and (3) It contributes to the development of transit-supportive densities via more efficient land use.

This initiative aligns with the 2036 Council Vision in the following areas: (1) It promotes more abundant and varied housing options that will help to relieve Asheville's housing affordability crisis; (2) It provides more location efficient housing—close to jobs and transit

service—to reduce the costs and environmental impacts associated with automobile dependence; and (3) It supports a more equitable and diverse community by giving current property owners greater flexibility to provide housing for the growing community.

Staff recommends approval of the wording amendment modifying residential zoning districts and associated changes as they would incentivize neighborhood compatible, small-scale residential development that is consistent with the Comprehensive Plan and other adopted plans.

The Planning & Zoning Commission voted unanimously to support all of the above recommendations on August 2, 2017, and, in addition, recommended that staff continue to explore the following: (1) Permitting duplexes and triplexes in some single-family zoning districts; (2) Reducing minimum area standards by 20%; (3) Greater driveway flexibility; and (4) To not increase the parking requirements within a mile of the CBD.

Regarding the driveway standards, Councilman Smith, Chair of the HCD Committee said that one of their questions was whether there would be exemption possibilities for affordable housing. Therefore, the HCD Committee recommended holding off on this piece until the City Attorney's Office can respond. City Attorney Currin said that there can be exemption possibilities for affordable housing, but they will have to decide how to define the exemption. Councilman Smith said that the HCD Committee would be happy to look at this piece again.

Mayor Manheimer suggested, and it was agreed to by City Council, to reduce the minimum driveway widths without reducing maximum driveway standards (which would allow people to continue to do side-by-side parking).

Mayor Manheimer suggested, and it was agreed to by City Council, to not increase the off-street parking requirements within one mile of the CBD.

After a discussion about why the 20% reduction to the minimum lot area was dropped from the proposed ordinance before Council, it was the consensus of Council that they supported that reduction and requested that part be remanded back to the Planning & Zoning Commission for recommendation.

Mayor Manheimer opened the public hearing at 8:25 p.m.

The following individuals spoke in general support of amendment as a first step, and voiced several of the following comments/questions/concerns, some being, but are not limited to: support to include the 20% reduction to minimum lot area; disappointed in leaving the parking alone within one mile of the CBD; support to include the new impervious surface standards for all residential districts; need to address infrastructure; and support for permitting duplexes and triplexes in single-family zoning districts:

Ms. Billie Laughlin, resident in the 5 Points Neighborhood
Ms. Barber Melton, member of the Coalition of Asheville Neighborhoods, member of of the Affordable Housing Advisory Committee, and member of the Neighborhood Advisory Committee
Mr. Blake Esselstyn, resident in the 5 Points Neighborhood and member of the Comprehensive Plan Advisory Committee
Mr. Scott Dedman, Executive Director of Mountain Housing Opportunities
Mr. Mike Wasmer, resident in South Asheville
Mr. Joe Archibald

Mayor Manheimer closed the public hearing at 8:44 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved approve the revised wording amendments to UDO Articles II, VIII, X, XI, and XVI according to the ordinance, which revise the zoning standards to incentivize small-scale residential development and to also approve the Planning & Zoning Commission and HCD recommendations to reduce minimum driveway widths without reducing maximum driveway standards, and to not increase the off-street parking requirements within one mile of the CBD, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the amendment (1) promotes more abundant and varied housing options in residential neighborhoods; and, (2) supports walkable neighborhoods and more efficient land use through compatible residential infill. This motion was seconded by Councilman Bothwell and carried unanimously.

In response to Councilman Smith, City Manager Jackson said that he will have Transportation Director Ken Putnam contact the 5 Points Neighborhood to see how they can work together to alleviate their parking programs.

Councilman Young moved to direct staff to prepare an ordinance for the reduction of lot size and the corresponding density requirements and to bring it back to Council for consideration as soon as possible. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 301

V. UNFINISHED BUSINESS:

A. ANALYSIS OF THE SOUTHERN PORTION OF THE RIVER ARTS DISTRICT MULTI-USE PATH

Interim Assistant City Manager Jade Dundas said that during the June 27, 2017, Council meeting, City Council authorized the City Manager to execute a contract for construction of the modified River Arts District Transportation Improvement Project (RADTIP). Further, City Council unanimously directed staff *to commit to planning a community engagement effort which will* (1) *prioritize the future phasing of greenway projects* (interpreted to mean projects not being delivered through the original TIGER VI scope*) and* (2) *prioritize reengineering of the multi-use path between the old 12 Bones and Amboy Road to accommodate an appropriate width to compensate for the loss of the protected bike lane, with said process being completed within 60 days.* (Interpreted to mean perform a feasibility analysis.) Council also requested staff to work with Norfolk Southern Railroad to ensure safe bicycle accessibility through the at grade crossing at the spur line to the North.

Immediately following this Council directive, staff began working with the RADTIP roadway engineering consultants and Construction Manager at Risk (CMAR) to analyze several layout and width options of the Southern section multi-use path. Three of these concepts were presented to the public at two different public drop-in style meetings. These meetings were jointly hosted by City staff and volunteer members of the Multimodal Commission, Greenway Committee and Asheville Area Riverfront Redevelopment Commission. Three concepts were outlined. Also a brief update on the prioritization of future greenways and the bicycle improvements to the Norfolk Southern railroad crossing was provided.

At these public meetings, and through Open City Hall online polling, attendees were asked to provide feedback on the multi-use path layout options on the Southern section of the RADTIP.

Regarding the financing of future construction phases, Council has an upcoming opportunity to consider this in context within the City-wide Capital Improvements Plan. Staff will present on update on the current CIP - including a forecast of future capacity, and review of cashflow and potential revenue sources - to the Finance Committee in September.

As mentioned previously, Council has been provided an analysis of the various concepts which have been reviewed by the public. The analysis includes a Level of Service (LOS) evaluation which considers a future projected usage of 100 users per hour on the multi use paths of 10, 12 and 16 feet. The analysis indicates that a 10 path will accommodate 100 users per hour which is nearly double the current traffic on the nearby French Broad multi use path.

Additionally, Council has been provided with the breakdown of costs, staging, scope of work, and a summary of uses for the three concepts. Also provided is a visual depiction of the various options. This exact information was used in the public presentation process.

Specific recommendations were provided by the Multimodal Commission, the Greenways Committee, and the Asheville Area Riverfront Commission. All three groups were in support of the construction of concept 1.

The current adopted budget for the TIGER VI RADTIP; funded in part through a combination of federal, state, and local grants includes installation of a multi-use path which will vary in width between 10-12' on this Southern section. It is important to note that the delivery of a multi-use pedestrian and bicycle connection throughout the southern section of the project is mandatory in order to meet the requirements of the federal grant. Because the current budget includes funding for the Phase I Concept 1, there is no immediate additional fiscal impact. The delivery of any other proposed Concept or phase will result in additional funds that do not currently exist in the project budget.

Staff recommends that Council confirm the authorization to proceed with Phase I, Concept 1 as previously approved. This concept has already been bid, and was approved by City Council. The greenway portion of this project (phase 1) can be built without the need for additional funding. Construction of a 10' greenway allows the project to meet the requirements of the TIGER IV grant from the Federal Highway Authority. This concept will meet the level of service expectations for the projected uses. Concept 1 received positive feedback through the public process and is supported by the various commissions and committees that were tasked with the review of concepts.

Mr. Dundas briefly summarized the following three Concepts:

1. Concept 1 is a 10-12' wide multi-use path and projected bicycle lanes.

Phase I	Build a 10-12' wide multi-use path only - existing on-street bicycle lanes to remain
Phase II	Build the remainder of RADTIP improvements with new sidewalks, curb and gutter, and the original design for protected bicycle lanes

Scope

Phase I constructs a 10-12' wide multi-use path adjacent to the French Broad River along Lyman Street. Due to the limited amount of space between the street and the river, Lyman street pavement will be shifted in front of Riverview Station to the east. Drainage in this area will be accommodated via open swales, much like the existing roadway.

Phase II constructs the remainder of RADTIP improvements as originally designed. In addition to the previously installed 10-12' wide multi-use path, this phase will include sidewalks on the east side of Lyman and two 5' protected bicycle lanes adjacent to Lyman Street (two-way protected bicycle lane). All of Lyman Street will be reconstructed in this phase with a new road alignment, curb and gutter, re-built driveways, and landscaping.

Bicycle Access
In Phase I, Lyman Street will include the existing 3-5' wide bicycle lane from Amboy Rd to Riverside Drive. Bicyclists will be able to choose between the existing on-street bicycle lanes or the 10-12' multi-use path. In Phase II, bicyclists will be able to use the newly-constructed protected bicycle lanes or the multi-use path.

Pedestrian Access
In Phase I, Pedestrian access is available on the 10-12' multi-use path. In Phase II, pedestrian access is accommodated on new sidewalks on the east side of Lyman, and on the multi-use path.

Estimated Cost

Phase I	No additional cost (included in the current construction budget)
Phase II	$4.6M
Total Additional Cost	$4.6M (in 2017 dollars)

Analysis
- In phase I, the existing on-street bicycle lanes are adjacent to traffic, narrow in places, and cross a number of driveways on the east side. Many cyclists are likely to be more comfortable on the multi-use path.
- In phase II, cyclists of differing skill levels will be able to use the new protected bicycle lanes, which will be protected from traffic and driveways. This will provide a high level of service to higher-speed and commuter bicyclists. Less experienced cyclists will still have the option to use the multi-use path.
- The first phase does not include sidewalk on the east side of Lyman. This will limit access for businesses along the street. This stretch of Lyman is seeing an increase in activity and in the number of destinations. The absence of sidewalks and street trees in the first phase reduces the development incentive that would be offered by the full buildout.
- The Phase II portions of this concept are already designed and engineered, and environmental reviews are complete.
- The protected bicycle lane adds about 4-5 feet of extra concrete to the overall width of the roadway because of the island that separates the protected bike lane from traffic.

2. Concept 2 - 10-12' wide multi-use path with standard on-street bicycle lanes

Phase I	Build a 10-12' wide multi-use path and a portion of re-located road sections. Existing on-street bicycle lanes will remain.
Phase II	Build the remainder of RADTIP improvements with new sidewalks, curb and gutter, and a modified design for two 5' on-street bicycle lanes.

Scope
Phase I constructs a 10-12' wide multi-use path adjacent to the French Broad River along Lyman Street. Due to the limited amount of space between the street and the river, Lyman Street in front of Riverview Station will shift to the east. In this phase the relocated section of roadway in front of Riverview Station will be re-built to include sidewalk, curb and gutter, landscaping, and room for future on-street bicycle lanes.

Phase II constructs the remainder of RADTIP improvements with a modified design. In addition to the previously installed 10-12' wide multi-use path, this phase will include sidewalks along the east side of Lyman and two 5' on-street bicycle lanes. The remainder of Lyman Street will be reconstructed in this phase with a new road alignment, curb and gutter, re-built driveways, and landscaping.

Bicycle Access

In Phase I, Lyman Street will continue to include the existing 3-5' wide bicycle lane from Amboy Rd to Riverside Drive. Bicyclists will be able to choose between the existing on-street bicycle lanes or the 10-12' multi-use path. In Phase II, bicyclists will be able to use the newly constructed on-street bicycle lanes or the multi-use path.

Pedestrian Access
In Phase I, Pedestrian access is available on the 10-12' multi-use path and on sidewalks in some locations (areas of road re-location). In Phase II, pedestrian access is accommodated on new sidewalks on the east side of Lyman, and on the multi-use path.

Estimated Cost

Phase I	$1 - 1.5M	(due to the proposed road re-construction)
Phase II	$2.6 - 3.1M	
Total Additional Cost	$3.6 - 4.6M	(in 2017 dollars)

Analysis

- In phase I, the existing on-street bicycle lanes are adjacent to traffic, narrow in places, and cross a number of driveways on the east side. Many cyclists are likely to be more comfortable on the multi-use path.
- In phase II, the quality of the bicycle lanes will be improved, but will not be separated from traffic and on the east side (northbound), must cross driveways. Less experienced cyclists will still have the option to use the multi-use path. In this concept, the on-street bicycle lanes do not require as much width or concrete as protected bike lanes.
- Phase I does not include sidewalk on the east side of Lyman. This will limit access for businesses. This stretch of Lyman is seeing an increase in activity and in the number of destinations. The absence of sidewalks and street trees in the first phase reduces the development incentive that would be offered by the full buildout.
- The Phase II portions of this concept would require additional design and engineering work.

3. Concept 3 - 12-16' wide multi-use path and no on-street bicycle lanes

Phase I	Build a 12-16' wide multi-use path and a portion of re-located road sections. The sections of re-located roadway will not have bicycle lanes.
Phase II	Build the remainder of RADTIP improvements with new sidewalks, curb and gutter, and a modified design with no on-street bicycle lanes.

Scope
Phase I constructs a 12-16' wide multi-use path adjacent to the French Broad River along Lyman Street. Due to the limited amount of space between the street and the river, Lyman Street in front of Riverview Station will shift to the east. In this concept the relocated section of roadway in front of Riverview Station will be built to include sidewalk, curb and gutter, landscaping, but will not have any on-street bicycle lanes.

Phase II constructs the remainder of RADTIP improvements with a modified design. In addition to the previously installed 12-16' wide multi-use path, this phase will include sidewalks along the east side of Lyman but will not include on-street bicycle lanes. The remainder of Lyman Street will be reconstructed in this phase with a new road alignment, curb and gutter, re-built driveways, and landscaping.

Bicycle Access
In Phase I, a wide multi-use path of up to 16 feet will serve most bicyclists. Bicyclists will still be able to choose between the multi-use path and riding on the road, but the newly-constructed road sections will not have bicycle lanes. So if riding on the road, bicyclists

must share the road with traffic. Similarly, in Phase II, the wider multi-use path will serve most bicyclists. Some users may choose to ride on the road, but will share the travel lane with other traffic.

Pedestrian Access
In Phase I, Pedestrian access is provided on the 12-16' multi-use path and on sidewalks in some locations (areas of road relocation). In Phase II, pedestrian access is accommodated on new sidewalks on the east side of Lyman, and on the multi-use path.

Estimated Cost

Phase I	$2 - 2.5M (due to road re-construction and wider multi-use path)
Phase II	$2 - 2.5M
Total Additional Cost	$4 – 5M (in 2017 dollars)

Analysis

- In Phase I, the existing on-street bicycle lanes will be removed in some areas resulting in shared lane conditions. Many cyclists are likely to be more comfortable on the multi-use path, which will have extra width to accommodate the increased number of users.
- In phase II, there will not be any on-street bicycle lanes, so most users will be sharing the multi-use path. The new design of the road will not require as much width, pavement or concrete.
- The first phase does not include sidewalk on the east side of Lyman. This will limit access for businesses. This stretch of Lyman is seeing an increase in activity and in the number of destinations.
- The Phase II portions of this concept would require additional design and engineering work.
- The wider path is along the river bank and could result in additional tree clearing, but the impacts have not been fully evaluated.

Councilman Bothwell felt that it would be ideal to do Phase I and Phase II at the same time because Phase II will tear up some of what we have done in Phase I. We might save money doing it all together. He wondered if there was a window of opportunity that we might pull the funding together in time to do all of that at once. Mr. Dundas said that they will try to find every opportunity that they can to identify and apply for the funding necessary.

City Manager Jackson said that he would like to move entirely through the capital planning process (which is normally part of the budget cycle) in September (starting with the Finance Committee) and wrap that up with a Council worksession before the end of the calendar year.

The following individuals spoke in support of Concept 1, hoping that both Phase I and Phase II could be done at one time:

Ms. Kimberly Williams, member on the Greenway Committee
Mr. Rich Lee, Vice-Chair of the Greenway Committee and member of the Multimodal Transportation Commission
Mr. Mike Soule, Executive Director of Asheville on Bikes

Councilman Bothwell moved to proceed with Concept 1 (Phase I - Build a 10-12' wide multi-muse path only - existing on-street bicycle lanes to remain; and Phase II - Build the remainder of RADTIP improvements with new sidewalks, curb and gutter, and the original design for protected bicycle lanes. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

B. RESOLUTION NO. 17-197 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AGREEMENTS WITH ASHEVILLE GROWN BUSINESS ALLIANCE, US CELLULAR CENTER, LATINO ADVOCACY COALITION, BUNCOMBE COUNTY PARTNERSHIP FOR CHILDREN, SKUNK TRUNK, LAND OF THE SKY ASSOCIATION OF REALTORS, SNOOK THEATRE, MT. ZION MISSIONARY BAPTIST CHURCH AND PEOPLE'S PARK FOUNDATION FOR FEE WAIVERS FOR POP-UP PROGRAMMING AT 68 HAYWOOD STREET TO TAKE PLACE BETWEEN AUGUST 2017 AND DECEMBER 2018

Downtown Development Specialist Dana Frankel said that this is the consideration by City Council for fee waivers to support execution of pop-up programming at 68 Haywood Street resulting from the Request for Expressions of Interest process initiated in June.

Recommended by the Haywood Street Advisory Team and authorized by City Council, staff is pursuing the implementation of temporary uses at City-owned properties at 33 Page Avenue and 68 Haywood Street downtown. The primary objective is to activate the subject sites on an interim basis while permanent solutions are being planned and implemented. A secondary goal is to test particular uses and installations in order to learn more about their function, successes and impacts in that location and in the community at large in order help inform both short and long-term decision-making.

At the March 28, 2017, City Council meeting, Council supported a proposed implementation and management plan. Staff returned to City Council on May 23, 2017, and provided an update on progress and next steps, including the issuance of a Request for Expressions of Interest (RFEI) for pop-up programs to take place at 68 Haywood Street during the course of a year. On July 21, 2017, staff circulated a memorandum with updates including a timeline for programs to begin in late August following City Council review and authorization at the August 22 City Council meeting.

She provided a project timeline including milestones completed to date as well as projected future milestones.

On June 2, a RFEI was released as an initial mechanism for reviewing, selecting and scheduling pop-up programs for 68 Haywood Street. Thirteen submissions were received, including a range of proposed cultural, recreational and commercial activities.

A review team made up of staff from Planning and Urban Design, Community and Economic Development and Parks and Recreation, along with a representative from the Downtown Commission and a representative from the Haywood Street Advisory Team Sub-Committee reviewed and scored the submissions using the following criteria (defined in the RFEI): Alignment with City Council's Strategic Operating Plan; community benefit; compatibility with the surrounding neighborhood; organizer capacity; prior history; audience diversity; City services/cost impact.

Based on the total scores, each submission was ranked and was given priority for scheduling based on that ranking. One submission was routed directly to the existing outdoor special event permitting process (American Idol scheduled for 8/27), another re-directed as a possible public art project, one City-generated submission will be considered for future implementation, and one was not ready to initiate programs at this time.

Beginning in September, the site will be made available for use through the City's existing outdoor special event process. Fees would be charged consistent with those established in the outdoor special event process for use of public space, unless directed otherwise by City Council.

The nine programs listed below (in order of ranking) are positioned for implementation. Fees were calculated consistent with those established in the outdoor special event process for use of public space (including application fee, alcohol fee, parking meter fee, property use, security, temporary use permit, fire permit, inspection, etc.). Other requirements such as insurance coverage are also being handled consist with the existing outdoor special event process.

Asheville Grown Business Alliance – Venture Local Fair
Dates: 5/26/18, 6/23/18, 7/28/18, 8/25/18, 9/22/18, 10/27/18
Total Fees: $2,938
US Cellular Center – Fan Fest
Dates: 10/27/17, 10/28/17, 11/4/17, (three dates TBD)
Total Fees: $8,224 ($1,920 to be covered by USCC for security)
Latino Advocacy Coalition – Community Open Stage
Dates: 4/7/18, 8/16/18, 10/7/18
Total Fees: $2,495
Buncombe Partnership for Children – Adventure Play
Dates: 10/14/17, 11/11/17, 12/16/17, 1/13/18, 2/10/18, 3/10/18, 4/28/18
Total Fees: $2,851
Skunk Trunk's Bazaar Bazaar
Dates: 9/3/17, 10/8/17, 11/5/17, 12/3/17, 1/7/18, 2/4/18
Total Fees: $1,685
Land of the Sky Association of Realtors – Housing Fair
Dates: 3/17/18
Total Fees: $585
Snook Theatre – The Ballad of R&J
Dates: 5/29/18, 5/30/18, 5/31/18, 6/1/18, 6/2/18, 6/7/18, 6/8/18, 6/9/18, 6/14/18, 6/15/18, 6/16/18, 6/21/18, 6/22/18, 6/23/18, 6/28/18, 6/29/18, 6/30/18
Total Fees: $8,561
Mt. Zion Missionary Baptist Church – Car Show
Dates: 8/26/17
Total Fees: $543
People's Park Foundation - Recreational and Educational Activities
Dates: on-going beginning 8/28/17
Non-exclusive use/no fees or permits required

As presented to City Council in May, staff would return to Council if programs selected through the RFEI process requested support from the City, including waived fees. Administratively, it would be possible for the application, property use, and other administrative fees be waived for the first round of programs.

The Parks and Recreation Board, Downtown Commission, Public Art and Cultural Commission and US Cellular Center Commission have all been informed and consulted regarding the process for programming.

Pro:

- Initiates programming on the site; supports organizations involved with programming; enables the City and community to learn more about the site in order to inform next steps

Con:

- Requires financial support and staff capacity to administrate and promote the programs

The fiscal impact should fees be waived is $23,914 in lost administrative revenue.

For non-administrative costs such as security ($640) and lost revenue from parking meter closures ($1,408) expenses are proposed to be covered by the Community and Economic Development Department.

Staff recommends City Council consideration of waiving administrative fees for these initial pop-up programs.

Vice-Mayor Wisler confirmed that this is not a policy change for fee waivers and this is only a one-time fee waiver. She was troubled that some of these organizations are not non-profits and make money.

In response to Councilwoman Mayfield, Ms. Frankel said that in the RFEI the organizations were asked if they needed City support. She was not sure if some did not get the fee waiver that they would be able to do their programming.

Mayor Manheimer noted that we have been consistent in not allowing fee waivers but this is an experimental area and we are trying to activate it. However, in the future, staff is not to ask if they need City support. If they qualify as a non-profit for a 75% fee waiver, that is something that they will automatically receive.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved for the adoption of Resolution No. 17-197. This motion was seconded by Councilman Bothwell and carried on a 6-1 vote, with Councilman Young voting "no".

RESOLUTION BOOK NO. 39 – PAGE 108

C. RESOLUTION NO. 17-198 - RESOLUTION ALLOCATING THE USE OF $10 MILLION IN AFFORDABLE HOUSING BOND FUNDS FOR DIRECT PROJECT INVESTMENT, IN ANTICIPATION OF GENERAL OBLIGATION HOUSING BONDS BEING ISSUED

Community Development Manager Heather Dillashaw said that this is the consideration of a resolution allocating the use of $10 million in affordable housing bond funds for direct project investment, in anticipation of General Obligation Housing Bonds being issued.

The passage of the affordable housing general obligation bond will provide much needed resources to help mitigate Asheville's affordable housing crisis. $25 million was approved. Of that amount, $10 million was targeted by Council for project investments, and $15 million for the repurposing of City-owned land for affordable housing. This report proposes uses for the $10 million, based on stakeholder and focus group input, research, staff analysis and most recently a public input session at the Dr. Wesley S. Grant Southside Center on August 8, 2017.

The Housing and Community Development Committee reviewed the proposed allocations and recommends these allocations to City Council for approval. For planning purposes, a strategy is crucial for effective implementation of these funds once the bonds are issued. Staff recommends investing in a diverse portfolio meeting Council's vision, promoting a flexible approach to pipeline development in line with the allocation. The amounts for each category are projections, and can be shifted at City Council's direction if needed during implementation of the bond projects. The proposed allocation table is shown below.

Proposed Allocation of Funds for Direct Investment in Affordable Housing	Funding	Unit Goal	Average Per Unit
Housing Trust Fund	$5,000,000	250	$20,000
Land Banking	$3,000,000	150	$20,000

Community Land Trust Start-up	$1,000,000	35	$20,000
Down-Payment Assistance	$1,000,000	50	$20,000
	$10,000,000	485	

Pros:

- $10 million of additional investment in affordable housing allows for a diverse set of strategies to address Asheville's affordable housing needs.
- 485 new affordable units are projected to be created

Con:

- None at this time

The full $10 million will be available through the Affordable Housing General Obligation Bond funding as the bonds are issued.

Staff recommends City Council accept HCD's recommendations for the use of $10 Million of Affordable Housing General Obligation Bond funds.

When Councilman Bothwell asked if the Down-Payment Assistance is a grant, Ms. Dillashaw said that has not be determined at this time. She said they will see what is the most effective.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 17-198. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 109

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-199 - RESOLUTION REPEALING RESOLUTION NO. 95-59 ADOPTING THE AMERICANS WITH DISABILITIES ACT GRIEVANCE PROCEDURE FOR THE CITY OF ASHEVILLE, AND SUPPORT THE IMPLEMENTATION OF A CITY ADMINISTRATIVE POLICY

Risk Manager Brad Stein said that this is the consideration of a resolution to repeal Resolution 95-59 related to Title II of the Americans with Disabilities Act (ADA).

In April 1995, Asheville City Council adopted Resolution 95-59 directing the designation of a City of Asheville (City) ADA Coordinator and an ADA Committee comprised of citizens to consider, respond to, and address ADA Title II complaints asserted against the City related to citizen access to City services, programs, facilities, and public transportation. There is not a current ADA Committee nor has the committee convened in many years.

To enhance the City's ADA Title II compliance and response to ADA Title II-related concerns, City staff recommends City Council repeal the outdated Resolution 95-59 and support the implementation of a City administrative policy to guide City staff on ADA Title II matters. City staff will post Department of Justice compliant ADA Title II notices and related documents including: Grievance Procedure, Notice of the City of Asheville Compliance with the ADA Title II Statement, and an ADA Title II Appeal Form.

Pro:

- Repeal of Resolution 95-59 aligns with 2036 City Council Vision Goals of: Supporting a Diverse Community, Transportation and Accessibility, and Connected and Engaged Community as the proposed ADA Title II administrative policy and related document postings improve access to City services and City ADA Title II compliance.

Con:

- None.

Staff recommends City Council repeal Resolution 95-59.

When Councilwoman Mayfield asked how this was vetted throughout the community or through any City Council committee, Mr. Stein said that this is an internal process; however, if we encounter problems, the City policy can be revised. City Attorney Currin noted that the City Attorney's Office worked on this and we also went through a substantial process regarding reasonable accommodations.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 17-199. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39- PAGE 110

B. CONFIRMATION OF PLANNING & ZONING COMMISSION CANDIDATE QUESTIONS

The following individuals applied for vacancies on the Planning & Zoning Commission to date: Joe Archibald, Nick Hinton, Carter Webb, Sandra Kilgore, Robert Carroll and Paul Harkrider. In addition to these individuals, the current incumbent (Laura Berner Hudson) is interested in reappointment.

It was the consensus of City Council that all applicants, including the incumbents, respond in writing to the following five questions: (1) What is your opinion regarding the current policies surrounding Short Term Rentals; (2) Please take time to review the City's draft comp plan. How strongly does your own vision align with that plan, and in what ways might it differ. What role would or should the comp plan play in your and the commission's decision-making?; (3) Name one Planning & Zoning Commission decision in the last 18 months you've agreed with and one you've disagreed with or would have struggled with. Please explain your rationale for each; (4) What are some of the positive or negative effects of Asheville's zoning regulations?; and (5) How has existing zoning promoted/inhibited the construction of affordable housing in Asheville? What changes could be made to further the creation of affordable housing?

After all written responses have been received, the City Clerk will send all documents to City Council to narrow the field for interviews (including the one incumbent). Those interviews will take place in the afternoon of September 26, 2017, with appointments to be effective immediately.

C. BOARDS & COMMISSIONS

Regarding the Buncombe County Tourism Development Authority, the following individuals have applied for a vacancy: Andrew Celwyn, Ken Stamps, Jennifer Lauzon, Jessica Tomasin, Elizabeth Button, Patrick Conant and Peter Pollay. It was the consensus of Council to interview Andrew Celwyn, Jennifer Lauzon and Elizabeth Button on September 12, 2017.

RESOLUTION NO. 17-200 – RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Affordable Housing Advisory Committee.

The terms of Laura Collins, Jayden Gurney and Barry Bialik expire on September 1, 2017.

The following individuals applied for the vacancy: Gerry Leonard, Derek Towle, Daniel Summerlin, Dewana Little, Elena Mansour, Emily Gelb, Leslie Hennessee, Parker Smith and Marcia Bacoate.

Vice-Mayor Wisler moved to (1) reappoint Mr. Bialik to serve an additional three-year term, term to expire September 30, 2020, or until his successor is appointed; (2) appoint Dewana Little and Parker Smith to each serve a three-year term, terms to expire September 30, 2020, or until their successors have been appointed appoint and (3) interview Randall Barnett and Leslie Hennessee. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 111

RESOLUTION NO. 17-201 - RESOLUTION APPOINTING MEMBERS TO THE MULTIMODAL TRANSPORTATION COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of Till Dohse, at-large member on the Multimodal Transportation Commission, expired on July 1, 2017.

The following individuals have applied for a vacancy: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Scott Dickens, Andrew Stephen Kirby and Randy Warren.

On July 25, 2017, it was the consensus of Council to interview Han Winogrond and Randy Warren.

After Council spoke highly of all candidates, Han Winogrond received 2 votes and Randy Warren received 5 votes. Therefore, Randy Warren was appointed to serve a three-year term, term to expire July 1, 2020, or until his successor has been appointed.

RESOLUTION BOOK NO. 39 – PAGE 112

RESOLUTION NO. 17-193 - RESOLUTION APPOINTING A MEMBER TO THE PUBLIC ART & CULTURAL COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Sharon Trammel has resigned as a member of the Public Art & Cultural Commission, thus leaving and unexpired term until June 30, 2018.

The following individuals have applied for a vacancy: Michael Carlebach, Laura Sellers, Gerry Leonard, Emma Hutchens, Theodore Windish, Travis Smith, Shelley Schenker, Susan Dunlap, Chris Patton, Allen Roda, Johanna Hagarty and Ali McGhee.

It was the consensus of the Boards & Commissions Committee to appoint Ali McGhee.

Vice-Mayor Wisler moved to appoint Ali McGhee to serve the unexpired term of Ms. Trammel, term to expire June 30, 2018, or until her successors has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 98

RESOLUTION NO. 17-194 - RESOLUTION APPOINTING A MEMBER TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that Bridget Herring has resigned as a member of the Sustainability Advisory Committee on Energy & the Environment, thus leaving and unexpired term until December 31, 2019.

The following individuals have applied for a vacancy: Michael Whitmire, Kenneth Dierks, Travis Smith, Gerry Leonard, Andrew Malone, Lateef Cannon, Zephyr Jost, Larry Haas, David Penrose, Renee Mazurek, Anna Priest, Catherine Rosfjord, Red Moonsong, Patrick Ciccotoo, Rick Freeman, Frank Wolf, Bob Roepnack, E. Benjamin Edwards, Kelly Gloger, Lin Orndorf and Ursula Jorch.

At the July 25, 2017, Council meeting, it was the consensus of Council to interview Anna Priest and Ursula Jorch.

After Council spoke highly of all candidates, Anna Priest received 4 votes and Ursula Jorch received 3 votes. Therefore, Anna Priest was appointed to serve the unexpired term of Ms. Herring, term to expire December 31, 2019, or until her successors has been appointed.

RESOLUTION BOOK NO. 39 – PAGE 99

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Council made various announcements including (1) Board & Commission Open House to hear about the various Boards & Commissions offered by the City on September 7, 2017, from 6-8 p.m. at the Dr. Wesley Grant Sr. Southside Center; (2) Groundbreaking for the River Arts District Transportation Improvement Project on August 23, 2017, at 9:00 a.m. at Jean Webb Park; and (3) first meeting of the Blue Ribbon Commission on Human Relations Commission on August 23, 2017, at 5:00 p.m. in the Public Works Facility.

Mr. Robert Louis Hardy requested the Walton Street Pool and Park be designated a historic site.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:55 p.m.

Magdalen Bowman
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – September 12, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and Deputy City Clerk Sarah Terwilliger

Absent: Councilwoman Julie V. Mayfield (personal)

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

On behalf of the City Council, Mayor Manheimer thanked those working so hard to clean up after the storm and get our town back in order.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING SEPTEMBER 15 - October 15, 2017, AS "HISPANIC HERITAGE MONTH"

Mayor Manheimer read the proclamation proclaiming September 15 - October 15, 2017, as "Hispanic Heritage Month " in the City of Asheville. She presented the proclamation to Mr. Luis Carlos Serapio of Descubre Asheville, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

Councilman Bothwell asked that Consent Agenda Item "F" be removed from the Consent Agenda for discussion and an individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON AUGUST 22, 2017

B. RESOLUTION NO. 17-202 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A ONE-YEAR CONTRACT WITH WILDE ACRE LANDSCAPING, INC. FOR GROUNDS MAINTENANCE SERVICES IN VARIOUS PARKS, GREENWAYS AND FACILITIES IN THE NORTH AND EAST ONE DISTRICTS; AND TO EXERCISE THE OPTION TO RENEW THE CONTRACT FOR ONE ADDITIONAL TWELVE MONTH PERIOD

Summary: The consideration of a resolution authorizing the City Manager to: (1) enter into a one-year contract with Wilde Acre Landscaping, Inc. for grounds maintenance services in various parks, greenways and facilities in the North and East One districts in the amount of $93,600; and (2) exercise the option to renew the contract for one additional twelve-month period based on the contractor's satisfactory performance and available budget.

The Parks and Recreation Department (Department) contracts with multiple vendors for ground maintenance services for the six districts within the City's park system. In 2016 the City issued an Advertisement for Bids for ground maintenance services within the districts that comprise the City's park system to include mowing, trim and edge, and leaf and debris removal. The City contracted with four ground maintenance contractors in a one-year contract with the

option to renew for two consecutive years. In preparation to renew the second year of a three-year contract, the contractor for the North and East One districts declined to renew its contract.

On June 26, 2017, the City issued an Advertisement for Bids for ground maintenance services in the North and East One districts. The City received two bids however the Locust Property Management bid was deemed non-responsive due to not providing the following documents as specified in the Advertisement for Bids 1) submittal checklist, 2) Minority Business forms, and 3) certificate of insurance.

1. Wild Acre Landscaping, Inc., Asheville, North Carolina ($93,600)
2. Locust Property Management, Mint Hill, North Carolina ($89,600)

After thorough review and evaluation, staff selected Wilde Acre Landscapes, Inc. as the lowest, responsible bidder. The base bid accepted is $93,600.

Pro:
- Supports the efficient delivery of core park maintenance services.

Con:
- None

The $93,600 funding required to support this grounds maintenance contract is budgeted in the FY 2017-2018 Department operating budget as part of the Parks Maintenance division budget.

Staff recommends City Council to adopt a resolution authorizing the City Manager to: (1) enter into a one-year contract with Wilde Acre Landscaping, Inc. for grounds maintenance services in various parks, greenways and facilities in the North and East One districts in the amount of $93,600; and (2) exercise the option to renew the contract for one additional twelve-month period based on the contractor's satisfactory performance and available budget.

RESOLUTION BOOK NO. 39 - PAGE 113

C. RESOLUTION NO. 17-203 - RESOLUTION AMENDING THE 2017 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE FORMAL MEETING ON TUESDAY, SEPTEMBER 26, 2017, AND RESCHEDULE IT TO TUESDAY, OCTOBER 3, 2017

RESOLUTION BOOK NO. 39 - PAGE 114

D. ORDINANCE NO. 4609 - ORDINANCE CHANGING THE SPEED LIMIT TO 25 MILES PER HOUR ON AZALEA ROAD FROM US 25A SWEETEN CREEK ROAD TO ROSSCRAGGON ROAD; AZALEA ROAD EAST FROM US 70 TUNNEL ROAD TO NC 81 SWANNANOA RIVER ROAD; BEVERLY ROAD WEST FROM SR 3548 HAYWOOD ROAD TO RIVERVIEW DRIVE; CARTER COVE ROAD FROM SR 2053 BEAVERDAM TO END OF CITY MAINTENANCE; DELAWARE AVENUE FROM SR 3412 SAND HILL ROAD TO SULPHUR SPRINGS ROAD; ENKA CRESCENT STREET FROM NC 112 SAND HILL ROAD TO ENKA PINE STREET; ENKA OAK STREET FROM ENKA CRESCENT STREET TO ENKA PINE STREET; ENKA ORCHARD STREET FROM NC 112 SAND HILL ROAD TO ENKA PINE STREET; ENKA PINE STREET FROM ENKA CRESCENT STREET TO ENKA ORCHARD STREET; ROYAL PINES DRIVE FROM US 25 HENDERSONVILLE ROAD TO US 25A SWEETEN CREEK ROAD; SHELBURNE ROAD FROM NC 191 BREVARD ROAD TO SR 3412 SAND HILL ROAD; AND WEST SUMMIT

AVENUE FROM US 25 HENDERSONVILLE ROAD TO THE END OF CITY MAINTENANCE

Summary: The consideration of an ordinance to enact and/or change the speed limits on various sections of streets in the City of Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected.

City staff recently completed traffic engineering investigations and determined that a 25 mph speed limit on Azalea Road from US 25A Sweeten Creek Road to Rosscraggon Road, Azalea Road East from US 70 Tunnel Road to NC 81 Swannanoa River Road, Beverly Road West from SR 3548 Haywood Road to Riverview Drive, Carter Cove Road from SR 2053 Beaverdam to End of City Maintenance, Delaware Avenue from SR 3412 Sand Hill Road to Sulphur Springs Road, Enka Crescent Street from NC 112 Sand Hill Road to Enka Pine Street, Enka Oak Street from Enka Crescent Street to Enka Pine Street, Enka Orchard Street from NC 112 Sand Hill Road to Enka Pine Street, Enka Pine Street from Enka Crescent Street to Enka Orchard Street, Royal Pines Drive from US 25 Hendersonville Road to US 25A Sweeten Creek Road, Shelburne Road from NC 191 Brevard Road to SR 3412 Sand Hill Road, and West Summit Avenue from US 25 Hendersonville Road to the End of City Maintenance would be reasonable and safe.

Pros:

- City staff has been able to respond favorably to citizen's requests.
- The new speed limits will be consistent with roads of like character and design.
- Based on the 85th percentile speeds, most drivers would adhere to the recommended speed limits on these roads.

Con:

- None.

The initial cost to install the appropriate speed limit signs is about $1,200 and is included in the current operating budget for the Transportation Department.

City staff recommends that City Council approve an ordinance enacting a 25 mph speed limit on Azalea Road from US 25A Sweeten Creek Road to Rosscraggon Road, Azalea Road East from US 70 Tunnel Road to NC 81 Swannanoa River Road, Beverly Road West from SR 3548 Haywood Road to Riverview Drive, Carter Cove Road from SR 2053 Beaverdam to End of City Maintenance, Delaware Avenue from SR 3412 Sand Hill Road to Sulphur Springs Road, Enka Crescent Street from NC 112 Sand Hill Road to Enka Pine Street, Enka Oak Street from Enka Crescent Street to Enka Pine Street, Enka Orchard Street from NC 112 Sand Hill Road to Enka Pine Street, Enka Pine Street from Enka Crescent Street to Enka Orchard Street, Royal Pines Drive from US 25 Hendersonville Road to US 25A Sweeten Creek Road, Shelburne Road from NC 191 Brevard Road to SR 3412 Sand Hill Road, and West Summit Avenue from US 25 Hendersonville Road to the End of City Maintenance.

Vice-Mayor Wisler asked how many streets have a 25 mph speed limit or less and can we make all streets be 25 mph and higher than that be an exception. Traffic Engineer Jeff Moore said that he would have to get the information about how many streets have a speed limit of 25 mph or less but that 25 mph is pretty much the standard speed for residential streets. The default

on all streets is 35 mph. To make 25 mph the standard for all streets, each individual street would have to have an engineering study. Since some residential streets are lower than 25 mph, having a city-wide 25 mph might have unintended consequences.

Mayor Manheimer said that instead of taking the time and expense to have an engineering study on, it was the consensus of Council to have the City Attorney's Office investigate if we need a local bill or a state-wide change and then forward the matter to the Public Safety Committee for review.

ORDINANCE BOOK NO. 31 - PAGE 316

E. RESOLUTION NO. 17-204 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SAM SCHWARTZ CONSULTING LLC TO PROVIDE CONSULTING AND ENGINEERING SERVICES TO EVALUATE AND ADVISE CITY COUNCIL ON THE DESIGN OF THE I-26 CONNECTOR PROJECT

ORDINANCE NO. 4610 - BUDGET AMENDMENT FOR THE I-26 CONNECTOR PROJECT CONSULTING SERVICES CONTRACT

Summary: The consideration of 1) a resolution authorizing the City Manager to enter into a contract with Sam Schwartz Consulting, LLC to provide consulting and engineering services to evaluate and advise City Council on the design of the I-26 Connector project and 2) a budget amendment in the General Capital Projects Fund in the amount of $200,000 from the City's Capital Improvement Program (CIP) pay-go funds to fund the contract.

City Council authorized the City Manager to solicit qualifications from professional consultants to evaluate and advise City Council on the design of the I-26 Connector project via Resolution No. 16-278 dated December 13, 2016.

Transportation Department staff prepared the Request for Qualifications (RFQ) documents including the need for the consultant team to demonstrate multi-disciplinary expertise in roadway design and engineering, structure design, noise studies and mitigation, traffic forecasts and simulations, constructability methods, pedestrian and bicycle connectivity, greenway planning, urban planning, aesthetics planning, and storm water mitigation. The RFQ was released on February 22, 2017, and the proposals were due on March 17, 2017, at 2:00 pm. The selection process would last for 30 days and City Council was scheduled to approve a contract with the successful consultant team on April 25, 2017.

The City received one proposal. The Selection Committee, which included five members; three staff members and two Multi-Modal Transportation Commission members, interviewed the consultant team. In consultation with legal and purchasing staff, it was determined that the firm was not responsive in that they did not demonstrate expertise on their team in all of the required technical areas outlined in the RFP. As a result, the consultant team was notified that the City was stopping the process and would be moving forward to release a new RFQ.

A new RFQ was prepared with a more limited scope that emphasized expertise regarding urban design, land planning, redevelopment, and aesthetics. This RFQ was released on June 21, 2017, and proposals were due on July 13, 2017, at 2:00 pm. The City received two proposals, one from Sam Schwartz Consulting, LLC and the other one from Toole Design Group. The Selection Committee interviewed both firms on August 4, 2017, and unanimously selected Sam Schwartz Consulting, LLC as the firm to negotiate a contract with. This firm clearly demonstrated a high level of responsiveness to the City's needs throughout the interview process. The proposal was well written and demonstrated a good understanding of the City's needs and a clear action plan to accomplish the various tasks. The team members listened to the Selection Committee and discussed ideas and experiences that demonstrated that their entire

team has a comprehensive knowledge of Asheville and a natural chemistry between the team members.

Pros:

- Provide planning and design expertise to tweak the I-26 Connector project.
- Provide assistance as the City goes through the aesthetics process.

Con:

- None

The format of the contract will be a fee-based, oriented-task contract with an estimated not to exceed budget of $200,000. Funding will come from the City's Capital Improvement Program (CIP) pay-go funds that were budgeted in FY 2017-18. The budget amendment will allow those funds to be transferred into the General Capital Projects Fund for this specific project.

Staff recommends that City Council adopt 1) a resolution authorizing the City Manager to enter into a contract with Sam Schwartz Consulting, LLC to provide consulting and engineering services to evaluate and advise City Council on the design of the I-26 Connector project and 2) a budget amendment in the General Capital Projects Fund in the amount of $200,000 from the City's CIP pay-go funds to fund the contract.

RESOLUTION BOOK NO. 39 - PAGE 115
ORDINANCE BOOK NO. 31 - PAGE 318

F. MOTION TO APPROVE THE REQUEST FOR QUALIFICATIONS FOR THE DESIGN SERVICES FOR THE CITY-OWNED PROPERTIES ON HAYWOOD STREET AND PAGE AVENUE AND THE ASSOCIATED TIMELINE

This item was removed from the Consent Agenda for discussion and an individual vote.

Summary: The consideration of a motion to approve the Request for Qualifications for the design services for the City-owned properties on Haywood Street and Page Avenue and the associated timeline.

On March 8, 2016, the Asheville City Council approved a visioning process for the future use of city-owned properties located at 68-76 Haywood Street and 33-39 Page Avenue to be completed by an Advisory Team of 18 community members. A final Visioning Report developed by the Advisory Team was shared with the City Council on March 28, 2017. At that meeting, Council directed staff to issue a Request for Qualifications (RFQ) to hire the services of a consultant team to develop design options for the properties. The RFQ represents the first phase of the project to develop a plan for the site and implement as appropriate.

Scope of Work: As a Phase I step to determine the development program for the site, an RFQ has been developed using the Visioning Report as the primary source document for developing up to three design proposals. The current language for the Scope of Work from the RFQ is provided for specific consideration:

The City of Asheville is seeking the services of a consultant team to:

- Develop up to three design proposals for the identified subject properties and study area. The consultant team shall utilize the Visioning Report in the preparation of the design options, which will include mixed-use and other compatible programmatic elements that complement the uses of the site and surrounding areas. These design proposals should consider pedestrian and vehicular circulation and access, major views from the properties, and site and surrounding context. The design proposals should also incorporate the various passive and active uses identified in the Visioning Report.

Streets and other right of way areas should be included or reconfigured with a focus on pedestrian safety which has been an identified challenge as a part of the comprehensive redevelopment of the site. These design options will be shared with the community and City Council for initial support and direction.

- Review site due diligence materials provided for the properties that will help to inform the design options and cost considerations.
- Prepare a constructability assessment
  - Conceptual design layouts
  - Circulation, access and parking assessments
  - Neighborhood compatibility
  - Other development factors
- Prepare preliminary cost estimates for the construction of each of the three design options
- Advise the city regarding future management strategies including management models for potential public/ private partnerships to support a successful development plan and program for the subject properties
- Prepare cost estimates (for construction and on-going operations/maintenance) based on recommendations for public/private partnerships and management strategies for each of the design options (there could be multiple development plan/program strategies for each of the design options)
- Create a public engagement process to allow for additional community comment and input on the different design options.
- Develop a final conceptual design based on community feedback and Council direction that will be approved by the City Council.
- Include team members with specific engineering and design expertise who will be able to advise the design process about the different goals and uses recommended in the Vision Report for complex urban sites
- Provide a concise, user-friendly and illustrative report and presentation that graphically and narratively conveys the recommendations in a web based format
- Present the recommendations to City Council and Council subcommittees and involved commissions (as needed)

Schedule for release of the RFQ:

Review by PED:	August 15, 2017
Approval by City Council:	September 12, 2017
RFQ Release Date:	September 18, 2017
Deadline for Submittals:	November 3, 2017
Design Team Selection for Interviews:	November 17, 2017
Interview Timeframe:	Week of December 11, 2017
Selection of Consultant:	Week of December 18, 2017
Contract Negotiation:	By January 12, 2018
Contract Award:	By February 2, 2018
Commencement of Project:	March 5, 2018
Early Draft Concepts:	June 2018

The anticipated contract award will require approval by City Council and is expected in February 2018. There are no funds set aside for this project in the current budget year.

The Planning and Economic Development Committee reviewed the report and scope of services on August 15, 2017, recommended approval and directed staff to include additional emphasis on linking design outcomes to the Visioning Report. Staff has incorporated these changes and recommends approval for the release of the RFQ.

G. RESOLUTION NO. 17-205 - RESOLUTION ADOPTING A SECTION 3 POLICY FOR THE CITY OF ASHEVILLE IN COMPLIANCE WITH HUD REQUIREMENTS FOR COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP FUNDS

Summary: The consideration of a resolution adopting a Section 3 Policy within the City's Community Development Block Grant (CDBG) and HOME Investment Partnerships programs of financial assistance administered by Department of Housing and Urban Development (HUD).

Section 3 is a provision of Housing and Urban Development Act of 1968 that helps foster local economic development, neighborhood improvement, and individual self-sufficiency. The purpose of Section 3 is to provide, to the greatest extent feasible, job training, employment, and contracting opportunities for low and very low income residents in connection with projects and activities in their neighborhood.

The City Community and Economic Development Department implements the Section 3 policy through the awarding of contracts to contractors, vendors and suppliers, to create employment and business opportunities for Section 3 residents and other qualified low and very low-income persons. These regulations can be found in 24 CFR, part 135.

A HUD monitoring of City CDBG and HOME Investment Partnerships programs on July 11-13, 2017 included a review of Section 3 plans and activities. Section 3 is currently referenced in Asheville's CDBG and HOME policy manuals, and the City requires Section 3 plans for all relevant projects managed by subrecipients of CDBG and HOME funds. HUD determined through the monitoring visit that this was not sufficient for Section 3 policy, and is requiring a separate, more detailed Section 3 policy for the City to be in compliance with HUD's Section 3 requirements.

The Housing and Community Development Committee reviewed the proposed Section 3 Policy on Tuesday, August 15, 2017, and recommends adoption by City Council.

Pro:

- This policy will provide opportunities for employment, training and contracting for low and very low income residents. In addition, the policy will place the City in compliance with HUD's regulation 24 CFR, part 135.

Con:

- None

There is no fiscal impact to the City, however; Section 3 compliance is relevant to CDBG and HOME federal funds allocated to the City of Asheville each fiscal year.

Staff recommends City Council approve HCD's recommendation to adopt the City of Asheville Section 3 policy.

RESOLUTION BOOK NO. 39 - PAGE 116

H. RESOLUTION NO. 17-206 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR FUNDS THROUGH THE U.S. DEPT. OF JUSTICE 2017 EDWARD BYRNE MEMORIAL JUSTICE ASSISTANCE GRANT - LOCAL SOLICITATION, AND IF AWARDED, ENTER INTO SAID AGREEMENT

Summary: The consideration of a resolution authorizing the City to apply for the funds through the US Dept, of Justice 2017 Edward Byrne Justice Assistance Grant – Local Solicitation in the amount of $54,574, and if awarded, enter into said agreement.

The City of Asheville Police Department (APD) requests authorization to apply for the Byrne JAG – Local Solicitation. This is a predetermined amount of funds based on the Part 1 Uniform Crime Reporting Crimes. The Asheville Police Department and Buncombe County Sheriff's Department will be allocated $54,574 based on the award matrix, with the City of Asheville receiving $43,975 and Buncombe County receiving $10,599. The distribution of funds will be approved through a signed Memorandum of Understanding.

Funds will be used to create a task force of police officers to deter and interrupt violent Part I crimes in the City. With the use of JAG funds, Asheville Police Department (APD) will strategically deploy a task force of police officers to work flexible hours who are assigned to interrupt and resolve emerging violent Part I Crimes in the City. The City of Asheville will rely on the JAG program to enable the City to have the flexibility to deploy police officers to take an intensive approach to fighting serious crimes. This approach has been used in the past to reduce auto thefts as well as to combat public housing gun violence, robbery and burglary. The officers will be selected from various patrol groups and with the use of JAG funds, APD will now be able to compensate officers with overtime pay as well as fill their normal patrol assignments.

The City will be awarded $43,975 to pay overtime to police officers for the purpose of combating, intercepting, and resolving emerging violent Part I Crimes. The Buncombe County Sheriff's Department will be awarded $10,599 to purchase rifles for deputies to train them in the BCSO that are not currently assigned riffles. This accounts for the total allocation of $54,574 for this grant.

This is a 100% funded non-local match grant that will enable the APD to allow the City to have the flexibility to deploy police officers and take an intensive approach to fight serious crime. This approach has been used to reduce auto thefts and to combat robbery and burglary. In the past, it has been successful in reducing the number of these types of incidents within the City.

This action will not go before the Finance Committee prior to City Council because the application deadline is before the next Finance Committee meeting.

Pro:

- Increasing flexibility to deploy police officers to take an intensive approach to fighting serious crimes.
- To increase surveillance and investigative methods as well as making proactive analysis, among other best practices, as part of their overall crime prevention tasks.

Con:

- Additional burden on budget for future operations associated with the cost of overtime to deploy police officers to combat emerging violent Part I crimes.

There is no local match required.

Staff recommends City Council a resolution authorizing the City Manager to apply for grant funds through US Dept. of 2017 Edward Byrne Justice Assistance Grant - Local Solicitation, in the amount of $54,574, and if awarded, enter into said agreement.

RESOLUTION BOOK NO. 39 - PAGE 117

I. RESOLUTION NO. 17-207 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH TINDALE OLIVER FOR DEVELOPMENT OF A TRANSIT MASTER PLAN

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with Tindale Oliver for development of a Transit Master Plan.

The original Transit Master Plan (TMP) was adopted in October 2009. Since that time there has been significant growth and development in Asheville and the surrounding area which has placed increasing pressure on the current structure and route networks of the City's transit system (ART). There are also significant limitations placed on the system by the current facilities which are ageing and do not have the capacity to support the City's future transit needs. The new TMP will provide near-term solutions to issues related to route timing and long-term recommendations for future system design and service expansion, as well as projections of future facility and staffing needs.

In addition to the broader goals listed above, the TMP will explore a number of other tasks, including: fare structure and collection methods, strategic regional connections, emerging transit technology, and pilot projects. The TMP will also evaluate route extensions beyond the City limits and will explore opportunities to partner with the County and other organizations on these projects. In order to review these areas and provide meaningful recommendations, the consultant team will perform significant data collection and public engagement efforts to ensure they have the best information available to guide decision making. The consultant team is also required to perform an analysis of any proposed changes, to determine the potential impact those changes might have to existing riders.

On April 10, 2017, a Request for Proposals (RFP) for a TMP consultant team was issued with proposals due on June 12. Nine consulting firms submitted proposals. The Evaluation Committee that was selected to review the proposals was composed of: the Transit Projects Coordinator, the interim Transportation Planning Manager, three Transit Committee members, one representative from the French Broad River Metropolitan Planning Organization (FBRMPO), and one representative from the N.C. Dept. of Transportation (NCDOT). The initial review resulted in two finalists which both participated in an interview process with the Evaluation Committee. At the conclusion of the interviews, Tindale Oliver was the highest ranked firm and the committee's recommendation to City Council.

The anticipated commencement date of the contract is October 1. Plan development, including data analysis and public engagement, will occur between October 2017 and March 2018. The draft plan will then be reviewed by NCDOT, FBRMPO, Transit Committee, Multimodal Transportation Commission, City Council, and members of the public. This last round of public feedback will be incorporated into the plan and a final draft of the plan will be submitted for City Council adoption in July 2018.

This was reviewed and endorsed at the Finance Committee meeting on August 22, 2017.

Pros:

- Improved efficiency of the transit system
- Provides a plan for future expansion of service
- Will ensure an equitable distribution of transit service

Con:

- Will utilize $24,000 in local funds to match the federal grant.

The Transit Master Plan project has a total budget of $120,000. City Council approved this budget at its March 28, 2017, meeting. Eighty percent of the budget is comprised of Federal Highway Administration funds for Surface Transportation Planning Programs. The remaining 20% of the budget is comprised of local funds that came from the FY 2016-17 Transit Fund operating budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into an agreement with Tindale Oliver for development of a Transit Master Plan.

RESOLUTION BOOK NO. 39 - PAGE 118

J. RESOLUTION NO. 17-208 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWGRASS FESTIVAL

RESOLUTION NO. 17-209 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ROOT BALL

RESOLUTION NO. 17-210 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE OKTOBERFEST

RESOLUTION NO. 17-211 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE VEGANFEST

Summary: The consideration of resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Brewgrass Festival, the Root Ball, Asheville Oktoberfest, and Asheville VeganFest.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Brewgrass Festival and allow for consumption at this event.

  The Brewgrass Festival will be held on Saturday, September 16, 2017 from 12:00 p.m. to 6:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- Asheville Greenworks has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Root Ball and allow for consumption at this event.

  The Root Ball will be held on Sunday, September 23, 2017 from 6:30 p.m. to 10:00 p.m. within the boundaries of 14 Riverside Drive as per the area limits referenced on the accompanying site map.

- The Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville Oktoberfest and allow for consumption at this event.

  Asheville Oktoberfest will be held on Saturday, October 7, 2017 from 1:00 p.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Brother Wolf Animal Rescue has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville VeganFest and allow for consumption at this event.

Asheville VeganFest will be held on Sunday, June 10, 2018 from 11:00 a.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Brewers Alliance, Asheville Greenworks, Asheville Downtown Association, and Brother Wolf Animal Rescue

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Brewgrass Festival, the Root Ball, and Asheville Oktoberfest, and Asheville VeganFest.

K. ORDINANCE NO. 4611 - BUDGET AMENDMENT TO FUND FOUR WATER INSTALLATIONS FOR USE IN THE ASHEVILLE EDIBLES COMMUNITY GARDEN

Summary Statement: The consideration of a proposed policy to provide water installations on City property for the use of the Asheville Edibles Community Garden Program; and a budget amendment in the Water Resources Fund in the amount of $12,000 to fund four installations through the Sustainability (General) Fund .

The Asheville Edibles Community Garden Program was launched April 2017 allowing usage of City owned properties for the cultivation of plants, herbs, fruits, flowers, or vegetables. The Office of Sustainability, Parks and Recreation Department, and Economic Development's Real Estate team collaborated to identify potential sites that could be allowed usage of by local garden growers for community food production.

Although the community garden program allows idle City property to be utilized for gardening purposes, it does not cover the cost of installing water spigots. The table below provides cost estimates for water installation per site.

Water Installation Costs		
Service	Responsible Party	Cost
Labor and Service + Parts	Water Resources Department	$500 - $700
System Maintenance and Capital Fee	Water Resources Department	$1,087.00
Service Charge	Water Resources Department	$55.00
Hose Bib + Yard Hydrant	Water Resources Staff	$500 - $700 per site location
Backflow Assembly	Water Resources Staff	
Meter Connection	Water Resources Staff	

The Finance Committee unanimously approved support for water installations on City properties for the use of the Asheville Edibles Community Garden Program to move forward to full City Council.

The Asheville Edibles Community Garden Program supports City Council's 2036 Vision as a Well Planned and Livable Community while also supporting the efforts of a Clean and

Healthy Environment; additionally, the Edibles Program can be found within the City's Food Policy Action Plan, Resolution 13 – 17.

Pros:

- Supports the viability of the City's Asheville Edibles Community Garden Program
- Reduces barriers in utilizing community garden spaces
- Goodwill with residential community

Cons:

- Fiscal impact of installation and maintenance
- Unplanned Sustainability Fund expenditure

This program would be subsidized by the Sustainability Fund, which is primarily funded through the General Fund. Water spigot installation costs range $2,800 - $3,000 per site location. Given an estimate of four installations per year, $12,000 represents the greatest investment that would be necessary in a given fiscal year. The FY 2017-18 Adopted Sustainability Fund Budget did not include funding for water spigot installations for community gardens. For FY 2017-18 costs will be covered as needed through reallocations within the Sustainability Division operating budget. A budget amendment is required to show the transfer from the Sustainability Fund to the Water Resources Fund to cover the cost of the installations. If additional groups apply for installation, staff will bring an additional budget amendment forward to cover those costs.

Staff recommends establishing a policy for water installation at City identified community garden sites employing a turnkey installation provided by the Water Resources Department and reimbursed using Sustainability (General) Fund dollars. Staff also recommends adoption of a budget amendment in the Water Resources Fund in the amount of $12,000 to fund four installations through the Sustainability (General) Fund .

ORDINANCE BOOK NO. 31 - PAGE 320

L. RESOLUTION NO. 17-212 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN ECONOMIC DEVELOPMENT PARTNERSHIP WITH THE ASHEVILLE-BUNCOMBE REGIONAL SPORTS COMMISSION FOR THE HAUTE ROUTE

Summary: The consideration of a multi-year performance based economic development partnership with the Asheville Buncombe Regional Sports Commission (Sports Commission) for the Haute Route.

The City is a partner in the Sports Commission. The Sports Commission identifies and attracts sports events and related meetings to Asheville to enhance the health, wellness and quality of life for area residents and sports enthusiasts and that will generate a positive economic impact by promoting the region as a recognized sporting destination. The Sports Commission, a non-profit organization, has requested in-kind support from the City of Asheville through the Community and Economic Development Department for the production of the Haute Route. The Haute Route is a three-day international bicycle race. In July 2017, Haute Route introduced their 7-day event to the United States in Colorado with outstanding reviews from officials from Boulder and Colorado Springs. The Sports Commission plans to submit a proposal to host the Haute Route and if selected, the City of Asheville would be one of only three cities selected for 2018 to serve as the sites of their new three-day race which would concentrate on Asheville and the surrounding areas.

This event attracts high net worth participants who are decision makers in their companies. Most of the participants are CEOs and company directors, CFOs, financial professionals, lawyers, engineers, doctors and senior IT professionals with an average annual

income of $144,000. In addition, 30 journalists from 12 countries will attend the event at the expense of the event organizers to provide coverage of the event and to profile the area.

The Economic Development Coalition (EDC) will have the opportunity to have a booth in the vendor/registration area for the event. Working with the Sports Commission to set qualified appointments, the EDC/Sports Commission will procure 15 appointments/contacts during the event and provide additional potential business leads. The Sports Commission expects that this event will expose more elite cyclists to Asheville with the possibility of moving to the area to live and train. Currently, the United Healthcare Cycling Team is located and currently trains in Asheville and the Carmichael Training Systems has recently opened a new location in the area. Post-event reports and an economic impact study to be conducted by the Sports Commission would be used as measurement tools to evaluate outcomes in the areas of economic impact/job creation leads and job growth.

The Planning & Economic Development (PED) Committee reviewed this request at its August 16, 2017, meeting and recommends support of establishing a multi-year, performance-based partnership agreement with the Sports Commission for the Haute Route.

Pros:

- Furthers Economic Development initiatives in the areas of targeted job growth and job creation;
- Meets strategic plan goals of leveraging investment in special event partnerships; promoting an environment for investment;
- Performance driven investment;
- Supports economic impact in the form of hotel sales and occupancy taxes, retail and sales tax generation;
- Supports development of an identified economic cluster in the City;
- Supports public/private cooperation as well as support for a strategic partnership;

Con:

- Has an impact on department costs for the utilization of in-kind services including lost revenue for rentals, permits, parking fees, and, property use fees

The $10,000 maximum investment of in-kind support per year will come from existing line items within the adopted 2017-18 budget, and no budget amendment is requested. Future revenue impacts will be considered in the budget process.

Staff recommends that City Council concur with the PED recommendation to authorize the City Manager to sign a three-year, performance based economic development partnership agreement between the City of Asheville and the Sports Commission for Haute Route, not to exceed $10,000/year value of in-kind support if Asheville is selected as a host city pursuant to the proposal that the Sports Commission plans to submit.

RESOLUTION BOOK NO. 39 - PAGE 131

M. RESOLUTION NO. 17-213 - RESOLUTION ACCEPTING SOULSHINE COURT AS A CITY STREET

Summary: The consideration of a resolution to accept Soulshine Court as a City street.

Asheville Area Habitat for Humanity, Inc. recently completed a 26-unit single-family residential community that is served by Soulshine Court and is located in West Asheville and they have offered this street for dedication to the City for public use.

Soulshine Court from SR 1319 (Johnston Blvd) to its dead-end is a developer-constructed street that has an average width of 22 feet with 24-inch valley curb, a 5-foot sidewalk along one side of the street, a length of 0.11 mile, and a right-of-way width of 45 feet. In addition, street lights are in place along the entire length of the street.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject street and determined that it was constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject street will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the street.
- The street provides access to residential properties.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the street.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the street.

Staff recommends that City Council accept Soulshine Court as a City street.

RESOLUTION BOOK NO. 39 - PAGE 132

N. RESOLUTION NO. 17-214 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH CALIBRE SYSTEMS INC. TO PERFORM THE FACILITIES CONDITION ASSESSMENT AND DIAGNOSTIC STUDY

Summary: The consideration of a resolution authorizing the City Manager to enter into a professional services contract with CALIBRE Systems, Inc. for the architectural, engineering, and consulting services necessary to perform the Facilities Condition Assessment and Diagnostic Study.

The Facilities Condition Assessment and Diagnostic Study (FCADS) was included in the Fiscal year 2016-17 Budget with a non-recurring allocation of $300,000. The goal of this study is to provide the City with a comprehensive understanding of the current conditions of specified City-owned facilities, diagnostic assessment of the facilities maintenance & management function and its processes, recommendations for future improvements both to processes and to existing facilities, and estimates of capital investments required to address deferred maintenance, preventive maintenance, and life cycle costs. The Finance Committee was briefed on this topic at its meeting on February 28, 2017. Topics at this briefing included purpose of the study, updated scope of work, status of procurement, cooperation with the Sustainability Office, and related topics.

In response to the Request for Qualifications, the following thirteen firms submitted packages:

CALIBRE Systems Inc. (Alexandria, VA)	GLE (Atlanta, GA)
GHD (Charlotte, NC)	ECS (Asheville, NC)
Terracon (Charlotte, NC)	NH&A (Charlotte, NC)

Dewberry (Raleigh, NC)	AEI Consultants (Walnut Creek, CA)
EMG (Pinehurst, NC)	Sud Associates (Asheville, NC)
ISES (Duluth, GA)	MHA Works (Asheville, NC)
Stewart Cooper Newell (Gastonia, NC)	

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. Three firms scored high enough to be short-listed for on-site interviews, including CALIBRE, GHD, and Terracon. The professional team of CALIBRE is well-qualified in all required disciplines, with extensive experience in facilities condition assessments and diagnostic/consulting services. Scoring by the review team indicated CALIBRE as the highest-rated offeror in this procurement.

Negotiations were undertaken with the selected firm, and it demonstrated its flexibility and an understanding of the City's needs on all parts of this study. The complete base scope of work can be contracted for $270,484.40, which does not exceed the budget of $300,000.

On a related note, the original RFQ for the Facilities Condition Assessment and Diagnostic Study was modified on behalf of the Sustainability Office to include energy audits and alternative energy retrofits as potential "add alternates" to assess both the feasibility of having the selected firm provide these supplemental services as well as the potential costs. The CALIBRE team is also qualified to perform these services, and they have provided a scope of work and cost proposal that is under evaluation by the Sustainability Office as it assesses costs and the availability of credits that may help offset those costs. The contract is proposed to include a requirement that CALIBRE hold firm the pricing for these supplemental services for a stipulated period of time, which will allow Sustainability to finalize its assessment of feasibility including costs and credits. It is important to note that Sustainability has a separate budget for the potential supplemental services, and coordination with a third-party utility company provider is needed to determine the applicability of credits for the energy audits that will help stretch Sustainability's budget funds.

The proposed work fulfills a key portion of City Council Goal #36 by assessing the condition of City facilities, analyzing deferred maintenance, and determining costs for deferred and preventive maintenance plus life cycle costs.

Pros:

- Allows the performance of a key study critical to implementing Council Goal #36;
- Multi-disciplinary team includes architecture, engineering, energy, cost estimating, and other relevant disciplines needed to deliver a turn-key product; and
- Flexible delivery of services that will allow the City to authorize work on the base scope of work now while allowing additional time for decision-making on supplemental services related to Sustainability.

Con:

- None identified.

Funding was approved by City Council in the Fiscal Year 2016-17 Budget, and the proposed expenditures are within the existing budget.

City staff recommends City Council adopt a resolution authorizing the City Manager to enter into a professional services contract with CALIBRE Systems, Inc. in the amount of $270,484.40 for the architectural, engineering, and consulting services needed to perform the Facilities Condition Assessment and Diagnostic Study.

RESOLUTION BOOK NO. 39 - PAGE 134

O. RESOLUTION NO. 17-215 - RESOLUTION GRANTING THE CONVEYANCE OF 565 SQUARE FEET OF PERMANENT SUBSURFACE EASEMENT FOR FOUNDATION FOOTINGS EXTENDING INTO THE CITY RIGHT-OF-WAY AND PROPOSING TO ACCEPT AN OFFER FOR SALE OF 163.52 SQUARE FEET OF AIR RIGHTS AT 15 PAGE AVENUE TO FIRC HAYWOOD PARK HOLDINGS LLC; AND DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR THE SALE OF AIR RIGHTS, AND IF NO OTHER BIDS ARE RECEIVED OR ACCEPTED, AUTHORIZING THE CITY MANAGER TO EXECUTE ANY AND ALL DOCUMENTS NECESSARY TO CONVEY BOTH THE EASEMENT AND AIR RIGHTS

Summary: The consideration of a resolution granting the conveyance of 565 square feet of permanent subsurface easement for foundation footings extending into the city right of way and proposing to accept an offer for sale of 163.52 square feet of air rights at 15 Page Avenue to FIRC Haywood Park Holdings LLC (FIRC); and directing the City Clerk to advertise for upset bids for the sale of air rights, and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey both the easement and air rights.

The City of Asheville controls the sidewalk and street right-of-way located at 15 Page Avenue and in turn controls any encroachments into the overhead airspace above the sidewalk. At this time, FIRC is nearing the completion of the construction of a new structure which will function as a hotel. As part of the hotel construction, FIRC built horizontal parapets along the face of the building that extend into the public right of way. In that these parapets are a permanent part of the structure, this intrusion into the public air space must be treated as a sale of property, and therefore the City requires that the sale of air rights via the upset bid process. In addition, FIRC installed footings for the foundation that extend beneath the sidewalk at varying depths along the property boundary. There are footings that extend into the public right-of-way along the Page Avenue side of the building, the Battery Park Avenue side of the building, and the rear alley that all total 565 square feet.

The Cambria Suites Hotel project was approved in May of 2014 by the City Council and construction began shortly thereafter. The project architect determined that as built, there were intrusions into the city's rights-of-way both above and below ground that would need to be remedied in order to provide clear title. The City approved the original plans and these additional intrusions were only discovered after the building was nearing completion. Under normal circumstances, if subsurface intrusions are discovered during the permitting process, the City requests that the project be redesigned to avoid the need for subsurface easements. At this time, the structure is built and it is impractical to remove or modify the building footings. The owners are requesting this conveyance from the City to finalize their project and allow them to open for business in the very near future. Staff has reviewed this request, and although typically permanent easements into the City's right-of-way are discouraged, the depths of the footings that extend into the right-of-way are minimal. The City's Public Works Director has determined that the granting of these easements will not substantially impair or hinder the street as a way of passage in compliance with N.C.G.S. 160A-273. There are existing utilities already along these City streets, so it is not in conflict with future plans for utility installation or right-of-way improvements. The air rights are modest and therefore do not pose any issues.

On August 31, 2017, a qualifying bid was received from FIRC in the amount of $1,472 for the purchase of 163.52 square feet of air space for the purpose of accommodating the parapets that extend from the building into the City's right-of-way. This bid was based on the tax assessed value of the land in lieu of a formal appraisal calculating the value of the air rights. If the City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $1,472. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e. $124 or higher). Since the function of the

upset bid process is to confirm fair market value, this resolution provides that if no qualifying, competing bid is received, then the City Council agrees to convey this specified area of air rights to FIRC for $1,472.

With respect to the below-grade easements, City staff recommends that the easements be valued using the tax assessed land value discounted at 50% because the improvements are subsurface. This is the discount method used by MSD for their underground sewer easements. The easement was calculated using figures provided by FIRC's project architect. The total amount of square footage is 565 square feet and the value attributed to this easement is $25,425.

Pros:

- The sale of the air rights will correct the issues with the title, allowing the building to open and generate tax revenues.
- The granting of the easement will also correct the issues with the title, allowing the building to open and generate tax revenues.
- Revenues from this real estate transaction will go into the General Fund.

Cons:

- The City approved the original plans and these additional intrusions were only discovered after the building was nearly complete.
- It is not preferable to have subsurface easements within the City's right-of-way.

Financial proceeds associated with this disposition are to benefit the City's General Fund.

City staff recommends City Council adopt a resolution granting the conveyance of 565 square feet of permanent easement for existing subsurface footings in the city right of way and proposing to accept an offer for sale of 164 square feet of air rights at 15 Page Avenue to FIRC; directing the City Clerk to advertise for upset bids for the sale of said air rights; and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey the easement and air rights.

RESOLUTION BOOK NO. 39 - PAGE 135

P. RESOLUTION NO. 17-216 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH MAIL MANAGEMENT SERVICES LLC TO PROVIDE MAIL MANAGEMENT SERVICES

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Mail Management Services, LLC to provide mail management services for the City of Asheville.

In the FY 2017-18 adopted budget, a total of $317,000 was appropriated across department accounts to provide for city-wide postage and mail services. Allocations include $70,000 in General Services/City Hall Operations, $225,000 in Water Resources, and $22,000 in Public Works/Stormwater.

The City provides municipal services to more than 60,000 accounts, which primarily encompasses the following: water meters, business license, permits, and general correspondence to residents and visitors. The customer base is divided into multiple billing cycles and by general information correspondence each month.

In response to a Request for Proposals, the following firms submitted proposals:

Mail Management Services (Asheville, NC)	PreSort Plus (Taylors, SC)

The review team utilized a scoring matrix to assess the proposals of the prospective firms, with factors including cost, experience and qualifications of firm and staff. The proposal submitted by Mail Management Services demonstrated that the firm and its staff have excellent qualifications and experience directly related to the services being procured. Although PreSort gained points with slightly lower costs on key charges/fees, Mail Management Services scored higher on the remaining factors with very high service levels and verified performance. Scoring by the review team indicated the submittal from Mail Management Services as the highest-rated proposal.

The initial contract term is proposed for one year, with the option upon approval by the City for up to four one-year renewals, for a maximum potential duration of five years. Should the City renew the contract, this allows us to control our costs for up to five years. The multi-year contract is subject to the annual appropriation process. If the adopted budget for any given fiscal year does not include an appropriation for the service, the City shall have the right to terminate the contract.

Pros:

- Allows performance of a mandatory activity (mail service) necessary for the operation of municipal services, including billing;
- Facilitates key communication mechanism (written correspondence) to & from citizens, businesses, visitors, and other stakeholders; and
- Provides long-term cost containment while maintaining verifiable high level of service delivery.

Con:

- None identified.

$317,000 was approved in the City's FY 2017-18 budget for mail management services in both the General Fund and Enterprise Funds.

City staff recommends that City Council adopt a resolution authorizing the City Manager to contract with Mail Management Services, LLC in the amount of $317,000 to provide mail services for the City of Asheville.

RESOLUTION BOOK NO. 39 - PAGE 137

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda, minus Consent Agenda "F". This motion was seconded by Councilman Smith and carried unanimously.

ITEMS REMOVED FROM THE CONSENT AGENDA FOR INDIVIDUAL VOTES

F. MOTION TO APPROVE THE REQUEST FOR QUALIFICATIONS FOR THE DESIGN SERVICES FOR THE CITY-OWNED PROPERTIES ON HAYWOOD STREET AND PAGE AVENUE AND THE ASSOCIATED TIMELINE

Summary: The consideration of a motion to approve the Request for Qualifications for the design services for the City-owned properties on Haywood Street and Page Avenue and the associated timeline.

On March 8, 2016, the Asheville City Council approved a visioning process for the future use of city-owned properties located at 68-76 Haywood Street and 33-39 Page Avenue to be completed by an Advisory Team of 18 community members. A final Visioning Report developed by the Advisory Team was shared with the City Council on March 28, 2017. At that meeting, Council directed staff to issue a Request for Qualifications (RFQ) to hire the services of a consultant team to develop design options for the properties. The RFQ represents the first phase of the project to develop a plan for the site and implement as appropriate.

Scope of Work: As a Phase I step to determine the development program for the site, an RFQ has been developed using the Visioning Report as the primary source document for developing up to three design proposals. The current language for the Scope of Work from the RFQ is provided for specific consideration:

The City of Asheville is seeking the services of a consultant team to:

- Develop up to three design proposals for the identified subject properties and study area. The consultant team shall utilize the Visioning Report in the preparation of the design options, which will include mixed-use and other compatible programmatic elements that complement the uses of the site and surrounding areas. These design proposals should consider pedestrian and vehicular circulation and access, major views from the properties, and site and surrounding context. The design proposals should also incorporate the various passive and active uses identified in the Visioning Report. Streets and other right of way areas should be included or reconfigured with a focus on pedestrian safety which has been an identified challenge as a part of the comprehensive redevelopment of the site. These design options will be shared with the community and City Council for initial support and direction.
- Review site due diligence materials provided for the properties that will help to inform the design options and cost considerations.
- Prepare a constructability assessment
    - Conceptual design layouts
    - Circulation, access and parking assessments
    - Neighborhood compatibility
    - Other development factors
- Prepare preliminary cost estimates for the construction of each of the three design options
- Advise the city regarding future management strategies including management models for potential public/ private partnerships to support a successful development plan and program for the subject properties
- Prepare cost estimates (for construction and on-going operations/maintenance) based on recommendations for public/private partnerships and management strategies for each of the design options (there could be multiple development plan/program strategies for each of the design options)
- Create a public engagement process to allow for additional community comment and input on the different design options.
- Develop a final conceptual design based on community feedback and Council direction that will be approved by the City Council.
- Include team members with specific engineering and design expertise who will be able to advise the design process about the different goals and uses recommended in the Vision Report for complex urban sites
- Provide a concise, user-friendly and illustrative report and presentation that graphically and narratively conveys the recommendations in a web based format

- Present the recommendations to City Council and Council subcommittees and involved commissions (as needed)

Schedule for release of the RFQ:

Review by PED:	August 15, 2017
Approval by City Council:	September 12, 2017
RFQ Release Date:	September 18, 2017
Deadline for Submittals:	November 3, 2017
Design Team Selection for Interviews:	November 17, 2017
Interview Timeframe:	Week of December 11, 2017
Selection of Consultant:	Week of December 18, 2017
Contract Negotiation:	By January 12, 2018
Contract Award:	By February 2, 2018
Commencement of Project:	March 5, 2018
Early Draft Concepts:	June 2018

The anticipated contract award will require approval by City Council and is expected in February 2018. There are no funds set aside for this project in the current budget year.

The Planning and Economic Development Committee reviewed the report and scope of services on August 15, 2017, recommended approval and directed staff to include additional emphasis on linking design outcomes to the Visioning Report. Staff has incorporated these changes and recommends approval for the release of the RFQ.

When Councilman Bothwell was concerned that the language reads we are requesting proposals instead of qualifications, Director of Planning & Urban Design Todd Okolichany assured him that it is our intent to solicit qualifications only from designers, not actual proposals.

When Mayor Manheimer asked for comments from the public, no one spoke.

Councilman Smith moved to approve the Request for Qualifications for the design services for the City-owned properties on Haywood Street and Page Avenue and the associated timeline. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS: None.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON 3, 10, 12, 18 AND 99999 TRIED STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RS-8/CZ RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A SINGLE-FAMILY PROJECT

ORDINANCE NO. 4612 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON 3, 10, 12, 18 AND 99999 TRIED STREET FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT TO RS-8/CZ RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A SINGLE-FAMILY PROJECT

Mayor Manheimer said that this public hearing was held on August 22, 2017, and continued to this date in order for the applicant and the Shiloh Community Center to continue to meet to decide on the maintenance of open space portion of the property.

Urban Planner Jessica Bernstein briefed the Council on the information presented on August 22, stating that this is the consideration of an ordinance to conditionally zone property located on 3, 10, 12, 18 and 99999 Tried Street from RS-8 Residential Single-Family High Density District to RS-8/CZ Residential Single-Family High Density District/Conditional Zoning for the development of a single-family residential project with conditions related to lot area, lot width and right-of-way. This public hearing was advertised on August 11 and 18, 2017.

The project site consists of five parcels with a combined area of approximately 4.16 acres, located at 3, 10, 12, 18 and 99999 Tried Street in Shiloh. The site is zoned RS-8 as are adjacent parcels. The area is characterized by single-family houses. The project site is mostly vacant and was recently occupied by a manufactured home development. The site is adjacent to a tributary of Sweeten Creek with associated 100-year floodway and stream buffer requirements.

The applicant is proposing to create a new public road to provide access to twenty single-family home lots. The conditional zoning is requested as the lots as shown do not comply with current RS-8 standards.

There is a private street in place already; however this proposal is to alter that road layout as shown on plans. The new public street is proposed according to a modified road standard, with 32 feet of right-of-way (minimum) and 22 feet of pavement, terminating in a hammerhead turnaround. Sidewalks are shown along one side of Tried Street and along West Chapel Road heading west. The homes are accessed via individual driveways.

Street trees are required for this project and are shown. Open space (approximately 0.7 acres) and tree save area (approximately 1.05 acres) are also required due to the number of lots and this is also provided for on plan. The open space is proposed in a permanent easement across the rear of multiple parcels to preserve environmentally sensitive areas but a condition is requested to eliminate any public access to this open area.

The underlying zoning allows approximately 33 units based on the overall project area, however due to the limited use of land encumbered by the stream buffer and flood areas as well as the proposed road location, the applicant has designed the layout shown on plans. With this request, the density proposed is 20 units however some of the lots are smaller than the zoning district permits. The average lot size for this project is approximately 6,817 square feet (or 4,677 square feet with the outlier removed) and the average lot width is approximately 44 feet. The project is otherwise similar in look and layout to other single-family residential developments that would be allowed in the area, with those smaller lots incorporated.

Conditions - The applicant is requesting the following conditions (see Exhibit B.1 for full list of project conditions):

1. **Lot Area** - lots range from approximately 4,000 to 8,000 square feet (RS8 minimum lot size is 5,000 SF)
2. **Lot Width** - lots have a minimum frontage of 40 feet (RS8 minimum lot frontage is 50 feet)
3. **Right-of-Way Width** - proposed ROW of 32 feet with 22 feet of pavement for main street; minimum 40 feet ROW for hammerhead (typical standard is 50 feet ROW)
4. **Access to Open Space** – the project contains an adequate amount of preserved open space but due to ownership of the lot and development, the applicant proposes that public access to the area is restricted

The applicant held the required community meeting on April 25, 2017; the project was approved with conditions by the Technical Review Committee on June 5, 2017. If approved, the applicant will return to the TRC following the Major Subdivision review process for plat approval.

The Planning & Zoning Commission voted unanimously (6-0) to recommend approval of this project with the conditions as noted in the recommendation form as well as reflected in the Exhibit B.1 list.

There were a number of community members present at the meeting to offer public comment including questions regarding how this development would complement the existing fabric of the neighborhoods, concerns about gentrification and affordability of the homes and support of the development, the single-family home-ownership aspect and for the future homeowners to have the ability to expand or use their homes with the same rights as any other home owner in the RS-8 zoning district. This has been reflected in the conditions. Residents did wish to see privacy fences in certain area where the existing homes are closer to the proposed development and also desired to have single-story homes in locations where the grade may warrant a lower-height to maintain privacy.

While about half of the lots (11 out of 20) have less than the minimum area in the underlying and surrounding zoning district and almost all have less than the minimum lot frontage, the layout of the subdivision and proposed single-family development is visually similar to what would be allowed otherwise and is expected to be compatible with the surrounding neighborhood. The density of the overall proposal is appropriate and similar to the single-family development in the area.

This project is aligned with elements in the Comprehensive Plan (*2025 Plan)* in that it provides infill residential development in a layout that avoids the sensitive environmental area and further the *Plan* suggests that the City should be flexible with standards to enable infill lots to be developed. The project provides sidewalks and the developer has been engaging with the neighborhood association as recommended in the *Plan*. While the proposed density is lower than recommendations in the *Plan* with regards to infill development supporting transit, the density is more aligned with the neighborhood's desires.

There are aspects of the project that correspond to goals and visions in the *Shiloh Community Plan* such as the density is mostly consistent with the character of the community at just above four units per acre; avoiding and preserving area along the stream as green space; sidewalks on the new road and along part of West Chapel Road help to improve pedestrian accessibility in the project area; and the design of the houses as shown on plans with front porches and orientation towards the street is aligned with the visions of the plan.

Considerations:

- The single-family residential development is compatible with the character of the surrounding Shiloh neighborhood as far as density, use and layout.
- The project preserves sensitive environmental area and provides dedicated open space.
- Sidewalks will be provided on the new street and along part of West Chapel Road.
- The project does include some initial affordability.
- Most of the lots are smaller than the surrounding zoning allows but driveways are proposed at the current maximum width.

Based on policies in the *2025 Plan,* City Council's 2036 Vision Considerations and compatibility with elements in the Shiloh Neighborhood Plan, staff recommends approval of the conditional zoning for the residential single-family project with the conditions noted in the B.1 list.

The Planning & Zoning Commission recommended approval by a 6-0 vote with the conditions as detailed previously in this report and in the B.1 conditions.

She recalled that the applicant explained they were trying to avoid the creation of a homeowners association for the 21st open space lot so no additional cost would be taken on by the individual homeowners. After reviewing the alternative proposals, the applicant has now

revised their request to create the 21st home lot. There are 20 parcels for single-family home development and the 21st lot that is not for development - just for open space. They will have to create a homeowners association to manage that. They are still talking with the Shiloh Neighborhood Association so there is a possibility they could take over the management and maintenance of that parcel, but there is no condition any longer to restrict access to the parcel.

When Vice-Mayor Wisler asked if the open space would be available to the public or only to the people in the homeowners association, Ms. Bernstein said that the homeowners association could restrict the area for their members and their guests.

Mr. Mike Vance, representing Mountain Housing Opportunities, provided Council with a brief overview of their projects in the area. They would like to increase their production to 30 homes per year and this development is their first major subdivision for single-family homeownership in Asheville. They are only committing to 20% affordable homes as they don't have all the funding to make all 20 homes affordable; however, they fully expect that half of all homes in this development will be sold affordably.

Mayor Manheimer opened the public hearing at 5:27 p.m. and asked that comments be limited to the open space requirement, and when no one spoke, she closed the public hearing at 5:27 p.m.

At the suggestion of Councilman Smith, it was the consensus of Council to ask the Housing & Community Development Committee visit flexibility in open space, especially as space becomes more and more of a premium in the City.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request for Mountain Housing Opportunities, Inc. for properties located at 3, 10, 12, 18 and 99999 Tried Street from Residential Single-Family High Density District (RS-8) to Residential Single-Family High Density Conditional Zone (RS-8 CZ), including the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on infill residential development and affordability; (2) The design provides sidewalks and dedicates open space; and (3) The development is compatible to the character of the neighborhood as indicated in the Shiloh Community Plan. This motion was seconded by Councilman Smith and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 322

B. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ESTABLISH PROVISIONS FOR TEMPORARY USE OF GRAVEL PARKING LOTS IN THE CENTRAL BUSINESS DISTRICT

ORDINANCE NO. 4613 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ESTABLISH PROVISIONS FOR TEMPORARY USE OF GRAVEL PARKING LOTS IN THE CENTRAL BUSINESS DISTRICT

Principal Planner Shannon Tuch said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to add a new option for temporary gravel lots in the City's Central Business District. This public hearing was advertised on September 1 and 8, 2017.

Increased development pressure in Asheville's CBD has resulted in a deficit of convenient parking options, especially at certain hours and in certain locations. The lack of monthly parking for downtown residents and workers has reached a critical level of concern.

In an effort to understand the current parking challenges, and to explore options to improve parking availability, city staff along with members of the Parking and Transportation Committee and the Downtown Design Committee both of whom are established committees of the Downtown Commission have been meeting regularly. This amendment is one outcome from those discussions.

The City's Unified Development Ordinance (UDO) regulates the construction of parking lots, either in conjunction with another use or as a stand-alone use. Parking lot requirements include specifications as to number and size, accessible spaces required, landscaping and surface treatments. While these requirements generally apply to all parking lots, the level of improvements required to establish a new parking lot can vary depending on the size of the property, zoning and location and other site features. The only standard that is not uniformly applied is the requirement for surface treatments. Gravel or road bond is a permissible surface treatment for parking lots in all areas of the city except the CBD. Due to accessibility, walkability, stormwater and aesthetic concerns, parking lots in the CBD must be paved. The requirement for pavement contributes to the cost of the new parking lot and is believed to act as a deterrent to creating surface lots, especially in a district where surface parking is generally regarded as a short-term or temporary use, and where these permanent improvements are not always desired.

Temporary parking has historically been limited to special events until 2009 when a new standard to allow temporary parking and construction staging was added to the UDO (Ord. No. 3743). The 2009 amendment was designed to support economic development and allows for the establishment of temporary parking (and construction staging) when associated with an active building permit. When the construction project ends, the temporary parking is to be returned to an unimproved condition. This provision continues to be used for various construction projects around the city, including Asheville's downtown where new and increased development pressures are inspiring reconsideration to allow temporary parking lots beyond construction projects. It has also been recognized that there are likely numerous existing gravel lots that have been established without approval and providing an option to operate a gravel parking lot on a temporary basis may help provide a path to compliance.

The Downtown Commission reviewed this proposal at their April 21, 2017, and May 12, 2017, meetings. The Commission voted to support the amendment (6-0) at their meeting on June 9, 2017. During these discussions and final vote, the Commission provided general support for the concept but also expressed concern that the standards to allow temporary lots not open the door or encourage the use of property for surface parking beyond a limited time period, and that a more permanent solution would be needed. It was also noted that the greatest need is for monthly parking and that an amendment to allow temporary parking would be open to all parking and could not be restricted to monthly parking only. To address these concerns, the proposed amendment will:

- Allow temporary gravel lots for one year only, with the ability to renew for one additional year.
- Require paved driveway apron, as required in the UDO and the Standard Specifications and Details Manual (SSDM).
- Require that driveways (beyond the apron) that exceed 5% in grade shall be paved.
- Maintain CBD standards for driveway width and other requirements for temporary lots
- Continue to allow temporary parking and construction staging when associated with an active building permit.
- Require a design that prevents loose stone, aggregate or other materials from leaving the site.

- Include a requirement for a 10 foot wide planting strips for large temporary parking areas greater than 10,000 square feet.

UDO controlled improvements for sidewalks, landscaping and paving will not be required, while improvements for stormwater and/or accessibility that are controlled by other state or federal standards will not be exempted.

This proposal was reviewed and approved by the Planning and Zoning Commission at their August 2, 2017, meeting. Members voting in opposition of the amendment cited concerns with: enforcement when the permit expired, loose aggregate that impacts stormwater and mobility, and the need for a more comprehensive parking solution with which this amendment could be in conflict. All wording amendments receive final review by City Council.

This wording amendment complies with City's Comprehensive Plan as it relates to ensuring that zoning codes and local economic development incentives are reviewed and modified to meet a dynamic local economic development condition (Goal II, p. 200) and that local infrastructure meet the needs of business and industry (Goal IV, p. 201).

The wording amendment aligns with the 2036 Council vision in the areas of (1) Transportation & Accessibility, and (2) Thriving Local Economy - by supporting the creation of infrastructure that makes it easier for citizens to live and work downtown, and for visitors to find and enjoy Asheville's downtown.

Other considerations:

- Temporary parking may **not** be limited to monthly parking where there is the greatest need.
- There are numerous gravel parking lots in the CBD currently, many of which are believed to have been unlawfully established.
- May provide a path for compliance for unlawfully established gravel lots.
- Allows for a temporary use of underutilized or vacant property downtown.
- Solution is intended to be temporary and a more permanent, long-term solution is needed to address parking and access to Asheville's downtown.

The Planning & Zoning Commission, by a 5-2 vote, recommended approval.

Mayor Manheimer opened the public hearing at 5:33 p.m.

The following individuals spoke in support of the amendment in the short-term but stressed that a long-term solution for parking in the downtown area should be a top priority for Council:

Michael Whalen, Manager of the Orange Peel and downtown resident
Carmen Cabrera, representing the Mast General Store
Owner of 67 Biltmore Eatery and Catering
Owner of Malaprops and Downtown Books and News
Karen Ramshaw, employee of Public Interest Projects
Jonathan Wainscott

Mayor Manheimer closed the public hearing at 5:56 p.m.

It was the consensus of Council to instruct the City Manager to follow-up with Buncombe County to see if the County's parking deck on Coxe Avenue may have some public parking that might be available on nights and weekends; and to also check to see if there is some information about the Tourism Development Authority going in on some parking garage.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the wording amendment adding standards for temporary parking lots in the CBD and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) modifies development standards to support a changing local economy and, (2) supports the creation of necessary parking infrastructure in the downtown. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 327

C. PUBLIC HEARING TO CONSIDER ZONING 421 AIRPORT ROAD HIGHWAY BUSINESS DISTRICT

ORDINANCE NO. 4614 - ORDINANCE ZONING 421 AIRPORT ROAD HIGHWAY BUSINESS DISTRICT

Principal Planner said that this is the consideration of an ordinance to zone 421 Airport Road (which was annexed into the City on June 27, 2017, to Highway Business District. This public hearing was advertised on September 1 and 8, 2017.

The subject property is approximately 1.26 acres and has mild to moderate topography with frontage on Airport Rd. While in Buncombe County's jurisdiction, the owner applied for and obtained construction permits for a commercial project – the site is currently under construction.

The applicant has requested the Highway Business (HB) zone be assigned to this property.

A conditional zoning to HB-CZ for the property located at 12 Loop Rd., 352 & 360 Airport Rd. was approved on January 10, 2017.

The property was zoned Employment (EMP) when under the jurisdiction of Buncombe County. No other special zoning considerations apply.

The purpose of the HB zoning district is to address the needs of commercial development along major thoroughfares. Automobile oriented development is prevalent within this district and a wide range of commercial uses is permitted.

The subject property is adjacent to other HB zoning to the west and the use and development pattern is consistent with other HB zoned properties along the Airport Rd. corridor. The adjacent Buncombe County zoning includes more Employment zoning (north and west) and Commercial Service zoning (south). Both zoning districts allow for a wide range of commercial and employment related uses including, but not limited to: office, health care facilities, hotels, retail, restaurants, and service and repair businesses.

The Asheville City Development Plan 2025 states that as a development tool the city should, "promote voluntary annexation of developing and developed areas by offering high quality urban services . . .". Related to this goal the plan also encourages compatible "adaptive reuse, redevelopment and infill development" and states, "areas within the existing urban fabric that are vacant should be targeted for compatible infill development that takes advantage of existing infrastructure."

This action aligns with the 2036 Council Vision in the following area: *A Thriving Local Economy* – the proposed zoning supports compatible, commercial development along a major transportation corridor.

Considerations:

- City property directly contiguous to the subject property is zoned HB.
- The HB zoning designation is consistent with both the EMP and CS zoning districts of Buncombe County.
- Assigning a zoning designation is required as part of the voluntary annexation process.

Based on the above findings and the analysis provided in the report, staff finds the request to assign the HB (Highway Business) zoning designation to the subject property is appropriate and consistent with the existing commercial neighborhood and broader city goals.

At their regular meeting on August 2, 2017, the Planning & Zoning Commission voted unanimously in support of the initial zoning request. Initial zoning requests are first reviewed by the Planning & Zoning Commission with final review performed by City Council.

Mayor Manheimer opened the public hearing at 5:59 p.m. and when no one spoke, she closed the public hearing at 5:59 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the assignment of Highway Business (HB) zoning to the subject property and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: 1) promotes voluntary annexation as a development tool that offers high quality city services to urbanizing areas; and, 2) supports smart growth through compatible infill development that takes advantage of existing infrastructure. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 329

D. PUBLIC HEARING TO RECEIVE COMMENTS ON THE PROPOSED LIMITED OBLIGATION BOND FINANCING FOR VARIOUS CAPITAL PROJECTS AND ACQUISITIONS AS WELL AS THE REFINANCING OF EXISTING DEBT; AND TO ALSO HEAR PUBLIC COMMENT ON THE SPECIAL OBLIGATION BONDS AS PART OF THE OVERALL PLAN OF FINANCE

Director of Finance and Management Barbara Whitehorn said that this is the a public hearing to receive public comments on the proposed Limited Obligation Bond (LOB) financing for various capital projects and acquisitions as well as the refinancing of existing debt. While a public hearing for the Special Obligation Bonds is not required by law, City Council will also hear public comment on the Special Obligation Bonds (SOBs) as part of the overall plan of finance. This public hearing was advertised on September 2, 2017.

Ms. Whitehorn then explained the common types of debt cities use: (1) General Obligation Bonds (must be voted on through referendum; secured boy property tax revenue); (2) Limited Obligation Bonds (secured by City-owned property); and (3) Special Obligation Bonds (secured by sales and other taxes - not levied by municipality; projects must be located in a Municipal Service District. She said that the City finances Capital Projects with (1) short term debt (18-59 months; during construction also called "interim" or "construction debt"; usually LOBs); and (2) long-term debt (20 years; refunds (refinances) existing short-term debt; LOBs, SOBs and/or GOs).

She explained what is happening right now: (1) General Capital Improvement Plan long-term debt issuance, which is not related to the 2016 General Obligation Bond referendum; (2) Short-term LOBs issues in early 2016 (a) credit line for a maximum of $45 million; and (b) about

$33 Million spent; (3) Issuing long-term debt in October, 2017 (a) refunding short-term LOBs; and (b) issued as LOBs and SOBs; (4) Long-term LOBs issued in 2012 (a) potential savings if refinanced; and (b) about $655,000 savings; and (5) Breakdown of October issuance (a) $14.8 Million LOBs refunding short-term 2016 LOBs; (b) $18.2 Million SOBs refunding short-term 2016 LOBs; and (c) Approximately $12 Million refunding long-term 2012 LOBs. She used a chart showing an illustrative of 2017 LOBs and SOBs. She then provided a project list.

Under the provisions of Section 160A-20 of the General Statutes of North Carolina, installment financing contracts involving real property require a public hearing in which the public may comment on the proposed financing.

On August 22, 2017, City Council approved:

1. Resolution authorizing the City to refinance a portion of the 2016 Limited Obligation Bond (approximately $18 million), refinance all or a portion of the currently outstanding 2012 Limited Obligation Bonds ($11.685 million), and make application to the Local Government Commission of not to exceed $31.2 million Limited Obligation Refunding Bonds (the "2017 LOBs Refunding"), Series 2017, and
2. Resolution authorizing the City to refinance a portion of the 2016 Limited Obligation Bond and make application to the Local Government Commission for the issuance of not to exceed $20 million Special Obligation Refunding Bonds (the "2017 SOBs Refunding"), Series 2017, of the City of Asheville, North Carolina.

Pros:

- Anticipated total debt service savings of the refunding of the 2012 Limited Obligation Bonds based on current market conditions is approximately $655,000. Actual savings level will be determined on the date the 2017 Limited Obligation Refunding Bonds are sold, which is scheduled for October 12, 2017.
- Converts the 2016 Installment Financing Agreement from short-term variable-rate into long-term fixed rate debt which will set total cost of the 2016 projects financed.

Con:

- None noted.

As noted above, anticipated total debt service savings of the 2012 Limited Obligation Bonds based on current market conditions is approximately $655,000. Annual debt service payments of the City will increase by the issuance of new long-term fixed rate debt of the 2017 LOBs Refunding and the 2017 SOBs Refunding. The final amounts of the new debt service payments will be determined on the sale date of October 12, 2017.

Staff recommends that City Council receive public comment regarding the financing during the public hearing.

Mayor Manheimer said that the City Council adopted a resolution on August 22, 2017, which called a public hearing on an installment financing (which is being done through a limited obligation bond financing structure) and a related special obligation bond financing for September 12th. The notice of the public hearing was published on September 1, 2017. The public hearing is being held to hear public comments on the proposed installment financing as required by the North Carolina statutes, as well as the special obligation bond financing being done in conjunction, to refinance a number of projects financed in 2016 through an interim installment financing. The proposed installment financing also includes refinancing a portion of a financing done in 2012 to achieve debt service savings. The proposed installment financing is for a principal amount not to exceed $31.2 million and the proposed special obligation bond financing is for a principal amount not to exceed $20 million. The City Council will hear public comments

this evening and the plan is for the Council to consider the final approvals for both financings on October 3.

In response to Vice-Mayor Wisler, Ms. Whitehorn said that hopefully this will allow us an upgrade on our bond rating with Moody's, noting that we are as high as we can get with S&P with a AAA rating.

Mayor Manheimer opened the public hearing at 6:13 p.m.

Mr. Chris Peterson felt that the City has too much debt and Council should be paying more attention to the budget.

Mr. Jonathan Wainscott spoke against these actions and that the City already has too much debt.

Ms. Jan Howard Kubiniec expressed concerned that she was unaware of some of the projects on the project list.

Mayor Manheimer closed the public hearing at 6:21 p.m.

Councilman Bothwell felt that Council is investing heavily in infrastructure projects now is that past councils were unwilling to take on more debt to fix the infrastructure.

Mayor Manheimer noted that during the many presentations about the General Obligation Bonds last fall she talked about the current state of debt, which at that time was relatively small compared to other cities similar to Asheville. The concern was that we were too conservative in making investments into fixing infrastructure and building out new infrastructure. She was pleased we are continuing with this process and have put together a strong capital plan.

Councilman Bothwell moved to proceed with this process for final approvals for both financings being considered by City Council on October 3, 2017. This motion was seconded by Councilman Young and carried unanimously.

V. UNFINISHED BUSINESS:

A. CONFIRMATION OF INTERVIEW CANDIDATES FOR THE PLANNING & ZONING COMMISSION

Regarding the Planning & Zoning Commission, the following individuals applied for a vacancy and completed the necessary paperwork: Joe Archibald, Nick Hinton, Carter B. Webb, Sandra Kilgore, Robert Carroll and Paul Harkrider; and the one seated member Laura Berner Hudson. At the recommendation of the Boards & Commissions, Vice-Mayor Wisler moved to interview Joe Archibald, Carter B. Webb, Sandra Kilgore, Robert Carroll, Paul Harkrider and the incumbent Laura Berner Hudson. Interviews will be held on October 3, 2017. This motion was seconded by Councilman Bothwell and carried unanimously.

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-217 – RESOLUTION APPOINTING MEMBERS TO THE AFFORDABLE HOUSING ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Affordable Housing Advisory Committee.

The terms of Randall Barnett and Mae Creadick expired on September 1, 2017.

The following individuals applied for the vacancy: Gerry Leonard, Derek Towle, Daniel Summerlin, Dewana Little, Elena Mansour, Emily Gelb, Leslie Hennessee, Parker Smith and Marcia Bacoate.

On August 22, 2017, it was the consensus of Council to interview Randall Barnett and Leslie Hennessee.

Vice-Mayor Wisler moved to reappoint Randall Barnett and appoint Leslie Hennessee to each serve a three-year term respectively, terms to expire September 30, 2020, or until their successors have been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 138

B. RESOLUTION NO. 17-218 – RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Mr. Zachary Eden, member of the Recreation Board, resigned, thus leaving an unexpired term until June 30, 2018.

The following individuals applied for the vacancy: Jeff Luttrell, Ron Nelson and Ken Miller.

Vice-Mayor Wisler moved to appoint Jeff Luttrell to serve the unexpired term of Mr. Eden, term to expire June 30, 2018, or until his successor has been appointed. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 139

C. RESOLUTION NO. 17-219 - RESOLUTION APPOINTING A MEMBER TO THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that the term of John Ellis (individual actively involved in the tourist business and who has participated in tourism promotion but who does not own or operate a hotel, motel or other taxable tourist accommodation) expires on August 30, 2017.

The following individuals have applied for a vacancy: Andrew Celwyn, Ken Stamps, Jennifer Lauzon, Jessica Tomasin, Elizabeth Button, Patrick Conant and Peter Pollay.

On August 22, 2017, it was the consensus of Council to interview Andrew Celwyn, Jennifer Lauzon and Elizabeth Button.

After Council spoke highly of all candidates, Andrew Celwyn received 4 votes, Jennifer Lauzon received 1 vote and Elizabeth Button received 1 vote. Therefore, Andrew Celwyn was appointed to serve a three-year term ((individual actively involved in the tourist business and who has participated in tourism promotion but who does not own or operate a hotel, motel or other taxable tourist accommodation), term to expire August 30, 2020, or until his successor has been appointed.

RESOLUTION BOOK NO. 39 – PAGE 140

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Brynn Estelle and Mr. Casey Campfield expressed concern over the Family Research Council's draft 5 point plan to legislate transgender people out of public life. They asked the City of Asheville to stand with the transgender people and fight on their behalf against bigoted laws like House Bill 2 and House Bill 142.

Mr. Robert Louis Hardy said that he would be asking for reimbursement of a revival tent; and was disappointed at the condition of the Walton Street Park vs. the condition of the Kenilworth Park and Tennis Courts.

Mr. Grant Millin said that he is in the process of developing a non-profit and hoped to include a program supporting justice, equity diversity inclusion for Americans with disabilities. He provided Council with a resolution entitled "Americans with Disabilities Act Compliance and Public Transparency" and asked for Council adoption of the resolution. He felt there is a lack of attention by City Council regarding this matter.

At the request of Councilman Smith, it was the consensus of Council to ask the Governance Committee investigate what the City is doing regarding Spanish language translation and specific strategies to accomplish Hispanic inclusion.

Closed Session

At 6:42 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 6:55 p.m., Councilman Bothwell moved to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:55 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – October 3, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

Mayor Manheimer asked for a moment of silence for the families and friends of victims from the Las Vegas shooting and for all the people who struggle through every day.

A. PROCLAMATION PROCLAIMING OCTOBER 5, 2017, AS "ENERGY EFFICIENCY DAY" IN THE CITY OF ASHEVILLE

Councilwoman Mayfield read the proclamation proclaiming October 5, 2017, as "Energy Efficiency Day " in the City of Asheville. She presented the proclamation to Sustainability Officer Amber Weaver, who updated Council on some activities taking place during the day.

B. PROCLAMATION PROCLAIMING OCTOBER 7, 2017, AS "WOMANSONG DAY" IN THE CITY OF ASHEVILLE

Vice-Mayor Wisler read the proclamation proclaiming October 7, 2017, as "Womansong" in the City of Asheville. She presented the proclamation to Assistant Director Althea Gonzalez and Debbie Blackman, Wise Woman on the Ruling Council, and others, who sang about how social change can happen through music.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON SEPTEMBER 12, 2017

B. RESOLUTION NO. 17-220 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PARTICIPATE IN DUKE ENERGY PROGRESS' SMALL BUSINESS ENERGY SAVER PROGRAM AND TO ENTER INTO SOLE SOURCE PROVIDER CONTRACT WITH LIME ENERGY FOR THE PURCHASE AND INSTALLATION OF ENERGY EFFICIENT LIGHTING IN FIRE STATION #2 AND FIRE STATION #7/NORTH ASHEVILLE COMMUNITY CENTER

Summary: The consideration of a resolution authorizing the City Manager to participate in Duke Energy Progress' Small Business Energy Saver Program and to enter into sole source provider contract for the purchase and installation of energy efficient lighting in Fire Station #2 and Fire Station #7/North Asheville Community Center.

The electric utility Duke Energy Progress' Small Business Energy Saver (SBES) Program pays for energy efficiency upgrades up front, and covers up to 80% of the total project costs.

Fire Station #2 and Fire Station #7/N. Asheville Recreation Center provide an opportunity to utilize the SBES program while yielding a combined estimate of $2,945.06 in annual energy savings. In terms of carbon reductions, the project will yield 21.3 MTCO2e towards our annual 4% carbon reduction goal the City has adopted.

Staff has analyzed the potential and costs for the project and determined that the SBES Program is a unique opportunity to leverage significant up front capital funding from Duke Energy Progress. The total cost to the City for Fire Station #2 would be $7,525.74; however, utilizing Duke Energy Progress' utility incentive program, the project offsets the cost by 36%. The total cost of the project, to the City, is $4,780.80. The total cost to the Fire Station #7/N. Asheville Recreation Center would be $12,435.50; however, utilizing Duke Energy Progress' utility incentive program, the project offsets the cost by 32%. The total cost of the project, to the City, is $8,511.36. These costs include parts, labor and project management. Funding for these projects will come from the Green Revolving Fund in the amount of $13,292.16.

The SBES Program is run through a single authorized contractor, Lime Energy. In order to participate in the SBES Program, the City needs to pursue a single source provider contract with Duke Energy Progress / Lime Energy. This is allowable as per N.C.G.S. 143-129(e)(6) which states that "the governing body of a political subdivision of the state shall approve the purchase of apparatus, supplies, material or equipment without formal bidding when (i) performance or price competition for a product are not available; (ii) a needed product is available from only one source of supply; or (iii) standardization or compatibility is the overriding consideration."

Pros:

- Supports Resolution 11-77, reducing the City's municipal carbon footprint
- Leverages a DEP incentive which contributes to $6,669.08 of the total project cost

Con:

- None Identified

As noted above the total cost of both projects is $8,511.36, with funding utilized from the Green Program budget. Once complete, the upgrade will produce a combined estimated of $2,945.06 savings on energy per year.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a sole source contract to purchase and install energy efficiency lighting as part of Duke Energy Progress' Small Business Energy Savers Program.

RESOLUTION BOOK NO. 39 - PAGE 141

C. RESOLUTION NO. 17-221 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SUBMIT A CONTINUUM OF CARE CONSOLIDATED GRANT APPLICATION AND, IF AWARDED, TO SIGN ALL NECESSARY DOCUMENTS WITH THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT TO ACCEPT THE FUNDS SUBSEQUENTLY AWARDED

Summary: The consideration of a resolution authorizing the submission of the Fiscal Year (FY) 2017 Continuum of Care Consolidated Grant Application and authorizing the City Manager to sign all necessary documents with the U.S. Department of Housing and Urban Development to accept the funds subsequently awarded.

Approval for submitting the FY 2017 Department of Housing and Urban Development Continuum of Care (CoC) Consolidated Grant Application for the annual CoC Competition on behalf of NC 501 Asheville-Buncombe Continuum of Care (CoC), accepting any funds subsequently awarded and authorizing the City Manager to sign awarded HUD contracts. The City of Asheville serves as the Continuum of Care (CoC) Lead for the Asheville-Buncombe CoC (NC 501). Each CoC Lead is responsible for submitting the community's consolidated application for project funding during the CoC Competition. For FY 2017-18, the Asheville-Buncombe CoC is eligible to apply for $1,170,932 in renewal funding. The renewal projects currently assist in housing more than 141 formerly homeless individuals with case management support. HUD CoC funding also provides the financial support necessary to operate the Homeless Management Information System (HMIS) in NC 501. An additional bonus of $70,256 is available to expand a Permanent Supportive Housing project and $35,128 is available for a CoC Planning Grant. The Planning Grant assists the Community and Economic Development Department in staff costs for CoC responsibilities related to homelessness.

The Homeless Initiative Advisory Committee (HIAC) appoints annually an ad-hoc Finance Subcommittee, comprised of individuals and agencies who did not apply for CoC funds, to review, score and rank the Continuum of Care project applications and make funding recommendations to the HIAC with an order of project priority. The Finance Sub-Committee's funding and ranking recommendations were approved unanimously by the HIAC. The HIAC recommended the following projects and order of priority to the Housing and Community Development Committee for the 2017 CoC Consolidated Grant Application.

Tier 1	GIW/ Funding	Project Type	Rank
Shelter Plus Care Asheville-Buncombe: Homeward Bound of WNC	$ 315,742	Permanent Supportive Housing	1
Permanent Supportive Housing Extreme Needs: Homeward Bound of WNC	$ 218,798	Permanent Supportive Housing	2
Homeless Management Information System: City of Asheville	$ 67,500	HMIS	3
Permanent Supportive Housing Extreme Needs 2: Homeward Bound of WNC	$ 56,244	Permanent Supportive Housing	4
Permanent Supportive Housing Extreme Needs 3: Homeward Bound of WNC	$73,311	Permanent Supportive Housing	5
Permanent Supportive Housing Extreme Needs 5: Homeward Bound of WNC	$ 152,197	Permanent Supportive Housing	6
Bridge to Recovery: Homeward Bound of WNC (Straddle between Tier I and Tier II)	$ 216,884	Permanent Supportive Housing	7

Tier 2	GIW/Funding	Type	
Bridge to Recovery: Homeward Bound of WNC	$ 70,135	Permanent Supportive Housing	
New Project: Expansion for Shelter Plus Care (Bonus) Homeward Bound of WNC	$ 70,256	Bonus Project	8

No rank required	Funding	Type	

CoC Planning Project: City of Asheville	$ 35,128	Planning Grant	n/a

NC-501 Annual Renewal Demand (ARD) is determined by HUD: $1,170,932

Project Applications must be ranked as part of the Consolidated Grant Application into Tier I or Tier II. The Tier percentages are pre-determined by HUD annually and a project may straddle between two Tiers to maximize an award of total funding:

- Tier I: is 94% of NC-501's ARD ($1,100,676)
- Tier II: is the difference between Tier I and NC-501's ARD ($70,135) plus the amount available for the CoCs permanent housing bonus (6% of NC 501's ARD =$70,256)
- CoC Planning Project ($35,128) – No rank required for Priority Listing
- Total of all grants for FY 2017 if awarded: $1,276,195

The Permanent Supportive Housing, the expansion bonus project, HMIS, and the CoC Planning grants, all support or subsidize quality affordable housing and align with the 2036 Council Vision on ending chronic homelessness and supporting an effective network of community service providers in the CoC. This recommendation also complies with the goals of the Five Year Strategic Plan on Homelessness in Buncombe County. The Housing and Community Development Committee recommended the approval of the order of project priority and submission of the FY 2017 Consolidated Grant Application; the adoption of a resolution approving the submission of the FY 2017 Continuum of Care Consolidated Grant Application and authorizing the City Manager to sign all necessary documents with the U.S. Department of Housing and Urban Development to accept the funds subsequently awarded.

Pro:

- Continuum of Care funding is a key funding resource for permanent supportive housing for homeless individuals and families, as well as operating the Homeless Management Information System, which is necessary for NC 501 to receive this vital funding.

Con:

- Program funding does not meet the full demand for the housing subsidy needed to assist all the low-income homeless households in the community that need secure permanent housing.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing Community Development division staff will administer the program. Matching funds for the CoC Planning Grant will come from Buncombe County. No general funds are requested to support this program.

Staff recommends City Council adopt a resolution authorizing the submission of the FY 2017 Continuum of Care Consolidated Grant Application and authorizing the City Manager to sign all necessary documents with the U.S. Department of Housing and Urban Development to accept the funds subsequently awarded.

RESOLUTION BOOK NO. 39 - PAGE 142

D. ORDINANCE NO. 4615 - FIRST READING OF ORDINANCE GRANTING A FRANCHISE AGREEMENT TO HERE TO THERE ADVENTURES FOR THE OPERATION OF A PEDAL BICYCLE TAXI SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance granting a second franchise agreement for the operation of a pedal bicycle taxi service within the City of Asheville.

Asheville Bike Taxi, LLC has been operating a pedal bicycle service in downtown Asheville since November 2012 and there have been no reported traffic-related safety issues with the service. Asheville Bike Taxi, LLC has recently changed ownership and staff is currently working with the new owner to finalize the paperwork.

Staff has been working with an individual that is interested in starting another pedal bicycle taxi service within the City of Asheville under the business name of Here To There Adventures, LLC that would operate in the same service area as Asheville Bike Taxi, LLC. That service area includes the Central Business District, the River Arts District, and the Historic Montford District. In addition, it would be allowed to use SR 3548 (Clingman Avenue) from Clingman Avenue Extension to Hilliard Avenue in order to gain access to the River Arts District. The North Carolina Department of Transportation has confirmed that the subject service can use state-maintained streets except for fully-controlled access streets like the interstate system.

The service is prohibited from operating on public streets that have a speed limit of 35 mph or higher. The one exception is the section of Clingman Avenue that provides access to the River Arts District. This section of street has a bicycle climbing lane and the pedal bicycle taxis are required to use it.

The hours of operation would be Monday through Thursday 4:00 pm until 12:00 am with three vehicles operating, Friday 4:00 pm until 3:00 am with three vehicles operating, Saturday 12:00 pm until 3:00 am with one vehicle operating between 12:00 pm and 4:00 pm and three vehicles operating between 4:00 pm and 3:00 am, and Sunday 12:00 pm until 12:00 am with three vehicles operating.

A total of three vehicles will be available; two 2-seaters and one 4-seater and the business will employ five individuals.

The business owner understands and acknowledges that third-party advertising is not allowed on the outside of the vehicles.

This item was reviewed by the Public Safety Committee on August 28, 2017 and they unanimously recommended that it move forward to City Council for review and approval.

Franchise agreements require two readings at City Council meetings with the first one scheduled for October 3, 2017 and the second one scheduled for October 24, 2017.

Pros:

- Supports diversified job growth and business development.
- Enhances the visitor experience to downtown Asheville.
- Franchise agreement fees in the amount of $365 per year.

Con:

- Could impact vehicular traffic flow.

The City of Asheville receives franchise agreement fees in the amount of $365 per year.

Staff recommends that City Council approve an ordinance granting a franchise agreement to Here To There Adventures, LLC for the operation of a pedal bicycle taxi service within the City of Asheville.

ORDINANCE BOOK NO. 31 - PAGE 332

E. ORDINANCE NO. 4616 - BUDGET AMENDMENT FROM THE FEDERAL TRANSIT ADMINISTRATION FOR THE SECTION 5310 PROJECTS

Summary: The consideration of a budget amendment, in the amount of $324,507, across the Transit Operating and the Transit Project Funds, from the Federal Transit Administration, to set up the project budgets for the Enhanced Mobility of Seniors and Individuals with Disabilities Federal grant, Section 5310.

The City of Asheville is the designated recipient of the Enhanced Mobility of Seniors and Individuals with Disabilities program, which is a program of the Federal Transit Administration (FTA). This is a formula grant program oriented to improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options.

This is a program of the Moving Ahead for Progress (MAP) 21 transportation bill passed by Congress in 2012 that consolidated the Elderly and Disabled program that distributed funds to the states and the New Freedom program that was a formula program in which the City was the region's designated recipient.

To be eligible, the program requires an intensive planning process and the development of a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on community participation. The CTP-HSTP was developed in conjunction with the French Broad Metropolitan Planning Organization (MPO), Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess current transportation needs, identify gaps and to set goals.

The plan was approved on March 29, 2012 by the French Broad River MPO's governing body (the Board), which includes elected representatives from each of the eighteen local governments which make up the MPO. The CTP-HSTP set the region's priorities and identifies needs; the projects were selected on January 26th, 2017 through a competitive process led by the MPO.

City Council adopted Resolution No. 17-58 on March 28th, 2017 authorizing the City Manager apply to the French Broad River Metropolitan Planning Organization for Section 5310 Funds, and if awarded, to sign all the appropriate agreements.

The projects below were selected as city's sub-recipients for the 5310 program. The projects are listed as follows:

Sub-Recipient	Project	Amount funded	Sub-Recipient's match
Land of Sky -	Senior Companions Program	$23,706	$23,706
Henderson County	Vocational Solutions	$22,500	$22,500
Buncombe County	Supplemental Elderly and	$90,000	$22,500

	Disabled Assistance		
City of Asheville	ADA paratransit	$90,000	$22,500
Buncombe County	RIDE Program	$65,850	$65,850
City of Asheville	Program Administration	$32,451	N/A

Description of Projects:

Land of Sky (Senior Companions Program) - Provides companionship services to senior adults who are homebound and need additional assistance to stay independent in their homes for as long as possible.

Henderson County (Vocational Solutions) - Provides career and life skills training for adults with disabilities.

Buncombe County (Supplemental Elderly and Disabled Assistance) - Medical, shopping, and other trips for demand-response general public passengers who are disabled.

City of Asheville (ADA Paratransit) - Supports public transportation to meet specific needs for seniors and individuals with disabilities and ADA Paratransit services from Mountain Mobility.

Buncombe County (RIDE Program) - A curb-to-curb, subsidized transportation program that allows eligible participants to purchase private transportation services at a significant discount.

City of Asheville (Program Administration) - The funds will be used to administer the projects funded by this program and ensure compliance.

The city needs to set up project budgets in order to pass through the funds and will seek reimbursement directly from the FTA. The sub-recipients will be responsible for the match.

As the Designated Recipient, the City will be responsible for the Program Management to oversee the use of the funds according to FTA regulations. The program management will require the use of city resources, mainly staff. As Designated Recipient the City will use $32,451 for administration purposes, which will cover the program management expenses for approximately one year.

Pros:

- Project funding is provided by the FTA, 50% for operating projects and 80% of capital projects. The sub-recipients are responsible for the local match.
- The City is provided $32,451 for administration purposes, which does not require a local match.

Con:

- The grant totals $481,563, of which $324,507 are federal funds and $157,056 are the sub-recipient's matches.

The budget amendment, which reflects the Federal Funds totals $324,507 in the Transit Operating and Transit Project Funds. $32,451 will be reimbursed to the city for administrative costs. Asheville's local match for the provision of ADA paratransit services totals $22,500 and is already included in the existing FY 2017-18 Transit Operating Fund budget.

Staff recommends that City Council adopt a budget amendment in the amount of $324,507 from Federal Funds to budget for program cost for the 5310 projects funded.

ORDINANCE BOOK NO. 31 - PAGE 337

F. RESOLUTION NO. 17-222 - RESOLUTION ACCEPTING SHELBURNE DRIVE AND SHELBURNE WOODS DRIVE AS CITY STREETS

Summary: The consideration of a resolution to accept Shelburne Drive and Shelburne Woods Drive as City streets.

Shelburne Woods Development, LLC has developed a 9-unit single-family residential community off of Shelburne Drive in West Asheville that will be served by a newly constructed street known as Shelburne Woods Drive. In order to gain access to the nearest public street, which is SR 3412 (Sand Hill Road), Shelburne Drive, an existing privately-maintained street, had to be upgraded to current City standards.

Shelburne Drive from SR 3412 (Sand Hill Road) to Shelburne Woods Drive is a developer-constructed street that has an average width of 20 feet with 24-inch curb and gutter on the north side of the street, grass shoulder on the south side of the street, a length of 0.09 mile, and a right-of-way width of 25 feet (The right-of-way at the end of Shelburne Drive as it connects with Shelburne Woods Drive is 40 feet as shown in plat book 164 page 174).

Shelburne Woods Drive from Shelburne Drive to its dead-end (on both sides of Shelburne Drive) is a developer-constructed street that has an average width of 20 feet with grass shoulders, a length of 0.05 mile, and a variable right-of-way width of 35 to 37.5 feet.

Transportation Department staff, Fire Department staff, Planning Department staff, and Public Works Department staff inspected the subject streets and determined that they were constructed according to current standards as indicated in the City of Asheville's Standard Specifications and Details Manual.

Following City Council's approval of this resolution, the subject streets will be added to the official Powell Bill List.

Pros:

- The City of Asheville will receive Powell Bill Funds from the North Carolina Department of Transportation (NCDOT) to help maintain the streets.
- The streets provide access to residential properties.

Con:

- Powell Bill Funds will not cover 100% of the total cost to maintain the streets.

There will be no initial financial impact to the City, although the responsibility of maintenance will belong to the Public Works Department. The City will receive Powell Bill Funds in the future to help maintain the streets.

Staff recommends that City Council accept Shelburne Drive and Shelburne Woods Drive as City streets.

RESOLUTION BOOK NO. 39 - PAGE 143

G. RESOLUTION NO. 17-223 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH FITCH AND ASSOCIATES TO

PROVIDE MASTER PLANNING SERVICES FOR THE ASHEVILLE FIRE DEPARTMENT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Fitch and Associates, in the amount of $44,995, to provide master planning services for the Asheville Fire Department.

On April 21, 2017, the City issued a request for proposal (RFP) seeking a qualified consultant to develop a master plan for the Asheville Fire Department. Two firms, Fitch and Associates and Brooks Innovative Solutions, responded to the request. Representatives from the Fire Department reviewed the proposals and felt that both firms were qualified and should be interviewed. An RFP review committee was assembled utilizing internal and external resources to conduct interviews.

The group conducted phone interviews of both firms and scored their responses on a number of criteria including: demonstrated ability to perform the work, examples of data analysis and presentation, completeness of the proposal, and cost. Additionally reference checks were completed to confirm the information gather from the proposals and the interviews.

After the interviews and reference checks, Fitch and Associates is being recommended to complete the Fire master plan work. Fitch and Associates scored the highest and although price was only one criteria for selection, they presented the lowest price proposal at $44,995.

Fitch and Associates will perform master planning services which include a review of community characteristics, current services, and community expectations for service. They will complete and validate a risk assessment for the service area and measure the systems historical performance. They will also perform an analysis of the financial sustainability of the department. All of this will be completed using a comprehensive public engagement process.

The International Association of Fire Fighters (IAFF) has reached out to the City to offer the services of master plan development at no cost. This is a service that they provide to their member agencies. While the IAFF has been performs master planning in other communities and is trusted to produce good reports, the City has decided to pursue the completion of this work through a contract with Fitch and Associates. Working with Fitch provides a third party validation of past planning and will present a product that limits suspicion of bias that may be associated with working closely with groups that have an past affiliation with AFD.

This recommendation will be reviewed by the Finance Committee at the October 3, 2017, meeting and if there is anything other than unanimous support, it will be brought up at the Council meeting.

Pros:

- Allows the City to get a third party analysis of its Fire resources and operations.
- Evaluation of the inventory of stations and staffing to ensure that efficient and complete coverage is available.

Con:

- Expenditure on this analysis will impact the City funding availability for other expenditures.

Funding for this contract is included in the adopted general fund budget.

City staff recommends City Council authorize the City Manager to execute a contract with Fitch and Associates in the amount of $44,995 to provide master planning services for the Asheville Fire Department.

RESOLUTION BOOK NO. 39 - PAGE 145

H. RESOLUTION NO. 17-224 - RESOLUTION DIRECTING THE CITY CLERK TO ADVERTISE FOR THE SALE OF 10.37 ACRES OF REAL PROPERTY LOCATED AT 550 NEW AIRPORT ROAD TO AVL HOLDINGS, LLC; AND IF NO OTHER BIDS ARE RECEIVED OR ACCEPTED, AUTHORIZING THE CITY MANAGER TO EXECUTE ANY AND ALL DOCUMENTS NECESSARY TO CONVEY REAL PROPERTY SUBJECT TO AN EXISTING GROUND LEASE

Summary: The consideration of a resolution directing the City Clerk to advertise for upset bids for the sale of 10.37 acres of real property located at 550 New Airport Road to AVL Holdings, LLC; and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey real property subject to an existing ground lease.

The City of Asheville owns 10.37 acres of property located at 550 New Airport Road. In 1980, the City entered into a 60 year ground lease for the property to be developed as a hotel. The property was improved with a 152 room facility containing approximately 32,217 square feet and opened in 1983 as a Holiday Inn. The existing lease has been assigned to different entities since its inception and the current tenant, Fletcher Hospitality, Inc. came into place in 2013 to operate the hotel as a Clarion Inn. The lease is structured as a gross sales lease and the City receives a 4.5% percent of gross receipts per year in ground rent. In fiscal year 2016-2017, the City received an annual sum of $161,250 to the City's General Fund.

The lease commenced once the original hotel improvements were completed and currently, the lease term has 26 years remaining within the total 60 year lease period. With the current configuration and age of the hotel improvements, it is evident that the property is not fully developed to its maximum capacity. The ground lease allows for further development of undeveloped site area; however, in conversations with the current tenant, the existing term and structure of the lease are prohibitive for development of the outparcels. The tenant cites concerns with being able to achieve financing for the type of dense improvements that the site could support and the inability to use ownership of the underlying land as collateral. The property was formerly part of the airport property and as such is subject to certain FAA requirements regarding development, of which the tenant is aware.

The tenant has come forward with the desire to purchase the site in fee simple under a different entity name-AVL Holdings, LLC. The City procured an appraisal of the site that included specific assumptions, as follows: (1) the hotel improvements are wholly owned by the tenant and therefore the appraisal is of the value of the land only and (2) the appraisal assumes that the land is unencumbered by the existing ground lease. The appraisal established a fair market value of the free and clear land as $7,164,000 and AVL Holdings, LLC has come forward with a bid to purchase the land at that price point.

If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $7,164,000. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e., $7,522,250 or higher). The property is to be sold subject to the existing lease. If the current bidder succeeds within the upset bid

process, they will have the ability to terminate the lease, which will be assigned by the City as part of the purchase transaction, and redevelop the property to its highest and best use if they choose to do so.

Pros:

- Sale of the real estate asset allows for a one-time receipt of revenue in the amount of $7,164,000.
- The purchase price is at fair market value.

Con:

- If the property is sold, annual rental funds will cease and operating budget will need to be reduced by $160,000.

Should the upset bid conclude and the sale go through, the City will receive $7,164,000 in proceeds. This revenue is currently unbudgeted and further policy direction will be requested at the appropriate time to determine the allocation of those funds. Also as noted above, the City's General Fund would see a reduction of approximately $160,000 in annual revenue.

Staff recommends directing the City Clerk to advertise for upset bids for a property located at 550 New Airport Road, subject to an existing ground lease; and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey real property.

RESOLUTION BOOK NO. 39 - PAGE 146

I. RESOLUTION NO. 17-225 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A ONE-YEAR EXTENSION WITH RIVERTOP CONTRACTING INC. FOR THE DOWNTOWN CLEANING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a one year extension in the amount of $250,026 plus a contingency of 15% ($37,504) with Rivertop Contracting Inc. for the contract known as Downtown Cleaning, and further authorizing the execution of any change orders to said contract which may arise during execution of said contract up to the budgeted amount of $300,000.

Rivertop Contracting started working the current extension on October 1, 2016, and will exhaust the funding by October 31 2017. The proposed extension will take effect at that time and will continue until the current funding is exhausted.

The City may elect to renew the contract for one additional one year period. Renewal shall be subject to approval by City Council.

Pros:

- Will result in the most heavily used areas of the CBD being pressure washed completely 4 times in the life of the contract and the lesser used areas being pressure washed completely 2 times in the life of the extension.
- Will result in undesirable vegetation being removed from City sidewalks, curblines and tree grates

Con:

- Contract management and contract administration will consume staff time.

$300,000 was budgeted for Downtown Cleaning in the general fund. This amount was approved by City Council and included in the Fiscal Year 2017-2018 budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a one year extension of the current Downtown Cleaning contract in the amount of $250,026 plus a contingency of 15% ($37,504) with Rivertop Contracting, Inc. for the contract known as Downtown Cleaning and further authorizing the execution of any change orders to said contract which may arise during execution of said contract up to the budgeted amount of $300,000.

RESOLUTION BOOK NO. 39 - PAGE 147

J. RESOLUTION NO. 17-226 - RESOLUTION APPROVING A FEE GRANT PROGRAM FOR AFFORDABLE HOUSING DEVELOPMENT IN THE CITY OF ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to accept the revised Fee Grant Program for Affordable Housing.

This staff report summarizes recommendations for revised Affordable Housing fee grant program including both federal HOME for-sale price limits with gap subsidy, and a lower for-sale price limit to encourage other housing homeownership models with limited or no gap subsidy. The Affordable Housing fee rebate program was implemented by the City to support a long-standing City goal to create and preserve Affordable Housing in the City. The fee rebate program was suspended in June 2017 by the Housing and Community Development Committee (HCD) due to lack of use as well as the need for City staff to explore alternative ways of funding this incentive. Since then, the Affordable Housing Advisory Committee (AHAC) has explored the HOME for-sale price limits and has suggested incorporating these price limits in a revised program. This policy proposal incorporates those for-sale price limits as well as those that encourage additional housing-types for home ownership.

The HCD reviewed this proposal at its September 19, 2017, meeting and recommends City Council approve the Fee Grant Program for Affordable Housing. Additionally, the AHAC and staff will continue to explore ways to increase capacity for incentivizing affordable homeownership.

Proposed Fee Grant Program:

1. Program Requirements: The City of Asheville's fee grant program provides a flat rate grant for City services including building permits, water connection and sewer facility fees associated with the construction or preservation of new affordable housing. In order to qualify for the program, the following criteria must be met:

a. Participation: Available to developers who currently participate in a federal, state, or local affordable housing program and for-profit developers, sole-proprietors, 501c3's not participating in a local or federal affordable housing program with a minimum fifteen (15) year affordability period mechanism in place.

b. Grant Amount: Over the last five years, there have been 116 for-sale rebates for a City average of $1,075 per unit and 261 rental rebates with a City average of $640 per unit. Based on these figures, staff proposes the following flat grants for the fee grant program:

	Rental (per unit)	For-Sale (per unit)
100% AMI	-	$2,000
80% AMI	$1,000	$2,500
60%AMI	$2,000	$3,000

c. Affordability Period: The unit(s) must have an affordability period based on the following criteria:

Housing Type	Affordability Period
Rental	25 Years
For-Sale	15 Years*

**City preference for for-sale properties is that affordability periods are held in perpetuity, and will take unique lending structures whose intent is perpetuity, into consideration.*

d. For Sale Price: The eligibility for for-sale units shall be based on the sales price of the unit with evidence of a closing statement and verified income eligibility of the buyer by City underwriting process. Household must have annual income of 100% AMI or less with household expenses no more than 30% of the total household income. To qualify, the for-sale price limits must either:

1.) Fall at or below the current HOME Purchase Price Limit (published annually for the U.S. Department of Housing and Urban Development) with adequate gap subsidies from a third party to maintain affordability for the income eligible household, or

2.) Meet the City's for-sale housing price limits with no gap subsidy requirement.

Sale prices are adjusted annually and will be available via the Community and Economic Development Department. At the time of policy creation, the For-sale limits were as follows:

1. **HOME Purchase Price with Gap Subsidy Requirement**

No. of Units*	Maximum Sales Price with Gap Subsidy**
1-unit	$224,000
2-unit	$286,000
3-unit	$347,000
4-unit	$430,000

**Number of units is based upon number of units: single-family and attached housing.*

***Gap subsidy is provided by a third party, and keeps the for-sale price at market rate households' housing expenses at or below 30% of the household income, including utilities.*

2. **Sales price with no gap subsidy requirement**

No. of Bedrooms	Maximum Sales Price with No Gap subsidy**
0 Bedrooms (Efficiency)	$124,000
1 Bedroom	$145,000
2 Bedroom	$172,000
3 Bedroom	$200,000

***"No Gap Subsidy" assumes a 10% down payment by the buyer. Underwriting of the buyer is still a requirement.*

e. Performance Based Program: Fees are only granted following the receipt of evidence that the program requirements have been met. At any time should the unit be out of compliance, the City reserves the right to recapture grant fees and collect 10% interest on those fees.

f. Housing Types: All housing types will be considered, including rental units and homeownership units.

3. Enforceability: If the Participant defaults in any of the Program Requirements of the Affordable Housing Fee Grant Program, or, sells, assigns, transfers or conveys all or any part of the Property without notifying the City and submitting a release or transfer request prior to the end of the affordability period terms, then the City, at its option, may without further notice, declare the entire fee grant, together with all interest accrued thereon, immediately due and payable with a 10% per annum penalty until paid. Failure to exercise this option shall not constitute a waiver of the right to exercise the same at any other time.

Pro:

- The recommendations are consistent with City's Comprehensive Affordable Housing Strategy.

Con:

- None noted.

Staff will work with existing 2017-18 budget to implement this program, monitor financial impact and report back in 6 months.

Staff recommends City Council adopt a resolution adopting Fee Grant Program for Affordable Housing.

RESOLUTION BOOK NO. 39 - PAGE 148

K. RESOLUTION NO. 17-227 - RESOLUTION APPROVING THE 2017 LIMITED OBLIGATION BONDS

RESOLUTION NO. 17-228 - RESOLUTION AND BOND ORDER FOR THE 2017 SPECIAL OBLIGATION BONDS

Summary: The consideration of an approving resolution for the 2017 Limited Obligation Bonds (LOBs) and a bond order for the 2017 Special Obligation Bonds (SOBs) to refinance the City's installment financing obligations related to projects financed in 2016 through short-term Limited Obligation Bonds.

On September 12, 2017, City Council convened a public hearing for the 2017 Limited Obligation Bonds and Special Obligation Bonds to be sold on October 12, 2017.

- Limited Obligation Bonds. The City has the power, pursuant to North Carolina General Statutes, to (1) purchase real and personal property, (2) enter into installment contracts in order to finance the purchase of real and personal property used, or to be used, for public purposes, and (3) grant a security interest in some or all of the property purchased to secure repayment of the purchase price. The purpose of the 2017 LOBs is the refinancing of the City's installment financing obligations related to a portion of the 2016 Projects and, to the extent the City can achieve debt service savings, a portion of the 2012 Projects, in an aggregate principal amount not to exceed $31,200,000.

  The City's obligations related to the 2017 Limited Obligation Bonds are subject to annual appropriation and will be secured through the master indenture including the City Hall building, the Municipal Building and the Public Works Administration Building.

- Special Obligation Bonds. The City is authorized, under G.S. 159I-30 to issue, subject to the approval of the Local Government Commission, special obligation bonds of the City, for the purposes specified under the Act. The purpose of the 2017 SOBs is the refinancing of the City's installment financing obligations related to a portion of the 2016 Projects, specifically those located within the City's established Municipal Service Districts, or Innovation Districts, and meeting the criteria for special obligation debt.

  Special Obligation Bonds are secured by taxes and fees not levied by the municipality. These include sales and utility taxes.

Debt Service costs are approximate until the final contract is complete; the true interest cost shall not exceed 5.00% for the LOBs and SOBs.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over the useful life of the asset.
- The financing conforms to the approved Financing Plan for capital expenditures.
- Debt Service savings on the 2012 LOBs.

Con:

- Financing the purchase increases nominally the lifetime cost of the acquisition due to the payment of interest and closing costs on the amount financed.

The annual debt service payments for this financing range between approximately $949,000 in the first year and approximately $819,000 in the fifth year. Funds are included in the City's FY 2017-18 proposed debt service budget to cover this cost.

City staff recommends that City Council (1) adopt the resolution approving the refinancing of a portion of the 2016 Projects and, to the extent the City can achieve debt service savings, a portion of the 2012 Projects, under the Contract, including Amendment Number Two, and the pay the costs of entering into financing, in an aggregate principal amount not to exceed $31,200,000; and (2) adopt the bond order approving Special Obligation Bonds to be issued pursuant to the GS

159I-30 to raise the money required, in addition to any funds which may be made available for such purpose from any other source, to (a) refinance a portion of the costs of the 2016 Projects and (b) pay the costs of issuing the Special Obligation Bonds for a principal amount not to exceed $20,000,000.

RESOLUTION NO. 17-227 - RESOLUTION BOOK NO. 39 - PAGE 149
RESOLUTION NO. 17-228 - RESOLUTION BOOK NO. 39 - PAGE 153

L. RESOLUTION NO. 17-229 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CHANGE ORDER WITH TENNOCO CONSTRUCTION COMPANY WHICH WOULD ALLOW FOR AN INCREASE FOR THE AUTHORIZED CONTRACT AMOUNT FOR THE CRAVEN STREET IMPROVEMENTS PROJECT

Summary: The consideration of a resolution increasing the signature authority for the City Manager by $28,854.96 to enter into a change order necessary for the final payment of seasonal pay items (plantings completed in the spring of 2017) and quantity over-runs for large pay item increases such as the soil nail walls associated with the greenway for the Craven Street Improvements Project with Tennoca Construction Company for a total contract amount of $7,115,425.62.

On June 12, 2012, City Council approved a contract with ColeJenest & Stone for professional services for the design of the Craven Street Improvement project. This project includes improvements to the existing two lane roadway by implementing a complete street approach to the design. The new facility includes bike lanes, sidewalks, stormwater improvements, stream restoration, greenway, parking areas and roadway improvements. The bids for the project were opened on June 17, 2014 and the City of Asheville determined Tennoca Construction Company to be the lowest responsive and responsible bidder for the project. On June 24, 2014, City Council approved the contract with Tennoca Construction Company, Inc. for $6,001,365.79 and authorized the City Manager to enter into change orders to this contract not to exceed $900,204.87 for a total budget amount of $6,901,570.66. On February 23, 2016, City Council authorized the City Manager to negotiate and execute change orders not to exceed $185,000 for a total amount of $7,086,570.66.

The City has five funding partners on this project, Golden Leaf Foundation has provided $300,000, the Economic Development Administration from the Department of Commerce has partnered to provide approximately $1.12M, the Clean Water Management Trust Fund through RiverLink has provided $365,000 and the Tourism Development Authority (TDA) has provided $150,000 toward this great project. Also, Metropolitan Sewerage District (MSD) partnered for $35,000 for efforts associated with the sewer line improvements along the greenway. The remaining cost of the project is being paid through the Stormwater Fund, Water Fund, Parking Funds and General Fund utilizing a combination of pay-go funds and debt proceeds.

Tennoca Construction Company has performed the construction services necessary to provide improved transportation connections (including pedestrian, bike and vehicular) to the Craven Street area.

The City and New Belgium Brewery (NBB) has an existing Memorandum of Understanding (MOU) in place, which has allowed the City and NBB to partner on cost saving measures for both the City project and the construction project of NBB.

The Craven Street Project is complete. This requested increase of $28,854.96 in the City Manager's authority to enter into a change order for the construction contract will allow for final

payment of seasonal pay items (plantings completed in the spring of 2017) and quantity over-runs for large pay item increases such as the soil nail walls associated with the greenway. This change order will utilize unencumbered funds which will be allocated toward the contract.

This project follows the commitment made to New Belgium Brewery to make improvements in this area. The project further benefits the environment by placing Stormwater Control Measures in place to provide water quality treatment in the area. The project also helps to develop multimodal transportation connections.

Pros:

- The Project has made improvements to the transportation options in this area, including vehicles, pedestrians and bike facilities
- Allows the contractor to be paid for their services
- Provides safe access for the citizens that visit this area
- Improves the environment through water quality devices and stream restoration
- Makes safety improvements to the intersection of Hazel Mill Road and Craven Street
- Provides bike lanes, sidewalk and a greenway to the area

Con:

- None

The current authorized construction contract amount totals $7,086,570.66. The additional contract authority of $28,854.96 that is requested will bring the total construction contract authority to $7,115,425.62. There is sufficient funds within the project to cover this change order.

City staff recommends City Council approve a resolution authorizing the City Manager to enter into a change order with Tennoca Construction Company which would allow for an increase in the contract amount from $7,086,570.66 up to an additional $28,854.96 for the existing contract with Tennoca Construction Company to a total authorized contract amount of $7,115,425.62.

RESOLUTION BOOK NO. 39 - PAGE 159

M. RESOLUTION NO. 17-230 - RESOLUTION ACCEPTING ADDITIONAL FISCAL YEAR 2016-17 EMERGENCY SOLUTIONS GRANT FUNDS AND PROVIDE FUNDS TO SELECTED AGENCIES

Summary: The consideration of a resolution authorizing 2016-17 Emergency Solutions Grant additional awards.

The State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit has awarded Emergency Solutions Grant funds to the City of Asheville in order to fund local agencies to provide emergency shelter and rapid rehousing services for homeless individuals and families. Additional awards have been made for FY 2016-17 due to reallocation.

The State of North Carolina Division of Aging and Adult Services (DAAS), Housing and Homeless Unit issued an Additional Funds Notification in early August with the following criteria:

- Request for additional funds for activities that grantees already have.
- Cannot request more funds than the current FY 2016-17 award.
- Ability to spend the additional funds by 12/31/17.
- Agency must have attended the recent requisition webinar.
- Funding priority determined by current grant expenditure rates.

Helpmate and Salvation Army have been awarded additional support for Emergency Shelter Operations. The City of Asheville is also eligible to receive Homeless Management Information System funds. Homeward Bound did not request additional funds for Rapid Rehousing given the requirement to expend them before the end of the calendar year. All of the State's criteria have been met by the agencies being recommended for the grant awards in the amounts listed below.

2016-17 ESG Awards					
	Emergency Response	Rapid Rehousing	HMIS	Additional Funds	Total
Homeward Bound		$34,558			$34,558
Salvation Army	$20,125			$15,176	$35,301
Helpmate	$28,671	$28,000		$17,801	$74,472
City of Asheville			$2,000	$2,000	$4,000
TOTAL AWARD	$48,796	$62,558	$2,000	$34,977	$148,331

The Housing and Community Development Committee's recommended to accept an additional $34,977 in Emergency Solutions Grant funds from the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit for the projects awarded.

Pro:

- The Emergency Solutions Grant program is a key funding resource for emergency shelter and for rapid rehousing of persons experiencing homelessness.

Con:

- None noted.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing Community Development Division staff will administer the program. No general funds are requested to support this program.

Staff recommends City Council adopt a resolution authorizing the City Manager to accept an additional $34,977 in Emergency Solutions Grant funds from the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit for the projects awarded.

RESOLUTION BOOK NO. 39 - PAGE 160

N. ANNOUNCEMENT OF A REQUEST TO RENAME THE MONTFORD RECREATION CENTER TO THE TEMPIE AVERY COMMUNITY CENTER AND TO ACCEPT THE DONATION OF A HISTORICAL PLAQUE TO BE PLACED ON THE SITE TO HONOR THE CONTRIBUTIONS OF TEMPIE AVERY

Summary: Announcement of a request to rename the Montford Recreation Center to the Tempie Avery Community Center, a prominent African-American nurse and midwife who lived on the site of the Montford Recreation Center, and to accept the donation of a historical plaque to be placed on site to honor the contributions of Tempie Avery.

The City of Asheville has received a request from community member Cathryn McLeod, and Martha Warren (a descendant of Tempie Avery) to rename the Montford Recreation Center to the Tempie Avery Community Center, and to donate a historical plaque to be located on site.

Tempie Avery was a well-known and respected community member in both black and white communities in Asheville. She was a former slave of the Nicholas Woodfin family. After her emancipation, Avery worked as a nurse and midwife in both the black and white communities of Asheville. Avery was conveyed a plot of land at 34 Pearson Drive by the Woodfin family and resided there until her death in 1917. The present day Montford Recreation Center is located where her house was once located.

Pursuant to the City's policy on naming public facilities, Ms. McLeod submitted the renaming proposal including 200 signatures of people who reside within the city limits of Asheville. The City Clerk's office has verified with the Buncombe County Board of Elections that more than 30 signatures on the request are registered voters of the City.

Ms. McLeod presented the renaming proposal to the (1) Historic Resources Commission on August 9, 2017, (2) African American Heritage Commission on August 11, 2017, and (3) Recreation Board on September 11, 2017. The proposal received support from all three of the boards and commissions. The Recreation Board recommended the name become the Tempie Avery Montford Community Center as a means to retain the association to the Montford area.

The proposal was presented to the Montford Neighborhood Association on September 13, 2017, and received unanimous support.

Also pursuant to the City's naming policy, Council shall make the announcement at a scheduled public meeting as to provide for an opportunity to receive input from appropriate sources. Prior to voting, the Council may solicit the advice of surrounding property owners, residents, affected parties and other City officials or anyone else that the Council believes can contribute meaningful input.

In order to receive that input, Council will make a decision at its next regularly scheduled meeting.

The cost to the City to support the renaming of the Montford Recreation Center to the Tempie Avery Community Center is $8,000 - $10,000 for the center identification sign. The funds to support the cost are budgeted in the City's Capital Improvement Program for the Parks and Recreation Department. There is no cost associated with the historical plaque since it will be donated to the City.

The Historic Resources Commission and the African American Heritage Commission recommend renaming the Montford Recreation Center to the Tempie Avery Community Center, and to place a historical plaque on-site to honor Tempie Avery. The Recreation Board recommends the renaming of Montford Recreation Center to the Tempie Avery Montford Community Center, and to place a historical plaque on-site to honor Tempie Avery.

The following individuals spoke in support of renaming the Montford Recreation Center to the Tempie Avery Community Center in honor of Tempie Avery:

Mr. Joe Newman
Ms. Sharon Fahrer
Mr. Keir Walker, direct descendant of Tempie Avery
Ms. Cathryn McLeod
Ms. Martha Warren, direct descendant of Tempie Avery

Mayor Manheimer explained the pursuant to the City's naming policy, the public may provide input prior to Council's consideration of the renaming on October 24, 2017.

Councilman Young thanked those that did all the diligent work to bring this forward to Council. He was enamoured that African Americans have contributed so much to Asheville, and hoped that more stories will come out in the public eye and be encapsulated with recognition.

Councilwoman Mayfield hoped that this is the first of many opportunities to celebrate the history of people in our City that don't often get celebrated.

Councilman Bothwell noted that on October 9, 2017, at Noon at 68 Haywood, there will be a free public lecture on the African American history of Asheville.

K. RESOLUTION NO. 17-231 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH PHILLIPS & JORDAN INC. FOR THE NORTH FORK SPILLWAY AND EMBANKMENT IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Construction Agreement with Phillips & Jordan, Inc., for the bid amount of $34,928,000.00 plus a contingency amount of $5,239,200.00 for a total project budget in the amount of $40,167,200.00 for the North Fork Spillway and Embankment Improvements Project.

The North Fork Dam was built in 1955 following a severe drought. Since that time, state regulations have been updated to require reinforcement of dams to ensure their integrity in the event of an emergency (e.g. severe flooding and damage from seismic activity). As a result, the North Carolina Department of Environmental Quality (NCDEQ) is requiring the City of Asheville to construct a second spillway at the North Fork Dam for two reasons: (1) the current spillway is not large enough to contain Probable Maximum Precipitation (or PMP, aka severe flooding from a major storm); and (2) growing concern with earthen dams needing to be buttressed, which are inflexible and will prevent the dam from falling over. Phase I of the project, which involved engineering and construction for the Intake Tower Structure and Water Conveyance Conduit Repairs, has been completed at a cost of $2.7 million. This work was required in order to move onto Phase II, which is the larger part of the project - the North Fork Spillway and Embankment Improvements.

The original estimate for this work was $40 million in 2012. After bidding the project, the actual cost for engineering, permitting, and construction will be approximately $49 million. Over the six year life of this project, there has been $14,594,925 set aside for the completion of a portion of the work. Additionally it has been planned that the balance of the project costs would be debt financed up to $40 million. At this point it appears that the total of $54,594,925 planned to fund the project will be more than enough to fully fund the work. This construction project must move forward to meet NCDEQ regulations and ensure the integrity of the dam.

On October 19, 2016, the Water Resources Department (WRD) issued a Request for Qualifications (RFQ) to prequalify general contractors for the North Fork Spillway and Embankment Improvements Project. The City's pre qualification process assesses contractors in several areas (e.g. experience, references, licensing, bonding, litigation/claims, safety record, historically underutilized business plan, etc.) to determine if they are qualified to bid on a project of this size and scale. Project engineers Schnabel Engineering South, P.C., and WRD staff prequalified 10 contractors to bid on the project.

On July 17, 2017, the WRD issued an Advertisement for Bids for the project. The scope of work for this project generally consists of excavation and construction of a new Auxiliary Spillway, installation of filter drains, seismic stability berms, and instrumentation on the main dam and saddle dam, construction of a parapet on the main dam, installation of a temporary raw water

bypass, construction of an extension to the outlet works conduit and associated piping and valving, construction of access roads and slope stabilization measures, erosion and sediment control, intake tower modifications, demolition of existing gates in the principal spillway and construction of new weirs and gate in the principal spillway, concrete overlay of the principal spillway chute, construction of a bridge over both spillways, and miscellaneous support structures, cofferdams, electronics, and mechanical systems at the North Fork Reservoir in Black Mountain, NC. The work will be performed within a period of 2.5 years.

In response to the Advertisement for Bids, the department received six bids on September 14, 2017. Companies responding were:

1. Phillips & Jordan, Inc.; Knoxville, TN – Bid: $34,928,000.00
2. ASI Construction, LLC; Pueblo West, CO – Bid: $35,447,808.00
3. Crowder Construction Company; Charlotte, NC – Bid: $37,935,209.50
4. Morgan Corporation; Duncan, SC – Bid: $41,661,149.00
5. Thalle Construction Company; Hillsborough, NC – Bid: $35,550,000.00
6. GLF Construction Corporation; Miami, FL – Bid: $40,975,270.00

Following a review of the bids by City Staff and the project engineers, Schnabel Engineering, Phillips & Jordan, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $34,928,000.00. A contingency amount of $5,239,200 has been added for a total project budget in the amount of $40,167,200.

Pros:

- This project is required to upgrade the North Fork dam and spillway to comply with State regulations.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- There will be an increase in construction traffic and noise near the project location for approximately 2-2.5 years. The project engineers and WRD, with guidance from the City's Communication and Public Engagement Division (CAPE), held several community meetings to educate local residents about the project, agree on a construction hours, answer questions, and alleviate concerns. The City also has a dedicated Projects Webpage that provides additional information to the public.

The funding needed for this agreement is currently allocated within the North Fork WTP Dam/Tunnel Repairs Project in the Water Resources Capital Improvement Projects (CIP) Fund. The cost of this project will be funded with the issuance of debt proceeds (up to $40 million) and funds currently allocated in the CIP Fund Project Budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Construction Agreement with Phillips & Jordan, Inc., for the bid amount of $34,928,000.00 plus a contingency amount of $5,239,200.00 for a total project budget in the amount of $40,167,200.00 for the North Fork Spillway and Embankment Improvements Project.

RESOLUTION BOOK NO. 39 - PAGE 161

L. MOTION TO SUPPORT OF A PROMOTIONAL CAMPAIGN TO ENCOURAGE LOCAL RESIDENTS TO SHOP DOWNTOWN FOR THE HOLIDAY SEASON

Summary: The consideration of a motion to support a promotional campaign to encourage local residents to shop downtown for the holiday season, including a program that would result in lost revenue to the Parking Enterprise Fund in the amount of $4,500.

In coordination with downtown stakeholders including the Asheville Downtown Association, Downtown Commission and Asheville Grown Business Alliance, and in alignment with City Council's Strategic Priorities of supporting a Thriving Local Economy and Connected and Engaged Community, staff is proposing a promotional program to encourage shopping and patronage at downtown businesses this holiday season. This year's program will be treated as a pilot, helping to inform future recommendations and other tools for supporting City Council's Priorities.

The promotional campaign includes refurbishing the City's holiday wreaths and expanding the Downtown Winter Lights program. Additionally staff is proposing that vouchers be distributed that offer one additional free hour of parking in the City's garages on the six Saturdays between the Holiday Parade and Christmas. As proposed, Parking Services would sponsor a total of 3,000 vouchers with the intent for 500 to be distributed for each Saturday of the program. The vouchers would be marked with a special symbol, and distributed to downtown merchants interested in participating via the Asheville Downtown Association and Asheville Grown Business Alliance. The vouchers would then be given to customers directly by the merchant businesses. Parking Services staff would honor the vouchers during manned hours (10 AM - 7 PM) on the following six Saturdays of 2017: November 18, November 25, December 2, December 9, December 16, December 23.

Feedback from the Asheville Downtown Association, Downtown Commission and Asheville Grown is that finding parking is a hinderance to local citizens shopping and patroning downtown businesses. Offering parking incentives is a tool that other cities deploy successfully during the holidays to support businesses and encourage use of off-street structured parking facilities. Stakeholders have recommended consideration of this type of program for several years, and the Downtown Commission endorsed the idea in 2016 and 2017.

These activities are designed as a measure to support City Council's Strategic Priority of a Thriving Local Economy. With the development of a toolbox underway, the goal is to support a diverse and healthy economy, including support for small, local, homegrown businesses. In addition to the wreath refurbishment and Downtown Winter Lights expansion, the parking tool can be deployed and tested as part of a multifaceted approach to supporting these businesses.

This program is also a result of work and coordination with neighborhood non-profit organizations and local businesses, aligned with City Council's Strategic Priority of supporting a Connected and Engaged Community. Not only was the program conceived in coordination with these organizations, but it's execution and success is reliant on, and builds upon continued partnership.

The Finance Committee will be reviewing this item at their October 3, 2017, meeting and if there is anything other than unanimous support it will be brought up in the Council meeting.

Pro:

- Incentive to encourage downtown shopping and support downtown businesses

Con:

- Lost revenue of $4,500 to the Parking Enterprise Fund

If approved, the parking voucher program will result in estimated lost revenue in the Parking Enterprise Fund of up to $4,500. This fiscal impact was contemplated during the budget process, and revenue estimates in the Parking Enterprise Fund were adjusted accordingly.

City staff recommends City Council support this cross-departmental program and resulting potential $4,500 loss of revenue to the Parking Services Enterprise Fund.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. FINAL REPORT ON THE ENTREPRENEURIAL IMPACT OF OUTDOOR SPECIAL EVENTS

Mr. Jon Fillman, Economic Development Specialist, said that on August 25, 2015, Asheville City Council adopted a resolution authorizing an application for grant assistance from the Appalachian Regional Commission (ARC) to fund an innovative research study that would seek to identify and quantify the entrepreneurial impact of outdoor special events in Asheville, while also developing a model that could be shared with surrounding communities in Western North Carolina. The City Manager accepted a grant from ARC for the project in May, 2016. Syneva Economics and Chipley Consulting were selected to execute the study, titled The Entrepreneurial Impact of Outdoor Special Events. The project period was one year in length, from July 15, 2016 - August 31, 2017.

He said that at the time of the initial grant application in 2015, the frequency of special events and festivals in Asheville, along with demand for resources, had increased by 20% over a five-year period. Though much attention had been paid to the relationship between recreation, tourism, and special events, the entrepreneurial impact study aimed to examine how local government and entrepreneurs could best employ special events to encourage business growth, predict contributor intent, entrepreneurial activity, motivation, satisfaction, and spending.

Mr. Tom Tveidt, representing Syneva Economics, said that the the findings of the study revealed a diverse and dynamic vendor community not easily assigned to any single category. There were a few surprises discovered such as that on-site sales generated at special events and festivals were not the primary motivator for business participation. Yet the study also revealed that an annual sales premium of 3.9% was experienced by businesses who participated in special events and festivals over those that did not. Directly and indirectly, that premium related to an additional 54.4 jobs and $2.7 million in annual economic impact. Overall, researchers found that vendors were extremely positive about the role of Asheville's outdoor special events to their business' success.

Recommendations from the study suggest a greater effort be placed on integrating vendor businesses into Asheville's business development ecosystem. This includes working with public and private partners to develop vendor training programs, the creation of an online vendor list and directory, making a targeted effort to encourage communication between vendors, and developing

incentive programs for event-producing organizations that assist in the effort - all of which help support City Council's goal to support small, local, homegrown businesses.

In response to Councilwoman Mayfield, Mr. Fillman said is their next steps are to focus on developing leagues. We have existing ecosystem for business development in Asheville. The problem is the vendors don't know what the resources are and they don't have those connections or inclinations to do the research. In creating these directories, and working with other local organizations, we will create these registration systems and to connect people to the existing resources. We want to help them grow their businesses from a financial perspective. Other organizations can disseminate information to local markets. We want to also establish a training league for mentoring, etc. and an environmental health and services league. We need to increase the services we provide as a community; and assign certain functions to our existing partners. He did not anticipate the need for an additional staff person to accomplish these next steps.

B. CAPITAL PROJECTS COMMUNICATIONS UPDATE

Interim City Manager Jade Dundas demonstrated from the City's website the Dashboard on Capital Projects and Bond Projects, and showed how accessible the information is for the different projects. We have soft launched this Dashboard and plan on having a larger outlet to market this via social media.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER AN AMENDMENT TO THE UNIFIED DEVELOPMENT ORDINANCE ESTABLISHING REQUIREMENTS FOR UTILITY SUBSTATIONS

At the request of City staff, this public hearing has been withdrawn.

B. HAYWOOD ROAD FORM CODE

PUBLIC HEARING TO CONSIDER A SERIES OF TEXT AMENDMENTS TO ARTICLE VIII OF CHAPTER 7 OF THE CODE OF ORDINANCES PERTAINING TO DEVELOPMENT STANDARDS FOR THE HAYWOOD ROAD FORM CODE FOUND IN SECTION 7-8-28

Mayor Manheimer said that since the following two public hearings are related, she asked that the presentations be made simultaneously but that individual public hearings would be held.

Assistant Planning & Urban Design Director Alan Glines said that this is the consideration of an ordinance amending Article VIII of the Chapter 7 of the Code of Ordinance pertaining to development standards for the Haywood Road Form Code found in Section 7-8-28. This public hearing was advertised on September 22 and 29, 2017.

In September 9, 2014, the City Council adopted the Haywood Road Form Code as the first form district in the City. This applied to Haywood Road beginning almost at the French Broad River and proceeded for approximately 2.5 miles to Patton Avenue. The district established six zoning types based on the scale and characteristics of the area along the corridor.

Since the adoption of the ordinance, staff has reviewed a number of redevelopment proposals and have spoken with property owners, developers and design professionals concerning implementation of the code. Staff are proposing several changes to the code that affect the districts in the operation of the development requirements. For example, staff is seeking to

reduce the build-to-zone requirement, which is the percentage of the parcel that must be covered by a compliant building, from 80% to 90% (depending upon the district) to 70% to allow more flexibility for developers, while still retaining the intent of the requirement. The development must also provide sufficient parking by aligning the building size and uses with required parking.

Other development parameters are also being adjusted:

- **Build to zone – side street**-reduce the required percentage to a minimum building depth of 25 feet to provide more flexibility to redevelop a site
- **Building setbacks** – some adjustments in the form of minimum and maximum distance from the right-of-way line to account for overhead utility or other easements
- **Outdoor amenity space** - align it with other urban areas of the city for more consistency and to encourage redevelopment
- **Building height allowances** - lessen the minimum heights floor-to-floor for flexibility which is especially helpful for smaller building floorplates.
- **Building fenestration detailing** (such as windows and doors) - revise how to measure fenestration and adjust percentages to allow more flexibility in building design
- **Streetscape** - clarify limitations on changes to Haywood Road since it is a DOT roadway
- Allowing more **height options in HR4 Traditional** - parcels in this area are more limited in size and depth. Buildings would be allowed from one to three stories
- Allow a building setback of at least 10 feet to create a plaza space or expand sidewalks to satisfy the building **stepback requirement** for upper floors

The form code also includes a land use table, a parking standard and a sign allowance. The following changes are proposed:

- Allow Bed and Breakfast and Homestay in HR1 Core
- Remove use by right with special requirements for Live-work uses
- Remove single family use for the entire corridor area; add duplex to all districts
- Update for lodging facilities in the permitted use table to align with recent Council actions on review thresholds based on the number of guest rooms
- Add parking lots as a use in the use table
- Allow on-street spaces existing or proposed to count one-for-one toward the parking requirements
- Specify temporary use provision of the UDO are allowed in the district
- Some clarification for parking, bicycle parking and parking for newly established eating and drinking establishments

The draft code provides distinct red-line entries for the portions of the ordinance that are being adjusted. This will allow the specific changes to be distinguished individually in the review.

The current changes were reviewed on June 6, August 31, and September 19, 2017, with the West Asheville Business Association (WABA). There was interest in the code and some questions about the application of the ordinance. WABA was generally supportive of the changes.

Staff also reviewed the general concepts of this amendment with the East West Asheville Neighborhood Association (EWANA) at their meeting on June 14, 2017, and discussed changes to height for the HR4 Traditional district as well as the rezoning being contemplated for the same area along Haywood Road. There was some concern and questions about short term rentals as a permitted lodging use throughout the Haywood Road Form Code area.

Staff also mailed an informational letter outlining the proposed code and rezoning changes specifically in the area of Beacham's Curve in the HR4 Traditional and HR5 Live Work section to

neighbors within 200 feet of this specific area. This is the only section of Haywood Road where a rezoning is contemplated.

The Comprehensive Plan encourages denser sustainable infill development along existing corridors as a long term development plan in the city. Changes to the UDO that further these goals are encouraged along with processes that involve public participation. The Haywood Road Form Code includes mixed-use development and multimodal transportation along with a number of other community identified goals such as historic preservation, flexibility for property owners and economic health.

The proposed amendment aligns with input received from the community, design professionals and developers, while furthering the objectives of the Comprehensive Plan as noted above.

The Haywood Road Form District fits within City Council's vision for *A Well-Planned and Livable Community* and *A Thriving Local Economy.* The code provides a clear framework for reinvestment and redevelopment in an important area of the city. The code provides a greater level of clarity and predictability for both the community, property owners and developers. Lastly, the process used to develop the original code also aligns with Council's goal of a *Connected and Engaged Community,* through the high level of engagement and community outreach with property owners, business owners and residents.

The goal of the ordinance is to encourage development of a robust, mixed-use district that is transit oriented and pedestrian oriented.

Staff recommends the approval of the amendment for the Haywood Road Form Code and believes that the changes will provide a higher level of workability and flexibility in the code based on conversations with the community, developers, design professionals and other users of the ordinance since the adoption of the district in 2014. The Haywood Road Form Code amendment is reasonable and in the public interest and is consistent with the Comprehensive Plan by laying the framework for continued investment in mixed-use development, future job growth and housing.

The Planning and Zoning Commission reviewed the amendment and voted unanimously to recommend approval of the changes.

PUBLIC HEARING TO REZONE PROPERTIES FOR A SECTION OF HAYWOOD ROAD WITHIN THE HAYWOOD ROAD FORM CODE AREA FROM HR5 - LIVE WORK DISTRICT TO HR4 - TRADITIONAL DISTRICT

Assistant Planning & Urban Design Director Alan Glines said that this is the consideration of an ordinance to rezone properties for a section of Haywood Road within the Haywood Road Form Code area from HR5 - Live Work District to HR4 - Traditional District. This public hearing was advertised on September 22 and 29, 2017.

The area proposed for rezoning consists of 43 separate PINs along the north and south sides of Haywood Road closest to the French Broad River. The lots on the south side are mostly undeveloped except for several single family homes and a small restaurant. On the north side is a mix of uses including a new three-story structure and other older commercial, distribution and warehouse uses.

The parcels are zoned HR5 Live-Work and were zoned this way with the adoption of the Haywood Road Form Code on September 9th, 2014. The Haywood Road Form Code was developed with broad public engagement and a community charrette to develop the plan. The form code work came after the adoption of the Vision Plan report for Haywood Road.

During the development of the code, the consultant team was concerned about the potential limited amount of development interest along Haywood Road based on a market study that was performed. They did not want to have an unsuccessful corridor that might result if it was left with too many vacant parcels. Their recommendation was to create the HR5 Live-Work district to focus on small scale studio spaces and residential uses.

Staff has had approximately three years since the adoption of the original ordinance to study the operation of the code. Over this time staff have met with property owners, design professionals and other users of the plan to answer questions and hear concerns. Since this time the New Belgium Brewery was constructed and opened along Craven Street. In addition the River Arts District has expanded with additional energy and investment and the entire eastern end of Haywood Road is seeing a revival of new businesses and expansions of existing businesses. This area is also the location for new greenways and roadway improvements.

The HR5 Live-Work district permits a limited range of commercial activity and allows for multifamily housing. With the recent growth of activity located along Haywood Road at Beacham's curve and vicinity, the original concern that vacant underutilized parcels would reduce the economic success of the corridor seem to no longer apply.

This end of Haywood Road has recently received a lot of new investment with several eating and drinking establishments, a cider house and a brewery, a skin care company and an ice cream-making facility opening on the corridor.

HR4 Traditional allows a more complete range of commercial activities and is in place adjacent to the current rezoning request. A concurrent Haywood Road wording amendment for HR4 Traditional would permit new construction in the range of one to three stories which matches the HR5 Live-Work height allowance. The current standard for HR4 Traditional only permits two story buildings. There is a constraint unique to this section of Haywood Road to the east of Beacham's Curve in that there is insufficient space for on-street parking spaces. Any new development then, must provide for their parking needs on their own parcel which will moderate the scale of potential development.

In 2012 New Belgium Brewery was approved along Craven Street and was completed several years later. The Haywood Road Form Code was approved on September 9, 2014.

The normal process for reviewing rezoning requests is that they are considered by the Planning and Zoning Commission with a recommendation with final review by City Council.

Staff discussed the Haywood Road amendments and property rezoning at a meeting of the West Asheville Business Association (WABA) on June 6, August 31, and September 19. 2017. WABA asked questions about the operation of the code and what a zoning change would mean for the properties. Staff also attended a meeting of the East West Asheville Neighborhood Association (EWANA) on June 14, 2017, and answered questions about the rezoning and details about HR4 Traditional district. In early August 2017, staff sent an informational letter to property owners in the area of the proposed rezoning, expanding the area of coverage to the normal 200' notification buffer. Several neighbors and property owners called to get additional information.

The proposed zoning along Haywood Road to the west of the proposed zoning area is HR4 Traditional. The proposed rezoning is to HR4 Traditional from HR5 Live- Work. Surrounding neighborhood areas are zoned Residential Multifamily Medium Density District (RM8). The Haywood Road Form Code accounts for adjoining residential properties with both a planted buffer and height reductions adjacent to the residential edge. The proposed change will be compatible with the surrounding area.

There are policies throughout the *2025* Comprehensive Plan supporting the need for higher-densities and a mix of uses, where placemaking is an important goal and transit is in place to support new development. Other sections of the Plan recommend creating opportunities for economic development through higher densities while reinforcing a strong urban form that enhances the pedestrian environment.

The proposal aligns with the 2036 Council visions in the following areas: (1) *A Well-Planned and Livable Community* - through the enhanced community focused design standards that accompany the Haywood Road Form Code; (2) *Transportation and Accessibility* – due to the requirements for wider sidewalks, pedestrian-friendly design and densities to support expansion of transit; and (3) *Thriving Local Economy* - encouraging a wider mix of compatible commercial uses and opportunities for more intense development (including a higher residential density).

Considerations:

- Economic conditions in the rezoning area have changed supporting greater opportunities for investment and redevelopment
- The proposed zoning HR4 Traditional is adjacent to the rezoning area and will provide areas for community-scaled development
- Development requirements are in place to buffer residential areas from commercial impacts

Staff recommends approval of the proposed rezoning efforts to HR4 Traditional district finding that the request is reasonable and consistent with City-adopted plans and strategic goals for redevelopment in this area.

The Planning and Zoning Commission reviewed the rezoning request at their meeting on September 6, 2017, and recommended unanimous approval with a vote of 7-0.

The following is discussion both public hearings:

When Councilwoman Mayfield asked why are are not adding triplexes or quadplexes to all districts, Mr. Glines explained those are already allowed.

In response to Councilwoman Mayfield, Mr. Glines showed the Use Table and said that basically lodging is allowed along the entire corridor, except for HR-5 Live Work District.

When Councilwoman Mayfield asked about adding parking lots as a use, Mr. Glines said that the original Code requires parking for new developments, but does not allow them as a stand-alone use. There are lot of different parcels on Haywood Road, some that could be improved for parking, since parking seems to be an interim use for other development to happen.

Councilman Bothwell is interested in banning all whole house short term rentals. Perhaps there is a way to separate residential homes from the definition of other types of lodging.

Mr. Glines said we could have some form of HR-4 Traditional in the HR-5 Live Work District that does not permit the lodging use, but allow all the other uses. We currently have six district, but might end up with seven districts, and that seventh district might be what the properties would be rezoned to. He felt it would be good to keep the HR-5 Live Work District.

Mr. Glines said that with that change, it will need to be reviewed again by the Planning & Zoning Commission.

Councilwoman Mayfield asked if staff could also review banning all whole house (or unit) short term rentals for the entire corridor and that all lodging facilities 20 guest rooms or less would not be permitted by right. Mr. Glines said that he would like to see WABA weigh in on this change as well as noting the Planning & Zoning Commission would need to review the change.

Councilman Smith said that as far as future zoning changes coming forward, the more heads up Council can get about lodging uses in the zoning districts, the better. The areas where whole house short term rentals are legal, that conversation is more complicated since people have come in under the rules and are using this use. He didn't want to be punitive towards them who abided by the rules. That sounds like a more complicated conversation.

When Councilman Smith asked how we can get to zero on illegal whole house short term rentals citywide, Mayor Manheimer asked for a review on how we are staffing the enforcement and if we need to beef that up. City Manager Jackson said that regarding the enforcement update, he would provide the data that we have at the October 24, 2017, meeting.

Councilman Young said that we have many corridors in the City that are experiencing a high rate of growth. He would like to deal with short term rentals, auxiliary dwelling units and whole house rentals on a City-wide basis for some kind of continuity.

Vice-Mayor Wisler supported revisiting lodging facilities with an eye to eliminate the thresholds altogether and have all be reviewed by City Council.

Councilwoman Mayfield felt that Council is not trying to make all lodging more difficult, but they are concerned about short term rentals. She wondered if there is a way to break out short term rentals from other lodging.

Mayor Manheimer opened the public comment period at 6:34 p.m.

An adjacent property owner to the proposed rezoning area was glad Council was taking a bigger look at the short term rental issue. The East West Asheville's vision included preservation of single family neighborhoods, safe neighborhood environment , local businesses that are engaged and actively contributing to our community, etc. He did not support short term rentals in their community, especially when owners are from outside of North Carolina.

Mr. Casey Campfield spoke against whole house short term rentals City-wide, especially on the Haywood Road corridor.

Mr. Mike Collins, property owner on Haywood Road, supported rezoning the proposed property to HR-4, along with allowing short term rentals in that area.

Mr. Peter Landis felt that the same restrictions regarding whole house short term rentals should be applied to the downtown area as well. You risk downtown turning into more of a tourist area than it already is.

It was the consensus of Council to remand back to the Planning & Zoning Commission for their recommendation the creation of a new 7th zoning district for the parcels currently zoned HR-5 Live-Work that would mimic HR-4 Traditional District except that lodging facility 20 guest rooms or less would not be allowed by right.

It was the consensus of Council to direct staff to review lodging facilities 20 guest rooms or less along the entire Haywood Road corridor, with input from the West Asheville Business Association. City Attorney Currin said that that action will need to start from the very beginning.

City Attorney Currin announced that when the rezoning issue comes back to City Council, they will hold a public hearing that covers both the rezoning currently before Council now and the creation of the 7th zoning district. In addition, they will hold the public hearing on the amendment to the Haywood Road Form District as well.

D. PUBLIC HEARING TO REZONE 671 SAND HILL ROAD FROM INSTITUTIONAL DISTRICT/CONDITIONAL ZONING TO RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

ORDINANCE NO. 4617 - ORDINANCE TO REZONE 671 SAND HILL ROAD FROM INSTITUTIONAL DISTRICT/CONDITIONAL ZONING TO RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to rezone 671 Sand Hill Road from Institutional District/Conditional Zoning to RM-6 Residential Multi-Family Low Density District. This public hearing was advertised on September 22 and 29, 2017.

The applicant (Barry Bialik, agent) is requesting a rezoning of the property located at 671 Sand Hill Rd. from INST-CZ (Institutional-Conditional Zone) to RM6 (Residential Multi-family, Low Density).

The subject property is approximately 1.91 acres and currently is developed with a former church structure adaptively reused for a K-8 school. The property has frontage on Sand Hill Rd. but is accessed from a private road to the east that also serves a large apartment complex behind the school. Also included on site is a small (approximately 19 space) surface parking lot, open space and sidewalk along the private road. The property has mild to moderate topography sloping up from Sand Hill Rd.

The applicant has recently acquired additional acreage to meet the minimum lot size requirements for a school in the RM6 zoning district, and has requested to return to the original RM6 zoning so that it may have the flexibility to change its master plan and grow as resources are available.

The property was originally zoned RM6 consistent with the surrounding properties. The current owner, Classical Properties LLC, applied for a Conditional Zoning in 2013 to establish the school because the property failed to meet the two acre minimum lot size requirement for schools in a residential zoning district. The same applicant later amended the CZ in 2015 to include a new building expansion. Included in the conditional zoning amendment was a master plan and building elevations.

The purpose of the RM6 zoning district is to provide a limited range of low density multi-family housing types along with non-residential development that is "*normally required to provide the basic elements of a balanced and attractive residential area*". Schools are a use-by-right, subject-to-special-requirements in the RM6 zoning district and the property at 671 Sand Hill Rd. now complies with all special standards for the use.

The subject property is surrounded on three sides by other RM6 zoned property, most of which is developed with single family homes. To the rear of the property (north) is a moderately sized apartment complex conditionally zoned RM8-CZ in 2004 and 2007 (two phases).

The subject property does not lie within any special review areas or overlay zoning districts and does not require review by any other body. Standard rezoning requests are first reviewed by the Planning & Zoning Commission with final review performed by City Council.

The Asheville City Development Plan 2025 encourages compatible "adaptive reuse, redevelopment and infill development" and states, "areas within the existing urban fabric that are vacant should be targeted for compatible infill development that takes advantage of existing infrastructure." This property has been adaptively reused to provide a new school that helps to provide basic educational needs for Asheville's youth.

This action is most closely aligned with the 2036 Council Vision goal of *A Well-Planned and Livable Community* by providing flexibility for a basic community service (school) to grow without special requirements, as resources are available.

Considerations:

- This rezoning would return the property to its original zoning designation.
- This rezoning would allow the school to be improved and grow unencumbered by Ordinance.
- Provides greater flexibility for future uses and development.
- Proposed zoning matches the newly acquired school property.

The Planning & Zoning Commission, by a 7-0 vote, recommended approval.

Mayor Manheimer opened the public hearing at 6:50 p.m., and when no one spoke, she closed the public hearing at 6:50 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the rezoning request from Institutional-Conditional Zone(INST-CZ) to Residential Multi-family, Low Density (RM-6) to assign a zoning designation that is more compatible with the majority of the existing property and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the rezoning will (1) support smart growth goals through compatible infill development that takes advantage of existing infrastructure; and (2) removes the Ordinance attached to the property and returns it to the original zoning designation, providing more flexibility for future growth and development. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 339

E. PUBLIC HEARING TO REZONE 1568 BREVARD ROAD FROM INDUSTRIAL DISTRICT TO RM-16 6 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

Councilman Smith moved to continue this public hearing until November 28, 2017. This motion was seconded by Councilman Young and carried unanimously.

F. PUBLIC HEARING TO CONSIDER A SUBSTANTIAL AMENDMENT TO THE 2017-18 CONSOLIDATED ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME FUNDS TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT TO ALLOCATE FUNDS TO ASHEVILLE HABITAT FOR HUMANITY AND GREEN OPPORTUNITIES

RESOLUTION NO. 17-232 - RESOLUTION TO AUTHORIZE A SUBSTANTIAL AMENDMENT TO THE 2017-18 CONSOLIDATED ANNUAL ACTION PLAN

FOR COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) AND HOME FUNDS TO THE U.S. DEPT. OF HOUSING AND URBAN DEVELOPMENT

Community Development Director Heather Dillashaw said that this the public hearing to consider a resolution to authorize a substantial amendment of the City's 2017-18 Consolidated Annual Action Plan for Community Development Block Grant (CDBG) and HOME Funds to the U.S. Dept. of Housing & Urban Development to allocate $12,923 to Asheville Habitat for Humanity and $27,989 to Green Opportunities from Contingency funds. This public hearing was advertised on September 22 and 29, 2017.

City Council approved the HCD Committee's recommendation to fund $135,720 allocated to the Housing Authority in FY 2016-17 for Lee Walker Heights through another source. $171,837 in FY 2017-18 CDBG funds are currently being held in reserve. This comes to a total of $307,557. With 20% for Administration, this allows for $253,557 in funds available for reallocation.

Funds to reallocate:	
16-17 Lee Walker Heights	135,720.00
17-18 Contingency	171,837.00
Admin 17-18	(54,000.00)
Total Available	253,557.00

The 2017-18 Annual Action Plan approved by City Council and submitted to HUD for approval fully funded project applications in all categories with the exception of Public Service activities. Projects in the Public Service category are limited according to HUD regulations. Due to HUD regulations governing the dollars available for Public Service activities, this category cannot be further expanded in 2017-18 funding. All other CDBG-eligible activities qualify for the $253,557 in available funds.

Three (3) applications were received, one application was withdrawn and will be re-submitted in the next funding cycle. Asheville Habitat for Humanity is requesting $12,923 in additional Housing Services funding; Green Opportunities is requesting $27,989 in additional Economic Development funding.

After reviewing applications, hearing presentations by applicants and Board discussion, HCD recommends fully funding Asheville Habitat for Humanity's request of $12,923 for Housing Services and Green Opportunities request for $27,989 for a total of $40,912, and $54,000 in Administration to the City of Asheville. The balance of $212,645 from 16-17 and 17-18 is recommended to be held in Contingency and made available in the 2018-19 CDBG funding cycle.

Pros:

- The recommendations are consistent with the priorities in the 2015-2019 Asheville Regional Consolidated Plan for the Use of CDBG and HOME Funds.
- Additional administrative dollars support the Community & Economic Development Department's management of CDBG projects.

Con:

- None noted.

All funds being reallocated in this process are federal CDBG funds received by the City of Asheville. No City of Asheville general funds are impacted by this substantial amendment.

Staff recommends City Council adopt a resolution authorizing the City Manager to approve the proposed Substantial Amendment #1 to the 2017-18 Annual Action Plan for CDBG and HOME funds.

Mayor Manheimer opened the public hearing at 6:53 p.m. and when no one spoke, she closed the public hearing at 6:53 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilman Bothwell moved for the adoption of Resolution No. 17-232. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 162

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-233 - RESOLUTION APPOINTING MEMBERS TO THE PLANNING & ZONING COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Planning & Zoning Commission.

The terms of Jeremy Goldstein, Laura Berner Hudson and Kristy Carter, as members on the Planning & Zoning Commission, expired on August 14, 2017.

The following individuals have applied for these vacancy: Paul Harkrider, Robert Carroll, Sandra Kilgore, Carter Webb, Joe Archibald and Nick Hinton. Ms. Berner Hudson was interested in reappointment.

At the August 22, 2017, City Council meeting, it was the consensus of Council to interview: Paul Harkrider, Robert Carroll, Sandra Kilgore, Carter Webb, Joe Archibald and Laura Berner Hudson.

After Council spoke highly of the candidates, Paul Harkrider received 1 vote, Robert Carroll received no votes, Sandra Kilgore received 6 votes, Carter Webb received 2 votes, Joe Archibald received 5 votes and Laura Berner Hudson received 7 votes. Therefore, Sandra Kilgore and Joe Archibald were appointed as members to the Planning & Zoning Commission to each serve a three-year term respectively until August 14, 2020, or until their successors are appointed; and (2) Laura Berner Hudson was reappointed as a member to the Planning & Zoning Commission to serve an additional three-year term, term to expire August 14, 2020, or until her successor is appointed.

RESOLUTION BOOK NO. 39 - PAGE 163

Results of the September 25, 2017, Civil Service Board Employee Elections

One copy of the results of the Civil Service Board employee election held on September 25, 2017, is to be filed with the City Manager and one with the City Clerk, who shall present such certification to the City Council at its next regular meeting. The Board of Canvassers provided the following certified certificate on September 25, 2017: We do hereby certify, having opened, canvassed, and determined the original returns of the Civil Service Board employee election, the results of the Civil Service Board Employee Election held on September 25, 2017, noting the name of each person voted for and the number of votes cast for each person as follows: Alan Coxie - 77; Edward M. Hahn - 88; Eddie Wyatt - 1; and Alan Watts - 1.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Allison Hammond requested assistance in getting Oakland Road repaired sooner than the one year that City staff said it would take. In addition she requested sidewalks for pedestrian safety. Mayor Manheimer asked that she contact City Clerk Burleson with her contact information so staff will be able to respond.

Councilman Smith briefly updated Council on the Affordable Housing Summit.

Vice-Mayor Wisler reminded the public that early voting has started and the primary is on October 10, 2017.

Councilwoman Mayfield asked for an update on the Energy Innovation Task Force at the October 24, 2017, meeting.

Closed Session

At 7:03 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) to consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: (1) Department of Transportation vs. City of Asheville; and Fletcher Hospital, LLC; and (2) Siemens Real Estate Holdings, LLC; and Jim Siemens individually vs. City of Asheville. . The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:28 p.m., Councilman Bothwell to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:28 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – October 24, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; Acting City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Vice-Mayor Wisler led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 3, 2017

B. SECOND READING OF ORDINANCE NO. 4615 , AN ORDINANCE GRANTING A FRANCHISE AGREEMENT TO HERE TO THERE ADVENTURE FOR THE OPERATION OF A PEDAL BICYCLE TAXI SERVICE

ORDINANCE BOOK NO. 31 - PAGE 332

C. ORDINANCE NO. 4618 - BUDGET AMENDMENT FROM INSURANCE RECOVERY FUNDS TO UTILIZE TOWARDS THE PURCHASE OF A NEW BUS SHELTER

Summary: The consideration of a budget amendment in the Transit Capital Fund in the amount of $7,650 from insurance recovery funds for a bus shelter to utilize towards the purchase of a new bus shelter.

On May 25, 2017, a City of Asheville (City) bus shelter located on the north side of the Patton Ave. and Florida Ave. intersection was destroyed by a motor vehicle and the City settled the property damage claim for $7,650. The Transportation Department seeks to utilize the settlement funds toward the replacement of a new bus shelter.

Pro:

- Provides funding to offset Transportation Department costs for bus shelter replacement.

Con:

- None.

The insurance recovery funds are held in the City Property & Liability Fund. Upon City Council approval, the funds will be transferred to the City Transit Capital Fund to be utilized by the Transportation Department.

City staff recommends City Council adopt the budget amendment in the Transit Capital Fund in the amount of $7,650 for the Transportation Department to utilize.

D. RESOLUTION NO. 17-234 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH WNC ROOFING, LLC, FOR THE NORTH FORK WATER TREATMENT PLANT ROOF REPLACEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Construction Agreement with WNC Roofing, LLC, for the bid amount of $413,891.00 plus the project engineer's recommended contingency amount of $62,084.00 for a total project budget in the amount of $475,975.00 for the North Fork Water Treatment Plant Roof Replacement Project.

This is a stand alone project within the Water Treatment Plant Projects Capital Improvements suite of projects. Other projects that are to be funded at least in part by this budget are the system corrosion control study and the Mills River raw water reservoir replacement projects. Additional funds will also be necessary to complete these other projects and will be budgeted in future capital budgets.

On September 8, 2017, the Water Resources Department (WRD) issued an Advertisement for Bids for the North Fork Water Treatment Plant Roof Replacement Project. The project includes, but is not limited to, removal and replacement of the existing PVC (Polyvinyl Chloride), EPDM (Ethylene Propylene Diene Monomer), asphalt shingle, and TPO (Thermoplastic Polyolefin) roofs on the maintenance building, administration building, generator building, high service pumping building / forestry office, and filter gallery building. The project also includes the replacement of cracked clay tiles on the administration and filter gallery buildings and remediation of asbestos of various buildings.

In response to the Advertisement for Bids, the department received two bids on September 25, 2017. Companies responding were:

1. WNC Roofing, LLC – Bid: $413,891.00
2. Eskola, LLC – Bid: $631,396.80

Following a review of the bids by City Staff and the project engineers, GHD Consulting Services, WNC Roofing, LLC, was selected as the lowest responsible, responsive bidder for the bid amount of $413,891.00. The project engineer's recommended contingency amount of $62,084.00 has been added for a total project budget in the amount of $475,975.00.

Pros:

- This project will replace the existing roof, which is at the end of its useful life and weakening from moisture penetration.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- None.

The funding needed for this agreement is currently allocated within the Water Treatment Plant Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Construction Agreement with WNC Roofing, LLC, for the bid amount of $413,891.00 plus the project engineer's recommended contingency amount of $62,084.00 for a total project budget in the amount of $475,975.00 for the North Fork Water Treatment Plant Roof Replacement Project.

RESOLUTION BOOK NO. 39 - PAGE 164

E. RESOLUTION NO. 17-235 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT KEEP AMERICA BEAUTIFUL GRANT FUNDS FROM THE ASHEVILLE DOWNTOWN ASSOCIATION FOR THE PURCHASE AND INSTALLATION OF CIGARETTE WASTE RECEPTACLES IN THE DOWNTOWN AREA

ORDINANCE NO. 4619 - BUDGET AMENDMENT FOR THE PURCHASE AND INSTALLATION OF CIGARETTE BUTT RECEPTACLES IN THE DOWNTOWN AREA

Summary: The consideration of a resolution authorizing the City Manager to accept Keep America Beautiful grant funds from the Asheville Downtown Association (ADA) for the purchase and installation of cigarette waste receptacles in the downtown area; and a budget amendment in the amount of $8,000 in the General Fund to budget the grant.

The City of Asheville has partnered with the Asheville Downtown Association (ADA) in order to implement a cigarette litter prevention program for downtown Asheville. The ADA was the recipient of a Keep America Beautiful Cigarette Litter Prevention grant in the amount of $10,000, and has partnered with the City of Asheville to install new cigarette waste receptacles throughout downtown. 20-30% Of the awarded amount is required to be spent on messaging and signage, with at least 50% of the funds to be used for the purchase of receptacles. The actual dollar amount spent by the ADA on messaging and signage was $2,000, which leaves $8,000 for the purchase of receptacles.

The City of Asheville Sanitation Division already planned to purchase new cigarette waste receptacles and install them on each of the downtown waste stations that did not already have them. The City was concurrently approached by the ADA with the proposal to contribute to the cost of the new receptacles based on the availability of grant funds. In June of this year, the Sanitation Division purchased and installed 120 new cigarette waste receptacles for a total cost of $10,680. The purchase price was funded through the Sanitation operations budget, with the expectation that $8,000 would be reimbursed by the ADA when the project was complete.

All receptacles have now been installed, and are in use currently.

Pros:

- Supports service enhancements downtown
- Utilizes partnerships and grant funds to support operations

Con:

- None noted

The total cost of the receptacle purchase was $10,680 with the grant covering $8,000, or 75% of the cost. The remaining expense was funded through the Fiscal Year 2017 Sanitation Division operating budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to accept $8,000 in grant monies from the ADA; and a budget amendment in the amount of $8,000 in the General Fund.

RESOLUTION BOOK NO. 39 - PAGE 165
ORDINANCE BOOK NO. 31 - PAGE 344

F. RESOLUTION NO. 17-236 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE EXISTING CONTRACT WITH THE WOOTEN COMPANY FOR THE DESIGN AND BIDDING/CONSTRUCTION SERVICES NECESSARY FOR THE CITY HALL ELEVATOR AUTOMATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to amend the existing contract with The Wooten Company for the design & bidding/construction services necessary for the City Hall Elevator Automation Project.

The City Hall Elevator Automation Project requires design and bidding/construction phase services to get underway. This is an important project as it needs to balance preservation of historic elements with modernization of the elevator mechanicals as these 90-year-old units have exceeded their anticipated life cycle. Therefore, the first step is to retain a qualified firm to perform professional project-related services starting with planning and design through the bidding and construction phases.

The Transportation Department previously procured elevator design and bidding/construction services via a Request for Qualifications (RFQ) process, which yielded Contract # 91600198 with The Wooten Company. This contract is currently active as the Transportation Department undertakes work on elevators in multiple parking structures, and the consultant's work performed to date under this contract has been excellent. With an active contract in place originally solicited to perform these same services, the proposed approach for the City Hall Automation Project is to execute a contract amendment adding this project to the work already being done by the consultant.

Pros:

- Allows design work to proceed on the City Hall Elevator Automation Project previously authorized in the CIP;
- Multi-disciplinary team includes architecture, engineering, and elevator specialists as needed to take this project from start to finish; and
- Flexible delivery of services that will allow the City to authorize work on a phase-by-phase basis that provides cost estimates and decision support at each step.

Con:

- None identified.

Initial project funding of $200,000 was approved by City Council in the Capital Improvement Program (CIP Project B1402), and the proposed contract expenditures are within the existing budget. Once design is complete, staff will return to Council with the construction contract. It is anticipated that existing Facility Improvement CIP allocations and funding set aside in the Infrastructure Reserve in FY2016 will be sufficient to cover the construction costs for this project.

Staff recommends City Council adopt a resolution authorizing the City Manager to amend the existing contract with The Wooten Company for the design & bidding/construction services necessary for the City Hall Elevator Automation Project in the amount of $92,500.00.

RESOLUTION BOOK NO. 39 - PAGE 166

G. RESOLUTION NO. 17-237 - RESOLUTION PROPOSING TO APPROVE A LICENSE AGREEMENT WITH T-MOBILE SOUTH, LLC, FOR ANTENNAS AND RELATED EQUIPMENT AT 130 RESERVOIR ROAD, DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LICENSE AGREEMENT IF NO ALTERNATIVE BIDS ARE RECEIVED

Summary: The consideration of a resolution proposing to approve a license agreement with T-Mobile South, LLC for antennas and related ground equipment at 130 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

The property at 130 Reservoir Road known as White Fawn Reservoir is on a knoll at the western end of the Beaucatcher Mountain ridge. It has exceptional range for telecommunications with approximately 300° coverage from northeast to west to southeast. Two telecommunication towers are located on the property and the City maintains an array of public safety communications equipment on both towers. City of Asheville licenses unoccupied antenna space and adjacent ground space to private cellular carriers.

The City of Asheville is in the process of replacing one of the public safety communications towers on White Fawn Reservoir Site, with AT&T, an existing tenant, performing the work as part of a long-term license agreement with the City. The Lower White Fawn Tower stands at 180 feet and is visible to the southeast of City Hall. As a result of new construction standards, the current structure is being replaced with an upgraded tower to continue providing service to the region. The replacement tower will stand the same height of 180 feet with its base immediately adjacent to the existing tower. When construction is completed and all radio equipment has been moved to the new tower, the old tower will be completely removed. During construction, the old and new towers will be visible on the skyline for 90 to 120 days as the project moves to completion.

Earlier this year, the City provided a notice of termination to T-Mobile South, LLC, an existing tenant on the old tower. T-Mobile's existing license agreement was set to expire in December 2018, and as the tower replacement project began, it was necessary to provide T-Mobile with a notice of termination in order to plan for the removal of the old tower. Simultaneously, the City offered a new license agreement proposal for T-Mobile that allows for an uninterrupted transition to the new tower. T-Mobile has accepted the proposed license agreement based upon the following terms:

- Term: Up to 15 years (structured as three 5-year terms.)
- Rental: Rent is offered at the established fair market value of $37,500 per year with annual increases of 3% per year.
- The City has verified that this rate is consistent with municipal tower rates across North Carolina and is considered fair market value.

Since the license agreement proposal is for a total period longer than ten (10) years, the North Carolina General Statutes state that Council may authorize a lease longer than ten (10) years, but to do so the lease must be administered as a sale in that the process must include an upset bid process or other competitive bid process.

If City Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset

the current bid of $37,500 per year at 3% annual increases over a fifteen (15) year term. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder. As set forth in the resolution, if no qualifying upset bids are received, then City Council agrees to further authorize the City Manager to execute the license agreement with T-Mobile South LLC.

Pros:

- Fair market value license agreement.
- Long-term commitment from T-Mobile will secure a future revenue stream for the City.

Con:

- None noted.

License fee revenue is budgeted in the City's General Fund Operating budget. The revenue for the existing license agreement is programmed in the FY 2018 budget and revenue from the new license agreement will be continued in the annual operating budget for FY 2019.

Staff recommends City Council adopt the following resolution proposing to approve a license agreement with T-Mobile South, LLC for antennas and ground equipment at 130 Reservoir Road, directing the City Clerk to advertise for upset bids, and authorizing the City Manager to execute the license agreement if no alternate bids are received.

RESOLUTION BOOK NO. 39 - PAGE 167

H. RESOLUTION NO. 17-238 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION CONTRACT WITH GRAHAM COUNTY LAND COMPANY, LLC, FOR RENOVATION OF THE LAWN BOWLING COURT AT CARRIER PARK

Summary: The consideration of a resolution authorizing the City Manager to enter into a construction contract for renovation of the Lawn Bowling Court at Carrier Park, with Graham County Land Company, LLC in the amount of $447,000 plus a contingency of $19,727 for a total of $466,727.

Carrier Park is one of the City of Asheville's most popular recreation facilities and home to the "Green," a lawn bowling pitch used for recreational and competition play. After extensive review and analysis of the playing surface, it has been determined that the existing surface has exceeded its useful life resulting in higher than normal maintenance needs and conditions which affect playability for community use. The goal of the project is to replace the synthetic artificial turf surface, resize the court to meet regulation play standards, and replace the supporting site components because they have also reached the end of their service life-cycle.

The project has been designed to improve the surface, site drainage, and earthwork that reflects the park setting. Project improvements include new synthetic artificial turf, accessible sidewalk, storm drainage, signage, and general site renovations.

Tentative Project Timeline
Construction Begin February 2018 - April 2018

In support of this capital improvement project, the City issued an Advertisement for Bids for construction. As of the bid opening date on September 17, 2017, the City received one bid making Graham County Land Company, LLC located in Robbinsville, North Carolina the lowest, responsive, responsible bidder with a base bid of $447,000.00.

Pros:

- Improves the safety and functionality of the Carrier Park lawn bowling green for park users by replacing and expanding the current field.
- Improvements will occur during the spring prior to a planned tournament event by the Asheville Lawn Bowling Club.

Con:

- The Carrier Park lawn bowling green and portions of the adjacent field will be partially closed during renovations since the majority of work is scheduled to take place during the spring. Any closure will be advertised and coordinated with general park users, Parks & Recreation programming and Outdoor Special Events Coordinator.

Funding to cover the full cost of the contract is included in the FY 2017-18 Capital Improvement Program utilizing approved cash flow and funding from the FY 2017-18 Parks and Recreation Department annual CIP allocation for synthetic artificial turf surface replacement. The City has established an ongoing annual CIP contribution of $250,000 for turf replacement projects throughout the City. Funding for the Lawn Bowling Project is coming from this annual allocation.

Staff recommends the consideration of a resolution authorizing the City Manager to enter into a construction contract for renovation of the lawn bowling green at Carrier Park, with Graham County Land Company, LLC in the amount of $447,000 plus a contingency of $19,727 for a total of $466,727 and to execute any change orders to contract or documents which may arise during construction of project within the approved budget.

Mr. Bill Stoermer, President of the Asheville Lawn Bowling Club, spoke in support of the resolution, along with other members of the Club.

RESOLUTION BOOK NO. 39 - PAGE 168

I. RESOLUTION NO. 17-239 - RESOLUTION RENAMING THE MONTFORD RECREATION CENTER TO THE TEMPIE AVERY MONTFORD CENTER AND TO ACCEPT THE DONATION OF A HISTORICAL PLAQUE TO BE PLACED ON THE SITE TO HONOR THE CONTRIBUTIONS OF TEMPIE AVERY

Summary: The consideration of a resolution to rename the Montford Recreation Center to the Tempie Avery Montford Center, a prominent African-American nurse and midwife who lived on the site of the Montford Recreation Center, and to accept the donation of a historical plaque to be placed on site to honor the contributions of Tempie Avery.

The City of Asheville received a request from community member Cathryn McLeod, and Martha Warren, a descendant of Tempie Avery, to rename the Montford Recreation Center to the Tempie Avery Montford Center, and to donate a historical plaque to be located on site.

Tempie Avery was a well-known and respected community member in both black and white communities in Asheville. She was a former slave of the Nicholas Woodfin family. After her emancipation, Avery worked as a nurse and midwife in both the black and white communities of Asheville. Avery was conveyed a plot of land at 34 Pearson Drive by the Woodfin family and resided there until her death in 1917. The present day Montford Recreation Center is located where her house was once located.

Ms. McLeod has followed the City's policy on public naming and pursuant to the policy, on October 2, 2017, City Council made an announcement of the request and solicited input from surrounding property owners, residents, affected parties and other City officials or anyone else who can contribute meaningful input.

Ms. McLeod presented the renaming proposal to the Historic Resources Commission on August 9, 2017, African American Heritage Commission on August 11, 2017, and Recreation Board on September 11, 2017. The proposal received support from all three of the boards and commissions. The Recreation Board recommended the name be the Tempie Avery Montford Community Center as a means to retain the association to the Montford area.

The proposal was presented to the Montford Neighborhood Association on September 13, 2017, and received unanimous support.

At the City Council meeting held on October 3, 2017, the name requested as the "Tempie Avery Community Center"; however, since that time all parties have agreed, along with the review boards, to rename the center to the "Tempie Avery Montford Center."

The cost to the City to support the renaming of the Montford Recreation Center to the Tempie Avery Community Center is $8,000 to $10,000 for the identification sign. The funds to support the cost is budgeted in the City's Capital Improvement Program for the Parks and Recreation Department. There is no cost associated with the historical plaque since it will be donated to the City.

The Historic Resources Commission and the African American Heritage Commission recommends renaming the Montford Recreation Center to the Tempie Avery Montford Center, and to place a historical plaque on-site to honor Tempie Avery. The Recreation Board recommends the renaming of Montford Recreation Center to the Tempie Avery Montford Community Center, and to place a historical plaque on-site to honor Tempie Avery.

Ms. Cathryn McLeod spoke in support of the Tempie Avery Montford Center.

Councilman Young thanked Ms. McLeod for her work on this and was pleased the City will be recognizing Ms. Avery.

RESOLUTION BOOK NO. 39 - PAGE 169

J. RESOLUTION NO. 17-240 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT WICKED WEED FESTIVAL OF ARTISTRY

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Wicked Weed Festival of Artistry.

- Open Hearts Art Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Wicked Weed Festival of Artistry and allow for consumption at this event.

  The Wicked Weed Festival of Artistry will be held on Saturday, November 4, 2017 from 12:00 p.m. to 6:00 p.m. within the boundaries of Coxe Avenue as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Open Heart Art Center

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the Wicked Weed Festival of Artistry.

RESOLUTION BOOK NO. 39 - PAGE 170

K. RESOLUTION NO. 17-241 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR A NEW BELGIUM BIKE INFRASTRUCTURE GRANT, AND IF AWARDED, ENTER INTO SAID GRANT AGREEMENT

Summary: The consideration of a resolution authorizing the City Manager to apply for funds from New Belgium Brewing Company's Bike Infrastructure grant in the amount of $5,000 to pay for materials for trail construction by Green Opportunities on the Town Branch Greenway Corridor and to accept the grant if awarded.

Green Opportunities approached the City with the desire to build a gravel fines trail on the Town Branch Greenway Corridor. The labor for this project will be provided by students of the Green Opportunities landscape program. The trail will measure 6' wide and approximately 1000' long. It will begin at Depot Street on city-owned property with PINs 9648-14-0398-00000 and 9648-14-5341-00000. It will then travel east through said property, ending at South French Broad Avenue.

Green Opportunities will build the trail and maintain it in accordance with the Agreement. The trail project will be overseen by staff of the Parks Maintenance Department. The Parks Maintenance Division will oversee the project and ensure the maintenance is to our standards. And ultimately, in the event Green Opportunities is unable to maintain the trail to City standards, the Parks Department will take up the maintenance of the site.

The project cost for this trail is $7,400, including construction materials (gravel, gravel fines, landscape fabric), permit costs and contingency. The majority of the labor will be provided by Green Opportunities staff and students at no charge. The City's Park Maintenance Department will oversee the construction to ensure the work is done in accordance with City standards and will assist in the class instruction of the trail construction. Any work with heavy equipment will be handled by the City. The approximate number of labor hours needed from the Parks Maintenance Department is 72 hours.

City staff applied for this grant through New Belgium Brewing Company's bike infrastructure funds in the amount of $5,000, which is the maximum amount an applicant can request. Staff discovered that the grant application was due August 30th, prior to the Finance Committee meeting hence staff already submitted the application. If chosen, New Belgium will announce the award and the funds will be available within 90 days. If New Belgium does not award the grant to the City, the construction materials will be paid with funds from the Transportation Department current operating fund. City staff is now in negotiations with Green Opportunities about the Agreement and we expect work to begin work this winter. If the City is awarded the grant, we will come back to City Council in order to budget the funds.

The Finance Committee reviewed this item on October 3, 2017, and unanimously recommended that it move forward to City Council for review and approval.

Pros:

- This project will provide a unique opportunity for Green Opportunities' students to learn trail building skills as a part of their curriculum
- The interim trail will provide public access to a portion of the Town Branch Greenway

- This project will provide community members who do not understand the advantages of a neighborhood greenway a "preview" of what the permanent greenway will be like

Cons:

- There will be a fiscal impact to the Transportation Planning Division
- The Parks Department will need to provide labor hours and oversight of the project
- In the long term, the Parks Department Maintenance budget will be impacted

The total cost for this project will be $7,400. If the $5,000 grant is awarded, the amount the City will pay is $2,400. If the grant is not awarded, the total amount will be paid for by the Transportation Department's current operating fund. Additionally, the long-term maintenance costs in future years will impact the Parks Department Maintenance budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for funds from New Belgium Brewing Company's Bike Infrastructure Grant in the amount of $5,000 to pay for materials for trail construction by Green Opportunities on the Town Branch Greenway Corridor.

RESOLUTION BOOK NO. 39 - PAGE 173

L. RESOLUTION NO. 17-242 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR FUNDING FROM THE N.C. DEPT. OF TRANSPORTATION FISCAL YEAR 2017-18 URBAN STATE MATCH PROGRAM, AND IF AWARDED, ENTER INTO SAID AGREEMENT

Summary: The consideration of a resolution authorizing the City Manager to apply for funding from the N.C. Dept. of Transportation FY 2017-18 Urban State Match Program, and if awarded, enter into said agreement.

The North Carolina Department of Transportation - Public Transportation Division is soliciting requests for Urban State Match Funding to be applied as a match to Federally-funded facility or vehicle projects. Transportation Department staff have identified a much needed project to completely renovate the Transit Center, located between Asheland Avenue and Coxe Avenue in the Central Business District. This project, identified as the "Transit Station Renovation", currently has $750,000 in City Funds committed to it as well as Federal Transit Administration (FTA) FY 2013-14 Section 5339 funds in the amount of $213,911 for a total project budget in the amount of $964,000.

On July 25th, 2017, City Council authorized the City Manager to accept the Section 5339 formula funds to be used for this project. The current opportunity for Urban State Match funding would free up the local city contribution by up to 10% of the project's total cost. Since the project is budgeted at $964,000, this opportunity would free up $96,400. In other words, this grant would reduce the city's financial burden in the capital project from $750,000 to $653,600.

Pros:

- If awarded, funding would free up $96,400 of city general funds for another purpose
- Funding is provided by NCDOT as a 10% to a city capital project

Con:

- The city share in the project would total $653,600.

The total project cost of $964,000 will be supported with $213,911 from the FTA. If awarded, Asheville's local match for the project would be reduced from $750,000 to $653,600.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for funding from the N.C. Dept. of Transportation for the FY 2017-18 Urban State Match Program.

RESOLUTION BOOK NO. 39 - PAGE 174

M. RESOLUTION NO. 17-243- RESOLUTION AUTHORIZING AN ACTING CITY MANAGER TO SERVE DURING THE CITY MANAGER'S TEMPORARY ABSENCE OR DISABILITY

Summary: Pursuant to N.C. Gen. Stat. § 160A-149, the City Manager has the authority to designate, subject to the approval of the City Council, a qualified person to exercise the powers and to perform the duties of the City Manager during his temporary absence or disability. It is necessary for an Acting City Manager to be designated during the times that the City Manager is absent or otherwise unable to perform his duties, in order to effectively conduct the business of the City. The City Manager, Gary Jackson, has prepared a letter, pursuant to N.C. Gen. Stat. § 160A-149, which has been filed with the City Clerk, which designates and authorizes Assistant City Manager Cathy Ball to exercise the powers and perform the duties of the City Manager at any time during his temporary absence or disability.

The City Council hereby approves the letter of City Manager Gary Jackson and the designation of Assistant City Manager Cathy Ball to exercise the powers and to perform any and all duties of the City Manager during his temporary absence or disability.

The duties of City Manager should be transferred to Assistant City Manager Ball upon prior written notice to the City Clerk and City Council by the City Manager, and should terminate upon the City Manager's return or his disability ceases, unless Council takes action during the City Manager's absence to revoke this designation and appoint another Acting City Manager.

RESOLUTION BOOK NO. 39 - PAGE 175

N. RESOLUTION NO. 17-244 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ENTER INTO AN AGREEMENT WITH BLOOMBERG PHILANTHROPIES FOR THE 2017 MAYOR'S CHALLENGE

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into an agreement with the Bloomberg Philanthropies 2017 Mayor's Challenge.

On September 6, the City of Asheville was invited by Bloomberg Philanthropies to participate in an "idea accelerator workshop" for the 2017 Mayor's Challenge. City staff from several departments participated, as well as a number of citizens from the City's existing partnerships. Ideas were discussed with community partners, with convergence upon an idea to improve the following situation: The proportion of public and private contracts in the Asheville area that go to minority-owned businesses is significantly lower than their demographic representation.

Funds received will be used to work with community partners to embark upon a community-centered, data-driven, scientific method approach to address this challenge. Measurement and open reporting of outputs, outcomes, and actual impacts upon the stated problem will be an integral part of the effort.

Pros:

- Community-driven approach to an acknowledged equity problem
- Data-driven and scientific method approach to a problem
- Aligns well with where City of Asheville staff efforts are already focused

- No matching funds required

Con:

- Some staff efforts are needed

There is no local match required.

Staff recommends City Council adopt a resolution authorizing the City Manager to authorized to apply for and enter into an agreement with the Bloomberg Philanthropies 2017 Mayor's Challenge.

Mr. Scott Barnwell, Business and Public Technology Manager, explained how the City worked with a number of community organizations and felt this was a real community-centered approach.

RESOLUTION BOOK NO. 39 - PAGE 177

Vice-Mayor Wisler said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Bothwell moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. OVERSIGHT OF COUNCIL APPOINTEES

Vice-Mayor Wisler said that Human Resources Director Peggy Rowe provided this report to the Governance Committee earlier today and they felt it might be good for the full Council to hear it.

Ms. Rowe said that (1) the City of Asheville does not have early retirement incentives; (2) the City of Asheville does not have retention bonuses; (3) general increases for employees including Council direct reports are approved during the budget process; (4) other adjustments for City Manager, City Attorney and City Clerk must be initiated by the Council; and (5) Council has a contract with the City Manager and the City Attorney. The City Manager's contract specifically addresses salary and benefits, performance evaluations, and travel. The City Attorney's contract specifically addresses annual review of compensation, travel and professional development, and performance evaluation.

She said that for the 5-year salary history of the City Manager, City Attorney and City Clerk, they have not received any increases, other than the same increase as all other City employees.

Ms. Rowe then explained the City's quality of service awards, which the City Manager, City Attorney, City Clerk or Department Directors are not eligible to receive. The awards have three levels (1) Level I - Requests for recognition items of less than or equal to $20.00 in value shall be submitted in writing to the employee's department director; (2) Level II - Requests for monetary awards of between $20.00 and $250.00 shall be submitted in writing to the employee's department director and the Human Resources Department; and (3) Level III - Requests for monetary awards more than $250.00 in net value will be submitted to the employee's department head, routed to Human Resources Director and then to the City Manager.

Ms. Rowe then briefly reviewed the City's Nepotism Policy, noting that this policy has been in place for many years.

B. FINANCE COMMITTEE RECOMMENDATION TO FORM AN ASTON PARK TENNIS CENTER TASK FORCE

Director of Parks & Recreation Roderick Simmons said that the Aston Park Tennis Center has a long history of serving the residents of Asheville. It is a jewel in the center of the city that provides important recreational opportunities to the residents of Asheville as well as visitors to the area. The Aston Park Tennis Center as a landmark to healthy living, engaged citizenry and economic impact.

During the 2014-15 fiscal year, City staff was asked to develop an RFP for the operation of the Aston Park Tennis Center with the goal of reducing the operating subsidy for the Tennis Center and developing a funding plan for capital investment. The City received one response to the RFP and the proposal was evaluated by management and staff. The proposal would not have reduced the City's subsidy of the Center as was rejected.

Additionally, Finance Department staff was asked to review the Aston Park Tennis Center Operations and to develop business plan options for consideration. The options included a plan to provide maintenance only and eliminate all fees and revenue generating activities. Another option explored a four-year stepped fee increase along with additional revenue generating strategies.

Staff worked with members of the tennis community to develop a focus group to discuss ideas and make recommendations that would reduce the city subsidy. The focus group considered and referenced the Aston Park Tennis Business Plan Options prepared by the City of Asheville Finance Department for the City Council Finance Committee staff report dated May 27, 2014.

Focus Group: As part of the public process the focus group was responsible for consolidating and evaluating the public comment to discern what best represented overall feedback from the tennis community. It was important for the focus group recommendations to reflect the public comments given at the two community meetings, the online portal and feedback received through email.

The focus group task was to process information provided during the public comment period and provide business plan options and a recommendation to City Council Finance Committee on the following:

1. Fee increase and expense reduction over a two-year period to reduce the city subsidy to the Aston Park Tennis Center which included an incremental increase in fees over a 3- year and 4-year period

2. Tennis Center management, revenue and cost saving opportunities, and general operations

3. Tennis Center maintenance

The Focus Group Members were: Ashley Arrington, Chris Barcklow, Sallie Bissell, Elaine Blanton, Dan Costant, Susan Eggerton, Lucy Keil, Paul Kelman, Ginger McLeod, Renate Rikkers, Marty Ruatto, Christian Theodossiou and Tom Youngblood. Staff Liaisons were: Mark Halstead, Debbie Ivester and Laura Loftis.

We are approaching the 3rd year of the business plan and based on the public comments at the October 3, 2017, Finance Committee meeting. This would be an opportune time to evaluate the progress of the 2014 business plan.

He recommended using a stakeholder and focus group model because it allows citizens and user group of the facility to provide feedback and the opportunity to help the facility continue to meet the needs of all citizens.

Process for evaluation of the 2014 Business Plan:

A. Staff shall reconvene the original focus group (as members are available and interested in participating) and offer the opportunity for new citizens and stakeholder groups to join.

B. Staff and focus group develop a process for public review and comments on the current business plan.

C. The focus group will use the information from public comment to review and evaluate the current business plan and make recommendations to the Parks and Recreation Advisory Board.

Given the City's focus on viewing all processes and programs through an equity lens, he recommended that we include Kimberlee Archie or someone acting on behalf of the Equity Office to ensure that the both the process is conducted and the final decision is made with equity in mind.

He recommended Council allow the focus group 60-90 days to complete the evaluation of the business plan. He will assign Program Managers Dee Black and Sandra Travis to be the project leads for the review process and they will coordinate with internal and external stakeholders.

List of Stakeholders

- Aston Tennis Center Pass Holders
- Asheville Tennis Association
- Coed Senior Tennis Group
- Women's Senior Tennis Group
- Weekend Mixed Doubles Group
- US Tennis Association League Tennis
- Asheville Middle School Tennis Team
- Asheville Catholic School Tennis Team
- General Aston Tennis Center Users
- West End Clingman Neighborhood Association
- South French Broad Neighborhood Association
- Any member of the public who has specifically contacted the City of Asheville regarding the recent consideration of fees and operations of the Tennis Center

The following is a recommendation for improving the Aston Tennis Center provided by Mr. Randy Talley and Mr. Lewis Isaac:

"Over the last several months our Aston Tennis Center Study Group has been assessing conditions at the Center and discussing a process for rejuvenating the Aston Tennis Center

program. As you are aware, the tennis community has been voicing concern for years about the Aston Tennis Center, and we note that conditions at the Center are not improving- only deteriorating.

We have a vision for the Asheville Tennis Center. In 3-5 years we would like for the Aston Tennis Center to have the following characteristics:

- Be a vibrant, thriving, highly respected City entity
- Be well-managed as a Tennis Center with a full schedule of play, leagues, lessons and events for all ages and abilities
- That the facility is well-maintained and recognized by tennis players as 'one of the best'
- Be recognized for teaching tennis, with more youth, and particularly 'at risk' youth participating
- Hosts events, generates income, and brings visitor dollars to our local economy
- Be a participating leader and partner with neighboring and local tennis groups
- Be recognized as a destination for tennis players and fans around the Atlantic and Southeast region
- Utilizes sound marketing and business practices
- That the City and citizens are satisfied with the Tennis Center, and the City receives due-credit for restoring this iconic venue
- And that Aston is branded as a community gathering place for all citizens to mix and get to know each other through the game of tennis

Existing Issues Needing Addressing:

- Full-potential is not being met (services, leagues, events, youth & 'at-risk' lessons, teaching, etc.)
- Not run as a tennis center; not using best practices from around the country
- Facilities in decline
- Membership and reputation declining
- City losing money- putting in $125,000+ a year for a business model that is outdated and not working
- Parking is becoming a problem, and soon to become more so
- Courts inefficiently watered- study other systems (Hydro Systems, etc.)
- Aston not a leader in coordinating with other tennis centers
- Zero marketing- that we can tell
- Poor collaboration with neighboring entities (United Way, YWCA, Housing Authority residences, Asheville Middle School, etc.)

Our understanding is that City Staff have been tasked with developing new options for managing Aston Tennis Center. Our request and recommendation is that the ***City authorize the formation of a task force to work with City Staff and conduct research based on specific questions of other public clay courts in comparable cities and to present this information and recommendation by year-end 2017.*** From this research and answering these questions, the task force will offer recommendations to City Council for ways to improve tennis at Aston and for structuring a long-term solution that will lead to a successful Aston Tennis Center, as outlined above. Our suggestion is that the task force receives staffing and research support from Parks & Recreation staff. We are pleased to submit separately a list of qualified individuals who could serve on the task force.

We recommend the task force consist of ten (10) members* representing the following:

- 1 Asheville Tennis Association- Tracy Whitehouse
- 1 USTA (United States Tennis Association)- Sara Naff-Mlo

- 1 Chamber of Commerce- Randy Talley
- 1 Asheville Sports Commission- Kathy Hurley
- 1 YMCA- Wilson Sims
- 1 YWCA- Kimberly Kneier
- 1 Aston neighborhood- Lewis Isaac
- 3 At-Large- Christian Theodossiou
  Renate Rikkers
  Charles Carter

*This is currently a draft list, and we are in process of firming up!

We are encouraged that the City has been progressive in its consideration of management for other entities, most notably the Municipal Golf Course.

Aston Tennis Center Study Group members
Randy Talley , Lewis Isaac
Charles Carter, Christian Theodossiou
Kimberly Kneier, Kathy Hurley
Renate Rikkers, Wilson Sims

Questions the Task Force's Research can Address:

- How have comparable cities achieved success with their public clay courts?
- What are specific indications of success with comparable clay courts?
  - Good cost and revenue model between city and contracting management entity
  - Strength of leagues
  - Level of adult play and ease of integrating new people
  - Role of teaching pros
  - Role of youth programs, both introduction and development
  - Number and type of tournaments each year
  - Level of coordination with other centers, tennis groups around the state
  - Significance of marketing skillsets and promotion capabilities
  - Ability to host events and generate visitor dollars
  - Degree to which it is a destination
  - Degree to which it is a meeting place for all citizens to mix and get to know each other through the game of tennis
  - How does the management group makes its revenue numbers ?
  - Type of community support for the management group
  - Where there are annual passes, how much do they cost and what are the associated benefits? What percentage of business is from passholders?"

Councilwoman Mayfield said that Mr. Simmons' recommendation and the Aston Tennis Center Study Group's recommendations are similar. She recommended Council adopt the recommendation process outlined by Mr. Simmons, with the addition of interested Study Group members on the Task Force and with the evaluation of the business plan to include some of the research questions outlined by the Study Group.

Mr. Simmons said that he would be happy to use the stakeholder and focus group model and encouraged interested individuals to contact him for inclusion in the group, noting that several of the research questions raised by the Study Group were used in the 2014 focus group process .

C. UPDATE ON THE ENERGY INNOVATION TASK FORCE

Councilwoman Mayfield said that this is a request to allocate additional city resources to implement the Energy Innovation Task Force's (EITF) recommendation for a community campaign to improve energy efficiency, reduce energy use, and move toward meeting the EITF's goals.

The City of Asheville, Buncombe County and Duke Energy jointly created the EITF in April 2016 as a collaborative, community effort to achieve two goals:

1. Avoid or delay building a 190-MW natural gas, peaking unit anticipated to be needed in the early 2020's, and
2. Create a clean energy future in Western North Carolina.

As a first step toward achieving these goals, Council approved $202,500 as part of this year's budget process to fund the following initial EITF recommendations:

Project	Approved Funding
Implement education and training for City staff, building professionals, HVAC contractors, building owners and the general public.	$25,000
Pursue opportunities for renewable energy and storage installations on City Facilities and properties.	$25,000
Encourage voluntary, quantifiable efficiency retrofits in privately owned commercial buildings (Better Buildings Challenge as extension of existing Workplace Challenge).	$25,000
Promote program offerings from EITF with City employees via education, outreach and support/remove barriers.	$2,500
Comprehensive Energy Audit for all City Owned Facilities	$75,000
Support ongoing engagement of Rocky Mountain Institute in analysis of programs and creation of EITF 2-year Action Plan	$50,000
Total	**$202,500**

In addition to these investments, Council indicated support for funding a low income weatherization program. The City subsequently joined with Buncombe County in applying for a $300,000, 2-year grant from the Kendeda Fund for this purpose. *The grant has been conditionally awarded, with one condition being the need for the City and County to indicate this project will not just be a short-term demonstration project but is viewed as one piece of a long-term commitment to reducing energy use that will continue beyond the scope of this grant. We are not being asked to commit specific funds for this specific program beyond two years, but simply an indication that our partnership through the EITF is a long term effort that will likely continue until we reach our goals.*

As indicated during the budget discussions, these investments by the city were intended to be the first step in the development and implementation of a longer work plan and campaign. The EITF is near the culmination of its 18 months of work and has developed and approved a branded, community campaign to improve energy efficiency, reduce energy use, and move us toward our larger goals. This campaign, called the ***Blue Horizons Project***, will be a coordinated

marketing campaign that will ask residential and business customers to take specific actions to help achieve our goals. The specific recommended actions will change over time in order to keep customers engaged and offer more options for action, but the campaign's initial focus will be on the following:

1. *Residential:* sign up for Duke Energy's EnergyWise program that allows Duke Energy to cycle off hot water heaters and HVAC systems for brief periods of time to reduce peak energy use. Customers typically never notice when this happens, and they receive an annual credit from Duke for enrolling in this program.

2. *Low income customers*: sign up for weatherization through the new City/County program or through Duke Energy's Neighborhood Energy Saver program that can target 1000-3000 homes in a single city per year. Duke has committed to bring the program back to Asheville in 2018.

3. *Business:* sign up for Duke Energy's Small Business Energy Saver program and EnergyWise Business. The Small Business Energy Saver program pays an average of 60% of the cost of energy efficiency upgrades.

4. *Other:* encourage residents to support and participate in other community efforts such as Energy Savers Network (volunteers doing low income weatherization) and Cool Communities (neighborhood groups working through an energy efficiency workbook).

Success in each of these areas has the potential to generate significant savings in peak energy use and energy use overall. The EITF continues to identify specific goals for the number of new program subscriptions and energy savings that we expect to achieve through this effort.

While this campaign relies heavily on Duke Energy's programs, implementation of the campaign must be the responsibility of the EITF convening partners and members. The key to the campaign's success will be the sense of collective, community responsibility it will generate and the need for everyone to participate if we are to reach our goals. It will not likely be successful if the public perceives it to be solely a Duke Energy marketing effort.

To that end, the EITF leadership has identified opportunities for each of the convening partners to contribute additional resources. Most of the items on the list are staff time, but each partner is also being asked to contribute $25,000 to support marketing for the campaign as well as the salary and expenses of a part-time campaign coordinator to manage the many moving pieces of the campaign over the next 12-18 months. Now that the EITF is moving out of planning and into implementation, there is a need for centralized coordination of outreach, communications, marketing, community partners, projects, website maintenance, tracking metrics of success, and fundraising. The EITF leadership envisions this coordinator would be housed at the Green Built Alliance.

Generally, the convening partners are being asked to commit the following <u>*additional resources*</u>:

Duke
- ensure its programs are sufficiently staffed to accommodate the anticipated increase in program subscriptions
- provide staff to attend and lead outreach sessions for different small business sectors
- provide staff support to research targeted customer sectors

- bring Neighborhood Energy Savers back to Asheville and coordinate with local partners
- coordinate with convening partners on campaign launch, marketing, and outreach and explore use of existing marketing dollars to support the campaign
- seek to improve existing programs and for opportunities to launch pilot programs in the future
- seek funding for the campaign coordinator and associated marketing/outreach efforts

City/County

- staff time to work together and with Duke to organize the public launch of the campaign at a media event in January.
- staff time to help implement the communications plan, which will consist mainly of regular, ongoing promotion throughout the year of the campaign and its associated website through existing communications channels - social media, website, op-ed, etc.
- staff time in working with Duke and other community partners, such as GO and Community Action Opportunities, to identify and engage the neighborhood(s) to be the focus of Duke Energy's Neighborhood Energy Savers Program in 2018
- staff time to work together and with Duke and other community partners on other outreach and implementation projects to advance the Blue Horizons Project and the EITF as needed and appropriate to ensure the City and County continue as meaningful, supportive partners in the EITF effort
- contribute $25,000 each for a campaign coordinator and associated marketing/outreach efforts (the County has committed to this from funds already allocated)

Pros:

- Advances Council's goals established by the EITF resolution and other resolutions aimed at moving Asheville toward a cleaner, affordable, smarter energy future
- Advances Council's vision for A Clean and Healthy Environment, which states, "Asheville continues to be a leader in innovative technologies and conservation efforts in response to global climate change."

Cons: None.

The fiscal impact would be funding of $25,000 for a part-time campaign coordinator. This would require a budget amendment as the funding already allocated is otherwise committed.

Recommended action would be to (1) Re-commit long term support for the EITF and its two major goals beyond the 2-year scope of the Kendeda Fund grant; (2) Support additional city staff time for marketing, outreach and project implementation to advance the Blue Horizons Project and the EITF, as needed and appropriate to ensure the City continues as a meaningful, supportive partner in the EITF effort; and (3) Make an additional allocation of $25,000 to support a campaign coordinator and associated marketing expenses for the Blue Horizons Project, conditioned on the County and Duke Energy committing an equal share.

Vice-Mayor Wisler was committed to the work; however, she could not support moving forward with number 2 for additional city staff time until staff can let her know what types of things won't get done if more staff time is spent on EITF and marketing, etc., and what the other partners are doing for staff support. On number 3, she was not willing to approve a budget amendment for $25,000 until we get an update on the City's first quarter.

Councilwoman Mayfield said that because there is no budget amendment before Council at this meeting, she would be willing to have it placed on the agenda when the City's first quarter update is heard. In the meantime, at the November 10 EITF meeting, she will get an official vote from the Task Force recommending that Council provide the support. The Task Force supported the action by head nods but did not take a formal vote.

In response to Councilman Smith, Councilwoman Mayfield said that they are in the process of developing a year to two-year work plan including the strategies they will be using to meet their two goals. At this point she did not anticipate coming back to Council until the next budget cycle. It is the plan to have the work plan completed by the end of the year. They have all the information and it's just a matter of pulling it together.

Councilman Bothwell felt that the Kendeda Fund should be reassured of the City's long-term commitment by our commitment to reduce the City's operational carbon footprint to 80% by 2050.

Councilman Young was concerned that Councilwoman Mayfield is asking for an additional $25,000 for the EITF outside of the City's budget cycle. Even though the amount is small, it would mean a lot to a small organization to do something different.

In response to Councilman Young, Councilwoman Mayfield said that Duke already advertises their programs, but the subscription rate to their programs are low. We know that Duke just marketing the programs does not work. The whole point behind the EITF is to create this community partnership that sends the message to residents and customers that we have a problem and we need to work together. The only way we will be successful is if we all work together and creating this community marketing campaign is clearly not Duke marketing its programs in the traditional way they have been marketed.

Councilman Young noted that since Duke has been marketing their programs for some time without success, he wondered what why the City coming to the table would make their programs successful.

It was the consensus of Council to recommit their long-term support for the EITF and its two major goals beyond the 2-year scope of the Kendeda Fund grant.

Regarding number 2 to support additional city staff time for marketing, outreach and project implementation to advance the Blue Horizons Project and the EITF, there was not majority Council approval until after the City Manager reports on the current staff time allocation.

Regarding number 3 to budget an additional $25,000 to EITF, Mayor Manheimer said that as there is no formal budget amendment before Council it will have to come back to Council for consideration. She supports the concept because we created the Task Force and we knew what the Task Force was going to do. It's important, though, to operate within the fiscal funding cycle and not to have budget amendments, which are typically for unforeseen circumstances. She was concerned about all the potential programs that will be borne out of the Task Force and the opportunity for other funding. She wanted to make sure we have exhausted any grant opportunities for funding like this, so when this comes back to Council for consideration of the budget amendment, she wants information on the fiscal performance of the City, where we are able to get the funds, and whether or not we have exhausted other opportunities for grant funding.

D. UPDATE ON ENFORCEMENT OF SHORT TERM RENTALS

Zoning Administrator Shannon Tuch said provided the Council with the following report:

"During the October 3, 2017, City Council meeting, council members requested an enforcement update related to Homestays and short-term rentals be provided by staff, prior to the regularly scheduled quarterly report. The data in this report spans a time frame from November 2015 through September 2017.

Rental of a property within the City of Asheville for a duration of less than 30 days is considered "Short-term". Rental of an entire home/apartment on a short-term basis is not allowed in residential districts and some commercial districts. Rental of private rooms within a dwelling on a short-term basis is allowed with a valid homestay permit from the City. Here is a summary of some city actions taken with respect to homestays and short-term rentals:

November 2015 - due to strong demand for homestay lodging, City Council passes a zoning text amendment modifying the requirements for a Homestay.

July 2016 - Council allocated additional resources to facilitate the permitting of Homestays and enforcement of illegal short-term rentals.

November 2016 - the City engaged a third party contractor (Host Compliance) to assist with locating short-term rental violations throughout the City. The Address Identification service provides a monthly report with complete address information and screenshots of all identifiable short-term rentals in our jurisdiction which is reviewed by staff as a tool for detect possible ordinance violations. A renewal of this contract is currently in process.

July 2017 - zoning administration and enforcement, including the enforcement of Homestays and short-term rentals, transferred from the Development Services Department to the Planning & Urban Design Department.

Update on Homestay Permit Activity: According to the city's permit records, there are approximately 548 active Homestay permits. Approximately half of these permits are advertised as "partial home" or a "private room" while the other half describe private suites that are advertised as "whole home/apt.". The very large majority of these permits have been issued since amending the homestay standards in November 2015, with a swell in permits issued after heavy short-term rental enforcement activity.

Update on Enforcement Activity: Planning & Urban Development staff continue to proactively enforce the short-term rental provisions of the UDO as had been the practice under the Development Services Department. This effort is enhanced by the data supplied by the third party contractor. Prior to 2017, staff issued approximately 10 notices of violation for short-term rentals per month under the former system. Beginning in 2017, staff has issued an average of 42 notices of violation for short-term rentals per month. This number is down from earlier reports (72 notices/month). The reduction is believed to be primarily the result of: 1) a normalization of activity after a period of heavy enforcement, and 2) a time limited reduction in resources due to the transfer of responsibilities to the Planning & Urban Design department.

Time Period	Average Violations Noticed, Monthly
Nov 2015- Oct 2016; 12 month span	10
Jan 2017- Sept 2017; 9 month span	42
Percentage Increase, Proactive Enforcement	420%

Of the total noticed violations, only 17.2% originate through citizen complaints. 82.8% of the violations noticed by the city have been proactively identified by city staff with the assistance of the contract service.

The majority of the cases opened are resolved through the correction of the violation or issuance of a homestay permit where appropriate. The table below highlights the most common resolutions:

Resolution of Case	Percentage of Cases
Homestay Permit Issued	21%
Violation Corrected, Case Closed (change of use in an allowed zoning district, change to 30 day minimum rental, etc)	52%
Invalid Complaint	6%

The remaining 9% of open cases can include properties that are in various stages of enforcement action including those that have been turned over to the City Attorney's office for legal action.

In an effort to reconcile permit data with the data from the contractor, an exercise that identifies the different categories of listings demonstrates that most of the identified listings are brought into compliance.

Approximate Listing Breakdown (October 2017)	
Total number of short-term rental units: 959	
Number of listings identified: 681	
Number of units rented for one month or more	54
Number of homestay permits issued	548
Number of active enforcement cases	85
Total	687 (+6)

With approximately 12 months of basic metrics provided through the third party contractor, it is better recognized that the overall number of identified listings consistently hovers between 900-1,000 listings. As new listings are identified, enforcement action is initiated and generally successful; however, the inventory of listings is changing day-to-day presenting new challenges for tracking and monitoring properties and cases.

Staff Concerns: Through the administration of the revised Homestay permitting and proactive enforcement programs, staff has encountered many different scenarios that have generated the following areas of concern:

- The number of unidentified units evading detection and continuing to operate illegally.
- False representation of residency, web postings, and leases with homestay permits along with the accurate identification of livable space and unit separation .
- Property owners seeking to operate homestays from detached structures.
- In commercial districts, an increase in the number of residential dwelling unit conversions to short-term lodging.
- In commercial districts, a significant increase in the number of new residential projects being constructed for the purpose of providing lodging.

Next Steps: Staff will continue to work with the third party contractor while diligently verifying supplied data to identify properties that are possibly in violation and those which may have the opportunity to gain compliance through Homestay permitting or other means. However, the number of new and unique violations identified by the Address Identification Service is decreasing. As such, the number of violations issued is expected to decrease in the future."

There was considerable discussion, initiated by Councilman Smith, regarding how the City can get to zero with regard to illegal use, and are the enforcement efforts enough or does Council need to augment the enforcement efforts in some way. Ms. Tuch explained that once the properties are identified our enforcement seems to be pretty effective. Our biggest challenge to reach zero is our inability to identify all the properties that are currently operating illegally. The listings themselves, when you evaluate them, don't give you any identifying information. We have looked at other cities and some of the strategies that they are using. The third-party consultant are trying to help answer these questions as well. We are effectively managing the homestay program but continue to struggle to identify the people who are employing evasive techniques to avoid detection.

Councilman Smith said that there has been conversation around looking at those commercial areas were the short term rental use is currently legal and some formalized policy discussion around the direction Council wants that to go. Acting City Manager Ball said that she thought we would have data that could show us the number of legal short term rentals in the commercial zones. We can also look at short term rentals in other zones, and where there could be conflict between neighborhoods and the short term rentals, e.g., the River Arts District. We can start the analysis on how many we have occurring legally and then try to target where Council views those have the most impact on the quality of life for the citizens. Council could then determine not allowing them in other zoning districts that currently allow it.

Vice-Mayor Wisler supported starting the process especially showing how many new short term rentals are being applied for or have become legal within the commercial districts.

Councilman Smith felt it is a good idea to have staff start that analysis and perhaps take it to the Planning & Economic Development Committee for review or perhaps include it as part of the City Council retreat discussion.

Councilwoman Mayfield supported gathering the data and seeing how many legal whole house short term rentals and their location.

Ms. Tuch said that she anticipated the Council question of where we have the conversion of residential units into short term rentals. She talked with the Development Services Department and noted that she would have presented that information to Council if we had it. The permit system we use has some limitations. All conversions of residential units to lodging requires a change of use applications - Level I application process. When we sort it in our permit system, we get all Level I applications. We then tried to narrow it down by key word searches, but that is not reliable because everyone enters in different key words. We were not confident with the data that we collected so we have not been presenting it. The other limitation is that the system does not allow us to search in a geographic area. Moving forward we may be able to identify a specific sub-type to the application to make sure that gets tracked. We will continue to see if we can get the data (with manual culling) over the last year of the conversions.

Ms. Tuch noted that what is a new trend we are seeing is the number of what would be residential projects now seeking to come in and amend their applications to be lodging projects, including several large ones in the downtown.

It was the consensus of Council to ask staff to (1) see if there is more we can do around enforcement that we are not now doing; (2) try to determine how many legal short term rentals are there in the non-residential districts; and (3) try to determine if there a way to measure the conversion of residential units into short term rentals and if Council wants to address this as a use in the future, what would be the recommendation.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF PROPERTY LOCATED AT 95 ROBERTS STREET FROM RIVER DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONING FOR THE RENOVATION OF AN EXISTING BUILDING FOR A LODGING USE WITH ADDITIONAL SPACE FOR RETAIL AND RESTAURANT USES

ORDINANCE NO. 4620 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 95 ROBERTS STREET FROM RIVER DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONING FOR THE RENOVATION OF AN EXISTING BUILDING FOR A LODGING USE WITH ADDITIONAL SPACE FOR RETAIL AND RESTAURANT USES

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to consider the conditional zoning of property located on 95 Roberts Street from River District to Lodging Expansion/Conditional Zoning for the renovation of an existing building for a lodging use with additional space for retail and restaurant uses. This public hearing was advertised on October 13 and 20, 2017.

The subject property (PIN 9638.97-5796) is currently owned by Greer Building LLC; the petitioner is White Point Partners and the project contact is Gregory Hoffman.

Site - The project site consists of one parcel located at 95 Roberts Street in the River Arts District with an area of approximately 0.88 acres (to be conditionally rezoned) but also includes some associated work on the parcel across the street (creation of public parking). The primary site is currently zoned River but is within the RAD Form Code rezoning area (not yet approved at the time of application) and surrounding sites are currently River or Commercial Industrial zoning (proposed RAD- Neighborhood Transition RAD-NT).

The project site contains an existing building fronting directly onto Roberts Street with the railroad right-of-way to the rear. There are existing one and two story buildings in the immediate vicinity.

There is a little bit of space on each side of the project that is not developed. The applicant is working on historic preservation tax credits so and they have been working with State Historic Preservation Office on what exactly could be done in those areas. As of now, word from the State Historic Preservation Office is that they want to leave those areas as undeveloped as possible to better reflect how the building and the site functioned when it was an industrial use.

Overall Project Proposal - The applicant is proposing to renovate the existing building primarily for a lodging use. There are additional spaces proposed for restaurant and retail uses. Plans indicate 70 lodging rooms, 4,608 square feet for retail and a 60-seat restaurant. The building appears as two-stories when viewed from Roberts Street but has five levels from the rear and has an overall height of 67' 2 ⅝ " and a total GFA of approximately 61,000 square feet. There is a new rooftop penthouse proposed to be constructed.

Access, Sidewalks, Parking - The design proposes a vehicular drop-off area to be constructed to the east of the building in a small area that is currently vacant and includes four spaces. Otherwise, the primary vehicular access to the site is from Payne's Way which is along the railroad right-of-way to the south of the building, accessed from Lyman Street. Bicycle racks are provided at both the front and rear access points to the building.

There are approximately 75 spaces proposed within this graveled area. Also, 20 parking spaces are proposed to be created as public, on-street spaces across Roberts Street to the north. A total of approximately 95 spaces are provided for this project which is within the required range for the uses. The UDO allows and encourages a combination of on-street and shared or remote spaces to meet minimum parking requirements for permitted uses.

Sidewalks are provided along the front of the building and are shown varying in width from eight to ten feet *(see condition below)*.

Landscaping & Open Space - Landscaping is required for this project and includes building impact landscaping, street trees, street buffer and dumpster screening. There are two retaining walls shown on the revised plans - nine feet and 15 feet, which will comply with aesthetic standards required by the UDO.

Five percent of the lot area is required to be set aside as open space; the proposal meets this standard.

Design and Operational Standards - There are standards relating to building orientation and fenestration in the zoning district and the design complies. The renovation of the historic building (constructed c. 1925) is being reviewed by the State Historic Preservation Office for historic tax credits.

Zoning – Lodging uses with over 21 rooms are required to undergo a conditional zoning review to the Lodging Expansion District. This proposal is located in a commercial area where lodging uses are currently permitted and mixed-use projects are expected.

Conditions – The applicant is proposing several conditions relating to reuse of an existing building:

1. Sidewalk width less than 10 feet as required by the district - no less than eight feet in any spot in front of building
2. Parking for the use will be provided along Payne's Way in the railroad right-of-way, off of the project parcel and by new on-street spaces created along Roberts Street. Off-site and shared parking arrangements are encouraged in the UDO.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on July 25, 2017. The River District Design Review Committee voted unanimous support for the project at their meeting on August 29, 2017, as did the Asheville Area Riverfront Redevelopment Commission on September 14, 2017. The project was approved with conditions by the Technical Review Committee on September 18, 2017. Final TRC review is needed prior to the issuance of any permits.

No communication has been received from the public as of the writing of this report.

This site is within the area under consideration for the RAD Form Code. Recent nearby projects include the mixed-use development, RAD Lofts (amended by City Council July 2017).

The lodging use (with retail and restaurant spaces) can be considered as appropriate in this location. The RAD Form Code stresses providing a mix of uses, especially those that will support the working artists and adaptively re-use existing historic buildings. Because the existing building occupies almost the entire parcel, there is not sufficient room on the site to provide required parking; the proposal utilizes allowable provisions found both in the UDO and the proposed RAD Form Code for remote parking to satisfy the needs of the uses.

This project is aligned with elements in the Comprehensive Plan (*2025 Plan)* in that it adaptively reuses an historic building, retaining the architectural character and heritage of the area and places development along a commercial (mixed-use) corridor with infrastructure already suited to accommodate the use. Additionally the uses are in a location with transit, bike lanes, sidewalks along with future greenways that help enable non-vehicular access to nearby uses such as downtown and the river. Also the *Plan* recognizes tourism and the 'availability of adequate lodging facilities" as a key strength of the City.

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* (active streetscape, preservation of historic structure, multi-modal access); and (2) *Transportation and Accessibility* (multi-modal access opportunities).

Considerations:

- Project adaptively reuses a historic building, maintaining the architectural fabric of the RAD
- The uses activate the streetscape and complement the mixed-use intent for the area
- Parking must be accommodated via a remote parking provision

Based on policies in the *2025 Plan* and City Council's 2036 Vision Considerations as well as the River Arts District form code, staff recommends approval of the conditional zoning for the project at 95 Roberts Street inclusive of the conditions as noted in the B.1 attachment.

The Planning & Zoning Commission reviewed this request at their meeting on October 4, 2017, and voted 7-0 in support of the project. Commissioners recommended the applicant consider creative screening methods to soften the appearance of retaining walls on the site.

When Vice-Mayor Wisler asked how the City would enforce the remote parking agreement in the future, Ms. Bernstein felt that if some space were to become unavailable they would have to find space elsewhere, or seek a variance by the Board of Adjustment for a parking reduction. Ms. Bernstein said that the condition would be that the applicant would not be providing parking on-site.

In response to Councilwoman Mayfield, Ms. Bernstein said the remote parking agreement is for the spaces behind the building and that agreement is between the applicant and Norfolk Southern. Since the condition is for no parking on-site, staff has not gotten into the particulars of how the agreement would work. Prior to receiving zoning permit at the Final TRC, staff will need more detail on how the remote parking agreement would work.

Mr. Jesse Gardner, an executive member with Civil Design Concepts, said they have secured a long-term parking lease with Norfolk Southern. We plan to improve it for parking that supports this project. The owner will continue dialogue with Norfolk Southern to secure that right-of-way by purchase. Now it is only a lease in perpetuity with a termination right. He said that the own the property across the street and if the parking every got taken away, they could potentially build a parking garage. There are also other options on the site but they would rather not build a separate structure when they are pursuing tax credits. It is in their vested interest to make sure there is parking for their occupants.

Mr. Jay Levell, developer from Charlotte, said that he specializes in historic rehabs. He felt this is a great building and wants to preserve it. They have partnered with a boutique hotel group. They want to keep the character and fabric of the River Arts District and have local uses, local retail and support the area.

When Councilman Haynes asked if the developer would make a commitment to have local businesses in the retail spaces and pay a living wage, Mr. Levell said they are in preliminary discussions with several local restaurants. Regarding the living wage, he knew the hotel group has discussed it and would love to do as much as they can for the local community, but he could not make that commitment.

When Councilwoman Mayfield asked about energy and water efficiency measures, Mr. Levell could not speak on this matter but knew the hotel group will do as much as they can. They are a little limited by the State Historic Preservation Office, but want to be as conservation minded as possible. Councilwoman Mayfield suggested they review the green building standard for historical structures developed in Georgia.

Mayor Manheimer opened the public hearing at 6:46 p.m.

An artist and business owner in the River Arts District felt there is ample space on one side of the building to include a parking structure. She was concerned about the inevitable development in the River Arts District and was concerned about how it happens so as not to diminish the revenue stream generated by the artists in the District.

Ms. Pattiy Torno, artist and business owner in the River Arts District, felt it was important to have some alternatives to downtown in terms of different experiences. When there are eyes on the street it makes the area safer. For a lot of different reasons, having lodging in the River Arts District will bring us a constant flow of new customers, and she totally supported the project.

Mr. Rusty Bryant, father of a business owner in the River Arts District, also spoke in support of the project in the area.

Mr. Chris Fusting hoped that the developer will not include chain stores so that the River Arts District remains special. He also felt it was important to pay the workers a living wage.

A business owner in the River Arts District felt that it is good to get tourists to the River Arts District, but not by building a hotel.

Mr. Manley Nelson felt it is good to partner with companies that value historic buildings and the character of the area. He felt this is a good opportunity for a hotel in a nice setting to reinforce the historic nature of the area.

Mayor Manheimer closed the public hearing at 6:57 p.m.

Councilman Young said he would support the project and was cautiously optimistic. He hoped that the hotel will stay true to the area to support locals and also pay a living wage. He felt that venturing into the River Arts District will be a sophisticated balancing act that supports redevelopment but also helps locals.

Councilman Bothwell, member on the Asheville Area Riverfront Redevelopment Commission, was impressed with the kind of restoration work the hotel group has done in the past and what they intend to do with this building. It is an excellent adaptive reuse of a building.

When Councilman Haynes and Councilman Smith asked the developer for a commitment for local businesses in the retail and the commitment for the hotel to pay a living wage to its employees, City Attorney Currin said that with a conditional zoning it has to be a condition that is agreed upon by both the Council and the applicant. Under the N.C. Gen. Statutes, those conditions should have to do with zoning compliance, land use regulations and compliance with the Comprehensive Plan. It's probably subject to a challenge, but that is up to Council and the applicant as to what is ultimately agreed upon.

Councilman Smith was concerned about the parking situation. He appreciated the reuse of the building; however, his concern is that we have record numbers of tourists in Asheville (almost $11 Million visiting Asheville last year) and we currently do not have a cooperative effort with the Tourism Development Authority to do a sustainable tourism study to determine what is our carrying capacity and how are we going to grow responsibly with regard to our tourism industry. He could not support the project.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to recommend approval of the conditional zoning request for Greer Building LLC for the property located at 95 Roberts Street from River District (RIV) to Lodging Expansion District Conditional Zone (LODG EXP CZ), and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on adaptive reuse, multi-modal transportation elements and tourism; (2) The historic building will be preserved and reused, maintaining the character and architectural fabric of the district; and (3) The design activates the streetscape and creates new public on-street parking spaces. This motion was seconded by Councilman Young and carried on a 5-2 vote with Vice-Mayor Wisler and Councilman Smith voting "no".

ORDINANCE BOOK NO. 31 – PAGE 346

B. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ADOPT THE RIVER ARTS DISTRICT FORM BASED CODE FOR THE GREATER RIVER ARTS DISTRICT AREA AND THE ASSOCIATED PROPERTY REZONING

Mayor Manheimer said that it has just been brought to her attention that she may have a conflict of interest in voting on the RAD Form Based Code items on the agenda. Because she will need to check with the Bar Association on this potential conflict, Councilman Young moved to continue this public hearing until November 14, 2017. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

C. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE RIVER PARKING REDUCTION AREA IN ITS ENTIRETY

Mayor Manheimer said that it has just been brought to her attention that she may have a conflict of interest in voting on the RAD Form Based Code items on the agenda . Because she will need to check with the Bar Association on this potential conflict, Councilman Young moved to continue this public hearing until November 14, 2017. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

E. PUBLIC HEARING TO AMEND ARTICLE VII OF CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND LOT SIZE AND DENSITY STANDARDS FOR RESIDENTIAL ZONING DISTRICTS CITYWIDE

ORDINANCE NO. 4621 - ORDINANCE AMENDING ARTICLE VII OF CHAPTER 7 OF THE CODE OF ORDINANCES TO AMEND LOT SIZE AND DENSITY STANDARDS FOR RESIDENTIAL ZONING DISTRICTS CITYWIDE

Urban Planner Vaidila Satvika said that this is the consideration of an ordinance to amend Article VIII of Chapter 7 of the Code of Ordinances to amend minimum lot area and density regulations affecting residential zoning districts citywide. This public hearing was advertised on October 13 and 20 , 2017.

On August 22, 2017, City Council unanimously passed Ordinance No. 4608 to incentivize small-scale residential infill development. The residential zoning changes reduced lot width standards, revised density standards for multifamily projects, introduced neighborhood-scale multifamily design standards for multifamily development, provided greater flexibility for driveways, and made ancillary updates to support small-scale infill development.

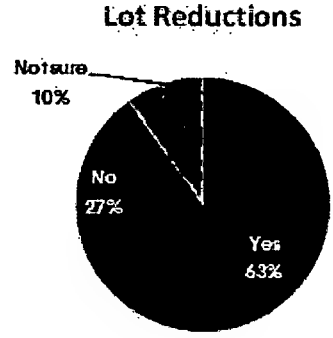
At that meeting City Council requested that staff implement a corresponding 20% reduction to *Lot size standards*, which were part of earlier versions of the proposal. To accomplish this reduction, *Density standards* for multifamily zoning districts also need to be adjusted in order to ensure consistency of the code.

The proposed changes to minimum lot area are displayed below by zoning district.

	RS2	RS4	RS8	RM6	RM8	RM16
Current (SF)	20,000	10,000	5,000	7,000	5,000	2,500
Proposed* (SF)	**16,000**	**8,000**	**4,000**	**6,000**	**4,000**	**2,500**

* RM6 proposed minimum lot area rounded from 5,600 SF to 6,000 SF; RM16 current single-family attached minimum standard kept as proposed minimum lot area

On October 4, 2017, the Planning & Zoning Commission reviewed and unanimously recommended approval of staffs' recommendations to reduce lot size standards and associated densities by 20%.



During the small-scale infill initiative outreach process, public surveys corroborated that the public supports reductions to lot standards, as shown in the chart to the right.

This wording amendments are consistent with the City's 2025 Comprehensive Plan in the following areas: (1) They provide compatible redevelopment and infill development; (2) They support walkable neighborhoods by incentivizing location-efficient housing; and (3) They contribute to the development of transit-supportive densities via more efficient land use.

This initiative aligns with the 2036 Council Vision in the following areas: (1) *Quality Affordable Housing* - It promotes more abundant and varied housing options that will help to

relieve Asheville's housing affordability needs; (2) *A Well-Planned and Livable Community* - It provides more location efficient housing - close to jobs and transit service - to reduce the costs and environmental impacts associated with automobile use; and (3) *A Diverse Community* - It supports a more equitable and diverse community by giving current property owners greater flexibility to provide housing for the growing community.

Staff recommends approval of the wording amendments modifying residential zoning districts to incentivize neighborhood compatible, small-scale residential development in that it is consistent with the Comprehensive Plan, City Council 2036 Vision and other adopted plans.

The Planning & Zoning Commission reviewed and unanimously recommended approval to reduce lot size standards and associated densities by 20%.

Mayor Manheimer opened the public hearing at 7:09 p.m.

Mr. Steven Edge explained how one size does not fit all with this amendment. There are certain neighborhoods in Asheville where this does not fit for the walkability or driveway flexibility. Some neighborhood characteristics are not built around density.

Mr. Manley Nelson supported the amendment because it increases walkability.

Mayor Manheimer closed the public hearing at 7:12 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the wording amendment to UDO Article VIII according to the ordinance, which revises residential zoning standards to incentivize small-scale residential development, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the amendment (1) promotes more abundant and varied housing options in residential neighborhoods; and, (2) supports walkable neighborhoods and more efficient land use through compatible residential infill. This motion was seconded by Councilman Bothwell and carried unanimously.

ORDINANCE BOOK NO. 30 – PAGE 352

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Councilman Bothwell said that when Council authorized the City Manager to have electric utilities installed for food trucks at the 68 Haywood Street location, they didn't indicate the cost to the food trucks. Since then, City staff has been treating that as an event and charging food trucks $100 for the first three hours and $25 for each additional hour. For food carts, the City charges $150 or $175 per year. He was concerned that the food trucks don't make that much money, and asked that Council to either waive or reduce fees for food trucks at the 68 Haywood Street location. Acting City Manager Ball said that staff will report back to the Finance Committee on the actual costs.

Councilman Smith remindec citizens that early voting is open and other than the election of the Mayor and three Council members is also a question of whether you want to see Asheville's elections move to a district system.

Councilman Bothwell announced the annual RiverLink fundraiser on October 27 and 28, 2017, at Zealandia.

Closed Session

At 7:16 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: PHG Asheville, LLC vs. the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 7:48 p.m., Councilman Young to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:48 p.m.

Magdalen Bowlson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 14, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING NOVEMBER 11-19, 2017, AS "NATIONAL HUNGER AND HOMELESSNESS AWARENESS WEEK"

Mayor Manheimer read the proclamation proclaiming November 11-19, 2017, as "National Hunger and Homelessness Awareness Week " in the City of Asheville. She presented the proclamation to Rev. Amy Cantrell, and others, who thanked Council for this proclamation.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON OCTOBER 24, 2017

B. MOTION TO APPROVE THE CAPITAL IMPROVEMENT PROGRAM BUDGET SCHEDULE

Summary: Motion to approve the Capital Improvement Program (CIP) Budget Schedule.

As discussed with City Council at its August meeting, staff is proposing to expedite the CIP budget timetable this fiscal year in order to hold discussions and receive feedback from Council earlier in the overall budget process. The attached CIP budget schedule, which outlines key dates in the process, was reviewed by the Finance Committee at its October 24, 2017.

Staff recommends that City Council review the proposed Capital Improvement Program (CIP) Budget Schedule, make changes as needed, and approve the motion to adopt the schedule.

C. RESOLUTION NO. 17-245 - RESOLUTION AMENDING THE 2017 CITY COUNCIL MEETING SCHEDULE TO ADD THE CITY COUNCIL ORGANIZATIONAL MEETING ON DECEMBER 5, 2017, AT 4:00 P.M. IN THE COUNCIL CHAMBER

RESOLUTION BOOK NO. 39 - PAGE 178

D. RESOLUTION NO. 17-246 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH GREEN OPPORTUNITIES TO ALLOW THEM TO BUILD A GRAVEL FINES TRAIL AS A TRAIL BUILDING LEARNING EXPERIENCE

Summary: The consideration of a resolution authorizing the City Manager to enter into agreement with Green Opportunities (GO) to allow them to build a gravel fines trail along the Town Branch Greenway Corridor as a trail building learning experience.

GO approached the City with the desire to build a gravel fines trail on the Town Branch Greenway Corridor as a learning experience for their Landscaping and Maintenance program. The trail would measure six feet wide and approximately 1000 feet long. It would begin in the field behind the Wesley Grant Center at Depot Street on city-owned property known as PIN 9648-14-0398-00000. It will then travel east through said property to end at South French Broad Avenue behind the firehouse (PIN 9648-14-5341-00000).

GO will build the trail and maintain it in accordance with the Agreement. The trail project will be overseen by staff of the Parks Maintenance Department. The Parks Maintenance Division will oversee the project to ensure that maintenance meets City standards. Any work with heavy equipment will be handled by the City. In the event GO is unable to maintain the trail to City standards, the Parks Department will take up the maintenance of the site. The approximate number of labor hours needed from the Parks Maintenance Department is 72 hours.

The total costs to be encumbered by the City for this trail is $7,400. To offset the costs, City staff applied for a $5,000 grant through New Belgium Brewing Company's Bike Infrastructure Program, which is the maximum amount an applicant can request. If New Belgium does not award the grant to the City, the costs will be paid for from the Transportation Department's Planning Division budget.

The Finance Committee reviewed and unanimously supported this request on October 3rd, 2017. The PED Committee reviewed the project on October 17, 2017 and also recommended to support it.

Pros:

- This project will provide a unique opportunity for Green Opportunities' students to learn trail building skills as a part of their curriculum.
- The interim trail will provide public access to a portion of the Town Branch Greenway
- This project will provide community members who do not understand the advantages of a neighborhood greenway a "preview" of what the permanent greenway will be like.

Cons:

- There will be a fiscal impact to the Transportation Planning Division
- The Parks Department will need to provide labor hours and oversight of the project
- In the long-term, the Parks Department Maintenance budget will be impacted.

The total cost for this project will be $7,400. If the $5,000 grant is awarded, the City contribution will be $2,400. If the grant is not awarded, the total amount will be paid for through the Transportation Planning Division's current adopted budget. Additionally, the maintenance material costs in the future years may impact the Parks Maintenance budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into an agreement with Green Opportunities to use a portion of the Town Branch Greenway as a trail building learning experience for their landscaping and maintenance program that will build and maintain an interim trail until the permanent greenway is constructed as part of the Grant Center bond project.

RESOLUTION BOOK NO. 39 - PAGE 179

E. RESOLUTION NO. 17-247 - RESOLUTION ACCEPTING THE REPORT

PREPARED BY CITY STAFF FOR THE FLOOD MITIGATION ACTION ITEMS ASSOCIATED WITH THE REPETITIVE LOSS AREA ANALYSIS REPORT

Summary: The consideration of a resolution accepting the annual Repetitive Loss Area Analysis report which identifies actions staff has taken over the past year as a member of the Community Rating System (CRS) Program.

The City of Asheville joined the Community Rating System (CRS) program administered by the Insurance Services Office (ISO) in 2014. As required by the CRS program, a Repetitive Loss Area Analysis (RLAA) to supplement the Buncombe's County-wide All Hazards Mitigation Plan was prepared in 2014 by the consultation firm of Brown and Caldwell.

A Repetitive Loss Area (RLA) is defined as an area that contains one or more repetitive loss structures (two or more claims of more than $1,000 that have been paid by the National Flood Insurance Program (NFIP) within any 10-year period since 1978). The RLAA is a mitigation plan developed for those areas with the purpose of reducing damages and increasing awareness from flooding and lowering the cost of claims submitted to the NFIP. The ultimate goal of lowering these costs is to reduce the increase in flood insurance premiums that has been occurring for a number of years.

The Community Rating System (CRS) is a program administered by the Federal Emergency Management Agency (FEMA). It provides lower insurance premiums under the National Flood Insurance Program. The premium reduction is in the form of a CRS Class. A 5 percent reduction is received by policyholders within the City for each class reduction the community obtains. The classes are obtained by actions that are above and beyond the requirements of the National Flood Insurance Program administered by FEMA. The benefits of joining the CRS program has been a reduction of flood insurance premiums paid for by those citizens who have flood insurance. Currently, the citizens of Asheville receive a 10 percent reduction in their flood insurance premiums through participation in the CRS program.

In order to maintain the current status in the CRS program, staff is required to provide to council the annual report of the Flood Mitigation Actions Items that were part of the RLAA report from Brown and Caldwell adopted by Council on December 10, 2013. As highlighted in the report, staff continues to look for ways to reduce flooding and damage from floods through community awareness through our website and flyers, staff is working with the Army Corps of Engineers on opportunities within the Swannanoa River Basin for flood mitigation opportunities and city staff works with developers and property owner on ways to protect their properties from flooding.

Pros:

- The citizens of Asheville will continue to receive a 10 percent reduction on their flood insurance program.
- Provides higher level of protection through our current flood ordinance
- Promotes public education of the Special Flood Hazard Areas

Con:

- Considerable amount of staff time is necessary to maintain these requirements

There is no additional fiscal impact to continuing the efforts necessary for the CRS program, staff time is currently programmed into the annual operating budget.

Staff requests council to approve a resolution accepting the report prepared by city staff for the flood mitigation action associated with the repetitive loss area analysis report.

RESOLUTION BOOK NO. 39 - PAGE 180

F. RESOLUTION NO. 17-248 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ACCEPT, IF AWARDED, FISCAL YEAR 2017-18 EMERGENCY SOLUTIONS GRANT AND PROVIDE FUNDING TO SELECTED AGENCIES

Summary: The consideration of a resolution to apply for and accept if awarded Fiscal Year (FY) 2017-18 Emergency Solutions Grant (ESG) funds and provide funding to selected agencies.

ESG funds are made available from the US Department of Housing and Urban Development through the State of North Carolina Division of Aging and Adult Services (DAAS). The City of Asheville has been the fiscal sponsor for Emergency Solutions Grant funding since 2012 to fund local agencies working tc address homelessness.

In the FY 2016-17 cycle, the community received an initial award of $113,354. An additional allocation of $34,977 was granted for Emergency Shelter Operations and the Homeless Management Information System.

The Homeless Initiative Advisory Committee appointed a Finance Subcommittee to review the ESG projects and application process. This subcommittee was comprised of individuals and agencies who did not apply for ESG funding. Each project was evaluated using the 2017 Scorecard for ESG funds developed by the North Carolina Balance of State Continuum of Care. These recommendations were endorsed by the Asheville Homeless Coalition and the Homeless Initiative Advisory Committee.

The following projects have been recommended for the 2017-18 ESG Grant Application:

2017-2018 Emergency Solutions Grant Recommendations				
	Emergency Shelter	Homelessness Prevention	HMIS	**Total**
Helpmate	$28,500			**$28,500**
City of Asheville			$10,000	**$10,000**
Homeward Bound of WNC		$64,594		**$64,594**
Salvation Army	$20,366			**$20,366**
Total	**$48,866**	**$64,594**	**$10,000**	**$123,460**

This distribution provides level funding for emergency shelters, additional HMIS support and includes housing assistance through Homeless Prevention activities. These projects are expected to maximize the use and ensure the expenditure of ESG funds.

Pro:

- The Emergency Solutions Grant program is a key funding resource for emergency shelter and for rapid rehousing of persons experiencing homelessness.

Con:

- Funds available are not adequate to meet full agency requests.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing Community Development Division staff will administer the program. No general funds are requested to support this program. A budget amendment will be made if grants funds are awarded.

Staff recommends that Council authorize the City Manager to apply for FY 2017-18 Emergency Solutions Grant (ESG) funds and to accept these grant funds if awarded, and provide funding to selected agencies, including any additional allocations.

RESOLUTION BOOK NO. 39 - PAGE 184

G. RESOLUTION NO. 17-249 - RESOLUTION AUTHORIZING THE CITY MANAGER TO IMPLEMENT A 457 (b) RETIREMENT PLAN FOR FIREFIGHTERS OF THE ASHEVILLE FIRE AND RESCUE DEPARTMENT

Summary: The consideration of a resolution authorizing the City Manager to implement a 457(b) Retirement Plan for firefighters of the Asheville Fire and Rescue Department.

As you know, in August 2007, City Council approved a resolution for the creation of a 401(a) plan for firefighters that would provide a 2% match to their contributions. This was done as a result of AFD's earlier decision to opt out of Social Security in prior years. As you may recall, on June 13, 2017, at your regular meeting, Council voted to approve an increase of the City's matching contribution into that plan from 2% to 4%. Again, this matching contribution is done by the City exclusively for the firefighters in consideration of their opting out of Social Security several years ago.

Immediately following the June 2017 meeting, Human Resources (HR) began work to implement the change from a 2% to 4% contribution match. During that process, however, the Human Resources Department became aware that there are some limitations with the 401(a) that would be less advantageous for our city's firefighters. Specifically, in order to participate in a 401(a) plan, firefighters are required to contribute a full 4%, and do not have an option to contribute a lesser amount. This would preclude firefighters who might elect a contribution smaller than 4% from participation in this benefit.

HR explored options and has determined that a 457(b) Deferred Compensation Plan will allow the firefighters more flexibility in their contributions to their respective accounts and still allow the City to match that contribution up to 4%, as approved by the Council at your June meeting.

If the City replaces our existing 401(a) plan with the 457(b) Deferred Compensation Plan, each firefighter may contribute a smaller percentage of their salary if they opt to do so (rather than being required to contribute either 4% or 0% as is the case with the 401(a)).

Members of HR have discussed this with Chief Burnette who discussed it with his staff. A survey was conducted to ascertain the firefighters' willingness to make the change from a 401(a) to a 457(b) plan. The consensus was that the change would be a positive one.

The HR Staff has worked with other parties as necessary to bring to you and to Council the proposed resolution for the creation of the 457(b) which will replace the existing 401(a).

No additional fiscal impact. These funds were approved during the FY 2018 budget process.

Staff recommends that a resolution be adopted authorizing the City Manager to implement a 457(b) retirement plan for City of Asheville Firefighters.

RESOLUTION BOOK NO. 39- PAGE 185

H. RESOLUTION NO. 17-250 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. GOVERNOR'S HIGHWAY SAFETY PROGRAM FOR HIGHWAY SAFETY GRANT FUNDS

ORDINANCE NO. 4622 - BUDGET AMENDMENT FOR THE PURCHASE OF EQUIPMENT FOR THE TRAFFIC SAFETY UNIT AND EXPENSES FOR THE REGIONAL LIAISON

Summary: The consideration of (1) a resolution authorizing the City Manager to accept awarded funds by the North Carolina Governor's Highway Safety Program for highway safety grant funds in the amount of $43,000; and (2) a budget amendment in the full amount of this grant to authorize staff to expend funds for program expenses.

The Asheville Police Department currently participates in the North Carolina Governor's Highway Safety Program Highway Safety campaigns. In order to facilitate better participation and efficiency of highway safety initiatives, a regional law enforcement network was created to enhance communication and effectiveness. The Asheville Police Department promotes highway safety statewide by designating a member of the department to serve as the regional liaison for GHSP Region 10 covering Buncombe, Henderson, Madison, Mitchell, Polk, Rutherford, and Yancey counties.

Through outreach and education efforts like those undertaken by this group, number of alcohol related fatalities in North Carolina dropped in 2016. Enforcement had much to do with this reduction, but education of the public also played a part. To further educate the public on consequences of impaired driving and to continue to reduce our alcohol related fatalities, a portion of this grant will be used to purchase a DWI simulator and train staff on its use.

The funds will be used to purchase equipment for the Traffic Safety Unit ($23,000). Funding would also covers the costs associated with training for officers in the use of this equipment and covers travel expenses for the Regional Liaison duties ($20,000).

The experience of using the simulator lets drivers see the effect of driving with and without alcohol through virtual reality. The cost of the virtual reality equipment is $23,000. Staff training and travel is also required and will cost $20,000. There is no local match of funds required for this grant. The expenses created by the purchase of the equipment and the duty related travel are reimbursed by the Governor's Highway Safety Program through the National Highway Traffic Safety Administration.

This action received unanimously approved by the Finance Committee on October 24, 2017.

Pros:

- Reimbursement revenue to cover the cost of obtaining the needed equipment including, CDR Software subscription, and Driving While Impaired Simulator.
- Reimbursement revenue to cover the cost of necessary training and travel related to highway safety duties and operations.
- Will provide a valuable tool to educate the public on the dangers of impaired driving.

Con:

- Dedicate the staff hours for the officer charged with the liaison duties to accomplish the goals stated in the grant contract.

This budget amendment is fully funded with grant revenue and there is no impact to the General Fund budget.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to accept awarded funds by the the North Carolina Governor's Highway Safety Program for highway safety grant funds in the amount of $43,000; and (2) a budget amendment in the full amount of this grant to authorize staff to expend funds for program expenses.

RESOLUTION BOOK NO. 39 - PAGE 186
ORDINANCE BOOK NO. 31 - PAGE 355

I. ORDINANCE NO. 4623 - BUDGET AMENDMENT FOR DWI TASK FORCE GRANT

Summary: The consideration of budget amendment, in the amount of $402,331, from the North Carolina Governor's Highway Safety Program (NCGHSP) for a grant to fund 1 year of the multi-jurisdictional DWI Task Force involving the Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO)

In Asheville and Buncombe County, the number of impaired drivers has been a serious concern to citizens and law enforcement for many years. In October 2013, the North Carolina Governor's Highway Safety Program granted the Asheville Police Department a four year grant to combat impaired driving incidents within Buncombe County. The Asheville Buncombe DWI Task Force (DWI Task Force) was developed and put into action August 2014. Since then, the DWI Task Force has made 920 Driving While Impaired arrests and has conducted 54 drug evaluations.

Public education on the dangers of impaired driving is a focus area of the DWI Task Force. Through partnerships with the Asheville Police Department Traffic Safety Unit and the Asheville Downtown Business Association this educational effort has been directed to some key audiences. These educational efforts have included presentations at local high schools and downtown festivals. These educational efforts have included the following:

- Distribution of information on the impaired driving laws and alternative ways to get home.
- Surveying festival participants anonymously about their willingness to drive at a point where they believe their blood alcohol levels exceed the legal limit.
- Allow festival goers to use roadside instruments to check their breath to determine their level of intoxication.

These interactions allow the team to engage the public in conversations and educate them on what the Illegal Per Se law is and what a 0.08 BAC feels like. The DWI Task Force efforts have directly resulted in a 40 % reduction with impaired driving fatalities in Buncombe County as of October 2016. The DWI Task Force is also a member of the board for Buncombe County's Sobriety Court. Members actively assist defendants assigned to this program through direct interaction following a DWI charge.

In reviewing these statistics, the NCGHSP contacted APD and suggested the DWI Task Force continue with its efforts of reducing the number of DWI related collisions, injuries and deaths in Asheville and Buncombe County, as well as educating the public on impaired driving and its effects. NCGHSP has recommended the continuation of the existing grant and authorized additional funding in the amount of $402,331 in FY 2018. This funding covers the cost to pay for six officers focused on DWI enforcement and training. The City of Asheville will match this grant at 75% for a cost of $200,493.75. Buncombe County will match their portion of the grant at 75% for a cost of $101,254.50. Under this grant, APD would continue to supply one sergeant and three officers while BCSO would continue to supply two deputies. These six officers would continue to conduct DWI enforcement throughout Asheville and Buncombe County and conduct Traffic Safety Checking Stations throughout the County. The appointed officers will also continue to hold educational events for the public.

This action received unanimously approved by the Finance Committee on October 24, 2017.

Pros:

- NCGHSP grant funds used to pay for 25% of the costs of salary and benefits to officers participating in the DWI Task Force.
- Potential reduction in impaired driving collisions, injuries and deaths throughout Asheville and Buncombe County.

Con:

- Funding from NCGHSP is evaluated annually and not fully guaranteed beyond this year.

The City match for this grant for the 2017-18 fiscal year totals $200,494. This amount was included in the Adopted FY 2017-18 General Fund Police Department budget. An additional match amount will need to be included in the FY 2018-19 budget.

City staff recommends City Council adopt a budget amendment in the amount of $ 402,331 to establish a budget for this year's DWI Task Force Year # 05 grant.

ORDINANCE BOOK NO. 31 - PAGE 357

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Bothwell and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. NEIGHBORHOOD ADVISORY COMMITTEE UPDATE

Mr. Phil Lenowitz, Chair of the Neighborhood Advisory Committee (NAC), updated City Council on the work and reflections of the Neighborhood Advisory Committee. He explained the formal participation by the Accessory Dwelling Unit Task Force, Sidewalk Subcommittee, Comprehensive Plan Advisory Committee and the Multimodal Transportation Commission. Neighborhood and community engagement consisted of the Coalition of Asheville Neighborhoods, Affordable Housing Committee, Comprehensive Plan workshops, neighborhood

association/organization boards, organizing neighborhoods, ice cream socials - potlucks, Neighborhood Night Out, Leadership Asheville Forum, and Justice for Black and Brown Bodies.

The Committee meets monthly, has presentations from neighborhoods that are looking to have their voice hard; members attend events and meetings throughout the city to gather information on what is going on in our neighborhoods. Helping neighborhoods get organized has been a priority for NAC. These efforts have been quite successful in the past year in South Asheville thanks to the work of Pat Deck, the NAC Vice-chair. We know that neighborhoods are not a monolith; although almost all want sidewalks, some have traffic speeding as an issue; others have traffic so snarled that they can only wish that speeding could be an issue.

Some significant events the Committee participated in have been a neighborhood ice cream social, National Night Out, Asheville neighborhoods were invited to participate in "Plan on a Page", invited neighborhoods to register, invited neighborhood groups to participate in Asheville Festival of Neighborhoods, worked to recognize Steve Mitchell as Asheville Neighborhood Volunteer of the Year, etc. The Advisory Committee holds regional meetings in the north, south, east, west and central areas.

Since the City's character continues to change and the need for strong neighborhoods is critical, they would like a strong City Council liaison for the Committee. They also look forward to working with the new Neighborhood and Community Engagement Manager. Because they need more participation from people of color, they will work with the City's new Equity and Inclusion Manager in order to see a diverse Committee membership. They also asked for Council's support for small area plans, and requested feedback on if the Neighborhood Advisory Committee is relevant.

Councilman Smith, liaison of NAC, was pleased with the Plans on a Page and how they are effective as a collective voice from the community.

In response to Councilman Young, Director of Planning & Urban Design Todd Okolichany explained how the Plans on a Page are incorporated into the Comprehensive Plan.

On behalf of City Council, Mayor Manheimer thanked Mr. Lenowitz and the entire Neighborhood Advisory Committee for their hard work and dedication to this committee.

B. BLUE RIBBON COMMITTEE ON THE HUMAN RELATIONS COMMISSION UPDATE

Vice-Mayor Wisler said that the Blue Ribbon Committee on the Human Relations Commission attended an earlier Boards & Commissions Committee and updated them on their activities. The Blue Ribbon Committee held an initial meeting on August 23, 2017, and held 6 official meetings bi-weekly until November 1, 2017, followed by an additional official meeting on November 8. In between the regular meeting times, they have met in small working groups to develop specific portions of their recommendations. At the November 1 meeting, the Committee passed a motion requesting an extension of their charge through the end of January 2018. If this request is approved, they will proceed with their work to finalize their recommendations around membership and staffing to support the efforts of the Human Relations Commission. An extension would also provide us with the opportunity to hold 2 meetings focused on receiving feedback from the public, an important step in ensuring the success of a Human Relations Commission in Asheville. They requested that City staff assist them in promoting these public input sessions and identify an appropriate space and time for these larger meetings.

By vote of the members of the Committee, they adopted a Mission Statement and Focus Areas for a Human Relations Committee. They have discussed criteria for members, and they have included their current criteria within this interim report, but they have not been officially adopted. They also discussed, but not finalized, a proposal for staff or other funding to support the efforts of the Commission.

Their Mission Statement is "The Human Relations Commission strives to improve human relations with priority on racial equity in Asheville by partnering with communities and agencies in an effort to better promote and ensure diversity, equity, and inclusion. The Commission works to identify and address all forms of individual, institutional and community level discrimination through education, advocacy and policy recommendations."

Focus areas (which included duties) include (1) make policy recommendations to City Council to enhance equity; (2) support the efforts of the Equity and Inclusion Manager; (3) provide a public forum for community to voice complaints; (4) engage the community around funded programs and policies; (5) promote equity in public safety; (6) promote equity in educational opportunities; (7) promote equity in economic development efforts; (8) health and human services; and (9) housing.

The Committee also provided some membership criteria that has not been officially adopted by the Committee.

Councilman Young thanked the Committee for their efforts and hard work on this Committee. He suggested City staff help promote their two public input sessions with perhaps a link on Open City Hall.

At the request of Vice-Mayor Wisler, City Manager Jackson said that he would be happy to meet with the Chair and Vice-Chair of the Blue Ribbon Committee and the new Equity and Inclusion Manager to flesh out details around process.

At the Committee's request, Vice-Mayor Wisler asked for a motion to extend their deadline until January 31, 2018. Therefore, Councilman Smith moved to extend their report deadline until January 31, 2018. This motion was seconded by Councilman Young and carried unanimously.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE CONDITIONAL ZONING OF 12 MIAMI CIRCLE FROM INSTITUTIONAL DISTRICT TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING FOR THE USE OF A DRIVE-UP WINDOW ASSOCIATED WITH A RESTAURANT

ORDINANCE NO. 4624 - ORDINANCE TO CONDITIONALLY ZONE 12 MIAMI CIRCLE FROM INSTITUTIONAL DISTRICT TO COMMUNITY BUSINESS II DISTRICT/CONDITIONAL ZONING FOR THE USE OF A DRIVE-UP WINDOW ASSOCIATED WITH A RESTAURANT

Urban Designer David Hazzard said that this is the consideration of an ordinance to conditionally zone 12 Miami Circle from Institutional District to Community Business II District/Conditional Zoning to install a drive-up window at an existing restaurant (Pizza Hut) that was previously approved as Level I project. This public hearing was advertised on November 3 and 10, 2017.

Drive thru uses are not permitted within the Institutional (INST) Zoning District, thus the applicant is pursuing a rezoning to Community Business II-CZ (CBII-CZ). This project is considered a Conditional Zoning review pursuant to Section 7-7-8 of the Unified Development Ordinance (UDO).

The site is zoned Institutional and consists of an existing 2,700 s.f. restaurant (Pizza Hut) located at 12 Miami Circle, PIN 9644-89-6900. The parcel is approximately 0.81 acres. Parcels to the north and east of the site are also zoned INST, to the west is Miami Circle road, and to the south is a narrow strip of land in between the subject parcel and Long Shoals Road that is zoned Low Density Single-Family (RS2).

The project proposes to remove four existing parallel parking spaces on the north side of the building to create a 10' wide drive thru lane. The developer is proposing that the drive thru will only be used for online / phone pickup orders and no separate ordering station or outside amplification will be installed. As per the B1 Conditions list, the hours of operation for the pickup window would be limited to 11:00 am - 11:00 pm Sunday - Thursday and 11:00 am - 12:00 am Friday and Saturday.

Vehicular access to the site is through an existing single driveway off of Miami Circle road. There is no direct access to Long Shoals Road for vehicles, pedestrians or bicyclists. A five foot wide planting strip and a five foot wide sidewalk exist along Miami Circle. The required range of parking spaces for this project is a minimum of 26 and maximum of 42. The applicant is providing 33 parking spaces around the buildings. Both the necessary number of handicap and bicycle parking spaces are provided.

All required landscaping has previously been approved and installed for this project.

Open space is not required for this project because the parcel is less than one acre.

The applicant is seeking to conditionally rezone the property to Community Business II-CZ for the purpose of expanding the uses permitted to allow for the drive thru facility not permitted under the current Institutional zoning district. However the Institutional zoning district does allow restaurant uses.

Conditions –

1. A new pick up window for the site with the following conditions: No separate ordering station or outside amplification will be permitted and hours of operation shall be limited to 11:00 am - 11:00 pm Sunday - Thursday and 11:00 am - 12:00 am Friday and Saturday.
2. There shall not be direct access to Long Shoals Road.
3. A safe pedestrian route from the existing public sidewalk to the restaurant shall be provided.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on June 26, 2017. This project was approved with conditions by the Technical Review Committee (TRC) on August 7, 2017, In addition the Planning and Zoning Commission unanimously approved this project on October 4, 2017. Final TRC review is needed prior to the issuance of any permits.

No communication has been received from the public as of the writing of this report.

The subject property is bordered to the north by a restaurant (White Duck Taco) and is zoned Institutional. To the east of the site are two single family residential properties, also zoned

Institutional. To the west is Miami Circle road, and to the south is a narrow strip of land in between this parcel and Long Shoals Road that is zoned RS2.

Long Shoals Road was widened to a four lane road (circa 2008) and this area represents a transition from a history of low density residential uses to one of a mix of highway businesses, higher density residential, medical facilities, and schools. The Long Shoals Road corridor has a number of existing auto oriented businesses; however, there are sidewalks, schools and a bus stop in the vicinity of this parcel.

Further, the city's draft Comprehensive Plan update, titled "Living Asheville", identifies the Long Shoals Road corridor as a transit-supportive corridor where multimodal transportation options should be considered. Thus, city staff has requested the applicant provide a safe pedestrian route from the existing sidewalk on Miami Circle to the restaurant and a bus shelter and pad at the adjacent existing bus stop on Long Shoals Road. These requests are to help mitigate the automobile oriented nature of a drive thru by increasing the options of modes of transportation. The Planning and Zoning Commision supported the request for the safe pedestrian route; however, they did not support the request for the bus shelter and pad. The applicant agreed to provide a safe pedestrian route from the sidewalk to Miami Circle and has updated the site plan to indicate this change.

The Skyland Exchange a multifamily residential project received a Conditional Zoning approval in 2016 for 290 multifamily residential units on 11.39 acres to the northwest of this project. A Level II project for a planned commercial center which includes a Bojangles on 7.08 acres was approved in 2016 to the north west of this project south west of this project.

The *Asheville City Development Plan 2025* ("Comprehensive Plan") highlights the importance of smart growth transportation policies and encourages multimodal transportation interconnectivity between neighborhoods and to destination areas such as parks and neighborhood shopping locations. In addition, the Plan states that new development projects should incorporate mass transit features where appropriate. Further, the Comprehensive Plan also identifies Long Shoals Road as a "Connecting Corridor." The purpose of the Connecting Corridor is to preserve the flow of traffic along major thoroughfares that connect compact centers of urban development. This project is an existing restaurant with no direct access to Long Shoals Road; therefore, it is compliant with the intent of a Connecting Corridor in preserving the flow of traffic. The proposed safe pedestrian connection from the restaurant to Miami Circle will help bring this project more in line with the Comprehensive Plan's smart growth transportation policies.

The proposed development most closely aligns with the goal of a *Transportation and Accessibility*. This proposal is a drive thru addition on an existing restaurant so it is difficult to deem that it wholly aligns with city goals. However, there are similar existing uses within this corridor and with the addition of a safe pedestrian route it most closely aligns with this goal.

Considerations:

- This is an existing restaurant with a proposed drive thru similar to other restaurants within the Long Shoals Road Corridor.
- The drive thru will be for online / phone pickup orders only and no separate ordering station or outside amplification will be installed.
- The applicant has agreed to to provide a safe pedestrian route from the restaurant to Miami Circle.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable and recommends approval of this request.

The Planning & Zoning Commission reviewed this request at their meeting on October 4, 2017, and voted 7-0 in support of the project. Commissioners supported this project with the condition that the applicant provide a safe pedestrian route from the existing sidewalk to the restaurant. The applicant has agreed to this condition and has included a revised plan with a safe pedestrian route shown.

Mr. Hazzard responded to Councilwoman Mayfield when she asked where this project is in relationship to the residential development recently approved and the other commercial development in the area.

Mayor Manheimer opened the public hearing at 5:39 p.m. and when no one spoke, she closed the public hearing at 5:39 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the Conditional Zoning request from Institutional to Community Business II-CZ Zone (CBII-CZ) to allow for the construction and operation of drive thru at an existing restaurant at 12 Miami Circle, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) supports moderately scaled commercial development near a commercial highway corridor; (2) is consistent with other existing restaurants and uses along the Long Shoals Road Corridor; and (3) provides a safe pedestrian route from the restaurant to Miami Circle. This motion was seconded by Councilman Haynes and carried on a 6-1 vote, with Councilwoman Mayfield voting "no."

ORDINANCE BOOK NO. 31 – PAGE 359

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 175 LYMAN STREET FROM RIVER DISTRICT TO MIXED USE EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 133 RESIDENTIAL UNITS, COMMERCIAL SPACE, RESTAURANT IN 5 BUILDINGS AND A PARKING STRUCTURE

ORDINANCE NO. 4625 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 175 LYMAN STREET FROM RIVER DISTRICT TO MIXED USE EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF 133 RESIDENTIAL UNITS, COMMERCIAL SPACE, RESTAURANT IN 5 BUILDINGS AND A PARKING STRUCTURE

Mayor Manheimer said that this public hearing was continued from June 27, 2017, to July 25, 2017, and then on July 25, 2017, to August 22, 2017. On August 22, the applicant requested it be continued to a date uncertain.

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone property located at 175 Lyman Street from River District to Mixed Use Expansion District/Conditional Zoning for the development of 133 residential units, commercial space, restaurant in 5 buildings and a parking structure. This public hearing was advertised on November 3 and 10, 2017.

The project site consists of three parcels totaling 2.88 acres in the heart of the River Arts District on the corner where Lyman Street turns south paralleling the French Broad River. It is the site of the former JR Stone Sales and the Carolina Coal and Ice Building, which was built in 1912. The entire site is in the 100-year Floodplain, which necessitates new construction being raised

two feet over Base Flood Elevation (BFE). The site is also in the River Arts District Transportation Improvement Project (RADTIP) area, and is immediately adjacent to the future roundabout at Riverside and Lyman Street.

Zoning to the north and south of the property is mostly River district, with the exception that Curve Studios on Riverside is zoned Urban Place. East of the project area, properties are currently zoned Commercial Industrial. The entire River Arts District is slated for rezoning through the River Arts Form-Based Code.

The project proposes to build a 133 apartments in four buildings and a 247-space parking structure between those buildings. The project also includes the rehabilitation of the Carolina Coal and Ice building, which dates to 1912, for a restaurant and offices. The four apartment buildings are structurally separate from the parking building are all six stories where the ground floor is not occupied (parking). Because the site is in the floodplain, there are not occupiable spaces on the ground floors. The Carolina Coal and Ice building has received a variance based on its historic status to allow ground floor occupancy.

The maximum height of the residential buildings as shown on plans is 70 feet, which complies with the standard in the Mixed Use Expansion district requirements (maximum height of 80 feet). This district has a density standard of 35 units/acre or 70 units/acre for projects with 20% affordable units. Due to the costs of building in the floodplain, the applicant is not able to commit to affordable units. An increased density from 35 units/acre to 46 units/acre is being requested.

Parking is provided both on the entire ground level and a second, smaller level, for a total of 247 spaces. It is intended that residents use the second level of parking and the ground floor is for the restaurant, office, studios and some residents. This is five percent lower (5%) than required by the UDO, but within this district, up to a 25% reduction in parking is allowed for projects that provide pedestrian and bike amenities. With the mix of uses the parking should be sufficient as proposed.

Automobile access to the site is provided by three driveways. On Lyman Street (North side) there is a three-lane driveway that is 36 feet wide, with one lane leading to the ground floor parking, and the other two lanes leading to the upper story of parking. On the future Riverside (currently Lyman along the west) there are two driveways, both 24 feet wide; one serves the ground floor parking, and the other is a ramp to the upper story of parking. Plans indicate 24 bicycle spaces will be located throughout the site.

Sidewalks are shown as planned under the RADTIP project. The developer/owner has not offered to pay for sidewalks as these are planned already as a part of the RADTIP.

Plans show building impact and parking deck perimeter landscaping, which are required. Due to the building and lot layout, some of the parking deck landscaping will be located on other parts of the site, but the total number of required plantings will be met. Street trees are also required, and the city is providing trees along the western edge through the RADTIP project. Street trees are not shown on the north side due to conflicts with utilities. The proposal includes planters on the roof of the parking structure (not required). Open space is required and is provided as five percent of the project area, and includes landscaped areas between the buildings and sidewalk as additional pedestrian amenities.

The new Mixed Use Expansion District has several design standards in Section 7-8-46. The project as proposed generally complies with these standards with the exception of providing operable entrances on each building at the street. Building 1 (corner building) and Building 4 do have an entrances on the west side along Lyman Street, which were added after meeting with the River Design Review Committee. However, Buildings 1 should have a second entrance on the

north side. Building 2, which is next to the railroad tracks does not have a pedestrian entrance due to the change of topography. Along the north side of Lyman, there is a pedestrian walkway that leads to entrance of the Carolina Coal and Ice Building, which is on the back side of the building.

Conditions – The applicant is requesting several conditions based on topography and financial feasibility.

1. Additional density from 35 units/ acre to 46.1units/acre. The cost of raising the occupiable floors out of the floodplain, and the materials being used drive up the cost of construction, and the applicant is requesting density at 46.1 units per acre.
2. The developer/owner will not be required to construct the sidewalks shown on the site plan. They will be constructed by the RADTIP project.
3. Building impact and parking deck landscaping will meet UDO requirements approved as shown on site plans with final placement to be shown on the final site plans. Street trees are approved as shown, and will be installed with the RADTIP.
4. Building entrances to the street are provide on the west side, for Buildings 1 and 4, but not along the north side of the project.
5. Impervious surface will not exceed 85% of the site.
6. The developer will make a $50,000 contribution to the Affordable Housing Trust Fund.

This project was approved with conditions by the Technical Review Committee (TRC) on May 15, 2017. The project was reviewed by the Asheville Area Riverfront Redevelopment Commission (AARRC) on May 11, 2017, for compliance with the River Design Guidelines for the Core Area. The AARRC voted to recommend approval of the project design for River Design Review with a 13-0 vote.

The Planning and Zoning Commission reviewed this project on June 7, 2017. The Commission voted 3-2 in favor of the project. One of the commissioners was concerned that the developer is asking for additional density but not willing to commit to affordable housing as a part of the proposed conditions. If approved by City Council, a Final TRC review is also required. Staff has not received any additional public comment outside of the public hearing at the Planning & Zoning meeting.

The change in zoning to the expansion district is required because the project reaches the Level III threshold of over 50 residential units.

Nearby the RAD Lofts were approved by City Council for 235 units under Urban Place Conditional Zoning. As mentioned earlier, the River Arts District Form-Based Code is proposed for this site and the surrounding area. If the Conditional Zoning is approved for this site, it will be taken out of the RAD Form-Based Code study area as conditional zoning will supersede any later changes to the zoning.

The proposed project, although a bit taller than most buildings in the area, should be compatible with the surrounding context. The River Arts District has had numerous larger industrial buildings, and many of the surviving buildings have been reused for artist studios, restaurants and shops. The building layout on the site which consists of four buildings with relatively small footprints (6600-8900 sf), placed at the four corners of the property, leaves breaks between the buildings, giving visual relief and helps make this project compatible with the surrounding area. The architectural style of the buildings seek to fit into the industrial context and

history of the area. The rehabilitation and reuse of the Carolina Coal and Ice building also contributes to the compatibility as it is part of what defines the River Arts District character.

The redevelopment of these parcels aligns with several aspects of the *City Development Plan 2025* including supporting infill development where infrastructure is already present, supporting urban development patterns and high quality development that complement and adds to the character of Asheville. The 2025 plan also provides that the riverfront should be redeveloped to maximize its potential both for quality of life and commercial opportunities.

The project also aligns with the Wilma Dykeman Riverway Plan, adopted by City Council in 2004. The plan envisions a "concentration of new and reused buildings offering live/work arrangements for artisans and those interested in living along the River."

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – The project is located in the heart of the River Arts District and will offer housing where residents can access local businesses, transit (1/4 mile away) and future greenways in close proximity; and (2) *Thriving Local Economy* – One of the keys to a thriving business district is having local residents who support small businesses as well as making it safer through eyes on the street throughout the day/night.

Considerations:

- The River Arts District is an Innovation District where Council is looking to promote private investment.
- Residential units in the River Arts District will add greatly to the long-term vitality of the district
- Preservation of the Carolina Coal and Ice building will help retain the character of the RAD.
- Applicant has not committed to the inclusion of affordable housing as outlined and provided by the density requirements in the Mixed Use Expansion District in the UDO. However, the developer is making a $50,000 contribution to the Affordable Housing Trust Fund.
- This is the first Mixed Use Expansion District CZ application, and one of the first larger projects that is fully in the floodplain in the River Arts District.

Staff recognizes that this proposal aligns with goals for redevelopment and revitalization of the riverfront and policies stated in the Comprehensive Plan and other plans, such as the Wilma Dykeman Riverway Plan and City Council's 2036 Vision Considerations. For those reasons, staff recommends approval of this project.

It would be preferable to have some affordable units built into the project, which is a provision of the zoning ordinance, or studios guaranteed at a rate affordable to local artists for a minimum period of time. Typically, when a development is proposed, public improvements along the street frontage are made by the developer, including sidewalks and street trees. The developer has not committed to building these improvements and staff recommends that these improvements be made by the developer.

The Planning and Zoning Commission reviewed this project on June 7, 2017. The Commission voted 3-2 in favor of the project and recommended Council approval of this Conditional Zoning request subject to Final TRC approval and the B-1 Conditions that were presented to Planning & Zoning. One of the commissioners was concerned that the developer was asking for additional density but not willing to commit to affordable housing as a part of the proposed conditions. At the time of the Commission meeting, the B-1 Conditions did not include public parking nor a $50,000 contribution to the Affordable Housing Trust Fund.

Mr. David LaFave, developer, said that they identified this land 5 years ago for their first development in Asheville and they spent 1.5 years in developing the full site plans. Their goals were to achieve three key things (1) meet all City existing guidelines and recommendations; (2) insure fit with old industrial character of the RAD and the surrounding neighborhood; and (3) preserve 100+ year Carolina Coal & Ice Building. During this process they worked closely with City staff and met with individual and RAD stakeholders. They were set to obtain Final TRC in late September-early October of 2016, but had to pause in order to resolve a technical RADTIP issue that would prevent building the project.

In response to Councilman Smith, Mr. LaFave said generally, the studio apartments would be approximately $750-800/month range; fairly large 1-bedrooms would be approximately $1,100/month; and 2-bedrooms would be in the $1,300-1,400/month range.

In response to Councilwoman Mayfield, Mr. LaFave said that the entire second floor will be 10 artist studios, with a lobby. He explained the features of the studio units and said that they are committed to making them affordable. He anticipated the rents to be in the range of $300-400/month (approximately 350 sq. ft. average) and perhaps the large artist studio spaces would be a little more than that.

When Vice-Mayor Wisler asked what, other than parking, could have been built on the ground floor, Mr. LaFave said they are putting in a restaurant on the ground floor (through a variance). There will be no residences on the ground floor.

Vice-Mayor Wisler said that it's Council's policy that developers make public improvements along the street frontage, including sidewalks. Mr. LaFave said that because sidewalks are shown as planned under the RADTIP Project, they do not have to install sidewalks. He noted if they waited a couple of years, the sidewalks would already be in the area.

Mayor Manheimer opened the public hearing at 6:03 p.m.

The following individuals spoke in opposition to the conditional zoning mainly because Asheville has an affordable housing crisis and there are no dedicated affordable housing units in this development:

Mr. Peter Lance, downtown resident
Mr. Casey Campfield
A west Asheville resident
Ms. Kim Roney

The following individuals spoke in support of the conditional zoning for several reasons, some being, but are not limited to: public parking; truly affordable artist studios; workforce housing; artist studios, development will bring other investments into the community; infrastructure improvements; and more people will be living in the RAD:

Ms. Pattiy Torno, RAD resident
Ms. Hedy Fischer, property owner in the RAD
Mr. Dave Campbell, RAD Business Association Chair
Ms. Helaine Greene, property owner in the RAD
Mr. Matt Wallace, property owner in the RAD
Representative of the NC Glass Center in the RAD

Mayor Manheimer closed the public hearing at 6:18 p.m.

In response to Vice-Mayor Wisler, Mr. LaFave said that there will be no short term rentals allowed in the apartments. He said that he would be willing to add that as a condition, Ms. Vrtunski said that there is currently a condition that reads "Approved uses of the development include residential, studio, retail, restaurant, office and parking. No other uses will be allowed."

Vice-Mayor Wisler was pleased with the adaptive reuse and public parking, but could not support the project at the expense of Council's other values - especially affordable housing being one of Council's highest priorities. Given the fact that the developer is not using the entire 20% density that would normally be for a project like this, she suggested the developer contribute $175,000 be deposited into the City's Affordable Housing Trust Fund (instead of $50,000). She explained she arrived at the $175,000 amount using the percentage of density that the developer is using above the right by use, multiplied by the City's typical subsidy for affordable housing and the $50,000 for sidewalks.

Councilman Smith said that the City has long term housing needs and Council has been asked to represent citizens of Asheville fewer than half of whom would be able to afford to be able to live in the building that we would be offering public subsidy to. The sidewalks are essentially a public subsidy and the density bonus is also essentially a public subsidy. There is also Council's policy to create more affordable housing. He felt this will also be setting a precedent for RAD. He would be open to adding more height to get some affordable units in the project. If that is not a conversation at this point, he would support Vice-Mayor Wisler's request for $175,000 to the Affordable Housing Trust Fund to help us make up that gap.

Councilwoman Mayfield agreed with the benefits of the project, and also with the concerns about the minimal contribution to addressing our affordable housing crisis. She had hoped there would be some agreement on the affordability of the artist studios. Addressing the City's needs has to be a partnership between private development and public resources. It costs approximately $17,000 a parking space and we need public parking in the RAD. Because the City doesn't have any plans to build public parking in the RAD, $17,000/parking space by 85 public spaces by this development is almost $1.5 Million. To others that are thinking about developing in the RAD, do not think that she is stepping back from the need for private developers to assist the City in solving our problems. Here on this project, she feels parking is not a bad deal.

Councilman Young said development in the RAD is going to be a fine balancing act. We have to make sure that the development of this area will benefit not only the people that visit Asheville but those that live here and have to deal with everyday tasks. Parking is important and some of the different mixtures in the RAD will be important to its viability moving forward. Developers need to understand that when it comes to putting forth good projects that they need to have a good mix.

Councilman Bothwell said that he has been involved in construction he is acutely attuned to the cost of building up. It will be very likely there will be parking under other new projects in this area in the future. He suspected the density increase was needed to pay for the extra expense of parking. He recognized we need affordable housing but we also need more housing units. He wondered if we will be able to impose affordability requirements on places that are expensive to build. He also felt the property in the RAD will be bid up quickly with the RADTIP project, which RADTIP project was to encourage development and activation of the RAD.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the conditional zoning request from River District to Mixed Use Expansion Conditional zone for the Stoneyard Apartments project with the

requested conditions and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the project redevelops an under-utilized property through infill and preservation of an existing historic structure; (2) the project substantially complies with the intent of the River Design Review Guidelines; (3) the buildings meet many of the requirements of the future form-based code; and, (4) the development of residential units in the area will support the redevelopment and revitalization of the River Arts District and the River Arts District Transportation Improvement Project. This his motion was seconded by Councilman Haynes and carried on a 5-2 vote, with Vice-Mayor Wisler and Councilman Smith voting "no".

ORDINANCE BOOK NO. 31 - PAGE 364

C. PUBLIC HEARING TO CONSIDER AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ADOPT THE RIVER ARTS DISTRICT FORM BASED CODE FOR THE GREATER RIVER ARTS DISTRICT AREA AND THE ASSOCIATED PROPERTY REZONING

ORDINANCE NO. 4626 - ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO ADOPT THE RIVER ARTS DISTRICT FORM BASED CODE FOR THE GREATER RIVER ARTS DISTRICT AREA AND THE ASSOCIATED PROPERTY REZONING

ORDINANCE NO. 4627 - ORDINANCE REZONING PROPERTIES IN THE RIVER ARTS DISTRICT FORM BASED CODE AREA

Mayor Manheimer said that this matter was continued from October 24, 2017, because there was a question on whether or not she had a conflict under the rules that govern licensed attorneys in North Carolina. She disclosed that her law firm has represented or represents one of the property owners in this area to be affected. After contacting the School of Government, she did not have a conflict in the rules as an elected official. After contacting the State Bar Association, she does not have a conflict to vote on this item.

Project Manager for the River Arts District Form Based Code Sasha Vrtunski said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to adopt the River Arts District Form-Based Code for the greater River Arts District area and the associated property rezoning. This public hearing was advertised on October 13 and 20, 2017.

Over the last two years, the city has been engaged with the River Arts District on new zoning districts for the area. The code calls for the creation of seven new zoning districts that are tailored to the area. At the July 25 City Council meeting, City Council directed staff to take out Lodging Facilities (20 guest rooms or less) as a use by-right from the mixed use districts. Because of this change, the code was remanded back to Planning & Zoning for review and a public hearing. Council also asked for Planning and Zoning to consider the area between the French Broad River and the railroad tracks and whether that area should be included in the zoning district.

For each district in the area, the focus is on the placement of buildings in relation to the public realm - or rather the street and sidewalk. The districts also define different allowable heights, setbacks, uses, and building frontage. This code divides the district into seven zoning types based on their location, topography, road widths and potential for a mix of development.

District Name	Primary Uses	Notes

RAD – Residential	Residential – some small in-home commercial/studios	Relatively small area of the district is in this zoning category.
RAD – Neighborhood Transition RAD – Shopfront RAD – Lyman Hollow RAD – River	Mixed Use, various heights depending on location Includes light industrial and in some districts, industrial.	Maximum heights vary between 3 and 7 stories. Scale is sensitive to adjacent neighborhoods. Height bonus for affordable housing in the RIV and SHP districts.
RAD – Industrial	Industrial uses, some secondary commercial allowed	Currently only on New Belgium location, but other property owners could request it
RAD - Open Space/Public Facilities	Park land, open space, trails, public facilities including community centers, playgrounds, fire stations, etc.	Allows for a small amount of commercial uses in support of recreation, such as bike rentals, snack bar, etc.

In addition to the above areas, there are a small number of parcels on the outside edge of the district where rezoning is being proposed to ensure that zoning is in line with community goals. Two of these parcels have remnants of older commercial zoning but would not be able to be developed commercially because of size, topography and street access. All three parcels in this case will be rezoned or partially zoned to RM-8, which is in harmony with the surrounding parcels. These areas are noted on the map with a purple hatch symbol.

Lodging Facilities - At the July 25 City Council meeting, Council directed staff to remove Lodging Facilities, 20 guest rooms and under, from the Permitted Use table as a use by-right. The code was changed to reflect this direction and an updated code was released on August 28. At the Planning and Zoning Commission meeting on September 6 there were nine people who spoke about the lodging issue. All but one of the speakers were against removing lodging as a by-right use, and several of these speakers were property owners that will be affected by this change. Several speakers asked for the Commission to postpone their decision so that the community in the district could give more feedback on the change to the code. One resident, a neighbor in East West Asheville, spoke against allowing lodging as a by-right use.

Area between the French Broad River and the Railroad - Also at the July 25 City Council meeting, Council directed staff to reconsider areas between the River and the Railroad tracks. This issue was discussed at the Planning and Zoning Commission meeting. No one came forward during the public hearing to speak on this issue. The Commission generally felt that taking this area out of the district would be a substantial change resulting in a reduction in the impact and usefulness of the ordinance. They agreed that they did not want to take this area out of the new form districts.

One small change in the ordinance before Council being requested is to remove 18 Little Big Lane from the rezoning area (PIN 9648-07-9847). It is nonconforming due to lack of access, and can only accommodate a single home. It does not match the form based code and the property owner has asked that his lot be removed from the code area.

Another issue that has come up this week is about Ralph Street. There is a very small portion of RAD-Residential, which allows for denser development than current zoning, removes

Commercial Industrial from part of the park property, and allows opportunities for some small businesses. Four of the lots are bisected and they are sloped. On three of the four lots, the homes front John Street so they can subdivide the lots for more density than the current RS-8 allows now. The height on the Commercial Industrial piece that the City owns (connected to the Dr. Wesley Grant Sr. Southside Center) is reduced to 3 stories.

Other Community Concerns - Another issue that arose at the Planning and Zoning Commission was a concern from residents of Vernell Avenue about the potential height in the RAD-Lyman Hollow district. These residents had made their concerns known at the Planning and Zoning Commission meeting in June, City Council in July and again at the September 6 meeting. Four residents of the area came forward to speak about the issue. During their discussion, the Commission decided not to recommend any changes to the RAD-LYH district. A few commission members stated that the RAD-LYH could be a potential location for affordable housing, and they did not want to limit the development potential in this area because of a few residents' viewshed.

The form code has been through the full review process including the Asheville Area Riverfront Redevelopment Commission on May 11, Planning and Zoning Commission on June 7 and City Council on July 25. Because of the changes to lodging as directed by City Council, it was remanded back to Planning and Zoning.

On September 6, the Planning and Zoning Commission reviewed the code again with the changes regarding Lodging Facilities and held a public hearing. The Commission voted 7-0 against the amended code as the Commission did not support removing lodging facilities as a by-right use from the River Arts District Form Code. There were 14 citizens who spoke during the public comment time as described above.

The Comprehensive Plan encourages denser sustainable infill development along existing corridors in the city. Changes to the UDO that further these goals is encouraged. Form codes are a newer innovative tool that focus on community goals developed through public processes highlighting input and involvement and this is encouraged in the Comprehensive Plan. This plan created with extensive community input provides a vision for the future of the River Arts District that includes mixed-use development and multimodal transportation along with a number of other community identified goals such as historic preservation, flexibility for property owners and economic health. The details of the form code proposal provide specific requirements that mesh with the community vision and furthers the objectives of the Comprehensive Plan.

Additionally, The Wilma Dykeman Riverway Master Plan envisions reuse and redevelopment of property and buildings in the River Arts District. The form-based code provides a predictable framework for that redevelopment to happen over time.

The River Arts District Form-Based Code fits within City Council's vision for *A Well-Planned and Livable Community* and *A Thriving Local Economy.* The code takes the community vision developed during the charrette process and numerous input sessions and brings it together in the zoning. The code provides a greater level of clarity and predictability for the community, property owners and developers. Given the large investment that the city is making in the district with new multimodal transportation infrastructure, the form-based code will complement those improvements. When the city has made investments in walkable urban realms, private investment has quickly followed as evidenced in the downtown. Lastly, the process used to develop the code also aligns with Council's goal of a *Connected and Engaged Community,* through the high level of engagement with stakeholders.

Staff recommends the adoption of the River Arts District Form-Based Code and believes that the form code and rezoning proposal are reasonable, are in the public interest and are

consistent with the Comprehensive Plan by laying the framework for mixed-use development, future job growth and housing. Moreover, the rezoning aligns with the River Arts District Transportation Improvement Project (RADTIP) and The Wilma Dykeman Riverway Master Plan in that it will help create a walkable, vibrant public realm and mixed-use district.

The Planning & Zoning Commission voted unanimously to not support the Code amendment based on the changes recommended by City Council on July 25. Through its discussion, the Commission indicated support for the entire code, with the exception of the change to take Lodging Facilities out as a by-right use in the form-based code.

Mayor Manheimer said that Council has received a lot of emails about land trusts and future uses of the City property on Ralph Street. The property is not on the market and there is no project currently pending for the City property (other than the expansion of the Dr. Wesley Grant Sr. Southside Center). Ms. Vrtunski agreed and said that this RAD-Residential does not preclude community land trusts, which is an incredibly important tool.

Councilman Smith suggested looking at allowing a temporary community garden for the area residents on the City-owned property behind Greens Mini-Mart.

In response to Councilman Haynes, Mayor Manheimer said that this Council gave direction to staff to hire a consultant to work with the community to develop a form based code proposal.

Mayor Manheimer opened the public hearing at 6:54 p.m.

Several individuals spoke asked Council to remove the Ralph Street area from the Form Based Code for several reasons, some being, but are not limited to: City property should be site of a community land trust; to rezone the Ralph Street area will cause gentrification; land should be made available for affordable housing;

Ms. Sarah Skinner, west Asheville resident
Ms. Matilda Bliss
Ms. Dee Williams
Representative of Black Lives Matters
Resident of south Asheville
Member of the WNC Green Party
Mr. Matt Shepherd
Resident of west Asheville
Ms. Kim Roney

Ms. Annalise Mundy spoke about the vulnerable slopes in the RAD-Neighborhood Transition District on Craven Street with no ordinance to protect properties from landslides.

Mr. Albert Sneed, attorney representing Asheville Waste Paper, asked that their three lots (12 acres) be left out the the RAD Form Based Code because if the buildings flood, they will have to rebuild to the new code, which costs will be enormous.

The following individuals spoke in support of adopting the RAD Form Based Code as presented by staff at this meeting:

Ms. Rachel Larson
Mr. Casey Campfield

The following individuals spoke in support of adopting the RAD Form Based Code as presented to Council on July 25 (which kept Lodging Facilities, 20 guest rooms and under, in the Permitted Use table as a use by-right) because this has been a 2-year process and it's not fair that Council asked the community to come up with a plan and Council changes it without the community's input):

Ms. Pattiy Torno, property owner in the RAD
Ms. Hedy Fischer, property owner in the RAD
Ms. Helaine Greene, property owner in the RAD

Mayor Manheimer closed the public hearing at 7:32 p.m.

Councilman Smith said Council wants to make sure that we are not squeezing out locals to make room for tourists. He said that the short term rental restriction is not a ban in that property owners can still ask Council permission to do rentals through individual conditional zoning changes. The RAD is not being singled out because there will be a more broad examination of all our districts with the RAD going first. He reiterated that including the Ralph Street area does not prohibit a community land trust.

Councilman Bothwell suggested Asheville Waste Paper be removed from the zoning. He felt we are trying to go back to the livable community and this in no way will cause gentrification.

In response to Councilman Bothwell's suggestion about removing Asheville Waste Paper from the zoning, Councilwoman Mayfield said the main goal of the zoning is to ensure that future owners of the property had to comply with the standards if they build a new structure.

Councilwoman Mayfield said this is an opportunity for us to say what we want the area to look like. We are trying to build a place that is special and unique. Regarding the process, she is a big believer in process and realizes the restriction of short term rentals in the RAD was not part of that process. But, Council keeps learning about how short term rentals continue to be a problem and it is one of the main factors driving unaffordability of our City. We must take advantage of the opportunities in front of us to get a handle on it.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Bothwell moved to approve the River Arts District Form-Based Code and zoning map as presented on July 25, 2017, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the code will encourage infill development and facilitate vibrant mixed-use neighborhoods; (2) the rezoning will complement the future RADTIP road realignment and infrastructure improvements; and (3) the proposal was developed with a robust input process that included input from property owners, businesses and stakeholders. This motion died for a lack of a second.

Councilman Smith moved to approve the River Arts District Form-Based Code and zoning map as presented by staff at this meeting, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the code will encourage infill development and facilitate vibrant mixed-use neighborhoods; (2) the rezoning will complement the future RADTIP road realignment and infrastructure improvements; and, (3) the proposal was developed with a robust input process that included input from property owners, businesses and stakeholders. This motion was

seconded by Vice-Mayor Wisler and carried on a 5-2 vote, with Councilman Bothwell and Councilman Young voting "no."

Councilman Bothwell felt the rule goes against the idea of the form based code. He also felt it creates different rules for short term rentals than in residential zones and other parts of the city. He felt it should be handled comprehensively

ORDINANCE NO. 4626 - ORDINANCE BOOK NO. 31 – PAGE 378

Councilman Smith moved to approve the rezoning of the real properties described in the Exhibit A map and associated with the River Arts District Form-Based Code, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways (1) the rezoning will encourage infill development, a vibrant public realm and facilitate healthy mixed-use neighborhoods; (2) the rezoning will complement the future RADTIP road alignment and infrastructure improvements; and (3) the rezoning embodies redevelopment goals in a designated innovation district. This motion was seconded by Vice-Mayor Wisler and carried on a 5-2 vote, with Councilman Bothwell and Councilman Young voting "no."

ORDINANCE NO. 4627 - ORDINANCE BOOK NO. 31 - PAGE 380

C. PUBLIC HEARING TO CONSIDER AN ORDINANCE AMENDING CHAPTER 7 OF THE CODE OF ORDINANCES TO REMOVE RIVER PARKING REDUCTION AREA IN ITS ENTIRETY

Mayor Manheimer said that this matter was continued from October 24, 2017, because there was a question on whether or not she had a conflict under the rules that govern licensed attorneys in North Carolina. She disclosed that her law firm has represented or represents one of the property owners in this area to be affected. After contacting the School of Government, she did not have a conflict in the rules as an elected official. After contacting the State Bar Association, she does not have a conflict to vote on this item.

Project Manager for the River Arts District Form Based Code Sasha Vrtunski said that this is the consideration of an ordinance amending Chapter 7 of the Code of Ordinance to remove river parking reduction area in its entirety. City Council heard this item on July 25 by remanded it to be reconsidered by the Planning & Zoning Commission at the same time as the River Arts District (RAD) Form Code. This public hearing was advertised on October 13 and 20, 2017.

In March 2011, the City of Asheville adopted reduced parking standards for the River Arts District to support the redevelopment of buildings in the area. The current section 7-11-2(c)(5) is provided as follows:

(5) *Parking requirements for the River Parking Reduction Area.* All properties located within the River Parking Reduction Area (see map: Planning and Development Department) will be eligible for reductions based on the following:

a. Projects with a base requirement of 30 spaces or less may receive a 50% reduction
b. Projects with a base requirement of 31-50 spaces may receive a 30% reduction
c. Projects with a base requirement of 51-75 spaces may receive a 20% reduction

These reductions may not be combined with other reductions offered through individual zoning districts.

Since that time, a number of new businesses have opened in the area, New Belgium has opened, and a new greenway on the west side of the river has been completed. All of which have resulted in a higher number of visitors to the River Arts District and parking has become generally scarce during peak times. If the new form code is approved, there will be new parking standards for this area which are slightly lower than the UDO standards for most other districts. Property and business owners have indicated to staff that more parking is needed in the area. The current parking reduction standards in the UDO are no longer appropriate for the area. This wording amendment is staff initiated to respond to changing circumstances and respond to community needs.

This wording amendment was reviewed by the Planning and Zoning Commission on June 22, 2017, and was approved 5-0. Staff has received no public comment on the amendment.

This wording amendment complies with City's Comprehensive Plan as it relates to exploring zoning tools that align with current trends and needs to encourage redevelopment and new investment.

The wording amendment aligns with the 2036 Council vision in the area of a Well-Planned and Livable Community. This amendment ensures that future development will provide adequate parking for those uses.

This proposal supports the goals outlined in the Comprehensive Plan and City Council 2036 Vision, the draft RAD form-code and staff recommends approval of the wording amendment.

The Planning and Zoning Commission reviewed the wording amendment again on September 7, 2017, and voted 6-1 in favor of the change.

Mayor Manheimer opened the public hearing at 7:53 p.m.

Mr. Matt Wallace recommended Council look for some sort of exemption for lots under .25 or .45 acres because you are severely restricted on what you can build on that lot. Ms. Vrtunski noted that there is a provision in the ordinance for narrow lots.

Mayor Manheimer closed the public hearing at 7:56 p.m.

Councilwoman Mayfield understands that the parking requirements in the form based code are less than the parking requirements in the current code and realized that is the direction that smart growth is moving. She wants us to be a step ahead but understood that we have not had the conversations with the RAD property owners. Eventually what she wants to do is to get rid of mandatory minimum parking requirements because that is the best way to create a walkable community.

Councilman Bothwell said that transportation is changing really fast and we won't need as much parking in the future.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the wording amendment removing the River Parking Reduction Area from Section 7-11-2(c)(5) in its entirety and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) Provides a consistent parking standard to support the viability of local businesses; and, (2) Ensures that the zoning code can adapt to the changing

needs of the River Arts District as it continues to grow. This motion was seconded by Councilman Young and said motion failed on a 3-4 vote, with Mayor Manheimer, Vice-Mayor Wisler and Councilman Haynes voting "yes"; and Councilman Bothwell, Councilman Smith, Councilwoman Mayfield and Councilman Young voting "no."

Councilman Smith suggested this matter around parking be referred to the City Council Planning & Economic Development Committee, with input from Councilwoman Mayfield.

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Homeless Initiative Advisory Committee, the following individuals applied for the vacancy: Kerry Keihn, Val Ball, Michelle Stowe Ong, Joey Grisanti, Angela Dubs, Marcia Bacoate, Donald Alexander, Kate Caton, Douglas Ray Oeser, Andrew Monroe, Timothy Moser, Bill Robinson, Michael Carlebach, Roberto L. Hess, Thomas Cash and Tamarie Macon. At the request of the Homeless Initiative Advisory Committee, it was the consensus of the Council to postpone appointments until after the Committee has had an opportunity to review all applications and make a recommendation.

A. RESOLUTION NO. 17-251 - RESOLUTION APPOINTING A MEMBER TO THE ALCOHOLIC BEVERAGE CONTROL BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the ABC Board.

The term of John Menkes expired on November 13, 2017.

The following individuals applied for the vacancy: Matt Massarelli, Mychal Bacoate and Lakota Denton.

It was the consensus of the ABC Board and the Boards & Commissions Committee to reappoint Mr. Menkes.

Vice-Mayor Wisler moved to reappoint John Menkes to serve an additional three-year term, term to expire November 13, 2020, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 187

B. RESOLUTION NO. 17-252 - RESOLUTION APPOINTING A MEMBER TO THE FIREMEN'S RELIEF FUND

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Firemen's Relief Fund..

There currently exists a vacancy, left by Alfred Kalahati, until January 1, 2018.

The following individuals applied for the vacancy: Raymond Tweed, Mark Klein and Jennifer Bosworth.

It was the recommendation of the Firemen's Relief Fund and consensus of the Boards & Commissions Committee to appoint Mr. Tweed.

Vice-Mayor Wisler moved to appoint Raymond Tweed to serve a two-term, term to expire January 1, 2020, or until his successor has been appointed. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 188

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Amy Kemp urged Council to continue to look at short term rentals and their impact on our housing availability.

Mr. Ben Stockdale, on behalf of Renew AVL, spoke to Council about establishing a commitment by the City to power municipal operations by 100% renewable energy.

Mr. Jackson Tierney said that Council should look have a comprehensive reassessment of short term rentals regulations with a possible rollback of short term rentals where they are now legal.

Mr. Peter Landis spoke about the increased presence of short term rentals downtown and felt we need a balance of retail and residential in the downtown.

Closed Session

At 8:16 p.m., Councilman Young moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Councilman Bothwell and carried unanimously.

At 8:35 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Bothwell and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:35 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – November 28, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Cecil Bothwell; Councilman Brian D. Haynes; Councilwoman Julie V. Mayfield; Councilman Gordon D. Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING DECEMBER, 2017, AS "BETTER BUSES TOGETHER MONTH"

Councilwoman Mayfield read the proclamation proclaiming December, 2017, as "Better Buses Together Month " in the City of Asheville. She presented the proclamation to Rev. Amy Cantrell and The People's Transit Campaign of Just Economics, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

At the request of Councilman Smith, Consent Agenda Item "F" was removed from the Consent Agenda for discussion and/or individual vote.

At the request of Councilman Young, Consent Agenda Item "G" was removed from the Consent Agenda for discussion and/or individual vote.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 14, 2017

B. RESOLUTION NO. 17-253 - RESOLUTION AMENDING THE 2017 CITY COUNCIL MEETING SCHEDULE TO DELETE THE DECEMBER 12, 2017, FORMAL MEETING AND RESCHEDULING IT TO DECEMBER 19, 2019

RESOLUTION BOOK NO. 39 - PAGE 189

C. RESOLUTION NO. 17-254 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE AN INTERLOCAL AGREEMENT ALLOWING BUNCOMBE COUNTY TO CONDUCT BUILDING PERMITTING AND INSPECTIONS FOR PHASE I OF THE AB-TECH CAMPUS CAPITAL IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute an Interlocal Agreement with Buncombe County to allow them to conduct the building inspections and permitting for Phase I of the Asheville-Buncombe County Technical Community College (herein "AB Tech") Campus 2017-2018 Capital Improvement Projects which are located within the City's jurisdiction.

In 2011, the voters of Buncombe County approved the levy of a One-Quarter Cent County Sales and Use Tax and the County Commissioners approved the use of additional revenues from this Sales and Use Tax to make certain capital improvements to the AB Tech Campus. Also in 2011, the State Board of Community Colleges delegated construction authority to the County (pursuant to Section 8.19 of Session Law 2011-145) under which the County will oversee the aforementioned Capital Improvement Projects which, in Phase I, will include major renovation and/or repair work on 11 buildings located on the AB Tech Campus. Since they will be overseeing the construction of these Projects, the County believes that it will be more efficient for it, rather than the City, to conduct the inspections and permitting for these Projects and has therefore, requested that the City grant it the authority to do so via City Council approval of an Interlocal Agreement. Pursuant to NCGS 160A-413, a City is authorized to allow a County to exercise their building inspection powers within part or all of the city's jurisdiction and pursuant to NCGS 160A-461, units of local governments may enter into contracts or agreements with each other in order to execute any undertaking.

The request to allow Buncombe County to conduct the inspection and permitting for these Capital Improvement Projects has been considered by members of the Development Services Department, including Director, Ben Woody and Chief Building Inspector, Mark Metheny and also by members of the Fire Department including, Chief Scott Burnette and City Fire Marshal, Kelly Hinz. It has been determined that there are no concerns with allowing the County to conduct the permitting and inspections for these Projects, with a few limited exceptions. The Interlocal Agreement will make clear that the County's authority is limited to renovation and repair projects and shall not include new construction. Additionally, the City will retain responsibility for reviewing and permitting any work that triggers compliance with City of Asheville planning and zoning, stormwater, grading/erosion control standards and regulations as well as City public safety communications requirements. Finally, the City's Fire Department will be included on the final County inspections for all permitted work as well as be notified by the County Fire Marshal if, and when, any fire safety systems are out of service in existing buildings. Additionally, the Asheville Fire Department shall retain responsibility for all periodic fire prevention inspections of all AB Tech existing buildings. The duration of the Agreement shall be limited to a period required to complete the Projects listed in Exhibit A (anticipated to be approximately 2 years), unless otherwise agreed by the parties.

Pros:

- The City is able to redirect much needed building safety resources to other development projects.
- The interlocal agreement allows the city to remain responsible for review, approval, and inspection of any work triggering planning and zoning, stormwater, grading and/or erosion control, and fire standards and regulations.
- The City is able to partner with the County.

Con:

- There is a loss of potential revenue associated with building permit fees.

The City would not receive fees for inspections conducted by Buncombe County but the City also will not being using its resources to conduct these inspections.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute an Interlocal Agreement, as well as any amendments or associated documents, in order to authorize Buncombe County to conduct inspections and permitting for the AB Tech Capital Improvement Projects.

RESOLUTION BOOK NO. 39 - PAGE 190

D. RESOLUTION NO. 17-255 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LICENSE AGREEMENT WITH SOUTH CAROLINA TELECOMMUNICATIONS GROUP HOLDINGS, LLC D/B/A SPIRIT COMMUNICATIONS FOR ANTENNAS AND RELATED EQUIPMENT AT 43 WALL STREET

Summary: The consideration of a resolution authorizing the City Manager to execute a license agreement with South Carolina Telecommunications Group Holdings, LLC dba Spirit Communications for antennas and related equipment at 43 Wall Street.

In response to increased demand for cellular service in densely populated urban areas, telecommunications companies are now employing smaller antennas that are more compact and can be mounted on poles or buildings. These types of installations are referred to as "Small Cell." Spirit Communications was granted a franchise agreement to install Small Cell equipment within the City's right-of-way on behalf of Verizon Wireless in September of 2015. A team of City staff, including real estate, legal, planning, strategic development, parking, and streets have been working with Spirit on the placement and installation of Small Cell equipment in and around downtown Asheville in accordance with the franchise agreement. Along Wall Street, Spirit has requested permission to install a Small Cell system on the Wall Street Parking Garage including 4 wall-mounted flush antennas on the exterior of the garage and an equipment box inside the garage. This installation does not impact the available parking spaces. This request would require a license agreement, since the Garage is technically City-owned property, not right-of-way.

Harry Brown, the City's Parking Services Manager, has been involved in these negotiations from the beginning and raised concerns about puncturing the walls of the Parking Garage structure for conduit and radio-frequency (RF) emission levels associated with this system. Per the City's request, Spirit procured a third-party consultant to perform an engineering review of the proposal and the results indicated that there would be no structural or RF impacts with this installation. Parking Services has approved the location and additional terms of the proposed license agreement stating that if during the term of the agreement the parking garage is reconstructed or repurposed in any way, Spirit agrees to relocate its equipment.

The Real Estate Coordinator researched appropriate rental rates for this installation and discovered a wide variety of rates from city to city where small cells were present. Many cities have not yet been approached about this type of infrastructure. Based on this research, staff recommends a rate based on the monthly rate of a parking space, plus a fee of $50 per antenna added to the monthly payment, bringing the total cost to $260 per month. This rate will escalate each year by 5%. The proposed term of the license is 5 years with the possibility to renew for an additional 5 years (10 years total). The Spirit equipment will be installed and maintained by Spirit Communications. In accordance with statute, public notice was provided 30 days in advance of Council's review of this item.

Pros:

- Locating the telecommunications equipment on the Wall Street garage is preferable to an alternate location on adjacent City right-of-way.
- Location of equipment does not interfere with parking spaces.
- Provides a revenue stream to the City of Asheville starting at $3,120 per year with an escalator clause that will increase revenues in future years.

Con:

- None noted.

Since the installation is located at the parking structure on Wall Street, the annual proceeds of the rent, totaling $3,120 per year, will benefit the Parking Enterprise Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute the license agreement with Spirit Communications.

RESOLUTION BOOK NO. 39 - PAGE 192

E. RESOLUTION NO. 17-256 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH SECURITY INNOVATIONS PROTECTIVE SERVICES LLC FOR UNARMED SECURITY SERVICES IN THE CITY'S PARKING GARAGES

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Security Innovations Protective Services, LLC for unarmed security services in the City's parking garages.

The City of Asheville, through the Parking Services Division, currently operates four parking garages, public restrooms, and several monthly parking and pay-by-space surface parking lots downtown. Parking Services Division utilizes a combination of City employees and contract security services workers to provide unarmed security services in these facilities. Generally, City employees work during the business day and early evenings while contract security services are used for fill-ins, special events, and during late evenings, weekends, and holidays. Use of contracted security services allows the greatest flexibility as needs vary greatly depending on time of year and events booked at the U.S. Cellular Center, outside special events, and availability. On some days Parking Services may only need two contract security service employees for normal shifts. At other times, Parking Services may need three to eight to support a major event downtown.

In September 2017 Parking Services requested proposals from interested vendors in providing unarmed security services. The Request for Proposals also required the vendor to provide vehicles for their guards which is a change from previous contracts. The City received three proposals on October 6, 2017. The review team, consisting of five members of the Transportation Department, determined that Security Innovations Protective Services, LLC provided the best value for the service. They are headquartered in Atlanta, GA.. The total cost of the one year contract will be $133,000.00 with an option to renew for 2 additional years. Respondents to the request for proposals were:

- Security Innovations Protective Services, LLC, Atlanta, GA $11.27 per hour
- Guard One, Newport, NC $15.75 per hour
- Walden Security, Nashville, TN $15.92 per hour

Pros:

- Provides safe and convenient facilities for residents and visitors parking.
- Using contract security service employees is the most cost effective and flexible manner to augment the Parking Services Division's staffing requirements.
- Allows parking Services to capitalize on extended weekend/nights/holiday hours and special event parking to provide better customer service.
- Vendor provides vehicles for their guards thereby reducing the City's liability of allowing non-employees to drive City vehicles.
- Vendor's decision to use electric vehicles helps reduce the carbon footprint in the downtown area.

Con:

- Total cost of $133,000.00 for one year with an option to renew for two additional years.

The necessary funds for the first year of the contract are already budgeted in the Parking Services' Operating Budget for FY 2017-18.

City staff recommends that City Council adopt a resolution authorizing the City Manager to sign a contract with Security Innovations Protective Services, LLC to provide unarmed security services in the City's parking garages and other facilities at a total cost of $133,000 annually with an option to renew for two additional years. And the option to extend the term of the contract for up to an additional two years to an amount in the approved budget. Also, further authorized to execute any change order to said contract which might arise during the time period of the contract up to the budgeted amount.

RESOLUTION BOOK NO. 39 - PAGE 193

F. RESOLUTION ADOPTING 2017 FOOD POLICY GOALS AND ACTION PLAN

This item was removed from the Consent Agenda for discussion and/or an individual vote.

G. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ASHEVILLE STAFFING RESOURCES INC. FOR TEMPORARY EMPLOYEE SERVICES IN THE CITY'S PARKING GARAGES, SURFACE PARKING LOTS, AND OTHER FACILITIES

This item was removed from the Consent Agenda for discussion and/or an individual vote.

H. ORDINANCE NO. 4628 - BUDGET AMENDMENT FOR THE PROCUREMENT OF HYBRID BUS BATTERIES AND SECURITY CAMERAS

Summary: The consideration of a budget amendment in the amount of $386,235, using $78,000 in local funds from the City of Asheville's FY15 Transit Bench and Shelters project and $308,235 in federal funds from multiple open federal grants, for the procurement of hybrid bus batteries and security cameras.

The City of Asheville has funds remaining in the following grants; NC-90-X439-01, NC-90-X395-01, NC-90-X475-00 and NC-90-X503-00. The City would like to use the remaining funds for the procurement of hybrid bus replacement batteries and security cameras to be located on buses and for both the ART Station and the Art Operations and Maintenance Facility.

The City of Asheville has remaining funds from multiple federal grants. The remaining federal funds equal $308,235. The funds within these grants are expiring soon and need to be expended prior to December 29, 2017. Security cameras on transit buses and at the transit facilities are outdated and do not provide high definition quality and do not operate well. The Transportation Department would like to purchase high definition cameras that will recognize license plate numbers and faces so we can properly monitor suspect activity to help keep these facilities and Asheville residents safe.

Funding for the replacement batteries totals about $251,800 and is anticipated to fund four battery packs and funding for the security cameras totals about $134,400 and is anticipated to fund eight cameras per bus as well as cameras at the transit center and garage facility.

This report is being reviewed by the Finance Committee on November 28th and if anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pros:

- The bulk of project funding is provided by the FTA, covering approximately 80% ($308,235) of the total project cost ($386,235).

Con:

- The City of Asheville is responsible for the local match of $78,000.

The total combined financial impact for the projects is $386,000. Asheville's local match for the security cameras and batteries is approximately $78,000; funds for the match are currently available in the FY15 Transit Bench and Shelters project.

Staff recommends that City Council adopt a budget amendment in the amount of $386,235, using $78,000 in local funds from the City of Asheville's FY15 Transit Bench and Shelters project and $308,235 in federal funds from multiple open federal grants, for the procurement of hybrid bus batteries and security cameras.

ORDINANCE BOOK NO. 31 - PAGE 386

I. RESOLUTION NO. 17-259 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A PERMANENT UTILITY EASEMENT TO DUKE ENERGY PROGRESS INC. OVER CITY-OWNED REAL PROPERTY AT 171 SOUTH CHARLOTTE STREET

Summary: The consideration of a resolution to convey an easement to Duke Energy Progress, Inc. over a portion of City-owned property along South Market Street.

The City of Asheville owns real property at 171 S. Charlotte Street (PIN 9648-49-9147) identified as the Public Works Garage. There is a substantial number of large and complex improvements on this site. The topography of the site is such that there is a dramatic drop in elevation from the Beaumont/South Market Street side of the parcel to the rear of the buildings fronting South Charlotte Street. The Public Works buildings are located on the flat portion of the parcel with road frontage along South Charlotte Street. Duke Energy Progress is requesting to locate a utility pole at the Beaumont/South Market intersection, which is at the top of the steep bank at the rear of the parcel. Duke is requesting a 30 foot easement with restrictions on what can occur beneath the lines once they are installed. This permanent easement would impact approximately 240 square feet.

This request was precipitated by a requirement that the developer of the adjacent condominium complex on South Market Street keep City street lights active in the area. In order to meet this requirement, additional utility poles must be installed in the area and Duke is requesting to install a pole on the City's property.

The manager of the Streets Division in the Public Works Department along with the Real Estate Coordinator met with Duke's right-of-way agent and engineer on site. Public Works has no objections to the easement because of its location at the rear property line along a narrow ridge. The topography in this area does not make it amenable to future development; therefore, the easement does not present an impediment to the existing uses nor future development of the City-owned site. The existing utility lines along South Market Street will be connected to the new utility pole / street light, so no compensation is offered for this easement.

Pros:

- The addition of a power pole in this location will allow the developer to comply with City Lighting Requirements.
- Increased lighting will improve visibility in the area at a key intersection.

Con:

- None

Staff recommends City Council adopt a resolution granting the permanent easement for utility pole and associated distribution lines at the intersection of Beaumont and South Market streets.

RESOLUTION BOOK NO. 39 - PAGE 201

J. RESOLUTION NO. 17-260 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR FUNDING FROM THE N.C. DEPT. OF TRANSPORTATION FISCAL YEAR 2019 URBAN STATE MATCH PROGRAM, AND IF AWARDED, ENTER INTO SAID AGREEMENT

Summary: The consideration of a resolution authorizing the City Manager to apply for funding from the North Carolina Department of Transportation FY 2019 Urban State Match Program.

The North Carolina Department of Transportation - Public Transportation Division is soliciting requests for Urban State Match Funding to be applied as a match to Federally-funded facility or vehicle projects.

The City is required to purchase buses every year in order to maintain a healthy fleet. Transit vehicles are a huge capital cost that each demand significant resources to operate for their 12-year life. The City operates a peak fleet of 17 transit buses and maintains a total of 22 buses. In order to maintain operational efficiency and avoid spikes in capital outlays for new buses, one to two new buses should be purchased annually but due to a lag in purchases we are currently purchasing five vehicles.

The current opportunity for Urban State Match funding would provide up to up 10% ($495,591) of the total lifecycle cost of the five buses ($4,955,913), which includes the upfront capital costs as well as 12-years of battery lease payments.

This report is being reviewed by the Finance Committee on November 28th and if anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pro:

- If awarded, the grant would provide $495,591 in funding that would otherwise have to be provided by the City's general fund

Con:

- The city share of the purchase would total $1,790,913

The total life-cycle cost of $4,955,913 will be supported with $2,544,409 from FTA, $125,000 from Proterra, and $495,591 from the grant. As a result, the City's local match for this purchase would be reduced from $2,286,504 to $1,790,913, of which $600,000 is currently budgeted in the FY 2018 CIP and $1,190,913 would be provided from future transit fund

operating budgets using diesel fuel savings resulting from the transition from diesel to electric vehicles.

Staff recommends City Council adopt a resolution authorizing the City Manager to apply for funding from the FY 2019 Urban State Match Program.

RESOLUTION BOOK NO. 39 - PAGE 202

K. RESOLUTION NO. 17-261 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH MATTERN & CRAIG INC. FOR THE BOND SIDEWALK BUNDLE B DESIGN PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a professional services contract in the amount of $573,725.00 plus a contingency of 10% ($57,372.50) with Mattern & Craig Inc. of Asheville, NC. for the project known as Bond Sidewalk Bundle B Design, City of Asheville Contract #91800177.

The areas that were identified for the project have large pedestrian use and there is no sidewalk available or gaps missing between sections.

Project Name	Professional Services Contract $$	Contingency Amount	Total Project Budget	Percentage of Contract Vrs Project
Patton Ave- X1805	$87,275.00	$8,727.50	$616,000.00	14%
Johnson Blvd- X1804	$210,950.00	$21,095.00	$1,434,500.00	15%
New Haw Creek- X1806	$168,750.00	$16,875.00	$1,120,000.00	15%
Onteora Blvd- X1807	$106,750.00	$10,675.00	$588,000.00	18%
SUM	**$573,725.00**	**$57,372.50**	**$3,758,500.00**	15%

The areas identified will help to ensure that the City of Asheville remains compliant with current City standards and Americans with Disabilities Act. The RFQ was advertised on March 31, 2017. Design firms/ Engineers that submitted were the following:

Anchor QEA, of Asheville, NC
Mcgill and Associates,of Asheville, NC
Vaughn and Melton Inc, of Asheville, NC
Siteworks of Asheville,NC
Mattern and Craig, of Asheville, NC
Davenport, of Winston-Salem, NC
Henson Foley of Huntersville,NC
Wetherill of Raleigh,NC

Mattern & Craig Inc, of Asheville, NC proposes to perform all of the design work included in the contract. Work covered by this contract includes surveying, development of construction documents, permitting, environmental documents and community outreach. Right of way and easement negotiation can be added at an additional cost.

A 10% contingency ($57,372.50) has been added to allow payment for any unforeseen costs that typically arise during construction and design. The work produced from this design service contract will construct new sidewalk and fill in missing gaps to make existing sections of sidewalk connect with new sidewalk.

Pros:

- Design of sidewalk that will meet City and National standards.
- Improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The total cost of this contract, including contingency, is $631,097.50. The project was authorized as a 2016 general fund bond project. These projects are initially funded using the the City's capital reserve funds which will then later be reimbursed through the issuance of bonds. The remaining funds in this budget will be used for construction of sidewalks in the project. These construction contracts will be presented to Council during a later meeting.

City staff recommends City Council adopt the resolution awarding the contract to Mattern & Craig Inc, of Asheville, NC. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $573,725.00 plus a contingency of $57,372.50 (10%) for the contract known as Bond Sidewalk Bundle B Design, City of Asheville Contract #91800177.

RESOLUTION BOOK NO. 39 - PAGE 203

L. RESOLUTION NO. 17-262 - RESOLUTION AUTHORIZING THE CITY TO PARTICIPATE IN DUKE ENERGY PROGRESS' SMALL BUSINESS ENERGY SAVERS PROGRAM AND TO ENTER INTO A SOLE SOURCE CONTRACT WITH LIME ENERGY FOR THE PURPOSE OF INSTALLATION OF ENERGY EFFICIENT LIGHTING IN PUBLIC WORKS BUILDING A

Summary: The consideration of a resolution authorizing the City Manager to participate in Duke Energy Progress' Small Business Energy Saver Program and to enter into sole source provider contract for the purchase and installation of energy efficient lighting in Public Works A Building.

The electric utility Duke Energy Progress' Small Business Energy Saver (SBES) Program pays for energy efficiency upgrades up front, and covers up to 80% of the total project costs.

The Public Works building provides an opportunity to utilize the SBES program while yielding an estimate of $7,753.80 in annual energy savings. In terms of carbon reductions, the project will yield 65.6 MTCO2e towards our annual 4% carbon reduction goal the City has adopted.

Staff has analyzed the potential and costs for the project and determined that the SBES Program is a unique opportunity to leverage significant up front capital funding from Duke Energy Progress. The total cost to the City would be $75,322.40; however, utilizing Duke Energy Progress' utility incentive program, the project offsets the cost by 24%. This cost includes parts, labor and project management. The total cost of the project is $55,937.76 and will be funded from the green saving funds that are part of the Sustainability FY 2017-18 Budget.

The SBES Program is run through a single authorized contractor, Lime Energy. In order to participate in the SBES Program, the City needs to pursue a single source provider contract

with Duke Energy Progress / Lime Energy. See Exhibit A and Exhibit B. This is allowable as per N.C.G.S. 143-129(e)(6) which states that "the governing body of a political subdivision of the state shall approve the purchase of apparatus, supplies, material or equipment without formal bidding when (i) performance or price competition for a product are not available; (ii) a needed product is available from only one source of supply; or (iii) standardization or compatibility is the overriding consideration."

These energy efficiency upgrade supports City Council's 2036 Vision through a Clean and Healthy Environment and Smart City; additionally, the scope of work supports Resolution 07-90, establishing energy conservation goals and benchmarks as well as Resolution 11-77, increasing the municipal carbon footprint reduction goal to 4% every year.

Pros:

- Supports Resolution 11-77, reducing the City's municipal carbon footprint
- Leverages a DEP incentive which contributes to $19,384.64 of the total project cost

Con:

- None Identified

As noted above the total cost of the project is $55,937.76, with funding utilized from the green savings that are part of the Sustainability budget. Once complete, the upgrade will produce an estimate of $7,753.80 savings of energy costs per year.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a sole source contract to purchase and install energy efficiency lighting as part of Duke Energy Progress' Small Business Energy Savers Program.

RESOLUTION BOOK NO. 39 - PAGE 204

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Smith moved for the adoption of the Consent Agenda, with the deletion of Consent Agenda Items "F" and "G". This motion was seconded by Councilman Young and carried unanimously.

ITEMS PULLED FROM THE CONSENT AGENDA FOR DISCUSSION AND/OR AN INDIVIDUAL VOTE

G. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH ASHEVILLE STAFFING RESOURCES INC. FOR TEMPORARY EMPLOYEE SERVICES IN THE CITY'S PARKING GARAGES, SURFACE PARKING LOTS, AND OTHER FACILITIES

Summary: The consideration of a resolution authorizing the City Manager to enter into a contract with Asheville Staffing Resources, Inc. for temporary employee services in the City's parking garages, surface parking lots, and other facilities.

The City of Asheville, through the Parking Services Division, currently operates four parking garages, public restrooms, and several monthly parking and pay-by-space surface parking lots downtown. Parking Services Division utilizes a combination of City employees and

contract temporary workers to provide service and customer assistance in these facilities and lots. Generally, City employees work during the business day and early evenings while contract temporary services are used for fill-ins, special events, and to extend garage and public restroom hours during late evenings, weekends, and holidays. Use of temporary workers allows the greatest flexibility as needs vary greatly depending on time of year and events booked at the U.S. Cellular Center, outside special events, and other large venues downtown. On some days Parking Services may only need one temporary service employee to fill in for a City employee sick or on vacation. At other times, Parking Services may need six to 15 to support a major event downtown.

In June 2017 Parking Services requested proposals from interested vendors in providing temporary service employees. The City received only one proposal which remained unopened. Wanting to ensure the City received the best possible proposals, the request for proposal was re-issued in August 2017. At that point, the City received two proposals. The review team determined that Asheville Staffing Resources provided the best value for the service. They are located in Asheville. The total cost of the contract will be $96,000.00, for the remainder of this fiscal year, with an option to renew for 2 additional years. Respondents to the request for proposals were:

- Asheville Staffing Resources, Asheville, NC, $14.70 per hour
- Alliant Global Strategies, Inc., Richmond, VA, $14.94 per hour

Pros:

- Provides safe and convenient facilities for residents and visitors parking.
- Using temporary service employees is the most cost effective and flexible manner to augment the Parking Services Division's staffing requirements.
- Allows parking Services to capitalize on extended weekend/nights/holiday hours and special event parking to provide better customer service and to bring in additional revenue.

Con:

- Total cost of $96,000 with an option to renew for two additional years.

The necessary funds for the first year of the contract are already budgeted in the Parking Services' Operating Budget for FY 2017-18.

Staff recommends City Council adopt a resolution authorizing the City Manager to sign a contract with Asheville Staffing Resources to provide temporary services in the City's parking garages and other facilities at a total cost of $96,000 annually with an option to renew for two additional years. Also, further authorized to execute any change order to said contract which might arise during the time period of the contract up to the budgeted amount.

When Councilman Young asked if these services can be filled by City staff, Parking Services Manager Harry Brown explained that we primarily use these temporary staffers for special event parking. He said it's a way for us to have the flexibility to bring staff in when we need them and not pay for it when we don't.

In response to Councilman Young, Mr. Brown said that we do not know if Asheville Staffing pays their employees a living wage. City Attorney Currin said that if we ask Asheville Staffing if they pay a living wage, they answer it, and they don't get the contract, it looks like we considered it for awarding the contract. We have consulted with the School of Government and they have advised us not to ask since the statute says that we cannot consider that for awarding a contract.

In response to Councilwoman Mayfield, Mayor Manheimer suggested this matter be referred to the Finance Committee and City Attorney Currin said that they would research legal options for the City to perhaps accomplish Council's standard for employees being paid a living wage.

Councilman Young said that employers should know that the City of Asheville supports employers pay a living wage to their employees.

Since this contract will not go into effect until January 1, 2018, Councilman Smith moved to table this item until the December 19, 2017, meeting. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

F. RESOLUTION NO. 17-257 - RESOLUTION ADOPTING 2017 FOOD POLICY GOALS AND ACTION PLAN

Summary: The consideration of Council adopting the proposed 2017 Food Policy Goals and Action Plan.

In 2013 Asheville City Council adopted Resolution 13-17 establishing the City of Asheville's Food Action Plan in support of the Asheville Buncombe Food Policy Council Agenda. On September 6, 2016 the City Council adopted a strategic priority to revisit the 2013 Food Policy Action Plan.

The City engaged Asheville Buncombe Food Policy Council (ABFPC), with Bountiful Cities acting as the fiscal agent, to produce the revised plan. ABFPC, through a nine-month community engagement process produced the 2017 Food Policy Action Plan.

The resulting 2017 Municipal Food Policy Goals and Action Plan has a broader scope of impact and aims to position Asheville as a regional leader in comprehensive food planning.

Based on community feedback, the following food policy focus areas and goals were identified:

1. Focus Area: Food Access and Distribution
2. Focus Area: Farms, Food Production and Processing
3. Focus Area: Community Food Education
4. Focus Area: Resource Stewardship
5. Focus Area: State Food Policy and Legislation
6. Focus Area: Emergency Preparedness

The 2017 Food Policy Goals and Action Plan provides a comprehensive list of action steps that support the food policy focus areas and goals. Action steps reflect prioritization of (1) planting more food; and (2) creating metrics to build a foundation for tracking Asheville's food system achievements. Future action items will be guided based on metrics created through the assessment process, reviewed by the Sustainability Advisory Committee and the budget process.

The 2017 Municipal Food Policy Goals and Action Plan were reviewed by the Sustainability Advisory Committee on Energy and the Environment at their August meeting. Planning and Economic Development Committee reviewed the plan in October and November; prioritizing the planting of more food and creating metrics over the next two years.

Pros:

- Identifies long term food policy focus areas and goals

- Creates a framework for addressing Asheville's food systems
- Aligns with the City's Comprehensive Plan
- Advocates State food policy and legislation

Cons:

- Performance measures unidentified
- Formal relationships with key stakeholders and other governmental entities have yet to be developed

The Fiscal Year 2018 budget includes $15,000 to continue the relationship with ABFPC addressing action items listed in the 2017 Food Policy Action Items and Costs. Over the next two years the City will focus its efforts on the prioritized action items working through the Fiscal Year 2019 budget process.

Staff recommends City Council adopt a resolution authorizing the City Manager to adopt the Municipal Food Policy Goals and Action Plan.

Councilman Smith was pleased to have this product before Council tonight. Council has made this a priority and we have an array of partners who are willing to help us. We prioritized the planting of more food and creating a metrics to build a foundation for tracking Asheville's food system achievements. He thanked everyone who worked on this broad community process.

The following individuals spoke in support of the Municipal Food Policy Goals and Action Plan:

Ms. Kiera Bulan, Coordinator for the Asheville-Buncombe Food Policy Council
Ms. Gabrielle White, representing Patchwork Urban Farms
Ms. Nichole Hinebaugh, representing Bountiful Cities

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Smith moved to adopt Resolution No. 17-257. This motion was seconded by Councilman Bothwell and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 194

III. PRESENTATIONS & REPORTS:

A. Aaa RATING FROM MOODY'S INVESTOR SERVICES

Chief Financial Officer Barbara Whitehorn said that in August, 2015, Standard and Poor's Rating Services (S&P) awarded the City of Asheville the highest rating for its General Obligation (GO) debt, AAA. At that time, Moody's affirmed the City's GO rating of Aa1, one step below their highest rating of Aaa.

Now two years later, the City is well into work on it's major capital improvement program and has gained approval from the voters for $74 million of projects to be funded with General Obligation debt, moving the City forward with investments in strategic goal areas and infrastructure. Analysts from Moody's visited Asheville again in September, 2017. On October 10, 2017, City staff was notified that Moody's had increased the City's ratings for debt. The City's General Obligation debt was awarded the highest rating: Aaa.

The City issues several different types of debt, depending on the type of acquisition or project, and its purpose. These types of debt include: short-term installment financing, General

Obligation bonded debt, Limited Obligation bonded debt, Special Obligation bonded debt, and Revenue bonds.

General Obligation debt is the highest rated of the long-term debt options available to the City. Limited Obligation and Special Obligation Bonds and are usually rated one and two steps down from a government's General Obligation (GO) debt. This reflects the relative security of the revenue or assets backing the bonds. GO debt is the most secure, because it is secured by the property tax collections of the City, often referred to as "the full faith and credit" of the the City. LOBs are secured by a master indenture, a group of city-owned properties that are used as collateral. Ideally, these should be the most critical physical assets owned by a city, City Hall, fire stations and other municipal facilities. Properties that could easily be sold or repurposed are not used as part of the master indenture. SOBs are unique in that they are backed by sales and other taxes not levied by the City. Because the City has little direct control over these revenue streams, SOBs are rated lower than either GO debt or LOBs. Following are the current ratings for City of Asheville debt. (Each debt issuance requires a new rating or a confirmation of the existing rating.)

Agency	GO Bond Rating	LOBs Rating	SOBs Rating
Moody's	Aaa	Aa1	Aa2
Standard & Poor's	AAA	AA+	AA

With the increased rating from Moody's, the City's General Obligation debt is now rated prime investment grade, the highest rating recognized by the markets, by both Moody's and S&P.

Mr. Doug Carter, with Moody's Investor Services, updated City Council on the City of Asheville's debt. He reviewed (1) What is a credit rating, and who are S&P and Moody's?; (2) What is the importance of the highest credit ratings?; (3) What do the highest ratings say about Asheville?; (4) City infrastructure improvements and economic development; (5) Maintaining the ratings; and (6) Role of sound/strong policy-making and management.

B. QUARTERLY OPERATING AND CAPITAL BUDGET REPORTS

Director of Finance Barbara Whitehorn provided the Council with a report that reflects financial information on the City's overall financial position for the fiscal year through September 2017.

It is important to note that per North Carolina State accounting guidelines, the City accrues 90 days of revenue received from the State to the fiscal year ended June, 30. These revenues include sales and use taxes, utility taxes and ABC revenue received through September 30, 2017. Estimates forecast for these revenue for the fiscal year 2017-18 in this report are based entirely on historic trends.

Amendments. There were two budget amendments in the General Fund during the first quarter. The chart below shows the additions to the Adopted General Fund Budget.

Adopted General Fund Budget:	$120,705,145
Amendments:	

Grant for the City's Urban Forest Program	$6,000
Transit contract that exceeded estimates (Fund Balance)	$441,000
Amended General Fund Budget 9/30/2017	$121,152,145

Revenues. Through September 30, 2017, the City has collected $10.4 million in General Fund revenue, which represents approximately 9% of the amended General Fund revenue budget. With so little collection data available through the first quarter, staff bases most of its FY 2017-18 revenue projections on prior year results and multi-year trends. Property and sales taxes make up just over 70% of total General Fund revenue, and staff is currently projecting both of these revenues will end the year very close to budget estimates. Overall, Budget staff is currently projecting that ***FY 2017-18 General Fund revenue will finish the year at $120.4 million, which is $827,000 or 0.7% above the revised budget.***

Expenditures. General Fund expenditures through September 30, 2017 totaled $27.0 million or 22% of the amended budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are on budget through the first quarter. Overall, staff is projecting that ***FY 2017-18 expenditures (including actual expenses and encumbrances) will finish the year at $120.2 million.***

Fund Balance. The City began FY 2017-18 with an unassigned fund balance of $20.1 million, after subtracting out the $1,181,000 fund balance appropriation included in the adopted budget. Unassigned fund balance equated to 16.6% of the adopted FY 2017-18 budget. After the start of the fiscal year, City Council approved the additional $441,000 fund balance appropriation noted above. This additional appropriation is reflected in the amended 9/30/2017 budget, which shows an unassigned fund balance of $19.6 million or 16.2% of budgeted expenditures. ***Based on current revenue and expenditure projections for FY 2017-18 (above), staff is forecasting a $1.7 million increase to the unassigned fund balance at June 30, 2018, for an estimated unassigned fund balance of $21.4 million or 17.8% of estimated expenditures.***

As with projected revenues through the first quarter, the estimate for an increase to fund balance is based on historical trends and forecasting. While an early estimate is provided, it is important to understand that there is minimal performance data available as of September 30. Forecast confidence will increase when second quarter results are available and current estimates have been borne out by actual financial performance.

She then reviewed the following July - September 2017 enterprise funds: Water Resources Fund, Street Cut Utility Fund, US Cellular Center Fund, Stormwater Fund, Transit Fund, and Parking Fund.

Capital highlights include (1) North Fork Dam Improvements - $35 Million (a) new spillway and armament of the dam; and (b) improves dam safety and meets State standards and climate resiliency expectations; (2) RADTIP - $27 Million (a) transportation improvements in the River Arts District; and (b) area enhancement to improve area redevelopment; (3) Martin Luther King Jr. Drive Improvements (GO Bond) - $2.5 Million - roadway and sidewalk improvements; and (4) bond stakeholder meetings (a) internal enhancement of project coordination with team

stakeholders; (b) communications plans and charters part of the development process; and (c) multiple budget checks - start early in a project and continue throughout project development.

GO Bond highlights include (1) total number of projects or project bundles - 32 (a) stand alone project examples include Jake Rusher Park, Haywood Street Improvements; and (b) bundled project examples include outdoor court improvements, bus shelters; (2) projects in design - 17 (a) project examples include Montford Complex, Bond-funded traffic signals; and (b) total value of design contracts awarded - $1,260,352.50; and (3) projects under construction contract - 2 (a) project examples include bus shelters, road resurfacing including Martin Luther King Jr. Drive; and (b) total value of construction contracts awarded - $4,431,912.70.

C. CITY COUNCIL STRATEGIC PRIORITIES UPDATE

Interim Assistant City Manager Jade Dundas provided Council with a quarterly update on the City Council Strategic Priorities. He said that in January 2016, Asheville City Council created a 20-year vision for the city. This Council vision reflects Asheville's unique character and the aspirations for the community. Council has used the vision as a guide when developing policies and priorities. He then focused on the progress and work being done on the Equity and Inclusion Initiative. For an update of all the strategic priorities, a document is available on-line. Council's vision states that, "We use a racial equity lens to review and achieve our city's strategic goals in health, education, housing, and economic mobility." Kimberlee Archie, the Equity and Inclusion Manager is leading the initiative.

The City of Asheville officially kicked off its Equity and Inclusion initiative on September 25, 2017, by bringing together a cross-section of employees, named the Equity Core Team, to increase understanding and skills for establishing the use of an equity lens in all City program and policies. Opportunities to learn about equity and inclusion are available at work and in the community. During October UNC-Asheville Center for Diversity Education will host two lectures that will help to give context to the work the City is undertaking.

The Parks and Recreation Racial Equity Action Plan is an internal working document that will guide racial equity work during 2017-20. It reflects what staff have heard from community members and groups through existing relationships and projects, and captures ongoing work from the past year's, work that was initiated this year, and new initiatives. It establishes timelines, accountability and performance measures for each action. Furthermore, it outlines key steps to ensure staff are equipped with necessary training, knowledge and tools to integrate racial equity into their work and the organization a whole. The Racial Equity Action Plan is a working document, and as such, it will be continually enhanced and improved upon through future staff and community dialogue. The action plan supports ongoing internal transformational change to ensure a continued high level of service to the evolving community. The Racial Equity Action Plan is organized under five goals:

1. Creating/developing/fostering a culture that values and advances racial equity.
2. Create an effective and inclusive government that engages all communities.
3. Create APRD workforce reflects the diversity of community across the breadth and depth of the organization.
4. APRD investments in contracting and procurement benefit the diversity of the community.
5. Providing programs and services that are responsive and reflective of community needs

This year at the Management Team CIP Budget retreat, Kimberlee Archie, Equity and Inclusion Manager, led the team through an exercise to consider capital investment through an equity framework.

Next steps include (1) Continued Implementation of Equity and Inclusion Initiative (a)

Development of Racial Equity Toolkit; and (b) Continued Engagement of External Partners and Stakeholders; (2) Council Retreat; and (3) Fiscal Year 2019 Budget Process.

D. CITY-OWNED PROPERTY DATABASE UPDATE

Real Estate Program Director Nikki Reid provided Council with an update on the new database tool of the visual inventory of City-owned property.

IV. PUBLIC HEARINGS:

A. 1568 BREVARD ROAD

RESOLUTION NO. 17-263 - RESOLUTION APPROVING THE RELEASE OF THE BUNCOMBE COUNTY OWNED PROPERTY LOCATED AT 1568 BREVARD ROAD (ALSO KNOWN AS THE BENT CREEK PROPERTY) FROM THE DEED RESTRICTION REQUIRING THAT THE PROPERTY BE USED FOR AN ECONOMIC DEVELOPMENT PURPOSE AS DEFINED IN N. C. GEN. STAT. SEC. 158-7.1; AND AUTHORIZING THE CITY MANAGER TO EXECUTE AN AMENDMENT TO THE INTERLOCAL AGREEMENT BETWEEN THE CITY AND HENDERSON COUNTY REGARDING THIS PROPERTY TO DELETE THIS REQUIREMENT

Assistant Director of Planning & Urban Design Alan Glines said that this is the consideration of a resolution approving the release of the Buncombe County Owned property located at 1568 Brevard Road (also known as the Bent Creek Property-137.21 acres) (hereto the "Property") from the deed restriction requiring that the Property be used for an economic development purpose as defined in NCGS 158-7.1 and authorizing the City Manager to execute an amendment to the Interlocal Agreement between the City and Henderson County regarding this property to delete this requirement.

On April 14, 2015, the City Council approved the sale of the Property to Buncombe County by Henderson County for the appraised value of $6,815,00.00, in accordance with the terms of an Interlocal Agreement between the City and Henderson County dated April 16, 2014 as amended in April 2015. The Interlocal Agreement outlined certain requirements regarding the use and division of proceeds of any sale of the Property between the City and Henderson County and also contained the provision that any conveyance of the Property should be subject to the specific condition that the property be used for an economic development purpose pursuant to NCGS 158-7.1. At the time of purchase, Buncombe County was working with a potential economic development partner which was considering the expansion of its operations into Buncombe County. This economic development deal did not materialize and since that time, the County has not been able find any potential purchasers of the Property interested in using it for an industrial purpose. The County has, however, had interest from potential purchasers wanting to use the Property for residential development purposes and therefore, it has submitted a request to the City to rezone the Property from Industrial District (IND) to Residential Multifamily High Density District (RM 16)-this matter is also before you this evening.

In order for the Property to be rezoned from Industrial to Residential, it must first be determined that it should be released from the aforementioned economic development condition. NCGS 158-7.1 has a rather broad definition of economic development purposes which include aiding and encouraging the location of manufacturing enterprises, and the location of industrial and commercial plants within the city or county, but also include more generally, purposes that in the discretion of the governing body will increase the population, taxable property and business prospects of any city or county. While residential development might be considered to fall within this more general definition of economic development, the statute is typically interpreted to refer

to the location of industrial or commercial development and therefore, Buncombe County request the release of this condition to ensure that the Property may be freely used for residential development.

At its meeting on October 2, 2017, the Board of Commissioners of Henderson County voted to release the condition regarding use for economic development purposes on conveyance of the Property. City Economic Development Staff also supports release of this condition having conferred with the EDC, which does not believe this Property is suitable for industrial use, and concluding the Property is more suitable for a residential use, which will also have economic development benefits.

Pros:

- If the Property is sold to a private entity, it becomes taxable.
- May lead to the rezoning of property to Residential from Industrial, thereby making it more attractive to interested purchasers.

Con:

- May lead to rezoning of property from Industrial to Residential, leading to a further loss of Industrial zoned properties within the City.

City staff recommends approval of a resolution to release the condition requiring use of the Buncombe County owned property located at 1568 Brevard Road for an economic development purpose as defined in NCGS 158-7.1, and authorizing the City Manager to execute an amendment to the Interlocal Agreement between the City and Henderson County regarding this property to delete this condition.

Councilwoman Mayfield said that she has been contacted from some area residents who were concerned about the traffic volume on Ferry Road. Mr. Glines said that whatever is developed would have to adhere to City regulations and if the project met the threshold, it would need to come back to Council for approval.

A community resident spoke to Council about traffic concerns on Ferry Road and did not support a multi-family development. She also noted there are 2,174 planned apartment units for this area. They know that the area will be developed and hoped single-family units would be developed on that property.

A woman felt that that the 137 acres should be used for something more to make Asheville beautiful.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not read.

Councilman Smith moved for the adoption of Resolution No. 17-263. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 208

PUBLIC HEARING TO REZONE 1568 BREVARD ROAD FROM INDUSTRIAL DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4629 - ORDINANCE TO REZONE 1568 BREVARD ROAD FROM INDUSTRIAL DISTRICT TO RM-16 RESIDENTIAL MULTI-FAMILY HIGH DENSITY DISTRICT

Assistant Planning & Urban Design Director Alan Glines said that this is the consideration of an ordinance to rezone 1568 Brevard Road from Industrial District to RM-16 Residential Multi-Family High Density District. This public hearing was advertised on September 22 and 29, 2017. On October 3, 2017, this public hearing was continued until this date.

Buncombe County is requesting a rezoning for a parcel located at 1568 Brevard Road from Industrial District (IND) to Residential Multifamily High Density District (RM16). The PIN for the property is 9636103860 and totals 137.22 acres.

The subject property is 137.22 acres and is currently undeveloped. The property has limited frontage on Brevard Road and is addressed based on this frontage. There is a more substantial frontage along Ferry Road and the property is often referred to as the Ferry Road property. The site is heavily wooded and has the French Broad River as a property border on the southeastern side.

The property has a long history that includes former ownership by the City of Asheville. The City sold the tract to Hendersonville County as part of an early water expansion agreement. Later Hendersonville County sold the track to Buncombe County for economic development purposes and retained an easement for the City of Asheville for future greenway connections. Neither the width of the greenway nor the specific route was specified in this sale except that it will be consistent with the greenway master plan. The property also borders I-26 but there is no direct access to the highway.

In addition to the direct French Broad River frontage, the site is in a natural undeveloped condition, wooded and with a slope down to the river. The natural grade of the parcel is 19% on average across the site.

The applicant has requested that the zoning be changed from Industrial to Residential multifamily high density (RM16) for the purpose of selling the property for residential development. While there has been no specific proposal submitted for the site, a change to a residential zone will limit the non-residential possibilities for the parcel.

An easement for future greenway is in place for the tract.

The purpose of the Industrial zoning district is to allow and encourage larger scale industrial and manufacturing uses. Industrial sites typically need good access to transportation facilities (roadways and highway) to support the movement of goods to and from the site. This specific site has indirect access to Brevard Road via the small Ferry Road connection and a narrow flagpole portion running toward Brevard Road adjacent to but separated by a separate city-owned parcel. Standing alone, the site is challenging from an access standpoint for an industrial use without additional land purchased from adjoining owners. The site with its current access could provide for residential development.

The RM16 zoning district is developed for a wide range of housing options from single family to multi-family with additional options for clustering the development away from the more sensitive areas of the property which may result in the protection of the French Broad River. A limited number of other non-residential uses are also allowed in the RM16 zoning district including schools and places of worship.

The subject property is surrounded by Buncombe County zoning: R1 and R3 to the north and west which are mostly reserved for single and two-family residential uses (R1) and multifamily uses if water and sewer are available (R3). The western edge of the property is zoned CS, Commercial Service along Brevard Road. Commercial Service encourages a

concentration of commercial activities but not strip development. Roadways are considered to be sufficient for such development. The proposed zoning change will be compatible with the existing uses surrounding the property. Higher density residential uses can provide a buffer between commercial services and residential uses of lower densities.

The property is a satellite annexation within the City of Asheville's jurisdiction because of the time when the property was owned by the City of Asheville. Rezoning applications are reviewed by the Planning and Zoning Commission with final consideration by City Council.

The 2025 Comprehensive Plan shows this area as an industrial use and recommends in general, the preservation of property for industrial uses. The site was recently contemplated for a large industrial development and one of the requirements for the site negotiation was additional land for improved access to Brevard Road from a neighboring property owner. In several recent requests to rezone industrial property within the city's jurisdiction, insufficient access to highways has been cited as a factor in the lack of suitability of particular properties for industrial uses. The working draft of the *Living Asheville Comprehensive Plan* notes the need to maintain industrial uses within the city, but also demonstrates the continued shortage of housing in the community

This action aligns most closely with the 2036 Council Vision in the following area: (1) *Quality Affordable Housing* –Goal 17 is to cooperate and form a partnership with Buncombe County to increase the supply of affordable housing. The proposed rezoning of Buncombe County owned land from Industrial to Residential Multi-family High Density (RM16) could result in a variety of housing types from single family to multifamily across the large 137 acre site. Any residential development proposal with 50 or more units will also be reviewed by City Council.

Considerations:

- The site has challenging access for industrial uses without additional land from adjacent properties or other off-site roadway improvements
- This rezoning to RM16 would allow a variety of housing options for the site which could benefit the community still facing a housing shortage
- A greenway easement for a future greenway is in place for this parcel
- The Comprehensive Plan notes the tension between maintaining suitable sites for industrial uses and the continued need for additional housing.

Based on the above findings and the analysis provided in the report, staff finds this request to be reasonable and within the public interest.

The Planning and Zoning Commission reviewed the request at their meeting on September 6, 2017. There was a robust discussion about changing the zoning designation and losing a potential industrial site. The Commission acknowledged the tension between retaining industrial areas and also the community need for additional housing. In the end though the commission voted unanimously to recommend approval of the change.

Mayor Manheimer opened the public hearing at 6:26 p.m., and when no one spoke, she closed the public hearing at 6:26 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Smith moved to approve the rezoning request for 1568 Brevard Road (PIN 9636-10-3860). From Industrial District to Residential Multifamily High Density District (RM16) and find that the request is reasonable is within the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the site is a suitable location for housing development which is needed in the community; and (2) the site, as-is, does

not have suitable infrastructure for an industrial use. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 388

B. PUBLIC HEARING TO CONSIDER A SERIES OF TEXT AMENDMENTS TO ARTICLE VIII OF CHAPTER 7 OF THE CODE OF ORDINANCES PERTAINING TO DEVELOPMENT STANDARDS FOR THE HAYWOOD ROAD FORM CODE FOUND IN SECTION 7-8-28, TO INCLUDE A NEW HR7 - TRADITIONAL COMMUNITY DISTRICT AND DISTRICT STANDARDS

ORDINANCE NO. 4630 - ORDINANCE TO AMEND ARTICLE VIII OF CHAPTER 7 OF THE CODE OF ORDINANCES PERTAINING TO DEVELOPMENT STANDARDS FOR THE HAYWOOD ROAD FORM CODE FOUND IN SECTION 7-8-28 TO INCLUDE A NEW HR7 - TRADITIONAL COMMUNITY DISTRICT AND DISTRICT STANDARDS

Mayor Manheimer said that Council first heard this issue at their October 3, 2017, meeting; however, they did not hold a public hearing or take action and remanded the issue back to the Planning & Zoning Commission.

Assistant Planning & Urban Design Director Alan Glines said that this is the consideration of an ordinance amending Article VIII of the Chapter 7 of the Code of Ordinance pertaining to development standards for the Haywood Road Form Code found in Section 7-8-28 to include a new HR7 - Traditional Community District and District standards. This public hearing was advertised on November 17 and 24, 2017.

In September 9, 2014, the City Council adopted the Haywood Road Form Code as the first form district in the city. This applied to Haywood Road beginning almost at the French Broad River and proceeded for approximately 2.5 miles to Patton Avenue. The district established six zoning types based on the scale and characteristics of the area along the corridor. With several years experience using the ordinance, staff have identified amendments to facilitate the implementation of the code.

Staff is bringing back to Council general Haywood Road text amendments that were first presented to Council on September 25, 2017. During the hearing, Council directed staff to create a new Haywood Road district that would allow for a mix of residential and commercial uses except that it would not permit lodging facilities, including hotels and short term rentals (STRs), associated with the area below Beacham's Curve. Council also directed staff to consider additional study for lodging facilities along the entire Haywood Road corridor and include feedback from the West Asheville Business Association (WABA). There was concern that STRs may be inappropriate along the corridor. These three general subjects will be reviewed in this report separately.

Amendments to the general development standards of the Haywood Road Form-Based Code - The focus of these amendments is to create reasonable requirements in the code to retain the original vision for Haywood Road but allow greater flexibility to renovate and develop new projects. These changes have been identified during a number of communications with property owners, neighborhood associations, developers and design professionals concerning implementation of the code and from the review of development proposals by staff. Staff is proposing the following changes to the form code development standards:

- **Build-to-zone – main frontage and side street** - reduce the required percentage along the main frontage from 80% and 90 % of the lot frontage to 70%; for side streets, reduce

coverage to a minimum building depth of 25 feet to provide more flexibility to redevelop a site

- **Building setbacks** – some adjustments in the form of minimum and maximum distance from the right-of-way line to account for overhead utility or other easements
- **Outdoor amenity space** - align it with other urban areas of the city for more consistency and to encourage redevelopment
- **Building height allowances** - lessen the minimum heights floor-to-floor for flexibility which is especially helpful for smaller building floorplates.
- **Building fenestration detailing** (such as windows and doors) - revise how to measure fenestration and adjust percentages to allow more flexibility in building design
- **Streetscape** - clarify limitations on changes to Haywood Road since it is a DOT roadway
- Allowing more **height options in HR4 Traditional** - parcels in this area are more limited in size and depth. Buildings would be allowed from one to three stories
- Allow a building setback of at least 10 feet to create a plaza space or expand sidewalks to satisfy the building **stepback requirement** for upper floors
- **Proposed update for lodging facilities in the permitted use table to align with Council approval of review thresholds on 2/14/17, which is related to the number of guest rooms: 21 guest rooms or more and 20 guest rooms or less**

The form code also includes a permitted use table, a parking standard and a sign allowance. The following changes are proposed:

- Allow Bed and Breakfast and Homestay in HR1 Core
- Remove use by right with special requirements for Live-work uses
- Remove single family use for the entire corridor area; add duplex to all districts
- Add parking lots as a use in the use table
- Allow on-street spaces existing or proposed to count one-for-one toward the parking requirements
- Specify temporary use provisions of the UDO are allowed in the district
- Some clarification for parking, bicycle parking and parking for newly established eating and drinking establishments

Creation of a new seventh zoning category - A section of Haywood Road east of Beacham's curve and west of the river is an area currently zoned HR5 Live-work. The area with 43 parcels has a number of vacant parcels. There is the possibility for greater investment and redevelopment in this area with additional commercial activity that would be appropriate given the growth and investment in the surrounding area. Council directed staff to create a new district for this area that would be similar to the HR4 Traditional district (currently on neighboring parcels) but would not permit lodging facilities. Staff have added an amendment for a new HR7 Traditional Community district with scale and uses meeting these parameters.The following sections of the ordinance reference the proposed HR7 Traditional Community district:

Page 3 - the general map of the Haywood Road districts would be amended.
Pages 30 - 33, the HR7 TC district and the HR4 TRAD district are aligned for development requirements.
Beginning on page 43, to add a column for HR7 to the Permitted Use Table.
Page 47, to add HR7 to the Parking Table.
Beginning on page 51, to add HR7 to the Sign Table

Consideration of the appropriateness of lodging facilities for the entire Haywood Road corridor - Council directed staff to review with the Planning and Zoning Commission the appropriateness of lodging facilities (hotels, STRs, etc.) within the remaining zoning districts along the Haywood Road corridor. Per the discussion during the meeting staff also

recommended and Council agreed, to take this item to the West Asheville Business Association (WABA) for review and comment.

Lodging facilities with 21 guest rooms or more is already required to be reviewed as a conditional zoning citywide and be approved by City Council. Therefore, on November 1, 2017, the Planning and Zoning Commission discussed whether *lodging facilities with 20 guest rooms or less* should remain a permitted use along the corridor where it is permitted today, if they should be prohibited, if certain districts should allow the use or if other districts should prohibit the use. The Planning and Zoning Commission considered these issues and did not recommend any changes to the use table for lodging facilities, preferring to continue to permit lodging in the areas where they are allowed today. Austin Walker, WABA President, presented a letter on behalf of the WABA Board asking that no changes be recommended for the lodging facility use in this form code area. Several members of the community spoke to retaining lodging along the corridor in general.

The draft code provides distinct red-line entries for all of the portions of the ordinance that are being adjusted. This will allow the specific changes to be distinguished individually in the review.

The current changes were reviewed on June 6, August 31, September 19, and October 26, 2017, with the West Asheville Business Association (WABA). There was interest in the code and some questions about the application of the ordinance. WABA was generally supportive of the general development changes and the new HR7 Traditional Community district. They were concerned about any new limitations on lodging facilities in the sections of Haywood Road where they are currently permitted. WABA felt that the use is a component of a mixed-use corridor and would support local businesses.

Staff also reviewed the general concepts of this amendment with the East West Asheville Neighborhood Association (EWANA) at their meeting on June 14, 2017, and discussed changes to height for the HR4 Traditional district, as well as the rezoning being contemplated for the same area along Haywood Road. There was some concern and questions about short term rentals as a permitted lodging use along the Haywood Road Form Code area adjacent to the neighborhood.

In early August, staff also mailed an informational letter outlining the proposed code and rezoning changes specifically in the area of Beacham's Curve in the HR4 Traditional and HR5 Live Work section to neighbors within 200 feet of this specific area. This is the only section of Haywood Road where a rezoning is contemplated. After Council directed staff to adjust the ordinance by creating a new HR7 district, staff provided an additional notice letter in October to explain the latest changes.

The Comprehensive Plan encourages denser sustainable infill development along existing corridors as a long term development plan in the city. Changes to the UDO that further these goals are encouraged along with processes that involve public participation. The Haywood Road Form Code includes mixed-use development and multimodal transportation along with a number of other community identifiec goals such as historic preservation, flexibility for property owners and economic health.

The Haywood Road Form District fits within City Council's vision for *A Well-Planned and Livable Community* and *A Thriving Local Economy.* The code provides a clear framework for reinvestment and redevelopment in an important area of the city. The code provides a greater level of clarity and predictability for both the community, property owners and developers. Lastly, the process used to develop the original code also aligns with Council's goal of a *Connected and Engaged Community,* through the high level of engagement and community outreach with property owners, business owners and residents.

The Planning and Zoning Commission reviewed the amendment and voted unanimously to recommend approval of the broad list of development amendments (on September 6, 2017), and voted 5-1 to recommend approval of the addition of a new district (on November 1, 2017), HR7 Traditional Corridor, which would be similar in form to the HR4 Traditional district but would not allow lodging facilities as a specifically permitted use. The Commission found that the Haywood Road Form-Based Code amendment is reasonable and in the public interest and is consistent with the Comprehensive Plan by laying the framework for continued investment in mixed-use development, future job growth and housing.

The Planning and Zoning Commission recommended that lodging facilities remain a permitted use where they are currently allowed with no recommendations for changes along the rest of the Haywood Road corridor. Staff has not included any changes to lodging facilities in the corridor where they are already permitted based on direction provided by the Planning and Zoning Commission during their review. At the same meeting, the Planning and Zoning Commission also recommended that City Council review the issue of short term rentals (STR's) comprehensively across the city.

At her request, Vice-Mayor Wisler said that the Planning & Economic Development (PED) Committee will review excluding all lodging facilities as a permitted use across the City in the December/January timeframe.

Mayor Manheimer opened the public hearing at 6:40 p.m.

Mr. Austin Walker, President of the West Asheville Business Association, said that they support the rezoning of the river end of the District, but asked lodging facilities with 20 guest rooms or less continue to be allowed in the areas where they are allowed today. He said the Haywood Road Form Code was a community vision and that is what the community wants.

Mr. Michael Butrum, representing the Land of Sky Association of Realtors, urged Council to allow lodging facilities with 20 guest rooms or less to remain as a permitted use along the corridor.

Mr. Christopher Fink, representing neighbors on Brucemont Circle, advocated the development of west Asheville as a community and not a recreation zone. He hoped for community use along the corridor and that you maintain a community that supports residents opposed to visitors.

Mr. Mike Collins felt that lodging facilities should be a permitted use along the entire Haywood Road corridor.

Mayor Manheimer closed the public hearing at 6:49 p.m.

Councilman Haynes supported excluding all lodging facilities across all districts from the entire Haywood Road corridor. He noted we are not banning the lodging facilities, but just removing them as a right. People can still seek conditional zoning for their lodging project. He felt if we waited until after the PED Committee review, more lodging facilities with 20 guest rooms or less could be built in the interim.

Councilwoman Mayfield understood that we are not respecting the long process that the City and community went through to develop the Form Code. However, most of what is being proposed are changes based on things we have learned in the community. We have learned that affordability is only an increasing problem and illegal short term rentals are only an increasing

problem. Again, we are not prohibiting the lodging facilities but saying if you want to build a short term rental facility on the Haywood Road corridor, you need Council approval. We have found that in the 20 guest rooms or more projects we have gotten better projects and she saw no reason this wouldn't be the case with this as well.

Councilman Young said that there are merits on both sides of this argument. He would support the Form Code but hoped the next Council will comprehensively look at the issue of short term rentals to see if they really affect affordable housing.

Councilman Smith said that the Haywood Road Form Code did have a lot of community input and since it's completion we have seen the emergence of the seriousness of the short term rental issue across the City. This is not a ban, but just a removal of the use by right. The conditional zoning process remains available for all applicants.

Councilman Bothwell predicted the new Council will ban whole house rentals city-wide and permit accessory dwelling units.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the Haywood Road Form Code amendment with an additional amendment to exclude lodging facilities (21 guest rooms or more and 20 guest rooms or less) of all types from all districts in the Haywood Road Form Code, and find that the request is reasonable and is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the code amendment will encourage infill development and vibrant mixed-use neighborhoods; and (2) the amendment will facilitate the implementation of the code. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 391

C. PUBLIC HEARING TO REZONE PROPERTIES FOR A SECTION OF HAYWOOD ROAD WITHIN THE HAYWOOD ROAD FORM CODE AREA FROM HR5 - LIVE WORK DISTRICT TO HR7 - TRADITIONAL COMMUNITY DISTRICT

ORDINANCE NO. 4631 - ORDINANCE TO REZONE PROPERTIES FOR A SECTION OF HAYWOOD ROAD WITHIN THE HAYWOOD ROAD FORM CODE AREA FROM HR5 - LIVE WORK DISTRICT TO HR7 - TRADITIONAL COMMUNITY DISTRICT

Assistant Planning & Urban Design Director Alan Glines said that this is the consideration of an ordinance to rezone properties for a section of Haywood Road within the Haywood Road Form Code area from HR5 - Live Work District to HR7 - Traditional Community District. This public hearing was advertised on November 17 and 24, 2017.

The area proposed for rezoning consists of 43 separate PINs along the north and south sides of Haywood Road closest to the French Broad River. The lots on the south side are mostly undeveloped except for several single family homes and a small restaurant. On the north side is a mix of uses including a new three-story structure and other older commercial, distribution and warehouse uses.

The subject parcels are zoned HR5 Live-Work and were zoned this way with the adoption of the Haywood Road Form Code on September 9th, 2014. The Haywood Road Form Code was

developed with extensive public engagement and a community charrette to develop the plan. The form code work came after the adoption of the Vision Plan report for Haywood Road.

During the development of the original code, the consultant team was concerned about the potential limited amount of development interest along Haywood Road based on a market study that was performed. They did not want to have an unsuccessful corridor that might result if it was left with too many vacant underutilized parcels. Their recommendation was to create the HR5 Live-Work district to focus on small scale studio spaces and residential uses.

Staff has had approximately three years since the adoption of the original ordinance to utilize the Haywood Road Form-Based Code. Over this time staff have met with property owners, design professionals, neighborhood groups and other users of the code to answer questions and hear comments about which elements of the form-based code are working and which sections could be improved. Since this time the New Belgium Brewery was constructed and opened along Craven Street, and private investment in the River Arts District has continued. The entire eastern end of Haywood Road is also seeing a revival of new businesses and expansions of existing businesses, including several eating and drinking establishments, a cider house and a brewery, a skin care company and an ice cream-making facility opening nearby on the corridor, to name a few.

The HR5 Live-Work district permits a limited range of commercial activity and allows for multifamily housing. With the recent growth of activity located along Haywood Road at Beacham's curve and vicinity, the original concern that vacant underutilized parcels would reduce the economic success of the corridor seem to no longer apply.

At the City Council meeting on September 26, 2017, City Council directed staff to create a new form-based code district that would be similar to the scale and uses permitted in the HR4 Traditional district with the notable exception that "lodging facilities", which includes uses such as hotels and short term rentals, would not be permitted. The proposed HR7 Traditional Community achieves these goals and will allow a more complete range of commercial activities at a scale that will be compatible to the surrounding uses in the vicinity. City Council further directed staff to review the appropriateness of lodging facilities along the remaining sections of the Haywood Road corridor and this is reviewed under a separate wording amendments staff report.

In 2012 the New Belgium Brewery was approved along Craven Street; the brewery opened in 2016. The Haywood Road Form-Based Code was approved by City Council on September 9, 2014.

The process for reviewing rezoning requests is that they are considered by the Planning and Zoning Commission with a recommendation to City Council, and a final review by Council. The Planning and Zoning Commission reviewed the rezoning request on September 6, 2017, and again on November 1, 2017, for the latest adjustment to add the HR7 Traditional Community district. The commission unanimously recommended approval of the rezoning with a vote of 6-0.

Staff discussed the Haywood Road amendments and property rezoning at a meeting of the West Asheville Business Association (WABA) on June 6, August 31, September 19 and October 26, 2017. WABA was supportive of the new HR7 Traditional Community district. Staff also attended a meeting of the East West Asheville Neighborhood Association (EWANA) on June 14, 2017, and answered questions about the proposed rezoning, as well as details about the HR4 Traditional district. In early August 2017 and again in October as a part of public notice, staff sent an informational letter to property owners located within 200 feet of the proposed rezoning. Several neighbors and property owners contacted staff to inquire about additional information or to see how their properties aligned with the HR7 standards.

The zoning along Haywood Road to the west of the proposed rezoning area is HR4 Traditional, which is very similar to the proposed HR7 Traditional Community district in terms of form, with the exception that "lodging facilities" are permitted in the HR4 district. Surrounding neighborhood areas are zoned Residential Multifamily Medium Density district (RM8). The Haywood Road Form-Based Code accounts for adjoining residential properties with both a planted buffer and height reductions adjacent to the residential edge. The proposed change will be compatible with the surrounding area.

There are policies throughout the *2025* Comprehensive Plan supporting the need for higher-densities and a mix of uses, where placemaking is an important goal and transit is in place to support new development. Other sections of the Plan recommend creating opportunities for economic development through higher densities while reinforcing a strong urban form that enhances the pedestrian environment.

The proposal aligns with the 2036 Council visions in the following areas: (1) *A Well-Planned and Livable Community* - through the enhanced community focused design standards that accompany the Haywood Road Form Code; (2) *Transportation and Accessibility* – due to the requirements for wider sidewalks, pedestrian-friendly design and densities to support expansion of transit; and (3) *Thriving Local Economy* -encouraging a wider mix of compatible commercial uses and opportunities for more intense development (including a higher residential density).

Considerations:

- Economic conditions in the rezoning area have changed supporting greater opportunities for investment and redevelopment
- The proposed rezoning from HR5 Live-Work to HR7 Traditional Community is similar to the adjacent HR4 Traditional district in terms of form, with the exception that lodging facilities would not be permitted in the new HR7 district. The HR7 will also provide areas for community-scaled development that is compatible with the adjacent area
- Development requirements are in place to buffer residential areas from commercial impacts

The Planning and Zoning Commission unanimously recommended approval of the rezoning from HR5 Live-Work to HR7 Traditional Community on November 1, 2017, with a vote of 6-0. The Commission found the request to be reasonable and consistent with City-adopted plans and strategic goals for redevelopment along the Haywood Road corridor.

Mayor Manheimer opened the public hearing at 7:05 p.m., and when no one spoke, she closed the public hearing at 7:05 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the zoning map amendment from HR5 Live-Work district to HR7 Traditional Community district and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: (1) opportunities for commercial investment and redevelopment are enhanced; (2) buffering requirements are in place to protect residential areas; and (3) the HR5 Live-Work district is no longer the most appropriate zoning for this area. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 31 – PAGE 393

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-258 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY REAL PROPERTY LOCATED AT 427 BROADWAY STREET TO REED CREEK GREENWAY PLAZA, LLC, SUBJECT TO SPECIFIC AFFORDABLE HOUSING DEED RESTRICTIONS

Real Estate Program Director Nikki Reid said that this is the consideration of a resolution authorizing the City Manager to convey real property located at 427 Broadway Street to Reed Creek Greenway Plaza, LLC, subject to specific affordable housing deed restrictions.

The City of Asheville owns vacant property at 427 Broadway Street (approximately 0.38 acres) located directly adjacent to the former gas station at the Cauble Street intersection. The City has received an unsolicited bid from Reed Creek Greenway Plaza, LLC (RCGP) to purchase the property. Reed Creek Greenway Plaza, LLC (RCGP) purchased the former gas station site in 2016 and is now seeking to purchase and assemble the City's property into a larger site for mixed-use redevelopment (1.21 acre total site).

PIN #	City-owned Property Address	Parcel Size	Zoning	Description
9649142559	427 Broadway	0.38 acres (16,553 sf)	NCD - Neighborhood Corridor District	Corner lot on Broadway at Cauble Street; Vacant paved land adjacent to the Reed Creek Greenway and former Citgo Gas

Upon receipt of the unsolicited bid from RCGP, staff analyzed the offer and development concept through the lens of existing plans and policies. The City acquired the subject property in 2000 from NCDOT and constructed the Reed Creek Greenway to the rear of the property. The property is located on Broadway Street, within the study area for the Broadway Corridor Action Plan, adopted by Asheville City Council in August 2002. In the Action Plan, this site was recommended to be "Greenway / Mixed Use Development."

With respect to policy direction to re-purpose City-owned land for affordable housing, the City negotiated the inclusion of affordable housing as part of the proposal. The current offer is based on a purchase price of $115,000 (based on an appraisal that assumes certain restrictions on the property) plus an affordable housing deed restriction that requires the construction of 20% affordable rental units within the total site development (minimum of 8 units) available to households at 60% Area Median Income (AMI), with an affordability period of 25 years. In follow-up to the review by the Housing & Community Development Committee, the developer has also agreed to restrict short term rental on the property for a period of 25 years. Due to the fact that the developer has agreed to these affordable housing restrictions, the City has the ability to do a direct sale rather than put the property up for upset bids.

The proposed price point is based on an appraisal that considered environmental concerns associated with the prior gas station use. This property is contiguous to the former Citgo gas station, which operated for over twenty years before closing in 2015. The underground tanks were removed from the gas station property in accordance with NCDENR, and as a result, environmental deed restrictions were placed on certain areas of the gas station site to prohibit

use of property for residential, daycare and park purposes where the tanks were removed. While the City property is not specifically impacted by the environmental deed restrictions, it is possible that some residual petroleum contaminants may exist on the City property. With that being the case, the City sought to leverage the sale of its property to require that affordable housing is built on other areas of the site that are not impacted by the environmental issue.

Considering the inclusion of affordable housing into the master development plan, the fulfillment of the land use recommendations of the Broadway Corridor Action Plan, and the noted environmental issues, staff recommends the sale of this property to Reed Creek Greenway Plaza, LLC subject to affordable housing deed restrictions. In that RCGP has agreed to these affordability restrictions, North Carolina General Statute 160A-456, 157-3 and 157-9.4 permits the City to convey property through private sale wherein the development of a multi-family rental housing project includes at least 20% of the housing units for low-income persons-defined as 60% AMI and below, for at least 15 years. The proposed deal requires affordability for 25 years, which exceeds the statutory minimum of 15 years by a decade.

The Housing and Community Development Committee (HCD) will reviewed this item on November 21.

Pros:

- The addition of 8 affordable units of housing to 60% AMI for an affordability period of 25 years on a site with access to transit, job centers and educational opportunities.
- The sale of the property to a private owner will return the property to the tax rolls.
- Subsequent development of the property will increase economic activity on this corner.

Con:

- None identified.

Upon sale of this property, the City's General Fund will receive $115,000 in proceeds of sale.

Staff recommends City Council adopt a resolution authorizing the City Manager to convey real property located at 427 Broadway Street to Reed Creek Greenway Plaza, LLC, subject to specific affordable housing deed restrictions.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 17-258. This motion was seconded by Councilman Smith and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 200

B. PRIMARY ELECTION RESULTS - CITY OF ASHEVILLE - OCTOBER 10, 2017; GENERAL ELECTION RESULTS - CITY OF ASHEVILLE - NOVEMBER 7, 2017

Attached hereto as Exhibit "A" is the abstract containing the number of legal votes cast in the Primary Election, City of Asheville, held on October 10, 2017. Also attached as Exhibit "B" is the abstract containing the number of legal votes cast in the General Election, held on November 7, 2017.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Peter Landis suggested Council declare a temporary moratorium on short term rentals.

A woman suggested several process amendments regarding the Consent Agenda.

Because this was Councilman Bothwell's and Councilman Smith's last formal Council meeting, each thanked the citizens of Asheville for the opportunity to serve over the past eight years.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:15 p.m.

Magdalen Burleson
CITY CLERK

MAYOR

Tuesday - December 5, 2017 – 4:00 p.m.

ORGANIZATIONAL SESSION:

Mayor-Elect Manheimer welcomed everyone to the organizational session.

The Marine Corp JROTC led City Council in the Pledge of Allegiance.

Interim Assistant City Manager Jade Dundas sang the National Anthem.

Pastor Kaycee lewis from River of Life International provided the invocation.

The Honorable Alan Z. Thornburg, Buncombe County Senior Resident Superior Court Judge, administered the Oath of Office to the following:

Mayor Esther Elizabeth Manheimer
Council Member Vijay Kapoor
Council Member Sheneika Elaine Smith
Council Member Gwen Colleen Wisler

RESOLUTION NO. 17-264 - RESOLUTION OF APPRECIATION TO CECIL BOTHWELL

Mayor Manheimer read the resolution.

Resolution No. 17-264 was adopted by acclamation.

Mayor Manheimer thanked former Councilman Bothwell for his service to Asheville and will make sure that he receives the appreciation resolution, a plaque, his name plate, and a City pen.

RESOLUTION BOOK NO. 39 - PAGE 207

RESOLUTION NO. 17-265 - RESOLUTION OF APPRECIATION TO GORDON D. SMITH

Mayor Manheimer read the resolution.

Resolution No. 17-265 was adopted by acclamation.

Mayor Manheimer thanked former Councilman Smith for his service to Asheville and presented him with an appreciation resolution, a plaque, his name plate, and a City pen.

Mr. Smith thanked the public and his family for allowing him to serve. He also thanked City staff and City Council for their professionalism and dedication to the citizens of Asheville.

RESOLUTION BOOK NO. 39 - PAGE 208

ELECTION OF VICE-MAYOR

Councilwoman Mayfield moved to nominated Councilwoman Gwen Wisler as Vice-Mayor of the City of Asheville. This motion was seconded by Councilman Kapoor carried unanimously.

SWEARING-IN ADDRESS

Mayor Manheimer gave a brief address about working together to build our community and overcome our challenges.

REMARKS - MEMBERS OF COUNCIL

Councilman Kapoor, Councilwoman Smith and Vice-Mayor Wilser each expressed their honor to be allowed to serve the citizens, appreciated the support of their family and friends, and looked forward to working for and with City residents.

Councilman Haynes, Councilwoman Mayfield and Councilman Young each welcomed the new Council members and looked forward to working with them to move the City forward.

ADJOURNMENT:

Mayor Manheimer adjourned the organizational meeting at 4:49 p.m.

Magdalen Bourneson
City Clerk

Mayor

Tuesday – December 19, 2017 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON NOVEMBER 28, 2017; AND THE ORGANIZATION MEETING HELD ON DECEMBER 4, 2017

B. RESOLUTION NO. 17-266 - RESOLUTION ADOPTING THE 2018 CITY COUNCIL MEETING SCHEDULE

RESOLUTION BOOK NO. 39 - PAGE 209

C. MOTION ADOPTING ASSIGNMENT OF BOARD & COMMISSION MEMBERS/LIAISONS FOR 2018-19

Summary: Deputy City Clerk Sarah Terwilliger has a complete listing of all appointments made for City Council liaisons and mandatory seats on the various boards and commissions.

RESOLUTION NO. 17-267 - RESOLUTION APPOINTING VIJAY KAPOOR AS A MEMBER TO THE HUB COMMUNITY ECONOMIC DEVELOPMENT ALLIANCE

Summary: Vice-Mayor Gwen Wisler has resigned as a member of the HUB Community Economic Development Alliance, representing the seat of a Planning & Economic Development Committee member. Councilwoman Mayfield has resigned as an alternate of the HUB Community Economic Development Alliance. Therefore, Councilman Vijay Kapoor be and he is hereby appointed as the City Council appointee and member of the City Council Planning & Economic Development Committee to serve as member of the HUB Community Economic Development Alliance until he is no longer a member of City Council or is no longer a member of the City Council Planning & Economic Development Committee.

RESOLUTION BOOK NO. 39 - PAGE 210

RESOLUTION NO. 17-268 - RESOLUTION REAPPOINTING GWEN WISLER AS A MEMBER TO THE METROPOLITAN SEWERAGE DISTRICT BOARD OF DIRECTORS

Summary: The term of Gwen Wisler, as a member on the Metropolitan Sewerage District Board of Directors, expires on January 19, 2018. Therefore, Vice-Mayor Gwen Wisler, 104 Kimberly Avenue, Asheville, North Carolina, be and she is hereby reappointed to serve an additional three-year term, term to expire January 19, 2021, or until her successor has been appointed.

RESOLUTION BOOK NO. 39 - PAGE 211

RESOLUTION NO. 17-269 - RESOLUTION APPOINTING JULIE MAYFIELD AS A MEMBER OF THE ASHEVILLE AREA RIVERFRONT REDEVELOPMENT COMMISSION

Summary: Former Councilman Cecil Bothwell has resigned as a member of the Asheville Area Riverfront Redevelopment Commission, thus creating a vacancy. Therefore, Councilwoman Julie Mayfield be and she is hereby appointed to the Asheville Area Riverfront Redevelopment Commission to serve as the City Council voting member until she is no longer a member of the Asheville City Council.

RESOLUTION BOOK NO. 39 - PAGE 212

D. RESOLUTION NO. 17-270 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A CONTRACT CHANGE ORDER WITH DUKE ENERGY PROGRESS' SMALL BUSINESS ENERGY SAVERS PROGRAM TO INCREASE THE AMOUNT OF THE CONTRACT TO REFLECT AN ERROR IN THE CONTRACT AUTHORIZATION AMOUNT AND UPDATED PRICING FROM THE CONTRACTOR

Summary: The consideration of a resolution authorizing the City Manager to sign a contract change order with Duke Energy Progress' Small Business Energy Savers Program to increase the amount of the contract not to exceed from $8,511.36 to $12,169.17 to reflect an error in the contract authorization amount and updated pricing from the Contractor.

On October 3, 2017, City Council voted to authorize the City Manager to enter into a sole source provider contract through Duke Energy's Small Business Energy Saver ("SBES") Program for the purchase and installation of energy efficient lighting in Fire Station #2 and Fire Station #7/North Asheville Community Center. The resolution had listed the project not exceed $8,511.36 which does not reflect the total cost of both lighting upgrades. It is anticipated that the total cost of both lighting upgrades will be $12,169.17 but we request the resolution be revised to $15,000 to account for any potential change orders up to the budgeted amount. This change is due to:

1. The Resolution quoted the upgrade for Fire Station #7 and not Fire Station #2
2. Updated pricing from the contractor

Pros:

- Supports Resolution 11-77, reducing the City's municipal carbon footprint
- Leverages a DEP incentive which contributes to $6,669.08 of the total project cost

Con:

- None Identified

As noted above the total cost of both projects is $12,169.17, with funding utilized from the Green Program budget. Once complete, the upgrade will produce a combined estimated of $2,945.06 savings on energy per year.

Staff recommends City Council authorize the City Manager to approve a contract change order increasing the total amount of the contract to $12,169.17 for the installation of energy efficiency lighting as part of Duke's SBES Program and authorizing the City to Manager to execute any change orders up to the budgeted amount.

RESOLUTION BOOK NO. 39 - PAGE 213

E. RESOLUTION NO. 17-271 - RESOLUTION ENDORSING THE BUNCOMBE COUNTY PATHWAY TO PREVENTION PLAN

Summary: Domestic violence, sexual assault and child abuse are serious social and public health issues that affect thousands of residents of the City of Asheville each year, causing multiple adverse health impacts. Research documents that children who are abused learn unhealthy behaviors and develop maladaptive coping skills, which can show up later in their adolescent and adult relationships as intimate partner and/or sexual violence. Helpmate, Our VOICE, the Mountain Child Advocacy Center and 20 other local agencies have partnered for 3 years to design a long-term plan to prevent domestic violence, sexual assault and child abuse. The Buncombe County Pathway to Prevention Plan employs a series of mutually-reinforcing strategies and activities mapped onto the social-ecological model, a public health approach to violence prevention, which is endorsed by the CDC. Focus areas for this plan include individual prevention education programming, youth focused programming, provider training, developing and incentivizing organizational structures that prevent violence, building community connections for resilience, and public policy advocacy. The Plan seeks to promote healthy relationships where people live, learn, work, play, and worship. The Plan intends to prevent multiple forms of violence with a few key strategies. The City Council of the City of Asheville endorses the Buncombe County Pathway to Prevention Plan to prevent domestic violence, sexual violence and child maltreatment and authorizes use of its logo on the document.

RESOLUTION BOOK NO. 39 - PAGE 214

F. RESOLUTION NO. 17-272 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND IF AWARDED. ACCEPT FUNDING FROM THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR FISCAL YEAR 2019 FOR AUTOMATED BICYCLE AND PEDESTRIAN COUNTING EQUIPMENT

Summary: The consideration of a resolution authorizing the City Manager to apply for and if awarded, accept funding from the French Broad River Metropolitan Planning Organization (MPO) for FY 2019 funding for automated bicycle and pedestrian counting equipment in the amount of $48,000.

The French Broad River MPO has issued a call for applications for transportation planning funds that will be available in FY 2019. Staff has identified a need for automated bicycle and pedestrian counters to be used on new greenway facilities.

The automated counters will provide needed data regarding greenway use. Existing construction grants such as the TIGER VI grant from the Federal Highway Administration require ongoing bicycle and pedestrian counts that would otherwise need to be collected using manual labor, and the extent of manual counts would not be as thorough or as regular as automated counters.

The current opportunity for transportation planning funds is available to all jurisdictions in the MPO in Buncombe, Henderson, and Haywood Counties. The total available funding in this grant cycle for the three county area is approximately $90,000.

The grant requires a 20% local match. Staff intends to use the grant funds to purchase four automated counters, for a total cost of $60,000. The grant application will be for $48,000, and the local match of $12,000 will be provided by the City of Asheville. The match will need to be programmed in the FY 2019 budget.

This report is being reviewed by the Finance Committee on December 19th and if anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pro:

- If awarded, the grant would provide $48,000 toward an automated system for bicycle and pedestrian user counts. This data would otherwise need to be collected manually.

Con:

- The required City Match of $12,000 will need to be programmed in the FY 2019 budget.

If awarded, the grant would require $12,000 in local matching funds to be included in the FY 2019 budget. The investment will reduce the need to use staff time or volunteers to conduct the counts and will be able to generate more complete and regular counts.

Staff recommends that City Council approve a resolution authorizing the City Manager to apply for and if awarded, accept funding from the French Broad River Metropolitan Planning Organization for Fiscal Year 2019 funding for automated bicycle and pedestrian counting equipment in the amount of $48,000.

RESOLUTION BOOK NO. 39 - PAGE 215

G. MOTION TO APPROVE THE FISCAL YEAR 2018-19 OPERATING BUDGET CALENDAR

Summary: Motion to approve the Fiscal Year 2018-19 Budget Calendar.

As a part of the Fiscal year 2018-19 Operating Budget development process, which began internally in late November, staff is proposing a budget schedule which encompasses the following:

- A series of Budget Worksessions with City Council beginning in March 2018,
- Formal presentation of the City Manager's Proposed Budget on May 8, 2018, and
- Budget adoption on June 12, 2018.

The proposed schedule, which outlines the key dates in the budget process.

Staff recommends that City Council review the calendar and approve the motion to adopt the Fiscal Year 2018-19 Budget Calendar.

H. RESOLUTION NO. 17-273 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH GREENLIGHT ELECTRIC INC. FOR THE BOND TRAFFIC SIGNALS PHASE I PROJECT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $217,565 plus a contingency of 15% ($32,635) with Greenlight Electric, Inc. for the project known as Bond Traffic Signals – Phase 1, and further authorizing the execution of any change orders to said contract which may arise during execution of said contract up to the budgeted amount of $250,200.

This contract is for a General Obligation Bond project. Phase 1 will include three of the four proposed traffic signals approved by the 2016 Bond referendum (Along Patton Avenue, the intersections with French Broad, Otis and Asheland).

The project was advertised on October 5th, but due to a problem with the bids, all bids were rejected and the project was re-advertised on October 30th with the following bid results on November 14th:

Greenlight Electric, Inc. of Weaverville, NC	$217,565
ALS of North Carolina of Salisbury, NC	$292,294
Brooks, Berry, Haynie & Associates of Charlotte, NC	$314,555

Pros:

- Will upgrade aging traffic and pedestrian signals
- Project works towards fulfillment of General Obligation Bond

Con:

- Work will cause some traffic delays

There is $750,000 set aside for the four traffic signals in the General Obligation Bond Program leaving $499,800 for the remaining signal.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute, on behalf of the City of Asheville, a contract in the amount of $217,565 plus a contingency of 15% ($32,635) with Greenlight Electric, Inc. for the contract known as Bond Traffic Signals – Phase 1, and further authorizing the execution of any change orders to said contract which may arise during execution of said contract up to the budgeted amount of $250,200.

RESOLUTION BOOK NO. 39 - PAGE 216

I. RESOLUTION NO. 17-274 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ADC ENGINEERING FOR THE JAKE RUSHER PARK BOND PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with ADC Engineering to provide design services for Jake Rusher Park Bond Project for an amount of $133,052, and further authorizing the execution of any contract amendments up to 10% ($13,350) above of the contract price, which may arise during execution of said project.

The primary goal of the project is to address equitable access to park facilities and recreation opportunities in Asheville. In the spring, staff sought input from the community on their preference for park redevelopment. The proposed concepts identified the unique history of the community, recognized the park setting as a gateway to the neighborhood, borrowed ideas from some of the best neighborhood parks in the country, and aimed to maximize recreational opportunities at Jake Rusher Park while keeping within the project budget.

Jake Rusher Park will be designed to improve the level of service and meet contemporary needs of neighborhood residents. Upgrades may include restrooms, picnic areas/structures, sprayground, new equipment, surfacing, fencing, site furniture, plant materials,

sport courts, associated facilities, open play areas, vehicular parking lots, accessible pedestrian circulation systems, park area and sport lighting, among other Park and Recreation park standard elements.

The City of Asheville (City) issued a Request for Qualifications (RFQ) for design services for the Jake Rusher Park Bond Project. In response to the RFQ, the City received five (9) Statements of Qualifications to be considered for this project. After thorough review and evaluation, staff recommended ADC Engineering, 25 Woods Lake Road, Suite 210, Greenville, South Carolina as the most qualified to perform the design services for this project.

Scope of Work - ADC Engineering has presented a scope of work and fee proposal for professional services associated with Jake Rusher Park Bond Project and will provide full design services, bidding administration, and contract administration/reporting during construction.

Project Budget - $1,295,565 million including $825,000 General Obligation (GO) Bond Funding.

Tentative Project Timeline:

Engineering/Design Services	Spring 2018
Permitting	Winter 2018
Request for Construction Bid	Winter 2018
Construction Begin	Spring 2019
Construction Complete	Winter 2019

Pros:

- Address identified recreational needs that are otherwise unattached to capital investments
- Focus on underserved areas of the city
- Address the needs of diverse park users through addition of assets in parks to better reflect changing neighborhoods
- Meet the Parks and Recreation goal of increasing accessibility and equity

Con:

- The park will be closed during renovations. Any closure will be advertised and coordinated with general park users and neighbors.

Funding for these services are already included in the adopted Capital Improvement Budget through private donations and the City's General Obligation (GO) Bond Funding.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with ADC Engineering to provide design services for Jake Rusher Park for an amount not to exceed $133.052, and further authorizing the execution of any contract amendments up to 10% ($13,350) above of the contract price , which may arise during execution of said project.

RESOLUTION BOOK NO. 39 - PAGE 217

J. RESOLUTION NO. 17-275 - RESOLUTION AUTHORIZING THE ESTABLISHMENT OF A MOBILE FOOD VENDING PILOT PROGRAM FOR 68 HAYWOOD STREET

Summary: The consideration of a resolution authorizing the establishment of a Mobile Food Vending Program for 68 Haywood Street to take place between January 2018 and December 2018.

In response to City Council request, a temporary Mobile Food Vending program was referred to Finance Committee and is now being recommended for City Council approval with the Finance Committee's unanimous support at their November 28, 2017, meeting. As proposed, the program would simplify administrative fees and processes for mobile food vending including food trucks at 68 Haywood Street downtown.

Recommended by the Haywood Street Advisory Team and authorized by City Council, temporary uses of City-owned properties at 33 Page Avenue and 68 Haywood Street downtown are underway. The primary objective is to activate the subject sites on an interim basis while permanent solutions are being planned and implemented. A secondary goal is to test particular uses and installations in order to learn more about their function, successes and impacts in that location and in the community at large in order help inform both short and long-term decision-making.

Pop-up uses at 68 Haywood Street launched in August 2017 following a Request for Expressions of Interest (RFEI) process; fees for initially proposed programing were waived by City Council at the August 22, 2017 City Council meeting and launched in September 2017. Following the close of the RFEI process, organized events on the site are permitted through the City's existing Outdoor Special Event Permitting process. Passive and recreational uses that do not surpass thresholds in the City's Outdoor Special Event Guide are not required to obtain an Outdoor Special Event Permit, but may use the site during public open hours (7 AM - 10 PM daily). Since the site opened, both passive and organized uses have been light and infrequent. While several organizations were supported to use the space through the RFEI process, some events have been cancelled by organizers due to scheduling and capacity constraints.

At the October 24, 2017, City Council meeting, it was acknowledged by Council that while the site had been set-up to accommodate a variety of uses, including food trucks, the existing mechanism for permitting uses on the site may be cost prohibitive for food trucks. Staff was directed to propose a mechanism to Finance Committee for use of the site by food trucks.

Staff is now positioned to establish a Mobile Food Vending Pilot program for the year 2018 that would remove barriers to mobile food vending and further encourage use and entrepreneurship at 68 Haywood Street. Proposed is a simplified program with an abbreviated registration process and minimal fees (only the existing application fee) that could be administered through the Outdoor Special Events Office in the Community and Economic Development Department.

The one-time fee for a one-year permit (January 2018 - December 2018) would be $50, which is the already-established application fee for special events on public property. Liability insurance as well as a description and dimensions of the truck or vending structure would be required to be submitted by the vendor. Food trucks and food vendors who obtain the permit would be authorized to conduct sales of food and beverages during open hours of the site (7 AM - 10 PM) when other outdoor special events are not scheduled. Four vendors could be accommodated at any one time, and would be required to plug into the on-site electricity (as opposed to using a generator). The vendor would be responsible for removal of trash generated by their use.

As proposed, vendor participation for the Mobile Food Vending Pilot Program will not be scheduled in advance; spaces will be open and available on a first come, first serve basis for

those vendors possessing the permit. While allowing open and flexible scheduling in this way expedites implementation and minimizes administration and management of the program, staff acknowledges that other qualitative measures would not be included as part of the scheduling or prioritization process.

Pros:

- Removes/reduces barriers for food truck use on the site
- Can be initiated quickly and launched as a pilot for the calendar year 2018
- Requires minimal additional resources and staff time
- May increase overall use and vibrancy of the site
- Supports food truck/vendor entrepreneurship

Cons:

- Does not address equity considerations of vendors
- Administrative site maintenance costs unknown

No revenue from the use of 68 Haywood Street was included in the Adopted Budget. The revenue received through the proposed Mobile Food Vending program is based on the number of registrants throughout the year (there are approximately 75 local food trucks), $0-$4,000 collected as Special Event Application Fees (an existing fee established in the City's Fees and Charges). The Finance Committee has asked that utility expenses be monitored and tracked; staff will report back to the Finance Committee once expenses are known over a period of time representative of on-going use.

Staff recommends that City Council authorize the establishment of the Mobile Food Vending Pilot program in order to further encourage temporary activation of 68 Haywood Street and leverage investments already made in the site to accommodate temporary uses, including food trucks.

RESOLUTION BOOK NO. 39 - PAGE 218

K. RESOLUTION NO. 17-276 - RESOLUTION TO APPROVE PRIORITIES AND GUIDING PRINCIPLES FOR A REQUEST FOR QUALIFICATIONS FOR CITY-OWNED CEDAR HILL PROPERTY AT 411 DEAVERVIEW ROAD AND 18 PISGAH VIEW ROAD FOR AFFORDABLE HOUSING

Summary: The consideration of a request for City Council to accept housing density priorities and guiding principles for use in evaluation of a Request for Qualifications (RFQ) for development of the city-owned Cedar Hill property for affordable housing.

The City purchased two contiguous parcels, containing 16 +/- acres of land zoned RS-8, with water and sewer access in West Asheville following foreclosure of a Housing Trust Fund project, the Villas at Cedar Hill, in 2009. The city owned property known as the Cedar Hill site (2 contiguous properties at 411 Deaverview Road and 18 Pisgah View Road) is located near transit and schools, and therefore locationally efficient for the development of affordable housing. Due to its size, and its proximity to multiple housing types (rental, homeownership) in the West Asheville, the HCD Committee recommended an RFQ be issued at its October 27, 2017 meeting. HCD asked staff to return to HCD in November with concept designs that could be used in evaluation of responses to the RFQ that align with the City's affordable housing and density goals.

Additionally, the following Guiding Principles and Priorities for evaluation are recommended to be included in the RFQ:

Guiding Principles:

- To understand and respect the surrounding community and integrate the development into the neighborhood;
- To promote and maintain a high standard for design, aesthetics and construction;
- To uphold and contribute to the City of Asheville's long term vision for increased density along transit corridors within city limits;
- To incorporate and encourage environmentally sustainable approaches and solutions in every aspect possible with special considerations to protecting and enhancing the lower stream;
- To provide and contribute to diversified housing opportunities that attract varied ages, incomes, family sizes and overall demographics;
- To promote and support walkability and social connections both within the project and to the surrounding community;
- To celebrate and utilize views from the property to surrounding mountains and promote concepts that provide shared amenity spaces and keep views for all to enjoy.

Required:

- Minimum 150 units
- Mixed housing types that include rental and ownership units
- Minimum 50% of the units must be affordable (80% AMI and below for rental, 100% AMI and below for ownership)
- Community services option near Deaverview access point (i.e., community center, child care center, office space)

The HCD Committee reviewed the action and asked the following additional considerations be given to responses demonstrating ability for:

- Energy efficiency
- Community garden
- Long-term and/or permanent affordability
- Prioritizing units available to households at <60% AMI

The City's Housing Trust Fund, HOME Investment Partnership Funds, a Land Use Incentive Grant and Housing Bond dollars are additional City resources available for a qualified developer.

Pro:

- The recommendations for housing density priorities and guiding principles for use in evaluation of the RFQ are consistent with the City's Comprehensive Affordable Housing Strategy.

Con:

- None noted.

There is no fiscal impact to this specific action. Existing affordable housing funds will be used to assist in development of the project.

Staff recommends City Council approve the Housing and Community Development Committee housing density priorities and guiding principles for use in evaluation of a Request for Qualifications to develop the city owned property known as Cedar Hill at 411 Deaverview Road and 18 Pisgah View Road for affordable housing.

Councilman Young stressed that the language in the RFQ does not preclude single-family detached homes on this property.

RESOLUTION BOOK NO. 39 - PAGE 219

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. WATER ACCOUNT COURTESY CALLS

Interim Water Resources Director David Melton updated City Council on the Water account courtesy calls pilot program. He explained customers have 20 days after the utility bills have been mailed to keep the account current. On the 21st day it goes into a past due status and they receive a notice that the account is past due. There is then another 15 days before disconnection. The courtesy call program was developed with the help of the Information Technology Department, City Attorney's Office, and the Communication and Public Engagement Division. The program uses Asheville Alert in the last 15 days notification period to notify the customer of the disconnection date. During the pilot program (in place for 5 months), approximately 9,000 courtesy notifications have been made. Prior to this program, they disconnected for non-payment approximately 1,000 customers a month, but with this program, they have disconnected for non-payment approximately 1,900 over the five month pilot program period.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 17-277 - RESOLUTION ESTABLISHING AN AUDIT COMMITTEE

Ms. Patricia Rosenberg, City Internal Auditor, said that this is the consideration of a resolution authorizing the creation of an Audit Committee.

Program Description - The Audit Committee will be composed of five members: one Council member and four outside members. City Council will appoint Audit Committee members, and the Audit Committee will elect their chair. Each outside committee member will be both independent (no conflicts of interest) and financially literate, with the ability to read and understand audit reports. Audit Committee members must have a minimum of 5 years of experience in the management of accounting, finance, or audit for corporation, non-profit, and/or government. There must be at least two Certified Public Accountants and/or Certified Internal Auditors serving on the Audit Committee. The outside Audit Committee members will serve three (3) year staggered terms. The Internal Auditor will serve as the committee liaison but will not be a voting member of the Audit Committee.

Staff further recommends that the audit committee meet four times a year (quarterly), with authority to convene additional meetings, as circumstances require.

Responsibilities - The audit committee should have the following responsibilities:

- Review internal audit reports;
- Review with management and the external auditors the results of the financial statements audit;
- Report to City Council about committee activities, issues, and related recommendations as needed, but at a minimum, one time a year; and
- Provide an open avenue of communication between internal audit, the external auditors, and City Council.

Benchmarking - The Internal Auditor looked at the following cities in North Carolina: Wilmington, High Point, Greenville, Concord, Charlotte, Raleigh, Durham, Cary, Fayetteville, and Greensboro. Of those cities, High Point, Concord, Raleigh, and Cary do not have audit committees. Below is the audit committee structure in each city.

City	Number	Composition	Meetings per Year
Wilmington	8	Three Council members, five City staff	6
Greenville	9	Mayor, two Council members, City Manager, Assistant City Manager, Financial Services Manager, Director of Financial Services, Internal Auditor, external auditors	2
Charlotte	4	Four Council members	12
Durham	6	Two council members, three members of the business community, and one alternate City Council member (must include one CPA and one person with experience in the finance industry); the City Manager is an ex-officio non-voting member	12
Fayetteville	7	Three Council members, two members from local universities, the City Manager, and the Internal Audit Director	4
Greensboro	7	Three Council members, one outside member, City Manager, Internal Audit Director, Financial & Administrative Services Director	1

The Internal Auditor also looked at national benchmarking. The Association of Local Government Auditors (ALGA) conducts an annual benchmarking survey of its members and includes questions about audit committees. According to its 2016 survey, two-thirds of respondents (56 respondents of 88 total) had an audit committee. Of those respondents with an audit committee, approximately 75% have citizens/accounting professionals, 50% have elected officials, and 15% have management serve on their audit committees.

Best Practices - According to the American Institute of Certified Public Accountants (AICPA), audit committees should have three to six members who have enough financial knowledge to be able to read and understand audit reports and should have a minimum of four meetings per year (quarterly). ALGA recommends that audit committees have both members of council and financial experts from the community, and they should specifically exclude employees of City management.

Staff recommends that City Council adopt a resolution authorizing the creation of an Audit Committee.

Mayor Manheimer explained that even though we have good practices and processes around financial matters, Council felt this structure of an audit committee would be an improvement.

In response to Mayor Manheimer, Ms. Rosenberg explained the several avenues to report any concerns.

Councilwoman Mayfield felt the one Council member on the Committee should be the Chair of the Finance Committee.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 17-277. This motion was seconded by Councilman Haynes and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 220

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Closed Session

At 5:13 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: PHG Asheville, LLC vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 6:06 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 6:06 p.m.

Magdalen Bullerson
CITY CLERK

Esther E. Clark
MAYOR

Tuesday – January 9, 2018- 3:00 p.m.

Capital Improvement Plan Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; and City Clerk Magdalen Burleson

Absent: None

Chief Financial Officer Barbara Whitehorn reviewed the following agenda with Council the (1) Capital Budget Process (a) Calendar (i) 01/09/2017 overview; and (ii) March, 2017 prioritization; (2) Multi-year Debt Management and CIP (a) Brief history of Asheville CIP spending; and (b) Financial model development; (3) Multi-year Cash Flow Assumptions (a) Existing projects in capital plan, (b) Options and alternatives, (c) Logical investments; and (d) Unfunded projects; and (4) Current Multi-Year Planning and Resources (a) Cost escalators and inflation assumptions; and (b) Revenue/Resources Growth Assumptions (i) Property Tax; (ii) Grants and Partnership Opportunities; and (iii) Other Revenues.

She explained that the capital budget process that began in September moves to Council for the first of two worksessions in January, 2018. This worksession is intended to provide Council context for decision-making and prioritization that will be completed in March, 2018. The capital process is a year-round function for City staff involved in the planning, financing and execution of capital projects. Additionally, there are annual tasks that are completed as part of the budget development process.

Annual work begins in September with an Executive Team (City Manager and Assistant City Managers) overview meeting. Departments then are tasked with evaluating existing capital projects and emergent needs and preparing to present and discuss these with the Budget Division and capital projects team. The Management Team, which is made up of all department directors, takes a day to discuss and prioritize capital needs. The Finance Committee and the Council approve the CIP Budget Calendar in October/November.

The Council's work on the annual capital budget begins in earnest in January with a worksession primarily focused on process and context. At this meeting, Council provides staff with overarching goals that guide staff in their preparation of a recommended capital budget. Based on guidance from the January meeting, staff develops a draft recommended budget that is presented to Council at the March worksession, at which time Council prioritizes projects and gives direction to staff for developing the final recommended capital budget.

Multi-year Debt Management and CIP - The City of Asheville for many years spent minimally on capital projects. Baseline capital maintenance was completed; however, management and Council identified opportunities to leverage City funds into capital projects that would have a long-term positive impact on the City. In FY 2013-14, Council adopted a 3-cent tax increase for capital investment. 2-cents were to be dedicated to "economic development" projects with 1-cent for capital maintenance. At the time, 1-cent on the tax rate was the equivalent of $1.1 million. A discussion of the impact of debt financing as opposed to pay-go was presented to Council in May, 2014, which illustrated the difference in capacity between cash and debt funding of projects. Over five years, the total collections from the 3-cents would total approximately $16.5 million. Debt financing provided a capacity, for the same annual cash flow, of over $100 million. She presented a review of the current financial model.

Multi-year Cash Flow Assumptions - Staff evaluates cash flow assumptions regularly throughout the fiscal year. Each completed project provides information on changes in costs and other variables. Annually, the cash flow model is updated to ensure that the City has the financial resources to pay the debt service on the projects planned in the multi-year cash flow. She provided Council with a brief overview of the cash flow model and assumptions.

Current Multi-Year Planning and Resources

Costs and Cost Estimates - An analysis of cost experience and future cost estimates is completed annually to ensure that the City can complete projects to which it has committed. Estimates are compared to actual with a trend analysis of costs. Construction indices and local experience are evaluated to determine adjustments necessary to existing estimates.

Reevaluating the cost estimates for projects has become even more important than in previous years; the City is experiencing double-digit annual percentage increases in construction costs. The process for establishing estimates will be discussed at the worksession.

Revenue and Resources - Evaluating the available resources and the potential risks to the revenue streams is a critical step in the annual capital budget process. This annual evaluation includes economic scenario testing and the following revenue streams:

1) Dedicated Property Tax revenue
2) Fund Balance growth (investment income)
3) Dedicated pay-go funding from General Fund revenue
4) Cash inflows- land sales
5) Grants and partnerships

The economic scenarios include a 1%, 2% and 3% average growth rate for property tax revenue growth. These percentages were chosen based on trends; the City experienced 1.65% average tax base growth between FY 2015 and FY 2017. The average increase in valuation for FY 2018 was 29% city-wide because of reassessment. The required reassessment of property tax values is completed every four to eight years per State statute. This increase in valuation is not considered in the average over time. Annual growth is not driven by reassessment or the revaluation of existing properties, but rather new growth or improvements (i.e. building an addition onto a existing home). During the recession, the City experienced less than 1% growth annually, but has seen improving annual growth since 2015. Another positive sign for continued growth is the significant increase in permit values for new construction over the last three years. This and other data indicate that property tax growth will continue to rebound. To be fiscally conservative and to ensure that funds are adequate for long-term debt service, a 2% average growth rate was chosen for the financial model projections and forecast. There is an estimated unused capacity for 2019-2023 of $5 Million ($1 Million over 5 years).

Grants and partnerships create opportunities for the City to invest in projects that might otherwise not be financially feasible. The City regularly applies for Federal and State grants, as well as grants from the Tourism Development Authority, which has assisted in funding several major City projects including the River Arts District, improvements to the US Cellular Center and others. Grants can offset from 20-80% of the cost of capital investments, allowing the City's limited funds to go further. Partnerships provide an additional model for capital investment and have been used by the City as well. She presented a review of resources and opportunities.

City Council then discussed whether to program the $5 Million capacity or leave it in a contingency fund. Discussion surrounded the schedule of project planning for Fiscal Year 2019-2023 and why some projects, i.e., Thomas Wolfe Renovations, Downtown Placemaking, and Livingston Street, were not included on the schedule. Ms. Whitehorn explained why those

were not included, noting that (1) Livingston Street was just an oversight and will be added as an unfunded project; (2) Downtown Placemakers will be funded in operations; and (3) Thomas Wolfe Renovations is an unfunded project and with the moving of the substation Community & Economic Development Director Sam Powers said they will begin to engage stakeholders and look at cost effective phasing of how renovations could be accomplished. Council also discussed some projects on the schedule that could possibly be moved out to future years or reduced, i.e., I-26 and Beaucatcher.

Ms. Whitehorn, along with other appropriate members of staff, responded to various questions/comments by Council. Those questions that could not be readily answered will be distributed to City Council.

After discussion, with the understanding that there is the ability to push some projects out to future years, Vice-Mayor Wisler moved to affirm the Capital Improvement Plan as presented by staff. This motion was seconded by Councilman Young and carried unanimously.

After discussion, Councilman Young moved to not earmark the estimated $5 Million unused capacity other than to slide it into contingency with the understanding that if it is not needed for contingency that Council will allocate the funds after further discussion. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 4:00 p.m., Mayor Manheimer adjourned the worksession.

Tuesday – January 9, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON DECEMBER 19, 2017

B. ORDINANCE NO. 4632 - TECHNICAL BUDGET AMENDMENT TO APPROPRIATE FUNDING FOR PRIOR YEAR CONTRACTS AND PURCHASE ORDERS THAT ROLLED FORWARD TO FISCAL YEAR 2017-18

Summary: The consideration of a technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to Fiscal Year (FY) 2017-18.

As part of its ongoing operations, the City enters into various contracts and purchase order agreements throughout the fiscal year. When these contracts and purchase orders are entered into, budget funds are encumbered for the full amount of the expected purchase. Often these contract and purchase orders are not fully completed and paid in one fiscal year. North Carolina General Statutes provide authorization for local governments to reserve the unexpended portion of these prior year commitments and roll those budgets forward to the new fiscal year.

As a part of the FY 2016-17 annual audit, staff identified prior year commitments and carry-over appropriations to roll forward to FY 2017-18, and these dollar amounts were deducted from the unassigned fund balance amounts that were reported in the Comprehensive Annual Financial Report. The technical budget amendment will provide authorization to officially appropriate these amounts in the FY 2017-18 budget for each of the City's annual operating funds.

Pros:

- Provides budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2017-18.

Con:

- None.

As noted above this budget amendment simply provides budget authorization for prior year commitments which have already been restricted or assigned in the City's FY 2016-17 financial statements. There is no impact on unassigned/available fund balance in the City's operating funds.

City staff recommends City Council approve the technical budget amendment in each of the City's annual operating funds to appropriate from restricted and assigned fund balance the required budget authorization for prior year contracts, purchase orders, and other carry-over appropriations that rolled forward to FY 2017-18.

ORDINANCE BOOK NO. 31 - PAGE 396

C. RESOLUTION NO. 18-1 - RESOLUTION AUTHORIZING THE PURCHASING MANAGER TO DISPOSE OF CITY-OWNED PERSONAL PROPERTY VALUED AT $30,000 OR MORE

Summary: The consideration of a resolution authorizing the sale of one (1) 2005 W. Star 4900 Tandum Dump Truck deemed surplus City personal property.

The City's Water Resources Department, Division of Maintenance, identified a 2005 W. Star 4900 Tandum Dump Truck, as surplus personal property, with no anticipation of utilization by the City. Pursuant to N.C.G.S. §160A-266, the Sale and Disposal of Personal Property valued at $30,000 or more must be approved by City Council. The City's Purchasing Manager has authority to dispose of personal property valued at less than $30,000 by private negotiation and sale. The estimated wholesale value of the 2005 W. Star 4900 Tandum Dump Truck is listed at $40,000 plus $1000 - $10,000 above wholesale depending on condition. Bids were solicited and received from several potential purchasers. The final bid amount at the close of the Auction on Sunday, December 17, 2017, was $52,100.00. City Council is being asked to approve the sale of the Dump Truck for $52,100.00.

Pros:

- Promotes City of Asheville fiscal responsibility of disposing of surplus property which generates revenue.
- Space utilization eliminates the need to store large, unused equipment.
- Competitive process yielded market price, statute contemplates.

Con:

- None

The dump truck is fully depreciated and the Water Resources Fund will recognize the entire $52,100 as revenue from the sale of assets.

City staff recommends City Council adopt a resolution approving the sale of the 2005 W. Star 4900 Tandum Dump Truck to the prospective purchaser for the amount of $52,100.

RESOLUTION BOOK NO. 39 - PAGE 222

D. ORDINANCE NO. 4633 - BUDGET AMENDMENT TO UTILIZE FUNDS FROM THE U.S. DEPT. OF JUSTICE BALLISTIC VEST PARTNERSHIP

Summary: The consideration of a budget amendment in the City's Special Revenue Fund in the amount of $53,272.98 utilizing funds from US Department of Justice Ballistic Vest Partnership (BVP) ($26,636.49) and FY 2017-18 budgeted City General Operating Funds ($26,636.49) to establish the BVP 2017 project.

The City of Asheville Police Department currently participates in the US Department of Justice BVP program. The funds allocated through this program are designed to offset departmental cost associated with purchasing ballistic vests. The City of Asheville has been awarded $26,636.49 through this program, which requires the City to match this amount dollar-for-dollar. The budget amendment is necessary to authorize the full project budget amount of $53,272.98 in the Special Revenue Fund. The City's match of $26,636.49 will come from the Police Department's adopted FY 2017-18 operating budget. The funding will enable the purchase of 71 bulletproof vests over the next 2 years.

This was presented to the Finance Committee on December 19, 2017, and approved.

Pros:

- Reduction in cost to the City of Asheville for the purchase of ballistic vests
- Increase in officer safety by providing crucial safety equipment

Con:

- Requires City match.

As noted above, this grant requires a match of $26,636.49, which will come from the Police Department's existing General Fund budget (Patrol Division – Supplies – Safety Equipment). It should be noted that the overall fiscal impact to the City of Asheville is reduced due to the fact that the APD would have to purchase these vests at full replacement costs if we did not accept this grant award.

Staff recommends City Council approve a budget amendment in the City's Special Revenue Fund in the amount of $53,272.98 to establish a the Ballistic Vest Partnership (BVP) 2017 Project.

ORDINANCE BOOK NO. 31 - PAGE 398

E. RESOLUTION NO. 18-2 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ACCEPT GRANT FUNDS UNDER THE NORTH CAROLINA GOVERNOR'S HIGHWAY SAFETY PROGRAM FOR THE DWI TASK FORCE GRANT 2019

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into a contract with the North Carolina Governor's Highway Safety Program (NCGHSP) for a grant to fund 1 year of the multi-jurisdictional DWI Task Force involving the Asheville Police Department (APD) and Buncombe County Sheriff's Office (BCSO).

In Asheville and Buncombe County, the number of impaired drivers has been a serious concern to citizens and law enforcement for many years. October 2013, the NCGHSP granted the APD a four year grant to combat impaired driving incidents within Buncombe County. The Asheville Buncombe DWI Task Force was began operating in August 2014. Since then, the Asheville Buncombe DWI Task Force has made 1450 Driving While Impaired arrests and has conducted 79 Drug Evaluations on impaired. The DWI Task Force has focused efforts to educate the public of the dangers of impaired driving, through partnering with other agencies, local high schools and non-profits.

The NCGHSP contacted APD and suggested the DWI Task Force continue with its efforts by extending the Task Force Grant for Fiscal Year (FY) 2019. The continuation cost of the DWI Task Force in FY19 would be a total of $441,278.90. These funds would cover related training and salary and benefits for the DWI Task Force consisting of four APD officers and two Buncombe County Deputies. The 75% match would be split between the City and the County in the following manner:

- The City of Asheville's match will be a cost of $227,438.25 (four officers).
- Buncombe County's match will be a cost of $103,520.92 (two deputies).

Under this grant, APD would continue to assign one sergeant and three officers while BCSO would continue to provide two deputies. The DWI Task Force will continue to conduct DWI enforcement and educational activities within Asheville and Buncombe County.

This was presented to the Finance Committee on December 19, 2017, and approved to proceed to City Council.

Pros:

- NCGHSP grant funds are used to pay for 25% of the costs of salary and benefits for the DWI Task Force members.
- Potential reduction in impaired driving collisions, injuries and deaths throughout Asheville and Buncombe County.
- Partnering with local schools and nonprofit agencies to enhance public awareness of driving while impaired, and alternatives to driving while impaired.

Con:

- Funding from NCGHSP is awarded annually.

As noted below, the City's match for FY 2019 is $227,438.25. This represents a slight increase from the budgeted FY 2018 match of $200,494. Staff will include this match in the FY 2019 Proposed Budget that is submitted to City Council in May 2018. It should be noted that in the absence of the grant, the general fund impact would be approximately $303,251 per year to fully fund one sergeant and three officers and provide their equipment. The table below shows

the cost to the city for this project.

FY 2019	APD Match	$227,438.25
FY 2019	State Award to APD	$75,812.75
FY 2019	BCSO Match	$103,520.92
FY 2019	State Award to BCSO	$34,506.98
FY 2019	**TOTAL PROGRAM**	**$441,278.90**

City staff recommends City Council adopt a resolution authorizing the City Manager to apply for and accept grant funds through the North Carolina Governor's Highway Safety Program for DWI Task Force FY 2019.

RESOLUTION BOOK NO. 39 - PAGE 223

F. ORDINANCE NO. 4634 - BUDGET AMENDMENT FROM THE OFFICE OF NATIONAL DRUG CONTROL AND POLICY FOR THE HIGH INTENSITY DRUG TRAFFIC AREA 2017 GRANT

Summary: The consideration of a budget amendment in the City's Special Revenue Fund in the amount of $22,335 for the Office of National Drug Control and Policy's High Intensity Drug Traffic Area (HIDTA) 2017 grant, in which the Asheville Police Department (APD) serves as the fiduciary for the Asheville Area HIDTA Task Force.

The mission of the HIDTA program – authorized by the Anti-Drug Abuse Act of 1988 and administered by the Office of National Drug Control Policy – is to reduce drug trafficking in the most critical areas of the country, thereby reducing the impact of illegal drugs in other areas. Asheville has for many years been designated as a HIDTA site. Asheville HIDTA serves as a key drug trafficking reduction effort, critically positioned between the Atlanta HIDTA and the Appalachia HIDTA.

The Asheville HIDTA is comprised of members of the United States Drug Enforcement Administration (DEA), Asheville Police Department, Buncombe County Sheriff's Office, Henderson County Sheriff's Office and McDowell County Sheriff's Office. The Asheville HIDTA is a component of the Asheville DEA Task Force. The HIDTA task force primarily concentrates on high volume, high value drug trafficking. As an example, the task force was recently involved in a case involving the large seizure of controlled substances from persons with local and national ties, involved in the trafficking of narcotics in this region and beyond.

The City of Asheville serves as the fiduciary for the Asheville HIDTA. The allotted funds from the federal government will be used for investigative purposes. The expenditure of all funds are tracked and audited by both local and federal authorities.

This was presented to the Finance Committee on December 19, 2017, and approved.

Pros:

- Federal HIDTA monies will be used for investigative purposes.
- Continue to foster partnerships with Federal and Local Law Enforcement Agencies.

Con:

- Funding from the Office of National Drug Control and Policy is awarded annually.

Fiscal Impact: There is no impact to the City's General Fund budget.

City staff recommends City Council approve a budget amendment in the City's Special Revenue Fund, in the amount of $22,335 to establish the HIDTA 2017 Grant Project.

ORDINANCE BOOK NO. 31 - PAGE 400

G. RESOLUTION NO. 18-3 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CHANGE ORDER WITH BROWN AND CALDWELL FOR PROFESSIONAL ENGINEERING SERVICES FOR MISCELLANEOUS WATER TREATMENT PLANT UPGRADES PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract amendment with Brown and Caldwell to increase the professional engineering services contract in the amount of $70,000 from a total budget of $364,000 to $434,000 for the Miscellaneous Water Treatment Plant Upgrades Project.

On October 27, 2015, City Council approved a professional engineering services agreement in the amount of $364,000 with Brown and Caldwell for the Miscellaneous Water Treatment Plant Upgrades Project. The purpose of the project is to conduct a variety of upgrades at the North Fork and Mills River WTP's.

The contract amendment reflects the need for additional services performed by Brown and Caldwell that were not anticipated in the original scope of service. During project bidding and construction administration, Brown and Caldwell had to spend additional time: (1) updating City project documents to conform to City standards and expectations, (2) rebidding the project following the initial bid opening due to receipt of less than three bids as required per NC General Statute, (3) designing several work change directives in response to unknown field conditions, and (4) attending additional site meetings and visits during construction.

Due to the sensitivities of this project being in a active treatment facility, staff chose to prequalify contractors that had demonstrated expertise and a proven track record in this type of work. The internal review of the prequalification documents and contracts took much longer than anticipated by the consulting engineer when they estimated services. The additional design and construction administration services were required due to unforeseen issues that were not visible or known to the engineers at the time of site inspection and design. Discovering unexpected site conditions is not unusual for a project of this nature where much of the infrastructure being rehabilitated is not visible until construction has started.

Pro:

- This project will finish repairs that needed to be made to the North Fork and Mills River WTP's in order to operate the plants efficiently and ensure sustainability.

Con:

- None.

The funding needed for this agreement is currently allocated within the Water Treatment Plant Improvements Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a change order with Brown and Caldwell to increase the professional engineering services contract in the amount of $70,000 from a total budget of $364,000 to $434,000 for the Miscellaneous Water Treatment Plant Upgrades Project.

RESOLUTION BOOK NO. 39 - PAGE 224

H. ORDINANCE NO. 4635 - BUDGET AMENDMENT FOR PROCUREMENT OF FIVE ZERO-EMISSION, BATTERY-ELECTRIC TRANSIT BUSES

Summary: The consideration of a budget amendment in the amount of $481,000 in the Transit Capital Projects Fund from multiple federal and state grants for the procurement of five zero-emission, battery-electric transit buses.

The City currently operates a peak fleet of 17 transit buses and maintains a total of 23 buses. In order to maintain a healthy transit fleet, a regular purchase of new buses is required as old vehicles meet the end of their useful life, typically 12 years or 500,000 miles. These investments are guided by the ART fleet replacement schedule that defines the City's transit needs for the next 15 years. The FY 2018 purchase need is five vehicles, a higher-than-usual amount but occasionally necessary when a large number of transit vehicles retire at the same time.

In September 2017, the City's Transportation Department won a highly-competitive grant to purchase zero-emission buses through the Federal Transit Administration's (FTA) Low or No Emission Vehicle Program. The City of Asheville was selected as the only award recipient in North Carolina and was granted $633,333. This grant, combined with others intended for transit capital purchases, will allow the City to purchase five zero-emission, battery-electric buses.

The holding place that was budgeted in the FY 2018 CIP for bus purchases totaled $3,149,000. Since that time, we have finalized bus configurations and adjusted the approach to the capital lease structure for the battery component of the vehicles in order to bring down the yearly cost of lease payments, which has increased the upfront cost. The final capital projection is $3,630,000, which is $481,000 higher than initially projected, although the local match has not changed. The increase in the battery lease prepayment will reduce annual battery lease payments per bus from $32,000 to $20,000, an operational savings of $60,000 per year for the five buses. The lease payments and electricity charges the city will pay for each bus (~$25,000 each) will be consistent with what has been the norm for diesel fuel yearly payments, though we will be subsidizing clean energy instead. The cost of charging equipment and installation for each bus is included in this budget.

This project will provide needed transit vehicles while also supporting multiple city goals related to clean energy and carbon reduction. Although the upfront cost of electric buses is higher, the life-cycle cost is lower because fuel and maintenance of electric buses is less expensive and thereby contributes to a greater overall savings. Electric buses have maximum ranges of about 175 miles before having to be recharged, which at this time is sufficient to replace diesel buses on certain routes. Increased spare ratios will be required to complete an entire transition of the ART fleet unless battery technology continues to improve.

Staff has finalized bus configurations and is preparing the purchase order. The following summarizes the project timeline:

- ➔ Contract Negotiations: December 2017
- ➔ Engineering Design Review/Approval: May 2018
- ➔ Bus Production: November 2018
- ➔ Bus Delivery: December 2018
- ➔ Revenue Service Launch: February 2019

This item was reviewed by the Finance Committee on December 19, 2017, and they unanimously recommended that it move forward to City Council for review and approval.

Pros:

- The bulk of project funding--$2,550,000--is provided by the FTA
- Reduces the City's operating costs and dependence on imported fossil fuels
- More efficient engines that use 80% less energy
- Reduced harmful emissions
- Greater fuel price stability
- Aligns with the City's carbon reduction goals; Clean Energy Economy goals, energy efficiency (Energy Innovation Task Force) goals, and commitment to taking action to reduce climate pollution consistent with the Paris Accords
- Improves neighborhood quality of life from quieter engines

Cons:

- The City of Asheville is responsible for the local match of $600,000
- Electric bus batteries currently have a reduced range compared to diesel buses, and without further advances in battery technology the fleet would require a higher spare ratio

The total budget for this project has increased from $3,149,000 to $3,630,000, requiring a budget amendment of $481,000, which is funded with all non-City revenue. Asheville's local match of $600,000, which is already available in the FY 2018 Transit CIP, remains unchanged.

Staff recommends that City Council approve a budget amendment in the amount of $481,000 in the Transit Capital Projects Fund from multiple federal and state grants to purchase five battery-electric transit buses.

ORDINANCE BOOK NO. 31 - PAGE 402

I. RESOLUTION NO. 17-4 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A SANITARY SEWER EASEMENT TO THE METROPOLITAN SEWERAGE DISTRICT FOR A SEWER LINE THAT RUNS UNDERNEATH THE TENNIS COURTS IN MONTFORD PARK

Summary: The consideration of a resolution authorizing the City Manager to convey a sanitary sewer easement to the Metropolitan Sewerage District of Buncombe County (MSD) for a sewer line that runs underneath the tennis courts in Montford Park.

The City of Asheville owns the 4.28 acre park at the corner of Cumberland Avenue and Montford Park Place. There is currently an eight (8) inch vitreous clay sewer line that runs underneath the two tennis courts and connects with another sewer line at Cumberland Avenue to serve that neighborhood. The sewer line is scheduled for rehabilitation because of its material and condition. MSD would prefer that the sewer line be moved out from under the tennis courts, but the location is limited due to the existing connections to a nearby line, a retaining wall and the challenging topography on either side of the tennis courts. MSD claims a prescriptive easement over the existing sewer line because there is no recorded easement. MSD plans to rehabilitate a deteriorating line and establish a permanent easement for the sewer line at the same time. The temporary easement automatically expires when construction is complete.

MSD is requesting a twenty (20) foot permanent easement and a fifteen (15) foot temporary easement alongside the roughly 405 linear feet of pipe. Plans call for replacing the eight (8) inch clay pipe with an eight (8) inch high-density plastic pipe, and MSD plans to use underground pipe bursting technology that will eliminate the customary surface digging with pipe

replacement. Bore pits will have to be excavated and equipment lowered into the holes. This method should reduce or eliminate any potential damage to the existing tennis courts. Although the pipe will be inserted underground, there will still be disruption to the area when bore pits are excavated and equipment lowered into the holes. Both tennis courts will be closed during construction to ensure public safety.

MSD does not compensate property owners when they rehabilitate an existing line. It should also be noted that because sewer infrastructure rehabilitation serves a public purpose, they do not compensate other units of government for any easement granted.

Pete Wall, representing Capital Projects, and the Real Estate Coordinator met with MSD staff to discuss the project, review preliminary plans, and plan for coordination of efforts. Debbie Ivester of Parks and Recreation has reviewed the plans and requested input from appropriate staff. They would prefer that the line be relocated away from the park but are not actually recommending it. The City has plans to renovate the park and resurface the tennis courts in connection with the capital improvement bond program, and MSD will coordinate their construction with the renovation of the park. MSD plans to perform construction in February of 2018 with the City's renovation of the park to follow.

Pros:

- Granting of the easement will allow MSD to rehabilitate a sewer line that is in poor condition and needs maintenance.
- MSD's use of pipe bursting will reduce the impact of construction and shorten its duration.
- MSD is willing to accommodate the City's bond improvement schedule.

Cons:

- Future sewer maintenance activities may have an impact on the use of the court. Although these will be minimal the possibility remains.

No monetary consideration is involved in this conveyance.

Staff recommends City Council adopt a resolution authorizing the City Manager to convey an approximately 8,100 square foot permanent easement and a 6,075 square foot temporary construction easement to MSD for a sewer line across the City park at 345 Montford Avenue.

RESOLUTION BOOK NO. 39 - PAGE 225

J. ORDINANCE NO. 4636 - BUDGET AMENDMENT FOR THE DESIGN AND CONSTRUCTION OF A RETAINING WALL TO REPAIR A SLOPE FAILURE BETWEEN SKYVIEW PLACE AND SUNSET DRIVE

Summary: The consideration of a budget Amendment, in the amount of $750,000, from debt proceeds in the General Capital Project Fund for the purpose of the design and construction of a retaining wall to repair a slope failure between Skyview Place and Sunset Drive.

In October, 2017, heavy rains caused the slope below Skyview Place to fail and slide down onto Sunset Drive. Skyview Place is a one way road and the landslide has caused the egress portion of Skyview to be closed, forcing two-way traffic on a narrow, mountainous road not suitable for this purpose. City staff is committed to maintaining safe access throughout the City. Currently, all essential services are being provided to the residents in the area; however, the egress issue requires a solution.

This section of Skyview Place has experienced landslides in the recent past; the slope immediately adjacent to the current slope failure was repaired in 2014 with a retaining wall after a failure in that location. The retaining wall has stabilized the adjacent slope and no further issues have been experienced or are anticipated. The 2014 project was emergency funded via a budget amendment from general fund balance.

This issue was presented and approved by the Finance Committee on December 19, 2017.

Pros:

- The slope will be stabilized and will not threaten adjacent property and homes.
- Skyview Place will be reopened to the normal traffic pattern.

Cons:

- Design and contract construction will consume City Staff time and City Funds.
- Payment requires an appropriation from General fund balance.

The budget amendment for the design and construction of the retaining wall will be funded with debt proceeds utilizing capacity within the existing Capital Improvement Program (CIP) model.

City staff recommends that City Council adopt the budget amendment for the funding to adequately fund the design and construction of a retaining wall to stabilize the slope.

ORDINANCE BOOK NO. 31 - PAGE 404

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. FISCAL YEAR ENDED JUNE 30, 2017, AUDIT REPORT

Finance Director Barbara Whitehorn introduced Mr. Dan Goughery, representing Cherry Bekaert, who reported on the Fiscal Year ended June 30, 2017, audit report.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 153 SMOKY PARK HIGHWAY FROM HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING TO COMMERCIAL EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION OF A MULTI-TENANT COMMERCIAL DEVELOPMENT FOR INGLES MARKETS

Due to an error in the legal advertisement, this public hearing will be heard on January 23, 2018.

B. PUBLIC HEARING TO CONSIDER AMENDMENT TO CHAPTER 7, ARTICLES II, V, VII, VIII, XVI AND XVII OF THE CODE OF ORDINANCES FOR THE PURPOSE OF DEFINING DIFFERENT LODGING TYPES, ADDING SPECIAL REQUIREMENTS FOR CERTAIN LODGING TYPES, AND IDENTIFYING IN WHICH DISTRICTS THEY MAY BE LOCATED

ORDINANCE NO. 4637 - ORDINANCE AMENDING CHAPTER 7 , ARTICLES II, V, VII, VIII, XVI AND XVII OF THE CODE OF ORDINANCES FOR THE PURPOSE OF DEFINING DIFFERENT LODGING TYPES, ADDING SPECIAL REQUIREMENTS FOR CERTAIN LODGING TYPES, AND IDENTIFYING IN WHICH DISTRICTS THEY MAY BE LOCATED

Principal Planner Shannon Tuch said that this is the consideration of an ordinance to amend Chapter 7, Articles II, V, VII, VIII, XVI and XVII of the Code of Ordinances for the purpose of defining different lodging types, adding special requirements for certain lodging types, and identifying in which districts they may be located. This public hearing was advertised on December 29, 2017, and January 5, 2018.

She said that basically this ordinance would revise and clarify existing regulations affecting the review and administration of development standards for all lodging uses.

On October 24, 2017, Planning staff provided an update to the City Council on homestay and short-term vacation rental (STVR) regulation and enforcement. The report identified basic permitting and enforcement metrics but also noted several concerns. Included in those concerns was the growing number of residential projects being constructed for the purpose of providing STVRs instead of housing, and the perceived increase in the number of residential unit conversions to STVRs, resulting in a loss of housing units overall. At Council's direction, staff worked to identify the extent of the conversions inside and outside the Central Business District (CBD) and presented those results to the Planning & Economic Development Committee on December 19, 2017. In summary, the analysis showed that in both the CBD and in areas outside the CBD, there was an exponential growth in the number of dwelling units converted to STVRs over the last three years with areas of concentrated growth in the CBD and form code districts. In addition, new residential construction was being converted or constructed with the intent to convert a percentage of, or all units, to STVRs.

In addition, prior to the Planning & Economic Development (PED) Committee report, there had been a growing concern that due to the rapid increase in the number of other types of lodging uses in the city, more specific regulation was needed for those uses as well, in order to preserve the character of the city and protect its residents. Planning staff had initiated work on a wording amendment that would create a structure to allow for more individualized regulation of various forms of lodging, including STVRs. The PED Committee provided further direction and voted to support this amendment.

This wording amendment includes three primary components:

1) Clarify and amend existing lodging related definitions and identify and add definitions for other lodging uses not previously identified;
2) Revise the Permitted Use tables to include the newly defined lodging uses and amend the tables as directed, and
3) Require an annual permit, similar to what is required for Homestays, for all lawfully established STVRs.

Included among the new definitions are several for the various kinds of *Hotels* (large, small & extended stay), along with a definition for *Short-term vacation rental.* Currently, these uses are all covered under a single *Lodging facilities* category that is not defined. Recognizing the varying activities and impacts of these uses, the ability to regulate them independently was needed. Once the new lodging uses had been identified and defined, an update to the different Permitted Use tables was also necessary to understand how and within which zoning districts these uses would be allowed.

Also included in the amendment is a new permit requirement for all existing, lawfully established short-term vacation rentals and for ones which are lawfully created in the future. This is necessary to assist in enforcement and make sure that only those STVRs that are truly continuing in accordance with the UDO's nonconformity provisions are allowed to continue, and to confirm the same with conforming STVRs on a yearly basis. The law allows legal nonconformities to continue, but it has been well established that zoning ordinances are construed against the indefinite continuation of a such uses, and that nonconforming uses are not favored. Because there are so many STVRs (and illegal ones) and limited staff and the times they are rented is hard to monitor, this is a mechanism that balances the owner's right to continue and the City's right to terminate nonconformities which are not legally continuing under the UDO. The analysis previously performed by staff identified existing permit holders that could be used to help facilitate notice regarding new permit requirements. Once the new annual permit is established, a regular annual renewal notice would be sent as the city currently does for certain permit types. Lastly, the amendment also includes various non-substantive amendments designed to ensure consistency between the different affected code sections.

As mentioned above, this amendment was discussed at the December 19, 2017, PED Committee meeting. The feedback from the Committee has been incorporated into this amendment.

The Asheville Downtown Commission has also provided input on the subject and requests greater control and regulation of short-term vacation rentals in the downtown while supporting research and analysis of targeted strategies to incent and encourage the continued development of housing units.

This proposal was reviewed and approved by a vote of 4:1 by the Planning and Zoning Commission at their January 3, 2018, meeting. All wording amendments receive final approval by City Council.

This wording amendment supports the City's Comprehensive Plan as it relates to protecting, preserving and enhancing existing neighborhoods by controlling business activity and related nuisances in residential areas through effective regulation. Regarding Council's 2036 Vision, regulating homestays and other short term rentals is most closely aligned with the Council goals of a ***Well-Planned and Livable Community*** and ***Quality Affordable Housing*** by controlling nuisance impacts on the community and ensuring a reasonable supply of long-term housing.

Staff recommends approval of the wording amendment text modifying Articles II, V, VII, VIII, XVI and XVII to define and regulate various forms of lodging which is consistent with the Comprehensive Plan and other adopted plans.

In response to Councilman Kapoor, Ms. Tuch said that this amendment would not allow a person to convert a dwelling unit into a STVR as a use by right. Converting a dwelling unit into a STVR as a use by right can only happen in the Resort District (e.g., Crown Plaza, Grove Park Inn, areas around Richmond Hill). There is an application process available for anyone who wants to propose any kind of lodging project in any other area of the City.

Mayor Manheimer opened the public hearing at 5:29 p.m.

Of the individuals that spoke, several were opposed to the amendment in that they felt that they should be allowed to benefit from Asheville's tourist trade downtown.

Of the individuals that spoke, several were supportive of this amendment as there is a severe housing storage and the proliferation of STVR in the downtown neighborhood is detrimental to their sense of community.

In response to the current President of the Asheville Bed & Breakfast Association, City Attorney Currin said that if a bed & breakfast is legally established, they can continue to operate in same manner. For legally established businesses, a change in regulations, or a change in ownership, does not require you to conform with the new regulations. The non-conforming status will run with the land.

Mayor Manheimer closed the public hearing at 5:54 p.m.

Councilwoman Mayfield said that this is not about whole house short-term rentals in residential areas and it's not about homestays. Homestays are still legal and that is the mechanism we chose to help people who live here continue to make their house affordable. This is about steming the tide of lost housing and ensuring that people are building new long-term housing. We are trying to keep downtown a place that has a good mix that is for people who live here.

Councilman Young was concerned and disappointed about how this process moved quickly, omitting the conversation about how we deal with STVR overall. He felt we needed to have that conversation in a comprehensive way before moving forward.

Councilman Kapoor supported a larger conversation on this subject as well; however, he did not think that this proposed amendment will foreclose that discussion. He felt that the speed of this amendment was important due to the data indicating the number of downtown units converting to STVRs.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the revised wording amendments to UDO Articles II, V, VII, VIII, XVI, and XVII which defines and regulates various forms of lodging uses, and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the amendment (1) Modifies development standards to promote harmony and compatibility with surrounding neighborhoods; and (2) Defines and provides greater clarity with respect to lodging related land uses. This motion was seconded by Vice-Mayor Wisler and carried on a 6-1 vote, with Councilman Young voting "no."

ORDINANCE BOOK NO. 31 – PAGE 406

V. UNFINISHED BUSINESS:

A. ENERGY INNOVATION TASK FORCE REPORT

ACCEPTANCE OF YEAR-END UPDATE OF THE ENERGY INNOVATION TASK FORCE

Councilwoman Mayfield, Co-Chair of the Energy Innovation Task Force (EITF), said that this is a request to accept the year-end report of the EITF; reiterate the City's commitment to the EITF's goals and a multi-year partnership between the City, Buncombe County and Duke Energy; and reallocate previously allocated funds to support a community campaign to improve energy efficiency and reduce energy use.

The City of Asheville, Buncombe County and Duke Energy jointly created the EITF in April 2016 as a collaborative, community effort to achieve two goals:

1. Avoid or delay building a 190-MW natural gas, peaking unit anticipated to be needed in the early 2020's, and
2. Create a clean energy future in Western North Carolina.

As a first step toward achieving these goals, Council approved $205,000 as part of this year's budget process to fund the initial EITF recommendations. While most of those funds have been spent for their intended purpose, $36,000 remains unspent (mainly intended for education initiatives) and is available to be re-allocated for other EITF-related recommendations, upon City Council approval.

As indicated during the budget discussions, these initial investments by the city were intended to be the first step in the development and implementation of a longer work plan and campaign. After 19 months of research and planning, the EITF now has a path forward to reach these goals that includes technology innovations, improvements to and increased subscription rates to existing Duke Energy programs, Duke Energy pilot projects, committed and anticipated investments by the City and County in clean energy projects, and partnerships with community non-profits. A summary of the work and the path forward is included in the presentation.

Key to the reaching the EITF's goals is bringing all of these efforts together under a single branded, community campaign called the Blue Horizons Project. This will be a coordinated marketing and outreach campaign that will ask residential and business customers to take specific actions to help reduce or shift energy use. The specific recommended actions will change over time in order to keep customers engaged and offer more options for action.

While this campaign relies heavily on Duke Energy's programs, implementation of the campaign must be the responsibility of the EITF convening partners and members. Critical to the campaign's success will be the sense of collective, community responsibility it will generate and the need for everyone to participate if we are to reach our goals. It will not likely be successful if the public perceives it to be solely a Duke Energy marketing effort.

To that end, it is critical that the convening partners continue to commit resources to ensure the long term success of this partnership. Most of those resources will take the form of staff time in supporting the work of the EITF and the Blue Horizons Project, but each partner is also being asked to contribute at least $25,000 to support marketing for the campaign and the expenses of a campaign coordinator. Now that the EITF is moving out of planning and into implementation, there is a need for centralized coordination of outreach, communications, marketing, community partners, projects, website maintenance, tracking metrics of success, and fundraising. The EITF leadership envisions this position would be housed at the Green Built Alliance, which has been a leader in the EITF. Both the County and Duke have committed at least $25,000 to support the Blue Horizons Project campaign coordinator position and work plan.

To truly ensure the success of this enduring, multi-year partnership, Council will need to consider longer term funding. That, however, is more appropriately addressed within the regular budget/financial planning process, including considering funding in this next cycle to ensure the original projects intended to be covered by the FY18 allocation are accomplished.

SACEE has indicated its support for the city's long term commitment to this partnership as well as re-allocation of $25,000 at this time to support the campaign.

Pros:

1. Advances Council's goals established by the EITF resolution and other resolutions aimed at moving Asheville toward a cleaner, affordable, smarter energy future
2. Advances Council's vision for A Clean and Healthy Environment, which states, "Asheville continues to be a leader in innovative technologies and conservation efforts in response to global climate change."

Con: None.

None as these funds have already been allocated to support EITF recommendations.

Recommended Action includes (1) Accept the EITF report and re-commit long term support for the EITF, its goals, and the multi-year partnership between the City, Buncombe County, and Duke; and (2) Reallocate $25,000 of funds previously allocated to other EITF efforts to support the work of a campaign coordinator and associated marketing expenses for the Blue Horizons Project, conditioned on the County and Duke Energy committing at least an equal share (which they have done).

Mr. Jason Walls, Co-Chair of the EITF, reviewed the report via the following PowerPoint:

"Setting the stage: (1) Consistent electric demand growth over the past several decades (a) Since 2006, the region's peak demand has + 1.5% annually; and (b) Our region experiences winter system peaks on average 30% higher than summer; and (2) Duke Energy projects a capacity shortfall of 17 megawatts per year beginning 2023, leading to a new 190-MW peaking power plant - The community asked Duke Energy Progress to give them a chance to reduce energy use, charting a cleaner energy future for the region.

"This is how the community takes action: City of Asheville, Buncombe County and Duke Energy convened the EITF: (1) 16 local leaders representing regional business and community interests; and (2) Convened in May 2016 with two goals: (a) Avoid or delay the construction of the 190 MW natural gas peaker plant planned for 2023; and (b) Transition the Duke Energy Progress-West Region to a cleaner, affordable and smarter energy future, rooted in community engagement and collaboration, that is mutually beneficial to the community and Duke Energy. Rocky Mountain Institute (RMI) was engaged to support the EITF facilitation and provide a global perspective to validate assumptions and identify/share best practices.

"Defining the challenge (1) We know more about how customers in the region use energy today than ever before; and (2) RMI's analytical expertise was leveraged to complete a baseline analysis of regional electricity use (a) Rapid growth in peak electrical demand. Growth in Asheville/Buncombe County is a primary driver; (b) Peak demand occurs on the coldest winter mornings; (c) Homes are transitioning from gas and propane to electric HVAC for heating; and (d) Siloed approaches sub-optimize the results achieved.

"Identifying solutions (1) Based on RMI's analysis, two primary focus areas are: (a) Expansion of targeted energy efficiency; and (b) Shifting when customers use electricity; (2)

Priorities: (a) Increase participation in energy efficiency; (b) Improve penetration of demand-side management; and (c) Expand renewables and other advanced solutions; and (3) Recommendations: (a) Establish a brand and launch a campaign to inform, educate and engage the community; (b) Leverage, expand and bundle existing programs and efforts; (c) Increase investment and focus on low-income programs; (d) Develop and implement new programs; and (e) Establish goals/targets to track progress.

"Enabling success: (1) Launch *Blue Horizons* Campaign: This campaign allows people to connect their actions with a larger movement; (2) Hire a project manager: Having someone who is accountable to manage commitments, timelines, initiatives and the campaign is critical to moving further faster; (3) Create a central hub. An online platform to cross promote programs within Duke's portfolio and local initiatives/programs will make participation easier; (4) Train and cultivate local contractors. As we grow participation and awareness, local contractors need to be ready to implement these measures (5) Leverage, expand and bundle existing programs. Make it easy to find and use existing programs; and (6) Advance low-income EE efforts. Leverage existing efforts to improve the lives of people in our communities."

Ms. Sonya Marcus, Sustainability Advisory Committee on Energy & the Environment Committee (SACEE) representative on the EITF, was proud of the work taking place and felt it was moving in the good direction. She said there is a concern on SACEE that we continue to provide critical funding for the activities outlined as priority activities in our clean energy framework, and the reallocation of these funds are actually being detracted from other initiatives that we had planned to fund in this cycle. She hoped Council would be hope and willing to discuss further funding allocations for priority energy projects that really target City operations.

Councilwoman Mayfield said that this partnership with Duke Energy and the County continues to be unique in the country. For us to continue to achieve the goals as the EITF as well as the City's sustainability goals around energy, this will require us to participate in a long-term multi-year partnership with these partners. That will require us to consider allocations every year as part of our budget cycle.

When Vice-Mayor Wisler stated that she supported this action; however, she wanted to see measurables; Mr. Walls said that at their EITF meeting coming up this Friday, they will talking with that group about some of those goals and about how they are going to measure the success of that position in the first year of this effort. City Manager Jackson also noted that this will be a performance contract and those measures will be tracked with the quarterly payments to Green Built Alliance.

When Councilwoman Smith asked if SACEE is supporting the reallocation of the funds because in future years there will need to be other allocations made for clean energy, Ms. Marcus replied yes.

RESOLUTION NO. 18-5 - RESOLUTION APPROVING THE ADDITION OF THE ENERGY INNOVATION TASK FORCE RECOMMENDATIONS TO THE CITY OF ASHEVILLE'S SUSTAINABILITY MANAGEMENT PLAN AND AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH GREEN BUILT ALLIANCE

Summary: On June 23, 2009, Asheville City Council adopted Resolution 09-135 to adopt the Sustainability Management Plan to direct implementation of carbon reduction measures and strategies. On October 22, 2013, Asheville City Council adopted Resolution 13-228 to support a local clean energy future for the city and the region. On October 27, 2015, Asheville City Council adopted Resolution 15-200 supporting the Community Clean Energy Policy Framework which aims to reduce carbon emissions and encourage a clean energy economy through a partnership

with Duke Energy. On March 22, 2016, Asheville City Council adopted Resolution 16-64 establishing a joint City, County and Utility Energy Innovation Task Force that is committed to: (1) Transition the Asheville/Buncombe County area of Duke Energy Progress' - West Region to a cleaner, affordable and smarter energy future, rooted in community engagement and collaboration, that is mutually beneficial to the community and Duke Energy; and (2) Avoid or delay the construction of a 190 MW natural gas peaker plant planned for 2023. The Energy Innovation Task Force members include representatives from the lead partners, environmental and clean energy advocacy organizations, and local businesses and institutions; and have endeavored to accomplish the desired outcomes established in Resolution 16-64. Since August, 2016, with input from the City, County and Duke Energy, Rocky Mountain Institute has aided process design and facilitation, led data collection and the data synthesis process with Duke, supported analytical and research needs, contributed to solution development, and completed a strategic evaluation that forms the foundation for a broader EITF strategy. The recommendations from the Energy Innovation Task Force identified investments in commercial and residential energy efficiency as the first step to alleviate peak demand. On December 20, 2017, the Sustainability Advisory Committee on Energy and the Environment made a motion to support the city's long term commitment to the EITF partnership as well as re-allocation of $25,000 to support the Blue Horizons project coordinator. Making an annual investment in the Blue Horizon's project coordinator administered through the Green Built Alliance will promote efficiency programs provided by City of Asheville, Buncombe County and Duke Energy Progress. The convening partners, Buncombe County and Duke Energy Progress, included in Resolution 16-64 have already allocated resources to support the Blue Horizon's project coordinator. Fiscal Year 2018 budget includes $205,000 from the General Fund to support initiatives from the EITF. The EITF recommendations go beyond Fiscal Year 2018 and will be considered in the Fiscal Year 2019 budget planning process. Therefore, (1) The City of Asheville accepts and approves the recommendations from the Energy Innovation Task Force by incorporating it into the adopted Sustainability Management Plan and any amendments thereto; and (2) The City Manager be, and he is hereby authorized, to enter into an agreement with Green Built Alliance to support the Blue Horizon's project coordinator.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-5. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 226

RESOLUTION NO. 18-6 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MEMORANDUM OF UNDERSTANDING WITH BUNCOMBE COUNTY TO ENLIST ROCKY MOUNTAIN INSTITUTE TO CONTINUE ITS EFFORTS IN ACCOMPLISHING THE ENERGY INNOVATION TASK FORCE PHASE III SCOPE OF WORK

Summary: The consideration of an authorization for the City Manager to enter into a Memorandum of Understanding (MOU) with Buncombe County to enlist Rocky Mountain Institute (RMI) to continue its efforts in accomplishing the Energy Innovation Task Force's (EITF) Phase III Scope of Work.

Buncombe County, the City of Asheville and Duke Energy Progress established a collaborative task force known as the Energy Innovation Task Force to research and recommend energy efficiency and demand-side management programs in Buncombe County.

The EITF workgroup leaders have committed to working to delay or avoid the construction of an additional fossil fuel-powered combustion turbine electricity generating facility at the Asheville plant site in 2023.

Since August 2016, with input from the workgroup leaders, RMI has helped facilitate discussions, overseen data collection and synthesis, supported research efforts and solution development at no cost to the work of the EITF (Phase I and Phase II).

The parties now wish to continue the work of the Rocky Mountain Institute on behalf of the EITF collaboration, Phase III Scope of Work. Phase III includes a final report of all outcomes of Phase I, II and III.

Phase III was allocated in the FY18 City budget from the General Fund as part of the $205,000 to support the EITF initiative.

The Memorandum of Understanding states:

- For the sake of efficiency, the County agrees to contract with RMI to perform Phase III and pay the full amount due to RMI, which is anticipated to cost $90,000 worth of services and up to $9,000 in travel expenses; and
- The City agrees to reimburse the County for half of the amount paid, up to $50,000, to RMI by the County within thirty (30) days of the County's payment to RMI of these budgeted funds.

The Buncombe County MOU was unanimously approved by the Finance Committee on October 24, 2017.

As part of the FY18 budget, $205,000 has been budgeted from the General Fund for the EITF. Of that funding, $50,000 was allocated to support ongoing engagement of RMI.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into an Intergovernmental Agreement with Buncombe County to enlist Rocky Mountain Institute (RMI) to continue its efforts in accomplishing the EITF's desired outcomes.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-6. This motion was seconded by Councilman Young and carried on a 6-1 vote, with Councilwoman Smith voting "no."

Councilwoman Mayfield noted that the work from RMI has been completed and there are no other plans to bring them back.

RESOLUTION BOOK NO. 39 - PAGE 228

B. REDEVELOPMENT OF CITY-OWNED LAND FOR AFFORDABLE HOUSING

POLICY DIRECTION FOR THE REDEVELOPMENT PROCESS AND $15 MILLION ALLOCATED FOR THIS PURPOSE

Community Development Director Heather Dillashaw, Real Estate Program Director Nikki Reid, and Project Manager Stephanie Monson Dahl reviewed with Council the re-purposing of City-owned land for affordable housing. They explained that the Affordable Housing Strategy and the 3-Year Council Strategic Priorities adopted in 2015 include (1) strengthening the City's existing affordable housing programs for low- and moderate-income households; (2) exploring innovative approaches to providing additional housing and a broader range of housing options; (3) prioritizing the highest return on investment as measured by (a) number of affordable units; (b) percentage of permanently affordable units; (c) contributions to long-term economic and tax base growth; and (d) sustainability; and (4) utilizing locally efficient City-owned land for affordable housing. They explained the due diligence on the the sites identified (1) 171-179 S. Charlotte Street, (2) 81-91 Riverside Drive and (3) 319 Biltmore Avenue. They will then facilitate a planning process and due diligence study to maximize results - access complexity of issues on the property, opportunities/constraints, and level of financial investment required to maximize return on investment. Before Council at this time is a resolution authorizing the City Manager to enter into a professional services contract with Lord Aeck Sargent for the design, land planning, engineering, financial feasibility and consulting services necessary to perform the due diligence for affordable housing on real properties identified by the City of Asheville.

Next steps include (1) a due diligence and affordable housing feasibility analysis in the winter/spring of 2018 and the process will take between 6-8 months to conduct pre-development analysis; (2) in the late summer of 2018 Council will review the due diligence findings and give direction to staff to authorize to proceed with redevelopment of one or more of the selected sites (and potentially a relocation of Fleet/Public Works); and (3) in the late fall, we will solicit qualifications and/or proposals from developers for affordable housing on one or more of the site identified.

RESOLUTION NO. 18-7 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH LORD AECK SARGENT FOR DUE DILIGENCE SERVICES FOR AFFORDABLE HOUSING ON CITY-OWNED PROPERTY

The general obligation bond program allocates $25 million for affordable housing, of which $15 million is directed to the redevelopment of City-owned land for this purpose. On February 7, 2017, City Council directed staff to proceed with performing due diligence on three specific properties to support affordable housing. The sites identified include (1) 171-179 S. Charlotte Street, (2) 81-91 Riverside Drive and (3) 319 Biltmore Avenue. The City of Asheville is the owner of the properties located on S. Charlotte Street and Riverside Drive. The City has negotiated an option to purchase the property at 319 Biltmore Avenue, which is currently owned by Duke Energy.

The goal of the due diligence study is to assess the feasibility of achieving successful affordable housing developments on each of the selected sites. While all three sites are in close proximity to Downtown, they reside in different contexts and each site has its own challenges and opportunities to be explored. The study seeks to identify the physical opportunities and constraints with respect to development, the number of affordable units that can be developed on each site, the massing and conceptual improvements that could be built onsite and the market conditions for mixed use development. Additionally, the study seeks to validate and test specific finance / affordability scenarios from a pro-forma perspective and create implementation strategies to set the stage for procurement of development partners. The scope of work also includes a public engagement process designed to share findings on proposed redevelopment scenarios and garner stakeholder feedback. Ultimately, this information for each of the three sites is being presented to City Council with the intent (1) to obtain Council's direction on making any or all of the sites available for redevelopment and (2) to provide a basis for the City's financial participation in redevelopment in order to achieve specific affordable housing goals.

In May 2017, the City published a Request for Qualification (RFQ) and requested submittals of qualifications from firms interested in conducting due diligence of these properties. In response to the Request for Qualifications, the following seven firms submitted packages:

Lord Aeck Sargent (Atlanta, GA)	Mathews Architecture (Asheville, NC)
McMillan Pazdan Smith (Asheville, NC)	Kassinger Development Group (Asheville, NC)
AHEAD Group (Asheville, NC)	Glazer Architecture (Asheville, NC)
KA DesignWorks (Aspen, CO)	

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. Three firms scored high enough to be short-listed for on-site interviews, including Lord Aeck Sargent, Mathews Architecture and McMillan Pazdan Smith. The professional team of Lord Aeck Sargent was well-qualified in all required disciplines, with extensive experience in urban redevelopment, affordable housing financials, and technical assessments. The Lord Aeck Sargent team includes sub-consultants that are listed as minority business enterprises, and consultant team members are located in Asheville and Atlanta. Scoring by the review team indicated Lord Aeck Sargent as the highest-rated offeror in this procurement.

Negotiations were undertaken with the selected firm, and the team demonstrated its flexibility and an understanding of the City's needs on all parts of this study. This firm also demonstrated the ability to produce the needed results in an appropriate timeframe. The complete base scope of work can be contracted for $240,660. The scope of work is also structured so that if a roadblock or impediment to development is detected early on within a specific site, then any further study on the site will cease and no further funds will be expended for due diligence on that site.

The Affordable Housing Advisory Committee has discussed this planning process and due diligence study. The Housing and Community Development Committee reviewed at their December 19, 2017, meeting and recommends City Council authorize the City Manager to enter into this professional services contract with Lord Aeck Sargent.

Pros:

- Allows the performance of a key study critical to implementing the Affordable Housing Bond Program;
- Multi-disciplinary team includes design, land planning, engineering, financial feasibility and other relevant disciplines needed to deliver redevelopment scenarios; and
- Performing this work will set the stage for developing needed affordable housing units on locationally-efficient sites.

Con:

- None identified.

The project will be funded through the City's available cash resources.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a professional services contract with Lord Aeck Sargent not to exceed $240,660 for the design, land planning, engineering, financial feasibility and consulting services necessary to perform the due diligence for affordable housing on real properties identified by the City of Asheville.

Ms. Monson-Dahl said that if the resolution is approved they will begin with a community engagement plan. Ms. Reid will be hiring a firm that can provide geotechnical services for not

only this, but for some of the other strategic investment sites in other work that the City needs. Council will be considering that contract to support this work.

Vice-Mayor Wisler hoped that given the timeline for these projects we won't be running up against the 7 years to spend the bond money set aside for affordable housing. Councilwoman Mayfield noted that we do have the ability to reallocate the money to other affordable housing projects.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilman Young moved for the adoption of Resolution No. 18-7. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 230

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

RESOLUTION NO. 18-8 - RESOLUTION APPOINTING A MEMBER TO THE AUDIT COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a City Council member to the newly created Audit Committee.

It was the consensus of the Boards & Committee Committee to appoint Vice-Mayor Wisler to this seat.

Vice-Mayor Wisler moved to appoint herself as the City Council member to the Audit Committee to serve until her term on City Council expires. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 231

RESOLUTION NO. 18-9 - RESOLUTION APPOINTING MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Board of Adjustment.

The terms of Nelda Holder (Alternate), Richard Fort (Regular), Daniel Summerlin (Alternate) and Philip Harden (Regular) expire on January 21, 2018.

The following individuals applied for the vacancy: Carter B. Webb, Sarah Katzmark and Ken Sherlin.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Mr. Hardin as a Regular Member; (2) reappoint John Kledis as an Alternate member; (3) appoint Carter Webb as an Alternate member; (4) appoint Paul Wilczynski (who is currently serving as an Alternate member) as a Regular member; and (5) readvertise for Mr. Wilczynski's alternate seat.

Vice-Mayor Wisler moved to (1) reappoint Philip Hardin as a Regular member to serve an additional three-year term, term to expire January 21, 2021, or until his successor has been appointed; (2) reappoint John Kledis as an Alternate member to serve a three-year term, term to expire January 21, 2021, or until his successor has been appointed; (3) appoint Carter Webb as an Alternate member to serve a three-year term, term to expire January 21, 2021, or until his successor has been appointed; (4) appoint Paul Wilczynski to serve as a Regular member to serve a three-year term, term to expire January 21, 2021, or until his successor has been appointed; and readvertise for the Alternate seat left vacant by Mr. Wilczynski. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 232

RESOLUTION NO. 18-10 - RESOLUTION APPOINTING MEMBERS TO THE DOWNTOWN COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Downtown Commission.

The terms Byron Greiner, Michael McDonough and Jimi Rentz expired on December 31, 2017.

The following individuals applied for the vacancy: Brendan Ross, Edward Dewey, Linda Mathiasen, Peter Landis, Joshua Beckman, Leslie Stewart, Mary Kay Smith, Robin Raines, Carleton Colllins, Kelly Prime, Richard Winchell, Steven Lee Johnson, Jane Mathews, Kimberly Hunter, Rebecca Nicole Huber-Brown, Greg Hoffman, Aaron Ryba, Andrew Fletcher and Sarah Craycraft.

It was the consensus of the Boards & Commissions Committee to appoint Kimberly Hunter, Andrew Fletcher and Steven Lee Johnson.

Vice-Mayor Wisler moved to appoint Kimberly Hunter, Andrew Fletcher and Steven Lee Johnson to each serve a three-year term respectively, terms to expire December 31, 2020, or until their successors have been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 233

RESOLUTION NO. 18-11 - RESOLUTION APPOINTING MEMBERS TO THE HOMELESS INITIATIVE ADVISORY COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Homeless Initiative Advisory Committee (HIAC).

The terms of Charles Rosenblum, Sabrah n'haRaven and Jay Lively expired on November 1, 2017.

The following individuals applied for the vacancy: Kerry Keihn, Val Ball, Michelle Stowe Ong, Joey Grisanti, Angela Dubs, Marcia Bacoate, Donald Alexander, Kate Caton, Douglas Ray Oeser, Andrew Monroe, Timothy Moser, Bill Robinson, Michael Carlebach, Roberto L. Hess, Thomas Cash and Tamarie Macon.

At the request of the HIAC, it was the consensus of the Boards & Commissions Committee to reappoint Mr. Rosenblum; appoint Marcia Bacoate; and wait until the HIAC puts forth a recommendation for their third vacancy.

Vice-Mayor Wisler moved to (1) reappoint Charles Rosenblum to serve an additional three-year term, term to expire November 1, 2020, or until his successor has been appointed; (2) appoint Marcia Bacoate to serve a three-year term, term to expire November 1, 2020, or until her successor has been appointed; and (3) wait until the HIAC puts forth a recommendation for their third vacancy. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 234

RESOLUTION NO. 18-12 - RESOLUTION APPOINTING MEMBERS TO THE SUSTAINABILITY ADVISORY COMMITTEE ON ENERGY & THE ENVIRONMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Sustainability Advisory Committee on Energy & the Environment..

The terms of Geoffrey Habron, Lael Gray and John Noor expired on December 31, 2017.

The following individuals applied for the vacancy: Lateef Cannon, Zephyr Jost, Larry Haas, David Penrole, Renee Mazurek, Catherine Rosfjord, Red Moonsong, Patrick Ciccotoo, Rick Freeman, Frank Wolf, Bob Roepnack, E. Benjamin Edwards, Kelly Gloger, Lin Orndorf, Ursula Jorch, Lisa Almaraz, Maureen Drinkard and Amy Smith.

It was the consensus of the Boards & Commissions Committee to reappoint Mr. Habron and Mr. Noor and appoint Renee Mazurek

Vice-Mayor Wisler moved to (1) reappoint Geoffrey Habron and John Noor to each serve an additional three-year term respectively, terms to expire December 31, 2020, or until their successors have been appointed; and (2) appoint Renee Mazurek to serve a three-year term, term to expire December 31, 2020, or until her successor has been appointed. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 235

RESOLUTION NO. 18-13 - RESOLUTION APPOINTING MEMBERS TO THE TREE COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Tree Commission.

The terms of Marc Williams, Amy Kemp and Diane Hillgrove expired on December 31, 2017. In addition, there currently exists a vacancy left by Carl Nyberg, term to expire December 31, 2018.

The following individuals applied for the vacancy: Casey Cave, Sharon Sumrall, Cecil Bothwell, Martha Dyke and Amy Smith.

It was the consensus of the Boards & Commissions Committee to (1) reappoint Ms. Hillgrove; (2) appoint Cecil Bothwell Sharon Sumrall; and (3) appoint Amy Smith to the unexpired term left by Mr. Nyberg.

Vice-Mayor Wisler moved to (1) reappoint Diane Hillgrove to serve an additional three-year term , term to expire December 31, 2020, and (2) appoint Cecil Bothwell and Sharon

Sumrall to each serve a three-year term respectively, terms to expire December 31, 2020; and (3) appoint Amy Smith to serve the unexpired term of Mr. Nyberg, term to expire December 31, 2018, or until her successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 236

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Will Thibodeau explained how he felt there was a lack of impartiality in local government.

Mr. Ken Sherlin felt that the reappointment of Mr. Philip Hardin as a Regular member to the Board of Adjustment is not valid since Mr. Hardin had previously served two terms.

Closed Session

At 6:51 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: PHG Asheville, LLC v. the City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5); and (4) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:51 p.m., Councilwoman Mayfield to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:51 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – January 23, 2018 - 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 9, 2018

B. RESOLUTION NO. 18-14 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND ACCEPT FUNDS IF AWARED THROUGH THE N.C. GOVERNOR'S CRIME COMMISSION'S STATE APPROPRIATION COMMITTEE FOR THE 2017-18 BODY/DASHBOARD CAMERAS - LOCAL SOLICITATION

Summary: The consideration of a resolution authorizing the City to apply for and accept funds if awarded through the North Carolina Governor's Crime Commission's State Appropriation Committee for the 2017-18 Body/Dashboard Cameras — Local Solicitation for a state-issued matching grant in the amount of $61,535.

The City of Asheville Police Department (APD) requests authorization to apply for and accept funds if awarded from the NC Governor's Crime Commission's State Appropriation Committee 2017-2018 Body/Dashboard Cameras - Local Solicitation. If the grant is approved APD will be allocated $61,535 based upon the state-issued matching grant ($1 state for every $1 local). The distribution of funds would be approved through a signed Memorandum of Understanding.

Funds will be utilized to purchase 50 Axon Fleet Dashboard Camera Systems for APD police vehicles, along with the camera accessories. The video cameras will: 1) enhance the police-community partnership guided by integrity, fairness, respect, and professionalism; 2) produce a "civilizing effect" for both the police officers and citizens; 3) provide transparency on the scrutiny of traffic stops; 4) augment APD's criminal and internal investigations, particularly on Driving While Intoxicated (DWI) traffic stops; and (5) enhance and streamline the sharing of recordings with the Buncombe County District Attorney's Office for discovery in criminal cases.

This funded state-issued matching grant for the purchase of Dashboard Cameras, as the studies suggest because of the "civilizing effect," will enhance the police-community partnership by decreasing citizen complaints on police officers, to include decreasing the use-of-force complaints; while at the same time decreasing the number of assaults against police officers.

Moreover, criminal and internal investigations will be augmented through audiovisual evidence that corroborates the factual basis of an incident.

This report will be presented to the Finance Committee on January 23, and if there is anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pros:

- Dashboard Cameras should produces a "civilizing effect" that enhances the police-community partnership with decreased citizen complaints on the police; decrease use-of-force complaints; and decreased assaults on police officers; and add transparency to the scrutiny of traffic stops.
- Enhanced criminal and internal investigations, particularly DWI traffic stops.

Cons:

- Ongoing budgeted funding required to sustain the Dashboard Camera program into the future police operations that includes the current FTE to manage the program and the continual costs for the storage, maintenance and replacement after the approximate five-year service life of the devices.
- Ongoing task and costs associated with managing, storing, providing discovery, and following retention schedules.

If the grant is awarded, the city will incur an expense as the Local Solicitation is a state-issued matching grant ($1 state for every $1 local). The total expense for the purchase of the 50 camera systems is $123,070; $61,535 from the State grant and $61,535 provided by the City of Asheville from the allocated APD CIP funds intended for Dashboard camera purchases and APD's FY18 operating budget. Moreover, there will be continual annual costs for storage, maintenance and replacement after the approximate five-year service life of the devices.

Staff recommends City Council adopt the resolution authorizing the City Manager to apply for grant funds through the NC Governor's Crime Commission's State Appropriation Committee for the 2017-2018 Body/Dashboard Cameras - Local Solicitation in the amount of $61,535.

RESOLUTION BOOK NO. 39 - PAGE 237

C. RESOLUTION NO. 18-15 - RESOLUTION ACCEPTING AN HONORARIUM FROM THE UNIVERSITY OF NORTH CAROLINA - ASHEVILLE'S MCCULLOUGH INSTITUTE

Summary: The consideration of a resolution authorizing the City Manager to accept, on behalf of the Office of Sustainability, the McCullough Institute Honorarium from the University of North Carolina's (UNC) Asheville campus.

The McCullough Fellowship Program at UNC Asheville connects undergraduate researchers with area organizations, businesses and resources to address real work challenges in one or more the the following areas: Land Use and Conservation, Urban Planning, Sustainable Agriculture, and Resilience and Environmental Sustainability. Each fellowship includes honorarium for project partners. The honorarium is in the amount of $800.00.

Over the last year, the Office of Sustainability mentored a McCollough Fellow to examine "Food Cultivation in Urban and Public Green Spaces: Design, Management, Civic Engagement and Lessons from the Field." Resulting in several workdays with City parks staff and community partners to bring much needed maintenance to the Dr. George Washington Carver Edible Park as

well as a seed exchange and community walking tours to educate the public on the edible plants within the park.

The work of the McCollough Fellow supports the Resolution 17-257, the City's Food Policy Action Plan. The honorarium in the amount of $800 will be utilized for future maintenance and organized work days within the edible park honoring the work and collaboration of the McCollough Institute.

Pros:

- Supports Resolution 17-257 Food Policy Action Plan
- Management of Dr. George Washington Carver Edible Park

Con:

- None

There is no fiscal impact.

Staff recommends City Council adopt a resolution authorizing the City Manager to accept, on behalf of the Office of Sustainability, the McCullough Institute Honorarium in the amount of $800.00.

RESOLUTION BOOK NO. 39 - PAGE 238

D. RESOLUTION NO. 18-16 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION TO FUND THE TRANSIT PLANNING PROGRAM, SECTION 5303 OF THE FEDERAL TRANSIT ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the N.C. Dept. of Transportation (NCDOT) to fund the Metropolitan Planning Program, Section 5303 of the Federal Transit Administration (FTA).

The FTA Section 5303 Metropolitan Planning Program is part of the annual Unified Planning Work Program (UPWP) of the French Broad River Metropolitan Planning Organization (FBRMPO), which outlines transportation planning tasks to be performed by the FBRMPO. The Metropolitan Planning Program is designated to pay exclusively for transit planning activities, such as grant administration and reporting activities, short-range and long-range transit planning, transportation improvement program preparation, Title VI and DBE programs, and planning and operational analyses. The funds are used to supplement the Transit Planning Manager position (90% of the grant) and other transit related positions (the remaining 10%) for time spent on transit planning.

This funding makes it possible to have dedicated staff developing and engaging in complex processes such as the transit master plan implementation, route changes, and to develop programs required by the Federal Transit Administration for Asheville, as designated recipient, and sub-recipients to ensure compliance with federal regulations. This resolution is required by the North Carolina State Department of Transportation.

FY 2018-19 funding totals $75,000. The subject grant will provide 80% of the anticipated funding ($60,000), the North Carolina Department of Transportation will provide 10% ($7,500), and the City of Asheville will provide the remaining 10% ($7,500). The grant funding and the City's local match are budgeted annually in theTransit Services Fund budget.

This report is being reviewed by the Finance Committee on January 23, 2018, and if anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pros:

- Supplements funding for multiple transit-related positions.
- Enables the City of Asheville to use $67,500 in Federal and State funds for transit planning activities.

Con:

- A 10% local match in the amount of $7,500 is required.

The total grant funding is $75,000. As noted above, the City is required to provide a 10% local match in the amount of $7,500. The anticipated grant funding and the City's local match in the amount of $7,500 are budgeted annually in the Transit Services Fund budget.

City staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the North Carolina Department of Transportation to fund the transit planning program, Section 5303 Metropolitan Planning Grant of the Federal Transit Administration for FY 2018-19.

RESOLUTION BOOK NO. 39 - PAGE 239

E. ORDINANCE NO. 4638 - BUDGET AMENDMENT FROM THE FEDERAL TRANSIT ADMINISTRATION FOR THE JOB ACCESS AND REVERSE COMMUTE (JARC) PROJECTS

Summary: The consideration of a budget amendment in the amount of $196,648 from the Federal Transit Administration to set up project budgets for Fiscal Year (FY) 2016 and FY 2017 Job Access and Reverse Commute (JARC) projects.

Job Access and Reverse Commute (JARC) is a Federal Transit Administration (FTA) grant program that is targeted at providing job access in urbanized and suburbanized areas. The job access refers to projects relating to the development and maintenance of transportation services designed to transport low-income individuals to and from jobs and activities related to their employment. The reverse commute refers to a public transportation project designed to transport residents of urbanized areas to suburban employment opportunities.

JARC is funded through a 10% allocation of FTA 5307 funds that are administered by the French Broad River Metropolitan Planning Organization (FBRMPO). The FBRMPO posted the call for projects on March 27, 2017. A total of $537,692 was awarded for projects in the FBRMPO region including $292,163 to the City of Asheville to partially fund ART Sunday Service and Route 170 to Black Mountain. $48,881 is also available to the City of Asheville for JARC Administration. A summary of the funded projects for FY 2016 and FY 2017 JARC funding is shown below:

Sub-Recipient	Project	Amount funded	Local Match
Mountain Projects (Haywood County)	Deviated Fixed Route - Capital	$56,000	$14,000
Mountain Projects (Haywood County)	Deviated Fixed Route - Operations	$58,000	$58,000
Buncombe County	Black Mountain Trailblazer	$82,648	$82,648

City of Asheville	Limited Sunday Service	$187,200	$187,200
City of Asheville	Route 170	$104,963	$104,963
City of Asheville	Program Administration	$48,881	N/A

The City of Asheville expenses for Limited Sunday Service, Route 170, and Program Administration are already budgeted in the adopted Transit Services Fund budget so no budget amendment is needed for that portion of the grant. The budget amendment in the amount of $196,648 will provide budget authorization for the City to receive and pass through the subrecipient grant amounts from FTA.

This report is being reviewed by the Finance Committee on January 23, 2018, and if anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pros:

- This funding will help maintain existing transit services that are essential to many residents.
- This funding will help offset operating costs.
- The City receives $48,881 for administration purposes, which does not require a local match.

Con:

- The City funding for Limited Sunday Service and Route 170 requires a local match.

The City of Asheville's fiscal impact is the local match for Sunday Service and Route 170 that totals $292,163. The local match is already budgeted within the adopted Transit Services Fund budget .

Staff recommends City Council adopt a budget amendment in the amount of $196,648 from the Federal Transit Administration and local sources to set up project budgets for FY 2016 and FY 2017 Job Access and Reverse Commute (JARC) projects.

ORDINANCE BOOK NO. 31 - PAGE 416

F. ORDINANCE NO. 4639 - BUDGET AMENDMENT FROM THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR AN UPDATE TO THE CITY'S PEDESTRIAN PLAN AND AMERICANS WITH DISABILITIES TRANSITION PLAN UPDATE

Summary: The consideration of a budget amendment in the City's Special Revenue Fund in the amount of $175,000 to budget $140,000 in federal grant funds awarded through the French Broad River Metropolitan Planning Organization (MPO) along with a City match of $35,000 for an update to the City's pedestrian plan and ADA transition plan; and a budget amendment of $35,000 in the City's General Fund from unassigned fund balance to appropriate the City match.

By Resolution 16-117, adopted May 17, 2016, City Council authorized the City Manager to apply for, and if successful, to execute agreements to accept the funding for several grants from the French Broad River MPO, including $175,000 for an update to the city's 2005 pedestrian plan and older ADA transition plan. The grant was awarded, with project funding slated for FY 2017-18. Execution of the grant agreement is pending the adoption of this budget amendment to add the project to the current budget.

This report is being reviewed by the Finance Committee on January 23, 2018 and if

anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pros:

- Allows the City to update the pedestrian and ADA transition plans
- Leverages $140,000 in grant funding

Con:

- Grant requires $35,000 in local match from General Fund unassigned fund balance

As noted above, the City's local match is $35,000. It will be funded through an appropriation from General Fund unassigned fund balance.

Staff recommends City Council adopt the attached budget amendment in the City's Special Revenue Fund in the amount of $175,000 to budget $140,000 in federal grant funding awarded through the French Broad River MPO along with the City's match of $35,000; and a budget amendment of $35,000 in the City's General Fund from unassigned fund balance to appropriate the City match.

ORDINANCE BOOK NO. 31 - PAGE 418

G. RESOLUTION NO. 18-17 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDING FROM THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR FISCAL YEAR 2018 FOR A TRANSPORTATION FEASIBILITY STUDY ON BILTMORE, MCDOWELL AND BROADWAY AND TO EXECUTE ALL NECESSARY AGREEMENTS

ORDINANCE NO. 4640 - BUDGET AMENDMENT FOR TRANSPORTATION FEASIBILITY STUDY ON BILTMORE, MCDOWELL AND BROADWAY

Summary: The consideration of (1) a resolution authorizing the City Manager to accept transportation funds from the French Broad River Metropolitan Planning Organization (MPO) for a feasibility study regarding transportation operations on Biltmore Avenue, McDowell Street and Broadway; and (2) a budget amendment in the City's Special Revenue Fund in the amount of $200,000, to budget $160,000 in federal grant funds, with a required City match of $40,000; and a budget amendment of $40,000 in the City's General Fund from unassigned fund balance to appropriate the City match.

In May of 2016 City Council approved a resolution authorizing the City Manager to apply for, and if successful, to execute funding agreements for transportation funding from the French Broad River MPO. One of these grant applications was for the engineering and design of complete streets projects on Biltmore Avenue, Coxe, Avenue, and South Lexington Avenue.

Ultimately, the French Broad River MPO awarded funding for project design of Coxe Avenue and South Lexington Avenue. Both of these design projects are currently included in the City's Capital Improvements Program.

With regard to Biltmore Avenue, the MPO committees decided to direct funds toward a feasibility study that would look more comprehensively at north-south mobility in this area. In particular, north-south bicycle facilities are needed. Biltmore Avenue will be studied along with the parallel corridor of McDowell Street to look at all modes of transportation, including the feasibility of adding bicycle facilities.

In addition to Biltmore and McDowell, the Broadway corridor was added to this study because all of these corridors are owned and operated by the North Carolina DOT, and have

similar operational issues. Namely, these are relatively high volume traffic corridors with an identified need for bicycle facilities. Adding the facilities would be challenging given the current configuration of the streets.

This resolution and budget amendment clarifies the following: 1) The French Broad River MPO initiated a corridor study process for Biltmore Avenue, McDowell Street and Broadway; 2) The need for this study arose, in part, in response to a funding application from the City of Asheville for complete streets projects; 3) that the MPO programmed $160,000 in federal funding toward the study; and 4) the City of Asheville is expected to manage the study and provide the $40,000 match.

This report is being reviewed by the Finance Committee on January 23, 2018, and if anything other than a unanimous approval is received, the details of the decision by the Finance Committee will be made clear to City Council at their meeting later that same day.

Pros:

- Advances the implementation of the City's Complete Streets Policy
- Leverages $160,000 in federal grant funding
- Continues a cooperative effort with the NCDOT and the French Broad River MPO

Con:

- Grant requires $40,000 in local match from General Fund unassigned fund balance

As noted above, the City's local match is $40,000. It will be funded through an appropriation from General Fund unassigned fund balance.

Staff recommends City Council (1) adopt the resolution authorizing the City Manager to accept transportation funds from the French Broad River MPO for a feasibility study of transportation operations on Biltmore Avenue, McDowell Street and Broadway; and 2) adopt the budget amendment in the City's Special Revenue Fund in the amount of $200,000 to budget $160,000 in federal grant funding awarded through the French Broad River MPO along with the City's match of $40,000; and a budget amendment of $40,000 in the City's General Fund from unassigned fund balance to appropriate the City match.

RESOLUTION BOOK NO. 39 - PAGE 240
ORDINANCE BOOK NO. 31 - PAGE 420

H. RESOLUTION NO. 18-18 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND IF AWARDED ACCEPT, A GRANT FROM THE NATIONAL LEAGUE OF CITIES LEADERSHIP IN COMMUNITY RESILIENCE GRANT

Summary: The consideration of a resolution authorizing the City Manager to apply for a grant, and accept funding if awarded, from the National League of Cities Leadership in Community Resilience Grant.

Asheville's Climate Resiliency Assessment is designed to help the City be prepared for and lessen the impacts of future extreme weather events.

Over the past year, the City engaged with the University of North Carolina Asheville's National Environmental Modeling and Analysis Center (NEMAC) to analyze possible impacts of extreme weather through modeling the City's vulnerabilities and risk.

The current planning focuses on prioritization of identified preparedness options. The intent of this phase is to develop options and strategies that can be incorporated in City and community policy agenda through the City's Comprehensive Plan, *Living Asheville*.

The National League of Cities Leadership in Community Resilience grant offers an opportunity for the City to receive a year-long assistance program to be delivered in three (3) ways:

1. Policy and practice exchange,
2. $10,000 Grant to support a local resilience event, and
3. Attendance to the 2018 Resilient Cities Summit.

The Office of Sustainability will utilize grant funding, if awarded, to create a proactive framework centered around educational outreach and awareness to mitigate risk and build community resilience around identified climate threats.

This item was passed unanimously by the Finance Committee to advance to City Council's Consent Agenda.

Pros:

- Supports community resilience through the City's Climate Resilience Assessment
- Supports the City's Sustainability Master Plan

Con:

- None

If awarded, the $10,000 grant will be spent during the Fiscal Year 2018 - 2019. Matching funds are not required. As a result, the only fiscal impact related to the City is staff time to manage and participate over the next 12 months.

City Council approval of a resolution authorizing the City Manager to apply for, and accept funding if awarded, a grant from the National League of Cities Leadership in Community Resilience.

RESOLUTION BOOK NO. 39 - PAGE 241

I. RESOLUTION NO. 18-19 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH CLARK PATTERSON LEE, P.C., FOR DESIGN SERVICES FOR THE ART TRANSIT STATION FACILITIES RENOVATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Professional Services Agreement with Clark Patterson Lee, P.C. in the amount of $188,000 for design services for the ART Transit Station Facilities Renovation Project.

On March 28, 2017, at the Budget Work Session, City Council directed staff to proceed with a design to improve the ART Transit Station based on a recommendation from the 2009 Transit Master Plan for Near-Term Enhancements that were never completed. The above-referenced master plan recommended that the City should *"make modest improvements to the Downtown Transit Center. In order to prolong the life of the transit center until a replacement is constructed, modest improvements and repairs should be made to the central location of transit service."* This project will be managed by the Building Construction Division in General Services, in coordination with the Transit Planning Division of the Transportation Department as sponsor.

On July 18, 2017, the General Services Department issued a Request for Qualifications for Architectural & Engineering Services for the ART Transit Station Facilities Renovation project for a contract that includes planning & public engagement, design, and construction administration services. The project will involve a complete renovation of the ART Transit Station with the goals of: improving passenger experience; improving building performance and energy efficiency; maximizing the renovation within budget; and minimizing disruptions to transit performance.

The design will consider all structures on the 0.5-acre parcel, including the passenger waiting area, restroom, dispatch & break room, passenger loading platform, and canopy. Also, the design will consider the site's potential for expanding building footprint. Lastly, the design will assess the feasibility of adding a solar array on top of the canopy roof and, if feasible, will design the solar array. The base scope for this design work is funded by the General Fund, and the solar assessment and design work would utilize Sustainability "Green CIP" Funds.

In response to the Request for Qualifications, the department received three submittals on September 25, 2017. Companies responding were:

1. Moser, Mayer, Phoenix Associates (Moser, Mayer, Phoenix Associates was acquired by Clark Patterson Lee, P.C. while the fee proposal was being negotiated. The acquisition was completed on November 1st, 2017.)
2. LS3P Associates Ltd.
3. Form & Function Architecture

Following a review of qualifications by City staff and the program manager, Moser, Mayer Phoenix Associates (now Clark Patterson Lee, P.C.), was selected as the most qualified firm and provided a negotiated fee of $188,000.

Pros:
- This project will improve passenger experience by modernizing the transit station facilities, and fulfilling the near-term enhancements recommended in the last Transit Master Plan.
- This project is aligned with the City, General Services and Office of Sustainability's goals of continued investment and improvement of the City's facilities through Capital Improvement Projects, in order to provide lower cost, more sustainable facilities.

Con:
- None.

The funding needed for this agreement is currently allocated within the ART Transit Station Renovation Project (B1703) in the Capital Improvement Program (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Professional Services Agreement with Clark Patterson Lee, P.C., for the amount of $188,000 for design services for the ART Transit Station Facilities Renovation Project.

RESOLUTION BOOK NO. 39 - PAGE 242

J. ORDINANCE NO. 4641 - ORDINANCE TO ENACT AND/OR CHANGE THE SPEED LIMITS ON VARIOUS SECTIONS OF STREETS IN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance to enact and/or change the speed limits on various sections of streets in the City of Asheville.

According to state law (NCGS # 20-141), the statutory speed limit in North Carolina is 35 mph inside municipal corporate limits for all vehicles and 55 mph outside municipal corporate limits for all vehicles except for school buses and school activity buses.

Furthermore, local authorities may authorize by ordinance higher speeds or lower speeds than the statutory 35 mph speed limit on locally-maintained streets provided that the higher speed limit cannot exceed 55 mph. Speed limits authorized by local authorities are effective when the appropriate signs are erected. Speed limits on N.C. Dept. of Transportation (NCDOT) maintained streets may also be raised or lowered but require concurring ordinances to be passed by both the NCDOT and the City authorizing the speed limit.

City staff recently reviewed all existing speed limit ordinances for accuracy and applicability. This review revealed a number of ordinances that are incorrect for various reasons. In some cases, the descriptions are incorrect or no longer apply. In a couple of instances, the streets or portions of the streets no longer exist or were abandoned from City maintenance. Additionally, there is a school zone speed limit concurring ordinance where the school is no longer in existence.

City staff has determined that:

1. The following streets no longer exist as City maintained roadways: Pearlman Alley, Second Street, and University Heights.

2. The following NCDOT streets no longer have concurring ordinances or no longer are identified as shown in the ordinances: Airport Road, Pearson Bridge Road, and Riverside Drive.

3. The following streets were previously maintained by NCDOT and had a concurring ordinance for 25 mph, but when they were taken over by the City, the concurring ordinance was not rescinded and a City ordinance was not enacted: Braeside Circle, Sycamore Drive, Sycamore Terrace.

4. The ordinances for the following streets are no longer correct due to wording or other errors/omissions or partial abandonments: Aston Street, Beverly Road, Davidson Street, Edgewood Road (Enka), Fairview Road, Federal Alley, South Beaumont Street, Spruce Street, and Wilson's Alley.

5. The ordinances for the following streets conflict due to lower speed limits being enacted without the repeal of the higher speed limit: Columbine Road and Wolfe Cove Road.

6. The following school zones are obsolete because the schools no longer exist: Haywood Road (St. Joan of Arc School), and Victoria Road (St. Genevieve).

Pros:

- The speed limit ordinances will be current and accurate.
- The ordinances will be more enforceable.
- Obsolete ordinances will be removed.
- City staff will be able to "clean up" the speed limit ordinances.

Con:

- None.

There is no anticipated financial impact for this action.

City staff recommends that City Council repeal ordinances from streets that have changed or no longer apply and approve an ordinance detailing correct names and descriptions.

ORDINANCE BOOK NO. 31 - PAGE 422

K. ORDINANCE NO. 4642 - ORDINANCE TO PROHIBIT MAKING RIGHT TURNS ON A RED INDICATION AT THE INTERSECTION OF DEAVERVIEW ROAD AND BEAR CREEK ROAD NORTH AND THE INTERSECTION OF PATTON AVENUE AND NORTH FRENCH BROAD/SOUTH FRENCH BROAD AVENUES; AND TO REMOVE THE RIGHT TURN ON RED PROHIBITION FROM THE INTERSECTIONS OF HAYWOOD STREET AND BATTERY PARK AVENUE, LIBERTY STREET AND FAIRVIEW ROAD, AND PATTON AVENUE AND CHURCH STREET

Summary: The consideration of an ordinance enacting a prohibition from making right turns on a red indication at the intersection of Deaverview Road and Bear Creek Road North and the intersection of Patton Avenue and North French Broad/South French Broad Avenues; and to remove the right turn on red prohibition from the intersections of Haywood Street and Battery Park Avenue, Liberty Street and Fairview Road, and Patton Avenue and Church Street.

According to state law (NCGS # 20-158), local authorities, with reference to highways under their jurisdiction, are authorized to control vehicles at intersections and other appropriate places, by erecting or installing steady-beam traffic signals and other traffic control devices, signs, or signals. This section further discusses right turns on steady red indications and the means to restrict them.

City staff recently reviewed the right turn on red ordinance for accuracy and applicability. This review revealed a number of intersections that have the restriction, but are no longer signalized. Those intersections are Haywood Street and Battery Park Avenue, Liberty Street and Fairview Road, and Patton Avenue and Church Street. Council action is required to remove these restrictions.

City staff has conducted engineering studies to determine their appropriateness at two intersections. Based on these studies, a right turn on red prohibition will increase the safety for all modes of transportation without adding undue delay or hardship to motor vehicles. Those are the intersection of Deaverview Road and Bear Creek Road North and the intersection of Patton Avenue and North French Broad/South French Broad Avenues.

Pros:

- The right turn on red indication ordinances will be current and accurate.
- The new intersections will be more friendly to all modes of transportation.
- City staff have responded favorably to citizen's requests.

Con:

- None.

The financial impact to install the appropriate signs at the two intersections is less than $500 and is included in the Transportation's operating budget for the current fiscal year.

City staff recommends that City Council approve an ordinance enacting a prohibition from making right turns on a red indication at the intersection of Deaverview Road and Bear Creek Road North and the intersection of Patton Avenue and North French Broad/South French Broad Avenues. City Staff further recommends that City Council remove the right turn on red prohibition

from the intersections of Haywood Street and Battery Park Avenue, Liberty Street and Fairview Road, and Patton Avenue and Church Street as these signals have been removed.

ORDINANCE BOOK NO. 31 - PAGE 425

L. RESOLUTION NO. 18-20 - RESOLUTION TO AMEND THE RESOLUTION ESTABLISHING THE HOMELESS INITIATIVE ADVISORY COMMITTEE TO UPDATE THE NAME, PURPOSE AND DUTIES OF THIS COMMITTEE

RESOLUTION NO. 18 -21 - RESOLUTION ADOPTING THE ASHEVILLE-BUNCOMBE HOMELESS INITIATIVE ADVISORY COMMITTEE'S NEW BYLAWS

Summary: The consideration of a resolution adopting the Asheville-Buncombe Homeless Initiative Advisory Committee (HIAC) new Bylaws and a resolution amending HIAC's enabling resolution to update the name, purpose and duties of the HIAC to recognize a joint committee of the City of Asheville and Buncombe County.

Looking Homeward: Ten Year Plan to End Homelessness in Asheville and Buncombe County was adopted as a guiding document in 2005 by the City of Asheville and Buncombe County. The Ten Year Plan was the culmination of community efforts and stakeholders to address housing the significant chronic homeless population in Buncombe County.

In 2008, the City of Asheville and Buncombe County established the Homeless Initiative Advisory Committee within the City organization, primarily for the purpose of implementing the Ten Year Plan to 'address issues related to homelessness, to provide for official recognition, and allow for appropriate administrative support' of the plan. In 2009, the City of Asheville became the Lead Agency for the Continuum of Care (CoC), designated as NC 501, a federally recognized entity capable of receiving federal dollars targeted to addressing homelessness. Subsequent policies developed and guided by the HIAC, as well as increased funding have enabled a systems' response to homelessness resulting in: the reduction of all types of homelessness, the number of persons that become homeless, the duration and frequency of homeless episodes and a reduction of the number of persons experiencing chronic homelessness from 293 in 2005 to 74 in 2017. Funding for NC 501 has more than doubled in the last ten years as a result of comprehensive strategies and HIAC oversight of the CoC.

The Homeless Initiative Advisory Committee's Five Year Strategic Plan adopted in 2017, addresses the ongoing issues of homelessness in Buncombe County and is predicated on the original success of the Ten Year Plan. The HIAC acts in advisory capacity to implement the strategic plan and make funding and policy recommendations to Council to ensure oversight and community support for these critical initiatives. The proposed Bylaws reflect HIAC's role as the advisory body that works to reduce the underlying causes of homelessness in Buncombe County through support of system-wide collaboration designed to decrease the many barriers homeless individuals and families face in accessing safe, stable and affordable housing.

On November 21, 2017, the HIAC recommended and the Housing and Community Development Committee approved and recommended to the Boards and Commissions Committee and City Council, approval and adoption of the revised Bylaws, the accompanying resolution and approval and adoption of the amended resolution detailing the purpose and duties of the HIAC beyond the initial oversight of the Ten Year Plan in Buncombe County. The Boards and Commissions Committee approved and recommended to City Council approval and adoption of the HIAC Bylaws and all accompanying resolutions on January 9, 2018.

The federal, state and local funding all support or subsidize quality affordable housing and align with the 2036 Council Vision of an inclusive, diverse community and quality affordable housing by supporting an effective network of community service providers to address homelessness.

This recommendation complies with the goals of the Five Year Strategic Plan on Homelessness in Buncombe County adopted by City Council and Buncombe County in 2017 and the 2015 Comprehensive Plan.

Pros:

- HUD funding is a key funding resource for homeless individuals and families in the community. HUD funding is dependent on proper implementation of community wide strategies within a prescribed framework to serve the homeless population in Buncombe County.
- The HIAC serves as the advisory committee to ensure compliance and effective use of key federal, state and local dollars in excess of 1.2 million dollars every year.

Cons:

- HUD funding is allocated yearly in the Congressional Budget process, and is subject to change annually.

Homeless program services and subsidy funding is received from the US Department of Housing and Urban Development and the State of North Carolina. Existing Community Development staff administer and monitor current programs and initiatives

Staff requests to City Council to approve and adopt the Asheville-Buncombe Homeless Initiative Advisory Committee's proposed Bylaws; and amend their enabling resolution establishing the purpose and duties of the HIAC to coordinate and support efforts to address issues of homelessness throughout the NC 501 Continuum of Care.

RESOLUTION NO. 18-20 - RESOLUTION BOOK NO. 39- PAGE 243
RESOLUTION NO. 18-21 - RESOLUTION BOOK NO. 39- PAGE 245

M. REQUEST TO RENAME LAKEWOOD PARK IN KENILWORTH TO LEAH CHILES PARK

Summary: Announcement of a request to rename Lakewood Park to Leah Chiles Park.

Community members James Vaughn and Kevin Broadwater are proposing to rename Lakewood Park to Leah Chiles Park, and to donate a historical plaque to be located on site.

Leah Chiles and her husband James Chiles were the founders and developers of the town of Kenilworth in the 1920's. In 1928, Leah Chiles became the first women elected mayor of a town in western North Carolina. As Mayor of Kenilworth, Mrs. Chiles stood up for rights of Kenilworth residents by demanding a vote of residents before agreeing to annexation by the City of Asheville in 1929. Mrs. Chiles was also a businesswoman, continuing the Kenilworth Development Corporation after the death of her husband. Additionally she created a nationally renowned art exhibition in Asheville and founded the Kenilworth Galleries. The present day Lakewood Park was donated to the town of Kenilworth in 1924 and is located directly across the street from the historic James Madison Chiles and Leah Arcouet Chiles House.

Pursuant to the City's policy on naming public facilities, Mr. Vaughn and Mr. Broadwater submitted the renaming proposal and the required petition signed by over 30 registered voters who reside within the city limits of Asheville.

The proposal was presented to the Recreation Advisory Board on November 13, 2017, and the Kenilworth Neighborhood Association on July 11, 2017, and received unanimous support from the board and association.

Also pursuant to the City's naming policy, Council shall make the announcement at a scheduled public meeting as to provide for an opportunity to receive input from appropriate sources. Prior to voting, the Council may solicit the advice of surrounding property owners, residents, affected parties and other City officials or anyone else that the Council believes can contribute meaningful input.

In order to receive that input, Council will make a decision at its next regularly scheduled meeting.

The City Clerk's office has verified with the Buncombe County Board of Elections that at least 30 signatures on the request are registered voters of the City.

The cost to the City to support the renaming of Lakewood Park to Leah Chiles Park is $4,000 to $6,000 for the park identification sign. The funds to support the cost is budgeted in the City's Capital Improvement Program for the Parks and Recreation Department. There is no cost associated with the historical plaque since it will be donated to the City.

The Recreation Advisory Board recommends the renaming of Lakewood Park to Leah Chiles Park, and to place a historical plaque on-site to honor Leah Chiles.

N. MOTION APPROVING THE BOARD OF ALCOHOLIC BEVERAGE CONTROL'S TRAVEL POLICY ADOPTED JANUARY 26, 2016

Summary: Each year the N.C. ABC Commission, in compliance with Chapter 18-B700, Article 7, g (2), requires its 167 ABC boards to get annual approval of board travel policies from their appointing authorities. Section g (2) of 18B-700 states, "The local board shall annually provide the appointing authority's written confirmation of such approval...".

The ABC Board approved the current policy January 26, 2016. Two years ago the ABC Board incorporated all the elements to changes in the City's Travel Policy, and we made no changes to the current policy.

The ABC Board formally requests the City of Asheville's written confirmation of the Asheville Board of Alcoholic Control Travel Policy.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Young moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam gave a brief update on the I-26 Connector Project, concentrating on the consultant they hired. On October 12, 2017, the consultant had a kick-off meeting and during that date they also had three separate meetings - one with City staff, one with the N.C. Dept. of Transportation (NCDOT), and various stakeholders including the Asheville Design Center, Housing Authority (Hillcrest), Burton Street community, Montford community, and the East West Asheville Neighborhood Association. They reviewed the urban design (surplus property redevelopment), transportation designs review greenways planning, and aesthetics betterment concepts.

Councilwoman Mayfield said that a key priority is reclaiming the Patton Avenue corridor for development and they are hopeful that the NCDOT will revise their current design to allow for more of reclaiming that corridor.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 153 SMOKY PARK HIGHWAY FROM HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING TO COMMERCIAL EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION OF A MULTI-TENANT COMMERCIAL DEVELOPMENT FOR INGLES MARKETS

ORDINANCE NO. 4643 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 153 SMOKY PARK HIGHWAY FROM HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING TO COMMERCIAL EXPANSION DISTRICT/CONDITIONAL ZONING FOR THE EXPANSION OF A MULTI-TENANT COMMERCIAL DEVELOPMENT FOR INGLES MARKETS

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at 153 Smoky Park Highway from Highway Business District/Conditional Zoning to Commercial Expansion District/Conditional Zoning for the expansion of a multi-tenant commercial development for Ingles Markets. This public hearing was advertised on January 12 and 19, 2018.

She said the applicant is requesting review of conceptual plans for the construction and renovation of a commercial retail development at 153 Smoky Park Highway with a conditional zoning request from Highway Business (HB) to Commercial Expansion (COM EXP) District. This project is considered under conditional zoning pursuant to Sections 7-7-8 and 7-8-42 of the Unified Development Ordinance (UDO).

The subject property (PINs 9628-10-0202, 9628-10-2994 and 9628-10-5221) are currently owned by Ingles Markets Inc; the petitioner is Ingles Markets Inc and the project contact is Preston Kendall.

The project site consists of multiple parcels with a combined area of over 32 acres. There are existing retail structures and surface parking on the site; some will be renovated while some will be removed for new construction.

The project area is zoned Highway Business Conditional Zone (overlay from Ordinance No. 3954, approved in 2011 but not constructed). Nearby uses along the commercial corridor are largely retail business in nature and zoned HB. There are residential uses and residential zoning to the north and northwest (RS-4) and Institutional zoning across Smoky Park Highway to the south (Asheville School). The Norfolk Southern rail line and right-of-way runs across the southeastern edge of the project site.

The applicant is proposing to demolish several existing structures on the site and build new retail spaces and a new grocery store as well as retain and renovate the strip retail building on the westernmost side of the site. The total square footage for all uses combined is approximately 251,493 square feet. The plan includes a gas canopy use towards Smoky Park Highway and shows three outparcels at the front of the site that would be developed as Level II projects in the future.

The plans propose a minimum of 620 surface parking spaces which does not meet the minimum number of spaces required based on the overall retail square footage proposed *(see condition)*. There is an existing parking area in front of the building to be renovated, which would otherwise not be permitted in this location according to district standards *(see condition)*.

There are a number of access and mobility standards required by the expansion district that will be met by the proposal, including requiring future outparcel development to have internal driveways only *(see condition)* and connecting internally to the State Employees Credit Union to the west. However there are conditions requested as well such as multiple driveways onto Smoky Park Highway (see *condition*).

Plans show a ten-foot sidewalk along the Smoky Park Highway frontage with a pedestrian crossing from Asheville School to the south and across the drive to Lowes to the west. Existing sidewalks are not able to be expanded across the bridge over the rail line at the eastern end of the project frontage and there is no sidewalk heading north into the Lowe's driveway along the bridge on this side of the street. Bike lanes into the development from Smoky Park Highway have been provided, as well as a location for a future transit pad (transit routes do not currently serve this location).

Landscaping is required for this project and includes a property line buffer to the north (the applicant is providing a larger than required buffer), street buffer, street trees, parking lot and building impact landscaping. There is one condition requested by the applicant related to landscaping in the interior of the parking field *(see conditions)*.

Fifteen percent of the site is required to be provided as open space; plans appear to comply with four separate areas designated for a total of at least 15% of the project area.

There are standards relating to fenestration, entrances and building appearance. The applicant is proposing a condition related to entrances but will otherwise comply with the standards for the existing and new construction *(see condition)*.

This site was approved as a conditional zoning in 2011 (Ordinance No. 3954) but was never completed. The new application is somewhat altered from that proposal and follows the current process (adopted in February 2017) for commercial expansion projects due to the project size.

The applicant is proposing a number of conditions as detailed in the Exhibit B.1 list. Staff is supportive of the conditions. Several are detailed below but supplemental conditions provided by the applicant are noted in the attachment.

1. Parking
    a. Reduction in minimum number provided *(719 required by UDO, a minimum of 620 proposed)*
    b. Location of parking *(district requires parking to be to the side or rear of buildings; plans propose maintaining existing parking field in current location in front of existing shops to be renovated and includes a strip of parking spaces in front of gas canopy)*

c. Reduction in loading berths *(UDO requires at least 7 loading berths as the calculation is based on overall SF; applicant is requesting to reduce the requirement and base it more on the final tenants, which aren't yet identified. Additionally the request to reduce is based on their experience as a retailer)*

2. Landscaping
   a. Elimination of one landscaping strip and pedestrian pathway within the main parking field *(four strip/pathways would be required by UDO; applicant is proposing two within the main parking field due to reuse of the site and requested reduction in parking)*
3. Driveways
   a. Two requested due to the size of the development *(the zoning district limits developments to have only a single driveway into the site; DOT has approved two signalized driveways from Smoky Park Highway)*
4. Entrances into buildings
   a. Reduction of standard *(the zoning district requires well-defined operable entrances at regular intervals not to exceed 75 feet; applicant requests to comply when the tenant spaces are smaller but to meet the intent of activation with benches or other amenities if the space will be filled by larger tenants due to programmatic/security challenges)*
5. Signage
   a. Freestanding signs *(a total of four freestanding signs are requested to be allowed for the overall development, as illustrated on the signage plans attached, with one multi-tenant sign at the westernmost driveway, one monument sign shared by the Ingles Gas Express and Outparcel 1, one multi-tenant sign at the easternmost driveway for Outparcel 2 and future tenants, and one monument sign to serve Outparcel 3; typically in a multi-tenant development, only two freestanding signs are allowed if there are multiple road frontages but due to the large size of the development and the fact that the outparcels could be developed on their own with additional signage if not reviewed under this application, the applicant requests to have combined signage between the tenants with three freestanding signs on Smoky Park Highway and the fourth on the Lowe's Driveway.*
   b. Ingles attached signage *(the applicant is requesting that storefront signage of the main tenant -Ingles - will be allowed to have one square foot of signage per linear foot of building up to 5% of the total front facade square footage with a maximum of 400.27 square feet overall as shown and each wall elevation will be allowed an additional sign to give the appearance of individual shops, as illustrated on the signage plans attached; typically Ingles would be permitted to have only a single sign at the 1 per 1 rate, not to exceed 200 square feet.)*
   c. Gas canopy attached Signage *(the applicant is requesting one square foot per one lineal foot of canopy with one sign on each side of the canopy as illustrated on the signage plan; this generally complies with HB signage standards as related to a single-tenant for attached signage size except that where typically a sign would be allowed on all four sides of the canopy and in this request, the rear side is relocated to the front of the canopy.)*
   d. Store frontage signage for future outparcel development *(the applicant is requesting that these buildings will be allowed to have one square foot of signage per linear foot of store front with a maximum square footage of up to 125 square feet, which can be divided up into a maximum of two signs; this generally complies with HB signage standards as related to single-tenant commercial development, attached signage except that they would be permitted to have their own freestanding sign and would not be allowed to split the attached signage)*

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on September 13, 2017. The project was approved with conditions by the Technical Review Committee on November 6, 2017. The Planning & Zoning Commission unanimously voted to support this proposal and requested conditions at their meeting on December 6, 2017. No communication from the public has been received by staff as of the writing of this report.

In 2016, a 30-lot single-family subdivision was approved approximately 1.7 miles away (Bear Creek Homes) and in 2017, a 39-lot single-family subdivision was approved approximately 2 miles away (Ashecroft Subdivision).

The mixed commercial uses proposed for this development can be be considered as appropriate in this location. The project improves and expands an existing shopping center that has been in place a number of years. The corridor is zoned Highway Business and contains similar uses in both directions. The enhanced landscape buffer to the rear provides a suitable buffer to the residential neighborhood; the retail uses are all oriented towards Smoky Park Highway and the front part of the parcel. Sidewalks, crosswalks and other multimodal elements designed into the plan help the development to connect to users from all directions, including creating a pedestrian crossing across the Lowe's Driveway and a pathway from the neighborhood.

This project is aligned with elements in the Comprehensive Plan (*2025 Plan)* in that it provides multi-modal transportation elements to support users not only arriving via vehicle and even incorporating transit features while transit does not yet reach this site; and places development along a commercial (mixed-use) corridor with infrastructure already suited to accommodate the use. While the Plan does encourage mixed-use development when possible, this project does include connection points to improve pedestrian access for residential and institutional users to the south and north and improves and expands an existing retail space.

The proposal aligns with the 2036 Council Vision in the following areas: *Transportation and Accessibility* (multi-modal access opportunities); and *A Well-Planned and Livable Community* (multimodal elements and access to neighborhood)

Considerations:

- Proposal updates and enhances an existing, dated shopping center along a commercial corridor
- Future development on outparcels will comply with district standards under a Level II review, including fenestration, entrance and building placement standards
- Multi-modal elements and enhanced connection points are designed into the project
- The project does not provide the minimum number of parking spaces for the size of the development nor are all of the required parking lot landscape paths provided
- Signage is customized for the overall large development

Based on policies in the *2025 Plan* and City Council's 2036 Vision Considerations as well as incorporation of standards from the Commercial Expansion District, staff recommends approval of the conditional zoning for the project at 153 Smoky Park Highway inclusive of the conditions as noted in the B.1 attachment.

The Planning & Zoning Commission reviewed this request at their meeting on December 6, 2017, and voted 6-0 in support of the project.

When Councilwoman Mayfield asked if the Tree Commission look at the proposal to eliminate one landscaping strip and pedestrian pathway, Ms. Bernstein replied that they did not. She explained that with a conditional zoning they would be the body to do that for a Level I or a

Level II project; however, since this is a conditional zoning, City Council is tasked with that review. She said that during the Planning & Zoning Commission they looked at some areas where there might be some areas to add an additional landscape strip, but the applicant really wanted to keep the existing corner as is.

Councilwoman Mayfield said that she would support reducing the parking even more in favor of a landscape and pedestrian strip.

Mayor Manheimer opened the public hearing at 5:21 p.m.

Mr. Wyatt Stevens, attorney representing the applicant, said the parking lot has to do with how customers navigate the lot both on foot and in cars, since most people take the most direct route and cut through the cars to get to the store. They didn't think it made sense to have four landscape strips which they felt would create an odd traffic pattern. He felt that Ingles would be open to reconsider that, but noted that a lot of thought went into the parking lot as well as the rest of the plan. The landscape is considerably more in the back than is required and their budget just for landscaping is over $350,000. He then reviewed the site plan noting they have a number of energy efficient features. This store would be approximately 64% energy reduction over an average store. Currently there are approximately 55-60 employees and with the added footage there will be approximately 275-300 employees, 35% of which will be full-time and all full-time employees of Ingles are offered health insurance. Showing the landscaping plan, he said they will have a significant buffer between this building and the neighborhood (noting nothing will be built in that buffer because it is counted as their open space). There is an existing path that exists that leads into the neighborhood and they will improve the path. They will improve the crosswalk at the existing traffic light on Smoky Park Highway. The sidewalk along the frontage is currently 4 feet in width and they will widen it to 10 feet in width, except for the location where it crosses over the railroad tracks. Within the development there is all kinds of connectivity so people can walk or ride their bike amongst all of the stores. The N.C. Dept. of Transportation has approved an additional traffic light on Smoky Park Highway. He then said that the signage package is like all the other Ingles stores. In summary, he mentioned how Ingles is a good community member and how they give back to the community they serve.

Mayor Manheimer closed the public hearing at 5:33 p.m.

Mr. Journey Pfifferling, west Asheville resident, spoke in support of more open area for the public.

Mayor Manheimer closed the public hearing at 5:35 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to recommend approval of the conditional zoning request for Ingles Markets Inc. for the property located at 153 Smoky Park Highway from Highway Business Conditional Zone (HB-CZ) to Commercial Expansion District Conditional Zone (COM EXP CZ), and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the proposal supports the strategies found in the City's comprehensive plan on infill development in an area with existing infrastructure and multi-modal transportation elements; (2) the project provides open space, a larger than required landscape buffer and safe pedestrian connections to residential and institutional uses in the vicinity; and (3) the proposal updates and expands an existing retail center following new guidelines that provide more focus on the design of the site and buildings with fenestration and building placement standards. This motion was seconded by Councilman Haynes and carried on a 6-1 vote with Councilwoman Mayfield voting "no".

ORDINANCE BOOK NO. 31 - PAGE 426

B. PUBLIC HEARING TO REZONE 655 BREVARD ROAD (TWO TRACTS) FROM OFFICE I/CONDITIONAL ZONING TO OFFICE DISTRICT (TRACT 1), AND FROM OFFICE I/CONDITIONAL ZONING TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT (TRACT 2)

ORDINANCE NO. 4644 - ORDINANCE TO REZONE 655 BREVARD ROAD (TWO TRACTS) FROM OFFICE I/CONDITIONAL ZONING TO OFFICE DISTRICT (TRACT 1), AND FROM OFFICE I/CONDITIONAL ZONING TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT (TRACT 2)

Principle Planner Shannon Tuch said that this is the consideration of an ordinance to rezone 655 Brevard Road (two tracts) from Office I/Conditional Zoning to Office District (Tract 1), and from Office I/Conditional Zoning to RS-8 Residential Single-Family High Density District (Tract 2). This public hearing was advertised on January 12 and 19, 2018.

Ms. Tuch said that the applicant (Jana Gower, agent) is requesting a rezoning of the property located at 655 Brevard Rd. from OFF-CUZ (Office-Conditional Use Zone) to OFF (Office) and RS8 (Residential Single-family, High Density).

The subject property is approximately 2.29 acres and includes two separate tracts of land. Tract 1 is 1.48 acres and currently is developed with a small dental office and surface parking lot. Tract 2 is .81 acres and is currently an undeveloped wooded lot. Both parcels have frontage on Brevard Rd. with access directly on the corridor. The property has mild to moderate topography sloping down from Brevard Rd.

The applicant has recently subdivided and sold the dental practice to another party and, collectively, the property owners are seeking to remove the Conditional Use Zoning adopted in April of 2000 and apply standard zoning designations. The property containing the dental practice is proposed to be rezoned to Office while the undeveloped tract is proposed to be rezoned to RS-8.

The property was originally a single lot zoned RS-8 consistent with the surrounding properties. The applicant, Janna Gower, applied for a Conditional Use Rezoning in 2000 to allow for the modest single family residential structure to be adaptively reused as a small dental office. The small surface parking lot was added to support the practice as part of the rezoning.

The large 191 acre parcel of land located at 1568 Brevard Rd. was rezoned from Industrial to RM-16 on November 28, 2017.

While having occurred some time ago, it is worth mentioning that in 2004/2005 Planning staff performed a zoning study along the Brevard Road corridor. The results of the zoning study were that despite the multi-lane character of the corridor and the N.C. Dept. of Transportation plans for road widening, the corridor did not appear to be urbanizing at the rate that has been previously thought possible. While changing the zoning designations to allow a higher intensity use was proposed in a few isolated pockets along the corridor, it was generally felt that a conservative approach that allowed individual requests come in when ready was more appropriate.

The purpose of the RS-8 zoning district is to provide a limited range of high density single-family housing while the purpose of the Office zoning district is to support small-scale

(daytime) office uses that may serve as a transition as residential areas convert to other uses, or between residential and commercial areas.

The subject property is surrounded on two sides (north and west) by other RS-8 zoned property, most of which is developed with single family homes but also includes some non-conforming outdoor storage to the west. To the south of the subject property is more Office zoning and light office uses. By dividing the property and applying the RS-8 zoning designation to the northern parcel ensures that the existing residential uses will not be directly adjacent to any potential future office development. Across Brevard Rd. to the east is unzoned property belonging to the Biltmore Estate.

At their regular meeting on January 3, 2018, the Planning & Zoning Commission voted unanimously in support of the rezoning request (see minutes and recommendation attached). The subject property does not lie within any special review areas or overlay zoning districts and does not require review by any other body. Standard rezoning requests are first reviewed by the Planning & Zoning Commission with final review performed by City Council.

The Asheville City Development Plan 2025 encourages compatible "adaptive reuse, redevelopment and infill development." Additionally, Brevard Rd. is classified as a "Connecting Corridor" that are, "characterized by land uses such as offices and apartments.". If approved, this rezoning would accommodate future growth in the Office zoned portion of the property consistent with the vision for these corridors, while insulating the existing single family from any immediate impacts.

This action is most closely aligned with the 2036 Council Vision goals of *Quality Affordable Housing* by providing flexibility for future residential development and with *Thriving Local Economy* by allowing the existing office use to grow unencumbered without special requirements, as resources are available and the market will support it.

Considerations:

- Removing the CUZ provides greater flexibility for future uses and development, requiring only minimum technical compliance.
- This rezoning would return a portion of the property to its original zoning designation.
- This rezoning would allow the office use to be improved or expanded, unencumbered by Ordinance.
- The rezoning would create a non-conformity by failing to provide a 20 foot wide, Type A landscape buffer between the office and residential property. Future expansions or new construction could trigger buffer requirements at that time.

Based on the above findings and the analysis provided in the report, staff finds this request to rezone the 1.48 acre parcel (Tract 1) to Office and the .81 acre parcel (Tract 2) to RS-8 located at 655 Brevard Rd. to be appropriate and consistent with the existing neighborhood and broader city goals.

Mayor Manheimer opened the public hearing at 5:39 p.m.

Mr. Journey Pfifferling, resident on Morningside Drive, was concerned about the traffic on Brevard Road.

Mayor Manheimer closed the public hearing at 5:41 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilman Young moved to approve the rezoning request from Office-Conditional Use Zone(OFF-CUZ) to Office (OFF) for Tract 1 and Residential Single-family, High Density (RS8) to Tract 2 thereby assigning zoning designations that are more compatible with the surrounding properties and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: the rezoning will, 1) support smart growth goals by assigning compatible zoning designations consistent with the surrounding neighborhood; 2) removes the ordinance attached to the property providing more flexibility for future growth and development, and 3) returns a portion of the property to the original zoning designation. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 433

C. PUBLIC HEARING TO REZONE 99999 DEAVER STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HR-4 HAYWOOD ROAD-TRADITIONAL ZONING

ORDINANCE NO. 4645 - ORDINANCE TO REZONE 99999 DEAVER STREET FROM RM-8 RESIDENTIAL MULTI-FAMILY MEDIUM DENSITY DISTRICT TO HR-4 HAYWOOD ROAD-TRADITIONAL ZONING

Urban Planner David Hazzard said that this is the consideration of an ordinance to rezone 99999 Deaver Street from RM-8 Residential Multi-Family Medium Density District to HR-4 Haywood Road-Traditional Zoning. This public hearing was advertised on January 12 and 19, 2018.

The applicant, Barwick & Associates, LLC (Suzanne Godsey, agent) is requesting a rezoning of the property located on an unnamed gravel alley off of Howard Street from RM8 (Multi-family Medium Density) to HR-4 (Haywood Road Traditional). The property address is 99999 Deaver Street however the property does not access or front on Deaver Street.

The subject property is approximately 0.11 acres and is currently undeveloped. This parcel has frontage on an unnamed gravel alley off of Howard Street. This alley functions and reads as a driveway for the adjacent property to the North. The property has existing trees and is relatively flat.

The applicant is requesting a rezoning of the property (9638-74-1740) from RM8 (Multi-family Medium Density) to HR-4 (Haywood Road Traditional) zone. The applicant has recently received approval with conditions for a phased Level II mixed use project (Beacham's Curve) that includes this parcel and 4 other parcels to the south and east of this parcel. The proposed Beacham's Curve property will have road frontage on the east / west portion of Haywood Road and the north / south section of Haywood Road.

The Haywood Road corridor was rezoned to the Haywood Road Form District in September of 2014. This district abuts this parcel to the south and east.

It is the intent of the RM-8 Residential Multi-Family Medium Density District to permit a full range of medium density multi-family housing types along with single-family detached and attached residences. This district is intended to provide a transitional area between high density single-family and multi-family areas. It is the intent of the Traditional District (HR-4) District to permit a limited range and scale of development because the character of this area is of much smaller structures on small parcels. This district allows for a mix of uses that include: residential, office, and commercial. New construction in this district will be limited to three stories (45') and a

20' vegetated buffer (may be reduced to 10' if a wall is constructed) is required when adjacent to RS and RM zoning districts.

The subject property is surrounded on two sides (north and west) by other RM-8 zoned properties, which are developed with single family homes. To the east of the property is a portion of the unnamed alley and a parcel zoned HR-4 with 3 single family residential houses that are proposed to be replaced with a mixed use building. To the south of the subject property is a vacant parcel that is zoned HR-2 Expansion zoning district that is also part of the approved Beacham's Curve mixed use project.

The subject property does not lie within any special review areas or overlay zoning districts and does not require review by any other body. Standard rezoning requests are first reviewed by the Planning & Zoning Commission with final review performed by City Council.

There are policies throughout the 2025 Comprehensive Plan supporting the need for higher-densities and a mix of uses, where placemaking is an important goal and transit is in place to support the development. The Haywood Road Form District is an outcome of this goal. Other sections of the Plan recommend creating opportunities for economic development through higher densities while reinforcing a strong urban form that enhances the pedestrian environment.

The proposal aligns with the 2036 Council visions in the following areas: (1) *A Well-Planned and Livable Community* - through the enhanced design standards that accompany the Haywood Road Form Code; (2) *Transportation and Accessibility* – due to the requirements for wider sidewalks, pedestrian-friendly design and densities to support expansion of transit; and (3) *Thriving Local Economy* - encouraging a wider mix of compatible commercial uses and opportunities for more intense development (including a higher residential density).

Considerations:

- HR4 Traditional and HR-2 Expansion districts are adjacent to the proposed rezoning and will provide areas for community-scaled development.
- Development requirements are in place to buffer residential areas from commercial impacts.
- This parcel is the only RM-8 zoned parcel with its primary lot frontage on the unnamed alley. All other RM-8 parcels in this area front on Deaver St. or Howard St. Thus this rezoning would not affect the existing traditional single family neighborhood pattern that is found on Howard St. and Deaver St.

Based on the above findings and the analysis provided in the report, staff recommends approval of the proposed rezoning to HR4 Traditional zone finding that the request is reasonable and consistent with City-adopted plans and strategic goals for development in this area.

The Planning & Zoning Commission reviewed this request at their meeting on January 3, 2018, and voted 5-0 in support of the project.

Mayor Manheimer opened the public hearing at 5:46 p.m.

Ms. Suzanne Godsey, representing the applicant, explained their request and the development potential between the two zoning types.

Mr. and Mrs. Frankfort, residents on Howard, were concerned about the Level II mixed use project and how Howard Street and Deaver Street are narrow streets and could not support on-street parking. In addition, they were concerned about any entrance or exit onto Deaver Street or Howard Street.

Mayor Manheimer closed the public hearing at 5:53 p.m.

Mr. Hazzard responded to Mr. and Mrs. Frankfort by stating that two accesses will be off Haywood Road. There is conversation with the Transportation Department for a possible exit on Deaver Street.

In response to Councilwoman Mayfield, Ms. Godsey briefly reviewed the Level II project stating that it will be a good infill project.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the zoning map amendment from RM8 Multi-family Medium Density district to HR4 Traditional district and find that the request is reasonable, is in the public interest, and is consistent with the Comprehensive Plan and other adopted plans in that: 1) opportunities for community-scaled development are enhanced; and 2) buffering requirements are in place to protect residential areas. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 436

D. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 390 AIRPORT ROAD FROM HIGHWAY BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A LODGING FACILITY WITH 112 GUEST ROOMS

ORDINANCE NO. 4646 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 390 AIRPORT ROAD FROM HIGHWAY BUSINESS DISTRICT TO LODGING EXPANSION/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A LODGING FACILITY WITH 112 GUEST ROOMS

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone property located at 390 Airport Road from Highway Business District to Lodging Expansion/Conditional Zoning for the development of a lodging facility with 112 guest rooms. This public hearing was advertised on January 12 and 19, 2018.

Ms. Vrtunski said that this is a request to review a conditional zoning from Highway Business (HB) to Lodging Expansion Conditional Zone (LODG-EXP-CZ) for the development of an 112-room hotel with associated parking at the property located on 1.84 acres at 390 Airport Road in South Asheville. This project is considered a Level III Development, which requires a rezoning and is subject to a Conditional Zoning review pursuant to Section 7-5-9 of the city's Unified Development Ordinance (UDO).

The project proposes to build a 112 room hotel and 106 parking spaces. The hotel has a 13,774 sf footprint with a total gross square footage of 62,522 sf. The building is 5 stories with an overall height of 65 feet.

The project site is 1.84 acres near the Southridge shopping center, adjacent to the Olive Garden restaurant. Currently, the parcel is a part of a larger parcel that includes the restaurant. The proposal includes subdividing the property and creating a flag lot that would have a street frontage of 80.5 feet (standard frontage in Lodging Expansion District is 100 feet).

Zoning surrounding the property is also Highway Business with the exception of an area across the street, where the jurisdiction is Buncombe County and the zoning is Employment

(EMP).

Plans show a five foot sidewalk around sections of the hotel and a five foot sidewalk from Airport Road leading up to the hotel. Along Airport Road there is a new sidewalk recently built by N.C. Dept. of Transportation. Vehicular access is through a shared driveway at Airport Road. There is also a vehicle exit near the sidewalk. A 4 foot bike lane/path is also provided following the driveway with a section separated from the drive. Parking surrounds the hotel, with some extending along the exit drive, providing a total of 106 spaces.

Required landscaping includes street trees, vehicle use area, dumpster screening and building impact. In addition to the minimum standards, one additional tree and 30 additional shrubs are being provided on the site. Open space is being provided at 16% containing several green spaces.

Fenestration requirements are set at 50% of the front facade, which this building meets. The front of the building faces the primary access corridor (Airport Road) and has a well-defined operable pedestrian entrance.

The applicant is requesting one condition to modify the standards - Reduced lot frontage at Airport Road. The new lot will essentially be a flag lot.

This project was approved with conditions by the TRC on November 20, 2017. The Planning and Zoning Commission provided a recommendation for the request. As this is a Level III review, City Council and Final TRC review is required before zoning approval.

Planning and Zoning Commission reviewed this project on January 3, 2018, and voted 5-0 in favor of the project. No public comment has been received regarding this proposal as of the writing of this report.

Current zoning is Highway Business. The applicant is requesting conditional rezoning to Lodging Expansion Conditional Zone district.

In January 2017, City Council approved a Conditional zoning for a large retail development at 352 Airport Road and 12 Loop Road, which is .5 mile north of this site.

The proposed project should be compatible with the surrounding context. There are numerous other hotels in the vicinity and several of them are as tall as the proposed building. Most of the surrounding parcels are zoned Highway Business and across Airport Road is Employment zone (Buncombe County zoning) where there are also hotels and other commercial development.

The redevelopment of this parcel aligns with the City Development Plan 2025 including supporting infill development where infrastructure is already present.

The proposal aligns with the 2036 Council vision in the "A Well-Planned and Livable Community" area – The project is located near stores, restaurants and near the Asheville Airport. The subject site is also located near a highway exit and the ART S3 bus line.

Considerations:

- Project provides a pedestrian and bicycle connection to Airport Road along with a new bus shelter off site.
- Proposal meets almost all standards with the exception of lot frontage and building placement

- This is an infill project in a developing area, providing hotel rooms close to the Asheville Airport.

The Planning and Zoning Commission reviewed this project on January 3, 2018. The Commission voted 5-0 in favor of the project and recommended Council approval of this Conditional Zoning request subject to Final TRC approval and the B-1 Conditions that were presented to Planning & Zoning.

The applicant has also agreed to the additional 4 conditions in the B-1 Conditions: (1) The hotel owner/operator/developer will provide commercially reasonable transportation for paying guests during reasonable hours (i.e. 4 p.m. to 10 p.m.) to reasonable locations (i.e. the Airport, downtown and Sierra Nevada) as demand dictates; (2) The hotel owner/operator/ developer will provide bus passes and maps for Asheville Regional Transport (ART) for paying guests and employees as reasonably requested during normal hours of operation of the bus system; (3) The hotel owner/operator/developer will contact utility providers, including but not limited to Duke Energy Progress, and obtain information on available energy efficiency and renewable energy options in construction and operations before obtaining a certificate of occupancy; and (4) As long at the hotel is a Hilton brand, the hotel will participate in energy and resource conservation initiatives offered by Hilton.

Mayor Manheimer opened the public hearing at 6:01 p.m.

Mr. Wyatt Stevens, attorney for the applicant, explained how the site has remained vacant for a long time and felt it was uniquely suited for this hotel project. He explained how the Home 2 Suites (which is an extended stay hotel) doesn't exist in this part of the County. All units have a kitchenette and are designed for business travelers. There are several hotels in the area, but not a lot of quality hotels. He showed statistics showing that during the year 2016, all their peer hotels had an occupancy rate of 80% 7 days a week. He felt here is a massive demand for hotels in that area that are not being met by the existing hotels and there there are a lot of manufacturers in the area that need corporate contracts with hotels. He felt this project complies with the ordinance which reads in part that "development standards are established to ensure the integration of the lodging use with the surrounding neighborhood and to minimize adverse impacts on adjacent land uses." He said that he has letters of support from neighbors in the area which support the project.

Mr. David Burger, hotel operator, said that he did not know what Asheville's living wage is, but their employees don't make less than $9 an hour and that their extended stay brand caters toward corporate travelers.

Mayor Manheimer closed the public hearing at 6:17 p.m.

Councilman Young said he tries to keep a pragmatic view on voting for hotels, noting that there is a great deal of Asheville citizens that do not want to see any more hotels, Keeping that in mind though, the area for this proposed hotel is near the Airport, on a busy, business, noisy corridor and it's very close to Henderson County. He will support the project; however, he didn't think that they are giving the City anything.

Councilwoman Mayfield thanked the applicant for addressing concerns surrounding energy and sustainability.

Councilman Kapoor strongly opposed this project. Knowing that this part of town wasn't part of Asheville when the 2010 Comprehensive Plan was developed is evident with the current development pattern in the area. He felt his role is to see if this project is compliant with the comprehensive plan. The plan in that area calls for a mixed use land use pattern and that mixed

use developments should be encouraged. He noted that there are 9 hotels within a one mile radius of this proposed hotel, noting that there is another hotel planned to be built further up the road. In looking at the comprehensive plan, he could not support 11 hotels in a one mile radius.

Councilwoman Smith said that the location is great; however, she was struggling to see what benefit it would be to the employees (living wage) and surrounding residents.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the conditional zoning request for Highway Business District to Lodging Expansion Conditional zone for the Airport Road Hotel project with the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the project is located in a well established commercial area; (2) increases pedestrian connectivity; and (3) a new shelter will be built at an existing ART stop on Airport Road. This motion was seconded by Vice-Mayor Wisler and carried on a 5-2 vote, with Councilman Haynes and Councilman Kapoor voting "no."

ORDINANCE BOOK NO. 31 - PAGE 439

E. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 1093 TUNNEL ROAD AND 3 OTEEN PARK PLACE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A COMMERCIAL USE

ORDINANCE NO. 4647 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 1093 TUNNEL ROAD AND 3 OTEEN PARK PLACE FROM RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT AND HIGHWAY BUSINESS DISTRICT TO HIGHWAY BUSINESS DISTRICT/CONDITIONAL ZONING FOR THE DEVELOPMENT OF A COMMERCIAL USE

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at 1093 Tunnel Road and 3 Oteen Park Place from RS-8 Residential Single-Family High Density District and Highway Business District to Highway Business District/Conditional Zoning for the development of a commercial use. This public hearing was advertised on January 12 and 19, 2018.

Ms. Bernstein said that the applicant is requesting review of a conditional zoning at 1093 Tunnel Road and 3 Oteen Park Place from Highway Business (HB) and Residential Single-Family High Density District (RS-8) to Highway Business Conditional Zone (HB CZ) District. This project is considered under conditional zoning pursuant to Section 7-7-8 of the Unified Development Ordinance (UDO).

The subject property (PINs 9668.26.6769 and 9668.26.6877) are owned by Lilian and Edison DeGobbi who are also the applicants.

The project site consists of two parcels with a combined area of approximately 0.35 acres. The primary parcel at 1093 Tunnel Road (approximately 0.22 acres) is zoned Highway Business and also has frontage along Oteen Park Place to the east and Pine Cone Drive to the west. The second parcel (approximately 0.13 acres) is located to the south, previously separated by an unopened right-of-way that only has access onto Pine Cone Drive. This parcel is currently

zoned RS-8 and undeveloped, with frontage on Oteen Park Place to the east and Pine Cone Drive to the west. Other uses are commercial in nature along Tunnel Road and single-family residential uses occupy the RS8 neighborhood to the south along Oteen Park Place and Pine Cone Drive.

A zoning permit was issued for the Elff Auto Center by a Level I review (15-15346 PZ) on the Tunnel Road parcel and the work has been completed with the exception of the property line buffer. This approval included a variance from the Board of Adjustment and alternative compliance approval from the Tree Commission. The alley between the parcels was closed by resolution by City Council on March 22, 2016.

The applicant is requesting to rezone the residential parcel at 3 Oteen Park Place in order to expand the area of commercial use for vehicular use area related to the existing auto service center and place the required 30 foot Type B property line buffer on this area. Currently, there is insufficient width along the rear of the parcel to install the buffer and retain vehicular maneuvering area behind the building.

Access, sidewalks and parking were reviewed for compliance through the Level I process. The plan included with this submittal shows two driveways on Tunnel Road and a two-way driveway behind the building in the area that was previously the alley, exiting onto Pine Cone Drive. This would be an asphalt area for vehicular use.

There are four parking spaces are directly in front of the building. Sidewalks are required along Tunnel Road but there is insufficient room to meet the City's standard due to driveways and the existing conditions result in a four to five foot wide sidewalk at the frontage, directly behind the curb. A fee-in-lieu was previously collected in the Level I process for sidewalks along the other two frontages.

Landscaping is required as a part of this application and includes street trees on all three frontages, the property line buffer to the rear and along a portion of the east and west sides adjacent to RS zoning and a street buffer. Tunnel Road street trees are included as a condition along with the street buffer with the applicant proposing to place the material elsewhere on the site due to the driveways and utilities along Tunnel Road. Open space is not required for the project because the overall size is less than an acre.

The Elff Auto Center use on the HB parcel was issued a compliant zoning permit; however the applicant is proposing to rezone the RS8 parcel to the rear to expand the vehicular use area behind the building and shift the location of the required 30 foot wide property line buffer.

Conditions – The applicant is proposing a number of conditions related to the request to comply with the existing conditions on the site as approved under the Level I site plan review process.

1. Elimination of sidewalk along Oteen Park Place and Pine Cone Drive - *paid fee-in-lieu during Level I process*
2. Sidewalk along Tunnel Road - *City standard is five foot sidewalk behind a five foot grass strip, existing sidewalk is approximately four to five feet wide and was constructed as a part of the Level I process*
3. Driveway separation on Tunnel Road - *existing condition requested to remain, approximately 27' apart - 50 feet is standard*
4. Street trees and street buffer along Tunnel Road - *insufficient room due to driveways and water line, both existing conditions and approved by Alternative Compliance at the Tree Commission during Level I process, applicant proposing to place trees and shrubs*

elsewhere on the site

5. Setback modification - *existing building footprint encroaches into side setbacks by five feet, encroachment approved by Board of Adjustment during Level I process*

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on June 22, 2017. The project was approved with conditions by the Technical Review Committee on December 18, 2017.

The Planning & Zoning Commission was not able to pass a successful motion on this request; both a motion to approve and a motion to deny received a split vote at their meeting on January 3, 2018. Supporters felt that the applicant had made significant efforts to use the property and this rezoning should be approved while others felt that the loss of a residential parcel was not supportable and that the applicant is able to make reasonable use of the property as was proposed throughout the Level I review process. While there have been inquiries from neighbors to staff, there has been no opposition received. A member of the public spoke at the hearing in support of the applicant and her efforts to complete this project.

In 2016, a hotel was approved approximately 1.5 miles to the west and a veteran's housing project approximately 1.4 miles to the east.

The automobile service use on the Tunnel Road parcel can be considered appropriate and compatible with the commercial nature in this area. The corridor is zoned Highway Business in both directions and similar types of uses and site designs can be found along Tunnel Road.

To the south, there are single-family homes along both Oteen Park Place and Pine Cone Drive. Further encroachment of a commercial use into the residential neighborhood can be considered incompatible, however the applicant is proposing to provide a 30 foot landscape buffer between the existing home and the use. Additionally, there is a 10 to 12 foot grade change from the nearest home down to the proposed vehicular use area so that the commercial use is topographically separated from the neighborhood.

There are aspects of the Comprehensive Plan (*2025 Plan)* are do not support this request in that increasing the supply of housing is a clear goal and this would result in the loss of a residentially-zoned parcel. Additionally the plan suggests limiting the number of driveway cuts along a corridor as a way to improve the pedestrian environment as well as traffic flow (pg. 39). Other adopted City plans are clear on the need to preserve any and all existing housing stock and encourage increasing the residential opportunities throughout the City.

The proposal lacks alignment with the 2036 Council vision in the following areas: (1) *Quality Affordable Housing* (proposal eliminates a vacant residential lot); and (2) *Transportation and Accessibility* (multiple curb cuts necessitating a condition of approval, lack of sidewalks to provide safe access from the neighborhood).

Considerations:

- Project was approved under the Level I review process and can operate as-is
- Multiple driveway cuts and a lack of street trees and buffer plantings along Tunnel Road detract from the pedestrian realm
- The proposal eliminates a residential parcel at the edge of an established neighborhood

Staff cannot recommend approval of the conditional zoning to lose a residential parcel in order to increase the commercial use along the corridor. If there was a way to retain a small residential building lot, there may be more cause to support however this does not appear to be possible.

The Planning & Zoning Commission was unable to pass a successful vote in either support or denial at their meeting on January 3, 2018. Both the motion to approve as well as the motion to deny received a 2-2 vote.

Mayor Manheimer opened the public hearing at 6:33 p.m.

Ms. Lilian DeGobbi, owner of the property, explained how tow trucks need to be able to use the back of the site for access. She provided Council with a letter from adjoining property owners on Oteen Park Place that supports this conditional rezoning.

Mr. Karl Koon, member of the Planning & Zoning Commission and adjacent property owner, said that he was out of town during the meeting at which this was discussed. He would have voted in favor of this request and it would have passed on a 3-2 vote. He said that this is not removing any housing stock and properties in the east and west have commercial encroachment much more than is requested here. He felt that there will be an effective 30-feet buffer with the 12-foot elevation difference. He urged Council to approve this request.

Mr. John Cort explained how this project complies with the long-range plan in the 2010 Comprehensive Plan.

Mr. Gary Davis said the building needed to be moved back further onto the site because of an existing sewer line and close to the unopened alley. He felt that 15 feet is not enough room in the back for a two truck to come through the building without encroaching into the slope in the back.

Mayor Manheimer closed the public hearing at 6:50 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to recommend approval of the conditional zoning request for for Elff Auto Center for the property located at 1093 Tunnel Road and 3 Oteen Park Place from Highway Business (HB) and Residential Single-Family High Density District (RS-8) to Highway Business Conditional Zone (HB CZ) District, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal makes use of an existing commercial parcel with upgrades to site landscaping; and (2) The landscape buffer will provide an effective screen between the use and the neighborhood. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 31 - PAGE 452

V. UNFINISHED BUSINESS:

A. RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

RESOLUTION NO. 18-22 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT $4.6 MILLION ADDITIONAL GRANT FUNDS FROM THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

ORDINANCE NO. 4648 - BUDGET AMENDMENT TO ACCEPT FUNDS FROM THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

Interim Assistant City Manager Jade Dundas said that this is the consideration of (1) a resolution accepting a grant from the Buncombe County Tourism Development Authority (TDA) in the amount of $4,600,000 to complete construction of the work on Lyman Street in the River Arts District; and (2) a budget amendment in the amount of $4,600,000 to appropriate this funding.

In the award of the construction work that was to take place in the River Arts District related to the TIGER IV infrastructure project, modifications had to be made the scope of work in the form of postponing various elements of the project. These modifications were necessary in order to build the project within the existing budget for the project. The elements that were proposed for postponement were those that had a significant individual cost and could easily be identified as areas that could be distinctly isolated from the rest of the project. Meeting these criteria were important to ensure that significant cost savings could be achieved and that $14 million in TIGER IV federal funding could be preserved.

The majority of these identified areas were greenways but the roadway, bike lane, and sidewalk improvements along Lyman Street were also identified as an area that met the criteria for postment. When bids were received for the entire construction package, Lyman Street represented a $4.6 million decrease in the bid price of the work. This area of work had to be postpone to award a contract that could be constructed for the available funding amount. The postponement of projects meant that these individual sections would be build in future years as funding became available.

TDA approached the City with an offer to grant the City $4.6 million in funding to complete the work along Lyman Street. This funding was unexpected but the timing allowed City staff to work with the contractor to add this scope of work back to the project at the bid prices which were received in May. This allows the Lyman Street portion of the project to be completed at the exact price that was removed from the contract at the time of award in June of 2017.

The grant from TDA will allow for the completion of core bicycle, pedestrian, and vehicle infrastructure to be completed as one project. Completing the project under one contract will minimize the disturbances to traffic and to businesses. When completed, a fully developed core plan will facilitate future greenway, roadway, and pedestrian connectors. The grant funding will also help to stimulate area business development and tourism.

Pros:

- Will allow Lyman Street to be completed sooner than expected if using City or other unidentified funding sources.
- Limits the disturbance of multiple contracts required to complete the work in a phased approach.
- Use a funding source that takes some of the burden off of local tax base and takes advantage of the tourism dollars which are being spent in the City and County.

Con:

- The change order limits opportunity to reevaluate the current bid environment, although it is believed that since the receipt of the original bids that construction prices have increased.

There no additional City funding required to match or support the recommended change order. The $4.6 M is fully funded through a grant from the Tourism Development Authority's Tourism Development Product Fund. A budget amendment to appropriate this funding is requested as part of this action.

City staff recommends City Council adopt (1) a resolution accepting a grant from the Buncombe County Tourism Development Authority (TDA) in the amount of $4,600,000 to complete construction of the work on Lyman Street in the River Arts District; and (2) a budget amendment in the amount of $4,600,000 to appropriate this funding.

Councilwoman Mayfield, liaison to the Buncombe County Tourism Development Authority, thanked the TDA for this money, noting that they had already invested a lot in the RADTIP and decided to use some left over funds from the Tourism Development Project Fund (TDPF) to fund this project. The City did not approach them and ask them - this was their own decision. She noted that with these funds, they will have invested over $23 Million (about 80-85% of the money granted to the TDPF) to City projects or City-owned facilities.

RESOLUTION NO. 18-23 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT AMENDMENT WITH BEVERLY-GRANT/BARNHILL JV FOR CONSTRUCTION OF THE LYMAN STREET SECTION AND OTHER ADJACENT BICYCLE AND PEDESTRIAN INFRASTRUCTURE FOR THE RIVER ARTS DISTRICT TRANSPORTATION IMPROVEMENT PROJECT

Interim Assistant City Manager Jade Dundas said that this is the consideration of a resolution to execute a contract amendment in the amount of $4,600,000 with Beverly Grant/Barnhill to complete construction of roadway improvements, a protected bike lane, and a sidewalk along Lyman Street.

On June 27, 2017, City Council authorized a contract with Beverly Grant/Barnhill to construct the River Arts District Transportation Improvement Project (RADTIP). This project constructs vehicle, bicycle, and pedestrian facilities throughout the River Arts corridor. Due to higher than expected bid costs, the project scope had to be modified. All of these features were bid, using the public bid process in May of 2017, but were removed from the project at the time of contract award due to funding limitations. These modifications were made to ensure that the project could be constructed without sacrificing the Federal TIGER grant which would supply over $14 million of project funding.

Modification of the TIGER VI project scope meant that certain elements of the project would be postponed pending future funding availability. Largely these elements were greenways, but Lyman St. and the associated bicycle and pedestrian improvements were also delayed. The postponement of Lyman St. represented a big section of the transportation network but it was easily isolated from the rest of the project.

Delaying the work in this area represented a significant project savings ($4.6 million). These were submitted by the contractor in response to the public bid which took place in May of 2017. The scope was removed from the project to be constructed at a later date when funds were made available. It was not anticipated that funding would come available so soon but due to the timing the contractor (and their suppliers) that provide these costs initially was able to hold prices and allow for the work to be added back to the contract at the original bid pricing of $4.6 million.

TDA felt that the benefits of this portion of the project were significant to completing the improvements to the area. It was felt that through the construction of this infrastructure, Asheville could fully realize the economic and tourism benefits of the project. As a result TDA offered the City a $4.6 million grant to complete the Lyman Street work including sidewalks and bicycle amenities.

Staff has met with the contractor of this work and received a commitment that they will complete the work for a guaranteed maximum price of $4.6 million. This is the exact amount that

was removed from the contract as part of the original contract award. Although Council is being asked to authorize a contract amendment for $4.6 million staff is already working with the contractor to identify ways to reduce the cost of the improvements. Through this interaction it is felt that significant cost savings may be possible.

Other ways to deliver the scope of this work have been considered and are available for City Council consideration. A contract change order with Beverly Grant Barnhill, however, represents the most efficient and likely the most cost effective option for the completion of this work. One of the other options that could be considered is the bidding of the Lyman Street work to be performed separately from the current contract. While this option could result in better bid prices there is a chance that the bids could be higher as well. In either case having two contractors work in the same area is most often complicated and can lead to additional unexpected costs. There is also the option to rebid the work under the Construction Manager at Risk (CMAR). The uncertainty related to pricing exists in this scenario as well the scheduling complications in this scenario exist as well although they would be coordinated by the CMAR.

Staff is proposing to add back the scope of work that was removed associated with the Lyman St roadway. This includes reconstruction of the complete roadway, construction of a protected bike lane on the riverside of the road, addition of a sidewalk, and landscaping. As this reflects the original project design there is very little additional design required to complete this work. Staff is also working with the contractor to value engineer the improvements to reduce costs. The entire amount of savings from a reduced scope of work will be directly recovered by the City.

The total maximum price of the improvements is $4.6 million. Staff is working with the contractor to develop some cost reduction options but the savings associated with this is undefined at this time.

Tentative Project Timeline:

Finance Committee Approval	December 19, 2017
Council Approval of the Change Order	January 9, 2018
Construction Begin	March, 2018
Construction Complete	August, 2020

Pros:

- Minimizes disruption to the businesses along Lyman Street.
- Minimizes confusion during construction.
- Provides for a sidewalk and protected bicycle lane along the Lyman Street section of the roadway.
- Funding for this change order is provided by the Tourism Development Authority.
- Provides this scope of work to be complete within the originally proposed schedule of three years.

Con:

- Construction cost may be lower (or higher) if the project was bid.

The $4.6 M is fully funded through a grant from the Tourism Development Authority's Tourism Development Product Fund.

Staff recommends that Council authorize the City Manager to execute a contract amendment in the amount of $4,600,000 with Beverly Grant/Barnhill to complete construction of roadway improvements, a protected bike lane, and a sidewalk along Lyman Street.

When Mayor Manheimer asked for public comment, no one spoke.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinance and they would not be read.

Councilman Young moved for the adoption of Resolution No. 18-22. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 247

VI. NEW BUSINESS:

A. STATUS REPORT ON N.C. DEPT. OF TRANSPORTATION PLANNING FOR MERRIMON AVENUE IMPROVEMENTS

Vice-Mayor Wisler said that the N.C. Dept. of Transportation (NCDOT) has been looking at improvements to two intersections along Merrimon Avenue, one of which is at W.T. Weaver Boulevard and Edgewood. Approximately 1.5 weeks ago, the NCDOT held a public forum to explain their plans. She attended that, along with other Council, and there was a large gathering of the public. She was disappointed in the fact that there was a very detailed plan put together with no input from City staff and no marrying with the City's Complete Street Plan, the City's AIM Plan, with the City's Bicycle and Pedestrian Plan, and the City's Comprehensive Plan. And, there was a study that was performed by the NCDOT several years ago that also wasn't looked at. She did not hear any of the public support the NCDOT's plan. She asked City staff to work closely with the NCDOT to get this project consistent with the City's various plans and to open the entire process back up to include more input from City residents. In addition, we need to ask the NCDOT to change their policies and procedures so that nothing happens in Asheville where the NCDOT imposes a plan without any input from our City staff or our citizens. She asked that city staff draft a resolution addressing Council's concerns and communicate that formally to the NCDOT.

Councilwoman Mayfield said that there are 19 NCDOT urban road projects in the City and they should not begin to be worked on unless City staff and some of our volunteer citizen leaders and transportation advocates are at the table on those designs.

Mayor Manheimer agreed with Vice-Mayor Wisler and Councilwoman Mayfield. She felt it would be more effective and work better to engage the community on the front end of projects.

Transportation Director Ken Putnam said that the NCDOT has given the deadline of January 29 for public comment. He will be seeking the Multimodal Transportation Commission's comments at their meeting tomorrow and pass those along to the NCDOT. He has talked with the NCDOT and confirmed that if Council chooses to consider a resolution at their February 13 meeting, they would accept it even after the January 29 deadline.

It was the consensus of Council to place on the February 13, 2018, agenda a resolution regarding the NCDOT planning for the Merrimon Avenue Project.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Journey Pliffering, west Asheville resident, expressed his opinion on short term rentals in the City of Asheville

Mr. Will Thibodeau spoke about the unprofessional conduct of a City employee.

Closed Session

At 7:18 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5); (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); and (4) to discuss matters relating to the location or expansion of industries. The statutory authorization is contained in N.C.Gen. Stat. sec. 143-318.11 (a) (4). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:40 p.m., Councilman Kapoor to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:40 p.m.

Magdalen Bowlesson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – February 13, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: Councilman Brian D. Haynes

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

City Manager Gary Jackson Announces Retirement

Today City Manager Jackson announced his retirement, effective December 31, 2018. Mayor Manheimer then read a portion of a letter she wrote to City Manager Jackson "You have made me aware that you are retiring effective December 31, 2018, and that you will announce your decision to retire shortly. You have served this City selflessly, wisely, and with grace and integrity. Our community is forever indebted to you.

"Under your leadership, spanning more than 12 years, you have led the accomplishment of great things for the City of Asheville. Among those: navigating the financial hardship of the great recession, meeting the challenges of tremendous growth, creating a series of sustainable budgets resulting in a AAA bond rating, managing the greatest number of capital improvements to City infrastructure in its history, streamlining permitting and processes to better meet the needs of citizens, "greening" the City through dramatically increased recycling and other environmental measures, improving and growing transit services, building more affordable housing per capita than any other city in North Carolina, leading City staff through the planning of a $74 million general obligation bond program, making our City safer through improvements to police and fire services, and helping us forward as we ensure greater equity across the community. These are extraordinary accomplishments for any municipality to achieve, and they would not all have been possible for Asheville without your commitment and leadership."

City Manager Jackson said it's been an honor and a privilege to work for the City of Asheville. Council's goals have been ambitious and aggressive goals and we, as a team, were more than honored to carry them out.

A. PROCLAMATION PROCLAIMING FEBRUARY 2018 AS "BLACK HISTORY MONTH"

Councilman Young read the proclamation proclaiming February, 2018, as "Black History Month" in the City of Asheville.

B. PROCLAMATION PROCLAIMING FEBRUARY 10-17, 2018 AS "LOVE ASHEVILLE GO LOCAL WEEK"

Vice-Mayor Wisler read the proclamation proclaiming February 10-17, 2018, as "Love Asheville Go Local Week" in the City of Asheville. She presented the proclamation to Ms. Franzi Charen and several others.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON JANUARY 23, 2018

B. ORDINANCE NO. 4649 - BUDGET AMENDMENT FOR STORM CONTROL MATERIALS

Summary: To consideration of a budget amendment, in the amount of $461,212, from unassigned General Fund fund balance for the purpose of the acquisition of storm control materials.

For the Fiscal Year 2017/2018, the original budget for storm control materials was $140,000. This value allowed us to fill our salt storage facility to capacity prior to the winter season. Our salt storage facility when at maximum capacity holds approximately 4000 tons of material. As a result of multiple snow and ice events, including the record snowfall received December 8-9, 2017; we are now at less than 10% capacity of our facility. This is also after we have ordered and partially received approximately 1540 tons of salt to re-stock what had been used during and after the December 9th, December 31st, and January 16th events. In addition to snow storm control materials this line item is also used for the purchase of material such as stone, erosion control measures and concrete in flooding events that cause damage or destruction of city owned roads and sidewalks.

This budget amendment was presented to and supported by the Finance Committee on January 23, 2018.

Pros:

- The availability of this material will position the Public Works Department such that it can properly respond to weather events that hamper the safe travel of the public.
- This assists in achieving a stated Outcome & Performance Measure of responding to winter storm events as listed in the adopted 2017-2018 City budget.

Con:

- Payment requires an appropriation from unassigned General Fund fund balance.

The additional funds for storm control materials will come from unassigned fund balance in the General Fund. Before considering the use of fund balance, Finance staff worked with the Public Works department to economize savings from other parts of the Public Works budget to help cover the cost. With this additional fund balance appropriation, FY 2017-18 budgeted fund balance in the General Fund will total $2.1 million. However, based on current trends in the General Fund, staff is projecting that revenue collections will exceed budget and expenses will come in under budget such that there will be no decrease in actual fund balance at year end. Current estimates are as follows:

Estimated FY 2017-18 GF Expenses as of Q2:	$120,200,000
Unassigned FY 2017-18 FB Estimate as of Q2:	$ 21,400,000

Unassigned FB Estimate as a Percent of GF Budgeted Expenditures:17.8%

City staff recommends City Council adopt a budget amendment for the funding to replenish necessary storm response materials in order to adequately prepare for and address upcoming severe weather events.

ORDINANCE BOOK NO. 32 - PAGE 1

C. RESOLUTION NO. 18-24 - RESOLUTION TO RENAME LAKEWOOD PARK IN KENILWORTH TO LEAH CHILES PARK

Summary: The consideration of a resolution to rename the Lakewood Park to Leah Chiles Park.

Community members James Vaughn and Kevin Broadwater are proposing to rename Lakewood Park to Leah Chiles Park, and to donate a historical plaque to be located on site.

Leah Chiles and her husband James Chiles were the founders and developers of the town of Kenilworth in the 1920's. In 1928, Leah Chiles became the first women elected mayor of a town in western North Carolina. As Mayor of Kenilworth, Mrs. Chiles stood up for rights of Kenilworth residents by demanding a vote of residents before agreeing to annexation by the City of Asheville in 1929. Mrs. Chiles was also a businesswoman, continuing the Kenilworth Development Corporation after the death of her husband. Additionally she created a nationally renowned art exhibition in Asheville and founded the Kenilworth Galleries. The present day Lakewood Park was donated to the town of Kenilworth in 1924 and is located directly across the street from the historic James Madison Chiles and Leah Arcouet Chiles House.

Pursuant to the City's policy on naming public facilities, Mr. Vaughn and Mr. Broadwater submitted the renaming proposal and the required petition signed by over 30 registered voters who reside within the city limits of Asheville.

The proposal was presented to the Recreation Advisory Board on November 13, 2017, and the Kenilworth Neighborhood Association on July 11, 2017, and received unanimous support from the board and association.

Mr. Vaughn and Mr. Broadwater have followed the City's policy on public naming and pursuant to the policy, on January 23, 2018, City Council made an announcement of the request and solicited input from surrounding property owners, residents, affected parties and other City officials or anyone else who can contribute meaningful input.

The cost to the City to support the renaming of Lakewood Park to Leah Chiles Park is $4,000 to $6,000 for the park identification sign. The funds to support the cost is budgeted in the City's Capital Improvement Program for the Parks and Recreation Department. There is no cost associated with the historical marker since it will be donated to the City.

The Recreation Advisory Board recommends the renaming of Lakewood Park to Leah Chiles Park, and to place a historical marker on-site to honor Leah Chiles.

RESOLUTION BOOK NO. 39 - PAGE 248

D. RESOLUTION NO. 18-25 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT FUNDING FROM THE FEDERAL TRANSIT ADMINISTRATION SECTION 5339 - BUSES AND BUS FACILITIES GRANTS PROGRAM

ORDINANCE NO. 4650 - BUDGET AMENDMENT TO BUDGET THE GRANT FUNDING AND THE CITY'S MATCH FOR SECTION 5339 GRANTS PROGRAM

Summary: The consideration of a resolution authorizing the City Manager to accept funding from the Federal Transit Administration (FTA) Section 5339; Buses and Bus Facilities Grants Program totaling $214,000; and a budget amendment in the amount of $267,500 in the Transit Multi-Year Fund to budget the grant funding and the City's match.

The Section 5339 grants program provides funding through formula allocations and competitive grants. The City of Asheville receives an annual allocation from the formula program that now averages approximately $262,000. The funds can be used to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities.

Transportation Department staff seeks to use the funds towards the purchase of four hybrid battery packs as mid-life replacements for hybrid transit vehicles.

For the purchase of the hybrid batteries, the City will use $214,000 of section 5339 funds which require a local match of $53,500. The City's local match will come from the adopted FY 2017-18 Transit Services Fund operating budget utilizing savings in fuel expenses.

The Finance Committee reviewed and unanimously supported this request on January 23, 2018.

Pro:

- The bulk of project funding is provided by the FTA, covering approximately 80% of the total project cost.

Con:

- A local match in the amount of $53,500 is required from the Transit Operating Fund.

As noted above, the total project budget equals $267,500 and will require a $53,500 local match from the Transit Services Fund operating budget.

Staff recommends that City Council adopt a resolution authorizing the City Manager to accept Section 5339 formula funds in the amount of $214,000 to be used towards the purchase of four hybrid battery packs; and a budget amendment in the amount of $267,500 in the Transit Multi-Year Fund to budget the grant funding and the City's match.

RESOLUTION BOOK NO. 39 - PAGE 249
ORDINANCE BOOK NO. 32 - PAGE 3

E. ORDINANCE NO. 4651 - BUDGET AMENDMENT FROM THE FEDERAL TRANSIT ADMINISTRATION TO IMPROVE MOBILITY FOR SENIORS AND INDIVIDUALS WITH DISABILITIES BY REMOVING TRANSPORTATION BARRIERS

Summary: The consideration of a budget amendment in the Transit Services Multi- Year Fund (6510) in the amount of $152,504 from the Federal Transit Administration for transit services to improve mobility for seniors and individuals with disabilities by removing transportation barriers.

The City of Asheville is the designated recipient of the Enhanced Mobility of Seniors and Individuals with Disabilities program, which is a program of the Federal Transit Administration (FTA). This is a formula grant program oriented to improve mobility for seniors and individuals with disabilities by removing barriers to transportation service and expanding transportation mobility options. The grant originated as part of the Moving Ahead for Progress (MAP) 21

transportation bill passed by Congress in 2012 that consolidated the Elderly and Disabled program that distributed funds to the states and the New Freedom program that was a formula program in which the City was the region's designated recipient.

To be eligible, the program requires alignment with a Coordinated Public Transportation and Human Services Transportation Plan or CTP-HSTP based on community participation. The CTP-HSTP was developed with the French Broad Metropolitan Planning Organization (MPO), Buncombe, Henderson and Haywood Counties, human services agencies, public and private transportation providers, the North Carolina Department of Transportation and the general public to assess transportation needs, identify gaps and to set goals.

The plan was approved on March 29, 2012 by the French Broad River MPO's governing body (the Board), which includes elected representatives from each of the eighteen local governments which make up the MPO. The CTP-HSTP set the region's priorities and identifies needs; the projects were selected on May 25th, 2017 through a competitive process led by the MPO. The projects are listed as follows:

Sub-Recipient	**Project**	**Amount funded**	**Local match**
City of Asheville	ADA paratransit	$150,000	$37,500
Jewish Family Services	Elder Club- Hendersonville	$50,400	$12,600
Jewish Family Services (Internal)	Administration - Hendersonville	$2,646	$2,646
City of Asheville	ADA Upgrades for Dedicated Signals	$31,500	$7,875
Land of Sky Regional Council	Expansion of Senior Companion Program	$15,904	$15,904
Buncombe County	RIDE Vouchers Program	$44,179	$44,179
City of Asheville	Program Administration	$29,463	N/A

Description of Projects:

City of Asheville (ADA Paratransit) - Supports public transportation to meet specific needs for seniors and individuals with disabilities and ADA Paratransit services from Mountain Mobility.

Jewish Family Services (Elder Club) - Supports the purchase of service from Apple Country Transit that provides socialization, nutrition, activities and exercise in a structured program for older and/or disabled Henderson County adults who are socially isolated, and may have normal cognitive skills or mild to moderate memory impairments.

Jewish Family Services (Internal) - Supports the Jewish Family Services and Elder Club staff to assist with all cooperating organizations throughout the year to identify appropriate clients and to educate staff members of cooperating organizations regarding JFS agency and program services.

City of Asheville (ADA Upgrades) - Adds accessible features to existing pedestrian crossing signals near bus stops in downtown Asheville. The feature consist of a vibrotactile call button and speaker which give pedestrians who cannot see the pedestrian signal a way to know that the walk signal is activated either by vibration of the call button or the sound from the speakers.

Land of Sky (Senior Companions Program) - Provides companionship services to senior adults who are homebound and need additional assistance to stay independent in their homes for as long as possible.

Buncombe County (RIDE Program) - A curb-to-curb, subsidized transportation program that allows eligible participants to purchase private transportation services at a significant discount.

City of Asheville (Program Administration) - The funds will be used to administer the projects funded by this program and ensure compliance.

The City of Asheville expenses for ADA Paratransit and Program Administration are already budgeted in the adopted Transit Services Fund budget so no budget amendment is needed for that portion of the grant. The budget amendment in the amount of $152,504 will provide budget authorization for the City to receive and pass through the subrecipient grant amounts from FTA and also budget the City of Asheville project for ADA Upgrades to Dedicated Signals. The $7,875 local match for that project will come from the existing adopted FY 2017-18 Transportation department General Fund budget.

The Finance Committee reviewed and unanimously supported this request on January 23, 2018.

Pros:

- Project funding is provided by the FTA, 50% for operating projects and 80% of capital projects. The sub-recipients are responsible for the local match.
- The City is provided $29,463 for administration purposes, which does not require a local match.

Con:

- The local match in the amount of $45,375.

The total grant award for the subject projects are $369,467 and will be funded with Federal Funds. As noted above, $29,463 will be reimbursed to the city for administrative costs, and Asheville's local match for the provision of ADA paratransit services and ADA Upgrades totals $45,375. The local match is already budgeted in the Adopted FY 2017-18 budget.

Staff recommends City Council adopt a budget amendment for $152,504, which is the unbudgeted program cost for the 5310 projects funded by the Federal Transit Administration.

ORDINANCE BOOK NO. 32 - PAGE 5

F. RESOLUTION NO. 18-26 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN AN AGREEMENT WITH MOTOROLA INC. TO PROVIDE MAINTENANCE COVERAGE FOR THE CITY'S RADIO SYSTEM

Summary: The consideration of a resolution authorizing the City Manager to sign an agreement with Motorola, Inc. to provide maintenance coverage for the City's radio system.

The City recently completed the installation of a new public safety radio communications system. Motorola Solutions has provided maintenance services for the City's radio communications system under the initial 12 month warranty which began on December 1ST 2016. Funding for the agreement shall be appropriated annually in the City budget process. The initial term of the agreement is from December 1, 2017, to June 30, 2022. The agreement shall automatically renew for an additional 60 months as requested in the original request for proposals for purchase of the radio system.

Pros:

- Keep the City's radio system reliable and operational for public safety officers.

- Able to provide communication services to several outside agencies, thereby improving interagency communications.

Con:

- None noted.

The maintenance agreement reflects a charge of $226,366 for the remainder of the current fiscal year. Funding for this contract was included in the Adopted Fiscal Year 2017/18 Budget. Funding for the additional years of the contract will be included in future annual budgets.

City staff recommends the adoption of the resolution for radio maintenance coverage for the term of December 1, 2017, through June 30, 2027.

RESOLUTION BOOK NO. 39 - PAGE 250

G. RESOLUTION NO. 18-27 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON MARCH 13, 2018, TO PERMANENTLY CLOSE A PORTION OF PEACHTREE STREET (JAKE RUSHER PARK)

Summary: The consideration of a resolution of intent to permanently close a portion of Peachtree Street (Jake Rusher Park) and setting a public hearing on March 13, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, City of Asheville, owner of parcels 9654-35-0589, 9654-35-4902, 9654-35-4725, and 9654-35-4635, have requested to permanently close a portion of Peachtree St (Jake Rusher Park) and to set a public hearing on March 13, 2018. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission reviewed this request at their October 2nd, 2017, meeting and recommended approval of the closure.

Pursuant to N.C. Gen. Stat. Sec. 160A-299, prior to closing the alley, the City Council must first adopt a resolution, declaring its intent to close the alley and calling a public hearing on the question. This resolution of intent shall be published once a week, for four successive weeks prior to the date of the hearing.

A copy of this resolution of intent shall also be sent by registered or certified mail to all owners of property adjoining the alley as shown on the county tax records. A copy of this resolution shall also be prominently posted, in at least two places, along the alley, to provide notice of the closing and public hearing.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close to permanently close a portion of Peachtree Street (Jake Rusher Park) and set a public hearing on such closure for March 13, 2018.

RESOLUTION BOOK NO. 39 - PAGE 251

H. RESOLUTION NO. 18-28 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON MARCH 13, 2018, TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY LOCATED NEAR 85 DEAVER STREET

Summary: The consideration of a resolution of intent to permanently close an unopened right of way near 85 Deaver Street and setting a public hearing on March 13, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Jose Ruiz, owner of parcels 9638-76-5217 and 9638-76-4166, and Rose Logan, owner of parcel 9638-76-5178, have requested the City of Asheville to permanently close an unopened right of way located near 85 Deaver Street. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission reviewed this request at their October 2, 2017, meeting and recommended approval of the closure.

Pursuant to N.C. Gen. Stat. Sec. 160A-299, prior to closing the alley, the City Council must first adopt a resolution, declaring its intent to close the alley and calling a public hearing on the question. This resolution of intent shall be published once a week, for four successive weeks prior to the date of the hearing.

A copy of this resolution of intent shall also be sent by registered or certified mail to all owners of property adjoining the alley, as shown on the county tax records. A copy of this resolution shall also be prominently posted, in at least two places, along the alley, to provide notice of the closing and public hearing.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unopened right of way near 85 Deaver Street and setting a public hearing on such closure for March 13, 2018.

RESOLUTION BOOK NO. 39 - PAGE 253

I. RESOLUTION NO. 18-29 - RESOLUTION OF INTENT TO SET A PUBLIC HEARING ON MARCH 13, 2018, TO PERMANENTLY CLOSE AN UNOPENED

RIGHT-OF-WAY LOCATED AT THE END OF DEAVER STREET SOUTH OF HOWARD STREET

Summary: The consideration of a resolution of intent to permanently close an unopened right of way located at the end of Deaver Street south of Howard Street and setting a public hearing on March 13, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Barwick and Assoc. LLC, owner of parcels 9638-74-1509, 9638-74-0685, 9638-74-1740, and 9638-74-2666, have requested the City of Asheville to permanently close an unopened right of way /w located at the end of Deaver Street south of Howard Street.

The Multimodal Transportation Commission reviewed this request at their October 2, 2017, meeting and recommended approval of the closure.

Pursuant to N.C. Gen. Stat. Sec. 160A-299, prior to closing the alley, the City Council must first adopt a resolution, declaring its intent to close the alley and calling a public hearing on the question. This resolution of intent shall be published once a week, for four successive weeks prior to the date of the hearing.

A copy of this resolution of intent shall also be sent by registered or certified mail to all owners of property adjoining the alley, as shown on the county tax records. A copy of this resolution shall also be prominently posted, in at least two places, along the alley, to provide notice of the closing and public hearing.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt the resolution of intent to permanently close an unopened right of way located at the end of Deaver Street south of Howard Street, and set a public hearing on such closure for March 13, 2018.

RESOLUTION BOOK NO. 39 - PAGE 255

J. RESOLUTION NO. 18-30 - RESOLUTION AMENDING THE 2018 CITY COUNCIL MEETING SCHEDULE TO ADD THE CITY COUNCIL ANNUAL RETREAT ON FEBRUARY 15-16, 2018, AT THE COLLIDER, 1 HAYWOOD STREET, ASHEVILLE, N.C. BEGINNING AT 8:15 A.M.

RESOLUTION BOOK NO. 39 - PAGE 257

K. RESOLUTION NO. 18-31 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY A SEWER EASEMENT ON CITY-OWNED

PROPERTY ON SHEPPARD DRIVE TO MICHAEL LEDFORD FOR CONSTRUCTION OF A SEWER SERVICE LINE

Summary: The consideration of a resolution authorizing the City Manager to convey an easement over a portion of City-owned property on Sheppard Drive near Old County Home Road in West Asheville to Michael Ledford for the purpose of installing a sewer line.

The City of Asheville owns a vacant parcel in the Echo Hills neighborhood that contains approximately 2.69 acres (PIN is 9628-79-7260). The City acquired the land in the 1960's. The lot is vacant, wooded land and the City performs no maintenance. Concerning the future use of this parcel, the City has no current plans for this property; however, the City is currently reviewing the property inventory to determine suitable sites for affordable housing development.

An existing MSD sewer line runs parallel to Old County Home Road along the rear property line. An adjacent property owner has approached the City with a request for a sewer line easement to connect to the existing MSD line. Michael Ledford owns an undeveloped lot on Old County Home Road and he has subdivided the original parcel (9628-89-1121) into five individual lots of approximately 0.24 acres each. He intends to develop the parcels for single family homes, at market rate price points of $225,000 to $250,000. The Real Estate Division reached out to Parks & Recreation, Planning, and Community Development for comments, and there were no objections to the connection because of its location and minimal impact to the City's property. It would not impede the City's ability to develop the property should plans be made in the future.

The easement being requested is approximately 24 linear feet long and 18 feet wide for a total square footage of approximately 432 square feet. MSD has a policy of compensating owners according to 50% of land value for an easement and when we apply this to practice to this situation, the cost of the easement would be $150.00 plus the real estate transaction fee. An exhibit is provided to show the approximate location of the sewer line and the manhole where this connection would have to be made.

Pros:

- There is compensation payable to the City associated with the granting of this easement.
- The easement would not interfere with the City's ability to develop the property at a later date.

Con:

- A permanent easement would exist on City-owned property.

Funds generated by the granting of this easement will be deposited in the General Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to convey this 432 square foot easement on City-owned property near Old County Home Road at Sheppard Drive to Mr. Ledford for purposes of installing a sewer service connection.

RESOLUTION BOOK NO. 39 - PAGE 258

L. RESOLUTION NO. 18-32 - RESOLUTION AUTHORIZING THE CITY MANAGER TO INCREASE THE CONTRACT WITH B. ALLEN CONSTRUCTION INC. TO CONSTRUCT A NEW VISITOR RECEPTION AND WELCOME PLAZA AT THE WESTERN NORTH CAROLINA NATURE CENTER

Summary: The consideration of a resolution authorizing the City Manager to increase the contract with B. Allen Construction, Inc. to construct a new Visitor Reception and Welcome Plaza at the Western North Carolina Nature Center (aka Asheville Wildlife Park) in the amount of $60,000 and to execute any change orders to contract or documents which may arise during construction of project within the approved budget.

On December 13, 2017, City Council authorized the City Manager to enter into a contract with B. Allen Construction, Inc. for $1,116,382.00 to improve the Asheville Wildlife Park – Visitor Reception and Welcome Plaza. The entrance to the Nature Center needed improvements due to the age of the facility as well as the growing visitor attendance at this facility. This new entrance which is currently under construction will provide more parking on the entrance level, be more accessible to the visitor and greatly improve the visitor's experience arriving and departing the Nature Center.

The Nature Center was developed under different government agencies over many decades. As a result many improvements have been performed during the course of these years with little or no documentation. The Parks and Recreation Department and the consultant team evaluated as much as possible the existing site conditions during the development of the construction documents. When the contractor started construction for the project, a number of unknown infrastructure issues arose. These mostly include stormwater pipes that are seriously deteriorated, water lines and features including fire protection that no longer exist or are in poor condition and portions of the existing wood construction of the barn which have degraded with the passage of time.

As a result of these unrevealed conditions, the project will incur additional costs to improve these features which total $60,000.00.

Pros:

- Improves the deteriorated underground infrastructure.
- Replace and replace water lines for fire protection that no longer exist or are in poor condition to meet code compliance.
- Contributes towards improvements noted in the 2020 Vision Master Site Plan for the Western North Carolina Nature Center

Cons:

- During improvements, some modest interruptions in viewing several of the animal exhibits can occur
- Project can not continue without the additional funding.

The additional $60,000 needed for this change order will come from the Adopted FY 2017-18 Parks and Recreation Department Capital Improvement Budget.

Staff recommends that the City Council adopt a resolution authorizing the City Manager to increase the contract with B. Allen Construction, Inc. $60,000 to address the underground infrastructure issues discovered during the construct of a new Visitor Reception and Welcome Plaza at the Western North Carolina Nature Center (aka Asheville Wildlife Park).

RESOLUTION BOOK NO. 39 - PAGE 259

M. RESOLUTION NO. 18-33 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT AN OIL TANKER DONATION FOR A DEPARTMENT TRAINING PROP

Summary: The consideration of a resolution to authorize the City Manager to accept the Title and Property of the Gasoline Tanker Prop to be located at the Buncombe County Training Facility.

North Carolina is divided into seven geographical regions for the purpose of hazardous material emergency response. The North Carolina Department of Public Safety contracts with municipalities across North Carolina to respond into the geographical regions and provide technician level hazardous materials emergency response. Within the Contract for Hazardous Materials Regional Response Team Services the contract Under Section 2.2 Compensates teams for training to maintain, advance and education to maintain the level of standards to respond to incidents involving hazardous materials and/or acts of terrorisms.

On June 26, 2016, the N.C. Dept. of Public Safety and the City of Asheville signed the Notice to Proceed for the contractual agreement to the City of Asheville for Hazardous Materials Emergency Response Services for contract years of July 1, 2016 through June 30, 2020. The signed contract agreement increased the level of Training Funds from the previous contract of $19,000 per calendar year to $25,000 per calendar year. These training funds can be utilized to either send individuals to training or to purchase props to train on. RRT-6 was able to acquire a damaged Gasoline tanker from Bumgarner Oil Company and have it moved to the Buncombe County Training Center. The Asheville Fire Department is asking the City of Asheville to accept the property and title of the Gasoline Tanker.

Pros:

- The State of North Carolina provides funds for training members of the Asheville Fire Department to enable us to competently handle hazardous materials emergencies.
- The Gasoline Tanker will provide valuable training for responding to actual incidents within the City of Asheville and within RRT-6 response area.
- The Gasoline Tanker will be stationary and will not be transported on the road.
- The City of Asheville has full use of the truck and all specialty equipment within the City of Asheville. Without the state hazardous materials contract, Asheville taxpayers would need to provide much of resources necessary to properly respond to emergencies within Asheville. With the contract, we have the advantage of the equipment and resources being funded at the state level, rather than at the local level.
- Firefighter and citizen safety will be enhanced.

Con:

- None have been identified or known at this time.

The fiscal impact of this donation is budget neutral. The Asheville Fire Department paid $600 to have the tanker moved from the donator to the Buncombe County Training Facility; however, in accordance with the contract with the North Carolina Department of Public Safety, the City will be reimbursed this cost. Further costs may be incurred in the future if the Buncombe County Training Facility would like the prop removed.

Staff recommends City Council adopt a resolution authorize the City Manager to accept the Title and Property of the Gasoline Tanker Prop to be located at the Buncombe County Training Facility.

RESOLUTION BOOK NO. 39 - PAGE 260

N. RESOLUTION NO. 18-34 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A CONTRACT WITH RSM US LLP FOR AUDITING SERVICES FOR FISCAL YEAR 2017-18

Summary: The consideration of a resolution authorizing the Mayor to execute a contract with RSM US LLP for auditing services for fiscal year 2017-2018.

North Carolina General Statute §159-34 requires that a local government have its accounts audited each fiscal year and submit a copy of the audit report and financial statements to the Local Government Commission.

Additionally, the City's Auditing Services Financial Policy states that the City must replace the independent auditor at the end of a five-year engagement. Cherry Bekaert LLP completed the fifth year of its five-year engagement in FY2016-2017, so according to policy, it is necessary for the City to change auditors.

In November 2017, the City published a Request for Proposals and requested bids for firms interested in providing audit services, in response to the Request for Proposals, the following five firms submitted bids:

- Cherry Bekaert LLP; Charlotte, NC; did not meet requirements cost proposal not opened
- Elliott Davis, PLLC; Raleigh, NC; did not meet requirement cost proposal not opened
- CliftonLarsonAllen LLP; Charlotte, NC; bid: $82,300
- RSM US LLP; Greensboro, NC; bid: $93,340
- Mauldin & Jenkins, LLC; Atlanta, GA; bid: $69,500

The review team utilized a scoring matrix to assess the proposals that included mandatory elements, technical qualifications, and cost proposals. Two firms did not pass the mandatory requirements and were therefore not considered further. The remaining three firms were evaluated, with technical qualifications weighted at 70% and cost proposals weighted at 30%. RSM US LLP was the highest scoring firm. As such, staff recommends retaining the services of RSM US LLP to conduct the audit of the city's accounts for the fiscal year ending June 30, 2018. The estimated fee for fiscal year 2017-2018 audit and financial statement preparation is $93,340, and is already included in the Finance Department's Adopted FY 2017-18 Budget.

Pro:

- Contracting with RSM US LLP aligns with City Council's financial policy and will help ensure the timely and successful completion of the annual audit.

Con:

- None noted.

Fees of $93,340 for the annual audit are budgeted in the Finance Department's FY 2017-18 operating budget. These funds will be encumbered by June 30, 2018.

Staff recommends City Council adopt a resolution authorizing the Mayor to execute a contract with RSM US LLP in the amount of $93,340 for auditing services for fiscal year 2017-2018.

RESOLUTION BOOK NO. 39 - PAGE 261

O. RESOLUTION NO. 18-35 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH GREEN LIGHT ELECTRIC INC. TO CONSTRUCT THE SOUTH CHARLOTTE STREET/BILTMORE AVENUE TRAFFIC SIGNAL UPGRADE PROJECT

ORDINANCE NO. 4652 - BUDGET AMENDMENT TO PROVIDE ADDITIONAL

FUNDING FOR THE SOUTH CHARLOTTE STREET/BILTMORE AVENUE TRAFFIC SIGNAL UPGRADE PROJECT

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute a contract in the amount of $105,798.75 plus a contingency of $10,579.88 (10%) with Green Light Electric, Inc to construct the South Charlotte Street / Biltmore Avenue traffic signal upgrade project, and 2) a budget amendment in the city's General Capital Projects Fund in the amount of $16,000 to provide additional funding for the project from the Traffic Safety Projects budget.

Adding pedestrian signals to this intersection is part of an FTA Job Access/ Reverse Commute (JARC) grant project. The intersection was included because it is large, complex, has high pedestrian and vehicle traffic volumes, and connects people to transit.

The bid was advertised on December 1, 2017. The bid opening was scheduled for January 11, 2018, but only one bidder submitted a bid. The bid was then re-advertised January 11, 2018, but no other bids were received, so the one bid was opened January 19, 2018. The construction company that submitted a bid was Green Light Electric, Inc of Weaverville, NC.

Green Light Electric, Inc of Weaverville, NC proposes to perform all of the construction work included in the contract, including such work as surveying, concrete ramps, refuge islands, electrical and traffic control.

A 10% contingency ($10,579.88) has been added to allow payment for any unforeseen costs that typically arise during construction. The work produced from this construction contract will help provide a safer intersection for pedestrian use.

The current balance in the project fund is insufficient to cover the full cost and contingency, so the budget amendment moves funds from the Traffic Safety Projects budget in the General Fund to this project. Additional FTA grant funding is pending FTA action, so it is hoped that much of the Traffic Safety funding will be able to be returned to the General Fund.

Pros:

- Pedestrian safety and mobility will be improved.
- Improve mobility and safety on city streets.

Cons:

- Construction will be disruptive to adjacent residences and businesses.
- The Traffic Safety budget balance will potentially be reduced by as much as $16,000 to complete this signal.

As noted above, funding is coming from an FTA 2010 grant and the City's Traffic Safety budget. The total cost of this contract, including contingency, is $116,378.63.

City staff recommends City Council (1) adopt the proposed budget amendment in the amount of $16,000, and (2) adopt the resolution awarding the contract to Green Light Electric, Inc of Weaverville, NC. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $105,798.75 plus a contingency of $10,579.88 (10%) for the contract known as Charlotte St/ Biltmore Ave. signal upgrade, City of Asheville Project 298-T1101.

RESOLUTION BOOK NO. 39 - PAGE 262
ORDINANCE BOOK NO. 32 - PAGE 7

P. RESOLUTION NO. 18-36 - RESOLUTION AUTHORIZING THE CITY

MANAGER TO ISSUE PAYMENT TO COLONIAL FORD TRUCK SALES, INC. FOR REPAIRS TO ASHEVILLE FIRE DEPARTMENT LADDER 10

Summary: The consideration of a resolution to authorize the City Manager to issue payment to Colonial Ford Truck Sales, Inc. in the amount of $100,891.70 for repairs to a Asheville Fire Department ("AFD") Ladder.

On January 6, 2017, Asheville Fire Department Ladder 10 apparatus was hit-in-the-rear and sustained considerable damage. The City filed an insurance claim with the City's insurance carrier, Berkley Southeast Insurance Group (Berkley) to pay for the repair costs, minus a $10,000 deductible. Berkley directed repairs be made by Colonial Ford Truck Sales (Colonial). In March 2017, the City received $92,091.70 from Berkley as a payment installment for estimated repairs and tow service to Ladder 10. The funds were deposited into the City's Property & Liability Fund and reserved to pay Colonial upon confirmation all repairs were complete. Repairs are complete and and the City seeks to issue payment to Colonial in the amount of $100,891.70. Berkley will issue Colonial a $56,296.97 supplemental check to apply toward Colonial's final repair balance of $157,188.67.

Pro:

- Payment issuance will result in Ladder 10 return to service.

Con:

- None.

Zero fiscal impact. Funds are reimbursed via City First Party insurance claim.

Staff recommends City Council adopt a resolution authorizing the City Manager to issue payment from the City Property & Liability Fund to Colonial Ford Truck Sales, Inc. in the amount of $100,891.70.

RESOLUTION BOOK NO. 39 - PAGE 263

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilwoman Mayfield and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. BLUE RIBBON COMMITTEE ON HUMAN RELATIONS COUNCIL REPORT

Ms. Dewana Little, Chair of the Blue Ribbon Committee on Human Relations Council, along with Mr. Patrick Conant, provided Council with the Committee's following final report:

The Blue Ribbon Committee held an initial meeting on August 23rd, 2017, and held 11 official meetings until January 31st, 2018. In between the regular meetings, we met in small working groups to develop specific portions of our recommendations.

The Blue Ribbon Committee presented an interim report before Boards and Commissions on November 14th, 2017, and City Council approved an extension of our charge until January 31st, 2018.

The Blue Ribbon Committee, with the support of City Staff and volunteers from the community, held two public engagement sessions, January 10th at the Arthur R. Edington Education & Career Center, and January 24th at the Shiloh Rec Center. The first public input session was attended by over 50 people, while the second session was attended by over 40 people. During these sessions, we gathered an extensive list of feedback and suggestions from the community.

During our final meeting, on January 31st, 2018, we reviewed the full list of feedback from our input sessions, amended our focus areas to include many of the specific suggestions from the community, and adopted our final recommendations.

The Blue Ribbon Committee recommends that City Council reach out to the Asheville Chamber of Commerce to request their support for the inception and operation of a Human Relations Commission in Asheville.

Their Mission Statement is "The Human Relations Commission strives to improve human relations with priority on racial equity in Asheville by partnering with communities and agencies in an effort to better promote and ensure diversity, equity, and inclusion. The human relations commission works to identify and address all forms of individual, institutional and community level discrimination through education, advocacy and policy recommendations." *As approved at 9/20/17 Blue Ribbon Committee on a Human Relations Commission meeting. Amended and adopted at the 11/01/17 Blue Ribbon Committee meeting.*

Focus Areas are as follows: (*As adopted at the 11/01/17 Blue Ribbon Committee meeting. Revised and adopted at the 01/31/18 Blue Ribbon Committee meeting. Items with a * indicate their addition at the 01/31/18 meeting in response to the public engagement process.)*

- **Make policy recommendations to City Council to enhance equity**
  - Duties
    - Recommend policies to City Council that the HRC finds necessary and may be lawfully taken to minimize areas of conflict and to promote harmonious relations among racial and ethnic groups in the City.
    - Create a pipeline for community-driven solutions by allowing proposals to be discussed, refined, and vetted with the goal of presenting recommendations to Council that possess strong community support.
    - Utilize existing City resources to conduct research and gather data to analyze the equity of existing City programs and develop policy recommendations.
    - Review the demographics of City staff and committee members and make policy recommendations that improve the diversity of these groups to better represent our community.
    - Provide reports and other information to the community to provide feedback on the efforts and results of equity initiatives within the City.
    - * Collaborate with City Council to develop an effective process for policy recommendations.
- **Support the efforts of the Equity Manager**
  - Duties
    - Provide community input on the focus areas and initiatives of the Equity Manager to ensure these efforts reflect the priorities of all residents.

        - Develop partnerships between the Equity Manager and individuals and groups in the community to provide additional resources to enhance equity in our City.
        - Provide ongoing reports and feedback to the community regarding equity initiatives within the City, specifically focusing on the outcomes of those efforts.
        - * Develop policy recommendations that build stronger employment-driven partnerships.
        - * Work with the City of Asheville to provide and facilitate leadership/professional development for potential partner organizations.
        - * Analyze the membership of existing City Council appointed boards and committees to ensure they adequately represent the communities they serve.
        - * Facilitate community forums to provide input from HRC Members and the community during the hiring process for the Office for Equity and Inclusion.
- **Provide a public forum for community to voice complaints**
    - Duties
        - * To act as a public forum in hearing complaints involving racial tension, discrimination, or other concerns of equity.
        - To bring together the parties involved to discuss the facts.
        - To assist in the resolution of such complaints.
        - To recommend to City Council action needed where resolution cannot be achieved.
        - * Develop creative mechanisms to gather concerns and ideas from the citizens, and to work together with groups and individuals to improve outcomes in our City.
- **Engage the community around funded programs and policies**
    - Duties
        - Provide a mechanism for community input and oversight of programs funded by the City.
        - Involve the community in the development of outcome-based metrics using a racial equity lens.
        - Provide community input of the allocation of City funds as specified in the City budget.
        - Members will be available for conversations, education, and learning partnerships to guide analysis through a racial equity lens.
        - * Implement inclusive practices for public engagement within the activities of the HRC and advocate for their use in other City programs.
- **Promote equity in public safety**
    - Duties
        - Promote mutual respect and understanding between the police department and our community. Identify opportunities for effective collaboration.
        - Provide a mechanism to educate and solicit feedback from the community about police department policies, training programs, and other activities.
        - Improve community trust in the police department by advocating effective methods of community policing and by ensuring the transparency and accountability of the department.
        - Review public safety outcomes and other data from an equity perspective. Provide a forum for community discussion around reports issued to Council, such as traffic stop data.

        - Work with the community and APD to develop policy recommendations that can improve the equity of public safety outcomes.
        - Provide examples and resources that demonstrate the development of positive relationships between the community and police department.
        - Provide feedback and solicit input from the community on public safety trends and the effect of policies designed to improve the equity of public safety programs within the City.
        - * Work with existing City departments, boards, and committees as well as outside agencies.
- **Promote equity in educational opportunities**
    - Duties
        - Provide educational resources and other opportunities to encourage youth engagement in the City programs and the local government process.
        - Establish initiatives that assist with the development and retention of talent and expertise within Asheville, in collaboration with City departments.
        - Establish "working groups" between City Staff and individuals and organizations in the community to discuss and analyze equity challenges using data.
        - Provide feedback and solicit input from the community regarding the outcomes of educational efforts.
        - * Work with City Departments to prioritize participation by City staff in racial equity focused training and educational opportunities.
        - * Work with individuals and community groups to promote racial equity through art and other cultural programs.
        - * Work with existing City departments, boards, and committees as well as outside agencies.
- **Promote equity in economic development efforts**
    - Duties
        - Analyze employment, income, and business development outcomes across the City through a racial equity lens.
        - Provide community input on City employment and procurement processes.
        - Work with existing City departments and local organizations to build a successful minority business community.
        - Advocate for increased awareness and analysis of racial equity concerns in existing economic development efforts. Promote new initiatives to increase employment and business development.
        - Provide feedback and solicit input from the community regarding the outcomes of economic development efforts.
        - * Research and recommend policy changes that provide an equity perspective in the creation of economic development incentives and programs. Review incentive program on an annual basis.
        - * Ensure representation from communities of color during economic development recruitment process.
        - * Encourage the City to increase the development and utilization of African American owned businesses for City contracts, events and features in publications.
        - * Work with existing City departments, boards, and committees as well as outside agencies.
- **Health and Human Services**
    - Duties

        - Analyze health and human services outcomes for City residents through a racial equity lens.
        - Provide a forum to discuss community concerns around health related issues.
        - Provide educational resources to the community to promote access to health-related services.
        - Provide feedback and solicit input from the community regarding the outcomes of health and human services efforts.
        - * Work with existing City departments, boards, and committees as well as outside agencies.
- **Housing**
    - Duties
        - Analyze data on housing outcomes through a racial equity lens.
        - Provide a mechanism for community feedback on City policies and programs related to housing.
        - Ensure that individuals in different housing situations are adequately represented in City processes and programs.
        - Provide feedback and solicit input from the community regarding the outcomes of housing related efforts.
        - * Collaborate with the Affordable Housing Advisory Committee on solutions that enable affordable housing for all residents.
        - * Analyze the impact and effects of gentrification in Asheville from an equity perspective and research policy solutions.
        - * Work with existing City departments, boards, and committees as well as outside agencies.

Membership:

- 15 members
- **Broad criteria for all on the committee**
    - * The City follows the non-discriminatory policy in the selection of its members that is currently in place.
    - City resident with close ties to community that is most impacted by racism, oppression and inequity in this city.
    - People with the capacity to attend meetings.
    - People who have a passion for this work.
    - People who not only have "equity training", but have demonstrated involvement in the community – Application: Share some examples of what you have already done that has influenced creating more equity in some aspect of your work or community. Attention to demonstrated actions, not just "intentions to help".
    - Look for people that are still in it, not just "I did this once."
- **Demographic criteria – people will ideally have overlaps**
    - Always appoint 2 of any group of people so that someone is not "the only one".
    - At least 6 African Americans
    - At least 2 Latinx
    - At least 2 LGBTQ
    - At least 3 professionals with influence
    - At least 2-3 youth (16-25)
    - Representatives from all 5 geographical areas
    - 2-3 living in public housing
    - * 2 individuals with a disability
- **Terms**
    - Staggered terms
    - 2 years

Recommendations for Staff - *As adopted at the 01/31/18 Ribbon Committee meeting.*

The Blue Ribbon Committee identified an extensive list of focus areas and duties to create a Human Relations Commission that can produce meaningful change in Asheville.

To position this HRC for success, and to expand the existing efforts of the Office and Equity and Inclusion, the Blue Ribbon Committee believes it is critical to provide a recommendation for staff.

We would recommend that City Council work with the Office of Equity and Inclusion to create three additional staff positions which align closely with the focus areas and duties of the HRC.

Since the Office of Equity and Inclusion works across all City departments, the BRC would also recommend that the Office of Equity and Inclusion is created as a fully independent City department, reporting directly to the City Manager and/or City Council.

Members of the Blue Ribbon Committee met with the City Manager and the Equity and Inclusion Director, and support the following draft descriptions for an enhanced structure for the Office of Equity and Inclusion.

Equity & Inclusion Director

- Oversees and facilitates equity and inclusion initiative citywide
- Manages the Equity Core Team; provides consultation and technical assistance across city government
- Oversees the development, implementation and evaluation of an Equity Action Plan
- Facilitates the adoption of an equity lens by all departments in decision-making
- Manages staff, leads efforts, staffs Human Relations Commission
- Communicates, Cooperates, Coordinates and/or Collaborates with public institutions and private organizations to address structural oppression and racism.

Equity & Inclusion Program Manager

- Works with internal departments to develop, implement, and track results of Equity Action Plan, provide technical assistance on using equity lens, and
- Plans and implements events, workshops and learning opportunities to promote equity and inclusion inside city government and across the City; supports development of community leaders.

Human Relations Specialist

- Serves as the point of contact for community to report complaints related to discrimination; facilitates the process for the Human Relations Commission to hear complaints. Supports the administrative priorities of the Human Relations Commission
- Conducts research, collects data and develops reports to increase equitable outcomes for residents in areas aligned with the mission and annual work plan of the Human Relations Commission.

Inclusive Engagement Manager

- Facilitates inclusive public outreach and community engagement
- Consults with departments to implement equitable and inclusive public engagement
- Liaise between historically underserved community members and city government

Mayor Manheimer, along with other Council members, appreciated all the hard work of the Committee members and thanked them as well for the step by step recommendations.

It was the consensus of the Council to accept the Committee's report and refer the recommendations to the Boards & Commissions Committee to begin the process of creating the Commission.

Ms. Ashley Cooper, Ms. Elizabeth Schell and Ms. Kim Roney all spoke in support of the Commission's recommendations.

B. TREE COMMISSION PRESENTATION ON GAP ANALYSIS STUDY

Tree Commission Chair Steve Henricks and Tree Commission member Ed Macie said that the Urban Forest Sustainability & Management Assessment System is a framework for comprehensively evaluating urban forest management programs.

Mr. Macy said that the primary objectives are to: (1) engage the full spectrum of urban forestry stake holders; (2) provide program direction that increases the standards of practice and care in urban forest management; (3) conduct a gap analysis of management practices and the health of green assets; (4) Improve the health of the green assets managed by the program, and (5) Optimize management for identified ecosystem services (e.g., increased canopy for storm water management). The *Urban Forest Sustainability and Management Review* system utilized in this project is developed and supported by the USDA Forest Service, Southern Region

There are 11 categories of review: (1) policies and ordinances; (2) professional capacity and training; (3) funding and accounting; (4) authority; (5) inventories; (6) urban forest management plans; (7) risk management; (8) disaster planning; (9) practices (standards & BMPs); (10) community; and (11) green asset evaluation. There are 119 elements within 11 categories - not practiced, in development, adopted common practice, and exceeds common practice. The evaluation consists of (1) standard of care; (2) next step activities; and (3) advanced management activities.

Findings consist of (1) Urban forestry program with many core strengths; (2) Best practices and standards of care have been widely adopted and employed by the City; and (3) There are also specific opportunities for improvement, which include: (a) increasing capacity to manage the resource; (b) developing improved inventory and data sets, (comprehensive public tree inventory, and canopy analysis); (c) updating ordinances and plans; and (d) increasing community commitment, (building community support and awareness).

Recommendations are as follows: (1) Adequate staffing, including the addition of an Urban Forester; (2) Strategic planning, including the development of a comprehensive Urban Forestry Master Plan; (3) Updating City Ordinances, strengthening active tree protection during development, and adoption of an urban tree canopy policy (no net loss, canopy goals); and (4) Strengthening of private-public partnerships that engages citizens, increases awareness, and supports the City's urban forestry goals. He stressed that the Urban Forester position is the most appropriate step after the canopy analysis.

In response to Councilwoman Mayfield, City Manager Jackson said that the Tree Commission had brought forward three elements - the gap analysis, the canopy study, and the Urban Forestry Master Plan. The gap analysis study was funded and has now been completed. The other two elements are not funded and will be brought forward with all the other budget funding recommendations in the budget process.

C. NON-REVENUE WATER REPORT

Interim Water Resources Director David Melton updated Council on the non-revenue water report. He said this program has proven to be a viable resource for efficient operations for sustainability of the water system and the plan moving forward is to continue a proactive approach. In one year, there has been a 300,000 gallon a day reduction, which is estimated to be a savings of $3 Million a year.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 18-37 - RESOLUTION TO NOT SUPPORT THE N.C. DEPT. OF TRANSPORTATION PROPOSAL TO WIDEN MERRIMON AVENUE TO FIVE LANES AND REQUESTING THE N.C. DEPT. OF TRANSPORTATION TO COLLABORATE WITH CITY STAFF TO DEVELOP ALTERNATIVES FOR MERRIMON AVENUE AND TO MEET REGULARLY WITH CITY STAFF TO REVIEW ALL OTHER N.C. DEPT. OF TRANSPORTATION PROJECTS WITHIN ASHEVILLE

Transportation Director Ken Putnam provided the Council with the following staff report: The N.C. Dept. of Transportation (NCDOT) is proposing to improve traffic operations on Merrimon Avenue where two intersections (WT Weaver Blvd & Edgewood Rd) operate below NCDOT standards contributing to the corridor's congestion. As a result, NCDOT is proposing to widen Merrimon Avenue from a four- to a five- lane road between these intersections so that a center turn lane can be added. The project primarily aims to accommodate automobile traffic and would not provide sufficient infrastructure for bicycles and pedestrians. Staff recommends that City Council adopt a resolution to 1) reject the proposed plan because it fails to meet city goals, and 2) request NCDOT to collaborate with city staff to develop alternatives that align with city goals and adopted plans and that safely accommodate all users, especially those most vulnerable.

Merrimon Avenue is also known as US25, a road that is classified as a minor arterial that connects Downtown Asheville to Weaverville, running through some of Asheville's oldest neighborhoods. Merrimon Avenues is a traditional road and city connector that passes through vital City residential neighborhoods and business areas. It is the gateway to Asheville neighborhoods to the north and to the University of North Carolina, and the Asheville Central Business District to the south. In Downtown Asheville, Broadway Street, a two-lane road, transitions into Merrimon Avenue north of I-240 and becomes a four-lane road for three miles until it transitions back to a two lane road at the point that Merrimon Avenue reaches Beaver Lake. The NCDOT proposed project primarily aims to improve traffic operations at two intersections along Merrimon Avenue at WT Weaver and Edgewood Road, and these intersections were identified concerns that received funding and were put into the statewide plan, the State Transportation Improvement Program (STIP), for right-of-way acquisition in 2018 and for construction in 2019.

Asheville has changed significantly since early Merrimon Avenue discussions occurred about 20 years ago. Since the 1999 feasibility study there have been changes in policy, transportation planning standards, and local politics. In 2009, a Community Characteristics Report developed for NCDOT recommended that a future project needed to coordinate with the community to mitigate potential impacts on the historic character of the neighborhood. In 2012, the city adopted a Complete Streets Policy, which directs projects to incorporate active transportation options, reduce vehicle miles traveled and the associated carbon emissions, and calls for better integration of transportation and land use, now recognizing the important nexus between street operations and economic development (NCDOT adopted their own Complete Streets policy in 2009). In 2016 the city adopted the Asheville in Motion (AIM) Plan, which calls

for reducing automobile speeds to improve pedestrian safety citywide, adding bicycle facilities on Merrimon, and enhancing transit service on Merrimon.

The current proposed design by NCDOT is the wrong solution for the problem as it has been shown that road widenings induce demand and, over time, eliminate the automobile level of service (LOS) improvements that are initially gained, thereby perpetuating and contributing to a larger problem. Most important, however, we have realized that road widenings primarily benefit automobiles at the expense of pedestrians, bicyclists, and the built environment. Changing Merrimon to make it look and feel like Tunnel Road or Leicester highway is not be the best fit for this corridor or for Asheville.

Key to this community conversation is an understanding that motor vehicle LOS is only one indicator for the health of street. Other important factors include safety, mobility, and the effect on property and urban design.

- **Safety**. Between 2006-2017, this stretch of Merrimon Avenue had over 600 recorded crash incidents, including at least two with disabling injuries (see image to the right). In 2015, a 67-year-old woman was killed when trying to cross Merrimon Avenue one block south of the project area. On average, there is one auto-related crash along this half mile every week. The final design should improve safety for all users, especially for the most vulnerable.

- **Mobility options**. Currently Merrimon Avenue lacks appropriate pedestrian and bicycle facilities. Although the proposed project incorporates 5' sidewalk and allows for bicyclists to share the road, national standards (NACTO) recommend that shared roads are not appropriate on streets with design speeds above 25 mph--the proposed design speed is 40 mph. Safety concerns are both real and perceived. A 5-foot wide sidewalk along a five-lane road with no buffer from the street and immediately adjacent to a 13' moving lane is intimidating and uninviting. In addition, the numerous existing utility poles in the middle of sidewalks are an impediment to handicapped-accessible pedestrian travel.

- **Effect on property & urban design**. Five lane roads such as Tunnel Road, Leicester Highway, and Hendersonville Road are suburban, auto-oriented designs. They primarily serve to accommodate automobiles. Yet in urban environments wide roads without street trees significantly degrade the neighborhood and the pedestrian experience. Wider five-lane roads have fewer street trees because NCDOT requires that street trees be set back from moving vehicles, effectively eliminating them from many projects, as proposed for Merrimon Avenue.

Alternative Approach. There is another way forward that has been proven to be successful, even in locations with similar traffic volumes. The 'road diet' approach uses the right-of-way more efficiently, seeking to improve automobile LOS by removing turning vehicles from the moving lanes by providing dedicated turn lanes and making improvements to control driveway access (Staff has identified at least seven driveways driveways that require further investigation to determine if they are redundant and/or excessive, and whether their removal could improve traffic operations and safety while still maintaining necessary access for business.) The FHWA Safety Program provides guidance and case studies for road diets that are recommended for volumes below an Average Daily Traffic (ADT) of 20,000, and may be appropriate for higher-volume streets. For instance, the maximum acceptable volume for a road diet in Seattle, WA is 25,000 ADT. The following are a few comparable road diet case studies:

Project Location	ADT	Resulting Road Diet Benefits
Ocean Park Blvd (pg 18), Santa Monica, CA	23,000	Crashes reduced 65%

East Blvd (pg 4), Charlotte, NC	20,000	Crashes reduced 20-100%*
La Jolla Blvd, San Diego, CA	23,000	Crashes reduced 90%; Retail sales up 30%

* Some rear end crashes increased

Aside from ADT, road diet analysis depends on peak volumes and direction of traffic, turning movements, and other factors that together define the expected automotive LOS. These factors need to be analyzed and reviewed so that we can understand potential impacts on automobile transport to then weigh them against the benefits that come along with safety enhancements, improved mobility, and a better urban design. To date, however, staff has not seen data from NCDOT to review current and projected LOS.

Asheville's City Council Vision points to a city with pedestrian oriented development that harmonizes with the transportation system where it is easy to get around without a car safely. The Asheville City Development Plan 2025 (or Comprehensive Plan) identifies Merrimon Avenue as an Urban/Neighborhood Corridor where sidewalks, streetscape and building design acknowledge and provide a safe environment for the pedestrian users of the corridor. The Comprehensive Plan update highlights the importance of transit-supportive corridors that support walkability, bicycling, and ease of getting around.

In order to accomplish these goals, we must choose designs that align with our goals. In the case of Merrimon Avenue, an alternative design could be one that slows vehicles such that through-traffic chooses instead to travel along I-26; where bicyclists travel in a protected lane that safety connects to the Glenn's Creek Greenway; where pedestrians have wider sidewalks buffered with street trees; where an improved streetscape raises the level of the shopping corridor to make it a place that is exciting to visit--where taking a stroll is safe and pleasant.

It is understandable that NCDOT may not be interested in the alternative concepts if they fail to improve the automotive LOS because conventional transportation planning does not fully account for the other needs and benefits that a street can provide, that a road diet may lead to unaccounted for auto congestion and that that possibility is enough to drop the project. In other words, the thinking goes that by not being able to identify, in advance, where modeled spillover traffic may go, it is enough to forgo a project that would provide multiple benefits and that may actually accommodate cars sufficiently, as has been shown to be the case in other cities.

If Asheville is to move in the direction of the vision set by City Council and to achieve the many goals related to multimodal transportation and quality of life for Ashevillians, we need to consider more than automobile LOS in this project. Inconvenient automobile congestion during peak travels times need not dominate the conversation because automobiles, although significant, are only part of the puzzle. This project can balance the automotive needs and also improve safety, enhance the pedestrian experience, provide a safe alternative for bicyclists, and support the existing urban land uses with streetscape improvements, potentially adding benches and pedestrian-scale lighting along wider sidewalks that include street trees. Improving the environment to make it more attractive for business should be a key element of the design.

It is our responsibility to make the case very clear that both city and state goals call for multimodal designs that improve safety. An alternative concept is possible if as a community we can agree to accept a reduced automobile LOS in exchange for improved safety, mobility, and a higher-quality urban design. Asheville looks forward to collaborating with NCDOT and the design team to revise the plan to meet our mutual goals and stay on schedule.

Pros to an alternative design for Merrimon Avenue:

- To reduce automobile speeds and related crashes, saving citizens cost of property damage and potentially saving lives
- Provide more equitable transport options
- Create shorter crossing distances for pedestrians, especially vulnerable populations
- Reduce costs with a smaller overall footprint; less property acquisition
- To improve service for emergency responders
- To align with City Council Vision, the City Comprehensive Plan, the Asheville in Motion (AIM) Mobility Plan (AIM identifies that Merrimon Avenue should have lower travel speeds and traffic volumes where pedestrians and cyclists navigate to visit businesses, and that more people accessing businesses by bike or foot could translate to less parking requirements for the business owners), and the Comprehensive Bicycle Plan of 2008, and would also align with NCDOT's Complete Streets Policy and Vision Zero Resolution
- To support NCDOT's recently-adopted safety performance measures to reduce fatal and serious injuries by 5% on a five year average as research shows that four-to-three lane road diets typically reduce speeds and crash rates
- To support regional planning consistent with the Land of Sky MPO's Clean Cities Coalition to reduce vehicle miles traveled (VMT) that an alternative concept would likely achieve as more local auto trips would shift to transit, bicycling, and walking
- To support transit: The city's Transit Master Plan is currently underway and will likely see improved north/south transit service along Merrimon Avenue that would help to provide additional mobility to potentially further reduce VMT along this corridor.
- To include street trees: It has been shown (Jacobs, Allan B. *Great Streets,* MIT Press, 1993, pg. 279) that attractive streets have vertical to horizontal ratios of about 1:2 (street is twice as wide as buildings are tall), and that wider streets are only successful if they have street trees to provide definition and a better sense of pedestrian scale. The Merrimon Avenue section is about 1:4 so street trees are important if the corridor is to attract more visitors and shoppers. A reduced design speed and buffered bicycle facilities of the alternative concept would likely provide the necessary clear zone space required by NCDOT to allow for street trees to be incorporated into the design.

Cons to an alternative design for Merrimon Avenue:

- Reduced LOS and convenience for automobiles, especially at peak commuting hours
- Possible delayed project schedule

The State Transportation Improvement Program (STIP) lists these two intersections with a total budget of $1,391,000. Depending on the final design, the project cost may exceed this budget requiring additional funding, which may require support from the City of Asheville or other funding sources.

Staff recommends that City Council 1) reject the proposed plan because it fails to meet city goals, and 2) request NCDOT to collaborate with city staff to develop alternatives that align with city goals and adopted plans and that safely accommodate all users, especially those most vulnerable.

In response to Vice-Mayor Wisler, Mr. Putnam said that specifically for Merrimon Avenue, the NCDOT's consultant is putting all the comments they received together and they will come back to the City with an action plan. The City has been proactive in that they have already made a complete list of the 18-19 projects on the book with the NCDOT and they have taken steps to reach out and ensure we will be at the table on individual projects. We are identifying the projects that will be handled out of the Raleigh office vs. the projects that will be handled out of the local office. So far, the good news is that the projects out of the Raleigh office have been assigned to Mr. Weaver who has been instrumental in helping us through the I-26 process.

Mayor Manheimer said that she will be meeting with Mr. Billy Clarke who is our representative on the State Board of Transportation, along with our Council members on the Metropolitan Planning Organization (Vice-Mayor Wisler and Councilwoman Mayfield) and other Raleigh and City staff to talk about how we are going to get this working relationship right on this and future projects.

Mr. David Nutter, representing the viewpoint of the Preservation Society of Asheville & Buncombe County, opposed the current NCDOT proposal for Merrimon Avenue. He urged Council to terminate or postpone this project until it can be rethought as an urban Complete Streets project. In its present form the project will do substantial and irrevocable damage to the character of the study area. They are aware that the NCDOT is proposing to reconstruct the Glenn's Creek culvert beneath Woolsey's Dip. This reconstruction is a special and sensitive environmental design element warranting the U.S. Corps of Engineers attention. The project also requires serious environmental and historic preservation review. They believe that improvements to the street should be held within its existing street width and that Merrimon needs sidewalks which are continuous on both sides of the street. They ask that no commitment e made to close off Clearview Terrace until a sensitive study is made. They feel that an Historic Architecture and Resources Study prepared by consultants qualified under the U.S. Dept. of Interior Standards should be conducted.

Mr. Mike Soule, Director of Asheville on Bikes, opposed the NCDOT proposal for Merrimon Avenue and provided Council with a card that supported a safe Complete Streets for Merrimon Avenue designed to work for all people moving by a variety of modes.

A resident in the Grove Park area, asked that the area be made more pedestrian friendly.

Mr. Tony Hauser opposed the NCDOT proposal for Merrimon Avenue noting that adding lanes does not solve traffic problems. We must change the ways we think about transportation.

On the Merrimon Avenue project, Councilman Kapoor hoped that we would reach an understanding with the NCDOT to avoid taking someone's home.

Councilman Young hoped that this will lead to the NCDOT working more closely with the City of Asheville when projects are proposed to make sure they align with our goals as a City.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-27. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 264

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Vice-Mayor Wisler announced that the appointments on the Audit Committee, Homeless Initiative Advisory Committee, Multimodal Transportation Commission and Riverfront Area Redevelopment Commission will be postponed until March 13, 2018.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Catherine Anne Walsh asked Council to strengthen the list of preferred species and to prohibit certain non-native invasive plants.

Mr. Bill Robinson spoke to Council the need to take better care of the homeless in Asheville.

Closed Session

At 6:48 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the City of Asheville vs. Robert H. Frost. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:26 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:26 p.m.

Magdalen Bowlesson
CITY CLERK

Esther E. Manheimer
MAYOR

Thursday – February 15, 2018 - 8:45 p.m.
The Collider - 1 Haywood Street

Annual Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Mayor Manheimer welcomed everyone to the City Council Annual Retreat.

Mayor Manheimer then convened the retreat and introduced Ms. A. Tyler St. Clair, who would be facilitating the treat. Ms. St. Clair said that the purpose of the retreat is to assist City Council in reaffirming its vision and priorities and to develop roles and operating guidelines that maximize its success as an elected body.

Ms. St. Clair reviewed the purpose of the retreat which would be to enhance the ability of the Asheville City Council to work together and make effective policy decisions through team building, a review and renewal of its vision and 3-year priorities, and a discussion of governance roles.

Goals consisted of (1) Learn more about fellow Council Members, including new ones, in a team building session that looks at life experiences and values, including one's commitment to public service; (2) Understand the Local Elected Leadership Model and how it is useful in assuring an aligned and productive relationship among Council Members and staff; (3) Provide background on Vision and Priority development so that each Council Member has needed information for reviewing the Vision and Priorities; (4) Gain an understanding of each individual Council Member's perspectives on important leadership issues, assets, needs, and desired change initiatives for the City; (5) Use this review to evaluate and renew the Council's Vision and its Strategic Target Areas, including identification of any new areas of emphasis that may have arisen; (6) Using criteria, review Council's 3 Year Priorities (now approaching year 3) to form the basis of the Manager/staff's work plan and provide guidance as needed; (7) Identify specific results desired for calendar year 2018; (8) Discuss roles, responsibilities, and ways of working together that maximize the Council's ability to effectively share leadership; and (9) Identify next steps and responsibilities to follow up on retreat discussions.

Ms. St. Clair reviewed the roles of Council Members and the facilitator.

Ms. St. Clair performed a team building exercise that looked at life experiences and values, including their commitment to public service.

There was then a review of governance model that the Council used as a framework for collective leadership and to ensure the proper alignment of Council and staff work.

Council and staff then reviewed the background and outlined the approach used to develop the Council's Vision and Priorities in 2016, along with actions that have been taken to align staff work.

Closed Session

At 11:32 p.m., Councilwoman Smith moved to go into closed session to (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General

Statutes. The law that makes the information privileged and confidential is N.C. Gen. Stat. sec. 143-318.10 (a) (3). The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (1); and (2) qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 12:31 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

In a small group exercise, individual Council Members brainstormed about their assets, strengths, current initiatives, needs and potential changes for the City of Asheville that will ensure its desired future.

Council then evaluated and ensured their commitment to Council's Vision and Strategic Target Areas, ensuring that the future describes what is most important for Asheville's desired.

Council discussed strategies that will be useful in furthering the Vision's impact as a governance tool. Then Council identified any areas of emphasis that should be included/incorporated within Council's Priorities.

Council then wordsmithed the current Asheville City Council's 2036 Vision.

At 5:03 p.m., Mayor Manheimer recessed the retreat until 8:45 a.m. on Friday, February 16, 2018, at the The Collider.

Friday – February 16, 2018 - 8:45 a.m.
The Collidor - 1 Haywood Street

Continuation of Retreat

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Council reviewed their wordsmithing of the 2016 Vision that they worked on the first day.

Council then reviewed their 3-Year Priorities (currently entering Year 3) to evaluate progress and ensure that these remain the needs and projects on which staffing and resources should be focused. They then narrowed the focus of the Strategic Work Plan to identify goals/projects that will be important to complete by the end of calendar Year 2018.

The Council was in agreement for the following next steps: (1) Facilitator will send the report to the City Manager; (2) City Manager will send report to City Council; (3) City Manager will develop a new strategic work plan to address the priorities, which will then become goals; (4) possible City Council worksession to address what it will take to accomplish the goals and the resources required, with consideration of whether the Finance Committee should review the Plan first; (5) City Council to readopt the Vision and ratify the Plan; and (6) City Council to consider new roles in sharing/communicating the vision and its successes.

At 3:06 p.m., Mayor Manheimer adjourned the meeting and announced that City Council will gather later in the evening for dinner.

Magdalen Bullock
City Clerk

Mayor

Tuesday – February 27, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. RESOLUTION NO. 18-56 - RESOLUTION IN MEMORY OF THE REVEREND BILLY GRAHAM

Mayor Manheimer read the resolution in memory of the Rev. Billy Graham as follows: WHEREAS, on behalf of the City of Asheville, we extend our sincere condolences over the passing of Reverend Billy Graham; and WHEREAS, Reverend Billy Graham was a charismatic North Carolina pastor who preached to more than 200 million people in 185 countries, counseled presidents and led mass religious rallies that featured professional musicians and huge choirs, in venues ranging from a circus tent in Los Angeles to Yankee Stadium in New York; and WHEREAS, Reverend Billy Graham held one of his famous religious rallies here in Asheville; and WHEREAS, Reverend Billy Graham served as a counselor or minister to a dozen U.S. presidents and, had a close fellowship with Queen Elizabeth II and the Royal Family; and WHEREAS, Reverend Billy Graham died on February 21, 2018; NOW, THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City of Asheville extends our sincere sympathies to his family and supporters upon the passing of Reverend Billy Graham."

Mayor Manheimer then presented the resolution to Mr. Will Graham, grandson of Rev. Graham, and Mr. Glenn Wilcox, family friend, who thanked City Council for this resolution.

Resolution No. 18-56 was adopted by acclamation.

RESOLUTION BOOK NO. 39 - PAGE 297

B. PROCLAMATION PROCLAIMING MARCH 10, 2018, AS "ZELDA FITZGERALD DAY"

Vice- Mayor Wisler read the proclamation proclaiming March 10, 2018, as "Zelda Fitzgerald Day" in the City of Asheville. She presented the proclamation to Mr. Jim MacKenzie, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING MARCH 19-25, 2018, AS "ASHEVILLE CLIMATE WEEK"

Councilwoman Mayfield read the proclamation proclaiming March 19-25, 2018, as "Asheville Climate Week" in the City of Asheville. She presented the proclamation to Ms. Megan Robinson, Executive Director of The Collider, , who briefed City Council on some activities taking place during the week.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 13, 2018; AND THE ANNUAL RETREAT HELD ON FEBRUARY 15-16, 2018

B. RESOLUTION NO. 18-38 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE N.C. DIVISION OF EMERGENCY MANAGEMENT FOR THE FISCAL YEAR 2017 HOMELAND SECURITY GRANT TO UPGRADE AND ENHANCE WIRELESS TELECOMMUNICATIONS EQUIPMENT

ORDINANCE NO. 4653 - BUDGET AMENDMENT THE N.C. DIVISION OF EMERGENCY MANAGEMENT FOR THE FISCAL YEAR 2017 HOMELAND SECURITY GRANT

Summary: The consideration of (1) a resolution authorizing the City Manager to apply for and enter into a contract with the N.C. Division of Emergency Management for the Fiscal Year 2017 Homeland Security Grant Program to upgrade and enhance the wireless telecommunications equipment; and (2) a budget amendment, in the amount of $30,000, in the City's Special Revenue Fund budget for the grant.

In November 2010, City Council approved a resolution to authorize the City Manager to accept $550,000 from the Fiscal Year 2010 Homeland Security Grant Program administered by the North Carolina Division of Emergency Management for procurement and installation of wireless telecommunications equipment to enhance the ability of emergency responders to communicate locally and throughout the region. That equipment was purchased and has been in use by the City since 2011. This equipment has enhanced the ability of the Asheville Fire Department and other regional Emergency Responders to communicate during a disaster or other emergency that requires the coordination and communication between multiple jurisdictions. After seven years of use and changes in technology, now is the appropriate time to enhance and upgrade the equipment. The $30,000 from the Fiscal Year 2017 grant will be used for equipment that enhances existing wireless data/voice resources and capabilities; supports the Incident Management Team needs at alternate Emergency Operations Center locations; elevates radio frequency, provisions wireless access points for data and voice that can expand the present range, and increases the margin of safety for radio frequency exposure.

Pros:

- An increased ability to communicate with responders from other jurisdictions that can not operate on the City's Public Safety Radio System or who are outside the system coverage area.
- Increases responder safety and accountability of the City's resources when providing mutual aid to other jurisdictions.
- The redundant infrastructure will provide an additional margin of safety during emergency operations ensuring continued and reliable communications.

Con:

- None identified

The equipment purchase will be fully funded by the grant proceeds. There is no impact to the City's General Fund budget.

City staff recommends City Council adopt (1) a resolution authorizing the City Manager to apply for and enter into a contract with the N.C. Division of Emergency Management for the Fiscal Year 2017 Homeland Security Grant Program to upgrade and enhance the wireless telecommunications equipment; and (2) a budget amendment, in the amount of $30,000, in the City's Special Revenue Fund budget for the grant.

RESOLUTION BOOK NO. 39 - PAGE 265
ORDINANCE BOOK NO. 32 - PAGE 9

C. RESOLUTION NO. 18-39 - RESOLUTION AUTHORIZING THE CITY MANAGER TO RECEIVE REIMBURSEMENT FUNDS FROM THE N.C. EMERGENCY DIVISION OF THE DEPT. OF PUBLIC SAFETY FOR STAFF DEPLOYMENT TO TEXAS TO ASSIST WITH HELO-AQUATIC RESCUE EFFORTS AND STAFF DEPLOYMENT TO BUNCOMBE COUNTY TO SUPPORT NORTH CAROLINA TASK FORCE 2 OPERATIONS DURING HURRICANE IRMA

ORDINANCE NO. 4654 - BUDGET AMENDMENT FOR STAFF DEPLOYMENT TO TEXAS TO ASSIST WITH HELO-AQUATIC RESCUE EFFORTS AND STAFF DEPLOYMENT TO BUNCOMBE COUNTY TO SUPPORT NORTH CAROLINA TASK FORCE 2 OPERATIONS DURING HURRICANE IRMA

Summary: The consideration of (1) a resolution authorizing the City Manager to receive reimbursement funds from the State of North Carolina N.C. Emergency Division of the Dept. of Public Safety for staff deployment to Texas to assist with Helo-Aquatic Rescue efforts and staff deployment to Buncombe County to support North Carolina Task Force 2 operations during Hurricane Irma; and (2) a budget amendment, in the amount of $17,448.35, in the General Fund budget for the reimbursement.

The State of North Carolina participates in the The Emergency Management Assistance Compact (EMAC). EMAC is a nationally adopted mutual aid agreement among states to share resources during times of need. The City of Asheville Fire Department supports the North Carolina Helo-Aquatic Rescue Team (NCHART). During Tropical Storm Harvey, the state of Texas requested resources through the EMAC agreement and North Carolina responded by sending the NCHART team. AFD had two members deploy with the team at a cost of $12,062.27. This amount represents the cost to the City in the form of compensation and benefits.

The North Carolina Emergency Management division of the Department of Public Safety supports seven Urban Search and Rescue (USAR) Task force teams. Buncombe County serves as the host for Task Force 2. The City of Asheville Fire Department supports this effort by providing trained staff. During Hurricane Irma, Task Force 2 increased their readiness level in anticipation of flood/swiftwater emergencies. AFD supported this effort through staffing at a cost of $5,386.08. This amount represents the cost to the City in the form of compensation and benefits.

Pro:

- Receiving reimbursement funds will reduce the impact this deployment had on the fire department's compensation budget.

Con:

- None Identified

Upon City Council approval, a budget amendment will be made in the current fiscal year to accept this reimbursement and reduce the overtime impact to the Asheville Fire Department in the amount of $17,448.35.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to receive reimbursement funds from the State of North Carolina N.C. Emergency Division of the Dept. of Public Safety for staff deployment to Texas to assist with Helo-Aquatic Rescue efforts and staff deployment to Buncombe County to support North Carolina Task Force 2 operations during Hurricane Irma; and (2) a budget amendment, in the amount of $17,448.35, in the General Fund budget for the reimbursement

RESOLUTION BOOK NO. 39 - PAGE 266
ORDINANCE BOOK NO. 32 - PAGE 11

D. RESOLUTION NO. 18-40 - RESOLUTION PROPOSING TO ACCEPT AN OFFER FOR SALE OF 102.8 SQUARE FEET OF AIR RIGHTS AT 35 EAGLE STREET; DIRECTING THE CITY CLERK TO ADVERTISE FOR UPSET BIDS FOR THE SALE OF AIR RIGHTS; AND IF NO OTHER BIDS ARE RECEIVED OR ACCEPTED, AUTHORIZING THE CITY MANAGER TO EXECUTE ANY AND ALL DOCUMENTS NECESSARY TO CONVEY THE AIR RIGHTS

Summary: The consideration of a resolution proposing to accept an offer for sale of 102.8 square feet of air rights at 35 Eagle Street; directing the City Clerk to advertise for upset bids for the sale of air rights; and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey the air rights.

The City of Asheville controls the sidewalk and street right-of-way located at 35 Eagle Street and in turn controls encroachments into the overhead airspace above the sidewalk. At this time, Asheville Foundry Inn, LLC is constructing a hotel that is comprised of several historical buildings and some new construction. The construction plans call for a cornice at the roof line that extends slightly onto the City's right of way on Eagle Street. Because this cornice would be a permanent part of the building, this encroachment into the public air space must be treated as a sale of property, and therefore the City requires that the sale of air rights follow certain disposition procedures; specifically the upset bid process.

The project was approved in March of 2015 by the Technical Review Committee and it was favorably reviewed by the Downtown Commission in May of that year. Planning and Zoning reviewed and approved the Level II project in June of 2015. Due to the historical status of the existing buildings, the developer reduced the scope of the project. The result was the elimination of one floor in the future hotel. The plans were revisited by the design team and the cornice was added along the roofline on the Eagle Street side. This addition to the plans triggered the need to purchase air rights from the City of Asheville. In terms of current policy, the sale of air rights is reviewed on a case by case basis. There is an air rights policy that was drafted by the Planning & Urban Design Department and reviewed by the Downtown Commission, but not yet officially approved. This policy generally allows air rights to be granted for existing structures such as this Property. The Public Works Department was consulted in regard to this air rights request, since it is responsible for the sidewalk below and it had no concerns.

On January 12th, 2018, a qualifying bid was received from Asheville Foundry Inn, LLC in the amount of $833.00 for the purchase of 102.8 square feet of air space for the purpose of constructing a cornice onto an existing roof overhang at 35 Eagle Street. This bid was based on an average of the value from a 2016 Commercial Appraisal of a nearby hotel and the tax assessed value of the land where construction is underway on Eagle and South Market Street, and the offered amount is considered to be at fair market value for the air rights. If the City

Council approves the following resolution, the City Clerk will be directed to publish an advertisement for upset bids for a period of 10 days, in which any interested party may upset the current bid of $833.00. The statutes require that a qualifying bid must increase the current offer by 10% of the first $1,000 and 5% of the remainder (i.e., $917.00 or higher). Since the function of the upset bid process is to confirm fair market value, this resolution provides that if no qualifying, competing bid is received, then the City Council agrees to convey this specified area of air rights to Asheville Foundry Inn, LLC for $833.00.

Pros:

- The project will preserve existing buildings on the Historic Register.
- The sale of the air rights will be at fair market value.

Con:

- The cornice is an encroachment into the City's right-of-way.

Financial proceeds associated with this disposition are to benefit the City's General Fund.

Staff recommends City Council adopt a resolution that proposes to accept an offer for sale of 102.8 square feet of air rights at 35 Eagle Street to Asheville Foundry Inn, LLC; directing the City Clerk to advertise for upset bids for the sale of said air rights; and if no other bids are received or accepted, authorizing the City Manager to execute any and all documents necessary to convey the easement and air rights.

RESOLUTION BOOK NO. 39 - PAGE 267

E. RESOLUTION NO. 18-41 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH GHD CONSULTING SERVICES FOR THE MILLS RIVER WATER TREATMENT PLANT ROOF REPLACEMENT AND STRUCTURAL IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Supplemental Agreement with GHD Consulting Services, Inc. for the proposed amount of $206,040 plus a 10% contingency for a total of $226,644 for the Mills River WTP Roof Replacement and Structural Improvements Project.

On August 11, 2014, the Water Resources Department (WRD) issued a Request for Qualifications (RFQ) for On-Call Professional Services for Water Treatment Plant (WTP) Projects. In response to the RFQ, seven engineering firms submitted Statements of Qualifications (SOQ). A WRD review team selected three engineering firms with proven experience and expertise to provide professional and engineering services for various water treatment plant repair, replacement, and/or expansion projects. The three selected firms are Brown and Caldwell, CDM Smith Inc., and GHD Consulting Services.

With guidance from the City's Legal and Purchasing Departments, the WRD executed Master Agreements with all three firms to establish initial contractual terms. Specific projects would be authorized under a separate Supplemental Agreement between the WRD and individual engineering firm. The WRD desires to enter into a Supplemental Agreement with GHD for the Mills River WTP Roof Replacement and Structural Improvements.

The Mills River WTP's roof is original to the facility (opened 1999) and is past its useful life. As the roof system is approaching 20 years old, water is penetrating the building envelope in locations throughout the building and the roof is in need of replacement. Following the initial site inspection, GHD was informed that the plant currently does not have a way to replace bulk

storage tanks in the chemical area. GHD has been asked to provide a scope of work that includes the design and specification of a roof system replacement, along with structural improvements for the installation of removable skylights for the removal of the sodium hydroxide, sodium hypochlorite, alum, and fluoride bulk storage tanks, construction administration, and full-time project oversight.

The scope of services to be performed by GHD under this Supplemental Agreement include design services, bid and construction administration services, and on-site representation and inspections needed for the project.

Pros:

- This project will replace the roof and make needed structural improvements at the MR WTP in order to operate the plant at the most efficient level possible.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- A delay in awarding this agreement would postpone the roof replacement, which will continue to leak and cause damage to filter controls and structural aspects of the MR WTP.

The funding needed for this agreement is currently allocated within the Water Treatment Plant Improvements Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Supplemental Agreement with GHD Consulting Services, Inc. for the proposed amount of $206,040 plus a 10% contingency for a total of $226,644 for the Mills River WTP Roof Replacement and Structural Improvements Project.

RESOLUTION BOOK NO. 39 - PAGE 268

F. RESOLUTION NO. 18-42 - RESOLUTION AMENDING THE 2018 CITY COUNCIL MEETING SCHEDULE TO (1) RESCHEDULE THE PREVIOUSLY SCHEDULED BUDGET WORKSESSION ON MARCH 13, 2018, TO MARCH 20, 2018, AT 3:00 P.M. IN THE COUNCIL CHAMBER AND HELD IN CONJUNCTION WITH A PARTICIPATORY BUDGET WORKSESSION; (2) ADD A JOINT CITY COUNCIL/BUNCOMBE COUNTY COMMISSIONERS MEETING ON MARCH 13, 2018, AT 3:00 P.M. IN THE 1ST FLOOR CONFERENCE ROOM AT 200 COLLEGE STREET, ASHEVILLE, N.C.; AND (3) RESCHEDULE THE MAY 8, 2018, FORMAL MEETING TO MAY 15, 2018

RESOLUTION BOOK NO. 39 - PAGE 269

G. ORDINANCE NO. 4655 - BUDGET AMENDMENT FOR CONNECTIVITY IMPROVEMENTS NEAR THE MIXED-USE DEVELOPMENT ON FAIRVIEW ROAD KNOWN AS "THE DISTRICT"

Summary: The consideration of a budget amendment in the General Capital Projects Fund in the amount of $200,000 to appropriate funding received from the applicant for connectivity improvements near the mixed-use development on Fairview Road known as "The District."

The project known as "The District" was approved by City Council on January 27, 2015, under ordinance number 4379. The approval was for a mixed-use development on Fairview Road

just south of Biltmore Village with approximately 309 residential units (including 7% of those units dedicated at affordable rents according to the ordinance), approximately 9,700 square feet of commercial space and streetscape improvements that activate Fairview Road. As a part of the City Council hearing, the applicant offered and agreed that "The property owner and/or applicant shall pay to the City of Asheville $200,000 on or before the date the first building permit is issued for the purpose of promoting connectivity from the property to Sweeten Creek Road and Biltmore Village and/or for traffic calming measures or pedestrian enhancements on or around Fairview Road and Stoner Road."

The check from the applicant in the amount of $200,000 was received by the City in March 2016. Staff from the Planning and Urban Design, Public Works and Transportation Departments have been working to determine possible improvements to satisfy this condition and will be holding a community meeting on February 22, 2018. Staff will then be ready to begin work on the improvements and therefore a budget amendment is needed to appropriate funding.

The Finance Committee will be reviewing this item at their February 27, 2018, meeting and if there is anything other than unanimous support to move this forward to City Council it will be brought to the attention of Council at their February 27 meeting.

Pros:

- Provides budget authorization for upcoming project expenses.
- Funds needed public pedestrian improvements with private revenue source

Con:

- None.

As noted above, the $200,000 in improvements planned with this project require no additional City funds.

City staff recommends City Council adopt the budget amendment in the General Capital Projects Fund in the amount of $200,000 to appropriate funding received from the applicant for connectivity improvements near the mixed-use development on Fairview Road known as "The District."

ORDINANCE BOOK NO. 32 - PAGE 13

H. RESOLUTION NO. 18-43 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH W.K. DICKSON & CO. INC. FOR THE NEIGHBORHOOD ENHANCEMENT PROJECT - AREA 5

Summary: The consideration of a resolution authorizing the City Manager to execute a Supplemental Agreement with W.K. Dickson & Co., Inc. for the proposed amount of $762,395 plus a 10% contingency for a total of $838,635 for the Neighborhood Enhancement Project - Area 5.

The City of Asheville Water Resources Department has prioritized this Neighborhood Waterline Replacement Project for the current fiscal year and is seeking engineering design and project management assistance for this project. This project will replace existing substandard and failing water lines in favor of new water lines, designed and constructed in accordance with the City of Asheville standards.

The scope of this project includes: design for construction of approximately 27,925 Linear Feet of 6, 8 and 12-inch water line and appurtenances along various streets within the Muirfield

Subdivision, Mills Gap Road, Swannanoa River Road, South Tunnel Road, Long Shoals Road, Brookwood Road, Brevard Road, Hazel Mill Road and Joe Jenkins Road.

Through a qualifications based selection process for engineering services, the City of Asheville selected four engineering firms to provide on-call professional services for Water Distribution and Storage Projects. WK Dickson was one of the selected firms, and the City of Asheville entered into a Master Agreement with them on May 11, 2015, for On-Call Professional Services for Water Distribution and Storage Projects. If approved, the proposed engineering services described herein will be developed into a Supplemental Agreement under the conditions of the Master Agreement.

Subsequent to this selection, Water Resources staff met with WK Dickson and negotiated an Engineering Services Contract in the amount of $762,395 plus a 10% contingency for a total of $838,635.

Pros:

- WK Dickson has provided Engineering Services on water system improvement projects. Their experience and knowledge of water systems will minimize staff support and input during the design process.
- This project will provide citizens with improved water system reliability and much improved fire protection.

Con:

- Failure to award an engineering services contract would prevent the Water Resources Department from completing the Neighborhood Enhancement Project in a timely manner and delay the replacement of the aging existing water system.

The funding needed for this agreement is currently allocated within the Small Waterline Replacement Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Supplemental Agreement with W.K. Dickson & Co., Inc. for the proposed amount of $762,395 plus a 10% contingency for a total of $838,635 for the Neighborhood Enhancement Project - Area 5.

RESOLUTION BOOK NO. 39 - PAGE 270

I. RESOLUTION NO. 18-44 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH BROWN & CALDWELL FOR THE NORTH FORK WATER TREATMENT PLANT SODIUM BICARBONATE FEED SYSTEM REPLACEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Supplemental Agreement with Brown and Caldwell for the proposed amount of $165,000 plus a 10% contingency for a total of $181,500 for the North Fork Water Treatment Plant (NFWTP) Sodium Bicarbonate Feed System Replacement Project.

On August 11, 2014, the Water Resources Department (WRD) issued a Request for Qualifications (RFQ) for On-Call Professional Services for Water Treatment Plant (WTP) Projects. In response to the RFQ, seven engineering firms submitted Statements of Qualifications (SOQ). A WRD review team selected three engineering firms with proven experience and expertise to provide professional and engineering services for various water treatment plant repair, replacement, and/or expansion projects. The three selected firms are Brown and Caldwell, CDM Smith Inc., and GHD Consulting Services.

With guidance from the City's Legal and Purchasing Departments, the WRD executed Master Agreements with all three firms to establish initial contractual terms. Specific projects would be authorized under a separate Supplemental Agreement between the WRD and individual engineering firm. The WRD desires to enter into a Supplemental Agreement with Brown and Caldwell, for the NFWTP Sodium Bicarbonate Feed System Replacement Project.

The bicarbonate silo at the NFWTP provides storage for powdered bicarbonate, a chemical used for water system corrosion control. The existing silo was installed in 1996 and is at the end of its useful life. The silo currently suffers from issues that pose water treatment challenges and raise safety concerns. The silo is in immediate need of replacement to address these issues.

The scope of services to be performed by Brown and Caldwell under this Supplemental Agreement includes, but is not limited to: (1) an evaluation of the existing bicarbonate silo and associated chemical feed system; (2) a summary of proposed improvements; (3) design drawings and technical specifications for the new bicarbonate silo bidding and construction; (4) preparation of bid documents; (5) a pre-bid meeting; (6) bid review and recommendation of award; and (7) construction administration.

Pros:

- This project will replace the sodium bicarbonate feed system at NFWTP in order to operate the plant at the most efficient level possible.
- This project is aligned with the City and the WRD goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- A delay in awarding this agreement would postpone needed repairs to the sodium bicarbonate feed system at NFWTP, which could result in a Notice of Violation from NCDEQ if it failures were to occur with this operation.

The funding needed for this agreement is currently allocated within the Water Treatment Plant Improvements Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Supplemental Agreement with Brown and Caldwell for the proposed amount of $165,000 plus a 10% contingency for a total of $181,500 for the North Fork Water Treatment Plant (NFWTP) Sodium Bicarbonate Feed System Replacement Project.

RESOLUTION BOOK NO. 32 - PAGE 271

J. RESOLUTION NO. 18-45 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE SOCON JAMFEST

RESOLUTION NO. 18-46 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITY MARKET

RESOLUTION NO. 18-47 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE RUN FOR THE PAWS EVENT

RESOLUTION NO. 18-48 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITY SOCCER CLUB GAMES

RESOLUTION NO. 18-49 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BREWS AND BEARS EVENT

RESOLUTION NO. 18-50 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT ASHEVILLE VEGANFEST

RESOLUTION NO. 18-51 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT HOLA ASHEVILLE

Summary: The consideration of resolutions authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the SoCon JamFest, Asheville City Market, Run for the Paws, Asheville City Soccer Club Games, Brews and Bears, Asheville VeganFest and Hola Asheville.

Review:

- Asheville Buncombe Regional Sports Commission has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the SoCon JamFest and allow for consumption at this event.

  The SoCon JamFest will be held on Sunday, March 4, 2018, from 1:00 p.m. to 3:45 p.m. within the boundaries of 68 Haywood Street as per the area limits referenced on the accompanying site map.

- Asheville Sustainable Agriculture Project has requested through the City of Asheville Community & Economic Development Department that City Council allow them to permit properly licensed beer and/or unfortified wine product vendors the option to provide one-ounce samples of their beer and/or unfortified wine product at the Asheville City Market and allow for consumption at the events.

  The Asheville City Market will be held weekly on Saturdays beginning April 7, 2018, through December 15, 2018, from 8:00 a.m. to 12:00 p.m. within the boundaries of North Market Street as per the area limits referenced on the accompanying site map.

- Brother Wolf Animal Rescue has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Run for the Paws, and Asheville VeganFest, and allow for consumption at these events.

  Run for the Paws will be held on Sunday, April 22, 2018, from 10:00 a.m. to 2:00 p.m. within the boundaries of Carrier Park, and Asheville VeganFest will be held on Sunday, June 10, 2018, from 11:00 a.m. to 6:00 p.m. within the boundaries of Pack Square Park, as per the area limits referenced on the accompanying site maps.

- The Asheville City Soccer Club has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or

unfortified wine at the Asheville City Soccer Club Games and allow for consumption at the events.

The Asheville City Soccer Club Games will be held on Sundays, Mondays, Tuesdays, Thursdays, Fridays and Saturdays, May 4, May 5, May 8, May 17, May 19, May 29, June 2, June 12, June 14, June 19, June 21, June 23, June 27, June 29, June 30, July 2, July 3, July 10, July 13, July 14, and July 15, 2018, from 6:00 p.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

- Friends of the WNC Nature Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Brews and Bears and allow for consumption at the events.

  Brews and Bears will be held on Fridays, May 11, July 13, and September 14, 2018, from 5:30 p.m. to 8:00 p.m. within the boundaries of the WNC Nature Center as per the area limits referenced on the accompanying site map.

- Hola Community Arts has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Hola Asheville and allow for consumption at this event.

  Hola Asheville will be held on Saturday, June 23, 2018, from 12:00 p.m. to 8:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for the Asheville Buncombe Regional Sports Commission, Appalachian Sustainable Agriculture Project, Brother Wolf Animal Rescue, Asheville City Soccer Club, Friends of the WNC Nature Center, and Hola Community Arts

Con:

- Potential for public safety issues

There is no fiscal impact.

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at SoCon JamFest, the Asheville City Market, Run for the Paws, Asheville VeganFest, ACSC Games, Brews and Bears, and Hola Asheville.

RESOLUTION NO. 18-51 - RESOLUTION BOOK NO. 39 - PAGE 290

K. ORDINANCE NO. 4656 - TECHNICAL BUDGET AMENDMENT TO MOVE THE REVENUE AND EXPENSE BUDGETS FOR PASS THROUGH FUNDING THAT IS RECEIVED FROM THE FEDERAL TRANSIT ADMINISTRATION FUND TO THE TRANSIT MULTI-YEAR FUND

Summary: The consideration of a technical budget amendment in the amount of $1,062,500 to move the revenue and expense budgets for pass through funding that is received from the Federal Transit Administration (FTA) from the Transit Operating Fund to the Transit Multi-Year Fund.

As the direct recipient of Federal Section 5307 funds for transit operations and capital programs for this region, the City of Asheville annually receives FTA funding that it then passes on to subrecipient organizations within the urbanized area which include: Henderson County, Buncombe County, and Haywood County. With the recent change in the formula allocation, the amounts that the City passes through to subrecipient organizations has increased and will continue to increase as the new allocation formula is fully implemented.

The City has historically budgeted and accounted for this pass through funding in the Transit Operating Fund. With this amount growing to potentially exceed $1.0 million, staff is recommending that the budget for the pass through funding be moved from the Transit Operating Fund (6500) to the Transit Multi-Year Fund (6510). Moving this budget out of the Transit Operating Fund will provide a more accurate accounting of the revenues and expenses associated with operating the City's own transit system. The FY 2018-19 Manager's Recommended Budget, which staff will present to City Council in May will include the pass through budget in the Transit Multi-Year Fund as opposed to the Transit Operating Fund. Adjusting the current year budget will allow for a better year-to-year comparison when Council is reviewing the FY 2018-19 Manager's Recommended Budget.

Pro:

- Provides an improved financial presentation of the cost associated with operating the City's transit system.

Con:

- None.

There is no net fiscal impact to this technical budget amendment. Budget is simply being transferred from one fund to another.

City staff recommends City Council adopt the technical budget amendment in the amount of $1,062,500 to move the revenue and expense budgets for pass-through funding that is received from the Federal Transit Administration (FTA) from the Transit Operating Fund to the Transit Multi-Year Fund.

ORDINANCE BOOK NO. 32 - PAGE 15

L. RESOLUTION NO. 18-52 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONSTRUCTION AGREEMENT WITH BUCKEYE BRIDGE LLC FOR THE NEIGHBORHOOD ENHANCEMENT PROJECT AREA 3 WATER DISTRIBUTION SYSTEMS PHASE 2 PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with Buckeye Bridge, LLC, for the NEP Area 3 Water Distribution Systems Phase 2 Project for the bid amount of $2,013,316 plus a 15% contingency in the amount of $301,998 for a total project budget in the amount of $2,315,314.

On December 20, 2017, the Water Resources Department (WRD) issued an Advertisement for Bids for the NEP Area 3 Water Distribution Systems Phase 2 Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of approximately 1,200 Linear Feet (LF) of 30-inch Ductile

Iron Pipe (DIP) and 200 LF of 24-inch DIP located along Tunnel Road and Beaucatcher Road from Buckstone Place to Kenilworth Road in the Kenilworth Area, with related appurtenances required in order to complete the work.

In response to the Advertisement for Bids, the WRD received 3 bids on January 30, 2018. Companies responding were:

1. Buckeye Bridge, LLC; Canton, NC – Bid: $2,013,316
2. Thomas Construction Company, Inc.; Johnson City, TN – Bid: $2,218,835
3. Hyatt Pipeline, LLC; Carlton, NC – Bid: $2,246,917

Following a review of the bids by City Staff and the project engineers, CDM Smith, Buckeye Bridge, LLC, was selected as the lowest responsible, responsive bidder for the bid amount of $2,013,316. A contingency amount of $301,998 has been added for a total project budget in the amount of $2,315,314.

Pros:

- This project will add an additional transmission waterline and relocate an existing aging waterline out of a flood zone. The subject lines are undersized, provide inadequate flow, and/or have a high risk of failure. Replacement of these lines will help to improve the service and reliability of the water system.
- This project is aligned with the City and the WRD's goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

The funding needed for this agreement is currently allocated within the Small Waterline Replacement Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with Buckeye Bridge, LLC, for the NEP Area 3 Water Distribution Systems Phase 2 Project for the bid amount of $2,013,316 plus a 15% contingency in the amount of $301,998 for a total project budget in the amount of $2,315,314.

RESOLUTION BOOK NO. 39 - PAGE 293

M. RESOLUTION NO. 18-53 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONSTRUCTION AGREEMENT WITH T & K UTILITIES INC. FOR THE FAIRVIEW AREA WATER SYSTEM IMPROVEMENTS PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a construction agreement with T & K Utilities, Inc., for the Fairview Area Water System Improvements Project for the bid amount of $3,704,100 plus a 15% contingency in the amount of $555,615 for a total project budget in the amount of $4,259,715.

On January 3, 2018, the Water Resources Department (WRD) issued an Advertisement for Bids for the Fairview Area Water System Improvements Project. The scope of work for this project includes, but is not limited to, all labor, materials, equipment, and incidentals required for the installation of a 1.0 Million Gallons per Day (MGD) booster pumping station with three pumps, construction of a 0.5 Million Gallon (MG) ground storage tank on a concrete pedestal, the

installation of four new pressure reducing valve (PRV) stations and the installation of approximately 1,400 Linear Feet (LF) of 12 and 8-inch ductile iron pipe (DIP) with related appurtenances required in order to complete the work.

In response to the Advertisement for Bids, the WRD received 6 bids on January 30, 2018. Companies responding were:

1. T&K Utilities, Inc; Asheville, NC – Bid: $3,704,100
2. The Harper Corporation; Greenville, SC – Bid: $3,749,000
3. State Utility Contractors, Inc; Monroe, NC – Bid: $3,782,000
4. Dellinger, Inc.; Monroe, NC - Bid: $3,999,000
5. Wharton - Smith, Inc.; Charlotte, NC - Bid: $4,029,050
6. Buckeye Bridge, LLC; Canton, NC - Bid: $4,235,616

Following a review of the bids by City Staff and the project engineers, Hazen & Sawyer, T & K Utilities, Inc., was selected as the lowest responsible, responsive bidder for the bid amount of $3,704,100. A contingency amount of $555,615 has been added for a total project budget in the amount of $4,259,715.

Pros:

- This project will reduce the demands on the existing 1 MG Concord Tank and associated pressure zone, provide needed redundancy for the system, improve flow and pressure characteristics, and improve water quality by reducing water age.
- This project is aligned with the City and WRD's goal of continued investment and improvement of the City's water system through Capital Improvement Projects, in order to provide safe and reliable service.

Con:

- Failure to award a construction contract would prevent the completion of the water system improvements.

The funding needed for this agreement is currently allocated within the Fairview Service Area Waterline Improvements Project in the Water Resources Capital Improvement Projects (CIP) Fund. The cost of this project will be funded with the issuance of debt proceeds (up to $12 million) and pay-as-you-go funds currently allocated in the CIP Fund Project Budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a construction agreement with T & K Utilities, Inc., for the Fairview Area Water System Improvements Project for the bid amount of $3,704,100 plus a 15% contingency in the amount of $555,615 for a total project budget in the amount of $4,259,715.

RESOLUTION BOOK NO. 39 - PAGE 294

N. RESOLUTION NO. 18-54 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH CDM SMITH INC. FOR ENGINEERING SERVICES ASSOCIATED WITH WATER SYSTEM DISTRIBUTION PROJECTS - PROJECT 2

Summary: The consideration of a resolution authorizing the City Manager to execute a Supplemental Agreement with CDM Smith, Inc. for the proposed amount of $884,124 plus a 10% contingency for a total of $972,537 for the Water System Distribution Projects - Project 2.

The City of Asheville Water Resources Department has prioritized this Water System Distribution Project for the current fiscal year and is seeking engineering design and project

management assistance for this project. This project will replace existing substandard and failing transmission mains in favor of new transmission mains, designed and constructed in accordance with the City of Asheville standards. It is anticipated that construction of the project will occur in multiple phases.

The scope of this project includes: design for construction of approximately 10,600 Linear Feet of 24-inch water transmission main along Patton Avenue and all associated appurtenances. This transmission line replacement project will begin near the intersection of Craven Street and Hazel Mill Road and terminate at the intersection of Patton Avenue and Haywood Road.

Through a qualifications based selection process for engineering services, the City of Asheville selected four engineering firms to provide on-call professional services for Water Distribution and Storage Projects. CDM Smith, Inc. was one of the selected firms, and the City of Asheville entered into a Master Agreement with them on May 27, 2015, for On-Call Professional Services for Water Distribution and Storage Projects. If approved, the proposed engineering services described herein will be developed into a Supplemental Agreement under the conditions of the Master Agreement.

Subsequent to this selection, Water Resources staff met with CDM Smith and negotiated an Engineering Services Contract in the amount of $884,124 plus a 10% contingency for a total of $972,537.

Pros:

- CDM Smith, Inc. has provided Engineering Services on water system improvement projects. Their experience and knowledge of water systems will minimize staff support and input during the design process.
- This project will provide citizens with improved water system reliability and much improved fire protection.

Con:

- Failure to award an engineering services contract would prevent the Water Resources Department from completing the Water System Distribution Project in a timely manner and delay the replacement of the aging existing water system.

The funding needed for this agreement is currently allocated within the Small Waterline Replacement Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Supplemental Agreement with CDM Smith, Inc. for the proposed amount of $884,124 plus a 10% contingency for a total of $972,537 for the Water System Distribution Projects - Project 2.

RESOLUTION BOOK NO. 39 - PAGE 295

O. RESOLUTION NO. 18-55 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A SUPPLEMENTAL AGREEMENT WITH MCGILL ASSOCIATES FOR THE WATER SYSTEM DISTRIBUTION PROJECTS - PROJECT 1

Summary: The consideration of a resolution authorizing the City Manager to execute a Supplemental Agreement with McGill Associates, PA for the proposed amount of $967,878.80 plus a 10% contingency for a total of $1,064,667 for the Water System Distribution Projects - Project 1.

The City of Asheville Water Resources Department has prioritized this Water System Distribution Project for the current fiscal year and is seeking engineering design and project management assistance for this project. This project will replace existing substandard and failing water lines in favor of new water lines, and it will add capacity and redundancy to the transmission main system. The project will be designed and constructed in accordance with the City of Asheville standards. It is anticipated that construction of the project will occur in multiple phases.

The scope of this project includes: (1) design for construction of approximately 1,700 Linear Feet (LF) of 48-inch transmission line and appurtenances along North Fork Road with separate tie-ins to the existing 36 and 24-inch transmission mains south and north of the NCDOT bridge; and (2) design for construction of approximately 13,300 LF of 12-inch water main, 700 LF of 24-inch transmission main and appurtenances along McDowell Street, Short McDowell Street and Meadow Road. The project will involve two major bore / tunneling operations under the French Broad River, adjacent to the Amboy Road bridge and crossing under the Railroad Lines along Meadow Road.

Through a qualifications based selection process for engineering services, the City of Asheville selected four engineering firms to provide on-call professional services for Water Distribution and Storage Projects. McGill Associates was one of the selected firms, and the City of Asheville entered into a Master Agreement with them on April 28, 2015, for On-Call Professional Services for Water Distribution and Storage Projects. If approved, the proposed engineering services described herein will be developed into a Supplemental Agreement under the conditions of the Master Agreement.

Subsequent to this selection, Water Resources staff met with McGill Associates and negotiated an Engineering Services Contract in the amount of $967,878.80 plus a 10% contingency for a total of $1,064,667.

Pros:

- McGill Associates has provided Engineering Services on water system improvement projects. Their experience and knowledge of water systems will minimize staff support and input during the design process.
- This project will provide citizens with improved water system reliability and much improved fire protection.

Con:

- Failure to award an engineering services contract would prevent the Water Resources Department from completing the Water System Distribution Project in a timely manner and delay the replacement of the aging existing water system.

The funding needed for this agreement is currently allocated within the Small Waterline Replacement Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Supplemental Agreement with McGill Associates, PA for the proposed amount of $967,878.80 plus a 10% contingency for a total of $1,064,667 for the Water System Distribution Projects - Project 1.

RESOLUTION BOOK NO. 39 - PAGE 296

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. LEGISLATIVE STUDY COMMITTEE TO STUDY RATES AND TRANSFER/ PUBLIC ENTERPRISES

Representative Chuck McGrady provided Council with a brief history on why the Legislative Study Committee to Study Rates and Transfer/Public Enterprises which grew out of the legislation dealing with Asheville's water system. In summary, he asked for Council's assistance and cooperation on (1) an interlocal agreement between Henderson County and the City of Asheville that addresses the potential need for waterline extensions in northern Henderson County related to economic development opportunities; and (2) Henderson County representation on the Metropolitan Sewerage D strict (MSD) Board because Henderson County residents pay a higher rate for sewer and they are not represented on the MSD Board.

Mayor Manheimer explained that there is a draft interlocal agreement which is currently being reviewed by the City Attorney and Henderson County's attorney.

When Councilman Kapoor asked Representative McGrady why he doesn't ask the Study Committee to not look at Asheville's water system, Representative McGrady said the only issue in any way that would relate to Asheville would be to trying to solve this representation fix with MSD. That could relate to Asheville so he can't say whatever comes out of it will not at all relate to Asheville. He said Asheville is in no way a target. He said if he can take care of the MSD representation and the interlocal agreement he felt he has taken care of his constituents.

Councilwoman Mayfield clarified what she heard was that we are past the time when anyone is looking to force a merger or takeover or otherwise seize or remove from the control of the City of Asheville it's water system. Representative McGrady said he couldn't speak for everyone, but he said he could speak for himself, and he said no, he has absolutely no interest in going down that road unless he's forced. And, he didn't think he would be forced because he's trying to disconnect these issues from each other. He said he did not expect to have any legislation having to deal with Asheville's water system.

When Councilman Kapoor asked Representative McGrady under what circumstances might he envision himself being forced, Representative McGrady said he that if we don't take care of the MSD issue then he would have to figure out how to push it, because his constituents are paying too much for sewer and they are not represented. If the Buncombe County and its various cities can't help him figure out how to get around that, then the question will become what will he do about it.

Three individuals were concerned that Representative McGrady will continue to try to force regionalization of the entire Buncombe County and Henderson County water and sewer systems unless he gets Henderson County representation on the MSD Board and the City and Henderson County adopt the interlocal agreement.

On behalf of City Council, Mayor Manheimer thanked Representative McGrady for his presentation.

B. UPDATE ON THE CHARLOTTE STREET INNOVATION DISTRICT PROCESS

Assistant City Manager Cathy Ball said that previous planning and traffic studies for N. Charlotte Street include a 1997 Traffic Study, a 1999 Corridor Plan, a 2002 Transportation Study, a 2013 Transportation Study, and a 2016 Transportation Plan.

By Resolution No. 14-241, the Charlotte Street Corridor was established as an Innovation District. The approved budget (Capital Improvement Program) for Fiscal Year 2019 is $200,000 for N. Charlotte Street, and $1,050,000 for Fiscal Year 2020.

There has been recent public engagement through CSBA. Completed activities include: (1) City response to red light camera and crash data inquiry; (2) Installation of flashing speed limit signs; (3) Installation of temporary speed radar signs for 3 months; (4) New traffic counts taken and data shared with stakeholders; (5) Staff memo on Red Lights Cameras; and (6) Staff memo on three year crash data. A scheduled activity is a new crosswalk to be installed on Charlotte Street (Baird/Broad) by end of April 2018.

Next steps include (1) complete the crosswalk by April 2018; (2) Planning & Economic Development Committee meeting on March 12, 2018 (consideration of options for planning process); (3) Council meeting in April, 2018; and (4) develop schedule based on outcome from April Council meeting.

In response to Vice-Mayor Wisler, Ms. Ball said that staff is folding in the Edwin/Celia stormwater project with the N. Charlotte Street project. The stormwater project funds will not come out of the $1,250,000 Capital Improvement Program funds for the N. Charlotte Street Project.

In response to Mayor Manheimer, Transportation Director Ken Putnam said that at this time we will be putting in a crosswalk but we are moving forward with getting current traffic counts for a signal. Once we justify the signal, we will have to identify the funding source.

In response to Councilwoman Mayfield, Mr. Putnam said that at the new crosswalk, we will use the normal pedestrian warning signs that have the LEDs that flash all the time around the sign. There is another type of flashing lights that are activated by push buttons, but at the moment the federal government has taken our ability away to install new ones.

C. QUARTERLY OPERATING AND CAPITAL BUDGET REPORTS

Finance Director Barbara Whitehorn provided Council with the following second quarter of 2017-18 financial report. The financial information reflects the City's overall financial position for the fiscal year through December 2017.

"Amendments. There were three budget amendments in the General Fund during the first two quarters. The chart below shows the additions to the Adopted General Fund Budget.

Adopted General Fund Budget:	**$120,705,145**
Amendments:	
Grant for the City's Urban Forest Program	$6,000
Transit contract that exceeded estimates (Fund Balance)	$441,000
ADA Keep America Beautiful Grant	$8,000
Amended General Fund Budget 12/31/2017	**$121,160,145**

There have been two additional budget amendments approved since the start of the third quarter, which are outlined below:

Amendments:	Amount	Status
Storm Response Materials (Fund Balance)	$461,212	Approved 2/13
Grant Matching Funds (Fund Balance)	$75,000	Approved 1/23
Amended General Fund Budget as of 2/28/2018	**$121,696,357**	

See Fund Balance Analysis on page 5 for details on the forecast fund balance for June 30, 2018.

Revenues. Through December 31, 2017, the City has collected $66.8 million in General Fund revenue, which represents approximately 55% of the amended General Fund revenue budget. The majority of property tax revenue is received in December and January when tax bills are due. At the end of December, the City had collected 74% of budgeted property tax revenue. The City has received four months of sales tax revenue this fiscal year, and collections are up 5.5% compared to the prior fiscal year, which is slightly ahead of the budgeted growth rate of 5.0%. Intergovernmental revenue, which is heavily influenced by trends in state utility tax collection, is projected to come in slightly under budget. Revenue from Development Service fees is trending slightly lower than in the prior fiscal year, and currently stands at 41% of budget. Based on seasonal construction patterns, revenues typically increase in the third quarter, and it is estimated that total annual revenue is trending at 90% of budget. Overall, Budget staff is currently projecting that **FY 2017-18 General Fund revenue will finish the year at $120.2 million, which is $710,000 or 0.6% above the revised budget.**

Expenditures. General Fund expenditures through December 31, 2017 totaled $55.2 million or 45% of the amended budget, which is typical for this point in the fiscal year. Personnel expenses, the largest component of the General Fund budget, are on budget through the first two quarters. Overall, staff is projecting that **FY 2017-18 expenditures will finish the year at $120.1 million.**

Fund Balance. The City began FY 2017-18 with an unassigned fund balance of $20.1 million, net of the $1,181,000 fund balance appropriation included in the adopted budget. Unassigned fund balance at June 30, 2017, equated to 16.6% of the adopted FY 2017-18 budget. After the start of the fiscal year, City Council approved the additional $441,000 fund balance appropriation noted above. This additional appropriation is reflected in the amended 12/31/2017 budget, which shows an unassigned fund balance of $19.6 million or 16.2% of budgeted expenditures. It should be noted that the 12/31/2017 budget does not include the $75,000 fund balance appropriation that City Council approved at its January 23, 2018 meeting for grant matches in the Transportation Department, nor does it include the $461,212 fund balance appropriation for additional storm control materials that City Council approved at its February 13, 2018 meeting. Staff, however, has included an allowance for those items in the year-end expenditure estimate even though they are not included in the 12/31/2017 budget.

Based on current projections for FY 2017-18 (above), staff is forecasting that revenues will exceed budget and expenses will come in under budget by sufficient amounts to offset the budgeted uses of fund balance, including the amendments (page 1). Currently, actual revenues are projected to exceed actual expenses at year end by $118,255. Assuming this trend continues during the second half of FY 2017-18, unassigned fund balance at June 30, 2018 will equal $21.4 million or 17.8% of estimated expenditures."

D. 12-MONTH UPDATE ON REVIEW PROCESS FOR LEVEL III PROJECTS

Director of Planning & Urban Design Todd Okolichany provided Council with the following 12-month update:

"A one year update following the adoption of changes to the review process for Level III projects.

On February 14, 2017, the Asheville City Council approved a zoning text amendment to the Unified Development Ordinance (UDO) concerning the method for reviewing larger scale Level III developments. This amendment along with more recent wording adjustments concerning lodging uses has resulted in the following development review thresholds:

1) Changes to the Level III development review thresholds city-wide.

Outside the CBD:	Developments 100,000 s.f. or larger, 50 or more residential units Hotel uses including short term vacation rentals
Inside the CBD-:	Developments 100,000 s.f. or larger Buildings 100 feet tall or taller Hotel uses including short term vacation rentals

2) Clarifying that Level III development is a use that is only allowed in an *Expansion District* which is reviewed as a conditional zoning application. With a conditional zoning City Council and the developer agree to a specific set of conditions for project approval.

3) Creation of new floating zoning districts called *Expansion Districts* for large scale projects with specific development standards for each. The expansion districts include:

7-8-40 Central Business Expansion District
7-8-41 Institutional Expansion District
7-8-42 Commercial Expansion District
7-8-43 Residential Expansion District
7-8-44 Industrial Expansion District
7-8-45 Lodging Expansion
7-8-46 Mixed Use Expansion

Since the adoption of the UDO changes to establish the Level III thresholds there have been six applications requesting a rezoning to an Expansion District Conditional Zone:

390 Airport Road for a Lodging Expansion CZ application for a new hotel with 112 guest rooms. Approved by City Council on 1/23/18.

153 Smokey Park Highway for a Commercial Expansion CZ application for a new Ingles Market and associated commercial development. Approved by City Council on 1/23/18.

95 Roberts Street for a Lodging Expansion CZ application for a new hotel as an adaptive reuse of a historic structure with 70 guest rooms with additional commercial space. Approved by City Council on 10/24/17.

49 Tunnel Road for a Lodging Expansion CZ application for the Candlewood Hotel with 103 guest rooms. Approved by Council on 8/22/17.

175 Lyman Street for a Mixed Use Expansion CZ application for the Stoneyard Apartments project with 133 apartments and commercial space. Approved by Council on 11/14/17.
1500 Tunnel Road for a Lodging Expansion CZ application for the Hotel Krish with 86 guest rooms. Approved by City Council on 7/25/17.

Conditional zoning applications require a large amount of communication between the developer(s) and staff as a proposal works its way through the review process. Although the conditional zones are underlying zoning districts with specific development standards, the development conditions concerning the proposal must be agreed to by both the developer and City Council. In addition there is some benefit to the fact that Council may learn about a project through dialogue with the developer prior to the actual public hearing. The conditional zoning application provides a level of customization while maintaining compliance with the Comprehensive Plan.

Some of the initiation of the wording change was in response to the growth of lodging uses in downtown which was coupled with the previously allowed larger review thresholds in the Central Business District zoning district. As with any new development review process there have been discussions with developers and community members to share the specific aspects of the changes.

This report is informational only."

E. CITY COUNCIL STRATEGIC PRIORITIES UPDATE

City Council was provided with an update on their Strategic Priorities.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-57 - RESOLUTION ON GUN VIOLENCE PREVENTION

Mayor Manheimer read the following resolution on gun violence prevention: "WHEREAS, more than 150,000 students attending more than 170 primary and secondary schools have experienced a shooting on campus since the Columbine High School massacre in 1999; and WHEREAS, from Columbine to Virginia Tech to Sandy Hook to Parkland, the lives of hundreds of students and school employees have been lost to the plague of gun violence; and WHEREAS, on average, nearly two dozen children are shot each day in the United States; and WHEREAS, the City of Asheville is committed to the health and safety of students, school employees, and all residents; and WHEREAS, it is the City of Asheville's highest priority to create and maintain a respectful and healthy environment and the City is therefore, committed to reduce gun violence and fatalities. Doing so is necessary to helping all children thrive and remain safe at home, in school and throughout life; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City of Asheville calls upon the United States Congress and state legislatures to prioritize the protection of students and school system employees and all city residents by all means necessary, including but not limited to enacting legislation in furtherance thereof beginning with a ban on the manufacturing, transferring and possession of assault weapons."

Mayor Manheimer said that she is a part of a Mayor's Coalition Against Illegal Guns and personally hoped that the Congress would act immediately to reinstate the ban on assault weapons.

The following individuals spoke in support of the resolution, including the following suggestions: (1) install metal detectors in every school (with parents and civic groups helping fund the detectors); (2) every school should have a threat assessment and a highly trained security officer; (3) schools need more counselors; (4) examination on reporting and follow-up procedures so improvements can be made; (5) raising the legal age for any gun sale, not just handguns and higher caliber rifles, including gun shows and second hand sales, from 18 to 21; (6) mandate a 10-day waiting period for the purchase of any firearm in the United States; (7) allow for temporary restraining orders to be enacted that can remove or prevent the subject of petition from purchasing firearms; (8) require background checks which include school disciplinary records and mental health examinations; and (9) tackle the nationwide ban of assault weapons:

Ms. Charlene Thibodeau
Ms. Jaime Cummings
Ms. Caroline Bowers, Senior at TC Roberson
Mr. Sean McDowell, Senior at TC Roberson
Mr. Will Thibodeau
Ms. Eva Ritchey

Mayor Manheimer said that she will be discussing this topic with the Superintendent of Asheville City Schools and the Police Chief, noting that it's the School Board's decision about safety around schools.

Mayor Manheimer also noted that cities and counties in North Carolina have very limited authority over gun control. In fact, not long ago legislation was passed to allow concealed carry in City parks. We had to change our ordinance and signs to conform to state law. City Council adopted a resolution in protest. She will be closely monitoring this issue.

Councilman Young Moved for the adoption of Resolution No. 18-57. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 298

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

The following individuals explained there there is a differential treatment of uber drivers vs. other commercial transportation drivers, noting problems with this at the Airport. They asked City Council require uber drivers to obtain a Certificate of Public Convenience and Necessity for each vehicle the same as other services that provide transportation with a vehicle for a fee must provide, or do not require the Certificate for any business that provides that service (i.e. a limousine transportation service):

Mr. William Paulk
Mr. Harry Siegel
Ms. Eva Ritchey

At the request of Mayor Manheimer, City Attorney Currin said that there are significant restrictions on regulating uber because they have statutory protection; however, she will research Council's options and report back to City Council.

Mr. Casey Campfield and Ms. Elizabeth Schell made statements claiming homophobic and racist comments by the Rev. Billy Graham.

Mr. Bill Robinson spoke about the need to find new ideas to protect the homeless in Asheville.

Closed Session

At 6:47 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:18 p.m., Vice-Mayor Wisler moved to come out of closed session. This motion was seconded by Councilman Haynes and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 7:18 p.m.

Magdalen Bulleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – March 5, 2018 - 5:30 p.m.

Special Meeting - Use of Force Incident Involving Former Asheville Police Senior Officer Christopher Hickman

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Mayor Manheimer opened the meeting at 5:30 p.m.

On behalf of City Council, Mayor Manheimer apologized to Mr. Johnnie Jermaine Rush for his experience with Asheville Police officers on August 24, 2017. She expected to reach out to Mr. Rush personally, beyond a written apology.

Regarding the Asheville Police Department (APD) excessive use of force incident, there is a hotline for anyone to call who wants to share comments, thoughts or feelings about the August, 2017, APD use of force incident. All recorded documents will be mailed to the Citizens-Police Advisory Committee members before their meeting on Wednesday, March 7, 2018, at 5:30 p.m. at the Dr. Wesley Grant Sr. Southside Center.

Mayor Manheimer said that today the City Attorney filed a lawsuit on behalf of the City Council seeking to make public any additional videos of the incident involving Mr. Rush. There are other body-cam videos worn by other officers and under state law City Council can't view them nor can they make them public unless we get a court order.

She said the purpose of the closed session will be to enable City Council to make public personnel matters that until this point they have not been able to. There is a statutory process we can use, under circumstances like this, to make this information public. Immediately following the closed session, City Manager Jackson will make a statement and provide everyone with a copy of a memorandum which gives a very detailed timeline of events concerning this matter. The information provided will be made available on the City's website. Hopefully it will address a lot of questions heard in the community.

She said that City Council will not take public comment at this time but most of City Council will be at the Citizens-Police Advisory Committee meeting on March 7 so they will be able to hear directly from our community. City Council will be taking further action on this matter. City Council will adjourn from closed session.

At 5:37 p.m. Councilwoman Smith moved to go into closed session (1) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee; or to hear or investigate a complaint, charge, or grievance by or against an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. §143-318.11 (a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of this State or the United States, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S.

143-318.11(a)(1); and (4) To plan, conduct, or hear reports concerning investigation of alleged criminal misconduct. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(7). This motion was seconded by Councilman Young and carried unanimously.

City Manager Jackson then read the following memorandum dated March 5, 2018, from himself to the Asheville City Council: (note: exhibit attachments can be found in the City Clerk's Office files)

"On February 28, 2018, the Asheville Citizen-Times published body-worn camera footage, recorded shortly after midnight on August 25, 2017, which showed an APD officer, Christopher Hickman, using excessive and dangerous force to arrest a man named Johnnie Rush who Hickman and an officer in training, Vinero Ruggerio, had stopped near Biltmore Avenue. The use of force shown in the recordings is, understandably, a source of great anger and concern within the community.

"I am concerned that the public does not presently have access to all of the information necessary for it to judge the City's response to this officer's actions, and that absent that information, this matter will continue to negatively impact the community's perception of its police department and the way which the City responds to misconduct by its employees. The City Council has also directed that all information about this matter that can lawfully be shared should be provided to the public immediately. It is, therefore, my conclusion, with City Council's agreement and support, that the following information concerning this matter, provided to me by the APD, should be made available to the public.

"On August 25, 2017, the Asheville Police Department ("APD") received a complaint by Johnnie Rush alleging that an APD Officer used excessive force during his arrest the previous evening. That same day, upon reviewing the same body-camera footage of the arrest that the public has now seen, Chief Hooper ordered that Hickman's law enforcement authority be suspended, and that he be taken off the street and placed on administrative duty. Hickman was ordered to turn in his badge and gun, and had no further interaction as a police officer with the public. Also that same day, Ruggerio, the trainee in the recording, was reassigned to a different training officer. Chief Hooper informed John Maddux from the City Attorney's Office about the incident on August 25, 2017, and within days informed Interim Assistant City Manager Jade Dundas as well.

"On September 15, 2017, the APD took a copy of the recording to District Attorney Todd Williams for review. Upon reviewing the recording, Mr. Williams agreed with the APD that all charges then pending against Mr. Rush should be dismissed. A copy of the voluntary dismissal filed with the court is attached as Exhibit 1. At that time, Mr. Williams was informed that the APD's Professional Standards unit was conducting an administrative investigation into the matter.

"In addition to ordering an administrative investigation regarding Hickman's use of force against Mr. Rush, Chief Hooper also ordered a review of all available footage captured by Hickman's camera during all other encounters with the public. This was a substantially more comprehensive review than is typically required by the APD's auditing process, whereby a supervisor reviews only a random sample of an officer's recordings each month to ensure they are following policy. This more comprehensive review of Hickman's recordings, which required personnel to review more than fifty-eight (58) hours of footage, revealed four other instances where Hickman displayed discourteous and rude conduct to members of the public, although no complaints had been filed related to those instances. The Professional Standards unit, in turn, initiated an additional administrative case focused solely on whether Hickman's rude and discourteous behavior in those other instances constituted a violation of the APD's policies requiring that officers treat members of the public with respect and courtesy, and avoid any action which might bring discredit on themselves or the department.

"The APD's new use of force policy, which went into effect in April of 2017, requires that a supervisor respond to every use of force by an APD officer and conduct a preliminary investigation. That preliminary investigation should include, at a minimum, obtaining, or attempting to obtain, a statement from the subject of the force or injury and all witnesses at the scene; and, when applicable, photographing all areas of contact located on the subject to document the injuries or lack of injuries. During the course of its investigation into whether Hickman had used excessive force, the APD's Professional Standards unit learned that a supervisor responded to the scene that night to initiate a review of Hickman's use of force as required by APD policy. That supervisor, however, despite being told by Hickman that he struck Mr. Rush in the head with his Taser, and despite Mr. Rush saying that he was choked, did not immediately forward any information or complete notes of those interviews with Hickman and Rush, and did not review the body camera footage that evening. Because of conduct related to this incident, that supervisor ultimately received discipline for unsatisfactory performance, and was ordered to undergo additional training.

"The administrative investigation into Hickman's arrest of Rush concluded that Hickman had engaged in excessive force in violation of APD policy, as well as unbecoming conduct and failing to meet the responsibilities of duty. The additional administrative investigation, which was initiated following review of all other available body-worn camera footage recorded by Hickman, also concluded that Hickman had engaged in rude and discourteous behavior on four other occasions. Both administrative cases were complete and sent to the Division Commander for review on or about December 15, 2017, followed by a Deputy Chief's review which was complete on December 17, 2017. After reviewing the administrative cases, Chief Hooper ordered that the Professional Standards unit contact Hickman to schedule a pre-disciplinary conference, which is required by City policy. Hickman received notification of that pre-disciplinary conference on December 27, 2017, and per standard procedure, was placed on investigative suspension that same day. Hickman's pre-disciplinary conference with Chief Hooper took place on January 2, 2018. Following that pre-disciplinary conference, it was Chief Hooper's decision that Hickman's employment would be terminated. On January 5, 2018, Chief Hooper met with Hickman to inform him of her decision to terminate his employment, however, at the beginning of that meeting, Hickman elected to resign before Chief Hooper provided Hickman with her written decision to terminate. A copy of the termination notice, which was drafted but not presented to Hickman, is attached as Exhibit 2.

"The APD's administrative investigation of Mr. Rush's complaint complied with all required steps and procedures set forth in APD and City policies governing allegations of employee misconduct, including those policies which apply to claims of excessive force. Per APD policy, the department makes every effort to fully investigate all complaints within sixty (60) days of reception of the complaint. More complex investigations handled by the Professional Standards unit may, and often do, require additional time beyond the sixty days to complete. The investigation of this matter, due to its complexity, took approximately three and a half months to complete. Failure to follow the City's internal policies could result in substantial risk, including reinstatement by the Civil Service Board, if the officer is terminated.

"Prior to Hickman's resignation, on December 19, 2017, Chief Hooper requested that District Attorney Williams review the recording a second time, together with an additional recording captured by another officer's camera, and provide an opinion about whether Hickman's conduct rose to the level of a criminal offense. After his further review, on January 10, 2018, Mr. Williams requested that the APD ask the SBI to initiate a criminal investigation as to whether Hickman had committed assault. A copy of District Attorney Williams' request to the APD is attached as Exhibit 3. On January 11, 2018, Chief Hooper sent the SBI a letter making that request. A copy of the APD's letter to the SBI is attached as Exhibit 4. On January 12, 2018, the SBI wrote the APD an email stating, in part, that, "The SBI is going to respectfully decline the request based on the completion of your four month internal investigation which has led to the

resignation of Officer Hickman." A complete copy of the SBI's email is attached as Exhibit 5. Following the SBI's refusal to investigate, Mr. Williams then requested that the APD conduct the criminal investigation instead. By law, information gained through an administrative investigation cannot be used to prosecute someone for a criminal violation. For that reason, on January 18, 2018, Chief Hooper assigned the criminal case to a detective in the APD's criminal investigations division to conduct a separate inquiry that could be used to charge Hickman with a criminal offense if the District Attorney so chose. That investigation is now nearly complete. Barring any unexpected developments, the APD expects to submit the case to the District Attorney within the next week to determine whether Hickman should be criminally prosecuted, which is the District Attorney's decision.

"The community deserves to know that the City takes Hickman's misconduct seriously, and that APD employees who engage in excessive force will be held accountable. For that reason, per N.C. Gen. Stat. § 160A-168(c)(7), I have determined that the release of the information contained in this document is essential to maintaining public confidence in the administration of city services, and request that the City Council concur in this decision. This fully accords with the strong direction I have received from the City Council that in all matters, especially those involving police, the City should be as transparent as possible to its citizens. City Council's concurrence includes that if I determine, at a later date, that the release of additional information is necessary to clarify or explain the reason for any personnel action described in this document, such information may be released pursuant to this written determination without further City Council action."

At 8:45 p.m., Councilman Young moved to come out of closed session. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:45 p.m., Mayor Manheimer adjourned the meeting.

Magdalen Bourneson
City Clerk

Esther E. Manheimer
Mayor

Tuesday - March 13, 2018 - 3:00 p.m.
200 College Street

Joint Meeting with the Buncombe County Board of Commissioners

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Present: Chairman Brownie Newman, Presiding; Commissioner Jasmine Beach-Ferrara; Commissioner Al Whitesides; Commissioner Mike Fryar; Commissioner Ellen Frost; Commissioner Joe Belcher; Commissioner Robert Pressley; County Manager Mandy Stone; Senior Staff County Attorney Michael Frue; and Clerk to the Board Kathy Hughes

Mayor Manheimer and Chairman Newman called their respective meetings to order.

Chairman Newman explained the following County's six overall strategic priorities goals for key policy issues: affordable housing, diverse community workforce, early childhood education, justice resource support, opioid addiction, and renewable energy.

Mayor Manheimer briefly updated the group on the City's eight overall strategic priorities: transportation and accessibility; a thriving local economy; a well connected and engaged community; a financially resilient city; an equitable and diverse community; a well-planned and livable community; a clean and healthy environment; and quality affordable housing.

City Manager Jackson and County Manager Stone reviewed the current partnership initiatives and projects, which included, but were not limited to: (1) capital projects (a) downtown parking; and (b) East Asheville library; (2) equity efforts (a) workforce diversity; (b) community engagement and Isaac Coleman/tipping grants; (c) African American Art Project; and (d) participatory government (Let's Talk and other efforts); (3) carbon reduction/clean energy (a) internal operations; and (b) Energy Innovations Task Force; and (4) affordable housing (a) Eagle-Market; (b) Lee Walker Heights; and (c) Affordable Housing Coalition.

Discussion for potential future partnerships/joint planning was held. Topics included, but are not limited to, joint development and land use planning; cross agency protocols on use of force issues; Human Relations Commission of Asheville; extension of transit into the county; corridor projects in and out of the city; amount the County charges the City to collect property taxes; alcoholic beverage distribution equasion; and African American Heritage District.

At 4:36 p.m. Chairman Newman asked for a motion for the Buncombe County Commissioners to go into closed session.

At 4:36 p.m., Mayor Manheimer adjourned the City Council meeting.

Tuesday – March 13, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield;

Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MARCH 24, 2018, FROM 8:30 P.M. - 9:30 P.M. AS "EARTH HOUR"

Councilwoman Mayfield read the proclamation proclaiming March 24, 2018, from 8:30 p.m. - 9:30 p.m. as "Earth Hour" in the City of Asheville. She presented the proclamation to Ms. Anne Keller, member of the Sustainability Advisory Committee on Energy & the Environment, and other members, who briefed City Council on some activities taking place during the day.

B. PROCLAMATION PROCLAIMING APRIL 3, 2018, AS "NATIONAL SERVICE RECOGNITION DAY"

Councilman Young read the proclamation proclaiming April 3, 2018, as "National Service Recognition Day" in the City of Asheville. He presented the proclamation to Ms. Ann Whisenhunt, who briefed City Council on some activities taking place during the day.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON FEBRUARY 27, 2018; AND THE SPECIAL MEETING HELD ON MARCH 5, 2018

B. RESOLUTION NO. 18-59 - RESOLUTION SUPPORTING THE N.C. DEPT. OF TRANSPORTATION IN FUNDING, DESIGNING, AND CONSTRUCTING IMPROVEMENTS AT THE INTERSECTION OF US 25 (HENDERSONVILLE ROAD) AND SR 3503 (OVERLOOK ROAD) IN SOUTH ASHEVILLE

Summary: The consideration of a resolution supporting the N.C. Dept. of Transportation (NCDOT) in funding, designing, and constructing improvements at the intersection of US 25 (Hendersonville Road) and SR 3503 (Overlook Road) in South Asheville.

NCDOT staff from Division 13 identified a need to improve the subject intersection and they have worked with the residents that live along SR 3503 (Overlook Road) to make appropriate improvements. Specifically, the project includes constructing a right-turn lane with a length of 550 feet along the southbound approach of Hendersonville Road, constructing an additional left-turn lane along the eastbound approach of Overlook Road, constructing a sidewalk along the southbound approach of Hendersonville Road between Overlook Road and HomeTrust Bank, and installing a pedestrian crossing at the intersection of US 25 (Hendersonville Road) and Gold's Gym / Pinnacle Point (Publix).

The NCDOT is planning to use High Impact / Low Cost Funds for this project. This program was established in 2017 to provide funds to complete low cost projects with high impacts to the transportation system including intersection improvements, minor widening, and operational improvements. The funds are allocated equally to the 14 Divisions throughout the

state and the projects are expected to be under contract within 12 months of funding approval by the Board of Transportation. Projects that have a total cost greater than $250,000 require a resolution of support from the appropriate city, town, or county. In lieu of a resolution, a 45-day notification period is required prior to placing the project on the Board of Transportation's agenda.

Staff has requested that NCDOT incorporate a bus pad into the sidewalks on Hendersonville Road, 40 feet south of the proposed Hendersonville Road crosswalk so that the Transit Planning Division may install a southbound bus stop and have room for a future shelter.

This action will be reviewed by the Planning and Economic Development Committee (PED) on March 12, 2018, and if anything other than a unanimous approval is received, the details of the decision will be made clear to City Council at their meeting on March 13, 2018.

At the Multi-Modal Transportation Commission's meeting on February 28, they recommended this NCDOT project to move forward contingent upon the inclusion of bicycle and pedestrian infrastructure along the west side of Hendersonville Road to ensure safety and convenience for those modes.

Pros:

- The NCDOT is funding, designing, and constructing the project.
- Increases the City's inventory of completed sidewalk connections.
- Improves the pedestrian and motorist experience along Hendersonville Road.

Con:

- The City will be responsible to maintain the sidewalk after it is constructed.

There will be no initial financial impact to the City, although the responsibility of maintaining sidewalks belongs to the Public Works Department. Funds are budgeted every fiscal year for sidewalk maintenance.

Staff recommends that City Council adopt a resolution supporting the N.C. Dept. of Transportation in funding, designing, and constructing improvements at the intersection of US 25 (Hendersonville Road) and SR 3503 (Overlook Road) in South Asheville.

RESOLUTION BOOK NO. 39 - PAGE 313

C. RESOLUTION NO. 18-60 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR AND IF AWARDED, ACCEPT FUNDING FROM THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR FISCAL YEAR 2019 THROUGH FISCAL YEAR 2021 FOR APPROXIMATELY $18 MILLION IN TRANSPORTATION FUNDING

Summary: The consideration of a resolution authorizing the City Manager to apply for and if awarded, accept funding from the French Broad River Metropolitan Planning Organization (MPO) for Fiscal Year (FY) 2019 through FY 2021 for approximately $18,000,000 in transportation funding.

This grant will fund three significant sidewalk projects, two greenway projects, six replacement buses, and four expansion buses. This item was reviewed and approved by the Planning and Economic Development Committee on February 12th and the Finance Committee on February 27th.

In January 2018 the MPO issued a call for projects as part of the Surface Transportation Block Grant Direct Attributable (STBG-DA) program. These federal funds are awarded on a competitive basis through a call for projects that is typically held every two years.

The total available amount of funding in this grant cycle for the three-county MPO area is $21,400,000, to be available in FY 2019 through FY 2021. This amount is higher than the typical call for projects, which is usually about $7,000,000. The increased amount for this year is based on cash balances at the state level.

The call for projects is open to all jurisdictions in Buncombe, Henderson, and Haywood Counties. In addition, the NCDOT Division Offices may apply for the funds with the support of the affected jurisdiction.

Types of projects that are eligible for these funds include most types of transportation capital improvements. The grant requires a minimum 20% local match.

In selecting projects to be submitted for consideration, staff performed an evaluation and internal review that considered the following factors:

Community Priorities - Are the projects part of adopted plans? Have they received community support? Have they been prioritized by City Council and do they support council goals?

Transportation Benefit and Competitiveness - Do the projects advance multimodal transportation goals? Are the projects a good match for the funding source? Will the projects be competitive based on the MPO's scoring criteria?

Project Readiness - Have the projects completed significant planning, design and project development steps? Can the funds be spent within the proposed time frame? Will the projects be able to meet all federal requirements?

Fiscal Impact - Do the projects align with they City's Capital Improvement Program current budget or planning? What is the most effective way to leverage available matching funds?

Based on the above evaluation criteria, staff selected the following projects for consideration in this call for projects:

Three Major Sidewalk Projects - Sidewalk projects on Johnston Boulevard, New Haw Creek Road, and Onteora Road complete significant pedestrian connections between neighborhoods, commercial areas, schools, and services. These projects are in the Pedestrian Thoroughfare Plan and have been prioritized and promised as part of the bond program. These are some of the most complex sidewalk projects in the City's capital program. Federal funding for these projects will leverage existing funds to free up city funds and ensure that the full extent of the project can be constructed.

Two Shovel-Ready Greenway Projects - The Town Branch and French Broad River West Greenways are fully designed and permitted greenway projects that complete important links in the greenway system. The Town Branch Greenway is three quarters of a mile and will connect the river district, southside neighborhood and downtown and become part of the planned river-to-ridge greenway network. The French Broad River West Greenway is a little over a mile and connects two existing greenways. Both of these projects ranked highly in the recent community prioritization survey.

Ten New Buses - A number of ART buses are in need of replacement and these federal funds will provide the necessary federal share that is currently unfundec for FY 2019 and FY 2020 to ensure that ART is able to provide the buses needed in the replacement schedule. Consistent with city carbon reduction and climate mitigation goals, this proposal will provide six replacement buses that are zero-emission battery-electric vehicles. The request also includes four additional buses needed as expansion vehicles to implement service recommendations that are expected as part of the Transit Master Plan deliverables.

Project Name	Proposed Federal Ask	Local Match	Total Cost
Johnston Blvd Sidewalk	$1,880,000	$470,000	$2,350,000
New Haw Creek Sidewalk	$1,900,000	$475,000	$2,375,000
Onteora Rd Sidewalk	$912,000	$228,000	$1,140,000
French Broad River West Greenway	$3,840,000	$960,000	$4,800,000
Town Branch Greenway	$3,280,000	$820,000	$4,100,000
Bus Replacement (6 electric)	$4,069,180	$1,017,295	$5,086,475
Bus Expansion (4 diesel)	$1,635,860	$408,965	$2,044,825
TOTAL	**$17,517,040**	$4,379,260	$21,896,300

This item was reviewed and approved by the Planning and Economic Development Committee on February 12th, the Finance Committee on February 27th, and the Multimodal Transportation Commission on February 28th.

Pros:

- If awarded, these projects represent approximately $22,000,000 dollars of total investment into multimodal transportation infrastructure within the next three years.
- All of the proposed projects are identified capital needs that are part of existing programs and budgeting processes.
- Funds that are currently programmed or proposed will be leveraged for the best return on city investment: a $4.4M investment for $17.5M in grant funds.

Con:

- The total required matching funds are $4,379,260 and will need to be programmed in the FY 2019, FY 2020, and FY 2021.

The total required local match is $4,379,260 over a three year period. Some of these expenditures are already budgeted in the adopted Capital Improvements Program. In particular, the three sidewalk projects have funding allocated as part of the bond program. The match for the bus replacement and bus expansion have already been anticipated and are currently being considered in the FY 2019 budgeting process. The two greenway projects do not currently have any programmed city funding.

It should be noted that the MPO may choose to fund only some of the proposed projects. The specific fiscal impact will be different for each potential subset of projects.

Staff recommends that City Council adopt a resolution authorizing the City Manager to apply for and, if awarded, accept funding from the French Broad River Metropolitan Planning Organization for FY 2019 through FY 2021 for approximately $18,000,000 in transportation funding.

RESOLUTION BOOK NO. 39 - PAGE 314

D. ORDINANCE NO. 4657 - BUDGET AMENDMENT FOR THE U.S. CELLULAR CENTER TO REFLECT UPDATED FISCAL YEAR 2017-18 REVENUE AND EXPENSE PROJECTIONS

Summary: The consideration of a budget amendment, in the amount of $725,000 from U.S. Cellular Center Operating Revenue, to increase the U.S. Cellular Center Fund budget to reflect updated Fiscal Year 2017-18 revenue and expenditure projections.

The U.S. Cellular Center event load in Fiscal Year 2017-18 has been significantly higher than initially forecasted during last year's budget process as numerous large scale events have been added to the schedule since budget planning was completed. Both revenues and expenses are now on pace to exceed budget with collected revenues expected to exceed budgeted revenues by the end of the third quarter of the fiscal year. Staff is recommending that the U.S. Cellular Center Fund budget be increased by $725,000. It is anticipated that concessions and other show related revenues will cover all additional expenses; therefore, no additional transfer from the General Fund is required at this time. The U.S. Cellular Center has several events scheduled before June 30, 2018 that are expected to generate significant revenues.

This item was approved by the Finance Committee on February 27, 2018, and they recommended it be moved forward to City Council for consideration.

Pros:

- Provides sufficient budget authorization for anticipated expenditures in the U.S. Cellular Center Fund without increasing the General Fund transfer.

Cons:

- There is a slight chance that year-end revenues could fall short of current estimates if ticket sales are less than expected or concession revenues are lower, however in this case expenses needs will be reduced as well.

As noted above, this budget amendment is funded with U.S. Cellular Center operating revenues that will exceed original budget estimates. Therefore, there is no expected impact to the City's General Fund budget.

Staff recommends City Council adopt a budget amendment to increase the U.S. Cellular Center Fund Budget by $725,000 to reflect updated Fiscal year 2017-18 revenue and expenditure projections.

ORDINANCE BOOK NO. 32 - PAGE 17

E. RESOLUTION NO. 18-61 - RESOLUTION SUPPORTING THE SOLE SOURCE PURCHASE OF BUSES AND RELATED CHARGING EQUIPMENT FROM PROTERRA INC. TO COMPLY WITH FEDERAL TRANSIT ADMINISTRATION-APPROVED LOW OR NO EMISSION VEHICLE GRANT PROGRAM PROVISIONS

Summary: The consideration of a resolution supporting the sole source purchase of

buses and related charging equipment from South Carolina-based, Proterra Inc to comply with Federal Transit Administration-approved Low or No Emission Vehicle Grant program provisions.

In September 2017, the City's Transportation Department won a highly-competitive grant to purchase zero-emission buses through the Federal Transit Administration's (FTA) Low or No Emission Vehicle Program. The City of Asheville was selected as the only award recipient in North Carolina and was granted $633,333. This grant, combined with others intended for transit capital purchases, will allow the City to purchase five zero-emission, battery-electric buses.

The FTA guidelines for the grant allow for agencies to submit an application in partnership with other entities that intend to participate in the implementation of the project, including, but not limited to, specific vehicle manufacturers, equipment vendors, owners or operators of related facilities, or project consultants. Further, FTA states that if an application that involves such a partnership is selected for funding, the competitive selection process will be deemed to satisfy the requirement for a competitive procurement under 49 U.S.C. 5325(a) for the named entities.

In the grant application, Asheville partnered with Proterra Inc, and is therefore moving forward with administerial requirements to be able to contract with Proterra Inc for five electric buses and associated chargers.

Pros:

- Proterra is a leading manufacturers of battery-electric buses
- This action ensures compliance with FTA-approved grant award for zero-emission buses

Con:

- None

On January 9, 2018, City Council approved a budget amendment for the purchase of five electric buses and related charging equipment. The current action is administerial and does not affect the budget.

Staff recommends that City Council adopt a resolution supporting the sole source purchase of buses and related charging equipment from Proterra Inc to comply with FTA-approved Low or No Emission Vehicle Grant program provisions.

RESOLUTION BOOK NO. 39 - PAGE 315

F. RESOLUTION NO. 18-62 - RESOLUTION AUTHORIZING THE CITY MANAGER EXECUTE A UTILITY CONSTRUCTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR THE UPPER GRASSY BRANCH EXTENSION BRIDGE NO. 686 WATERLINE RELOCATION PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a Utility Construction Agreement with the N.C. Dept. of Transportation (NCDOT) for the estimated amount of $81,580 plus a 10% contingency for a total project budget of $89,738 for the Upper Grassy Branch Ext. Bridge No. 686 Waterline Relocation Project.

The NCDOT is moving forward in an effort make street and highway improvements to Bridge No. 686 over Upper Grassy Branch Ext. in Buncombe County. The City of Asheville owns and maintains municipal water lines within the right-of-way of the project area. As a condition of the installation, operation and maintenance of said waterlines within the NCDOT right-of-way, the City of Asheville Water Resources Department is responsible for 100% of the cost associated with adjustment or relocation of said waterlines should the need arise. For the purpose of

construction coordination and efficiencies, the City of Asheville Water Resources Department wishes to enter into this Utility Construction Agreement with NCDOT, which allows the waterline utility work to be performed as part of the NCDOT's construction contract. NCDOT has estimated that the cost of the relocation and adjustment of municipally owned water lines for this project will be $81,580. Although the amount is within the City Manager's authority to execute without City Council approval, the NCDOT requires board approval for all municipal projects.

Pros:

- Execution of the agreement allows the City of Asheville Water Resources Department to meet its obligations to NCDOT for the adjustment or relocation of municipal water lines within the NCDOT right-of-way.
- Execution of the agreement allows the required adjustment or relocation of municipal water lines to be performed under the NCDOT construction contract, which will provide construction efficiencies producing cost savings and allow construction schedules to be met.

Cons:

- Failure to execute the agreement hinders the City of Asheville Water Resources Department's ability to meet obligations to NCDOT for the adjustment or relocation of municipal water lines within the NCDOT right-of-way.

- Failure to execute the agreement prevents the required adjustment or relocation of municipal water lines from being performed under the NCDOT construction contract. This will create difficulties with construction coordination, create a lack of efficiencies and add to the overall cost of the construction.

The funding needed for this agreement is currently allocated within the NCDOT Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Utility Construction Agreement with the N.C. Dept. of Transportation for the estimated amount of $81,580 plus a 10% contingency for a total project budget of $89,738 for the Upper Grassy Branch Ext. Bridge No. 686 Waterline Relocation Project.

RESOLUTION BOOK NO. 39 - PAGE 316

G. RESOLUTION NO. 18-63 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH ROGERS GROUP INC. FOR THE YEAR 2 BOND RESURFACING PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,831,450.45 plus a contingency of 20% ($366,290.09) with Rogers Group, Inc. for the project called Year 2 Bond Resurfacing, City of Asheville Project Number X-1711.

The streets were identified as a bond improvement projects and this contract will address pavement and sidewalk issues. The project was advertised on December 13, 2017. Bids were opened on January 31, 2017, with the following results:

Rogers Group, Inc. of Nashville, TN	$1,831,450.45
French Broad Paving, Inc. of Marshall, NC	$1,979,911.50
Harrison Construction Company of Knoxville, TN	$2,265,071.35

A 20% contingency ($366,290.09) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work

produced from this contract would fix the roadway and sidewalk sections that are in need of repair.

Pros:

- The contract will resurface approximately 3.2 miles of City streets.
- Will address brick sidewalk issues on All Souls Crescent.
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

Funding is coming from the 2016 General Obligation Bond approved by the citizens of Asheville November, 2016. The total cost of this contract, including contingency, is $2,197,740.54.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract with Rogers Group, Inc. in the amount of $1,831,450.45 plus a contingency of $366,290.09 (20%) for Year 2 Bond Resurfacing.

RESOLUTION BOOK NO. 39 - PAGE 317

H. ORDINANCE NO. 4658 - BUDGET AMENDMENT TO REFLECT ADDITIONAL AMOUNTS AWARDED BY THE STATE DIVISION OF AGING AND ADULT SERVICES, HOUSING AND HOMELESS UNIT

Summary: The consideration of a budget amendment, in the amount of $39,856 in the City's Special Revenue Fund, to reflect additional amounts awarded by the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

ESG funds are made available from the US Department of Housing and Urban Development through the State of North Carolina Division of Aging and Adult Services (DAAS). The City of Asheville has been the fiscal sponsor for Emergency Solutions Grant funding since 2012 to fund local agencies working to address homelessness.

The initial 2017-18 budget for ESG was based on the previous year's original award of $113,354. For the FY 2017-18 funding competition, the community was eligible for $123,460 and received the full award. The City was then granted an additional $8,000 for administrative costs. In February, DAAS released surplus funds to current grantees and awarded $21,750 to local Emergency Shelters.

The budget of $153,210 reflects the following final 2017-18 ESG awards from the State of NC DAAS:

2017-18 Emergency Solutions Grant Awards						
	Emergency Shelter	Homelessness Prevention	HMIS	Administration	Additional Award	**Total**
Helpmate	$28,500				$14,250	**$42,750**
City of Asheville			$10,000	$8,000		**$18,000**
Homeward Bound of WNC		$64,594				**$64,594**

Salvation Army	$20,366				$7,500	**$27,866**
Total	**$48,866**	**$64,594**	**$10,000**	**$8,000**	**$21,750**	**$153,210**

Pro:

- The Emergency Solutions Grant program is a key funding resource for emergency shelter and housing stabilization for persons experiencing homelessness.

Con:

- None noted.

Program funding is entirely from the US Department of Housing and Urban Development, through the State of North Carolina. Existing Community Development Division staff will administer the program. No general funds are requested to support this program.

Staff recommends approval of the budget amendment in the amount of $39,856 in the City's Special Revenue Fund for Emergency Solutions Grant funds awarded by the State Division of Aging and Adult Services (DAAS), Housing and Homeless Unit.

ORDINANCE BOOK NO. 32 - PAGE 19

I. RESOLUTION NO. 18-64 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH EQUINOX ENVIRONMENTAL TO CREATE A TREE AND RIPARIAN ENHANCEMENTS PLAN

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Equinox Environmental to create a Tree and Riparian Enhancements Plan for the amount of $50,000.

In May of 2017, The City of Asheville was awarded $60,000 from the Duke Water Resources Foundation in order to improve water quality and engage the community through development of a riparian restoration plan and creation of educational interpretive signage.The City issued a Request for Qualifications (RFQ) to create a Strategic Tree and Riparian Plan in January. The City received five submittals, and after a thorough review and evaluation, staff ranked and recommended Equinox Environmental and their team as the most qualified.

$50,000 of the $60,000 grant will be used to fund this project. $10,000 from the grant has been set aside to work with UNC-Asheville staff and faculty to facilitate the creation of educational signage, and have STEAM students fabricate and install in the RADTIP project area. This project will be completed by June 2018. Public input meetings will be held on April 17, 18, and 22nd of April.

Pro:

- This project is 100% grant funded and helps implement Council and community vision.

Con:

- None.

No impact. Funding for this project is 100% from grant funds. A budget amendment has already been authorized by Council, as part of approving the City's grant application.

Staff recommends City Council adopt the resolution authorizing the City Manager to execute a contract with for an amount not to exceed $50,000.

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Kapoor moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. ASHEVILLE MUSEUM OF SCIENCE

Ms. Anna Priest, Executive Director of the Asheville Museum of Science (AMOS), explained that they are Western North Carolina's home for experiential science learning, discovery, and exploration. AMOS strives to spark the imagination and foster lifelong curiosity. She provided statistics of visitors served and how they are serving the community's needs. She explained some of the important partnerships for AMOS being (1) served over 1,200 city students in 2017 through formal science education programming; (2) AMOS (and formerly Colburn Earth Science Museum) has provided science education to City school students for over 25 years; (3) partners with Asheville City Schools to help close the achievement gap; (4) provided free STEM and astronomy programs to over 600 preschoolers so far in Fiscal Year 2017-18 through a partnership with Buncombe County; and (6) provides early childhood STEM programs in support of workforce and economic development.

AMOS co-hosted Asheville's 2017 solar eclipse festival with City of Asheville Schools, Buncombe County Schools and UNC-Asheville. AMOS gave away over 4,000 eclipse glasses to various organizations.

She explained how AMOS is involved with the City of Asheville Afterschool programs and the City of Asheville Youth Leadership Academy.

Ms. Priest then reviewed past municipal support for the Colburn Earth Science Museum and AMOS, noting that AMOS is now paying substantial higher rent and utilities at their new location to remain a safe, family-friendly education center in the heart of downtown. She showed a chart of current AMOS support breakdown with average comparison, noting that according to data from the North Carolina Science Museums Network, nearly all Science Centers in North Carolina receive significant funding from City or County for a portion, if not all, facility expenses.

Councilwoman Mayfield said this is an important piece of Asheville and hoped we can consider how and whether to address their funding. AMOS did not come in for Strategic Partnership Funding this year because they didn't quite fit the mold for those funds. Ms. Priest then asked that this be added as part of the Council's budget discussion.

B. RACIAL JUSTICE COALITION

Mayor Manheimer said that this is the time for City Council to listen to the community. On March 20, 2018, at 2:00 p.m., City Council will be holding a worksession in the Council Chamber, part of which will be devoted to the budget, and the other part will be devoted to this issue.

Current Co-Chair of the Racial Justice Coalition Gerry Leonard and Immediate Past Co-Chair of the Racial Justice Coalition James E. Lee III provided City Council with some recommendations. Below are their comments:

"Mayor, Vice Mayor, members of City Council - thank you for providing the Racial Justice Coalition the opportunity to present some considerations during the agenda. My name is James Lee, previous Co-Chair of the Racial Justice Coalition. The Racial Justice Coalition appreciates the thoughtfulness of the City Council by asking us to speak during the "Presentations" portion of today's agenda; however, we also want to raise and acknowledge the other individuals, grassroot groups, and other organizations that will be speaking later.

My name is Gerry Leonard. I'm the Racial Justice & Outreach Specialist of YWCA Asheville, Co-Chair of Building Bridges of Asheville and current Co-Chair of the Racial Justice Coalition. The Racial Justice Coalition includes representatives from organizations in Asheville and Buncombe County dedicated to racial justice. The RJC comes together in commitment to racial equality and to advocate for the rights of People of Color. The RJC consists of: ACLU of Western North Carolina, Asheville-Buncombe Branch of the NAACP, ABIPA, Asheville City Schools Foundation, Building Bridges of Asheville, Carolina Jews for Justice, Children First/Communities in Schools, Christians for a United Community, Democracy North Carolina, Elders Fierce for Justice, Mountain People's Assembly, Residents Council, and YWCA Asheville.

The RJC's vision is to mobile and energize existing organizations doing racial justice work to become a national model for best practices and improved police-community relations in Asheville and Buncombe County. This group came together in December of 2014, after the tragic events in Ferguson, Missouri, that prompted a group of organizations to seek out allied partners committed to racial justice. The thought was that together, a coalition of organizations could have a more unified voice in responding to these tragedies, and more importantly, preventing such a tragedy in Asheville and Buncombe County. Unfortunately, we continue to see issues of racial profiling and systemic racism show up within our policing in Asheville.

After Jerry "Jai" Williams was shot in July 2016, tensions within the Asheville community, specifically the Black community was never healed nor reconciled. Then in September of 2016 Officer Oza was caught on video slamming a 16-year-old Black girl to the ground. Then in February of 2017, the same officer was captured on video threatening to take a group of Black teenagers to jail while holding an AR-15. It emerged later, had a BB gun.

Now, with the sickening and disheartening incident of an APD officer harassing, beating and tasing Johnnie Rush - it is reminiscent of thousands that have taken place across the country and also right here in Asheville against Black and Brown lives - in this case, for jaywalking. The incident depicts racist application of excessive and unnecessary force. It is contrary to the Asheville Police Department 's recently adopted revised policy on excessive use of force and de escalation training that the Racial Justice Coalition worked with APD on, that included other community members. The incident clearly proves that written policies and training are not enough. There is a need for strong measures of accountability to ensure that actions coincide with policy and training.

Here are the following recommendations we hope to make City Council:

1. Before we can talk solutions, policies, training, we hope that you can provide Mr. Johnnie Rush with trauma-informed care for this incident. If we want to see systematic change then we need to see action behind that change. Mr. Rush should not incur this responsibility on his own. He did not create this situation and therefore should not be required to recover from it on his own. If Mr. Rush's wish is to be left alone, then the City of Asheville should do everything

they can to accommodate his needs and to treat him as you would expect your son, daughter or family member to be treated.

2. We want to lift up the efforts of Dee Williams and the NAACP Criminal Justice Committee and their work with Ian Mance with the Southern Coalition for Social Justice. We want to revisit and recommend the policy revisions around written consent for searches and deprioritizing regulatory stops. These efforts at the time they were presented may have seemed unnecessary; however, if they would have been in place could this situation have been avoided? Fayetteville, NC is currently utilizing written consent for searches and it could be helpful for our City staff to work with those organizations that initially recommended these policy changes to explore the validity of implementing them here in Asheville.

3. We want to lift up the efforts of Nicole Townsend, Carmen Ramos-Kennedy, and other grassroots efforts not only here in Asheville, but in the State, by encouraging support from our City Council for House Bill 165 that went to the General Assembly in 2017 in reference to establishing citizens review boards that have decision making power. We've seen this bill being pushed by Charlotte, Durham, and Greensboro and is in need of support from a coalition of cities in North Carolina in order to gain momentum. We recommend passing a resolution 'for the City of Asheville to call upon our Elected Officials on the state level to introduce this bill.'

4. We recommend an improved complaint process. There needs to be increased accessibility by informing citizens of how and when they can access the complaint process. Perception is reality, and the current perception is that law enforcement cannot be trusted for our community, and specifically for communities of Color, to be able to voice their concerns and issues in a manner that will be heard. We expect this level of transparency not only on the APD website, but also in newspapers and even billboards.

5. During the Racial Justice Coalition meeting with Chief Hooper last Monday, the implementation of an unbiased policing hotline was discussed. Furthermore, the City of Asheville set up a hotline for people to share their feelings prior to last Wednesday's Citizens Police Advisory Committee meeting. We recommend instituting an unbiased policing hotline and respond to all complaints within 48 hours. We would like to see 100% documentation of calls and complaints, and report to the new Human Resources Commission about actions taken. This hotline could be broadcasted not only on the City's website, but also on the billboards and newspapers that Gerry mentioned moments ago.

6. We recommend investigating every excessive use-of-force matter as a criminal case first, and as an administrative case only secondarily after the crimir al investigation is complete. If necessary, you can pull in multiple investigators to conduct two separate cases for any and all use-of-force matters - one administrative and another as a criminal case. It is our understanding that Chief Hooper, in meeting with the organization Faith 4 Justice, has already implemented this measure.

7. We recommend complete transparency around the acccuntability of all the officers that were present during this incident. We've seen steps being taken from District Attorney Todd Williams to drop 27 cases associated with Officer Hickman. However, he was not the only officer at fault in this incident. The City recently released details and information into the use of force incident involving Officer Hickman. We recommend the same level of transparency in the handling of Sergeant Taube's internal punishment as well as the other officers on scene. It's important to the community that the message is sent to all officers is a clear one, so that this matter does not negatively impact the community's perception of its police department and the way which the City responds to misconduct by its employees.

8. We recommend a level of intentionality from the City and Asheville Police Department to include People of Color in the police trainings so that they can share their stories with new officers and experienced officers. While you cannot train your way to equity, we would like to see additional training for those officers involved in this incident and all officers in implicit bias, de-escalation, and other equity trainings that include those that are most affected by law enforcement. This provides the ability for those most affected by law enforcement to share their experience with those that will be there to enforce the law. Without hearing the experiences of those most affected by law enforcement, the training is just that - training! It is a 'check the box' kind of experience rather than a deep meaningful change that we want in our community policing model. There is a need to humanize each other and typically, as we've seen in the case with Mr. Rush, People of Color are dehumanized and devalued by officers.

9. We recommend all police officers, out of uniform, involved in community engagement. Look at ways to rebuild community trust. There are a number of organizations and grassroot groups that would be willing to facilitate sincere and authentic interactions with law enforcement and community members. However, the officers must be sincere and authentic in their motives.

10. We recommend researching and implementing ways that the Civil Service Board is equitable. For example, City Council appoints two positions of the Civil Service Board. What is one of those positions is required to be a Person of Color or a resident of the public housing community. This would ensure that there is more representation of People of Color and those that are most impacted by law enforcement that what presently exists. Had Officer Hickman not resigned, there was the potential for him to go to the Civil Service Board, and be reinstated if Chief Hooper would have terminated his employment. In the past, the Civil Service Board has not upheld the values of the community or the police department.

11. We recommend looking at City staff with how this was handled. The report came to the Assistant Manager and according to the information that has been released was supposed to go to the City Manager; however, never made its way up the chain of command. We think that these matters need to be prioritized by the City Manager and the Assistant City Managers. There is a need for review of how transparent our City staff are to both Council and the community.

The Racial Justice Coalition is organizing a candidate's forum for the Sheriff's race because we believe this is not an issue that is specific to the City of Asheville. That we also need to look at the County as well."

Ms. Carmen Ramos-Kennedy, President of the Asheville NAACP, read the following statement, with comments from Ms. Nicole Townsend:

"I invited Ms. Nicole Townsend of Southerners on New Ground to address the City Council with me because I want you, and everyone assembled, to see what activism across the spectrum looks like in this community. We both have our lanes, and our lanes constantly intersect. And at that intersection is truth, justice, and equity. Please remember there is more than one way to advocate and work for positive change.

Is the beating of Johnnie Rush for jaywalking a reflection of APD's value and regard for black, brown, poor and homeless people in our community? I know many will say no, but what history shows us is overwhelming clear - that late night assault upon a black man, bothering no one, is just one more act in a long continuum of an entrenched way of thinking and acting among those that police us, and it must stop!

There must be accountability. These kinds of violent acts at the hands of police are both human and civil rights violations. Cannot a human being have the right to walk down the street without concern they'll be harassed and then attacked by police?

When there is no system in place for accountability, then there is NO safety, and there is grave concern among the people in this city about their safety in the presence of police. The continued use of excessive force with no accountability will not be tolerated in our communities; every single use of excessive force must start with a criminal investigation - police are not above the law.

We must establish an Independent Citizen Review Board with teeth. In that effort the NAACP would ask you to look at HB 165, a statewide effort to get Raleigh to vote on and approve Citizen Review Boards for every municipality in the state. We are looking for a champion. Will Asheville be our champion?

People must get organized and educate themselves on the issues. We must learn how our government works, and make it work for us. Voting is an essential part of making government work. Look to folks like Shuvonda Harper working with Pisgah Legal Services, the League of Women Voters and Children First In Schools to educate the community about the roles and decision-making process of local government and ot make our voice heard.

To the Asheville Police Department we all know that Officer Hickman does not represent the force in its entirety, but when you stand around and let acts like what happened to Mr. Rush occur, it makes a statement and it's far from good. I offer that police look to their fellow officers like Quinton Miller and Evan Coward as role models that do a great job with the community. They both give and receive respect. Remember, respect - treat people with it and you'll get it back.

One last thing, Chief Hooper has heard recommendations from the RJC, faith leaders, myself and others. She has owned mistakes in the Rush case and has made promises to institute many of the recommendations you heard today. We have a lot of work to do to build trust of so many in our community. I think the Chief is ready and able to continue doing that important work."

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF A PORTION OF PEACHTREE STREET (JAKE RUSHER PARK)

RESOLUTION NO. 18-65 - RESOLUTION TO PERMANENTLY CLOSE A PORTION OF PEACHTREE STREET (JAKE RUSHER PARK)

Street Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close a portion of Peachtree Street (Jake Rusher Park). This public hearing was advertised on February 16, 23, March 2 and 9, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, City of Asheville, owner of parcels 9654-35-0589, 9654-35-4902, 9654-35-4725, and 9654-35-4635, have requested the City of Asheville to permanently close a portion of Peachtree St (Jake Rusher Park) and setting a public hearing on March 13, 2018. A copy of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission reviewed this request at their October 2, 2017, meeting and recommended the approval of the closure.

On February 13, 2018, the City Council adopted a resolution of Intent to permanently close the right of way and calling for a public hearing on said closure for March 13, 2018. Copies of the resolution of Intent were properly served and posted, in accordance with N.C. General Statute 160A-299.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt a resolution ordering the permanent closure of a portion of Peachtree Street (Jake Rusher Park).

Mayor Manheimer opened the public hearing at 5:45 p.m.

Ms. Karen Smelter, resident of 180 Peachtree Street, spoke in support of the closing. She also asked that some type of traffic calming be installed on Cedar Lane. Ms. Smelter was referred to Transportation Director Ken Putnam.

Mayor Manheimer closed the public hearing at 5:50 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-65. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 319

B. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF AN UNOPENED RIGHT-OF-WAY LOCATED AT 85 DEAVER STREET

RESOLUTION NO. 18-66 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY LOCATED AT 85 DEAVER STREET

Street Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way located at 85 Deaver Street. This public hearing was advertised on February 16, 23, March 2 and 9, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Jose Ruiz, owner of parcels 9638-76-5217 and 9638-76-4166, and Rose Logan, owner of parcel 9638-76-5178, have requested the City of Asheville to permanently close the unnamed alley off of Jarrett St. A copy

of this resolution of intent shall be sent by registered or certified mail to all property owners abutting the unnamed alley, not joining in the petition to close.

The Multimodal Transportation Commission reviewed this request at their October 2, 2017, meeting and recommended the approval of the closure.

On February 13, 2018, the City Council adopted a resolution of Intent to permanently close the right of way and calling for a public hearing on said closure for March 13, 2018. Copies of the resolution of Intent were properly served and posted, in accordance with N.C. General Statute 160A-299.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt a resolution ordering the permanent closure of an unopened right of way located near 85 Deaver Street.

Mayor Manheimer opened the public hearing at 5:51 p.m., and when no one spoke, she closed the public hearing at 5:51 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-66. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 321

C. PUBLIC HEARING TO CONSIDER THE PERMANENT CLOSING OF AN UNOPENED RIGHT-OF-WAY LOCATED AT THE END OF DEAVER STREET SOUTH OF HOWARD STREET

RESOLUTION NO. 18-67 - RESOLUTION TO PERMANENTLY CLOSE AN UNOPENED RIGHT-OF-WAY LOCATED AT THE END OF DEAVER STREET SOUTH OF HOWARD STREET

Street Division Manager Chad Bandy said that this is the consideration of a resolution to permanently close an unopened right-of-way located at the end of Deaver Street south of Howard Street. This public hearing was advertised on February 16, 23, March 2 and 9, 2018.

N. C. Gen. Stat. sec 160A-299 grants cities the authority to permanently close streets and alleys.

Pursuant to this statute, adjoining property owner, Barwick and Assoc. LLC, owner of parcels 9638-74-1509, 9638-74-0685, 9638-74-1740, and 9638-74-2666, have requested the City

of Asheville to permanently close an unopened r/w located at the end of Deaver Street south of Howard Street.

The Multimodal Transportation Commission reviewed this request at their on October 2, 2017, meeting and recommended the approval of the closure.

On February 13, 2018, the City Council adopted a resolution of Intent to permanently close the right of way and calling for a public hearing on said closure for March 13, 2018. Copies of the resolution of Intent were properly served and posted, in accordance with N.C. General Statute 160A-299.

Pros:

- There will be no future compromise of ingress/egress to other property
- The closure would allow for more efficient use of the existing adjacent properties
- Meets Council's goals to promote sustainable high density infill growth that makes efficient use of existing resources

Con:

- None

There will be no fiscal impact related to this closure.

City staff recommends City Council adopt a resolution ordering the permanent closure of an unopened right of way located at the end of Deaver Street south of Howard Street.

Mayor Manheimer opened the public hearing at 5:53 p.m. and when no one spoke, she closed the public hearing at 5:53 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-67. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 323

V. UNFINISHED BUSINESS:

VI. NEW BUSINESS:

A. BOARDS & COMMISSIONS

Regarding the Audit Committee, the following individuals applied for the vacancy: Amy Kemp, Michael Donohue, Keith Sharpe, Holly Nolan, Scott Farkas, Rich Lee, Himanshu Karvir, Teddy Jordan, Dennis White, W. Scott Powell and Gail Miller. Vice-Mayor Wisler moved to appoint Amy Kemp and Scott Farkas (Certified Public Accountants) and interview Himanshu Karvir, W. Scott Powell and Gail Miller. This motion was seconded by Councilwoman Mayfield and carried unanimously.

Regarding the Homeless Initiative Advisory Committee, the following individuals applied for the vacancy: Val Ball, Angela Dubs, Donald Alexander, Kate Caton, Andrew Monroe, Timothy Moser, Bill Robinson, Michael Carlebach, Roberto L. Hess, Thomas Cash and Tamarie Macon. It was the consensus of Council to re-advertise for this vacancy with a focus on a currently homeless person or a person who has experienced homelessness very recently.

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacancy: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Andrew Stephen Kirby, Ritchie Rozzelle, Dennis Wencel, Pat Katz, Rachelle Sorensen-Cox, Kenneth Armstrong and Wayne Wheeler. At the Multimodal Transportation Commission's request, it was the consensus of Council to postpone the appointment until after the Commission has an opportunity to make a recommendation.

Regarding the Riverfront Area Redevelopment Commission, the following individuals, who meet the requirement of a property or business owner in the Riverfront, applied for the vacancy: Jeffrey Horner, Jerry Sternberg, Shelley Schenker, Brent Starck, Tim Schaller, Stuart Cowles, Viola Spells, Emily Boyd and Daniel Brown. It was the consensus of Council to interview Shelley Schenker, Tim Schaller and Viola Spells.

RESOLUTION NO. 18-68 - RESOLUTION APPOINTING ALTERNATES MEMBERS TO THE BOARD OF ADJUSTMENT

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing Alternate members to the Board of Adjustment.

Ms. Christine Longoria (Alternate) has resigned , thus leaving an unexpired term until January 21, 2019. In addition, there currently exists an Alternate vacancy when Mr. Paul Wilczynski was appointed a Regular member. That current vacancy expires on January 21, 2021. Finally, Ms. Misty Miller (Alternate) has resigned, thus leaving an unexpired term until January 21, 2020.

The following individuals applied for the vacancy: Sarah Katzmark, Ken Sherlin and Warrene Williams.

It was the consensus of the Boards & Commissions Committee to appoint Sarah Katzmark and Warrene Williams; and to readvertise for the third Alternate vacancy.

Vice-Mayor Wisler moved to (1) appoint Sarah Katzmark to serve the Alternate unexpired term of Ms. Longoria, term to expire January 21, 2019, or until her successor has been appointed; (2) appoint Warrene Williams to serve the Alternate unexpired term of Ms. Miller, term to expire January 21, 2020, or until her successor has been appointed; and (3) readvertise for the third Alternate vacancy. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 325

RESOLUTION NO. 18-69 - RESOLUTION APPOINTING A MEMBER TO THE NOISE ORDINANCE APPEALS BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Noise Ordinance Appeals Board.

Mr. Vic Fahrer has resigned as a member of the Noise Ordinance Appeals Board, thus leaving an unexpired term until July 1, 2018.

The following individual applied for the vacancy: Wayne Wheeler.

It was the consensus of the Boards & Commissions Committee to appoint Wayne Wheeler.

Vice-Mayor Wisler moved to appoint Wayne Wheeler to serve the unexpired term of Mr. Fahrer until July 1, 2018, and then a full three-year term, term to expire July 1, 2021, or until his successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 326

RESOLUTION NO. 18-70 - RESOLUTION APPOINTING A MEMBER TO THE RECREATION BOARD

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Recreation Board.

Ms. Zakiya Bell-Rogers has resigned as a member of the Recreation Board, thus leaving an unexpired term until June 30, 2018.

The following individuals applied for the vacancy: Ron Nelson, Ken Miller, John Irving and Justin Thompson.

It was the consensus of the Boards & Commissions Committee to appoint Justin Thompson.

Vice-Mayor Wisler moved to appoint Justin Thompson to serve the unexpired term of Ms. Bell-Rogers until June 30, 2018, and then a full three-year term, term to expire June 30, 2021, or until his successor has been appointed. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 327

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Daniel Gilbert, resident on Justin Trail in Arden, asked Council to put pressure on the N.C. Dept. of Environmental Quality and Duke Energy to make the decisions necessary that will result in his neighborhood being connected to municipal water; and to provide some financing for this waterline and/or variances/waivers that will bring them closer to getting municipal water to their neighborhood. City Manager Jackson said that he would have our Interim Water Resources Director David Melton contact Mr. Gilbert.

Mr. Bill Robinson spoke to Council about the need for more empathy and compassion for the homeless in Asheville.

Mr. Anthony M. Thomas spoke to Council about the people who no longer have jobs since the City did not renew their temporary services contract for the U.S. Cellular Center and the Public Works Department. City Manager Jackson said that he will look into this matter.

APD Incident Regarding Mr. Johnnie Rush

Councilman Young said that for three years there have been adverse actions to the African American community and he is still seeking answers. He felt we need more African American Asheville Police Department officers and he wants to see a program that promotes minority recruitment with substantial pay. He said he is their voice but he needs for them to fight with him.

Pastors, members of the NAACP, members of the Racial Justice Coalition, members of the Faith 4 Justice, and many others expressed frustration over the incident involving Mr. Johnnie Rush. Some felt City Council was not doing enough about racial issues n Asheville, noting that there are systemic problems that go beyond Mr. Rush's incident.

Vice-President of the Mountain Chapter of the N.C. Police Benevolent Association, local head of the Fraternal Order of Police, and police officers spoke in support of the Asheville Police Department and Chief Hooper, noting that the APD officers have sworn to protect our community as they report to duty each day to honor their oath.

Councilwoman Smith thanked everyone for coming out to this meeting. She said that she is willing to continue to work with law enforcement; but we have a focus and that is to make sure this collective Council supports a community who has lost trust.

Closed Session

At 8:25 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Bach vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 9:53 p.m., Councilman Haynes to come out of closed session. This motion was seconded by Councilman Young and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:53 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Friday – March 16, 2018 - 4:15 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; City Manager Gary W. Jackson; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Mayor Manheimer opened the meeting at 4:15 p.m.

At Mayor Manheimer's request, City Manager Jackson explained the following management changes in City Hall. In summary, (1) based on the Council's Blue Ribbon Task Force recommendation, the Equity and Inclusion Office will be created and report directly to the City Manager; (2) Peggy Rowe will serve as Interim Assistant City Manager supervising directors of Human Resources, Information Technology, General Services, Internal Audit, and Office of Sustainability; (3) Jaime Joyner will serve as Interim Human Resources Director; (4) Jade Dundas will resume full responsibility for the capital projects management and bond program transparency; (5) Cathy Ball will continue as Assistant City Manager supervising directors of Public Works, Capital Projects, Water Resources, Transportation, Planning, Economic & Community Development, Development Services, and Parks & Recreation; and (6) departments reporting to the City Manager will now include Police, Fire, Finance, Communications & Public Engagement as well as the new Office of Equity and Inclusion. The organizational memorandum, along with a new organizational chart is available on the City's website.

Mayor Manheimer announced that Council will be holding a worksession on Tuesday, March 20, 2018, at 2:00 p.m. in the Council Chamber to talk about changes City Council wants to institute. A detailed agenda of that meeting is available on the City's website.

Mayor Manheimer announced that City Council will adjourn immediately after their closed session.

At 4:27 p.m. Councilwoman Smith moved to go into closed session (1) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee; or to hear or investigate a complaint, charge, or grievance by or against an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. §143-318.11 (a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)( ); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of this State or the United States, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.11(a)(1); and (4) To plan, conduct, or hear reports concerning investigation of alleged criminal misconduct. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(7). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:55 p.m., Councilman Young moved to come out of closed session. This motion was seconded by Councilman Haynes carried unanimously.

At 7:55 p.m., Mayor Manheimer adjourned the meeting.

Magdalen Burleson
City Clerk

Esther E. Manheimer
Mayor

Tuesday – March 20, 2018 - 2:00 p.m.

Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

Announcement

Mayor Manheimer read the following statement: "The Asheville City Council has unanimously decided to replace City Manager Gary Jackson effective at the close of business today. We appreciate the many successes Gary has brought Asheville in his 13 years here; however, we believe that making this change now is in the City and his best interests. Assistant City Manager Cathy Ball will serve as Interim City Manager until a new city manager is selected. Additionally, Councilwoman Gwen Wisler will lead transition planning *pro bono* to assist with the eventual transition to a new city manager. We wish Gary well and thank him for the good work that he has done for Asheville and the region. (Note: Under his 2005 employment agreement, the City is obligated to provide Mr. Jackson with his salary and regular benefits for six months unless he starts working for another employer.)"

Council's Priorities in Addressing Policing in Asheville

Mayor Manheimer said the purpose of this meeting is for Council to come to the consensus of direction they would like to give staff around areas they want to explore and make changes in. Since this is a worksession, Council will not take public comment, but anyone is welcome to contact Council with their comments.

The first topic discussed was a third-party review of the Asheville Police Department (APD). Specifics include implementation of any recommendations of the review, to include: (a) Adopt new policies and procedures that ensure equal and fair treatment of all people, address selective enforcement, training and retraining (to include people of color), accountability measures; (b) All excessive use of force complaints to be investigated criminally, immediately (this change has already been made); and (c) Change administrative procedures to ensure Council notification of excessive use of force occurrences and/or complaints, and adopt a plan for notifying the DA and the SBI in all cases. The third-party will do a review around Mr. Johnnie Rush and former Officer Hickman and to give Council a set of recommendations around that incident. Mayor Manheimer said that she has had some preliminary conversations with Police Chief Tammy Hooper and she is receptive of this idea and will work with City Council.

Councilwoman Mayfield said that historically there has been a pretty clear gulf between policy that City Council sets and policy that gets set within the Asheville Police Department. She asked that either that be looked at separately or that this third-party can share with us ways that other cities have handled the relationship between the Council and the APD when it comes to setting policy.

Councilman Young moved to ask Interim City Manager Ball work with staff work to come up with a proposal for a third-party entity to review the APD and for this work to be done fairly quickly. This motion was seconded by Councilwoman Smith and carried unanimously.

The next topic discussed was the establishment of the Human Relations Commission of Asheville (HRCA) per the Blue Ribbon Task Force recommendations, to include (1) HRCA or Police Advisory Subcommittee to review all use of force occurrences and excessive use of force complaints; and (2) Enhance Equity and Inclusion Department staffing (this process is happening) (a) Explore whether a staff person from the Equity and Inclusion Department can review APD body camera footage.

City Attorney Currin said that an ordinance has been drafted with recommendations from the Governance Committee. That ordinance will be before Council for their consideration on April 10. Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that once adopted, staff will begin advertising for the seats and potentially we could have a first meeting around June 1.

Mayor Manheimer said that she spoke with the Mayor of Greensboro (they have local legislation) and they have a Police Citizen Review Board but their review board cannot see body cam footage either. They have gone to court to see it once since the new law has been in place and the judge allowed them to see it with a gag order. We have some work to do in exploring the different options and it will require legislation for us to be able to emulate something like Greensboro.

When Councilwoman Smith asked if the Blue Ribbon Task Force discussed the Citizens-Police Advisory Committee (CPAC), Vice-Mayor Wisler said that they did not focus on this area. It was briefly discussed at the CPAC meeting and she envisioned that the HRCA would take it up as soon as possible. Mayor Manheimer said that we may have to have the HRCA work with the City Attorney's Office to come up with a proposal that we ask the legislature for, or if we are not able to get that legislation, what we can do.

It was the consensus of Council to instruct City Attorney Currin to explore whether a staff person from the Equity and Inclusion Department can review APD body camera footage. And, if it is possible, how would it fit with the current practices already established at the APD.

It was the consensus of Council, at the suggestion of Councilwoman Mayfield, that the third-party review of the APD include a review of the APD policy of auditing body cam footage, along with a revisit of the 60-day retention of body cam footage.

The next topic discussed was to fund an outside legal position to advocate for individuals filing complaints against law enforcement. Mayor Manheimer said the idea is to fund an attorney, perhaps at a non-profit like Pisgah Legal Services, who could represent people who are bringing complaints against law enforcement - APD and/or Sheriff's Department. She has had some preliminary discussions with the Chairman of the Buncombe County Commissioners about the possibility of co-funding this position. This position would be to help a complainant navigate the complaint system. Discussions would need to be held with Buncombe County and a third-party entity to house the position.

Councilwoman Mayfield moved to (1) explore funding an outside legal position to advocate policy around law enforcement, and advocate for individuals filing complaints against law enforcement; and (2) discuss co-funding the position with Buncombe County. This motion was seconded by Councilman Young and carried unanimously.

The next topic discussed was review of City of Asheville Personnel Policies and Civil Service Board Rules to allow the city to remove employees who demonstrate terminatable conduct. Mayor Manheimer said that the City's Personnel Policies are being reviewed. Any City

Personnel Policy will need to go to the Civil Service Board for review but not approval. The changes will be provided to City Council for review as well. Any amendment to the Civil Service Board Rules will require legislation. The City Attorney's Office will draft suggested legislation.

Vice-Mayor Wisler felt the Civil Service Board and the potential Police Advisory Subcommittee may have conflicting objectives, so before approaching our legislators we need to look at both policies.

Councilman Kapoor suggested we get some input from the City's Department Directors on their interaction with the Civil Service Board. He also suggested we not take such a narrow view of just terminatable conduct. Vice-Mayor Wisler explained that was specifically noted because no other civil service board in North Carolina has the ability to reinstate employees who have been terminated.

Councilwoman Mayfield moved to review the City of Asheville Personnel Policies and Civil Service Board Rules to more broadly explore the balance to protect the employees and protect the public and other employees, and giving the management the appropriate and legal discretion to take action in a timely manner. This motion was seconded by Councilman Kapoor and carried unanimously.

The next topic discussed was to create an aggressive plan to hire minority officers. Mayor Manheimer said that there is already work underway to do this and this would be to enhance that push. City Council may need to do more, i.e., funding, creative solutions that haven't been tried yet.

Councilman Young moved to instruct staff to work with the Police Chief to go to the Finance Committee and then the Governance Committee with a proposal about enhancing our minority recruitment efforts, along with funding for any enhancement. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

The next topic discussed was to encourage and educate people about the process of bringing complaints against law enforcement along coupled with the use of an unbiased policing hotline. We need to make it easy for people to find out the process and it should be easily accessible on the APD's website. Mayor Manheimer said if the person has something that rises to the level of filing a complaint that they understand they have that option available to them. The outside legal position should be coupled with this idea of informing and encouraging people about how to bring complaints and the policing hotline.

Councilwoman Smith said that in order to help build trust, we will need some type of marketing strategy on making it more visible for people to make complaints against law enforcement.

Councilwoman Mayfield moved to explore the idea of educating and educating people on how to bring complaints against law enforcement coupled with the policing hotline. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

The final topic discussed was to support legislative changes, to include (1) Support for HB 165 (citizen review of police complaints); (2) Civil Service Board changes; and (3) Personnel law changes (not just for police, but any employee) to allow complainants to learn the results of their complaint.

Councilwoman Mayfield moved to support legislative changes to (1) support HB 165; (2) Civil Service Board changes; and (3) Personnel law changes to allow complainants to learn the results of their complaint. This motion was seconded by Vice-Mayor Wisler and carried

unanimously.

Councilman Young said that even though Council did not set specific timelines, it is very obvious that some of this will is already happening, is ongoing, will start very quickly, and will take some time. Therefore, it was the consensus of Council to ask Interim City Manager Ball to provide monthly updates on how we are moving forward on each of the topics discussed.

Aston Park Tennis Center Fees & Charges

ORDINANCE NO. 4659 - ORDINANCE AMENDING THE ASTON PARK TENNIS CENTER FEES & CHARGES

Chief Financial Officer Barbara Whitehorn said that this is the consideration of proposed fee adjustments at the Aston Park Tennis Center.

A study of Tennis Center operations, completed by City staff in 2014, reviewed opportunities to reduce the level of general fund subsidy. In a concurrent process, the City engaged Matrix Consulting Group (consultants) to conduct a Cost of Services Study for the Parks and Recreation Department. The Tennis Center was included as a component of the study. Based on the results of the Cost of Services Study and staff analysis, a step up plan was developed to incrementally increase pass holder fees over a three-year period. The most recent of those fee increases was approved by City Council in February 2017.

At two recent meetings (February 27 and March 7, 2018) the Finance Committee received presentations from City staff and from the tennis community, regarding the impact of the fee changes that have been approved to date. These increases resulted in a greater than anticipated decrease in annual passholders. While a shift from passholders to hourly court rentals has driven increased revenue, advocates for the tennis community asserted that the annual rates were unrealistically high. Discussion centered around the value of the Center to the tennis community and the neighborhood. The Matrix Study placed the Center in the higher cost recovery part of the equity/community value continuum; an important consideration when evaluating the cost and benefit of the Center for the community overall. At the March 7 meeting, staff brought forward a proposal that addressed the tennis community's concerns while maintaining a level of cost recovery in alignment with the Matrix Study recommendations. The Finance Committee endorsed staff's proposal to realign and reduce rates for annual passes while making slight increases to most hourly rates.

Staff will evaluate the financial performance and service levels of the Center during the 2018 season and will provide an update with data on attendance, programming and revenue at the December, 2018, Finance Committee meeting.

Pros:

- Staff analysis suggests that realigning the rates should have a slight positive impact on revenue.
- Collaborative solution reached with the tennis community and staff.

Con:

- Analysis suggesting a potential positive impact to revenues is based on assumptions about the shift from hourly to annual passes and the volume of hourly court rentals, and therefore may not be borne out when implemented.

As noted above, staff analysis suggests that realigning the rates should have a slight positive impact on revenue.

Staff recommends Council adopt the proposed fee adjustments at the Aston Park Tennis Center.

At the suggestion of Councilwoman Mayfield, it was the consensus of Council that senior level begin at age 65.

At the request of Vice-Mayor Wisler, Ms. Whitehorn said that staff will collect demographic information of elderly seniors (over 65) for the Finance Committee review in October so they can discuss whether elderly seniors should be given a reduced fee.

At the request of Councilwoman Mayfield, Ms. Whitehorn said that still will look at allowing people to pay in two installments making it easier for seniors on fixed incomes.

Mayor Manheimer said that members of Council have previously been furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4659, with the senior age starting at age 65. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 21

Operating Budget Forecast

Chief Financial Officer Barbara Whitehorn reviewed with Council the 2018-19 Budget Calendar; high level five-year forecast; discussion of 2018-19 budget drivers.

The 2018-19 Budget process began internally in September 2017, when staff began working on capital forecasting and planning. The operating budget process, began in November and has continued with departmental technical reviews and a Management Team workshop on March 9 to collaborate on efficiencies and discuss potential savings.

Budget staff developed a five-year financial forecast that takes base service level needs, accounts for inflation and other usual cost increases, and forecasts revenue changes over time. Three models were presented to the Finance Committee on February 27.

It is important to note that the City's financial forecast changes continuously with new information, so estimates moving forward likely will not match exactly with information previously provided.

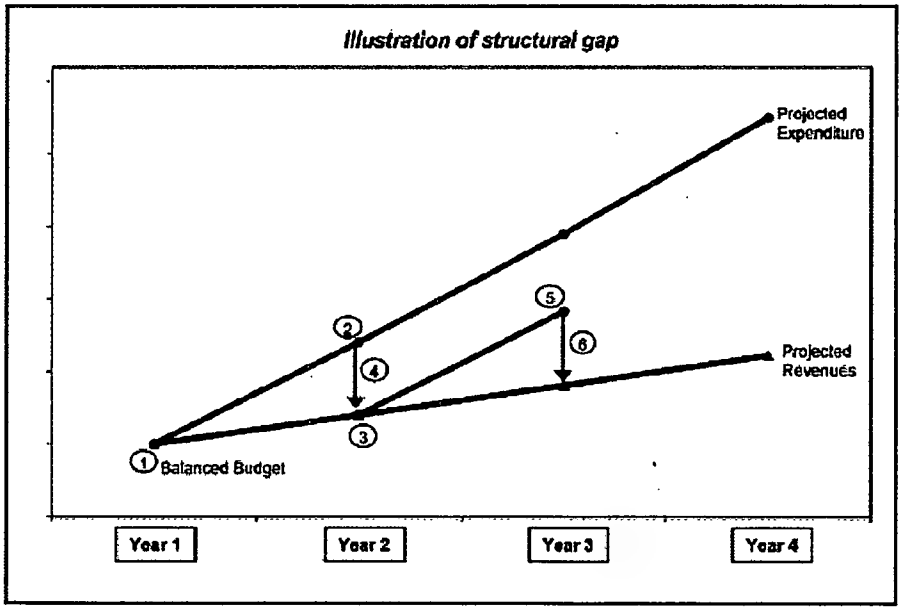
Looking at the forecast over the long term, it is clear that the City of Asheville struggles with a structural imbalance between revenues and expenditures. The use of "structural" to describe the imbalance conveys that this is not a short-term, single budget cycle issue, but rather a long-term problem caused by the structure of the City's revenue streams as opposed to the growth of expenditures. General Fund revenues consistently grow at a rate slower than expenditures. In part, this is driven by the service nature of the City's business. More than 60% of the General Fund budget is personnel-related.

City revenue streams are limited by the NC General Assembly and only fees for services and property tax are within local control. Even these have limitations, some fees are restricted by the State for specific uses, and legislation can limit or change revenue streams at any time. Asheville is the main economic engine of western North Carolina; however, Asheville does not benefit directly from most of the revenue it generates. The City receives no revenue from surrounding areas (i.e. commuter fees), nor does it directly receive room tax to help offset the

impact of tourism on the City's infrastructure and service delivery. Asheville's population increases daily with workers commuting to work from Buncombe and surrounding areas, and the Buncombe County Tourism Development Authority (TDA) estimated that in 2016, an average of 29,800 people visited Asheville *daily.* This puts immense pressure on infrastructure and resident services.

Asheville benefits from tourism through grants from the TDA for capital projects that can be directly linked to maintaining or increasing Asheville's popularity as a tourist destination. Asheville also benefits from sales tax collected on money spent locally; however, sales tax is collected by the State, which retains the majority, disbursing the remaining funds to counties. Counties then have the option to distribute tax proceeds to taxing entities in the county (including municipalities) by population or property tax levy. Buncombe County distributes by tax levy, and the City of Asheville nets approximately 3.5-cents per dollar collected. Put another way, the City receives $1.00 in sales tax revenue for every $350.00 of taxable sales. (The dedicated sales tax for AB Tech is separate from the distribution of sales tax to taxing entities.)

Given the limited nature of existing revenue streams and lacking the ability to access different and/or new revenue sources increases the pressure on local government property tax. This perpetuates the structural gap, putting pressure on management to save money wherever possible while increasing the impact on property taxpayers. Following is the illustration of the structural gap and its annual impact from the white paper, A Community Crossroads, presented to Council in 2013.



(This graph shows projected expenditures growing at 4-5% and projected revenues growing at 1-2%.)

(1) Budget is at balance in Year 1 with expenditures equal to revenues.

(2) With expenditures growing at 4-5%, the cost of offering the same programs in Year 2 grows to here.

(3) Meanwhile, revenues grow at only 1-2%, to here in Year 2.

(4) The difference between expenditure and revenue growth leads to a gap, requiring a cut in expenditures to balance the budget.

(5) If the budget cut affects only the level, but not the growth of expenditures, remaining expenditures will continue to grow at 4-5%. The level of expenditures needed to provide the same level of services as in the previous year grows to here.

(6) This structural difference in revenue and expenditure growth creates the need for another budget cut in the following year (Year 4). The problem continues until structural changes can be made that equalize the growth rates of expenditures with revenues.

2018-19 Revenues - Overall, revenues are anticipated to be up a total of approximately 1.7%, or $2,000,000, over FY 2017-18. This increase includes a 3% increase in property tax collections and a 6% increase in sales tax, and is net of an anticipated 10% decrease in development service fees. Utility revenues, a revenue received from the State, is expected to be flat year-over-year. Revenue performance is aligning with forecasts and while forecasts of individual items may change slightly, staff does not expect any material changes in revenue estimates barring unforeseen economic or legislative pressures.

2018-19 Expenditures - Developing the FY 2018-19 General Fund Operating Budget began with a careful analysis of programs and costs. Each department director was tasked with developing a base budget that would allow their department to continue service levels at their current level, assuming only inflation and/or other factors that impact cost. (i.e. changes in the cost of raw materials for streets maintenance)

With Asheville's current development boom, the cost of providing services including sanitation, streets maintenance, parks maintenance and other City functions that rely on the same labor pool and materials has increased significantly. After technical reviews of department submitted budgets, FY 2018-19 expenditures exceeded revenue by approximately $5.9 million.

Base Budget Starting Point Breakdown

Additional Revenue	$2,000,000
Additional Expenditures	
Inflation and normal cost increases	$3,500,000
Partially Funded enhancements from 2017-18	$4,000,000
One-time moved to operations (EITF)	$205,000
Maintenance driven by CIP	$116,000
Total Expenditure Increase	$7,821,000
GAP	-$5,821,000

Generally the process begins with a structural imbalance gap of $1.5-2 million, and the Management Team works with the Budget Division to narrow the gap, find efficiencies and identify savings.

For the FY 2018-19 budget, the structural imbalance is not the only driver of the gap between revenues and expenditures. Enhancements made to the FY 2017-18 budget while maintaining a revenue-neutral tax rate (with the exception of the 3.5 cents dedicated to the capital program) are an important of the budget discussion for FY 2018-19. Several enhancements were added with half-year or less funding, with the intention to revisit the long-term financial impact in the FY 2018-19 budget discussion.

The following were included in the FY 2017-18 operating budget without long-term funding:

- New Transit contract; expanded transit service
- APD patrol improvements and realignment of districts
- Compensation: funding for market adjustments and incentives (language and education pay)
- AFD retirement plan city match

FY 2017-18 enhancements and their financial impact.

Program	FY 2017-18 Budget	FY 2018-19 Budget	Increase (decrease)
Transit Operations: ½ year expansion funded in FY18; new mgmt contract*	$3,792,000	$4,654,000	$862,000
APD patrol improvements**	-0-	$1,225,000	$1,225,000
Compensation: market adjustments, education, language and shift pay***	-0-	$1,087,000	$1,087,000
AFD retirement plan, add'l 2%, ½ year	$153,000	$309,000	$156,000
Restoring cuts from 2017-18	-0-	$467,000	$467,000
TOTAL	$3,945,000	$7,742,000	$3,797,000

***Transit Enhancements.** In FY 2017-18 the City paid for three months of overlapping service with the exiting and the new management companies. This overlap, as well as the budget amendment to cover the higher cost of the "turn-key" management contract, and the January 1 implementation of additional service enhancements to the system, drive the year-over-year difference. Were the City not paying for three months of overlap in the current fiscal year, the variance between FY 2017-18 and proposed FY 2018-19 would be several hundred thousand dollars higher. Implemented service expansions are below.

Service Expansion implemented January 2018

1) Eight additional hours of evening service per day, Monday-Saturday (48 additional weekly hours)
2) Sunday/Holiday service on all routes (76.5 additional weekly hours)
3) One additional daily trip on Route 170 to Black Mountain (dependent on JARC grant application approval)

****APD Operational Enhancements.** The initial cost of implementing the plan for a downtown district that would allow improved allocation of police resources city-wide, was $1,123,265, reduced to $567,807 after Council directed staff to phase in the staffing increases, reducing the operational impact. The APD and other General Fund departments identified one-time savings to cover the cost for FY 2017-18. The ongoing cost reflects the restoration of the cuts and the implementation of the second phase of the plan. Below is an excerpt from the information provided to Council on May 23, 2017.

Left are the initial and final proposal for the implementation of the plan, right details the cuts made to cover the May 23rd proposed cost by APD and other departments.

APD Downtown District Implementation

	Initial Proposal	5/23/2017 Proposal
Personnel Costs	$ 938,015	$ 469,007
Uniforms & Equipment	$ 185,250	$ 98,800
Total Operations	$1,123,265	$ 567,807
Increase to APD 2017-18 Ops Budget	$1,123,265	-0-

Department	Amount Cut
Fire	$ (50,000)
Police	$ (430,000)
Parks & Recreation	$ (35,000)
Public Works	$ (35,000)
Other	$ (17,800)
Total Cuts	$ (567,800)

*****Compensation.** $500,000 in one-time funds were reserved for market competitive adjustments and changes to the compensation plans to include education and language pay, as well as shift differentials, all of which were anticipated to be implemented for less than a full year. The ongoing cost of the changes is $1,087,000. Turnover, a critical issue that the compensation changes were designed to combat, is showing a decline.

In addition to the operational enhancements discussed above, unassigned fund balance was used to fund several initiatives in FY 2017-18. Fund balance is used for one-time expenditures that are not intended to become part of the operating budget.
Fund Balance Allocations

Program or Project	Amount
Energy Innovation Task Force	$ 205,000
Tree Canopy Study	25,000
Payroll/Benefits Audit Recommendations	200,000
Police Staffing Vehicles	384,000
Election Costs	275,000
Additional Strategic Partnership Funding	42,000
Neighborhood Opportunity Fund	50,000
TOTAL	$ 1,181,000

Of the fund balance allocations above, the EITF funding has been put forth for addition to the operating budget, adding $205,000 to the operating base.

Completed capital projects add maintenance costs that are ongoing, for example, the radio project completed in FY 2017-18, which replaced the public safety radios and improved connectivity throughout the service area, adds an ongoing maintenance cost of $116,000. The City leases tower space to telecom companies, which partially offsets this cost. The offsetting revenue is included in the forecast. In the same way, additional greenways add maintenance costs to keep the facilities clean and clear of weeds and brush. Staff works to balance additional costs with offsetting savings or revenue wherever possible.

In total, the normal operating gap of about $1.5 million, combined with the unfunded and/or under-funded enhancements drives the $5.9 million budget gap.

Revenue Forecast	$ 122.8 million
Expenditure Estimate	(128.7 million)
Surplus (Deficit)	$ (5.9 million)

On March 9, 2018, the department directors and support staff held a workshop to consider budget balancing strategies in the following areas:

- Trend of underspent line-items: a trend analysis of all expenditures, by line-item, was completed by the Budget Team and provided to the participants for discussion.
- Nips and Tucks: Directors and staff were tasked with identifying areas in which they could make small cuts to operational budgets, with the idea that if every department made small cuts, the savings overall could be significant.
- One-time changes: given the large budget gap, Directors were asked to identify temporary cuts that could be made to balance the budget this year, with the intention to identify efficiencies and other cost savings measures that could replace the one-time cuts for a financially sustainable model going forward.
- City-wide changes: Directors and staff were encouraged to think about revenue and expenditures holistically, considering potential new revenue streams, broad efficiencies that require a coordinated approach and the buy-in of multiple departments, and brainstorm opportunities that might not be immediately feasible but with planning could positively impact the budget in the long term.

In all, the team identified $2.27 million in potential savings and $380,000 in additional revenue.

Initial Gap	$ (5.9 million)
Staff identified savings and revenue	2.7 million
Surplus (Deficit)	$ (3.2 million)

New Council Goals and Objectives - Council objectives requiring additional resources are not included above, but are listed below with estimates of the cost of implementation. NOTE: these estimates are based on experience anc preliminary research and may vary significantly from the actual cost of implementation.

1) Establish and staff an Office of Equity and Inclusion
    a) Set-up cost: $40,000 (one-time)
    b) On-going cost: $350,000
2) Contract an audit of police procedures and training
    a) Contract cost: between $200,000 and $400,000 (one-time)
    b) Implementation of recommendations: unknown (ongoing)
    c) Audit follow-up: unknown (ongoing)

3) Additional Transit service expansion
    a) Implementation: usually ½ of 1-year of the annual cost in year one (implementation is usually January 1)
    b) Contract impact: Unknown. The contract with MacDonald requires a renegotiation of the contract if service expansions exceed a certain percentage of the existing service level.
4) Additional labor in-sourcing
    a) Additional full-time equivalent or part-time benefited positions adds to the City's cost of providing insurance and retirement benefits, which amounts to approximately 30% of the annual pay of a position.
5) Participatory Budgeting
    a) Annual allocation: to be determined by Council, addition to base ongoing
    b) Cost of implementation: variable
        i) Consultant-led process: $15,000-$50,000
        ii) Staff-led process: cost would be absorbed by existing budget

If these additional goals are added for FY 2018-19, the budget gap could widen from $3.2 million to somewhere between $4 and $5 million. A more specific number will not be available until staff is able to nail down variables and estimates.

Closing the Gap - What are the alternatives for closing a budget gap of this magnitude? It is important to recognize that while a $3-5 million gap seems enormous, it amounts to between 2% and 4% of the total General Fund operating budget. The challenge lies in balancing the budget when the "low hanging fruit" has all been picked.

In the absence of new revenue, adding programs or projects to the operating budget requires an offsetting reduction which will require service reductions.

Ms. Whitehorn said that the following is a five-year projection of General Fund revenues and expenditures . This projection was developed primarily by analysis of prior year trends, but also anticipates future changes in spending. The Fiscal Year (FY) 18 projection is based on year end estimates as of the Q2 Financial Report. The FY19 projection has been updated to reflect FY19 base budget submittals by departments as well as staff's initial efforts at balancing the budget. As with most multi-year forecasting, confidence in the accuracy of the projections decreases with each succeeding year. The following table provides a high level summary of the projection.

General Fund Actual Expenditures and Revenues (in Millions) by Fiscal Year (FY)

	Actual	Projected					
	FY17	FY18	FY19	FY20	FY21	FY22	FY23
Revenues	$111.37	$120.25	$123.12	$126.42	$129.29	$132.23	$135.25
Expenditures	$108.37	$120.13	$126.27	$131.55	$137.03	$143.28	$148.79

This projection assumes ongoing increases in employee compensation (4.6% per year) and employer share of total healthcare costs (4.8% per year) based on historical trends. The increase in compensation assumes that the City continues to provide modest salary increases for current employees and adds additional staff to maintain existing levels of service in a growing community. This projection also assumes that the City continues to increase funding for Other Post Employment Benefits (OPEB) by $200,000 per year, consistent with prior practice.

Other significant non-personnel expenditures are mainly held at the current funding levels, including the following:

- Housing Trust Fund ($500,000 per year)
- US Cellular Center operating support ($1,066,834 per year - reduced for FY19)
- Strategic Partnership and other external support (approximately $508,400 per year)
- Economic Incentives (amount varies year-to-year, projection includes only agreements that have already been approved by Council)
- Capital funding, which accounts for the significant increase from Fiscal Year 2016-17 to 2017-18, is assumed to follow the debt cash flow model provided by our financial advisors.

Additional increases in expenditures for Fiscal Year 2018-19 are related to full year funding of items included partially funded in the current year budget, including the following:

- Expanded transit service
- Continued implementation of the Downtown police district
- Market adjustments for police staff
- Enhanced benefits for firefighters
- Public safety staff compensation for education attainment, foreign language skills
- Compensation for staff required to perform shift work or be available in off-hours

Other Council living-wage goals that impact the operating budget:

- Maintaining a living wage pay scale for all City employees
- Employ workers in-house instead of contracting for temporary/seasonal labor

Revenue assumptions include continued moderate increases in property tax revenue (2% per year), sales tax revenue (5% initially then 3% per year) and other revenues. Although Buncombe County will revalue all property within the City in 2022, this projection assumes no significant revenue changes will occur (i.e., a revenue neutral tax rate is assumed). While the City has experienced strong revenue growth in recent years, a significant portion of City revenue (including sales tax and development fees) is dependent on overall economic conditions beyond the City's control. These revenue sources would be significantly impacted by a recession or other decline in economic activity. In addition, changes made by the state legislature to the sales tax distribution could significantly impact sales tax revenue received by the City.

Ms. Whitehorn responded to various questions/comments from Council.

There was a brief discussion, initiated by Councilwoman Mayfield, regarding Fund Balance, noting that our minimum is 15%.

Ms. Whitehorn said that she would provide Council with (1) the list of items the Department Directors identified-savings of $2.27 million, noting which items might be on-going savings vs. one-time cuts; (2) a list of all the community partnership funds, along with the contract terms and amounts; and (3) memo and list of priority based budgeting results.

Vice-Mayor Wisler noted this is a continuation budget with no additions of resources for Council's new goals and objectives. If we put in additional programs, we must cut other things. She suggested, and it was the consensus of Council, that the Finance Committee hold a special meeting to "take a deep dive" into the budget and look at what staff suggested for cuts and see if they can come up with any proposals to bring forward to Council.

Councilman Haynes said that he supports the funding of the Council's new goals and objectives that are currently unfunded. He also recalled that last year there was a major funding request for the Police Department, and at this time he has some concerns about the budget

moving forward.

Mayor Manheimer said that staff understands Council's priorities and the Finance Committee will be working on the budget. After we receive the Finance Committee's recommendation we can prioritize Council's new priorities, if necessary.

It was the consensus of Council to ask staff to continue to work with the Finance Committee to identify the actual costs associated with the Council objectives that require additional resources.

Mayor Manheimer said that Council will reconvene in the Chamber after closed session.

Closed Session

At 3:37 p.m. Councilwoman Smith moved to go into closed session (1) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: Bach vs. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 4:06 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilman Kapoor and carried unanimously.

Meeting Continued - Removal of City Manager Gary Jackson

Councilman Kapoor moved that City Council remove Gary Jackson as the City Manager effective at the close of business today. This motion was seconded by Councilwoman Smith and carried unanimously.

Mayor Manheimer explained that Mr. Jackson's employment contract requires that he be paid salary and benefits for 180 days following any removal unless, there is any criminal activity (that is not an issue in this case) or unless Mr. Jackson was provided six months notice which he was not. Mr. Jackson's contract is a public document.

At 4:10 p.m., Mayor Manheimer adjourned the meeting.

Thursday – March 29, 2018 - 4:30 p.m.

Special Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: Councilwoman Sheneika Smith

Mayor Manheimer opened the meeting at 4:30 p.m.

Mayor Manheimer announced that City Council will adjourn immediately after their closed session.

At 4:34 p.m. Councilman Young moved to go into closed session (1) To consider the qualifications, competence, performance, character, fitness, or conditions of appointment of an individual public officer or employee; or to hear or investigate a complaint, charge, or grievance by or against an individual public officer or employee. The statutory authorization is contained in N.C. Gen. Stat. §143-318.11 (a)(6); and to prevent the disclosure of information that is confidential pursuant to N.C. Gen. Stat. § 160A-168, the Personnel Privacy Act. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (3) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of this State or the United States, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.11(a)(1); and (4) To plan, conduct, or hear reports concerning investigation of alleged criminal misconduct. The statutory authorization is contained in N.C.G.S. 143-318.11(a)(7). This motion was seconded by Councilman Kapoor carried unanimously.

At 6:34 p.m., Councilman Kapoor moved to come out of closed session. This motion was seconded by Councilwoman Mayfield carried unanimously.

At 6:34 p.m., Mayor Manheimer adjourned the meeting.

Magdalen Burleson
City Clerk

Tuesday – April 10, 2018- 3:00 p.m.

General Fund Operating Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Chief Financial Officer Barbara Whitehorn said that the Finance Committee worksession they started with gap of $3.2 Mil. The Finance Committee recommended (with unanimous support) (1) adjust Employer Health Insurnace ontribution to current year level - $255,000; (2) Debt Fund capital maintenance - $700,000; and (3) adjust Asheville Fire Department fleet maintenance budget - $100,000. New information for the Transit revenue adjustment is $200,000.

Item	**Finance Committee Response**	**General Fund Impact Cost/(Savings)**
Initial budget gap after staff workshop:		$ 3,200,000
Expanded Equity Program	Recommended	259,000
Reduce salary increase by (0.5%)	Discuss	(300,000)
Reduce Health Insurance Contribution	Recommended	(255,000)
Debt Fund Capital Maintenance	Recommended	(700,000)
Fund Balance allocation to operations	Discuss	(300,000)
Reduce Police Academy class size	Discuss	(200,000)
Reduce AFD Fleet allocation	Recommended	(100,000)
Gap assuming all of the above:		$ 1,604,000
Updated state transit revenue*		(200,000)
Adjusted gap:		$ 1,404,000

**Based on information recently received, state transit grant revenue has increased for FY 2018-19.*

It was the consensus of Council to accept these recommendations from the Finance Committee.

Additional considerations include (1) Mission-HCA deal (a) potential for $6.8 Million addition to property tax revenue; and (b) no additional revenue until 2019-20; and (2) transit funding (a) costs and contract management; and (b) identifying alternative funding sources.

Items that are recommended for further discussion include:

- Employee salary increases from 3% to 2.5% - $300,000
- Adjust Police Academy class size - $200,000
- Utilize Fund Balance to bridge gap (16.6%) - $300,000
- Parking fee changes, Transit support - $1.1 Million
- Additional use of Fund Balance (16.0%) - $750,000
- Additional use of Fund Balance (15.0%) - $1.3 Million

Topics of Discussion out of the Finance Committee:

24-Hour Restroom availability at Rankin Street Garage
A proposal was brought forward with a strategy to keep the restrooms open with no financial impact. Staff recommended that the restrooms be staffed, for a potential cost of $156,000.
Additional Cost: $0-$156,000; Parking Fund (no General Fund impact)
Recommended.

Unspent Neighborhood Funds assigned from Fund Balance for FY 2017-18
Fund balance allocation of $50,000 in FY 2017-18 to be reallocated in FY 2018-19, potentially to be used for first participatory budgeting funds.
Recommended.

Inclusion of expanded Equity program
Additional Cost: ***$259,000***
Recommended.
Additional information: The table below outlines the full year cost for each position including salary, benefits and associated operating expenses. In the memo provided to the Finance Committee, the estimated costs ($365,000) included an additional position that was not part of the Blue Ribbon Committee's recommendations. An updated total cost is provided below. The staff recommendation to fully fund two positions for a full year and one for half a year would still result in savings of approximately $40,000 in FY 2018-19.

Full Year Cost of Expanded Equity Program

Position	FY19	Ongoing
Equity Action Plan Implementation	$ 98,000	$ 92,000
Human Relations Commission Support	$ 94,000	$ 89,000
Equity & Inclusion Community Outreach	$ 107,000	$ 101,000
Total	*$ 299,000*	*$ 282,000*

Adjust proposed salary increase for employees from 3.0% to 2.5% and reduce pool for market adjustments
Savings: ***($300,000) salaries; ($125,000) market adjustment pool***
Vice-Mayor Wisler and Councilwoman Mayfield supported both; Vice-Mayor Wisler Wisler also recommended no Council raises and the consideration of a cap on the salary level at which staff would be eligible for raises. Councilman Kapoor did not support a reduction in the 3% increase, citing the market competition for high performing employees.
Recommendation: Move forward for discussion.

Discussion: Council members each voiced their support to either (1) freeze all salaries for one fiscal year; (2) freeze salaries for any employee making more than $50,000 - savings of $956,000; (3) free salaries for all executives - savings of $166,250; (4) raise all employee salary increases by 2.5%; or (5) raise all employee salary increases by 3%. Interim Assistant City

Manager Peggy Rowe said that in order to avoid exacerbating an existing challenge of salary compression, they recommended that any salary increase afforded to employees include all full time and part time benefited employees. After discussion, it was the majority of Council's consensus to provide all full time and part time benefited employees a 2.5% salary increase.

At the request of Councilman Young, Ms. Rowe said that she would provide Council with information on regional increases of employee salaries.

Adjust employer health insurance contribution to current year funding level
Savings: ***($255,000)***
Recommended based on current trends and projections for next fiscal year.

Debt fund certain capital maintenance expenses currently in operating budgets
Savings: ***($700,000)***
Staff would propose this as a one-year cost shift to the CIP model, and that funding revert to the General Fund operating budget in FY 2019-20 pending a review of the capital capacity and operating budget.
Recommended.

One-Time revenues - fund balance ($300,000)
As outlined in the March 20 work session, staff would recommend maintaining the City's existing fund balance percentage (currently 16.6%) to avoid negatively impacting the City's credit rating. Based on current year-end projections for FY 2017-18 as well as projections for next year's adopted General Fund budget total, staff is currently estimating that there may be approximately $300,000 in fund balance available for appropriation while still staying at the 16.6% level. Councilmembers Wisler and Mayfield supported, Councilmember Kapoor cautioned against the use of fund balance.
Recommendation: Move forward for discussion.

Discussion: Councilmembers did not support the use of $750,000 of Fund Balance. After discussion, it was the consensus of Council to bring back other cost saving items in order to not have to use Fund Balance.

Adjust APD academy class size from 20 to 15 recruits
Savings: ***($200,000)***
The Police Department has experienced persistent under-staffing in sworn positions for several years. To address this issue, additional personnel expenses are programmed in the Asheville Police Department (APD) to support a higher number of recruits attending the Police Academy. Reducing the number of recruits may result in more vacancies for a longer period of time. The cost per extra recruit is approximately $40,000, so reducing the number by five next fiscal year would produce savings of $200,000.
Recommendation: Move forward for discussion.

Discussion: Councilman Haynes recommended reducing the APD budget by $1.2 Million for Fiscal Year 2019-20. Interim City Manager Cathy Ball said the result would be laying off people who are in training now, in addition to eliminating the other programs Council agreed to fund last year. It was the consensus of Council to have staff provide Council with information on the APD programs put in motion last year, i.e., new Downtown Unit, impact on overtime, etc.; the minority makeup of trainees; where the new hires will be located; effectiveness of programs; and if we did not increase the APD budget by $1.2 Million, what will be the ground impacts.

Adjust AFD fleet maintenance budget
Savings: ***($100,000)***
Recommended.

Other Items Discussed:

Increase parking fees to support Transit (TBD)
An increase in parking deck fees could be considered to cover a portion of the increased cost of Transit services. Staff is evaluating options for fee adjustments in the Parking Fund. Recommendation: Move forward for discussion.

Additional Information: The bike and pedestrian plan is currently funded at $175,000 ($140,000 in grant funding). Staff estimate that expanding the plan to include greenways would cost an additional $100,000.

Staff Proposed Parking Changes: (1) Increase monthly rates in garages: Depending on the garage, monthly rates range from $40 (discounted rate) to $140. Currently there are 950+ monthly account holders generating about $750,000 annually. Raising the monthly rates by $10 would generate a potential increase of $100,000 annually. (2) Eliminate first hour free: Based on the current annual transient transactions occurring in the four parking garages, staff estimates that eliminating the first hour free would generate a potential increase of $1,000,000 annually. (3) Increase Daily Maximum: Based on the current annual transient transactions that exceed the $10 daily maximum in the four parking garages, staff estimates that raising the daily maximum to $12 would generate a potential increase of $60,000 annually. Staff recommends the $1.1 Million go to transit and that will free some money up for the General Fund and also create a revenue stream for transit.

The Transit Planning Division is in the process of developing a new Transit Master Plan (TMP) which will replace the current plan developed in 2009. The key goals of the TMP will be increased service frequency, expanded service hours, and future service into areas outside the existing coverage area. Implementation of changes and service expansion are planned to begin in Fiscal Year 2019-20. The creation of a new position will ensure that appropriate outreach efforts are made to avoid negatively impacting existing riders and to promote transit services to potential riders. The additional cost of this position would be $86,000 for Fiscal Year 2019.

The Transit Committee recommended adding 12 additional daily service hours in Fiscal Year 2019. Due to schedule requirements for service changes, it is likely that this service could not be implemented until January 1, 2019. A full year cost of 12 additional daily service hours would be $183,000. Staff recommends the Transit Planner position be funded in Fiscal Year 2019 and that any service expansions be considered for Fiscal Year 2020. This will allow staff to focus efforts during Fiscal Year 2019 on building up the fleet, facilities, and staffing levels needed to properly implement the TMP beginning in Fiscal Year 2020.

Discussion: Councilwoman Mayfield noted that the City applied for 10 buses through the Metropolitan Planning Organization (MPO) and that subcommittee recommended funding of those buses. In addition, the MPO subcommittee recommended funding for three sidewalk projects, which will free up some transportation bond money. The City will know in May if we receive those funds.

After an extensive review of balancing strategies to close the budget gap, it was the consensus of Council to have a final recommendation from the Transit Department which will (1) add the Transit Planner position (with an approximate start date of September 1); and (2) delay the implementation of the 12 additional daily service hours until January 1, 2019.

Councilman Kapoor felt we need to feel confident that based on staffing we can execute what we have planned, including the RADTIP and bond program, and still execute the duties of a City that the public expects the City to perform.

It was the consensus of Council to hold another budget worksession on April 24, 2018, at 3:00 p.m. in the 1st Floor North Conference Room in order to receive information on (1) Police budget; (3) additional cost savings so as not to use Fund Balance; and (3) transit related items.

Mayor Manheimer adjourned the worksession at 4:20 p.m.

Tuesday – April 10, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL, 2018, AS "PARKINSON'S DISEASE AWARENESS MONTH"

Mayor Manheimer read the proclamation proclaiming April, 2018, 2018, as "Parkinson's Disease Awareness Month" in the City of Asheville. She presented the proclamation to Mr. Robert Pate, and others, who briefed City Council on some activities taking place during the month.

B. PROCLAMATION PROCLAIMING APRIL, 2018, AS "CHILD ABUSE PREVENTION MONTH"

Mayor Manheimer read the proclamation proclaiming April, 2018, 2018, as "Child Abuse Prevention Month" in the City of Asheville. She presented the proclamation to Mr. Geoff Sidoli, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MARCH 13, 2018; AND THE SPECIAL MEETING HELD ON MARCH 16, 2018; THE WORKSESSION HELD ON MARCH 20, 2018; AND THE SPECIAL MEETING HELD ON MARCH 29, 2018

B. MOTION SETTING A PUBLIC HEARING ON MAY 22, 2018, FOR THE FISCAL YEAR 2018 OPERATING BUDGET; AND AMENDING THE BUDGET CALENDAR TO (1) MOVE THE FINAL BUDGET ADOPTION FROM JUNE 12, 2018, UNTIL JUNE 19, 2018; AND (2) ADD A BUDGET WORKSESSION ON APRIL 24, 2018

Summary: The consideration of a motion setting a public hearing on the Proposed Annual Operating Budget for May 22, 2018, and amending the budget calendar to (1) move the final budget adoption from June 12, 2018, until June 19, 2018; and (2) add a budget worksession on April 24, 2018, at 3:00 p.m. in the 1st Floor North Conference Room in City Hall.

The 2018-19 Proposed Annual Operating Budget is scheduled to be presented to City Council on May 15, 2018, and adopted on the rescheduled date of June 19, 2018. In accordance with the North Carolina Local Government Budget and Fiscal Control Act (G.S. 159-12), the board is required to hold a public hearing on the Proposed Budget prior to adoption of the annual budget ordinance. The action tonight will set that public hearing date for May 22, 2018, and amend the budget calendar (1) for final budget adoption on June 19, 2018; and (2) add a budget work session on April 24, 2018, at 3:00 p.m. in the 1st Floor North Conference Room.

Staff recommends City Council set May 22, 2018, as the date to conduct the public hearing on the City of Asheville Fiscal Year 2018-19 Proposed Annual Operating Budget, and amend the budget calendar to (1) move the final budget adoption from June 12, 2018, until June 19, 2018; and (2) add a budget worksession on April 24, 2018, at 3:00 p.m. in the 1st Floor North Conference Room of City Hall.

C. RESOLUTION NO. 18-71 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE 5 WALNUT ORVIS PARTY

RESOLUTION NO. 18-72 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE DOWNTOWN AFTER FIVE EVENTS

RESOLUTION NO. 18-73 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE MOUNTAIN SPORTS FESTIVAL VILLAGE

RESOLUTION NO. 18-74 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE CITY SOCCER CLUB PLAYOFF GAME 1.5

Summary: The consideration of resclutions authorizing the City Manager to approve making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 5 Walnut Orvis Party, Downtown After 5, Mountain Sports Festival Village, and Asheville City Soccer Club Playoff Game 1.5.

- Asheville Greenworks has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the 5 Walnut Orvis Party and allow for consumption at this event.

  The 5 Walnut Orvis Party will be held on Wednesday, April 11, 2018, from 5:00 p.m. to 10:00 p.m. within the boundaries of Walnut Street as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council allow them to serve beer and/or unfortified wine at Downtown After 5 and allow for consumption at this event.

  Downtown After 5 will be held on Fridays, May 18, June 15, July 20, August 17, and

September 21, 2018, from 5:00 p.m. to 10:00 p.m. within the boundaries of Lexington Avenue as per the area limits referenced on the accompanying site map.

- Mountain Sports Festival has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Mountain Sports Festival Village and allow for consumption at the event.

  The Mountain Sports Festival Village will be open on Friday, May 25, 2018, from 4:00 p.m. to 10:00 p.m., Saturday, May 26, 2018, from 10:00 a.m. to 10:00 p.m. and Sunday, May 27, 2018, from 12:00 p.m. to 6:00 p.m. within the boundaries of Carrier Park as per the area limits referenced on the accompanying site map.

- The Asheville City Soccer Club has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville City Soccer Club Playoff Game 1.5 and allow for consumption at the event.

  The Asheville City Soccer Club Playoff Game 1.5 will be held on Thursday, July 12, 2018, from 6:00 p.m. to 10:00 p.m. within the boundaries of Memorial Stadium as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Greenworks, Asheville Downtown Association, Mountain Sports Festival, and Asheville City Soccer Club

Con:

- Potential for public safety issues

Staff recommends City Council adopt resolutions authorizing the City Manager to approve making provisions for the possession and consumption of malt beverages and/or unfortified wine at the 5 Walnut Orvis Party, Downtown After 5, Mountain Sports Festival Village, and the Asheville City Soccer Club Playoff Game 1.5.

RESOLUTION NO. 18-71 - RESOLUTION BOOK NO. 39 - PAGE 328
RESOLUTION NO. 18-72 - RESOLUTION BOOK NO. 39 - PAGE 331
RESOLUTION NO. 18-73 - RESOLUTION BOOK NO. 39 - PAGE 334
RESOLUTION NO. 18-74 - RESOLUTION BOOK NO. 39 - PAGE 337

D. RESOLUTION NO. 18-75 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR THE MORRIS STREET STORMWATER IMPROVEMENT PROJECT

ORDINANCE NO. 4660 - BUDGET AMENDMENT FOR THE MORRIS STREET STORMWATER IMPROVEMENT PROJECT

Summary: The consideration of (1) a resolution authorizing the City Manager to execute a contract with Patton Construction Group, Inc. (Patton) for construction services necessary to perform the Morris Street Stormwater Improvement Project in the amount of $910,166.00 and to enter into change orders to this contract not to exceed an additional 15% of the original contract amount or $136,525.00 for a total amount of $1,046,691.00; and (2) a budget amendment in the amount of $327,318.00 from other project savings and the Stormwater Operating Fund to fund the contract and the 15% contingency.

Currently there is not an existing storm drainage system along Morris Street from Brevard Road to West Asheville Park. Citizens in this area have been experiencing issues during heavy rainfall events with water overtopping the roadway and running onto private property. Stormwater runoff also accumulates along the edge of the pavement of Morris Street creating low shoulders and/or shoulder erosion. The stormwater accumulation continues to flow down Morris Street and enters the West Asheville Park creating erosion concerns within the park setting.

Within the scope of the project, Patton will install approximately 2330 feet of new storm drainage infrastructure and approximately 3150 feet of curb. This project also provides for additional water quality benefits by having Patton expand the existing stormwater control measure within the West Asheville Park which is designed to capture the stormwater runoff from Morris Street for low flow storm events.

Through the design phase of the Morris Street Project, City Staff and the consulting engineer met multiple times with the neighborhood to discuss the project in detail. Individual meetings were held with various property owners to discuss the specifics of the project adjoining their property and to work through any concerns associated with the project. Our project will be better by having these interactions with the neighborhood and individual property owners.

The project was posted for bid on October 3, 2017. A mandatory pre-bid meeting was held with a large turnout on October 16, 2017. The bids were opened on October 24, 2017, after receiving complete bid submittals from three bidders. The apparent lowest bidder was more than 10% over the engineer's estimate. Therefore, the City decided to reject all bids, redesign a portion of the project and bid the project again.

The revised project was posted for bid on December 12, 2017. This time a non-mandatory pre-bid meeting was held on December 19, 2017. Bids were scheduled to be opened on January 9, 2018; however, only two bids were received. The bids were not opened and were returned to the contractors. Following the re-bid process, the project was re-advertised for at least 7 days. Three bids were received and opened on January 18, 2018, with the following results for base bids:

Graham County Land Company of Robbinsville, NC	$899,362.50
Patton Construction Group of Arden, NC	$910,370.00
NHM Constructors of Asheville, NC	$1,247,405.00

Upon careful consideration of the bidders, their bid submittals and their qualifications, the City determined that Patton Construction Group, Inc. was the lowest responsive responsible bidder. Graham County Land Company, though the lower bid, was determined to be "non-responsible" due to performance issues in other current city contracts. After discussions with Patton and considering the alternate bid item, the final contract amount will be $910,166.00.

Pros:

- Installation of a new storm drainage system in this area prevents future roadway maintenance issues.
- Expanding the existing stormwater control measure within West Asheville Park provides additional stormwater quality benefits.
- Controlling stormwater runoff provides safe access for the citizens that visit this area.
- Making capital investments through projects achieves a goal of the Stormwater Utility Program.

Cons:

- Construction will be disruptive to the area for approximately 5 months.

- Cost of project

The total amount of the contract is $910,166.00. Adding in a 15% contingency of $136,525.00 brings the total required budget to $1,046,691.00. A budget of $750,000.00 was approved for this project in FY 2016-17 in the Stormwater Capital Project Fund with easement acquisition services charged to the project in that year. There is currently a balance of $719,373.00 remaining for construction of this project. In order to fund the construction contract and the 15% contingency, a budget amendment is required in the amount of $327,318.00. This amount can be funded from a combination of savings from other projects that were completed under budget and available money within the professional services account of the Stormwater Operating fund.

City staff recommends City Council adopt a resolution awarding the contract to Patton Construction Group and authorizing the City Manager to execute on behalf of the City of Asheville the contract for the construction services necessary to perform the Morris Street Stormwater Improvement Project in the amount of $910,166.00 and to enter into change orders to this contract not to exceed an additional 15% of the original contract amount or $136,525.00; and approve a budget amendment in the amount of $327,318.00 from other project savings and the Stormwater Operating Fund to fund the contract and the 15% contingency.

RESOLUTION BOOK NO. 39 - PAGE 340
ORDINANCE BOOK NO. 32 - PAGE 23

E. RESOLUTION NO. 18-76 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR, AND ENTER INTO, IF AWARDED, THREE FEDERAL EMERGENCY MANAGEMENT AGENCY GRANTS

Summary: The consideration of a resolution authorizing the City Manager to apply for and enter into, if awarded, three Federal Emergency Management Agency (FEMA) grants.

There are currently three federally funded grant programs that the Asheville Fire Department has applied for in the past. The three programs are all administered by FEMA and are awarded after several different reviews, with the final decision being made by fire service members who review all the applications based upon the proposed expected outcomes and community needs. The three programs are:

- AFG- Assistance to Firefighters Grant
- SAFER- Staffing for Adequate Fire and Emergency Response Grant
- Fire Prevention and Safety Grant

All three programs are authorized annually by the US Senate and Congress, and the amounts available vary from year to year. The application periods are established when the funding is secured and typically is only a few weeks.

The AFG program is focused primarily on the equipment required for firefighters to perform their duties in a more safe manner. Items such as Self Contained Breathing Apparatus (SCBA), protective equipment, and items to reduce cancer risks have been focused areas of the program in the past. AFD has applied every year except last year for this grant, but unfortunately we have not been successful. We did not apply last year due to the timing of the application window.

The SAFER program is designed to help fire departments hire and retrain additional firefighters to provide for a safer emergency scene. Multiple studies over the past 10 years have shown that the overall effectiveness of emergency scene operations increase significantly as

minimum fire company staffing increases up to a level of 4 firefighters per company. AFD has also applied for this grant every year it has been available, but our applications were at the bottom of those considered over the past few years as agencies that were confronted with reducing staffs were a priority for consideration.

The Fire Prevention and Safety Grant focuses on equipment and programs for community risk reduction. AFD was successful last year in the Fire Prevention and Safety Grant program, we were awarded $110,000 to purchase items for education programs focused on kids and smoke alarms that are being installed in homes all over the City of Asheville.

The unpredictable and short application periods make it difficult for staff to provide Council with adequate time to review needs and provide policy direction for grants prior to the application deadlines. AFD recommends policy direction from Council to apply for all of these grants as they become available. In future years AFD staff will return with recommendations to seek future grant opportunities.

The Finance Committee reviewed and supported this action at their February 27, 2018, meeting.

Pros:

- Firefighter and Citizen safety would be increased significantly
- Grant would bring COA into compliance with national consensus standards
- The grant would allow a much-needed infusion of protective gear
- AFD would not need to request funds to be spent from the Fund balance for added safety equipment

Con:

- The total match for all three grants could be between $5,000 and $862,500. This range of matching funds is explained in the fiscal impact section of this staff report.

The Assistance to Firefighters Grant (AFG)

- Requires a 10% local match.
- The grant amount, if awarded, would likely be between $200,000 and $500,000
- One time local match would be between $10,000 to $50,000.

The Staffing for Adequate Fire and Emergency Response Grant (SAFER)

- Awarded over a three year period.
- The first year and second year require a 25% local match, and the third year requires a 65% local match.
- The grant amount, if awarded, would likely be between $300,000 and $750,000 annually.
- The local match would be between $75,000 and $187,500 in years one and two. The local match for year three would be between $195,000 and $487,500.
- The grant does not require the City to maintain the higher level of staffing after year three. If Council direction at year four was to continue the higher staffing level, the cost in year four and ongoing would be between $309,000 and $772,500 (increasing annually with inflation). If the direction was to return to current level staffing after year three, the firefighters hired under the grant would be reassigned within the department and normal hiring in year four would be curtailed, with no ongoing staff or financial impact.

Fire Prevention and Safety Grant

- Requires a 5% local match.
- The grant amount, if awarded, would likely be between $100,000 and $200,000.
- One time local match between $5,000 to $10,000.

12

City staff recommends City Council authorize the City Manager to apply for, and enter into, if awarded, three Federal Emergency Management Agency grants.

RESOLUTION BOOK NO. 39 - PAGE 341

F. ORDINANCE NO. 4661 - BUDGET AMENDMENT FROM NC GOVERNOR'S CRIME COMMISSION'S STATE APPROPRIATION COMMITTEE - LOCAL SOLICITATION TO PURCHASE FLEET DASHBOARD CAMERA SYSTEMS

Summary: The consideration of a budget amendment in the City's Special Revenue Fund, in the amount of $113,900.00 utilizing funds from the NC Governor's Crime Commission's State Appropriation Committee—Local Solicitation to purchase fleet dashboard camera systems, along with the City match.

On January 23, 2018, the City of Asheville Police Department (APD) requested authorization to apply for and if awarded, accept funds from the NC Governor's Crime Commission's State Appropriation Committee 2017-2018 Body/Dashboard Cameras - Local Solicitation. On March 1, 2018, the APD received notice that they would be awarded this grant for $56,950. Since this is a dollar for dollar matching grant, it is now requested that City Council authorize a budget amendment of $113,900 to include the $56,950 of State grant funding as well as the $56,950 in matching City funds.

These funds will be used to purchase dashboard cameras. The purchase of new cameras will help to update the existing camera inventory and equip new cars with this technology. Cameras are a essential piece of technology for 21st Century Policing. The use of cameras increases the accountability for officers and citizens during law enforcement interactions. This increased accountability enhances the police-community partnerships and decreases use of force. Moreover, criminal and internal investigations are augmented through audio-visual evidence that corroborates the factual basis of an incident.

Pro:

- The City will receive 50% funding for equipment they would otherwise be 100% funded from the City budget.

Cons:

- Ongoing budgeted funding required to sustain the Dashboard Camera program into the future police operations that includes a FTE to manage the program and the continual costs for the maintenance and replacement after the approximate five-year service life of the devices.
- Ongoing task and costs associated with managing, storing, providing discovery, and following retention schedules.

The City will incur an expense as the Local Solicitation is a state-issued matching grant ($1 state for every $1 local). The total expense for the purchase of the 50 camera systems is $113,900; $56,950 provided by the City of Asheville and $56,950 provided by this grant. The City's local match will come from capital funds already budgeted in FY 2017-18 for the replacement of police vehicles and the associated equipment. Moreover, there will be continual costs for maintenance and replacement after the approximate five-year service life of the devices.

Staff recommends City Council approve a budget amendment in the City's Special Revenue Fund, in the amount of $113,900.00 utilizing funds from the NC Governor's Crime

Commission's State Appropriation Committee—Local Solicitation to purchase fleet dashboard camera systems, along with the City match.

ORDINANCE BOOK NO. 32 - PAGE 25

G. RESOLUTION NO. 18-77 - RESOLUTION ADOPTING THE 2017 LOCAL WATER SUPPLY PLAN

Summary: The consideration of a resolution adopting the 2017 Local Water Supply Plan (LWSP) as required by the North Carolina Department of Environmental Quality (NCDEQ).

Every year, the Water Resources Department is required to complete a Local Water Supply Plan (LWSP) update. On March 2, 2018, the North Carolina Department of Environmental Quality (NCDEQ) issued a letter stating that the department's 2017 LWSP is complete and must be adopted by the water system's governing board. The LWSP contains a variety of information about the City of Asheville's water system, including:

- The distribution system (i.e. types/sizes of water lines);
- Water conservation programs;
- Water use (i.e. number of metered connections and average use by customer type);
- Water sales to wholesale customers;
- Monthly withdrawals from reservoirs;
- Surface water sources (i.e. locations and average monthly withdrawals);
- Wastewater discharge by the Metropolitan Sewerage District (MSD);
- Present and projected population;
- Present and future water supplies; and
- Other relevant information as NCDEQ may require.

In order for the 2017 LWSP to be compliant with N.C.G.S. §143-355(l), City Council must formally adopt the plan. Once the City Council adopts the 2017 LWSP, NCDEQ will consider it compliant.

Pro:
- Adoption of the 2017 LWSP will ensure compliance with N.C.G.S. §143-355(l).

Con:
- If the 2017 LWSP is not adopted, then the City will not be compliant with N.C.G.S. §143-355(l) and may be issued a Notice of Violation from NCDEQ.

There is no fiscal impact.

City staff recommends City Council adopt the 2017 Local Water Supply Plan as required by the North Carolina Department of Environmental Quality.

RESOLUTION BOOK NO. 39 - PAGE 342

H. RESOLUTION NO. 18-78 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH THE FRENCH BROAD METROPOLITAN PLANNING ORGANIZATION FOR TRANSIT PERFORMANCE MANAGEMENT REPORTING REQUIRED BY THE FEDERAL TRANSIT ADMINISTRATION

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the French Broad River Metropolitan Planning Organization (FBRMPO) for transit performance management reporting required by the Federal Transit Administration (FTA).

In order to comply with Federal transit requirements established in 23 CFR 450.314, the MPO, State, and local transit providers must jointly agree upon and develop specific written procedures for cooperatively developing and sharing information related to transportation performance data, the selection of performance targets, the reporting of performance targets, the reporting of performance to be used in tracking progress toward achievement of critical outcomes for the region served by the MPO, and the collection of data for the State asset management plan for the National Highway System (NHS).

This agreement requires that the City provide written notice to the MPO when the City's Transit Planning Division sets transit asset management performance targets. This notice will provide the targets and the date the targets were set. The date the targets were set will begin the 180-day time-period within which the MPO must set performance targets.

Pros:

- Satisfies a requirement from the Federal Transit Administration.
- Ensures continued Federal funding.
- Improves system performance by consistent reporting and coordinating performance management goals.

Con:

- Federal funding could be jeopardized if action is not taken.

There is no fiscal impact as a result of this agreement. The performance reporting is already a requirement of the FTA, and the agreement only establishes that the City will coordinate with the MPO on the performance targets.

Staff recommends that City Council adopt a resolution authorizing the City Manager to enter into an agreement with the French Broad River Metropolitan Planning Organization (FBRMPO) for transit performance management reporting required by the Federal Transit Administration (FTA).

RESOLUTION BOOK NO. 39 - PAGE 343

I. RESOLUTION NO. 18-79 - RESOLUTION SUPPORTING A REVISION TO THE CONCEPTUAL CROSS-SECTION FOR SWEETEN CREEK ROAD IN THE ASHEVILLE IN MOTION MULTIMODAL TRANSPORTATION PLAN

Summary: The consideration of a resolution supporting a revision to the Asheville in Motion (AIM) cross-section recommendation for Sweeten Creek Road from Rock Hill Road to Hendersonville Road.

The N.C. Dept. of Transportation (NCDOT) has begun planning and designing a $50,000,000 project to widen and reconstruct Sweeten Creek Road from Rock Hill Road to Hendersonville Road.

City staff has recently begun a more proactive approach to NCDOT projects within Asheville city limits to ensure they meet the goals and priorities of the city. From recent correspondence with the NCDOT project manager for Sweeten Creek Road, we understand that NCDOT is meeting sometime in May 2018 to discuss best fit cross-section alternatives for the Sweeten Creek Road project.

Due to the fact that the Asheville in Motion (AIM) plan recommendation, a five-lane undivided road with bollard-separated bike facilities, is not consistent with NCDOT practice, we believe it would be best for the city to gain consensus on a cross-section concept that aligns with stakeholders and best practice to then provide a revised City of Asheville adopted concept to NCDOT before their May meeting.

An alternative concept proposes a separated, off-road bicycle facility that is integrated with a sidewalk on one side of the street.

Potential benefits include the following:

- Reduced overall footprint, impervious surfaces (~8 acres), and associated costs
- Safer facilities for all users (cars, bicycles, pedestrians)
- Better north/south multimodal facilities
- Consistent with the vision established by the Sweeten Creek Association of Neighborhoods (SCAN)

Primary challenges:

- Driveways along the multi-use path
- Maintenance of planted median
- Uncertain city costs relating to non-standard infrastructure (see below Fiscal Impact)

The design process would determine which side of Sweeten Creek Road would best accommodate a multi-use path based on constraints and site conditions. The concept was presented to the Multimodal Transportation Commission on February 28, 2018 and to the Planning and Economic Development Committee on March 12, 2018, and both bodies support the concept.

It is uncertain how much local funding would need to be provided for this alternative concept, if any. For NCDOT projects, Asheville typically contributes 40% of the cost of sidewalk (concrete only). In this case, the shared-use path along what is typically a sidewalk area would be considered a nonstandard treatment and there is no clear cost-sharing guidance at this time.

Staff recommends that City Council approve a resolution updating the Asheville in Motion (AIM) recommended cross-section for Sweeten Creek Road from Rock Hill Road to Hendersonville Road in order to incorporate better multimodal infrastructure which would improve safety for all users.

RESOLUTION BOOK NO. 39 - PAGE 344

J. RESOLUTION NO. 18-80 - RESOLUTION APPROVING THE INCLUSION OF THE ELSIE BRIDGE AND REED CREEK AS CONNECTIONS IN THE NEIGHBORHOOD GREENWAY CONNECTORS SECTION OF THE TRANSPORTATION BOND FUNDS PROGRAM

Summary: The consideration of a resolution to include two projects; specifically, the Elsie Bridge and Reed Creek projects in the *Neighborhood Greenway Connectors* section of the Transportation Bond Funds program.

The Transportation Bond Funds included $1,000,000 for *Neighborhood Greenway Connectors*. These projects are intended to improve greenway connections to neighborhoods and to close existing greenway gaps. In assessing possible projects, staff considered the size/cost of

16

the proposal, equity, safety, schedule, and potential for partnerships to leverage private resources. The following chart highlights projects that were considered and how they compared against each other.

Project	Size/Cost	Equity	Safety	Schedule	Partnership
Elsie Bridge	✓	✓	✓	✓	✓
Reed Creek	✓	✓	✓	✓	✓
Stevens Lee to Beaucatcher	✓	✓	✓	X	✓
Swannanoa to Highlands	✓	X	X	X	✓
AB Tech Loop to AB Tech	X	✓	X	X	✓

Elsie Bridge and Reed Creek rose to the surface as the two most appropriate projects. After the completion of these two projects, there should be enough funding remaining to complete one or two more greenway connector projects. We will wait until these first two projects are complete to give us a clear budget for other connector projects.

The following are more detailed reviews of the two proposed projects:

PROJECT #1 - Elsie Bridge/Town Branch:

Location: River Arts District
Greenway Connection: Town Branch
Cost Estimate: $125,000

Elsie's Bridge is a former road bridge that connects Depot Street to Ralph Street passing between the Glenrock Hotel development and undeveloped City property that is being considered for a future affordable housing location. Although not maintained, the bridge has been a popular cut-through for pedestrians of the Southside community. From Ralph St, there is a dirt path leading to the bridge, which is a ¼ mile short cut to the Mini Mart for residents living to the north. The path is overgrown and dark at night. Residents of Glenrock complain of nefarious activities in this area.

Recently, Mountain Housing Opportunities (MHO) approached the City to ask about the possibility of making this informal connection a better planned facility that can help the neighborhood connect to the future Town Branch Greenway. MHO had the bridge inspected by SKA Consulting Engineers and it was deemed structurally sound as a pedestrian bridge.

MHO would like to partner with the City of Asheville to create an accessible and more attractive connection at the bridge plus a community garden on the corner of the City-owned property. Due to a sewer easement in the area, the proposed site for the community garden is not suitable for housing development and a community garden could be the highest and best use of the land. Incidentally, the sewer line that runs beneath the property is newly installed.

MHO has expressed an interest in paying for the design of the facility contingent on a commitment from the city to build it. To date, MHO has raised $6,400.

Pros:

- This connector will provide safety and aesthetic improvements to a heavily-used pathway

between two neighborhoods and the Town Branch Greenway
- A community garden will be added to this trail project in partnership with the Glenrock residents and the City of Asheville Sustainability Office
- This trail would be built on a corner of city-owned land that is not suitable for housing development

Con:
- No identified constraints have been identified.

PROJECT #2 - Reed Creek Greenway from Magnolia to Elizabeth Street

Location: Broadway Ave/ Montford
Greenway Connection: Reed Creek
Cost Estimate: $350,000

A private developer is building a mixed-use building on the corner of Broadway Ave and Elizabeth St. The proposed building will have 4000 square feet of commercial space and 36 residential units. The construction is planned to begin in early April.

As part of the project, the developer will build approximately 150' of the Reed Creek Greenway adjacent to their driveway on Elizabeth St. The impetus to construct this segment of the greenway is to prevent future greenway construction to block their driveway. The City has a greenway easement on this property and owns all property between it and the existing terminus of the greenway on the north side of Magnolia Street.

Due to the tight development of the site, once built, there will not be sufficient space for the property owner to allow a temporary construction easement to the City. With this consideration, staff recommends building the remaining approximately 190' of greenway on the property while the site is under construction; and to build approximately 445' of greenway northward to close the gap between Elizabeth St and Magnolia St. The most efficient way to conduct this project would be to agree on the costs of the greenway on the developer's property and pay them to build the greenway as part of their project. The City could then build the gap that travels underneath Chestnut St bridge to connect with the Reed Creek Greenway where it currently terminates at Magnolia Street.

Pros:
- This connector will create another 0.15 miles of greenway on the Reed Creek corridor.
- Constructing the greenway on the developer's property now will minimize disturbance to current and future residents by consolidating two projects.
- Striking a private/public partnership to construct the greenway on the developer's property will enjoy cost efficiencies and reduce environmental impacts toReed Creek.

Cons:
- This project is time sensitive. If we are unable to obtain approval for this project in a timely manner, we will lose the opportunity to move forward with the developer's timeline. Waiting to construct this greenway section at a later date will most likely cost more money than constructing it now.

This action was shared with the Asheville Area Riverfront Redevelopment Commission (AARRC) on March 8, 2018 and the Reed Creek project was reviewed and approved by the Montford Neighborhood Association on March 13, 2018. It was also shared with the River Arts District Business Association (RADBA) on March 27, 2018 and favorably received.

This action was reviewed and approved by the Greenway Committee on March 1, 2018, the Multi-Modal Transportation Commission on February 28, 2018 and the PED Committee on

March 12, 2018.

The costs of these projects will be paid for with transportation bond funds that are already budgeted.

Staff recommends that City Council approve a resolution authorizing the City Manager to use a portion of the Neighborhood Greenway Connectors funds of the Transportation Bond for the construction of two separate projects: 1) a portion of the Reed Creek Greenway and 2) a neighborhood connection within the Town Branch Greenway corridor, known as Elsie Bridge.

RESOLUTION BOOK NO. 39 - PAGE 345

K. RESOLUTION NO. 18-81 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH AMEC FOSTER WHEELER FOR ON-CALL GEOTECHNICAL AND ENVIRONMENTAL ENGINEERING SERVICES

Summary: The consideration of a (1) resolution authorizing the City Manager to enter into a professional services contract with Amec Foster Wheeler for on-call geotechnical and environmental engineering services; and (2) a resolution authorizing the City Manager to enter into a professional services contract with S&ME, Inc. for on-call geotechnical and environmental engineering services.

A primary function of the General Services Department is the stewardship of City-owned properties and facilities. The Department is involved with the life cycle of the City's real estate assets, including the initial acquisition of real property, construction and renovation of facilities, and disposition of assets. As a best practice within real estate asset management, municipalities and institutional entities across the State maintain on-call service contracts with firms that support the acquisition, maintenance and management of real estate assets.

Within this framework, the City requires geotechnical or environmental engineering services for various purposes, which include informing the redevelopment of City-owned property, providing needed due diligence on property that the City may acquire, materials testing for construction, etc. Firms within this area of expertise typically perform the following professional services:

1. Geotechnical Engineering: Subsurface assessments, foundation testing, and other geotechnical services related to real property and/or redevelopment of real property; and
2. Environmental Services: Phase I and Phase II Environmental Site Assessments, Asbestos and Lead Paint Assessments, Remediation Design, Indoor Air Quality Assessments, Groundwater Testing and other Environmental services related to real property and/or the redevelopment of real property.

In order to secure firms to perform this work, the City must follow a qualifications-based procurement process. A Request for Qualifications for these services on an on-call basis was published on January 5, 2018. In response to the Request for Qualifications, the following nine firms submitted packages:

EAS Professionals (Asheville, NC Office)	Anchor QEA (Asheville, NC Office)
ECS Carolinas (Asheville, NC Office)	Amec Foster Wheeler (Asheville, NC Office)
S&ME, Inc. (Arden, NC Office)	Mid-Atlantic (Charlotte, NC)
Froehling & Robertson (Greenville, SC)	Little Environmental, PLLC (Raleigh, NC)
SUMMIT (Simpsonville, SC Office)	

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. Two firms scored high enough to be short-listed for on-site interviews, including S&ME, Inc. and Amec Foster Wheeler. Staff discussed with each firm and determined that the best course of action was to contract with both firms in accordance with the scope and framework of the Request for Qualifications. S&ME, Inc. and Amec Foster Wheeler have agreed to this approach and both firms are well-qualified in all the required disciplines, with extensive experience and expertise in this field of work.

If the following resolutions are approved, the City will then enter into a contract with these firms for on-call services. Once a specific project is identified for City-owned real property or property the City wishes to acquire, the City will then reach out to the appropriate contracted firm and negotiate a scope of work and final pricing for those services based on the contracted cost framework and specific project needs. The duration of these on-call service contracts will be for an initial term of one year with an option to renew for up to two additional one-year periods. For the initial term, the total expenditure of each contract is not expected to exceed $250,000.

Pros:

- Well-qualified firms will perform needed services in support of ongoing City real estate and facilities management.
- These services will be available to support various programs and projects within the City's portfolio, including redevelopment of City-owned land for affordable housing, capital improvement projects, facilities construction and renovation projects, and acquisition of real estate to support Council's strategic goals.

Cons:

- None identified.

Each contract will be established at a not-to-exceed amount of $250,000 over the initial term. At the point in which a project, scope of work, and task cost are identified, the funds must be programmed and/or budgeted within the annual operating or capital project budget.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a professional services contract with Amec Foster Wheeler for on-call geotechnical and engineering services; and (2) a resolution authorizing the City Manager to enter into a professional services contract with S&ME, Inc. for on-call geotechnical and engineering services.

RESOLUTION BOOK NO. 39 - PAGE 346

L. RESOLUTION NO. 18-82 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH S&ME FOR FOR ON-CALL GEOTECHNICAL AND ENVIRONMENTAL ENGINEERING SERVICES

Summary: The consideration of a (1) resolution authorizing the City Manager to enter into a professional services contract with Amec Foster Wheeler for on-call geotechnical and environmental engineering services; and (2) a resolution authorizing the City Manager to enter into a professional services contract with S&ME, Inc. for on-call geotechnical and environmental engineering services.

A primary function of the General Services Department is the stewardship of City-owned properties and facilities. The Department is involved with the life cycle of the City's real estate assets, including the initial acquisition of real property, construction and renovation of facilities, and disposition of assets. As a best practice within real estate asset management, municipalities

and institutional entities across the State maintain on-call service contracts with firms that support the acquisition, maintenance and management of real estate assets.

Within this framework, the City requires geotechnical or environmental engineering services for various purposes, which include informing the redevelopment of City-owned property, providing needed due diligence on property that the City may acquire, materials testing for construction, etc. Firms within this area of expertise typically perform the following professional services:

3. Geotechnical Engineering: Subsurface assessments, foundation testing, and other geotechnical services related to real property and/or redevelopment of real property; and
4. Environmental Services: Phase I and Phase II Environmental Site Assessments, Asbestos and Lead Paint Assessments, Remediation Design, Indoor Air Quality Assessments, Groundwater Testing and other Environmental services related to real property and/or the redevelopment of real property.

In order to secure firms to perform this work, the City must follow a qualifications-based procurement process. A Request for Qualifications for these services on an on-call basis was published on January 5, 2018. In response to the Request for Qualifications, the following nine firms submitted packages:

EAS Professionals (Asheville, NC Office)	Anchor QEA (Asheville, NC Office)
ECS Carolinas (Asheville, NC Office)	Amec Foster Wheeler (Asheville, NC Office)
S&ME, Inc. (Arden, NC Office)	Mid-Atlantic (Charlotte, NC)
Froehling & Robertson (Greenville, SC)	Little Environmental, PLLC (Raleigh, NC)
SUMMIT (Simpsonville, SC Office)	

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. Two firms scored high enough to be short-listed for on-site interviews, including S&ME, Inc. and Amec Foster Wheeler. Staff discussed with each firm and determined that the best course of action was to contract with both firms in accordance with the scope and framework of the Request for Qualifications. S&ME, Inc. and Amec Foster Wheeler have agreed to this approach and both firms are well-qualified in all the required disciplines, with extensive experience and expertise in this field of work.

If the following resolutions are approved, the City will then enter into a contract with these firms for on-call services. Once a specific project is identified for City-owned real property or property the City wishes to acquire, the City will then reach out to the appropriate contracted firm and negotiate a scope of work and final pricing for those services based on the contracted cost framework and specific project needs. The duration of these on-call service contracts will be for an initial term of one year with an option to renew for up to two additional one-year periods. For the initial term, the total expenditure of each contract is not expected to exceed $250,000.

Pros:

- Well-qualified firms will perform needed services in support of ongoing City real estate and facilities management.
- These services will be available to support various programs and projects within the City's portfolio, including redevelopment of City-owned land for affordable housing, capital improvement projects, facilities construction and renovation projects, and acquisition of real estate to support Council's strategic goals.

Cons:

- None identified.

Each contract will be established at a not-to-exceed amount of $250,000 over the initial term. At the point in which a project, scope of work, and task cost are identified, the funds must be programmed and/or budgeted within the annual operating or capital project budget.

Staff recommends City Council adopt (1) a resolution authorizing the City Manager to enter into a professional services contract with Amec Foster Wheeler for on-call geotechnical and engineering services; and (2) a resolution authorizing the City Manager to enter into a professional services contract with S&ME, Inc. for on-call geotechnical and engineering services.

RESOLUTION BOOK NO. 39 - PAGE 347

M. RESOLUTION NO. 18-83 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROFESSIONAL SERVICES CONTRACT WITH WES COLE LAND SURVEYING PA FOR ON-CALL SURVEYING SERVICES

Summary: The consideration of a resolution authorizing the City Manager to enter into a professional services contract with Wes Cole Land Surveying PA for on-call surveying services.

A primary function of the General Services Department is the stewardship of City-owned properties and facilities. The Department is involved with the life cycle of the City's real estate assets, including the initial acquisition of real property, construction and renovation of facilities, and disposition of assets. As a best practice within real estate asset management, municipalities and institutional entities across the State maintain on-call service contracts with firms that support the acquisition, maintenance and management of real estate assets.

Within this framework, the City requires surveying services for various purposes, which include informing the redevelopment of City-owned property, providing needed due diligence on property that the City may acquire, identifying the locations of easements, improvements, utilities, boundary lines, etc. A qualified firm should be able to perform the following services: Boundary survey and plats, topographic survey, ALTA survey, easement exhibits, subdivision plats, metes and bounds descriptions and other survey related services.

In order to secure firms to perform this work, the City must follow a qualifications-based procurement process. A Request for Qualifications for these services on an on-call basis was published on January 5, 2018. In response to the Request for Qualifications, the following eight firms submitted packages:

Wes Cole Land Surveying (Asheville, NC)	Mattern & Craig (Asheville, NC)
McGill Associates (Asheville, NC)	Vaughn & Melton (Asheville, NC Office)
Ed Holmes & Assoc. (Asheville, NC)	Stewart (Raleigh, NC)
The Wooten Co. (Hickory, NC)	GEL Engineering of NC (Raleigh, NC)

The review team utilized a scoring matrix to assess the qualifications of the proposed firms. Three firms scored high enough to be short-listed for on-site interviews, including Wes Cole Land Surveying, McGill Associates, and Mattern & Craig. Scoring by the interview team indicated Wes Cole Land Surveying as the highest-rated offeror in this procurement. Wes Cole Land Surveying is well-qualified in all the required disciplines, with extensive experience and expertise in this field of work.

If the following resolution is approved, the City will then enter into a contract with this firm for on-call surveying services. Once a specific project is identified, the City will then reach out to the contracted firm and negotiate a scope of work and final pricing for those services based on

22

the contracted cost framework and specific project needs. The duration of this on-call service contract will be for one year with an option to renew for up to two additional one-year periods. For the initial term, the total expenditure of the contract is not expected to exceed $100,000.

Pros:

- Well-qualified surveying firm will perform needed services in support of ongoing City real estate and facilities management.
- These services will be available to support various programs and projects within the City's portfolio, including redevelopment of City-owned land for affordable housing, capital improvement projects, facilities construction and renovation projects, and acquisition of real estate to support Council's strategic goals.

Con:

- None identified.

This contract will be established at a not-to-exceed amount of $100,000 over the initial term. At the point in which a project, scope of work, and task cost are identified, the funds must be programmed and/or budgeted within the annual operating or capital project budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a professional services contract with Wes Cole Land Surveying for on-call surveying services.

RESOLUTION BOOK NO. 39 - PAGE 348

N. RESOLUTION NO. 18-84 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A GENERAL SERVICES CONTRACT WITH TELECOMMUNICATION & INDUSTRIAL CONSULTING SERVICES (TELICS) FOR ON-CALL RIGHT-OF-WAY AND EASEMENT ACQUISITION SERVICES

Summary: The consideration of a resolution authorizing the City Manager to enter into a general services contract with Telecommunication & Industrial Consulting Services Corporation (TELICS) for on-call right-of-way and easement acquisition services.

The City's Real Estate Division is frequently called upon to acquire easements or other fee interests of private property for capital improvement projects and other City projects wherein access to real property is essential for project completion. At this time, staff seeks to engage a qualified firm to provide right-of-way (ROW) and easement acquisition services on an on-call basis basis to augment the current capacity of the Real Estate Division.

The firm should have experience acquiring easements and fee simple interests for a wide variety of municipal improvement projects such as roadway, sidewalk or greenway installation, water line extension, and/or other transportation and utility projects. The firm must be able to perform acquisition services in compliance with the Federal Uniform Act (URA).

Work assignments may include the following:

- Permanent and/or temporary easement acquisition;
- Fee simple right-of-way acquisition;
- Valuation of real property (i.e., claim reports);
- Appraisal of real property; and
- Relocation services (sign relocations, limited residential/business relocation).

In order to secure firms to perform this work, the City published a Request for Proposals for these services on an on-call basis on January 5, 2018. In response to the Request for Proposals, the following five firms submitted packages:

TELICS (Statesville, NC)	OR Colan Associates (Charlotte, NC)
AECOM Technical Services (Raleigh, NC)	Vaughn & Melton (Asheville, NC Office)
Bernard Johnson Group (San Diego, CA)	

The review team utilized a scoring matrix with specific criteria to assess the responses of the firms. The criteria included costs, qualifications, and experience of the firms. Scoring by the review team indicated TELICS as the highest-rated firm in this procurement. TELICS is well-qualified in all the required disciplines and provided unit pricing that is competitive and appropriate for this field of work.

If the following resolution is approved, the City will then enter into a contract with this firm for on-call right-of-way and easement acquisition services. Once a specific project is identified, the City will then reach out to the contracted firm and negotiate a scope of work and final pricing for those services based on the contracted cost framework and project need. The duration for this on-call service contract will be for one year with an option to renew for up to two additional one-year periods. For the initial term, the total expenditure of the contract is not expected to exceed $250,000.

Pros:

- Well-qualified right-of-way and easement acquisition firm will perform on-call services in support of ongoing City infrastructure improvement programs.
- These services will be available to support various programs and projects within the City's portfolio, such as capital improvement projects in support of Council's strategic goals.

Con:

- None identified.

This contract will be established at a not-to-exceed amount of $250,000 over the initial term. At the point in which a project, scope of work, and task cost are identified, the funds must be programmed and/or budgeted within the annual operating or capital project budget.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a general services contract with TELICS for on-call right-of-way and easement acquisition services.

RESOLUTION BOOK NO. 39 - PAGE 349

O. RESOLUTION NO. 18-85 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A REVISED AGREEMENT WITH BUNCOMBE COUNTY TO SHARE THE COSTS OF A COMPOSTING FEASIBILITY STUDY

Summary: The consideration of a resolution authorizing the City Manager to enter into a revised agreement for payment of $37,500 to Buncombe County for half the cost of a *completed* composting feasibility study.

On June 28, 2016, City Council voted to authorize the City Manager to enter into an agreement with Buncombe County to share the cost of a composting feasibility study. Phase II of the Organics Feasibility Study was completed last month. The research and data compiled from the study will help inform the Sanitation Division's Solid Waste Management Plan. Funding for

the Solid Waste Management Plan was submitted through the Fiscal Year 2019 budget in the Public Works Department.

The original document reflected a "not to exceed dollar amount of $37,000". The correct amount is $37,500. Approval of this action will corrects that error.

Pro:

- Funding for Resolution 16-152 is available and ready for payment to Buncombe County

Con:

- None Identified

As noted above the total cost of the portion of the study is $37,500, with funding utilized from Green Revolving funds.

Staff recommends City Council to approve the difference in payment of $500 and authorize the City to Manager to enter into a revised agreement for payment to Buncombe County, with the cost of the City's portion of the study not to exceed $37,500.

RESOLUTION BOOK NO. 39 - PAGE 350

P. MOTION TO CHANGE THE NAME OF THE FINANCE COMMITTEE TO FINANCE & HUMAN RESOURCES COMMITTEE AND TO CLARIFY THAT ITS AREAS OF INTEREST INCLUDE HUMAN RESOURCES POLICY ISSUES INCLUDING EMPLOYEE COMPENSATION AND PERSONNEL POLICIES WHILE THE GOVERNANCE COMMITTEE CONTINUES TO HAVE OVERSIGHT OF SPECIFIC PERSONNEL MATTERS THAT INVOLVE AN EMPLOYEE

Summary: The following is a memorandum from Councilman Kapoor: "In an effort to better clarify and define Council committee responsibilities, I propose that Council vote to change the Finance Committee's name to the Finance & Human Resources Committee and to clarify that human resources policy issues such as employee compensation and personnel policies (including harassment and discipline) be brought to it. Personnel matters or issues dealing with specific employees (including the City Manager, City Attorney and City Clerk) would be handled by the Governance Committee.

By way of background, the City Clerk explained that the Finance Committee was established by motion in 2006 and its "areas of interest include the annual budget process, capital improvement programming, financial reports, taxes, fees, assessments and infrastructure finance. Fees, Debt Issues, Alternative Revenue Sources; Outside Agency Grants."

Council created the Governance Committee on December 10, 2013, to provide guidance on "City Council Rules of Procedure; Personnel Issues; City Council Retreat Planning, or designate a committee retreat planning; development of legislative agenda; strategic planning process, follow through and accountability; and public engagement, development and recommendation of best practices." While the Governance Committee charge includes "personnel issues," I understand that in practice this meant dealing with specific employee issues rather than more general human resources policy matters which went to the Finance Committee. I don't propose any change to that role – the distinction in responsibility is between personnel policies and procedures that impact the City's workforce and specific personnel matters that involve an employee.

Given the critical role human resources policy plays in the City's operation, we must be

clear that Council will exercise its oversight responsibilities in this area and making this change is a step in that direction."

Q. RESOLUTION NO. 18-86 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A PROFESSIONAL SERVICES AGREEMENT WITH CLARK PATTERSON LEE, P.C., FOR THE U.S. CELLULAR CENTER HVAC DESIGN AND ENGINEERING SERVICES CONTRACT

Summary: The consideration of a resolution authorizing the City Manager to execute a Contract Amendment to the Professional Services Agreement with Clark Patterson Lee, P.C. in the amount of $215,000 for design and engineering services for the U.S. Cellular Center HVAC and Mechanical Renovation Project.

On November 3, 2017, the General Services Department issued a Request for Qualifications for Design and Engineering Services for the U.S. Cellular Center HVAC and Mechanical Renovation project, for professional services including design, planning, and construction administration services. The project is partially funded by a 2016 Tourism Product Development Fund (TPDF) grant for $1,500,000 and City Capital Improvement Program funds that were authorized in the 2016-17 budget.

The project's first priority is to maximize the available construction funds to replace existing equipment and increase system efficiency. These improvements will reduce the U.S. Cellular Center's operating costs and provide greater flexibility for the venue to book a wider range of events. The project's second priority is to provide a complete systems modernization plan for future improvements, which will include cost estimation, scope development, and design in key areas such as the addition of a solar array on the arena roof. The project is based on a 2015 building energy analysis, and the design and planning considerations are being coordinated with the Office of Sustainability.

In response to the Request for Qualifications, the department received eight submittals on November 30, 2017. Companies responding were:

Clark Patterson Lee (Greenville, SC Office)	Griffith Engineering (Charlotte, NC)
RMF Engineering (Charlotte, NC)	McGill Associates (Asheville, NC)
AME Consulting Engineers (Charlotte, NC)	SUD Associates (Asheville, NC)
DeVita (Greenville, SC)	Clark Nexsen (Asheville, NC Office)

Following a review of qualifications by City staff and the program manager, Clark Patterson Lee, P.C., was selected as the most qualified firm. In order to expedite design and ensure the design would be complete in time for construction to be performed during the U.S. Cellular Center's off season, the City Manager awarded an initial scoping and schematic design phase contract in the amount of $50,000 on February 6, 2018. The initial phase is well underway, and it is time to move forward with design development, construction documents, and related activities. The negotiated fee for this additional work requires a contract amendment in the amount of $215,000, and the resulting total contract amount will be $265,000 for consideration by City Council.

Pros:

- Reduce energy consumption and operational costs at the U.S. Cellular Center.
- Improve the venue's ability to host a wider range of events.
- Leverage grant funding in partnership with the Buncombe County Tourism Development Authority.

Con:

- None.

The funding needed for this agreement is currently allocated within the TPDF Theater Project (C1701) in the Capital Improvement Program (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Contract Amendment to the Professional Services Agreement with Clark Patterson Lee, P.C., for the amount of $215,000 for design and engineering services for the U.S. Cellular Center HVAC Design and Engineering Services, which yields a total contract amount of $265,000 for these professional services.

RESOLUTION BOOK NO. 39 - PAGE 351

R. RESOLUTION NO. 18-87 - RESOLUTION AMENDING THE 2018 CITY COUNCIL MEETING SCHEDULE TO CANCEL THE JUNE 12, 2018, AND JUNE 26, 2018, FORMAL CITY COUNCIL MEETINGS AND ADD A FORMAL CITY COUNCIL MEETING ON JUNE 19, 2018

RESOLUTION BOOK NO. 39 - PAGE 352

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. PRIORITIZING EQUITY IN PLANNING AND INVESTING IN RECREATIONAL FACILITIES AND PROGRAMS

Director of Parks & Recreation Roderick Simmons said Urban parks and recreational facilities are dynamic institutions that play a vital role in the social, economic and physical well-being of urban areas and its residents. Dating back to the 19th century when Frederick Law Olmsted introduced the first large-scale urban parks to this country, these green spaces provided relief from urban intensity for residents and brought people together across social, economic and racial divides. Community recreational facilities are not only designed to be safe and beautiful, but also serve as one of the key components in helping to address nearly every critical urban need from health to housing, education, environmental, combating crime and countering developmental sprawl. (City Park Alliance, Why Urban Parks Matter, http://www.cityparksalliance.org (accessed January 9, 2018)

The City of Asheville provides an 803-acre system with 78 facilities, consisting of neighborhood parks, central business district parks, open space, playgrounds, pools, community recreation facilities, sports fields and courts, a golf course, gardens, walking paths, and nature sanctuaries. With this number of physical assets, the system requires an investment in resources to operate, maintain and provide a satisfactory level of service. Over the past ten years, the City has invested a combined total of $5 million, approximately $500,000 per year to address capital maintenance needs, which has only allowed for the rehabilitation of existing facilities when there are failures of critical systems. Funding was not previously available to implement a sustainable,

ongoing maintenance program to maintain all systems during their useful life cycle or to develop a predictable funding model for major facility upgrades or replacement of recreational infrastructure.

The previous lack of funding has resulted in some neighborhoods that have had high-quality public spaces, while others do not meet contemporary needs and have fallen into disrepair. Now, with the passage of the 2016 bond, the City is able to develop a plan to maintain, replace, and upgrade recreational facilities, revolutionizing the park system for years to come.

Equity Plan: The 2009 Parks and Recreation Master Plan identified the community's recreational gaps in services. The majority of the City's parks and facilities that have not received funding since the late 70's and 80's are in communities of low wealth. These parks and facilities have not received the necessary investments to maintain their useful life to provide a safe and enjoyable experience for park visitors. In order to address these gaps and ensure that funding is directed where it is needed, the Parks and Recreation Department developed an equity-based criteria system to prioritize investments in parks and facilities using an Equity Matrix.

The Equity Matrix focuses on racial and economic equity for capital and rehabilitation project scheduling, while providing recreational programs, and services to the community. The Equity Matrix is based on U.S. Census Data, and previous investment priorities for replacement, operating, and maintenance of existing neighborhood park assets.

The Parks and Recreation Department's Neighborhood Recreational Service Plans use the Equity Matrix to help guide annual funding for neighborhood park maintenance, rehabilitation, capital investments and recreational programming.

Equity Goal: The use of the Equity Matrix is meant to quantifiably evaluate neighborhood parks, to ensure investments are equitably targeted in support of the Asheville Parks and Recreation Department's Comprehensive Plan, with particular focus on the theme: *Dynamic Parks That Shape City Character and Meet Diverse Community Needs.*

Through the increase in available funding and the implementation of this data-driven process, the Parks and Recreation Department will invest capital, rehabilitation, maintenance, and programming over the next decade to meet community recreational needs. These needs will be met with a commitment to ensuring that racial and economic equity criteria is utilized in the determination of the distribution of equitable funding to neighborhood parks and programs in the City.

He explained the following equity actions in progress: (1) using census tracts - neighborhood park and recreational facility within each neighborhood in the Census Tract was mapped; (2) used mapping to create department service districts to track equity investments by facility and program; (3) develop Neighborhood Recreational Service Plans for each service district; (4) develop equity pricing strategies for programs and services; (5) on-going re-engineering of department staff and resources to address equity in service delivery and implement the equity action plan; (6) staff equity education and training in connection with the Equity Office; (7) community engagement efforts - revamping strategy (a) community designed outreach efforts; (b) hands on community design workshops; and (c) Shiloh and Grant Center - in the process of developing the Neighborhood Recreational Service Plans; (8) developing a small business database and outreach to minority owned business for projects based on state statute that does not require formal bid process; (9) developing Community Benefit Agreement with school systems to offer programs and make facility improvements for use by the community (a) Asheville Middle School; and (b) South Asheville (Valley Springs); (10) created additional summer camp sites for underserved youth 1st - 6th and 7th-8th grades; (11) offering a Nature Center Camp at the Nature Center for youth from identified underserved neighborhoods; (12) created a

free neighborhood swimming camp at Walton Street pool; (13) offering a year-round YWCA community swim program; (14) help support the Fire Department middle school camp; (15) working with Asheville Police Department and Asheville Fire Department to continue to offer ongoing presentation to after school/summer camp sites; (16) continue to work with City of Asheville Youth Leadership Academy (CAYLA) and In Real Life - providing facility and activities; and (17) continue to conduct youth focus groups with Asheville middle students and CAYLA students to determine gaps in services for youth.

Future action items include (1) locate a bus stop at Nature Center and soccer complex; and (2) youth development program for middle and high school - civic and job training.

He explained that their desired end result is for a more equitable allocation and distribution of public park and recreation resources.

Mr. Simmons responded to various questions from Council, some being, but are not limited to: regarding workforce youth development, is there a possible small stipend; and is it appropriate to look at federal funds from the Dept. of Labor.

B. OFFICE OF SUSTAINABILITY ANNUAL REPORT

Sustainability Officer Amber Weaver said that the Office of Sustainability was created in 2008 to advance the City's efforts in addressing Greenhouse Gas Emissions. Through Resolution No. 11-77, the City's adopted carbon reduction goal for municipal operations of 80% by 2050 was doubled to 4% annual reduction, or 1,114 metric tons of carbon reduced annually. City Council adopted the Sustainability Management Plan in 2009 which outlines eight focus areas and 107 action items. She then reviewed the 2017 progress in achieving the Plan's focus areas, action items and new policies adopted by City Council.

She reviewed the notable Fiscal Year 2017 climate resilience assessment achievements: • Completion of the first three steps in the US Climate Toolkit • Addition of the Climate Resilience Assessment within the City's Comprehensive Plan, Living Asheville. Top priorities for Fiscal Year 2018: • Finalize the Climate Resiliency Assessment • Equity Foundations Training through GARE + USDN • Work with IT Department to include climate hazards on Simplicity • Public Information Sessions • Staff Trainings.

She reviewed the notable Fiscal Year 2017 waste reduction goal achievements include: • Added an additional 388 public housing residents to the City's curbside recycling program for a total of 666 units. • Provided City residents five (5) backyard compost demonstration workshops through Asheville GreenWorks contract. Top priorities for Fiscal Year 2018 include: • Adding an additional 256 public housing units to curbside recycling program. • Composting program at the US Cellular Center's Thomas Wolfe Auditorium. • Additional backyard composting workshops through Asheville GreenWorks contract.

She reviewed the notable Fiscal Year 2017 Food Policy Action plan achievements include: • Updated Food Policy Action Plan through the Asheville Buncombe Food Policy Council contract, with Bountiful Cities as the fiscal agent. • Creation of the Asheville Edibles webpage located on the Office of Sustainability website. • Rollout of the Asheville Edibles Community Garden Program. • Rollout of the Asheville Adopt A Spot program though the Asheville GreenWorks contract. Top priorities for Fiscal Year 2018 include: • Water spigot installations at community gardens. • Bountiful Cities contract to oversee the Asheville Edibles Community Garden Program. • Planting more food on City of Asheville properties • Establishing metrics to determine the City's role in Asheville's larger food system.

Ms. Bridget Herring, Energy Program Coordinator, reviewed the notable Fiscal Year 2017 4% carbon reduction goal achievements include: • To date, the City has achieved 31% of the carbon reduction goal • Reduced carbon emissions by 1.43% from the baseline • Leveraged over $130,000 in Duke Energy Rebates estimated to yield $38,000 in annual avoided energy costs. Top Priorities for Fiscal Year 2018 Include: • LED upgrades at 6 municipal properties • Electric landscaping equipment pilot • Energy Audits for 3 buildings • Rooftop Solar Energy Assessments on 4 rooftops. The City did not achieve the 4% reduction goal and exceeded the target by 249 tons of CO2 equivalent.

She reviewed the notable Fiscal Year 2017 community clean energy policy framework achievements include: • Hired Sustainability Technician to organize and advertise the Asheville Workplace Challenge (AWC) • Launched AWC and celebrated top 3 participants in partnership with the Chamber of Commerce • Embedded clean energy initiatives within the City's Comprehensive Plan, Living Asheville • Installed 2 electric vehicle charging stations in Rankin and Civic Center parking decks with grant from Duke Energy • Created of the Energy Innovation Task Force through Resolution 16-64. Top Priorities for Fiscal year 2018 include: • Contract with Green Built Alliance to oversee AWC • Achieved national SolSmart Gold designation • Proclaimed October 5, 2017, as Energy Efficiency Day and distributed over 550 LED light bulbs to City staff.

She reviewed the notable Fiscal Year 2017 Energy Innovation Task Force achievements include: • Creation of Energy Innovation Task Force (EITF) project page managed by staff which include meeting agendas, meeting minutes and presentations. Top Priorities for Fiscal Year 2018 Include: • Cities Leading through Energy Analysis and Planning (LEAP) analysis • Buncombe County partnership for low-income residential weatherization • Buncombe County partnership for commercial retrofits • Launch of Blue Horizons Campaign • Contract with Green Built Alliance to manage Blue Horizons Campaign.

Ms. Weaver then summarized the Green Revolving Fund expenditures.

In response to Councilwoman Mayfield, Ms. Weaver explained the pay as you throw program, which the City does not implement.

C. I-26 WIDENING PROJECT FROM NC 280 (AIRPORT ROAD) TO I-40 - BRIDGE REPLACEMENT OVER THE FRENCH BROAD RIVER

Mr. David Uchiyama, consultant working with the N. C. Dept. of Transportation, briefed Council on the I-26 widening project from NC 280 (Airport Road) to I-40, in particular the bridge replacement over the French Broad River and the potential impacts on the river users. He noted that a design public meeting will be held on Monday, April 16, 2018, at 4:00 p.m. at Biltmore Baptist Church.

When Councilwoman Mayfield asked about the bats under the bridge, Mr. Uchiyama said the N.C. Dept. of Transportation has funded a study and they are working with the U.S. Fish and Wildlife Service.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 1 BROOKSIDE CIRCLE FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO RESIDENTIAL EXPANSION/CONDITIONAL ZONE FOR 70 RESIDENTIAL UNITS IN THREE BUILDINGS WITH A CLUBHOUSE

ORDINANCE NO. 4662 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 1 BROOKSIDE CIRCLE FROM RM-6 RESIDENTIAL MULTI-FAMILY LOW DENSITY DISTRICT TO RESIDENTIAL EXPANSION/CONDITIONAL ZONE FOR 70 RESIDENTIAL UNITS IN THREE BUILDINGS WITH A CLUBHOUSE

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to conditionally zone property located at 1 Brookside Circle from RM-6 Residential Multi-Family Low Density District to Residential Expansion/Conditional Zone for 70 residential units in three buildings and associated parking with a clubhouse at the property located on 5.89 acres. This public hearing was advertised on March 30 and April 6, 2018.

Ms. Vrtunski said that this this project is considered a Level III Development, which requires a rezoning and is subject to a Conditional Zoning review pursuant to Section 7-5-9 of the city's Unified Development Ordinance (UDO).

The applicant is proposing to build three apartment buildings and a clubhouse with parking on the site. Plans indicate 70 units which is a resulting density of 12 units per acre. The project will provide 21 three-bedroom units, 35 two-bedroom units and 14 one-bedroom units. This project is being proposed as an affordable housing project with 100% of the units being affordable.

The project site is 5.89 acres in Candler near the Westridge shopping center. The lot is nonconforming with no direct street frontage. The site slopes from the northwest to the east. The property is bordered on two sides to the north by residential zoning and development, and along the southern boundary, commercial zoning (Highway Business). Currently there is one single family house on the property.

The site is accessed from a private road from Westridge Shopping Center. Given the topography and surrounding development, this access route makes the most sense as visitors will be able to access the site via a signalized intersection at Smokey Park Boulevard.

Sidewalks are provided in the development leading from buildings to parking areas and the clubhouse. A sidewalk is shown leading from the development to the property line of the shopping center lot. A ramp is required because of the grade of the site.

Parking is provided throughout the site with 105 spaces, which meets the parking requirements for this type of development.

The project is required to comply with landscaping standards, including street trees, a 20 foot type A property line buffer (along the east and west), building impact, vehicle use area and tree save area. Retaining walls may require either screening or natural stone facing depending on height.

Open space is being provided above and beyond required and will need to be shown on plans.

Sec. 7-8-43 states that projects adjacent to residential zoning should be compatible with the immediate neighborhood context in the following ways: building scale, setback and relative height of structures transitioning to existing neighborhood fabric.

The proposed structures are four stories overall, but built into the natural slopes of the site so that northern and western sides of the buildings are three stories in height on the uphill side and four stories on the downhill side. With an overall height of approximately 48 feet

(including the roofs), the buildings are well below the 60 feet in height allowed by the Residential Expansion district. With the topography and landscaping, the development should be sufficiently screened to have a limited impact on surrounding residential development.

Conditions: The applicant is requesting several conditions to modify the standards.

1. Access to the site will be via a private road that enters from the Westridge shopping center. The lot is currently a non-conforming lot without frontage on a road.
2. Sidewalks in front of and connecting the buildings will be 7 feet wide.
3. The street sidewalk connecting the apartment buildings and shopping center shall have a grass strip of varying widths between the back of curb and edge of sidewalk.
4. A fence along the property line adjoining the Brigadoon subdivision will be provided.

This project was approved with conditions by the city's Technical Review Committee (TRC) on February 19, 2018. As this is a Level III review, it will be reviewed by the Asheville City Council. A Final TRC review is also required if approved by City Council.

Planning and Zoning Commission reviewed this project on March 7, 2018, and voted 7-0 in favor of the project. The Commission did discuss several issues including a sidewalk to connect to the existing shopping center stores, ensuring that the street through the shopping center is clearly a street.

The Commission recommended a condition that the developer provide planted islands along the private road where there are currently only painted "islands". At the meeting, the developer was willing to pursue this option, but it was made clear that the parking lot is not under his control and that property owner was not present at the meeting.

The Brigadoon Homeowners Association reached out to staff with concerns. They communicated their concerns to the developer and had a representative at the Planning and Zoning meeting. The developer agreed to several of their requests including providing a fence at the property line, moving the playground and dumpster. No other public comment has been received regarding this proposal as of the writing of this report.

Current zoning is RM-6, Residential Multifamily Low Density District. The applicant is requesting conditional rezoning to Residential Expansion Conditional Zone district.

On January 9, 2018, City Council approved a Conditional zoning for a new Ingles shopping center at 153 Smoky Park Highway, approximately two miles to the east.

The proposed project should be relatively compatible with the surrounding context. To the south are commercially zoned properties along Smokey Park Highway. Directly to the east for a portion of the property is the Westridge Shopping Center, zoned Highway Business. To the northeast and along the west side of the property are residential properties zoned RM-6.

The development of this parcel aligns with the City Development Plan 2025 (i.e. the comprehensive plan), specifically the goal to encourage the construction of affordable housing. The comprehensive plan also identifies this general area as a commercial node on the Future Land Use map.

The proposal aligns with the 2036 Council vision in the following areas (1) A Well-Planned and Livable Community – The project is located near stores, services, and schools in the Enka-Candler area; and (2) Quality Affordable Housing - The development will provide 70 affordable units in the Candler area.

Considerations:

- Project will provide 70 affordable housing units close to needed facilities such as grocery stores, bank, library and schools.
- Proposal meets almost all standards with the exception of lot frontage.
- This is an infill project in a developing area and on a major transportation corridor.
- Higher density housing can serve as an effective transitional use between a commercial corridor and single-family housing, and will support future commercial development on the corridor.

The Planning and Zoning Commission reviewed this project on March 7, 2018. The Commission voted 7-0 in favor of the project and recommended Council approval of this Conditional Zoning request subject to Final TRC approval and the B-1 Conditions that were presented to Planning & Zoning with the addition of planted islands in the parking lot of the shopping center, and a clarification of the type of fence to be installed along the property line with the Brigadoon Subdivision.

Councilwoman Field noted that the HCD Committee approved a Housing Trust Fund loan for this project, which Council will consider later in the meeting.

When Councilman Kapoor asked how many trees will be cut down, Ms. Vrtunski was not sure; however, they have an incentive to keep as many as they can as they get an incentive. This is an affordable housing project and they will want to reduce their costs as much as possible.

The President of Workforce Homestead, Inc. said that this will facilitate the much needed affordable housing. He felt this is an ideal location for working families that can walk to a grocery store, YMCA, banks and restaurants. He asked for Council's support. He too, was not sure how many trees would be cut down, noting that parts of the parcel are cleared and some are not.

When Vice-Mayor Wisler asked when a decision will be reached on the federal housing tax credit awards, the President of Workforce Homestead said mid-August, noting it is a very competitive process.

Mayor Manheimer opened the public hearing at 6:25 p.m. and when no one spoke, she closed the public hearing at 6:25 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the conditional zoning request for Residential Multifamily Low Density District to Residential Expansion Conditional zone for the Amaranth Apartments project with the requested conditions and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) the project provides much needed affordable housing; and, (2) the development is well located such that residents will have good access to schools, community services and commercial businesses. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 32

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4663 - ORDINANCE ESTABLISHING A HUMAN RELATIONS COMMISSION OF ASHEVILLE

Deputy City Attorney Kelly Whitlock said that this is the consideration of an ordinance establishing a Human Relations Commission of Asheville (HRCA).

In May of 2017 the City Council provided a directive to establish a human relations commission in the City to deal with issues relating to equity and human relations.

N.C. Gen. Stat. §160A-492 authorizes cities to undertake a human relations program and appoint a commission to carry out such program. The statute defines a human relations program as "one devoted to (i) the study of problems in the area of human relations, (ii) the promotion of equality of opportunity for all citizens, (iii) the promotion of understanding, respect and goodwill among all citizens, (iv) the provision of channels of communication among the races, (v) dispute resolution, (vi) encouraging the employment of qualified people without regard to race, or (vii)) encouraging youth to become better trained and qualified for employment."

In furtherance of its directive and goal to promote equity in the City, the City Council appointed a Blue Ribbon Commission ("BRC") as an advisory body to provide recommendations to the City Council about the mission, scope and duties of a human relations commission. The BRC held approximately 12 meetings over a period of several months and presented its final recommendations to the City Council at its February 13, 2018, meeting.

City staff drafted an ordinance creating a Human Relations Commission of Asheville ("HRCA") that incorporates the recommendations provided by the BRC and state law requirements.

In summary, the ordinance includes the following sections: i) Establishment and Purpose; ii) Definitions; and iii) Duties, Membership and Rules of Procedure. The membership of the HRCA is comprised of 15 members appointed by the City Council. Membership is intended to reflect the groups of individuals that the human relations program is intended to assist and protect, including but not limited to, individuals from different races, ethnicities, sexual orientation and socioeconomic backgrounds.

Duties of the HRCA include, but are not limited to, the following: i) making policy recommendations to the City Council which promote and improve human relations and advance equity in the City; ii) supporting the City's Office of Equity and Inclusion; iii) providing a forum where residents can raise issues and complaints relating to human relations in the City; iv) engaging the community regarding the utilization of City-funded programs and policies for the promotion of human relations; and 5) promoting and improving human relations and advance equity in the following areas: public safety; educational, art and cultural opportunities; economic development; health and human services; and housing.

The proposed ordinance was presented to the City Council's Boards and Commissions Committee on March 13, 2018. With some proposed minor modifications which are incorporated herein, it was the consensus of the Committee to recommend adoption of the proposed ordinance.

Pros:

- Serves to improve human relations in Asheville by partnering with communities and agencies in an effort to better promote and ensure diversity, equity and inclusion.
- Serves to identify and address all forms of individual, institutional and community level discrimination through education, advocacy and policy recommendations.
- Increases community engagement.

Con:

- None noted.

Staff recommends adoption of the ordinance.

In response to Councilwoman Mayfield, Ms. Whitlock said that while the ordinance does not spell out all the Blue Ribbon Committee recommendations, it is noted in the ordinance that City Council desires that the Committee be guided and influenced by those recommendations.

City Attorney Currin also noted that the Commission cannot make binding decisions or policy decisions because that is not within the scope of their under authority under the General Statutes.

Councilwoman Mayfield felt that the recommendations by the Blue Ribbon Committee requested broader authority regarding providing a forum for citizens to come to raise issues and bring concerns about racial equity. Ms. Whitlock responded that said that state law prohibits local governments from regulating private employers or regulating public accommodations. That means that this Commission cannot rule on a grievance or regulate a private employer but they can hear a complaint and grievance and help resolve them in any other way.

Councilman Young felt that scope can be developed by the Commission.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4663. This motion was seconded by Councilman Haynes and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 35

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-88 - RESOLUTION AUTHORIZING THE APPROVAL OF HOUSING TRUST FUND LOANS TO WORKFORCE HOMESTEAD INC. AND MOUNTAIN HOUSING OPPORTUNITIES INC.

Community Development Analyst Chris Hnatin said this is the consideration of a resolution authorizing the approval of Housing Trust Fund loans to Workforce Homestead, Inc. and Mountain Housing Opportunities, Inc.

Staff received two (2) Housing Trust Fund (HTF) applications totaling $2,400,000 in requested funds for the creation of 130 affordable rental units. These applications were presented to the Housing and Community Development Committee (HCD) on March 23, 2018. The HCD Committee recommended the full amount requested for each project be awarded ($2,400,000 total) to the applicants.

The following applications have been recommended by HCD for approval:

1) *Amaranth Apartments*: Workforce Homestead, Inc. asks $600,000 for the construction of a 70 unit rental development with all units serving households earning 60% AMI or less. Project is located on Smokey Park Highway (Enka/Candler area) and is a 100% affordable Low Income Housing Tax Credit (LIHTC) project.

2) *Clingman @ Hilliard*: Mountain Housing Opportunities Inc. asks $1,800,000 for the construction of an 80 unit mixed-income rental development with 60 units being reserved to households earning 60% AMI or less. Project is located downtown, is mixed-use, and a Low Income Housing Tax Credit (LIHTC) project.

Workforce Homestead, Inc. – Amaranth Apartments ($600,000)

Workforce Homestead, Inc., proposes a 70 unit all affordable multi-family rental Low Income Housing Tax Credit (LIHTC) development, known as Amaranth Apartments. The developer is seeking a $600,000 Housing Trust Fund loan. The project will serve all levels of low to very low incomes (60%, 50%, and 30% AMI's) and vouchers will be accepted. The project is designed with 3 buildings each ¾ split level with a park and community center on site; it will receive Energy Star certification, 5% of the units will be fully ADA accessible and reserved for homeless transition or those with disabilities; and a 30 year affordability period, per LIHTC agreements, will accompany the project. The project is expected to begin construction in May 2019 and completing in November 2019.

The proposed project is on a 5.89 acre site located off of Smoky Park Highway next to the Westridge Shopping Center. It is zoned RM-6 and does require rezoning Planning and Zoning and Technical Review reviews are taking place. It is 8 miles from downtown and is within 1/4 mile of jobs and services, including grocery, pharmacy, YMCA, and AB-Tech. Transit does not extend to this site, but is a corridor that is mapped for extension and a gap transit service is provided by Buncombe County.

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions

30% AMI Units	50% AMI Units	60% AMI Units	Loan Amount	HTF Loan Per Unit	Afford ability Period (Years)	HTF Loan/Unit / Year	Interest Rate*	Term (Years)	Type
18	10	42	$600,000	$8,571	30	$285	Adjustec to meet 1.15 DCR (est. 0.5% average)*	20	Amortized with Balloon Payment

**Outside of policy*

Proposed Total Development Costs and Loan Allocations

Total HTF Loan Amount	Total Development Cost	Loan % of Total Development Cost	Total cost per unit	Additional City Investment	Total City Investment	Total Est. City Investment Per Unit
$600,000	$10,271,497	6%	$146,736	$0	$600,000	$8,571

The total Housing Trust Fund investment per unit is $8,571 per unit; to date, no other City funding has been requested (i.e. Land Use Incentive Grant). Developer has submitted cost estimates, but could change. Developer is working with shopping center to develop a private road to access the property and developer is working with P&Z to meet City requirements. The project

is pending LIHTC award which are announced in August 2018. Project scored a 90 in HTF Underwriting and an adjusted amortization is requested in order to meet the minimum 1.15 DCR, which is outside the HTF Policy. All other parameters are within policy.

Strengths:

- Seventy (70) units serving households earning 60% AMI or less
- Unit mix includes households earning 50% and 30% AMI
- Low subsidy per unit, $8,571
- 30 year affordability period
- Low development cost and minimum cash flow
- Will obtain energy efficiency certification
- Close proximity to grocery and AB-Tech

Concerns:

- Project has an adjusted amortization which yields little interest on the loan
- Project is 8 miles from downtown with no transit
- Project is dependent upon LIHTC
- Entrance to the property may be an issue
- Cost estimates could change
- No Environmentals on record
- No additional financial commitments to date

Mountain Housing Opportunities, Inc. – Clingman@Hilliard ($1,800,000)

Mountain Housing Opportunities, is proposing an 80 unit mixed-equity and mixed-use development at 357 Hilliard Avenue in downtown Asheville, just across the street from the former Parks/Maintenance site. Sixty (60) of those units will be reserved for households earning 60% AMI, including 50% and 30% AM's, and will be a Low Income Housing Tax Credit (LIHTC) project; 20 of the units will be market rate (comparable to workforce housing), and 5,000 sq. ft. of office space will be financed separately. Developer requests a $1,800,000, 2% interest only loan with deferred principle in perpetuity with an affordability period to match that (i.e. 99 years). The project is designed to have parking underneath the building with 37 shared spaces between the commercial and residential spaces. It will provide ADA and homeless transition and no other City funds are being requested at this time. The request does deviate from the current HTF policy, with a request higher than $20,000/unit, $1,000,000 maximum ask, and no payback of the principal amount.

The proposed project is a on a .66 acre site in downtown and is zoned CBD. The project is currently in Planning and Zoning and Technical Review Committee, with no required zoning changes. The project is located in close proximity to transit, transit center, downtown, and grocery. The project will be NC Green Built and System Vision certified with will provide units as ADA accessible. The developer is proposing permanent affordability (i.e. 99 years).

The application request results in the following terms, conditions, estimated development costs and subsidy allocation:

Proposed Loan Terms and Conditions									
30% AMI Units	50% AMI Units	60% AMI Units	Loan Amount*	HTF Loan Per Unit*	Affordability Period (Years)**	HTF Loan/Unit / Year	Interest Rate	Term (Years)	Type

15	9	36	$1,800,000*	$30,000*.	99**	$303	2%	99	Interest Only

**Exceeds policy maximums - $1,000,000 and $20,000/unit respectively*
***HTF principal remains in the project in perpetuity; all subject to project performance*

Proposed Total Development Costs and Loan Allocations						
Total HTF Loan Amount	**Total Development Cost**	**Loan % of Total Development Cost**	**Total cost per unit**	**Additional City Investment**	**Total City Investment**	**Total Est. City Investment Per Unit**
$1,800,000	$13,070,117	14%	$163,376	$0	$1,200,000	$30,000

The total Housing Trust Fund investment per unit is $30,000 per unit; to date, no other City funding has been requested, but Fee Rebate Grant will likely be applied for. Developer has submitted cost estimates, but could change. Developer has completed environmental assessments and there are no expected challenges with the review. The project is pending LIHTC award which are released in August 2018. Project received 85 points in HTF Underwriting Score and several requests were made outside of the policy, including more than $1,000,000 ask and $20,000/affordable unit. All other parameters are within policy and affordability period is requested in perpetuity (99 years) with HTF funds remaining in the project for that length of time.

Strengths:

- Sixty (60) units serving households earning 60% AMI or less
- Affordable period in perpetuity (99 years)
- Unit mix includes households earning 50% and 30% AMI
- Location efficiency in downtown and on bus line
- Mixed income and Mixed-use development
- Environmental Site Assessments Completed
- Will obtain energy efficiency certification
- Offers homelessness transition through vouchers through Homeward Bound

Concerns:

- Total ask ($1,800,000) and subsidy per unit ($30,000) are above policy guidelines
- Could bank DCR be reduced with less subsidy and higher conventional loan
- Development Costs per unit are high ($163,376)
- Concern about shared parking arrangements
- Project is dependent upon LIHTC
- Cost estimates could change
- No additional financial commitments to date

The Housing Trust Fund, with the support of $1,200,000 FY 18-19 CIP funds and $5,000,000 affordable housing bond funds, has sufficient cash flow to cover anticipated draw requests for the proposed developments. (The current FY 18-19 HTF balance as of July 1, 2018 is $570,393.)

The Housing and Community Development Committee recommends City Council approve a resolution approving the following loans subject to the developers meeting all program requirements for loan closing:

1. $600,000 to Workforce Homestead, Inc. for the development of seventy (70) multifamily rental units at Amaranth Apartments, serving 60%, 50%, and 30% AMI households including vouchers, adjusted amortization to meet minimum 1.15 total debt-coverage

ratio, with principal deferred for 20 year loan term. The approval is conditioned on the developer receiving appropriate City Planning and Zoning approvals and Low Income Housing Tax Credit (LIHTC) award. Loan is to be made immediately available for disbursement following loan closing.

2. $1,800,000 to Mountain Housing Opportunities, Inc., for the development of eighty (80) multifamily rental units for Clingman@Hilliard, 60 units reserved for households earning 60%, 50%, and 30% AMI including vouchers, as 2% interest only with deferred principal in perpetuity (99 years) loan term. The approval is conditioned on the developer receiving Low Income Housing Tax Credit (LIHTC) award. Loan is to be made immediately available for disbursement following loan closing.

In response to Councilman Kapoor, Mr. Hnatin explained the application process noting that you can apply now throughout the fiscal year to be eligible for these funds.

In response to Councilman Kapoor, Mr. Hnatin said that the City has not worked directly with the developer for Workforce Homestead in the past. However, Councilwoman Mayfield noted that the HOME Consortium has also awarded them money as the company has developed affordable housing across the state.

Mr. Hnatin responded to Councilman Kapoor when he questioned why Workforce Homestead is being awarded $600,000 for 70 units and Mountain Housing Opportunities is being awarded $1.8 Million for 80 units. Councilwoman Mayfield noted that part of the increase is the location - downtown land, along with the affordability in perpetuity vs. 30 years of affordability.

Mr. Hnatin responded to Vice-Mayor Wisler regarding the funding sources, which sources have not been decided yet.

At the request of Councilman Kapoor, it was the consensus of Council to consider these loans separately.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to approve the Housing Trust Fund loan to Workforce Homestead, Inc. This motion was seconded by Councilman Young and carried unanimously.

Councilwoman Mayfield moved to approve the Housing Trust Fund loan to Mountain Housing Opportunities, Inc. This motion was seconded by Councilman Young and carried on a 6-1 vote, with Councilman Kapoor voting "no."

RESOLUTION BOOK NO. 39 – PAGE 353

B. ORDINANCE NO. 4664 - ORDINANCE ADOPTING THE FISCAL YEAR 2018-19 FEES & CHARGES

Chief Financial Officer Barbara Whitehorn said that this is the consideration of an ordinance adopting the Fiscal Year (FY) 2018-19 fees and charges.

Fees and charges are a significant revenue source for the City of Asheville, comprising 35% of city-wide revenue and 10% of General Fund revenue. Utilizing a fee for service model allows the City to recover service costs directly from those that benefit from the service. These

fees generally fall into three major categories: general user fees and charges; regulatory fees; and public enterprise fees and charges.

Fees and charges are evaluated throughout the year, taking into consideration changes in service levels, demand for the service, and related costs of providing service. The proposed FY 2018-19 fee adjustments were reviewed and endorsed by the City Council Finance Committee at their February and March meetings. A full summary of the proposed adjustments was provided. It should be noted that the development related fee proposals resulted from the recently completed fee study performed by Matrix Consulting Group. These proposals will move the City closer to full cost recovery in the areas of planning & zoning and site development.

All of the proposed fee adjustments would be effective July 1, 2018, but changes to the charges on the combined utility bill for water and stormwater will not be applied until September 1, 2018, to ensure that only services provided at the new rate are being billed. As staff continues preparation of the FY 2018-19 Manager's Recommended Budget, there may be additional fee adjustments that are brought forward as part of the budget presentation in May.

Pros:

- Provides opportunity to recover the cost of services from those that directly utilize or benefit from the service where appropriate, reducing the financial burden of city services on taxpayers.
- Provides additional revenue to help balance the FY 2018-19 budget.
- Allows staff to begin communicating fee changes to citizens, customers, and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- A slight increase in the annual costs to Asheville citizens and customers.

The proposed fee adjustments would generate estimated revenue as follows:

GENERAL FUND (non development)	$11,660
STORMWATER FUND (non development)	$279,005
GENERAL FUND (development fees)	$224,155
STORMWATER FUND (development fees)	$138,509
WATER FUND	$881,793
PARKING FUND	$10,000
STREET CUT FUND	$6,500

City staff recommends City Council adopt an ordinance adopting the fees and charges for Fiscal Year 2018-19.

Mr. McDowell noted that the parking fee reductions are not part of this ordinance but will be a part of the budget ordinance presentation in May.

In response to Councilwoman Mayfield, Mr. McDowell said that they are not raising any solid waste fees.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4664. This motion was seconded by Councilman Kapoor and carried on a 5-2 vote with Councilman Haynes and Councilman Young voting "no."

ORDINANCE BOOK NO. 32 – PAGE 40

C. BOARDS & COMMISSIONS

Regarding the Multimodal Transportation Commission, the following individuals applied for the vacant seat: Helen Hyatt, Han Winogrond, Keaton Edwards, Carson Dellinger, Tina Wexler, Andrew Stephen Kirby, Ritchie Rozzelle, Dennis Wencel, Pat Katz, Rachelle Sorensen-Cox, Kenneth Armstrong and Wayne Wheeler. It was the consensus of Council, at the request of the Multimodal Transportation Commission, to postpone the appointment.

RESOLUTION NO. 18-89 - RESOLUTION APPOINTING MEMBERS TO THE AUDIT COMMITTEE

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Audit Committee.

On December 19, 2017, City Council adopted Resolution No. 17-277 establishing an Audit Committee, consisting of 5 members, 4 who must have a minimum of 5 years of experience in the management of accounting, finance, or audit for corporation, non-profit, and/or government. In addition, there must be at least two Certified Public Accountants and/or Certified Internal Auditors. City Council has previously appointed Vice-Mayor Wisler to also serve on the Committee.

The following individuals applied for the vacancy: Amy Kemp, Michael Donohue, Keith Sharpe, Holly Nolan, Scott Farkas, Rich Lee, Himanshu Karvir, Teddy Jordan, Dennis White, W. Scott Powell and Gail Miller.

On March 13, 2018, City Council appointed Amy Kemp and Scott Farkas as the two Certified Public Accountants; and requested to interview Himanshu Karvir, W. Scott Powell and Gail Miller.

After Council spoke highly of all the candidates, Himanshu Karvir received 4 votes, W. Scott Powell received 5 votes and Gail Miller received 4 votes. Another vote was taken. Himanshu Karvir received 3 vote and Gail Miller received 4 votes. Therefore, (1) Gail Miller was appointed to serve a three-year term , term to begin May 1, 2018, and expire May, 1, 2021, or until her is appointed; and W. Scott Powell was appointed to serve an initial two-year term, term to begin May 1, 2018, and expire May 1, 2020, or until his successor is appointed. In addition, at the March 13, 2018, Council meeting, Amy Kemp was appointed to serve as one of the two Certified Public Accountants, to serve a three-year term, term to begin May 1, 2018, and expire May 1, 2021, or until her successor is appointed; and Scott Farkas was appointed to serve as one of the two Certified Public Accountants, to serve an initial two-year term, term to begin May 1, 2018, and expire May 1, 2020, or until his successor has been appointed.

RESOLUTION BOOK NO. 39 – PAGE 354

RESOLUTION NO. 18-90 - RESOLUTION APPOINTING A MEMBER TO THE RIVERFRONT AREA REDEVELOPMENT COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing a member to the Riverfront Area Redevelopment Commission (RARC).

Ms. Cindy Weeks (property or business owner in the Riverfront area) has resigned, thus leaving an unexpired term until January 1, 2020.

The following individuals, who meet the requirement of a property or business owner in the Riverfront, applied for the vacancy: Jeffrey Horner, Jerry Sternberg, Shelley Schenker, Brent Starck, Viola Spells, Tim Schaller, Stuart Cowles, Emily Boyd and Daniel Brown.

On March 13, 2018, it was the consensus of Council to interview Shelley Schenker, Tim Schaller and Viola Spells. After the interview, it was discovered that Ms. Spells was a County employee, and if Council chooses to appoint her, they would need to waive their rules.

After Council spoke highly of all the candidates, Ms. Schenker received no votes, Mr. Schaller received 4 votes and Ms. Spells received 3 votes. Therefore, Tim Schaller was appointed to serve the unexpired term of Ms. Weeks (property or business owner in the Riverfront area), term to expire January 1, 2020, or until his successor has been appointed.

RESOLUTION BOOK NO. 39 - PAGE 355

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Ms. Ashley Cooper asked Council that as they move forward bridging the budget gap that they do so with transparency and accountability.

Mr. Sidney Bach spoke to Council about the stipulations of the bond lawsuit settlement agreement noting that the bond lawsuit was settled by joint agreement of all parties and then jointly dismissed by the parties at their request.

Mr. Patrick Conant, member of the Blue Ribbon Committee, spoke in support of the Human Relations Commission of Asheville (HRCA) and hoped that for those people not appointed to the Commission still bring ideas and participate in the process. He said it was important for Council to support the HRCA and when they make policy recommendations that Council seriously consider their recommendations.

Ms. Kim Roney thanked City staff for their work on the readvertisement of the Multimodal Transportation seat, in helping translate the public service announcement in Spanish for more outreach into the community and help with public service announcements. She hoped that this will be an example we see in our other boards and commissions.

Closed Session

sAt 7:18 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); (3) To establish or to instruct the

City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5); and (4) To discuss matters relating to the location or expansion of industries. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(4). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 9:02 p.m., Councilman Kapoor to come out of closed session. This motion was seconded by Councilwoman Smith and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:02 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – April 24, 2018 - 3:00 p.m.

General Fund Operating Budget Worksession

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; and City Clerk Magdalen Burleson

Chief Financial Officer Barbara Whitehorn explained the original budget gap was $5.82 Million. After staff budget work the gap was reduced to $3.2 Million. Council supported strategies include:

Reduce health insurance contribution	($ 255,000)
Debt fund capital maintenance	($ 700,000)
Reduce AFD Fleet allocation	($ 100,000)
Add Transit Planner	$ 86,000
Employee compensation at 2.5%	($ 300,000)
Parking monthly rate & daily max increase	($ 160,000)
Use of Fund Balance above 16.6%	($ 300,000)
Adjusted Police Academy Budget Plan	($ 400,000)
Cost of County tax collection	($ 100,000)

The adjusted budget gap would then be $971,000.

Significant research into firefighter cancer trends have led the National Fire Protection Association (NFPA) as well as other groups to recommend that firefighters not use turnout gear repeatedly without decontamination. There are two ways a fire department may address this issue: 1) upstaffing to allow for the four-hour decontamination of each set of turnout gear after a fire response, or 2) two sets of turnout gear for every firefighter. Option one is not recommended because the upstaffing required to ensure the same level of response to emergencies while gear is decontaminated would add millions in cost to the City's operating budget. Staff recommends option two. Turnout gear is considered personal protective equipment and has a useful life of 10 years. Staff recommends that for the safety and protection of firefighters, a new set of turnout gear for all firefighters be provided in FY 2018-19. This equipment would be included in the 59-month installment financing debt that the City issues annually for vehicles and equipment. The maximum cost for the gear is $780,000, which can be added to the capital budget. The fire department has a replacement plan for existing gear in their operating budget, assuming replacement every five years. This existing allocation enables the City to debt fund the purchase of the additional gear in one year with the knowledge that the operating budget will cover the replacement of the gear over time. This addition will not affect the FY 2018-19 budget gap.

Ms. Whitehorn asked for Council direction on the following two points: (1) structure and use of parking revenues; and (2) allocation of Fund Balance.

Regarding the parking revenues, options are as follows:

Eliminate the first hour free for all transactions - $1,000,000
Provide 30 minutes free parking for all transactions - $500,000
Provide free parking only for transactions less than 1 hour - $800,000

In response to an earlier Council inquiry, Ms. Whitehorn said that the City cannot charge different parking rates based on residency - the City has authority to vary rates based on classes

of services - i.e.: monthly v. daily parking, parking garages v. parking lots and on-street parking - but there is no legal authority to charge different user fees for parking based on residency.

Regarding the use of Fund Balance, options are as follows:

Additional use of Fund Balance (16%)	$ 750,000
Additional use of Fund Balance (15%)	$1,300,000

In response to Councilman Kapoor, an additional alternative/additional strategy was suggested: Defer the FY 2018-19 allocation to the Housing Trust Fund to FY 2019-20 which would be a savings of $500,000. There would be no impact on operation of Housing Trust Fund. Basically we would forego the $500,000 Housing Trust Fund allocation for FY 2019-20 and put in $1 Million in the Housing Trust Fund the following fiscal year.

Mr. Doug Carter, our financial advisor, spoke to Council regarding the use of Fund Balance to balance the budget. He felt the City is doing good financial management.

Staff recommends the following to balance the budget: (1) Provide free parking only for transactions less than 1 hour - $800,000; and (2) add an additional $171,000 of Fund Balance.

Interim City Manager Cathy Ball said that Council asked staff to evaluate the capacity of the Transportation Department staff to plan and implement an expansion of transit service hours. Due to ongoing work on the Transit Master Plan and an expected significant expansion of service in early FY 2019-20, staff recommends delaying any service enhancements until that time. This delay would allow staff to focus on implementation of the first year of Transit Master Plan recommendations and ensure effective outreach and promotion efforts in advance of FY 2019-20 service changes. There was considerable discussion and disappointment regarding not adding the additional 12 hours for transit service in this budget, due to staffing levels.

There was a brief discussion regarding employee compensation. In summary, it was the consensus of the majority of Council to provide the employees with a 2.5% compensation with the possibility of re-evaluating additional employee compensation in January, 2019.

Councilman Kapoor wanted to make sure that our resources are allocated properly and that we have staffing adequate to get the things done that Council wants done.

After discussion on each option, Vice-Mayor Wisler moved that staff proceed with balancing the budget as outlined above with the adjusted budget gap of $971,000 being closed with the (1) Provide free parking only for transactions less than 1 hour - $800,000; and (2) add an additional $171,000 of Fund Balance. This motion was seconded by Councilman Kapoor and carried unanimously.

Mayor Manheimer adjourned the budget worksession at 3:48 p.m.

Tuesday – April 24, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

MOMENT OF SILENCE

Mayor Manheimer asked for a moment of silence in remembrance of the victims of the tragic April 18 shooting that claimed the lives of an Asheville mother and two children. She asked us to also remember the other siblings who were harmed by this unspeakable act of gun violence.

Mayor Manheimer also acknowledged our public safety employees in the Asheville Police and Fire Departments who responded to this horrific shooting on Hansel Avenue that day. These public servants are not only trained and equipped to respond to calls for help in our community, they often confront issues of personal safety in the course of their duties. We commend them for their professionalism, dedication and compassion.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING APRIL 24, 2018, AS "OSOGBO DAY" IN THE CITY OF ASHEVILLE

Councilwoman Smith read the proclamation proclaiming April 24, 2018, as "Osogbo Day" in the City of Asheville in recognition of our Sister City, Osogbo, State of Osun, Nigeria, Africa. She presented the proclamation to Ms. Karen Korp, along with a large group of 11 delegates and Otunba Grace Titilayo Tomori, the Deputy Governor of Osun State, who briefed City Council on some activities during the day.

B. PROCLAMATION PROCLAIMING APRIL 27, 2018, AS "STAND AGAINST RACISM DAY"

Councilman Young read the proclamation proclaiming April 27, 2018, as "Stand Against Racism Day " in the City of Asheville. He presented the proclamation to Ms. Sala Menaya-Merritt, Ms. Nona Workman and Ms. Betsey Russell, representing the YWCA, who briefed City Council on some activities taking place during the day.

C. PROCLAMATION PROCLAIMING MAY 2018 AS "NATIONAL PRESERVATION MONTH"

Councilwoman Mayfield read the proclamation proclaiming May 2018, as "National Preservation Month " in the City of Asheville. She presented the proclamation to Mr. Jack Thomson, Executive Director the The Preservation Society of Asheville and Buncombe County, and others, who briefed City Council on some activities taking place during the month.

D. PROCLAMATION PROCLAIMING MAY 2018 AS "MOTORCYCLE AWARENESS MONTH"

Councilman Kapoor read the proclamation proclaiming May 2018, as "Motorcycle Awareness Month " in the City of Asheville. He presented the proclamation to Mr. Jody Martin, and others, who briefed City Council on some activities taking place during the month.

E. PROCLAMATION PROCLAIMING MAY 6-12, 2018 AS "NATIONAL DRINKING WATER WEEK"

Vice-Mayor Wisler read the proclamation proclaiming May 6-12, 2018, as "National Drinking Water Week " in the City of Asheville. She presented the proclamation to Interim Water Resources Director David Melton, and others, who briefed City Council on some activities taking place during the month.

II. CONSENT AGENDA:

At the request of City Staff, Consent Agenda Item F was removed from the Consent Agenda to be scheduled at a later date.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 10, 2018

B. ORDINANCE NO. 4665 - BUDGET AMENDMENT FROM THE N.C. DEPT. OF CRIME CONTROL & PUBLIC SAFETY FOR REIMBURSEMENT FOR HAZARDOUS MATERIALS RESPONSE AT 288 LYMAN STREET

Summary: The consideration of a budget amendment in the amount of $25,779.10 from the N.C. Dept. of Crime Control and Public Safety, Division of Emergency Management for the reimbursement for Hazardous materials Regional Response Team 6 Mountain Energy at 288 Lyman Street on February 4, 2018.

The N.C. Dept. of Crime Control and Public Safety, Division of Emergency Management developed the Regional Response Teams (RRT) strategically located throughout the state. Asheville Fire Department hosts one of the seven state funded teams - RRT 6. The team responds to hazardous materials incidents in the twenty westernmost counties of North Carolina.

The strategy identifies the NC Hazardous Materials Regional Response Teams (RRT) as an integral component of North Carolina's preparation and response to manmade and natural emergencies and disasters. The City of Asheville adopted on March 22, 2016, with Resolution No. 16-56 the latest contract to continue the Regional Response Team -6. The contract allows for the City to accept reimbursement funds NCEM to refurbish the supplies used in order to make the team whole and ready for the next response.

Pro:

- The Department of Crime Control and Public Safety, Division of Emergency Management, has reimbursed RRT-6 in the amount $25,779.10

Con:

- None identified

Upon City Council Approval, a budget amendment will be made in the current fiscal year to accept this reimbursement and reduce the impact to replace used/damaged equipment for the Asheville Fire Department in the amount of $25,779.10

City staff recommends that City Council accept the non-matching grant from the N.C. Dept. of Crime Control and Public Safety, Division of Emergency Management, to enhance AFD's capabilities to protect Asheville and Western North Carolina, and the associated budget amendment.

ORDINANCE BOOK NO. 32 - PAGE 52

C. RESOLUTION NO. 18-91 - RESOLUTION AUTHORIZING THE CITY EXECUTE A CONTRACT AMENDMENT WITH B. ALLEN CONSTRUCTION,LLC FOR THE DESIGN-BUILD SERVICES FOR THE WNC NATURE CENTER RED PANDA AND BREEDING FACILITY PROJECT

ORDINANCE NO. 4666 - BUDGET AMENDMENT FOR THE WNC NATURE CENTER RED PANDA AND BREEDING FACILITY PROJECT

Summary: The consideration of: 1) a resolution authorizing the City Manager to execute a Contract Amendment to the Construction Agreement with B. Allen Construction, LLC for the negotiated amount of $154,200 for design-build services for the WNC Nature Center Red Panda Exhibit and Breeding Facility project; 2) a budget amendment in the amount of $184,820 in the General Capital Projects Fund to fully budget the project, which is funded with a donation from from The Friends of the Western North Carolina Nature Center, Inc. and a transfer from the Parks and Recreation deferred maintenance budget.

The development of the Red Panda exhibit and breeding facility is identified as a priority in the WNC Nature Center 2020 Vision Plan, and as part of the Prehistoric Appalachians themed area. The Friends of the Nature Center will donate funds to support the cost associated with construction ($154,200), and they have pledged to donate $5,000 per year for 10 years to support operations & maintenance costs.

On September 19, 2017, the General Services Department issued a Request for Qualifications for Design-Build Services for the WNC Nature Center Red Panda Exhibit and Breeding Facility project. The contract includes the design and construction of a breeding facility and an outdoor viewing area and exhibit space. A Design-Build justification is required per NCGS 143-128.1A and City Council Resolutions 14-138 & 16-45, and it was approved by the Acting City Manager on June 30, 2017.

In response to the Request for Qualifications, the department received one submittal on October 11, 2017. The company responding was:

1. B. Allen Construction, LLC (Candler, NC)

Following a review of qualifications by City staff and the program manager, B. Allen Construction, LLC was selected as the qualified firm. In order to expedite design and ensure the project would be complete before the deadline to receive the pandas, the City awarded an initial contract to complete the design phase and professional services for $15,200 on December 11, 2017. The negotiated fee for the remaining design-build services is $154,200. The total design-build contract amount will be $169,400. A 10% contingency on construction in the amount of $15,420 will be added to the project budget, for a total project budget of $184,820 for approval by City Council.

Pros:

- Provides the City with an opportunity to contribute to the restoration of an endangered species through participation in the red panda breeding program.
- Enhances the visitor experience and contributes to the mission of the Western North Carolina Nature Center.
- Contributes toward improvements cited in the 2020 Vision Master Plan for the Western North Carolina Nature Center.
- Continues the partnership with the Friends of the Nature Center with the donation of construction funds, in the amount of $154,200, and the commitment to fund future operations & maintenance costs ($5,000 per year for 10 years).

Cons:

- During the improvements, some modest disruption will be seen in the visitor experience at the adjacent exhibit.
- There will be an increase in maintenance for the additional species and exhibit.

As noted above, a portion of the cost of the project will be funded by a $154,200 donation from the Friends of the Nature Center. The remaining $30,620 will come from previously budgeted funds in the Parks and Recreation Department's deferred maintenance account. A budget amendment is included to budget the donation and the transfer of the Parks budget from the General Fund to the General Capital Projects Fund.

Staff recommends City Council adopt: 1) a resolution authorizing the City Manager to execute a Contract Amendment to the Design-Build Agreement with B. Allen Construction, LLC, for the amount of $154,200 for the construction phase of the WNC Nature Center Red Panda Exhibit and Breeding Facility project, for a total contract amount for these design-build services being $169,400; and 2) a budget amendment in the amount of $184,820 in the General Capital Projects Fund to fully budget the project (including the $169,400 total design-build contract value plus a 10% construction cost contingency in the amount of $15,420), which is funded with a donation from from The Friends of the Western North Carolina Nature Center, Inc. and a transfer from the Parks and Recreation deferred maintenance budget.

In response to Councilwoman Mayfield, Director of the Nature Center Chris Gentile said that while red pandas currently live in the forest of the Himalayas and major mountain ranges of southwestern China, 5 million years ago their now extinct relative Bristol's Panda inhabited what is now known as the Southern Appalachians Mountains in North Carolina and Tennessee. They are an endangered species. Only 10,000 wild adult red pandas remain in the world. And red panda populations are on the decline in the wild. Bringing them to the WNC Nature Center is the next development in the center's Prehistoric Appalachia-themed area of the park. The exhibit will feature a den and breeding area, an interpretive exhibit and viewing areas.

RESOLUTION BOOK NO. 39 - PAGE 356
ORDINANCE BOOK NO. 32 - PAGE 54

D. MOTION TO DIRECT STAFF TO NEGOTIATE A CONTRACT WITH AN EXECUTIVE SEARCH FIRM FOR THE CITY MANAGER

Summary: The City of Asheville City Council intends to contract with an Executive Search Firm for the purpose of a national search for a new City Manager.

A Request for Proposal was open beginning March 1, 2018, and closed on April 2, 2018. There were nine (9) responses that include the following:

• Ralph Andersen & Associates,	Rocklin, California
• Find Great People,	Greenville, SC
• LLC GovHR USA,	Northbrook, Illinois
• Slavin Management Consultants,	Norcross, Georgia
• vTech Solution Inc.,	Washington D.C.
• The Mercer Group, Inc.,	Raleigh, NC
• Springsted Waters Executive Recruitment	Addison , Texas
• Strategic Government Resource,	Keller, Texas
• The Hawkins Company,	San Ramon, California

Human Resources and City Manager staff will evaluate these proposals and make a recommendation to City Council.

The Search Firm will work with staff to establish dates for meeting with Council to develop the profile for the City Manager, finalize the timeline, and establish dates for community engagement meetings.

The fiscal impact will be negotiated but is not expected to exceed $38,000.

Staff recommends Council allow Human Resources Director and Purchasing Manager to negotiate with selected vendor Springsted Waters Executive Recruitment.

E. RESOLUTION NO. 18-92 - RESOLUTION IN SUPPORT OF FEDERAL CONGRESSIONAL ACTION TO ADOPT LEGISLATION FOR A CARBON FEE & DIVIDEND POLICY TO ADDRESS CLIMATE CHANGE

Summary: The City of Asheville encourages Congress to enact legislation that address the significant risks posed by greenhouse gas emissions and that such legislation potentially include, but not be limited to, the following carbon fee and dividend policy components: (1) An annually increasing fee on carbon dioxide (or greenhouse gas equivalents) emissions produced by fossil fuels at the points of production and importation; (2) A dividend system that returns all the net revenues generated from the carbon dioxide fee to citizens; and (3) Carbon-based fees and rebates for imports and exports to and from nations that have not implemented a carbon fee and dividend policy, which incentivises trading partners to adopt similar laws to reduce greenhouse gas emissions.

Councilwoman Mayfield, along with four other individuals, spoke in support of the resolution noting that it is another step towards a clean, stable climate and a renewable America.

RESOLUTION BOOK NO. 39 - PAGE 357

F. RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE PARKS SPORT COURT UPGRADES/RENOVATIONS BOND PROJECTS

BUDGET AMENDMENT TO FUND THE PARKS SPORT COURT UPGRADES/RENOVATIONS

These items were removed from the Consent Agenda to be considered at a later date.

G. MOTION TO ESTABLISHMENT OF I-26 CONNECTOR PROJECT AESTHETICS COMMITTEE

Summary: The consideration of a motion to establish an Aesthetics Committee for the I-26 Connector project (I-2513) including the process to identify, review, and approve committee members.

For the past several months, staff has been working closely with the North Carolina Department of Transportation (NCDOT) and its design consultant (AECOM) to prepare the "betterments list" and so far, many multi-modal features have been identified including pedestrian, bicycle, and greenway amenities. Once the "betterments list" is completed, it will be reviewed, tweaked, and approved by City Council as to which amenities will move forward to the construction phase.

It is quite common for this type of project that an Aesthetics Committee be established to help identify and suggest various aesthetics treatments including signage, bridge enhancements, retaining and/or noise walls, plantings, and landscaping. The objective of the Aesthetics Committee is to gather information and ideas about treatments that would make the project a cohesive and integrated part of Asheville. The final product for the Aesthetics Committee will be a list of suggested aesthetics treatments that will be included in the "betterments list" for City Council consideration.

At this time, it is anticipated that this committee would serve for about one year and complete their tasks before the final Environmental Impact Statement (EIS) is released. It's hard to determine how often the committee would need to meet but it is anticipated that they would typically meet on a monthly basis with special meetings on a case-by-case basis. There probably should be 8 to 10 members on the committee. Sam Schwartz Consulting will be guiding the committee through the process and the NCDOT and their design consultant will be available as well.

The NCDOT has suggested that Alice Oglesby be involved since she previously served on the Aesthetics Committee for an I-40 widening project. Other individuals that have expressed an interest include Karen Cragnolin, Sharon Henady, Julia Burr, Larry McDevitt, Joe Minicozzi, and David Nutter.

This action was reviewed and unanimously approved by the Boards and Commissions Committee on April 10, 2018.

Pros:

- Identify aesthetics treatments that would enhance the quality of life.
- Creates a partnership with the City of Asheville and the North Carolina Department of Transportation (NCDOT) regarding the successful completion of the project.

Con:

- Potential fiscal impact for the various aesthetics treatments.

There is no fiscal impact for the creation of the committee.

Staff recommends that City Council approve a motion to establish an Aesthetics Committee for the I-26 Connector project (I-2513) including the process to identify, review, and approve committee members.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilwoman Mayfield moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. CODE FOR ASHEVILLE'S "PETITION FOR POLICE ACCOUNTABILITY THROUGH DATA TRANSPARENCY"

Mr. Patrick Conant, representing Code for Asheville, provided Council with the following statement: They "believe that the community must play a vital role in addressing the structural issues that underlie incidents like the one that happened last August to Johnnie Jermaine Rush. To enable this, Code for Asheville asks that the Asheville City Council mandate a significant increase in the transparency of policing data. Data transparency alone won't solve issues of trust

and accountability in Asheville, but it provides a foundation for the wider work necessary to improve equity and justice in our city.

As the Police Data Initiative noted in a recent post:

> When data is open, community members are empowered to assess the data directly. Releasing open data is more than a gesture of goodwill and trust on behalf of law enforcement agencies; it is a shrewd use of resources and a means of enlisting communities to solve some of their most entrenched crime problems.

This request aligns with the City of Asheville Open Data Policy, with the March 5 statement by City Manager Gary Jackson that there is "strong direction... from the City Council that in all matters, especially those involving police, the City should be as transparent as possible to its citizens," and with best practice recommendations from organizations like What Works Cities, the Governance Lab at New York University, and the Center for Governmental Excellence at Johns Hopkins University.

The release of these data sets will provide additional accountability within the Asheville Police Department (APD), and the commitment to transparency by our City will start the long process of rebuilding community trust in our police department. Our specific requests are enumerated below.

Specific Requests - **Datasets:**

1. Use of Force: We request the release of factual information related to use-of-force incidents by our police department, as part of the City of Asheville Open Data Portal. Specifically, we request that the data include the following information: location, date, type of force used, reportable action, type of resistance, nature of call (origin of interaction), primary offense, gender/race of subject of force, gender/race of officer, subject injury, officer injury, and whether the use of force originated from a 911 call.

2. Emergency Call Data: We request the release of emergency (911) call data as part of the City of Asheville Open Data Portal, to provide greater insight into the deployment of police resources in our community. Specifically, we request that the data include the following information: call date and time, general location of call, neighborhood, nature of call / crime type, call disposition, and case or incident id.

3. Crime Reports: We request the restoration of the complete crime report feed on the City of Asheville Open Data Portal, to include historical data from 2004 onward. Incidents prior to 2013 were removed from the current feed in late 2017.

We request that all categories of offenses be included in the feed and, if any are excluded, that fact be clearly documented.

4. Citation and Arrest Data: We request an additional feed containing all arrest and citation records generated by APD on the City of Asheville Open Data Portal. We request that this information include the date, location, neighborhood, offense type, and demographic information on on both the subject(s) of an arrest or citation and the officer(s). We request that records in this data feed be related to the records in the Crime Reports data feed.

5. Citizen Complaints: We request the release of data related to citizen complaints within the department. This information is compiled on an annual basis in the Professional Standards report. We request this information be provided in a data feed on the City of Asheville

Open Data Portal, including, at a minimum, the date a complaint is filed, the status of complaint and investigation, and the type of complaint.

6. Traffic Stop Report Data: We request that the City of Asheville publish on the City of Asheville Open Data Portal the raw data used to generate all of the analysis in the quarterly traffic stop report submitted to City Council. APD has enhanced their traffic stop report to include additional information that is not submitted to the state, including the geographic location of traffic stops. We request that this additional information be included with the other data.

7. Demographic Information on APD Officers: The APD multi-year work plan contains strategic goals related to increasing the diversity of their workforce. We request that APD release a data feed or monthly report detailing the demographic composition of APD employees, broken down by division and rank. This will allow the public to monitor the results of APD's multi-year work plan efforts.

Policies and Reports - These outline some additional items that are not data but should be released to the public to increase the transparency of the Asheville Police Department.

1. APD Policy Manual: We request that a redacted version of the complete APD Policy Manual be published to the City of Asheville website. The redactions should be limited to information that might put officers in danger by revealing APD operating tactics.

2. Internal Reports: We request that a blank copy of any internal reports used by the APD, such as the "Blue Team" report for Use of Force, be released to the public. This will allow the community to understand what information is collected with these reports, even if the content of completed reports is restricted by personnel or investigative concerns.

3. Internal Audits of Body Worn Cameras: APD conducts random audits of body worn camera footage, as specified in the Body Worn Camera Policy. We request that the results of those audits be provided to the Public Safety Committee on a monthly basis and published to the City website. We also request that the results of the annual audit of Body Worn Camera usage, as specified in the Body Worn Camera Policy, be published to the City website. This will enhance community trust in the police department by providing evidence that these critical audits are being conducted properly.

4. Recordings of Committee Meetings: We request that the City record all public meetings related to public safety, policing, or possessing significant community interest and post them promptly to the City website. This will allow community members who are not able to physically attend meetings the ability to engage with the City process and provide effective input.

Additional Actions - We ask that Council also consider taking the following actions.

1. Blue Ribbon Committee Recommendations for a Human Relations Commission: We request that the City of Asheville move quickly to accept the recommendations of the Blue Ribbon Committee and start the process of forming a Human Relations Commission. We also request the City accept the Blue Ribbon Committee's request for additional staff and modifications to the organizational structure of the Office of Equity and Inclusion.

2. NAACP and SCSJ Policy Reforms: We request that City Council adopt the policy recommendations presented by Ian Mance of the Southern Coalition for Social Justice in April 2017. We specifically request that Council adopt a Written Consent policy for searches of vehicles, pedestrians, and residences.

3. Anti-Retaliation Policy: We request that City Council adopt a comprehensive anti-retaliation policy to protect employees and citizens that expose wrongdoing within our government. In addition, there is apparently a system in place for city employees to submit whistleblower reports, but there is limited awareness among city employees that this exists. The City should ensure that all employees are trained on this system and on the anti-retaliation policy.

4. Police Data Initiative: We request that City Council direct staff to have the City of Asheville join the Police Data Initiative, a "law enforcement community of practice that includes leading law enforcement agencies, technologists, and researchers committed to engaging their communities in a partnership to improve public safety that is built on a foundation of trust, accountability and innovation." Participating agencies in North Carolina already include Charlotte, Fayetteville, Chapel Hill and Kinston.

These actions are in line with best practices of city governments around the country and are in line with Asheville's Open Data Policy. We ask that the City Council accept Code for Asheville's recommendations and direct staff to begin implementing them without delay.

We have waited long enough. It is time to begin the hard work to create a more equitable and just community and to rebuild the trust between the community and those tasked with protecting it."

Mr. Conant specifically requested Council to (1) provide clear direction to staff to prioritize the release of these data sets and documents; (2) establish a timeline and process for regular updates on progress; (3) invite the community to develop future policy solutions; and (4) request committees or Council to revisit additional actions at a future meeting.

Mr. Jesse Michel, member of Code for Asheville, provided Council with a folder which contained approximately 873 online and handwritten petition signatures, as well as a list of all the organizations they received endorsements from so far.

Interim City Manager Cathy Ball said that their goal, from a cross-functional departmental standpoint, is to put together a general overview to be presented at the May 15 Council meeting. That doesn't mean that they'll have all of the questions answered at that point. It just means that they are going to start the process of looking at the requests and specifically be able to speak to next steps, timeline, action items, benchmarking, etc. She appreciated the Information Technology (IT) Department's work on this issue, but it is a collaborative effort between the Police Department and our Legal staff as well as the IT Department. We are committed to transparency and to providing information. We want to make sure that we protect the rights of all the individuals involved.

Councilman Young asked that prior to the May 15 meeting, if there are items that staff cannot have addressed by that time, he would like to be made aware of those.

Mayor Manheimer asked that we develop some sort of regular system for reviewing our police data so Council can determine what is and what is not working.

Councilman Haynes, Chair of the Public Safety Committee, said that his committee is eager to move forward with this goal.

Because Councilwoman Mayfield will not be at the May 15 Council meeting due to a previously committed event, she requested, in addition to figuring out a path to make data public, that we also figure out a way to bring a small group of people in to help interpret the data and be in agreement on what the data means.

IV. PUBLIC HEARINGS:

V. UNFINISHED BUSINESS:

A. RESOLUTION NO. 18-93 - RESOLUTION AUTHORIZING THE CITY MANAGER TO DIRECT STAFF TO MOVE FORWARD WITH THE CHARLOTTE STREETS IMPROVEMENT PROJECT IMPLEMENTING OPTION 1 AND 3 RECOMMENDATIONS

Director of Transportation Ken Putnam said that this is the consideration of a resolution authorizing the City Manager to direct staff to move forward with the Charlotte Streets Improvements project that is listed in the adopted General Capital Improvement Program implementing Option 1 and Option 3 recommendations.

The Charlotte Streets Improvements project has been listed in the General Capital Improvement Program since Fiscal Year (FY) 2014-15, and it includes the section of Charlotte Street between I-240 and Edwin Place. The adopted budget for the project is $1,250,000; with assumed cash flows of $200,000 in FY 2018-19 and $1,050,000 in FY 2019-20.

City Council identified the North Charlotte Street corridor as an Asheville Innovation District in October 2014. While Innovation Districts were defined as special redevelopment areas where the City coordinates a variety of investments and resources to increase economic opportunities, promote safety and enhance sense of place, the most vocal discussion surrounding investment in the corridor has primarily focused on addressing specific transportation concerns. Some of the transportation concerns are outlined in the four transportation studies that have been created for the corridor in the past 20 years. The recent Council-adopted Asheville In Motion (AIM) Transportation Plan speaks to redeveloping the corridor to include better bicycle and pedestrian facilities. The recommendation reads:

> **"Primary Opportunities.** Bicycle recommendations for Charlotte Street include shared lane markings (sharrows). It is recommended that shared lane markings are placed in the middle of travel lanes and "Bicycles May Use Full Lane" signage installed. A longer-term plan for Charlotte Street could include a road diet with enhanced bicycle facilities. However, this longer-term scenario will need additional feasibility studies.
>
> With surrounding Traditional Neighborhood land uses, Charlotte Street needs a safer, walkable environment. Pedestrian improvements including wider sidewalks and safer roadway crossings should be prioritized.
>
> Current transit conditions include the N route which runs around Klondyke, Montford, Charlotte, and Grove Park. This corridor should remain a priority investment route, particularly since the Montford portion of the N route serves as the northwest connection while the Charlotte portion serves the northeast and terminates at a major destination, the Grove Park Inn.
>
> **Primary Implementation Challenges.** Existing space challenges exist for the corridor given buildings with frontage directly on the street in some parts of the corridor. The cost of adding sharrow markings and potential cost of widening sidewalks along the corridor are also challenges."

Strategic Development Office and Transportation Department staff have engaged with Charlotte Street community members for a little over six months in order to build some relationships with stakeholders in advance of any planning or capital project development process. While this engagement has not been comprehensive, it has included enough input for

staff to assess that the implementation of a "road diet with enhanced bicycle facilities" is not fully accepted by the community at this time. A recent non-scientific survey produced by the Charlotte Street Business Association indicates that the majority of respondents would prefer the AIM vision be implemented.

This action was reviewed by the Planning and Economic Development Committee on March 12, 2018, and they considered the following five options for moving the subject project forward.

1. Road Diet Only: Recommendation that Council provide staff direction to issue an RFQ for engineering services to use programmed capital funds to produce construction drawings to implement a road diet with enhanced bicycle facilities with pedestrian improvements including improved sidewalks and safer roadway crossings, as recommended in the AIM plan. Bike lanes between sidewalks and moving vehicles would create a more pedestrian-friendly environment. Staff recommends that if this option is pursued, that Council also consider directing staff to eliminate the use of the "Innovation District" designation for this area in order to clarify the focus on increasing livability through multimodal improvements (only).

2. Corridor Improvement Approach: Recommendation that Council consider allocating up to $35,000 in general funds to support an abbreviated land use planning process that identifies barriers to economic growth and sustainable development and supports policy reforms like updates to the current zoning for the corridor. Staff recommends that if this option is pursued, that Council also consider directing staff to eliminate the use of the "Innovation District" designation for this area in order to clarify the focus on increasing livability through multimodal improvements. Additional funds will be necessary above and beyond the $1,250,000 in the current budget to complete this project.

3. Tactical Projects Approach: Recommendation that Council provide staff direction to use an amount up to $1.25 Million in CIP funding for the design and implementation of spot neighborhood safety and streetscape improvements along the Charlotte Street Corridor that are focused on making the area more walkable and bikeable while still maintaining the existing 3 and 4 travel lane configurations. Staff has identified approximately 500 linear feet of sidewalk area that could be improved by either closing an non-operational driveway or by reducing driveways to the city's maximum permitted driveway width for commercial properties: 36 feet.

4. Comprehensive Redevelopment Approach: Recommendation that Council prioritize allocation of general funds up to $100,000 to work with a broad spectrum of the community to create a vision plan for the Charlotte Street Corridor, using a process similar to the Riverside Drive Redevelopment Plan, Riverfront Redevelopment process, or South Slope Vision Plan. The plan, which would identify goals and strategies for a more comprehensive set of community issues than multimodal service including other infrastructure issues like stormwater management, improvements to land use policies, and other livability issues like public/open spaces and public art and placemaking) can later be considered for adoption by Council and for subsequent (FY 20) use by staff as a guide for use of capital dollar investment. Additional funds will be necessary above and beyond the $1,250,000 in the current budget to complete this project.

5. Reconsideration Approach: Recommendation to Council to reprogram current CIP allocation into another Council goal area.

The Planning and Economic Development Committee unanimously approved moving option # 1 - Road Diet Only and option # 3 - Tactical Projects Approach to City Council for review

and consideration of approval.

Pros:

- Currently listed in the FY 2017-18 adopted budget.
- Implements multi-modal principles.
- Enhances travel safety for multiple modes of transportation.

Con:

- Possible reduced levels of service for automobiles and increased cue lengths during peak hours.

According to the adopted budget, a total of $1,250,000 is included in the Charlotte Street Improvements project; with cash flows of $200,000 in FY 2018-19 and $1,050,000 in FY 2019-20. As noted above, additional funding will be required to complete certain options that were considered by the Planning and Economic Development Committee.

Staff recommends that City Council approve a resolution authorizing the City Manager to direct staff to move forward with the Charlotte Streets Improvements project that is listed in the adopted General Capital Improvement Program implementing Option 1 and Option 3 recommendations.

The following individuals spoke in support of the resolution, but with a clarification in the resolution making it clear that a road diet with bike lanes is the preferred vision of Council and the community:

Mr. Benji Burrell, area resident
Mr. Clark Mackey
Ms. Deb Karash, area resident (also disappointment with elimination of Innovation District)
Mr. David Trophia, area resident
Ms. Meg Jamison, area resident
Mr. Jack Thomson, Executive of The Preservation Society of Asheville & Buncombe County
Ms. Grace Curry, area resident
Mr. Will Hornaday, representing the Charlotte Street Business Association
Mr. Jim Siemens, area resident (also supported Option 2)
Ms. Billie Lofland
Mr. Philip Jackson, area resident
Mr. Michael Soule, Executive Director of Asheville on Bikes
Ms. Jane Mathews, area resident

Mr. Max Alexander did not support the road diet as he was concerned with emergency vehicles being delayed.

Interim City Manager Cathy Ball said that in general Charlotte Streets Improvement Project feels like a transportation improvement project, not an Innovation District which typically comes with being able to make transformational placemaking changes; however, she did not feel like it is a big issue for it to remain as an Innovation District.

Councilwoman Mayfield also noted that at the Planning & Economic Development Committee (PED) they asked staff to look at the zoning in that corridor and to come back to PED with any recommendations around zoning changes that would help better foster the pedestrian corridor.

Councilwoman Mayfield requested the resolution before Council be amended with the following revisions (1) WHEREAS, Option 1 is a road diet only approach which consists of issuing an RFQ for engineering services to use programmed capital funds to produce construction drawings to implement a road diet with bike lanes and pedestrian improvements as the preferred and priority treatment; (2) WHEREAS, Option 3 is a tactical projects approach for the design and implementation of spot neighborhood safety, pedestrian, and streetscape improvements along the Charlotte Street Corridor; and (3) WHEREAS, City Council also requests the Planning staff review the zoning and land uses in the Charlotte Street Corridor to identify possible changes that would enhance a multi-modal, pedestrian-oriented experience.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-93, with requested amendments outlined by Councilwoman Mayfield above. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 359

VI. NEW BUSINESS:

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Five individuals spoke in support of the Code for Asheville's petition for police accountability through data transparency.

Ms. Suzanne Stowe and Mr. Claude Gable, Laborers 1 in the Parks and Recreation Department, reported that they make far less than $13/hour but every other department in the City that has a Laborer 1 position has been earning at least $13/hour. They felt this is unequal treatment and should be fixed immediately by raising their base pay to $13/hour and making the raise retroactive to the date that every other Laborer 1 in the City was given that raise in base pay. Mayor Manheimer asked that Interim City Manager Ball investigate this statement and report back to the Finance Committee.

Mr. Chris Peterson spoke to Council about his feelings that the City Council is in debt up to $70 Million.

Mayor Manheimer said that regarding the ICE operations in the Asheville area, cities in North Carolina do not provide social services or health services. Those are provided by the County and we don't own or operate any jails. But she has asked staff to reach out to ICE to see if they will sit down with us to start a discussion in order to establish a better relationship with ICE. She hoped they are receptive to sitting down and having an open discussion around that.

Councilman Kapoor noted that the issue of Asheville districts is back in the news. The legislation is asking for input and he encouraged residents to give their thoughts to redistricting in Asheville.

Closed Session

At 7:18 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is

N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); and (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved, including, but not limited to, a lawsuit involving the following parties: City of Asheville v. Robert H. Frost and Parkway Court, LLC v. City of Asheville. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 9:42 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilwoman Mayfield and carried unanimously.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 9:42 p.m.

Magdalen Bandeson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – May 15, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: Councilwoman Julie V. Mayfield

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING MAY 21-27, 2018, AS "NATIONAL PUBLIC WORKS WEEK"

Vice-Mayor Wisler read the proclamation proclaiming May 21-27, 2018, as "National Public Works Week " in the City of Asheville. She presented the proclamation to Public Works Director Greg Shuler, who then introduced Jamoan Martin and Kyle Reynolds from Sanitation; Colton Fisher and Brian Hanrahan from Streets; and Jonathon Ballard and Assan Salley from Stormwater.

B. PROCLAMATION PROCLAIMING MAY, 2018, AS "BUILDING SAFETY MONTH"

Councilman Young read the proclamation proclaiming May, 2018, as "Building Safety Month " in the City of Asheville. He presented the proclamation to Director of Development Services Ben Woody, who briefed City Council on some activities taking place during the month.

C. PROCLAMATION PROCLAIMING MAY, 2018, AS "TICK-BORNE DISEASE AWARENESS MONTH"

Councilman Kapoor read the proclamation proclaiming May, 2018, as "Tick-Borne Disease Awareness Month" in the City of Asheville. He presented the proclamation to Ms. Jane Dooley and Mr. Rick Cormier, who briefed City Council on some activities taking place during the month and donated some information on tick-borne diseases to the City.

D. PROCLAMATION PROCLAIMING JUNE 1, 2018, AS "NATIONAL GUN VIOLENCE AWARENESS DAY"

Mayor Manheimer read the proclamation proclaiming June 1, 2018, as "National Gus Violence Awareness Day" in the City of Asheville. She presented the proclamation to Ms. Aryelle Jacobsen, and others, who briefed City Council on some activities taking place.

E. INTRODUCTION

Interim City Manager Cathy Ball introduced Mr. Sean Smoot with 21st Century Policing LLC, who has been hired to look at the Johnnie Rush incident that occurred on August 25, 2017, through the investigation.

Mr. Smoot said that his team has undergone a start of their assessment of the Police Department's policies and procedures. They will be meeting with Police personnel during their review and look forward to reporting their results to Council near the end of July.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON APRIL 24, 2018

B. RESOLUTION NO. 18-94 - RESOLUTION APPROVING THE ISSUANCE BY THE HOUSING AUTHORITY OF THE CITY OF ASHEVILLE OF UP TO $12,500,000 MULTIFAMILY HOUSING REVENUE BONDS TO PROVIDE FINANCING FOR LEDGEWOOD VILLAGE APARTMENTS TO SATISFY SECTION 147(f) OF THE INTERNAL REVENUE CODE

Summary: The consideration of a resolution approving the issuance of bonds by the Housing Authority of the City of Asheville for Ledgewood Village.

Ledgewood-Asheville Limited Partnership (the "Borrower") has requested that the Asheville Housing Authority issue up to $12,500,000 in multifamily housing revenue bonds for the acquisition and renovation of Ledgewood Village, consisting of 180 affordable apartments, located at 15 Future Drive in Asheville. The Borrower is seeking to keep these units affordable, using a combination of 4% Low Income Housing Tax Credits and bond debt.

Ledgewood Village was constructed in 1975 through the Federal Housing Administration ("FHA") 236 program. The property was acquired and rehabilitated in 2000 in connection with a 4% low income housing tax credit (LIHTC) and bond financing. The Borrower proposes to acquire and rehabilitate the property with financing primarily provided through a HUD 221(d)(4) loan, tax-exempt bonds, and equity from 4% low income housing tax credits. This financing serves two purposes. First, it allows for a recapitalization of the Property with LIHTC equity and attractive long-term debt that will allow for a beneficial capital injection. Second, it ensures that the units will remain affordable for a period of at least 30 years.

The Housing Authority approved a bond inducement resolution for the bonds, and the North Carolina Housing Finance Agency approved the 4% LIHTC financing in January of this year.

On August 23, 2017, the Board of Commissioners of the Housing Authority of the City of Asheville ("HACA") approved a bond inducement resolution to issue multifamily revenue bonds in an amount up to $12,000,000, which resolution was amended on February 21, 2018 to approve an increase in the amount of the bonds to $12,500,000, for the acquisition and renovation of Ledgewood Village Apartments. In January 2018, the North Carolina Housing Finance Agency ("NCHFA") offered its approval of the financing proposal, issuing a 42(m) tax credit commitment letter. All units at Ledgewood Village Apartments will be affordable to households earning no more than 60% of Area Median Income for 30 years.

The resident-in-place renovation will address a variety of project needs ranging from deferred maintenance items to project upgrades that will allow Ledgewood Village to compete favorably with market rate product. The proposed scope of work includes: new siding and insulation; new windows; new 30-year roofing; new design elements including entryway canopies; selective kitchen and bathroom renovations including energy efficient appliances and fixtures throughout; new durable flooring; new kitchen cabinets and countertops; new exhaust fans; fire alarm and electrical upgrades; new HVAC systems and energy-efficient hot water tanks; new LED lighting; ADA-accessible play structures; an expanded community building with renovated laundry

facilities and new computer lab; an expanded active monitoring security camera system; and improved paving, landscaping, sewerage, drainage and signage.
As part of the renovation, nine (9) units will receive ADA upgrades, as will all common areas, including the laundry facilities, dumpster pads and enclosures, mail kiosk, walking path, and new play structures.

These capital improvements will extend the Property's useful life, while hopefully improving the quality of life for Ledgewood Village residents.

With offices located in Portland, Maine, Washington, D.C. and Wilmington, North Carolina, Silver Street Development Corporation ("Silver Street") is an organization dedicated to the quality preservation, operation, and growth of affordable housing in the U.S. The company is comprised of industry leaders with over 20 years of experience in the multifamily housing market. Silver Street strives to change the image of "low-income housing" by not only providing safe, healthy, and prideful communities, but also by providing the necessary tools and resources within communities to empower tenants to better themselves and their environment. Through partnerships and relationships with some of the industry's top leaders, Silver Street has pioneered the changing face of subsidized and affordable housing in the country. From implementing one of the first Section 236 decouplings to successfully crafting complex bond capitalization strategies to overcome obstacles arising from a difficult lending environment, Silver Street is constantly looking for ways to keep its portfolio in top condition. Currently, Silver Street owns over 11,000 units of affordable housing and is one of the Top 20 largest owners of affordable housing in the U.S.

Staff notes that the 4% LIHTC program is ideally suited for a purchase/renovation project such as this. Although either the City or the Housing Authority is authorized to issue bonds, historically the Housing Authority has played this role for multi-family rental developments.

The IRS requires that any bonds issued by Housing Authority for developments such as this have the approval of the plan of financing by City Council, following a public hearing with respect to such plan. On April 25, 2018 the Housing Authority held a public hearing, and there were no comments. Staff notes that approval does not obligate the City in any way to issue or pay for the bonds, or for any debt taken on by the developer.

Pro:

- 180 units of affordable housing will be preserved and renovated.

Con:

- None.

This financing plan does not require City investment, and maintains and improves residential tax base.

Staff recommends that City Council approve the resolution approving in principle the issuance by the Housing Authority of the City of Asheville of up to $12,500,000 of multifamily housing revenue bonds for the acquisition and renovation of Ledgewood Village Apartments.

RESOLUTION BOOK NO. 39 - PAGE 360

C. RESOLUTION NO. 18-95 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A UTILITY CONSTRUCTION AGREEMENT WITH THE N.C. DEPT. OF TRANSPORTATION FOR WATERLINE RELOCATION ON BRIDGE NO. 217 OVER GRASSY BRANCH

Summary: The consideration of a resolution authorizing the City Manager to execute a Utility Construction Agreement with the N.C. Dept. of Transportation (NCDOT) for the estimated amount of $153,680 plus a 10% contingency for a total budget of $169,048 for the Bridge No. 217 over Grassy Branch on SR 2402 (Old Farm School Road) Waterline Relocation Project.

The NCDOT is moving forward in an effort make street and highway improvements to Bridge No. 217 over Grassy Branch on SR 2402 (Old Farm School Road) in Buncombe County. The City of Asheville owns and maintains municipal water lines within the right-of-way of the project area. As a condition of the installation, operation and maintenance of said waterlines within the NCDOT right-of-way, the City of Asheville Water Resources Department is responsible for 100% of the cost associated with adjustment or relocation of said waterlines should the need arise. For the purpose of construction coordination and efficiencies, the City of Asheville Water Resources Department wishes to enter into this Utility Construction Agreement with NCDOT, which allows the waterline utility work to be performed as part of the NCDOT's construction contract. NCDOT has estimated that the cost of the relocation and adjustment of municipally owned water lines for this project will be $153,680.

Pros:

- Execution of the agreement allows the City of Asheville Water Resources Department to meet its obligations to NCDOT for the adjustment or relocation of municipal water lines within the NCDOT right-of-way.
- Execution of the agreement allows the required adjustment or relocation of municipal water lines to be performed under the NCDOT construction contract, which will provide construction efficiencies producing cost savings and allow construction schedules to be met.

Cons:

- Failure to execute the agreement hinders the City of Asheville Water Resources Department's ability to meet obligations to NCDOT for the adjustment or relocation of municipal water lines within the NCDOT right-of-way.
- Failure to execute the agreement prevents the required adjustment or relocation of municipal water lines from being performed under the NCDOT construction contract. This will create difficulties with construction coordination, create a lack of efficiencies and add to the overall cost of the construction.

The funding needed for this agreement is currently allocated within the NCDOT Project in the Water Resources Capital Improvement Projects (CIP) Fund.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a Utility Construction Agreement with the North Carolina Department of Transportation (NCDOT) for the estimated amount of $153,680 plus a 10% contingency for a total budget of $169,048 for the Bridge No. 217 over Grassy Branch on SR 2402 (Old Farm School Road) Waterline Relocation Project.

RESOLUTION BOOK NO. 39 - PAGE 362

D. RESOLUTION NO. 18-96 - RESOLUTION AUTHORIZING NEGOTIATION OF THE CITY DEBT FINANCING FOR CAPITAL PROJECTS WITH A DRAW PROGRAM THAT INCLUDES THE ISSUANCE OF INTERIM LIMITED OBLIGATION BONDS IN AN AMOUNT NOT TO EXCEED $48,000,000

Summary: The consideration of a resolution authorizing and directing the Interim City Manager and Chief Financial Officer, with advice from the City Attorney and Bond Counsel, to pursue and negotiate on behalf of the City debt financing for capital projects with a draw program

that includes the issuance of interim Limited Obligation Bonds (LOBs) in an amount not to exceed $48,000,000. Such program will be in accordance with the provisions of Section 160A-20 of the General Statutes of North Carolina.

The City has reimbursement resclutions for Council approved capital projects authorized as part of the FY 2018 Budget. The interim LOB draw program will reimburse the City for costs incurred to date for those projects and allow the City to complete many of the projects. Upon completion, these projects will be permanently financed through longer-term LOBs and Special Obligation Bonds (SOBs).

The resolution authorizes the Interim City Manager and Chief Financial Officer to proceed and negotiate an interim LOB financing on behalf of the City. The resolution also authorizes the Chief Financial Officer to provide information to and seek necessary approvals from the LGC for such financing and to retain assistance from bond counsel and financial advisors as she deems necessary to carry out the transaction.

Pro:

- Allows the City to move forward with the Capital Improvement Program and Draw Program financing.

Con:

- None noted.

The interim LOBs draw program includes an amount not to exceed $48,000,000. The annual debt service payments for this financing shall be calculated following responses from the considered banks and will be included in the Staff Report provided for the May 22, 2018 City Council meeting.

Staff recommends that City Council approve the resolution as it is proposed.

RESOLUTION BOOK NO. 39 - PAGE 364

E. RESOLUTION NO. 18-97 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE A SECOND AMENDMENT TO THE WHOLESALE PURCHASE AGREEMENT BETWEEN THE CITY OF ASHEVILLE AND TOWN OF BLACK MOUNTAIN TO INCREASE BLACK MOUNTAIN'S CAPACITY

Summary: The consideration of a resolution authorizing the Mayor to execute a second amendment to the Wholesale Water Purchase Agreement (Agreement) between the City of Asheville (Asheville) and the Town of Black Mountain (Black Mountain) to increase Black Mountain's daily water allotment from 200,000 gallons per day (gpd) to 300,000 gpd.

Asheville and Black Mountain have an existing Agreement for Black Mountain to purchase water from Asheville.

Section B.4 of the Agreement with Black Mountain provides that Black Mountain may renegotiate the fixed volume amount upward with the City anytime during the term of this Agreement upon thirty (30) day written notice to the Director who shall negotiate in good faith within thirty (30) days of receiving the request for a new fixed volume monthly amount. Water Resources Staff has conducted a system analysis of the water availability and determined that the additional allotment can be conveyed to Black Mountain through the existing and proposed infrastructure.

Pro:

- This amended wholesale agreement will give Black Mountain the increased capacity they need to provide water to the Town customers.
- Asheville has the available water supply for Black Mountain's request for additional capacity.

Con:

- None

Asheville will gain $22,080/year in additional revenue from the increase in fixed fees.

City staff recommends City Council adopt a resolution authorizing the Mayor to execute a second amendment to the Wholesale Purchase Agreement between the City of Asheville and the Town of Black Mountain to increase Black Mountain's daily water allotment from 200,000 gallons per day to 300,000 gallons per day.

RESOLUTION BOOK NO. 39 - PAGE 368

F. RESOLUTION NO. 18-98 - RESOLUTION AUTHORIZING THE MAYOR TO EXECUTE AN AGREEMENT WITH THE TOWN OF BLACK MOUNTAIN TO TRANSFER WATER RESOURCES ASSETS WITHIN THE TOWN OF BLACK MOUNTAIN SERVICE AREA FROM THE CITY OF ASHEVILLE TO THE TOWN OF BLACK MOUNTAIN

Summary: The consideration of a resolution authorizing the Mayor to execute an agreement with the Town of Black Mountain to transfer Water Resources assets within the Town of Black Mountain service area from the City of Asheville to the Town of Black Mountain.

The transfer of Water Resources assets has been in consideration for greater than 15 years. The transfer includes relinquishing ownership and future maintenance responsibilities of the City of Asheville's infrastructure within the Town of Black Mountain service area to the Town of Black Mountain over a two year period in two phases. This transfer allows the entities to be more efficient in the operation and maintenance of the water systems, which in many cases, occupy the same right of way. This also allows the Town of Black Mountain to increase their capacity through system expansion to serve their residents and proposed future commercial and industrial development.

On April 23, 2018, the Finance Committee reviewed this action and recommended approval.

Pros:

- The transfer will allow both entities to operate each water system more efficiently.
- The City will avoid future maintenance and infrastructure investments for these assets.

Con:

- Short-term revenue loss.

Although there will be a reduction in revenue for the City of Asheville, the increased water supplied to Black Mountain through the wholesale agreement will help offset this revenue loss. Additionally, the City will be able to reduce the maintenance activity of this system, which will need significant investment in the next 10 to 20 years. Black Mountain will be able to take advantage of the redundant infrastructure in some cases to minimize the maintenance and replacement costs that would be incurred by Asheville. Over time the transfer of these assets is a good economic and customer service decision for both entities.

Staff recommends City Council adopt a resolution authorizing the Mayor to execute an agreement with the Town of Black Mountain to transfer Water Resources assets within the Town of Black Mountain service area from the City of Asheville to the Town of Black Mountain.

RESOLUTION BOOK NO. 39 - PAGE 369

G. RESOLUTION NO. 18-99 - RESOLUTION APPROVING AMENDMENTS TO THE HOUSING TRUST FUND POLICY

Summary: The consideration of a resolution authorizing the amendments to the Housing Trust Fund Policy.

The Housing and Community Development Committee (HCD) conducted its annual review of the Housing Trust Fund Policy with recommendations from both the Affordable Housing Advisory Committee (AHAC) and staff. The HCD Committee recommended that the following changes be made to the Policy after reviewing :

1. Equal priority given to rental and homeownership proposals
2. Permanent affordability given highest priority
3. Down Payment Assistance is an eligible use of funds, as long as funds are not forgiven
4. Unique features to the project can warrant awards outside of the existing policy
5. A minimum of 10% funds will be held until completion of the project
6. Number of affordable units and transit access given higher underwriting priority
7. Low Income (50% AMI) homeownership given additional points in underwriting
8. Bedroom size priority reduced from Tier II to Tier III in underwriting

Pros:

- The proposed changes would increase the incentive to create permanent affordable housing and create incentives for low income home ownership;
- The underwriting scoring matches the needs of the current affordable housing market, including the need for more units and homeownership opportunities;
- Down Payment Assistance funds provides additional support to the development of homeownership programs for low income households

Cons:

- Homeownership loans are still 3-year construction loans and may remain a challenge for developers;
- Private developers may ask to keep loans in the project for the life of a permanent affordability period, which could deplete the fund balance over time;
- Upholding a higher weight to the underwriting score is not being leveraged.

The Housing and Community Development Committee recommends City Council approve a resolution approving the amendments to the Housing Trust Fund Policy.

RESOLUTION BOOK NO. 39 - PAGE 370

H. RESOLUTION NO. 18-100 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE PARKS SPORT COURT UPGRADES/RENOVATIONS BOND PROJECT

ORDINANCE NO. 4667 - BUDGET AMENDMENT TO FUND THE PARKS SPORT COURT UPGRADES/RENOVATIONS

Summary: The consideration of a (1) resolution authorizing the City Manager to execute a contract with French Broad Paving, Inc, to provide construction services for Asheville Parks Sport Court Upgrades/ Renovations Bond Project for an amount of $890,000 and further authorizing the execution of any contract amendments up to 5% (44,500) above of the contract price, which may arise during execution of said project; and (2) technical budget amendment in the amount of $157,500 to move additional funding needed for this project from the Parks and Recreation Department's General Fund adopted deferred maintenance budget to the General Capital Project Fund Bond Project.

The primary goal of the project is to address maintenance backlog for sport courts and to build for the future. These goals will be accomplished by replacing out of date facilities and site components that have reached the end of their service life. Specific sport court upgrades will include site grading/drainage, new equipment, surfacing, fencing, site furniture, drinking fountains, plant materials, and accessible pedestrian circulation systems.

The sport court projects have been prioritized with a focus on improvements in underserved areas of the city. These improvements will address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods and their long-term recreation requirements.

Weaver Park, Murphy-Oakley Park, Montford Park, and Malvern Hills Park sport courts were designed and bid as part of this project. The City issued an Advertisement for Bids for construction on February 21, 2018, pursuant to NCGS 143-129. One bid was received on the bid due date of March 14, 2018. As of the re-advertised bid opening date on April 4, 2018, the City received one bid making French Broad Paving, Inc located in Marshall, North Carolina the lowest, responsive, responsible bidder with a base bid of $1,139,867.60. As this exceeded the available funding, the City negotiated a base bid for all work at Murphy-Oakley Park, Montford Park, and Malvern Hills Park in the amount of $890,000 to bring the contract within the available budget. These court projects were prioritized for reconstruction based upon their current condition and to provide an equitable distribution of court projects. Weaver Park will be considered as future funding becomes available.

The tentative project timeline for construction is June 2018 - December 2018.

Pro:

- Improves the safety and functionality of the City's sport courts for park users by replacing and improving existing courts.

Con:

- The proposed courts and portions of the adjacent park will be partially closed during renovations since the majority of work is scheduled to take place during the summer. Any closure will be advertised and coordinated with general park users, Parks & Recreation programming and neighborhood representatives.

The General Obligation (GO) Bond included $1,015,000 in funding for the Parks Sport Court Upgrades/ Renovations Project. In order to fully cover the cost of the contract and other expenses in the project, an additional $157,500 in funding is being transferred from the Parks and Recreation Department's General Fund adopted deferred maintenance budget to the project. A technical budget amendment is included in order to provide budget authorization for this transfer.

Staff recommends City Council authorize the City Manager to (1) execute a contract with French Broad Paving, Inc, to provide construction services for Asheville Parks Sport Court Upgrades/ Renovations Bond Project Bond Project for an amount of $890,000, and further

authorizing the execution of any contract amendments up to 5% ($44,500) above of the contract price, which may arise during execution of said project; and (2) execute a technical budget amendment in the amount of $157,500 to move additional funding needed for this project from the Parks and Recreation Department's General Fund adopted deferred maintenance budget to the General Capital Project Fund Bond Project.

RESOLUTION BOOK NO. 39 - PAGE 382
ORDINANCE BOOK NO. 32 - PAGE 56

I. RESOLUTION NO. 18-101 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR BOND YEAR 2 RESURFACING - STORMWATER IMPROVEMENTS PIPE REPLACEMENT PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Patton Construction Group, Inc. (Patton) for construction services necessary to perform the Year 2 Bond Resurfacing - Stormwater Improvements Pipe Replacement Project in the amount of $326,525.00 and to enter into change orders to this contract not to exceed an additional 15% of the original contract amount or $48,978.75 for a total amount of $375,503.75.

This project is to complete the needed pipe replacement and minor stormwater improvements ahead of our Street Division Year 2 Bond Resurfacing Contract. This work includes but is not limited to the installation and replacement of stormwater pipe, stormwater structures, concrete curb and the associated repairs to driveways, sidewalk, and patching of roadway.

Within the scope of the project, Patton will install approximately 538 feet of new storm drainage infrastructure in various locations along Caledonia Road, Caribou Road, and Lakeshore Drive.

The project was posted for bid on March 28, 2018. A non-mandatory pre-bid meeting was held with a small turnout on April 9, 2018. Bids were scheduled to be opened on April 17, 2018; however, only one bid was received. The bid was not opened and was returned to the contractor.

Following the re-bid process, the project was re-advertised for at least 7 days. Bids were received and opened on April 25, 2018; with the following bid result:

Patton Construction Group of Arden, NC	$326,525.00

Upon careful consideration of the bidder, their bid submittal and their qualifications, the City determined that Patton Construction Group, Inc. was the lowest responsive responsible bidder. With Patton's bid the final contract amount will be $326,525.00.

Pros:

- Repair and installation of storm drainage systems ahead of resurfacing prevents future roadway cuts and maintenance issues in these areas.
- Controlling stormwater runoff provides safe access for the citizens that visit this area.
- Making capital investments through projects achieves a goal of the Stormwater Utility Program.

Con:

- Construction will be disruptive to the area for approximately 2 months.

The total amount of the contract is $326,525.00. Adding in a 15% contingency of $48,978.75 brings the total required budget to $375,503.75. This contract is funded through the General Obligation Bond Program as part of the road resurfacing allocation.

City staff recommends City Council adopt a resolution awarding the contract to Patton Construction Group and authorizing the City Manager to execute on behalf of the City of Asheville the contract for the construction services necessary to perform the Year 2 Bond Resurfacing - Stormwater Improvements Pipe Replacement Project in the amount of $326,525.00 and to enter into change orders to this contract not to exceed an additional 15% of the original contract amount or $48,978.75.

RESOLUTION BOOK NO. 39 - PAGE 383

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Kapoor and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. CITY OF ASHEVILLE YOUTH LEADERSHIP ACADEMY

Mayor Manheimer said that for the past decade, the Asheville City Council has celebrated the achievements of the dedicated and deserving students who have been selected for CAYLA. CAYLA, the acronym for the City of Asheville Youth Leadership Academy, was started in 2007 as an internship program that would also help youth share their time and talents in our community, support them in their quest for college, and reward them with a generous scholarship. This past year, the CAYLA program expanded to include students attending Buncombe County high schools in addition to Asheville High and SILSA. She then welcomed the CAYLA seniors who will be making a brief presentation to City Council this evening and who are representing the 40 students selected for the program this year.

Isabel Arrendondo, Devin Boston, Jasmine Riddle, Rayanna Inniss and Kaitlyn Srey spoke about their experiences with the CAYLA program and thanked Council for supporting this program.

Mayor Manheimer then recognized all CAYLA students and recognized the hard work and dedication of Founding Director of the City of Asheville Youth Leadership Academy Erika Germer.

B. PRESENTATION OF THE FISCAL YEAR 2018-19 OPERATING BUDGET

Chief Financial Officer Barbara Whitehorn explained (1) the total budget is $124.2 million (2.9% increase); (2) the property tax rate is 42.89 cents (no change); (3) the Fund Balance use is $471,000; and (4) the unassigned Fund Balance as a percent of proposed budget is 16.81%.

Funded programs and initiatives from the Blue Ribbon Task Force include (1) funding a Human Relations Commission to address issues of equity, diversity and inclusion; (2) funding an Equity Office for development of the Equity Office with three additional staff; (3) funding to hire an

additional Transit Planner in the Transportation Department; and (4) funding for three electric and two diesel buses.

Fee changes regarding structure and use of parking revenues include (1) in-and-out in an hour free; (2) all parking over 1 hour pays first hour ($800,000 allocated to transit); (3) monthly rates increased by $10; and (4) daily maximum increased to $12 ($100,000 allocated to transit).

Mayor Manheimer said that the public hearing on the budget will be held on May 22, 2018, and the final adoption will be held on June 19, 2018.

ORDINANCE NO. 4668 - ORDINANCE ADOPTING CHANGES TO PARKING GARAGE FEES FOR FISCAL YEAR 2018-19

Director of Finance Barbara Whitehorn said that this is the consideration of an ordinance adopting changes to parking garage fees for Fiscal Year 2018-19.

At the April 10th and April 24th Budget Worksessions, staff discussed with City Council proposals for changing fees in the City's four parking garages. As part of the April 24th Worksession, City Council endorsed staff bringing forward for adoption the following changes:

Increase monthly rates in garages: Depending on the garage, monthly rates range from $40 (discounted rate) to $140. Currently, there are 950+ monthly account holders generating about $750,000 annually. Raising the monthly rates by $10 would generate an increase of $100,000 annually.

Increase the daily maximum: Based on the current annual transient transactions that exceed the $10 daily maximum in the four parking garages, staff estimates that raising the daily maximum to $12 would generate an increase of $60,000 annually.

Revise first hour free: Patrons who stay in City garages for less than 1 hour would continue to receive that hour of parking for free. However, if a patron's stay exceeds 1 hour, they would pay for that first hour and all subsequent time at the hourly rates (up to the daily maximum of $12). Based on the current annual transient transactions occurring in the four parking garages, staff estimates that revising the first hour free policy would generate an increase of $800,000 annually.

A full summary of the proposed adjustments to parking garage fees was provided to Council. All of the proposed fee adjustments would be effective July 1, 2018.

Pros:

- Provides opportunity to recover the cost of services from those that directly utilize or benefit from the service where appropriate, reducing the financial burden of city services on taxpayers.
- Provides additional revenue to help balance the FY 2018-19 budget.
- Allows staff to begin communicating fee changes to citizens, customers, and stakeholders so they are aware of changes that will be implemented on July 1.

Con:

- A slight increase in parking costs for Asheville citizens and customers.

The proposed fee adjustments would generate estimated Parking Fund revenue in the amount of $960,000.

City staff recommends City Council adopt an ordinance establishing the attached changes to fees and charges in City parking garages effective July 1, 2018.

Councilman Haynes did not support revising the first hour free at the parking garages.

Councilman Kapoor said that he has heard that downtown businesses are concerned that they are going to suffer from these increases; however, in his view, these increases are important to the budget and since the additional funds will be allocated to our transit system he felt they are justified.

At the request of Vice-Mayor Wisler, it was the consensus of Council for staff to prepare a comprehensive proposal on where parking is metered and where it is not, and, where the locations are not metered (i.e., West Asheville, River Arts District, Biltmore Park, Biltmore Village) a justification on why there are no meters at those locations.

Ms. Karen Ramshaw felt that these fee increases will contribute to the loss of local business downtown.

Ms. Dee Williams felt Council should come up with a more sustainable approach and a more long-range view of parking in order to support the small local businesses downtown.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Smith moved for the adoption of Ordinance No. 4668. This motion was seconded by Vice-Mayor Wisler and carried on a 5-1 vote, with Councilman Haynes voting "no".

ORDINANCE BOOK NO. 32 – PAGE 58

C. BOND PROCESS AND FINANCIAL UPDATE

Parks Program Manager Pete Wall reviewed the bond capital projects process, from project prioritization, project planning, site planning and design, construction and operations.

Project planning is the process of deciding high level project concepts through staff interaction and engagement with community stakeholders. Planning details (1) this process typically takes months to years depending on project complexity, community buy in and agreement about project vision; and (2) products of this effort include project concepts, initial budgets, community input, and identification of project challenges.

Current examples:

- Memorial Stadium - $4,075,000 - Planning construction start in Summer of 2020
- Dr. Wesley Grant Center - $4,650,000 - Planned construction start in Summer of 2020
- Parks Land Acquisition - $2,000,000 - On-going - Anticipated to be completed by 2022
- Road Resurfacing Phase 3 - $5,610,000 - Planned for 2019

Total value of projects currently in planning phase - $28,449,000.

Site planning and design is the process of developing scope concepts into refined buildable project details. Identification and resolution of specific site challenges including constructability and right-of-way acquisition. Site planning and design details (1) with a well defined scope and depending on project complexity, this process can take several months to a

year. (Large complex projects may exceed a year.); (2) products of this effort include refined budgets, bid documents, acquisition of easements, and construction agreements.

Current examples:
- Sport Courts - $1,015,000 - Project completion Fall 2018
- Tempie Avery/Montford Complex - $1,700,000 - Completion Winter 2018
- Hill Street Sidewalk - $468,000 - Completion Fall 2018
- Airport Road Sidewalk - $572,500 - Completion Spring 2019

Total value of projects currently in design phase - $12,433,000

Construction is the process of building projects that meet the planning and design expectations of the community. Construction details (1) projects in the phase of work are typically completed in one construction season (April to November) but can take multiple years depending on the project complexity; (2) products of this effort include new or refurbished infrastructure; and (3) this phase has the most direct impact to citizens. Especially businesses and residents near the project area.

Current examples:
- Martin Luther King Jr. Road - $2,909,620 - Complete May 2018
- Phase 1 Resurfacing - $2,753,380 - Complete Summer 2018
- Bus Shelters - $500,000 - Ongoing until money is spent
- Traffic Calming - $400,000 - Ongoing until money is spent

Total value of projects currently in construction phase - $7,578,000

D. CITY MANAGER RECRUITMENT PROCESS

Interim Assistant City Manager Peggy Rowe said that we are finalizing the contract with the Executive Search Firm Springsted / Waters for the purpose of conducting a national search for the next Asheville City Manager. As you might recall we conducted a Request for Proposal that opened on March 1, 2018, and closed on April 2, 2018. There were nine (9) responses. A team of employees made up of representatives from Human Resources, City Manager's Office (CMO), City Equity and Inclusion Office, and once City Council member using an objective process, selected Springsted/Waters to conduct the search.

A committee made up of a cross functional group of employees is launching a portal for a survey so that residents may provide input into the profile for our next City Manager. Additionally, this same team lead by the Communications and Public Engagement Department (CAPE) along with HR, CMO, and others, have announced dates for community meetings where residents may have input as well. The information gathered from these meetings along with the survey will inform the profile for the new City Manager prior to beginning the recruitment.

There will be several opportunities for community input in addition to those listed above. There will be focus groups with community stakeholders as well as focus groups with some employees. There will be a committee made up of residents and employees who will reduce a number of finalists to a smaller number for additional consideration. There will be a panel formed that will interview candidates. This interview panel will be made up of employees and key residents.

As you have requested we have proposed a process that allows many opportunities for residents to express the competencies they value in the new manager. Some opportunities inform the profile, some provide input into the candidates who are brought further into the process, while others interview candidates and recommend finalists to Council for selection.

There were two public meetings on May 10 at the Skyland Fire Department; and another downtown meeting will be held on May 19 at the Public Works Building. Child care and interpretive services will be available. Public input will also be taken through an online survey May 10-27 at Open City Hall Asheville. Physical copies will be available at recreation and community centers. Comments can also be left at 259-5900. Additional community meetings will be added as needed.

E. LEGISLATION

Mayor Manheimer said that after the incident involving Mr. Johnnie Rush, one of the goals that Council had on their list was a request to the legislature for a set of legislation that would strengthen our tools to implement change that better reflects the goals of our community. Later on the agenda is an item to dissolve the Citizens-Police Advisory Committee (CPAC). Now the City is underway with the creation of Human Relations Commission, noting that we have received 33 application for that Commission. Coupled with that, one legislative item is requesting the legislature to enact a local bill to have a Citizen Review Committee that better reflects what the community and Council wants - a Committee to actually have power and not just make recommendations. The legislation includes the power of the Citizen Review Committee to make binding decisions, to have subpoena power, to look at personnel records, to be able to view body-cam footage with a confidentiality agreement, etc. This will apply only to Asheville but it is modeled after House Bill 165 introduced last session. House Bill 165 is dead, but it is a bill that would have applied statewide. She contacted one of the sponsors of House Bill 165 and he suggested that Asheville ask for a local bill that uses the same concept. Because we have a Civil Service Board, the creation of a Citizen Review Committee that has the power to make binding and appealable decisions, does not work. Coupled with the draft bill to establish of a Citizen Review Committee is the repeal of the Civil Service Board.

Another legislative request is an exception that would apply to Asheville for the body-cam state law, which does not allow city councils or a citizen review committee to review body-cam footage. This would create an exception for City Council and a Citizen Review Committee to be able to see that body-cam footage if a confidentiality agreement is signed. If this passes, the state law that allows city councils to petition the courts to have that body-cam footage provided to the public (which we have done once before) would still be a tool.

The other legislative request is a bill that asks that the City of Asheville be allowed to disclose limited personnel information. Currently if someone files a complaint against someone in the Asheville Police Department because of the personnel laws the results of your complaint may not be disclosed to the complainant. This bill, modeled after Greensboro, would allow a complainant to actually hear the results of their complaint.

After a brief discussion, it was the consensus of Council to forward these legislative requests to the Governance Committee, which will meet on May 22, 2018, noting that the bill drafting deadline is May 25. In addition, discussion of these legislative requests will be placed on the Council's May 22 agenda as well.

IV. PUBLIC HEARINGS: None

V. UNFINISHED BUSINESS:

A. REVIEW OF ASHEVILLE POLICE DEPARTMENT OPEN DATA

Assistant to the City Manager Jaime Matthews said that the City Council adopted the Open Data Policy in October of 2015, which was drafted in collaboration with Code for Asheville.

Since that time we have provided dozens of data sets including info on transportation, capital projects,employee salary data, and Asheville Police Department (APD) Crime Data on the City's Open Data Portal.

At the April 24 meeting of City Council, Code for Asheville's Petition for Police Accountability for Data Transparency was presented. Council members asked that staff review the feasibility of implementing the open data requests and provide a timeline.

This following is an overview of their request for (1) data sets - use of force; emergency call data; crime reports; citation and arrest data; citizen complaints; traffic stop reports; and demographic information of APD officers; (2) policies and reports - APD Policy Manual; internal reports; internal audits of body worn cameras; and (3) additional actions - Blue Ribbon Committee; NAACP and SCSJ Policy reforms; Anti-Retaliation Policy; Police data initiative; and recordings of committee meetings.

The additional actions have either already been addressed or involve policies and procedures that will need further guidance from Council.

Over the last two weeks, the Information Technology (IT) Department, the City Manager's Office, APD, and Legal have reviewed the Open Data requests and developed action items and next steps.

She thanked Patrick Conant leading petition and for his thoughtful recommendations. She looked forward to working collaboratively as our open data program grows.

She said that various definitions of open data exist. Generally, open data is a set of "granular" information (i.e., incidents rather than aggregations or summaries); in a downloadable, digital format; available online at no cost; machine-readable and analyzable (i.e., no PDF, image, or other locked files); nonproprietary and without restriction; and released by the original information source in a timely manner.

The goals for the APD open data are that they (1) be consistent with the Open Data Policy; (2) provide ample safeguards for the privacy of both officers and citizens and for the integrity of criminal investigations; and (3) increase trust between the City and the community that it serves.

Regarding short-term action items, the following data sets will go up after some technical procedures are worked out: (1) Crime Reports including data back to 2005 with disclaimer - this request has been met as of today; (2) Traffic Stop Data - data that is currently reported to the state; (3) Demographics information on all City employees - review with Human Resources Department and Equity Office; and (4) APD manuals, policies and forms that are public record. We are hoping the others will be in the next few months. This includes the request for APD manuals, policies and forms that are a public record. The Traffic Stop Data, Demographics and the APD manuals and forms will be made available online as soon as some technical glitches are worked out.

As we address the short term actior items, we will need further review which will include engagement with stakeholders on the following additional data requests: (1) additional traffic stop data; (2) citation and arrest data; (3) emergency call data; (4) citizen complaints; and (5) use of force.

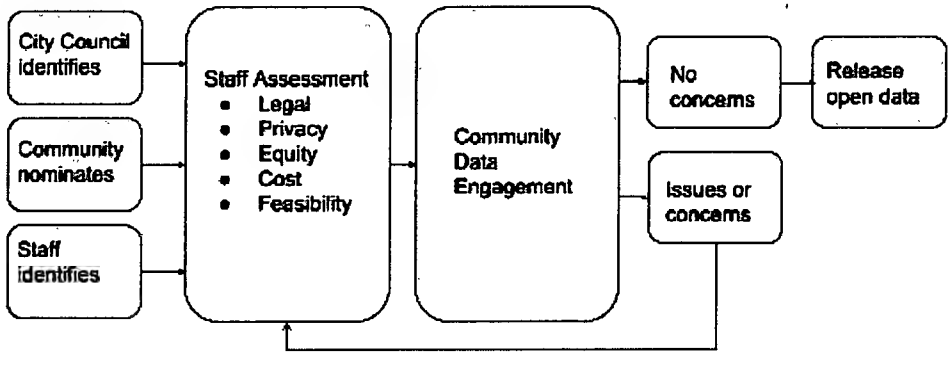
As staff we started this conversation, and would like more voices at the table as we work through questions and concerns.

Business and Public Technology Manager of the IT Department Scott Barnwell said that IT Services has been working on an improved data governance process for all City open data, one that explicitly includes engagement with the public around the purpose and use of open data. The release of the datasets requested by Code for Asheville present an opportunity to flesh out the engagement portion of that process.

The release of open data begins with identifying datasets of value to the community. To date, the City of Asheville has used the following three criteria to identify potential datasets to be released as open data:

1. Pragmatics: Does publishing a dataset as open data save staff time? For example, if a dataset is regularly requested as a public records request, automating the availability of that information through the open data portal eliminates the need for ongoing manual responses to public records requests.
2. Policy: What does our governing board want prioritized as open data?
3. Participation: What does the community want to prioritize as open data? Currently, the City of Asheville's open data portal has a link to "Nominate" data to be released as open data.

Once a dataset of interest has been identified, staff evaluates the release for technical feasibility, legal and privacy considerations, and alignment with best practices. This is the point at which we identified the need for an enhanced open data release process earlier this year that allows the community to weigh in.



In this process, data is only released after successfully passing through both staff assessment and community engagement. He noted that he has gotten feedback from Mr. Conant on how to improve the flowchart draft process for open data.

Next steps include (1) a collaborative process will be conducted through engagement with key stakeholders; (2) the process will include monthly meetings as well as opportunity for online participation; (3) staff is currently starting this process to set up our first engagement meeting for the datasets above; (4) staff will use this specific opportunity to test and refine the open data process, that can be used in the future when reviewing all open datasets; and (5) staff will give quarterly updates on progress to the Public Safety Committee until all items have been addressed.

Councilman Haynes hoped for a quicker timeline on the five additional action items - (1) additional traffic stop data; (2) citation and arrest data; (3) emergency call data; (4) citizen complaints; and (5) use of force.

Mr. Barnwell said that the technical part on the five additional action items is relatively easy for most of these, and IT is working with the Criminal Justice Information System to get the data ready to be published. The question is really with the APD and their concerns.

Councilman Young agreed with Councilman Haynes on the need to move quickly as quickly as possible to provide the five additional action items.

Vice-Mayor Wisler noted that it's not only transparency about what the APD is doing, but also making sure that our citizens are protected.

It was the consensus of Council to have staff report back to Council on June 19 with an update on each of the five additional action items, to include, but not limited to: what exactly is being requested; do we collect that data now or not; do we collect the data in a format that is easy to release or not; and if we have the data, what is the barrier to producing that information to the public, and if there is a barrier what is the alternative solution. Council is supportive of releasing the five additional data sets.

Mr. Patrick Conant provided Council with an update on their signatures and endorsements for the Code for Asheville's Petition. As of now, they have 1,108 signatures and 30 endorsements. He agreed that protecting the privacy of everyone but his proposal set a clear process to do that. He was frustrated that there are concerns around privacy because it is not that hard to handle it. The Petition was presented to put forward a tangible solution that can bring together many individuals and groups in the City. He believed the process is a starting point. He is doing everything he can to move the process forward, but felt the APD is not ready to move forward with data transparency. He asked for (1) a commitment of Council to release all of the data sets requested, (2) to revise the Open Data Policy to make it clear that if something is a public record it should be released as a data set; (3) a timeline of 30 days to hear a response on any data set request in the future; and (4) at least one Council member attend the stakeholder meetings.

With respect, Interim City Manager Ball addressed some of the concerns and noted that we don't have the ability to have people assigned to do this the full 40 hours of their workweek. From the date this came forward at the Public Safety Committee staff has been committed to try to get to this point. Also, Police Chief Hooper is committed to providing this as well. We have to do this responsibly. We are committed to work with Code for Asheville and to build trust and to get to the point we want to. City staff should not be viewed as trying to be obstructists in this process because they are not. We want to be at the table and get to the point where everyone is working together. We are working on this responsibly and reasonably to protect all of our citizens. There is no agenda other than to do that. We too want transparency. Again, we do have the APD on board. Whear from Council this is a priority and as this is a higher agenda, it is at the expense of other things getting done.

Councilwoman Smith felt that we are in a crisis concerning our public safety. People don't feel safe because the public trust in the APD officers is eroding daily.

Councilman Haynes, Chair of the Public Safety Committee, said that he would be happy to attend the stakeholder meetings.

VI. NEW BUSINESS:

A. RESOLUTION DISSOLVING THE CITIZENS-POLICE ADVISORY COMMITTEE

Deputy City Clerk Sarah Terwilliger said that this is the consideration of a resolution dissolving the Citizens-Police Advisory Committee.

The Citizen's Police Advisory Committee ("CPAC") was established by Resolution No. 91-67 on April 23, 1991, with the following duties and responsibilities: 1) to serve as liaison between the police and community over concerns; 2) to mediate problems or conflicts; 3) to serve as an advocate for programs, ideas, and methods to improve the relationship between police and the community; 4) to serve such other functions as falls within the province of the committee; and 5) to disseminate information to the community and the government officials of Asheville.

Throughout the years, CPAC has brought to light significant community concerns about systematic racism. In May of 2017 City Council created an ad hoc volunteer Blue Ribbon Committee ("BRC") which was charged with making recommendations for a new Human Relations Commission and reviewing the current scope of CPAC. Council froze appointments and reappointments to CPAC at that time. Of the nine voting seats on CPAC there are currently three vacant seats and two seats that have been expired for over a year.

On February 13, 2018, the BRC presented their recommendations to Council and on April 10, 2018, Council adopted Ordinance 4663 establishing the Human Relations Commission of Asheville (HRCA). The purpose of the Human Relations Commission of Asheville (HRCA) is to promote and improve human relations and achieve equity among all citizens in the City. Recognizing equity challenges are multi-faceted, the HRCA is charged with: 1) providing a forum where residents can raise and bring to the HRCA's attention to issues and complaints related to human relations; 2) promoting and improving human relations; and 3) advancing equity in public safety. Given this, the newly created HRCA is well positioned to take a comprehensive approach to affect positive change in equity and public safety in the City.

Regarding community relations, the Asheville Police Department ("APD") has established and is committed to continuing to grow relationships with a diverse group of organizations through more direct community engagement. APD Officers regularly attend neighborhood meetings to share information and listen to community concerns. A strong partnership with the City's neighborhood community engagement manager maximizes these effects.

In addition to current practices, a new community liaison program will provide community members direct access to the police chief and deputy chiefs through their quarterly attendance at neighborhood meetings. The APD will also continue to host community events and partner with community groups. All City-sponsored meetings with opportunities to engage with APD officers will all be posted on the City-wide calendar as well as shared through social media and neighborhood networks.

The Boards and Commissions Committee reviewed this action at their January 9, 2018, and April 10, 2018, meetings and it was recommended this move forward to Council.

Pros:

- More opportunities for direct communication between the Asheville Police Department and the community
- A more comprehensive approach to promoting and improving human relations
- A more comprehensive approach to improving equity in public safety

Con:

- Current CPAC members will be removed from their position, but they will be able to apply for a seat on the Human Relations Commission

Staff recommends City Council adopt a resolution to dissolve CPAC.

Councilman Young moved to dissolve CPAC. This motion was seconded by Councilman Haynes.

Councilwoman Smith felt Council should delay dissolving CPAC. She felt we believe now that the Human Relations Commission of Asheville (HRCA) is going to take up these community concerns but personally she felt that is a bad idea. She felt CPAC should stay in place to be a intermediary committee to hear public safety concerns. If we overload the HRCA with a lot of public safety issues and put the burden on them to resolve and mediate those issues, then the other scope of their work will be missing. The possible Citizen Review Committee might take the place of CPAC, but we have to wait to see the results. She felt that the role of CPAC should be redefined since it was established in 1991. She also felt that the HRCA should have two individuals from CPAC serve in a non-voting capacity.

Councilman Kapoor viewed the dissolution of CPAC as a transition until we get the HRCA up and running. He would not be opposed to dissolving CPAC, but felt it might be better to keep it active until the HRCA is firmly established.

Mayor Manheimer noted that many of the members of CPAC have resigned and we will need to begin the process of advertising for volunteers to fill those seats.

Councilman Young felt that once the HRCA gets established then he felt they will be able to take on a lot more. He was not opposed to keeping CPAC in a transition period until the HRCA gets firmly established.

The following individuals spoke in support of not dissolving CPAC at this time (as it is a forum for the public to express concerns about the nature of policing in our community) and suggested it remain at least until the HRCA is established:

Carol Rogoff Hallstrom
Mike Beech
Sabrah n'haRaven
Ashley Cooper
Carmen Ramos-Kennedy
Rondell Lance
Patrick Conant
Luke Fernbach
Dee Williams
Kim Roney

Mayor Manheimer said that the vision would be that eventually a Citizen Review Committee would be a subcommittee of the HRCA, but that decision would be left up to the HRCA.

Councilman Young withdrew his motion and Councilman Hayes withdrew his second.

It was the consensus of Council that the Boards & Commissions Committee finetune the scope of CPAC during the transitional period until the HRCA is established, and that the City Clerk's Office begin to advertise for the vacant seats.

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Mr. Jesse Michel, Mr. Luke Fernbach, Ms. Ashley Cooper and Mr. Patrick Conant spoke in support for Code for Asheville's petition for data transparency.

Mr. Stephen Pinsky hoped that City Council would consider providing resources to the Asheville Museum of Science.

Ms. Tiffany De'Bellott provided City Council with the Asheville City Schools Foundation After-School Update.

Ms. Becca Nestler and Mr. Steven Beltram, owner of Balsam Gardens, which is a 34-acre certified organic vegetable farm in Asheville, said that one of the challenges that we face is a heavy deer population that could devastate our crops. They reached out to Back Yard Bow Pro, which is a local charity, that helps land owners manage deer and donate the meat to organizations that feed the less advantaged in our community. In order to harvest the meat and donate it to charity we need to get a depredation permit from the NC Wildlife Commission. However, they could not issue one because there is a city ordinance banning the shooting of arrows in the city. There is an exemption in the ordinance for the protection of property. He understood that the City of Woodfin has the same ordinance and the city staff was able to give NC Wildlife Commission permission to issue a permit to a farm in that municipality. He asked for Council to direct City staff to prepare an ordinance amendment. They felt strongly that amending this ordinance to permit bona fide farms to sustainably harvest deer with bows to protect crops and feed less advantaged members of our community would be in accordance with the city Food Action Plan. It was the consensus of Council to have the Public Safety review the request, along with other options, i.e., fencing.

Mr. Jonathan Wainscott felt that the City has not been a good steward of their assets since the City's lease with the Asheville Tourists expired on December 31, 2016. He urged the City to renew the lease at a reasonable rate.

Mr. Rondell Lance, President of the Fraternal Order of Police, spoke in support of the APD officers, noting that they are doing their best to serve and protect the community.

Mr. Craig Loveland, APD officer, said that there is a crisis in public safety and that is that 2.2 officers a month leave the APD due to being overworked and not having the resources they need. He hoped that Council and the public understand that the actions of a few are not what the rest of the officers are doing. He hoped that Council get to a point where they can be proud of the APD again.

Mr. Michael Napeliyano, owner and operator or 27 Biltmore Avenue, asked for more APD officers to work the area from Pack Square down to 27 Biltmore Avenue in order to help with the problems associated with the homeless population camping out in front of his business and people on drugs that frequent that area. Mayor Manheimer said that Interim City Manager Ball is working on an idea (derived from a program in Fort Collins, Colorado) where the City helps fund a non-profit that trains people who can respond to calls from business owners who are dealing with the homeless and help them find resources that would better suit them.

Rev. Amy Cantrell urged Council to eliminate $1.2 Million increase to the Asheville Police Department.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 8:32 p.m.

Magdalen Bowleson
CITY CLERK

Esther E. Manheimer
MAYOR

80

Tuesday – May 22, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

A. PROCLAMATION PROCLAIMING JUNE 4-10, 2018, AS "VEGAN CHALLENGE WEEK"

Councilman Haynes read the proclamation proclaiming June 4-10, 2018, as "Vegan Challenge Week" in the City of Asheville. He challenged Council to participate in the Vegan Challenge or at least look at doing so. He then presented the proclamation to Chef Jason Sellars, Head Chef and Owner of Plant Restaurant; and Paul Berry, Executive Director of Brother Wolf Animal Rescue, who briefed City Council on some activities taking place.

B. VOLUNTEER OF THE YEAR AWARD

On behalf of City Council, Councilman Kapoor, along with Mr. Phil Lenowitz, Chair of the Neighborhood Advisory Committee, was pleased to present Ms. Renee' White with the 2018 Volunteer of the Year Award. Ms. White has resided in the East End / Valley Street Neighborhood all her life. She has been president since of the association since its inception in 2010. She is widely respected by the neighborhood members. They note that she is a "strong and proactive leader." As the neighborhood demographics continue to change, Renee' has lead the process of old and new families being warmly welcomed into the process of re-engaging the community. She currently leads the executive committee of the neighborhood in developing plans for the use of the Isaac Coleman Grant and is part of the Steering Committee for the Community Land Trust initiative.

II. CONSENT AGENDA:

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 15, 2018

B. RESOLUTION NO. 18-102 - RESOLUTION AUTHORIZING THE CITY MANAGER TO CONVEY ADDITIONAL SQUARE FOOTAGE OF SANITARY SEWER EASEMENT AT 345 MONTFORD AVENUE TO THE METROPOLITAN SEWERAGE DISTRICT

Summary: The consideration of a resolution authorizing the City Manager to convey additional square footage of a sanitary sewer easement to the Metropolitan Sewerage District of Buncombe County (MSD) for a sewer line that runs underneath the tennis courts in Montford Park. The original easement was approved in January of 2018.

The City of Asheville owns the 4.28 acre park at the corner of Cumberland Avenue and Montford Park Place. There is currently an eight (8) inch vitreous clay sewer line that runs underneath the two tennis courts and connects with another sewer line at Cumberland Avenue to serve that neighborhood. The sewer line is scheduled for rehabilitation because of its material and condition. MSD would prefer that the sewer line be moved out from under the tennis courts, but the location is limited due to the existing connections to a nearby line, a retaining wall, and the challenging topography on either side of the tennis courts. MSD claims a prescriptive easement over the existing sewer line because there is no recorded easement. MSD plans to rehabilitate a deteriorating line and establish a permanent easement for the sewer line at the same time.

Within City property, MSD's plans call for replacing roughly 405 linear feet of eight (8) inch clay pipe with an eight (8) inch high-density plastic pipe. MSD planned to use underground pipe bursting technology that will eliminate the customary surface digging with pipe replacement. Ductile iron was discovered when additional testing was done and MSD must use cured-in-place pipe lining technology instead. Bore pits will have to be excavated and equipment lowered into the holes. This method should reduce or eliminate any potential damage to the existing tennis courts. Both tennis courts will be closed during construction to ensure public safety.

The final survey plat that was furnished to the City of Asheville in April included replacement of an additional existing segment that connects the sewer line to Montford Avenue. The entire public line that crosses this parcel will be rehabilitated during the project. The square footage of permanent easement being requested increased from 8,100 square feet to 11,464 square feet and no longer includes a temporary easement.

MSD does not compensate property owners when rehabilitating an existing line. It should also be noted that because sewer infrastructure rehabilitation serves a public purpose, MSD does not compensate other units of government for any easement granted.

Pete Wall, representing Capital Projects, the Real Estate Coordinator, and Mark Halstead representing Parks and Recreation met with MSD staff to discuss the project. The City has plans to renovate the park and resurface the tennis courts in connection with the capital improvement bond program and will coordinate these improvements with MSD's project. MSD now plans to perform construction in June of 2018 with the City's renovation of the park to follow. Upon review of the final plans, City staff recommends approval of the easement.

Pros:

- Granting of the easement will allow MSD to rehabilitate a sewer line that is in poor condition and needs maintenance.
- MSD's use of cure-in-place pipe lining technology will reduce the impact of construction and shorten its duration.
- MSD is willing to accommodate the City's bond improvement schedule.

Con:

- Future sewer maintenance activities may have an impact on the use of the court. Although these will be minimal, the possibility remains.

No monetary consideration is involved in this conveyance.

Staff recommends City Council adopt a resolution authorizing the City Manager to convey an approximately 11,464 square foot permanent easement to MSD for a sewer line across the City park at 345 Montford Avenue.

RESOLUTION BOOK NO. 39 - PAGE 384

C. RESOLUTION NO. 18-103 - RESOLUTION AUTHORIZING EXECUTION OF AN INSTALLMENT FINANCING CONTRACT FOR FISCAL YEAR 2018 CAPITAL IMPROVEMENT PROGRAM VEHICLES AND OTHER EQUIPMENT

Summary: The consideration of a resolution authorizing execution of an installment financing contract for Fiscal Year (FY) 2018 Capital Improvement Program (CIP) Vehicles and Other Equipment in an amount not to exceed $6,250,000.

Appropriations for FY 2018 include $6,250,000 for various vehicles, computer equipment and fire department equipment with the capital expenditures financed through debt proceeds, as authorized by N. C. Gen. Stat. sec. 160A-20.

On April 11, 2018, the City distributed a Request for Proposal ("RFP") seeking competitive bids for the financing to selected financing partners willing to take a UCC filing for the security of the financing. Six proposals were received, the most favorable of which was submitted by HomeTrust Bank (the "Bank") at an interest rate of 2.65% per annum for a term of 48 months (computer equipment) and 2.65% per annum for a term of 59 months (vehicles).

The proposed resolution authorizes an installment financing contract between the City of Asheville and the Bank for the purchase of the vehicles and computer equipment and it authorizes the City Manager, City Attorney, Finance Director and City Clerk to execute and deliver any and all necessary documents including anyone serving in an interim capacity, or their respective designees (each a "Designated Representative").

The contract will place a security interest in the vehicles and computer equipment in favor of the Bank in order to secure the City's obligation under the contract. Pursuant to a previously adopted reimbursement resolution, proceeds from this financing contract will allow the City to reimburse itself for the cost of the vehicles and computer equipment which have already been procured.

Pros:

- Provides funding of capital expenditures at a very favorable effective interest rate.
- Financing capital purchases spreads the cost of acquisition over several years of the useful life of the asset.
- Reimbursing this capital purchase with the proceeds of the financing, as opposed to paying for the purchase by using the City's available cash balances, increases currently available funds through restoration of the fund balance.
- The financing conforms to the approved Financing Plan for capital expenditures.

Con:

- Financing the purchase increases nominally the lifetime cost of the acquisition due to the payment of interest and closing costs on the amount financed.

The annual debt service payments for this financing range between approximately $1.4 million in the first year (interest and principal repayment) and approximately $1.1 million in the fifth year. Funds are included in the City's FY 2018-19 proposed debt service budget to cover this cost, and the debt service payments are included in the City's multi-year capital improvements debt model.

City staff recommends that City Council adopt the resolution authorizing the City Manager to execute an installment purchase contract and closing process with Regions Capital Advantage, Inc. for the acquisition of the vehicles and computer equipment.

RESOLUTION BOOK NO. 39 - PAGE 385

D. RESOLUTION NO. 18-104 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A PARTNERSHIP AGREEMENT WITH THE MAYOR'S COMMITTEE FOR VETERANS AFFAIRS FOR THE ASHEVILLE-BUNCOMBE COUNTY MEMORIAL DAY CEREMONY ANNUALLY THROUGH 2021 CELEBRATION

Summary: The consideration of a partnership agreement with the Mayor's Committee for Veterans Affairs for production of the Asheville-Buncombe County Memorial Day Ceremony annually through year 2021.

The Mayor's Committee for Veterans Affairs works through the special events office at Community & Economic Development to coordinate support services and secure permitting for the Asheville-Buncombe Memorial Day Ceremony conducted in partnership with the City of Asheville. The City has historically reserved public space, permitted, and provided standard resources to support the Ceremony at no charge. The Parks & Recreation department has additionally assisted with the setup of equipment resources loaned to the Committee.

The Mayor's Committee for Veterans Affairs is prepared to produce the 2018 Asheville-Buncombe Memorial Day Ceremony in partnership with the City, and City staff is prepared to provide the same level of service as it has in prior years. This collaborative effort has been managed through an annual agreement authorized by the City Manager, however when proposing to establish a multi-year agreement through 2021, the Legal Department recommended the agreement be accompanied by a formal resolution by City Council.

The Planning & Economic Development Committee reviewed this request at its April 9, 2018, meeting and recommends support of establishing a multi-year agreement with the Mayor's Committee for Veterans Affairs for production of the Asheville-Buncombe County Memorial Day Ceremony.

Pros:

- Allows the City to leverage resources to execute an efficient, cost-effective production
- Provides for a suitable and respectful Memorial Day ceremony in Asheville
- Promotes active involvement and participation with community members

Cons:

- Use of infrastructure and equipment provided to organizers and lost revenue from application processing, permits, and property use fees, and labor costs for City support personnel.

The value of City fees and charges at standard rates is estimated at $1,100, not accounting for the value of equipment loaned and staff time for setup by Parks & Recreation.

Staff recommends that City Council concur with the Planning & Economic Development Committee recommendation to authorize the City Manager to sign a four-year partnership agreement between the City of Asheville and the Mayor's Committee for Veterans Affairs for production of the Asheville Buncombe Memorial Day Ceremony through calendar year 2021.

RESOLUTION BOOK NO. 39 - PAGE 387

E. RESOLUTION NO. 18-105 - RESOLUTION AUTHORIZING THE CITY MANAGER TO THE FEDERAL TRANSIT ADMINISTRATION LOW OR NO

EMISSION VEHICLE PROGRAM AND IF AWARDED, ENTER INTO APPROPRIATE AGREEMENTS

Summary: The consideration of a resolution authorizing the City Manager to apply to the 2018 Federal Transit Administration's (FTA) Low or No Emission Vehicle Program in order to purchase five electric buses and related charging equipment and if successful, to accept the grant and sign all the appropriate agreements to receive the funds.

The FTA has opened a competitive opportunity for $84 million for the purchase or lease of zero-emission and low-emission transit buses as well as acquisition, construction, and leasing of required supporting facilities. The FTA will reimburse up to 85 percent of the cost of the vehicles and 90% of the cost of infrastructure. Transportation Department staff proposes to collaborate with Proterra, which satisfies the requirement for competitive procurement under 49 U.S.C. 5325(a). Last year, Asheville was the only city in North Carolina to receive funding from this program. (We are on schedule to receive five electric buses later this year.)

In the next three years, the Transit Master Plan calls for nine replacement and six expansion vehicles or a total of 15 buses, which is two more than are reflected in the proposed draft 2018-2019 Capital Improvement Program. Recent funding from the Surface Transportation Block Grant (STBG) has secured the federal funding portion for 10 buses. In order to meet the transit fleet's 2019-2021 needs, Staff recommends applying for five electric buses and charging equipment for a total cost of $4,300,000; the federal portion would total $3,340,000. The local match of $960,000 would be required for FY 2020.

The Finance Committee is reviewing this item on May 22, 2018, and if anything other than a unanimous recommendation is received, the details will be expressed at the City Council meeting later that same day.

Pros:

- Provides the capital needed to roll out the Transit Master Plan recommendations
- Contributes to the city's carbon reduction and climate mitigation goals
- Decreases dependence on liquid fossil fuels by about 10,000 gallons per bus per year
- Reduces energy consumption by 80% due to efficient electric motors
- Reduces harmful local emissions by over 1,000 pounds per bus per year

Con:

- Commits the city to funding an increased local match for FY 2020

If awarded, the CIP would be increased in FY 2020 to provide a competitive local match of $960,000 (22% of the total project); the CIP would subsequently be decreased in FY 2021 by approximately $145,000. (Although we expect to recover 10% of the total project cost from the NCDOT Urban Match program, or $430,000, to be conservative we are not budgeting for this repayment.) Yearly operational costs would be reduced by approximately $85,000 ($17,000 per bus) due to reduced fueling expenses.

Staff recommends that City Council approve a resolution authorizing the City Manager to apply to the 2018 Federal Transit Administration's Low or No Emission Vehicle Program in order to purchase five electric buses and related charging equipment and if successful, to accept the grant and sign all the appropriate agreements to receive the funds.

RESOLUTION BOOK NO. 39 - PAGE 388

F. RESOLUTION NO. 18-106 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT A COMBINATION SIDEWALK AND STORMWATER

EASEMENT FROM FHN MCCORMICK PLACE LLC FOR MAINTENANCE OF PUBLIC IMPROVEMENTS

Summary: The consideration of a resolution authorizing the City Manager to accept a sidewalk and stormwater easement from the developer of McCormick Place to allow for City maintenance of public improvements after installation.

A project is planned to build 17 townhomes near downtown Asheville adjacent to the McCormick Field baseball stadium. Charlotte-based FHN McCormick Place, LLC (FHN) is the developer and owner of the approximately one-half acre lot (PIN # 9648-47-6864). The project was approved with conditions by the City's Technical Review Committee in September 2017. City staff have been working with the developer's engineers to ensure that the infrastructure improvements that are planned for the project comply with the City's Stormwater Ordinance and sidewalk regulations.

In order to ensure both compliance and continued maintenance of infrastructure improvements, FHN will convey a combination sidewalk and stormwater easement to the City. The developer will construct a sidewalk along McCormick Place to City specifications and, upon satisfactory completion, the sidewalk will be turned over to the City for maintenance. Also, stormwater improvements will be installed in certain areas beneath the sidewalk, connecting to existing stormwater infrastructure in the street. 3,145 square feet of permanent sidewalk and stormwater easement will be granted to the City.

Pros:

- This project facilitates infill residential development in a downtown area location.
- Infrastructure improvements will be constructed at no cost to the City.

Con:

- City resources will be needed to maintain new sidewalk and stormwater infrastructure.

No cost for construction; to be included in maintenance program in future years.

Staff recommends City Council accept 3,145 square feet of sidewalk and stormwater easement from FHN McCormick Place to allow access for City maintenance.

RESOLUTION BOOK NO. 39 - PAGE 389

G. RESOLUTION NO. 18-107 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR THE FISCAL YEAR 2017 AND FISCAL YEAR 2018 JOB ACCESS AND REVERSE COMMUTE GRANT TO PARTIALLY FUND ROUTE 170 TO BLACK MOUNTAIN, AND IF AWARDED, ENTER INTO APPROPRIATE AGREEMENTS

Summary: The consideration of a resolution authorizing the City Manager to apply for a Fiscal Year (FY) 2017 and FY 2018 Job Access and Reverse Commute (JARC) Federal Grant to partially fund Route 170 to Black Mountain, and, if the application is successful, to accept the grant and sign all the appropriate agreements with the French Broad River Metropolitan Planning Organization (FBRMPO), State, and/or Federal agencies to receive the funds.

JARC is a Federal Transit Administration (FTA) grant program that is targeted at providing job access in urbanized and suburbanized areas. The 'job access' component aims to support development and maintenance of transportation services that transport low-income individuals to and from jobs and activities. The 'reverse commute' refers to a public transportation

project designed to transport residents of urbanized areas to suburban employment opportunities.

JARC is funded through a 10% allocation of FTA 5307 funds that are administered by the FBRMPO. The FBRMPO posted the call for projects in February, 2018. A total of $344,857 is available for projects in the FBRMPO region. The FY 2017/2018 JARC funds would support transit operations in FY 2018-19.

The City of Asheville has used this funding source in past years to fund Route 170 to Black Mountain. Staff recommends an application that would pay for 50% of the cost of Route 170 service for FY 2019, which totals $137,783 in grant funding.

The Finance Committee reviewed this action on April 23, 2018, and unanimously endorsed it to move forward to City Council for review and approval.

Pros:

- This funding will help maintain existing transit services essential to many residents.
- This funding will help offset operating costs.

Con:

- The City is responsible to provide the 50% local match.

The local match of $137,783 is included in the proposed FY 2018-19 operating budget.

Staff recommends that City Council approve a resolution authorizing the City Manager to apply for a FY 2017 and FY 2018 Job Access and Reverse Commute (JARC) Federal Grant to partially fund Route 170 to Black Mountain, and, if the application is successful, to accept the grant and sign all the appropriate agreements with the FBRMPO, State, and/or Federal agencies to receive the funds.

RESOLUTION BOOK NO. 39 - PAGE 390

H. RESOLUTION NO. 18-108 - RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY TO THE FRENCH BROAD RIVER METROPOLITAN PLANNING ORGANIZATION FOR SECTION 5310 FUNDS, AND IF AWARDED, ENTER INTO APPROPRIATE AGREEMENTS

Summary: The consideration of a resolution authorizing the City Manager to apply to the French Broad River Metropolitan Planning Organization (FBRMPO) for Section 5310 Funds, and if the application is successful, to accept the grants and sign all the appropriate agreements with the FBRMPO, State, and/or Federal agencies to receive the funds.

The FBRMPO has opened a call for projects to use FTA Section 5310 Funds, which are used to provide enhanced mobility to seniors and individuals with disabilities with an application deadline of March 29, 2018. The FBRMPO expects to have approximately $329,452 available from the FY 2017 FTA apportionment and the funds are expected to be distributed via this competitive call for projects.

Staff is pursuing funding in the amount of $187,500 to help offset the annual cost of paratransit service. The project is ready to move forward as funding becomes available.

The Finance Committee reviewed this action on April 23, 2018, and unanimously endorsed it to move forward to City Council for review and approval.

Pros:

- Enables the use of Federal funds to help provide needed assistance.
- Enables the City to offset part of the annual operating cost to provide transit service.

Con:

- City would be responsible for the 20% local match of $37,500.

The local match of $37,500 is included in the proposed FY 2018-19 operating budget.

City staff recommends that City Council approve a resolution authorizing the City Manager to submit a grant application to the French Broad River Metropolitan Planning Organization (FBRMPO) for Section 5310 Funds, and if the application is successful, to accept the grants and sign all the appropriate agreements with the FBRMPO, State, and/or Federal agencies to receive the funds.

RESOLUTION BOOK NO. 39 - PAGE 391

I. **RESOLUTION NO. 18-109 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ABA BEER WEEK KICK-OFF PARTY**

RESOLUTION NO. 18-110 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BEER CITY FESTIVAL

RESOLUTION NO. 18-111 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT XPAND FEST

RESOLUTION NO. 18-112 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE HALF MARATHON & 10K

RESOLUTION NO. 18-113 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE BETTER DADS FESTIVAL

RESOLUTION NO. 18-114 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE INGLES INDEPENDENT DAY CELEBRATION

RESOLUTION NO. 18-115 - RESOLUTION ALLOWING FOR THE POSSESSION AND CONSUMPTION OF ALCOHOLIC BEVERAGES AND/OR UNFORTIFIED WINE AT THE ASHEVILLE VEGFEST

Summary: The consideration of a resolution authorizing the Interim City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the ABA Beer Week Kick Off Party, Beer City Festival, Xpand Fest,

Asheville Half Marathon & 10K, Better Dads Festival, Ingles Independence Day Celebration, and Asheville VegFest.

- Friends of the WNC Nature Center has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the ABA Beer Week Kick Off Party allow for consumption at this event.

  The ABA Beer Week Kick Off Party will be held on Friday, May 25, 2018 from 5:00 p.m. to 8:00 p.m. within the boundaries of the WNC Nature Center as per the area limits referenced on the accompanying site map.

- Asheville Brewers Alliance has requested through the City of Asheville Community & Economic Development Department that City Council allow them to serve beer and/or unfortified wine at the Beer City Festival and allow for consumption at this event.

  The Beer City Festival will be held on Saturday, June 2, 2018 from 12:00 p.m. to 5:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Zenbivia Academy of Art & Science has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Xpand Fest and allow for consumption at the event.

  Xpand Fest will be held on Saturday, June 9, 2018 from 12:00 p.m. to 10:00 p.m. within the boundaries of Coxe and Buxton Avenues as per the area limits referenced on the accompanying site map.

- House of Iron has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Asheville Half Marathon & 10K and allow for consumption at the event.

  The Asheville Half Marathon & 10K will be held on Saturday, June 9, 2018 from 7:00 a.m. to 12:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- ManKind Project USA has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Better Dads Festival and allow for consumption at the event.

  The Better Dads Festival will be held on Saturday, June 16, 2018 from 1:00 p.m. to 9:30 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville Downtown Association has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at the Ingles Independence Day Celebration and allow for consumption at this event.

  The Ingles Independence Day Celebration will be held on Wednesday, July 4, 2018 from 2:00 p.m. to 10:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

- Asheville Vegan Society has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at Asheville VegFest and allow for consumption at the event.

  Asheville VegFest will be held on Sunday, September 2, 2018 from 10:00 a.m. to 6:00 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Friends of the WNC Nature Center, Asheville Brewers Alliance, Zenbivia Academy of Art & Science, House of Iron, ManKind Project USA, Asheville Downtown Association, and the Asheville Vegan Society

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the Interim City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at the ABA Beer Week Kick Off Party, Beer City Festival, Xpand Fest, Asheville Half Marathon & 10K, Better Dads Festival, Ingles Independence Day Celebration, and Asheville VegFest.

J. RESOLUTION NO. 18-116 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH B. ALLEN CONSTRUCTION INC. FOR THE ASHEVILLE PARKS PLAYGROUNDS IMPROVEMENTS BOND PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with B. Allen Construction, Inc., to provide construction services for Asheville Parks Playgrounds Improvements Bond Project for an amount of $695,500 and further authorizing the execution of any contract amendments up to 5% ($34,775) above of the contract price, which may arise during execution of said project.

The primary goal of the project is addressing maintenance backlog for playgrounds while building for the future. Playground projects have been prioritized focusing on underserved areas of the city. Each project will address the needs of diverse park users to better reflect changing neighborhoods and their long-term recreation requirements. The playgrounds will be designed to reflect their individual neighborhood setting, utilize ideas and trends from some of the best playgrounds in the country, and create unique play experience for all users. Playground upgrades may include playground equipment, rubber fall zone surface, landscaping, park shelters, shade structures, open play areas, accessible pedestrian circulation systems, and other Park & Recreation park standard furnishings.

Herb Watts Park, Lakewood Park, West Asheville Park and Magnolia Park playgrounds were designed and bid as part of this project. The City issued an Advertisement for Bids for construction on April 2, 2018, pursuant to NCGS 143-129. Zero bids were received on the bid due date of April 23, 2018. As of the re-advertised bid opening date on May 4, 2018, the City received

one bid, making B. Allen Construction, Inc., located in Candler, North Carolina the lowest, responsive, responsible bidder with a base bid plus alternates of $935,000.00. As this exceeded the available funding, the City negotiated a base bid plus alternates for all work at Herb Watts Park, Lakewood Park and West Asheville Park in the amount of $695,500 to bring the contract within the available budget. These playground projects were prioritized for reconstruction based upon their current condition and to provide an equitable distribution of playground projects. Magnolia Park will be considered as future funding becomes available.

The tentative project timeline for construction is the Summer of 2018-Summer of 2019.

Pro:

- Improves the safety and functionality of the City's playgrounds for park users by replacing and improving existing playgrounds.

Con:

- The proposed playgrounds and portions of the adjacent parks will be closed during renovations primarily in Fall 2018 and secondarily into Spring 2019. Any closure will be advertised and coordinated with general park users, Parks & Recreation programming and neighborhood representatives.

The General Obligation (GO) Bond included $1,015,000 in funding for the Playground Improvements Project.

Staff recommends City Council authorize the City Manager to execute a contract with B. Allen Construction, Inc., to provide construction services for Asheville Playground Improvements Bond Project Bond Project for an amount of $695,500, and further authorizing the execution of any contract amendments up to 5% ($34,775) above of the contract price, which may arise during execution of said project.

RESOLUTION BOOK NO. 39 - PAGE 413

K. RESOLUTION NO. 18-117 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PATTON CONSTRUCTION GROUP INC. FOR ASHEVILLE PARKS TEMPIE AVERY MONTFORD CENTER IMPROVEMENTS BOND PROJECT

Summary: The consideration of a resolution authorizing the City Manager to execute a contract with Patton Construction Group, Inc., to provide construction services for Asheville Parks Tempie Avery Montford Center Improvements Bond Project for an amount of $1,171,000, and further authorizing the execution of any contract amendments up to 5% ($58,550) above of the contract price, which may arise during execution of said project.

The primary goal of the project is to address outdated amenities at the facility through replacement and expansion of its current facilities. This project will improve the appearance, usefulness and safety of the facility. Amenities include but are limited to: facility improvements, playground, benches and seating areas, outdoor classroom, signage, trash receptacles, drinking fountain, bike racks, landscaping, ADA accessible improvements, parking area, lighting, plaza, and trail and sidewalks.

The Tempie Avery Montford Center Improvements project was prioritized with a focus on updating aging infrastructure of the existing recreation facilities and to provide new programming elements. These improvements will address the needs of diverse park users through replacement of existing assets in parks to better reflect changing neighborhoods and their long-term recreation requirements.

Asheville Park, Tempie Avery Montford Center was designed and bid as part of this project. The City issued an Advertisement for Bids for construction on March 23, 2018, pursuant to NCGS 143-129. Zero bids were received on the bid due date of April 26, 2018. As of the re-advertised bid opening date on April 4, 2018, the City received two bids, one from Patton Construction Group, Inc., and the second from Tennoca Construction Company, Inc. The low bid was Patton Construction Group, with a base bid of $1,171,000.

The tentative project timeline for construction is Fall 2018 - Summer 2019.

Pros:

- Improves the appearance, connectivity, safety and functionality of the Tempie Avery Montford Complex for park users by replacing and improving existing facilities.
- Maximizes the use of current facility by designing for multiple, simultaneous uses, flexible spaces, and appropriate support spaces.

Con:

- The existing park complex will be partially closed during renovations. Any closure will be advertised and coordinated with general park users, Parks & Recreation programming and neighborhood representatives

The General Obligation (GO) Bond included $1,752,911 in funding for the Parks Tempie Avery Montford Center Improvements Project.

Staff recommends City Council authorize the City Manager to execute a contract with Patton Construction Group, Inc.,to provide construction services for Asheville Parks Tempie Avery Montford Center Improvements Bond Project for an amount of $1,171,000, and further authorizing the execution of any contract amendments up to 5% ($58,550) above of the contract price, which may arise during execution of said project.

RESOLUTION BOOK NO. 39 - PAGE 414

L. RESOLUTION NO. 18-118 - RESOLUTION PROVIDING FOR THE ISSUANCE, SALE AND DELIVERY OF $23,000,000 GENERAL OBLIGATION BOND ANTICIPATION NOTE

Summary: The consideration of a resolution directing the Interim City Manager and Chief Financial Officer to pursue debt financing for capital projects with a draw program that includes the issuance of interim, variable rate General Obligation Bonds (GOs) in an amount not to exceed $23,000,000. The interim GOs will provide construction financing for projects which, upon completion, will be permanently financed through longer-term, fixed rate GOs.

The City has reimbursement resolutions for Council approved capital projects authorized as part of the Fiscal Year (FY) 2018 and FY 2019 Budgets. This GO draw program will reimburse the City for costs incurred to date, and over the next 12 months, for those projects and allow the City to complete many of the projects.

Projects include (1) Road and Sidewalk Improvement, Phase 2; (2) Onteora Boulevard Sidewalk; (3) Hill Street Sidewalk; (4) Jake Rusher Park; (5) Montford Park Complex; and (6) Ballfield Improvements.

As a next step in the process, staff is seeking City Council's approval to complete the GO financing with Bank of America, as the purchaser of the GOs, which provided the lowest cost financing for the draw program interim financing.

The resolution also authorizes the Interim City Manager and Chief Financial Officer to proceed with the GO financing and execute and deliver the necessary documents to complete the financing.

Pro:

- Allows the City to move forward with the Capital Improvement Program and Draw Program financing.

Con:

- None noted.

The initial draw on the GO facility for costs incurred to date is $6,800,000. At current variable rates associated with this facility (roughly 1.85%), the annualized interest expense on the initial draw is $125 thousand. As further draws are made on the facility, the interest expense will increase accordingly. Funds are included in the City's FY 2018-2019 proposed debt service budget to cover these costs. They are also included in the City's multi-year capital improvements debt model.

Staff recommends that City Council approve the resolution as it is proposed.

RESOLUTION BOOK NO. 39 - PAGE 415

M. RESOLUTION NO. 18-119 - RESOLUTION SETTING A PUBLIC HEARING ON JUNE 19, 2018, FOR A LAND USE INCENTIVE GRANT FOR SWEETGRASS APARTMENTS, MADISON CAPITAL GROUP

Summary: The consideration of a resolution setting a public hearing on June 19, 2018, to consider a Land Use Incentive Grant Application for Sweetgrass Apartments, by Madison Capital Group (Developer).

The Housing and Community Development Committee reviewed and recommended a Land Use Incentive Grant for Sweetgrass Apartments, in it's April 17, 2018 meeting and a revised report on May 8, 2018. Madison Capital Group, represented by Hobie Orton, is developing a 11.9 acre site in South Asheville, located at 39 Bradley Branch Road, Asheville NC. The project will consist of 255 residential rental apartments, of which 10% (26) will be made affordable for 15 years per LUIG agreement. The site is within 0.25 miles of transit, 0.25 miles to amenities, and with access to businesses along the Airport Road corridor. The developer estimates a total development cost of $38,000,000 and an estimated tax value of $50,300,000 post completion.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing - The proposed project will provide twenty-six (26) units

affordable to households at 80% or less of median income; 10% of total units. Under this category, the project qualifies and received a recommendation of 20 points.

Long term affordability - The proposed project will be committed to serving households at the designated rental rates for the minimum period of fifteen (15) years. This qualifies and received 0 points.

Superior locational efficiency - The proposed project is within .5 miles of public amenity in Aldi's grocery (5 points). The applicant has also made a case for multiple job centers within 1 mile to the site (i.e. Asheville Regional Airport, Progress Energy, Park Ridge Hospital, Sierra Nevada Brewery, Linamar and other manufacturing facilities - 5 points), and proximity to existing bus-stop (within 0.25 miles) served by a 90 minute bus line (10 points). The existing policy defines "Employment Centers" as Downtown, Mission Hospital, and Biltmore Town Square and projects must be located within 1 mile of these centers. The applicant has a made a case for proximity to job centers/resources within 1 mile and ½ mile from the project site. No specifics on number of jobs have been provided. The policy requirements for transit points are bus stops within 0.25 mile to the project (which this project qualifies) and with a 30 minute bus service (which the project does not have). Currently the City has 1 bus line with a 30 minute service (N3). The currently policy does permit the applicant to make a case for these points that fall outside of the policy definitions. The project qualifies for 5 points in this category (per policy), the applicant requests 20 points, and HCD Committee recommends 15 points.

Brownfield Development - The proposed project will receive the North Carolina Brownfield Redevelopment grant, and the applicant has asked to extend the Land Use Incentive Grant by 1 year in order to take advantage of both grants. This does not qualify the project for points, but the applicant requests 10 points and HCD Committee recommends 5 points.

Per current policy, staff has scored the project with 25 points, which qualifies the project for two-and-a-half years (2.5) of the Land Use Incentive Grant. The applicant requests 50 points for the transit stop (10 pts.), proximity to jobs (5 pts.), and brownfield development (10 pts.), which is a 5 year Land Use Incentive Grant. The HCD Committee recommends 40 points for this project, which is a 4 year Land Use Incentive Grant.

The current estimated assessment value for this property is $1,200,000. The developer's estimate of improvement value is $38,000,000 with a completed estimated project taxable value of $50,300,000. The annual estimated city tax post completion, based on the developer's estimate of value, is $215,737, which gives the project and estimated annual and eligible tax value of $210,590. Over a 4 year period, if approved at that level, the total estimated Land Use Incentive Grant would be $842,360, the exact amount to be determined by the length in years, of the grant award, and the actual assessed value of the development upon completion. Based on these estimates, the subsidy per affordable unit would be $32,398. The subsidy amount per affordable unit/year of affordability would be $2,160.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Stormwater Plan Review Fee, and Water Service Connection Fee is $40,062. The value of each 10% of eligible fee rebates would be $4,006. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 40 point level, the fee rebate would be approximately $16,024.

The total estimated Land Use Incentive Grant benefit over 4 years is $858,384, which equals $33,015 subsidy per affordable unit, and $2,200 per unit per year of affordability.

The Housing & Community Development Committee requests that City Council consider the Land Use Incentive Grant request as detailed above with a 4 year benefit.

At the request of Councilman Young, Community Development Director Heather Dillashaw gave a brief explanation of the project.

Councilwoman Mayfield explained how the HCD Committee assigned more points than the policy, noting that the policy is due for another update.

Ms. Dillashaw confirmed that it is Council's policy to bring the conditional zoning request at the same time as the land use incentive grant public hearing; however, due to the legal advertisement the public hearing for the land use incentive grant must be set on June 19, 2018.

RESOLUTION BOOK NO. 39 - PAGE 437

N. RESOLUTION NO. 18-120 - RESOLUTION AUTHORIZING THE CITY MANAGER TO AMEND THE EXISTING CONTRACT WITH CAROLINA TRACTOR & EQUIPMENT FOR SERVICES RELATED TO THE REPAIR AND MAINTENANCE OF CITY VEHICLES AND EQUIPMENT

Summary: The consideration of a resolution authorizing the City Manager to amend the existing maintenance agreement with Carolina Tractor & Equipment to increase the annual contract value from $200,000 to $300,000.

The Fleet Management Division of the General Services Department maintains over 850 vehicles and pieces of equipment while simultaneously achieving high metrics for vehicle "uptime" or in-service percentage. Fleet is a lean operation with limited facilities, so it may subcontract work to third-party firms as needed. These services may be used to supplement existing staff resources at times of high demand or provide services where Fleet does not have suitable facilities or resources (e.g., paint shop, etc.).

Under a previous procurement, Carolina Tractor & Equipment was selected to provide supplemental services, and Resolution 16-228 authorized the City Manager to enter into a contract with this firm for an initial one-year term with up to four one-year renewals. The annual contract value was noted as $200,000. Due to an increase in workload (including more work due to vehicle accidents and repairs), the Fleet Management Division needs to increase the annual value of this contract to $300,000. The Fleet Manager will continue to oversee the contract to achieve a reasonable balance between self-performance of work and vehicle uptime.

Pros:

- Allows third-party service work to continue as a supplement to in-house staff;
- Provides flexibility in service delivery without significant capital investment in equipment or facilities (e.g., paint shop, etc.) that aren't used on a daily basis; and
- Supports vehicle "uptime" and returning vehicles to service after needed repairs.

Con:

- None identified.

Costs for these services are included in the General Fund fleet allocations for departments requiring vehicle repair and maintenance activities.

Staff recommends City Council adopt a resolution authorizing the City Manager to amend the existing maintenance agreement with Carolina Tractor & Equipment to increase the annual contract value from $200,000 to $300,000.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Vice-Mayor Wisler moved for the adoption of the Consent Agenda. This motion was seconded by Councilman Young.

CONSENT AGENDA PUBLIC COMMENT ITEM DISCUSSION - CODE FOR ASHEVILLE DATASETS REQUEST

Ms. Kim Roney asked Council to add a resolution to the Consent Agenda to adopt the Open Data Policy recommendations outlined by the Code for Asheville. She felt this is a reasonable request and is in the best interest of the City. This will increase the trust between the City and the community. She then read a portion out of the 27 Views of Asheville by DeWayne Barton.

Mr. Andrew Vasco asked Council to adopt the Open Data Policy recommendations outlined by the Code for Asheville and read a passage from a Kurt Vonnegut book entitled A Man Without a Country.

Councilwoman Smith moved to amend the Consent Agenda to include the addition of a resolution to adopt the Open Data Policy recommendations as presented by the Code for Asheville. This motion was seconded by Councilman Young and carried on a 4-3 vote, with Councilman Kapoor, Councilwoman Mayfield and Vice-Mayor Wisler voting "no."

Mayor Manheimer said that the City of Asheville does have an Open Data Policy that was adopted in 2015. She felt that what is being requested is to release the data sets requested by Code for Asheville. She said that were Council left off on May 15 was out of the 9 data sets requested by the Code for Asheville, four were pushed out and staff has been meeting to try to prepare the remaining five datasets requested.

Interim City Manager Cathy Ball said that there is a meeting this Thursday to include external stakeholders to ask a few follow-up questions. However, we are very comfortable in moving forward the three of the five data sets. We have a way to move the remaining two forward but it will require some parameters around how it is released making sure we don't release data if there is a criminal case against it or if there is an internal investigation around it. We don't want to jeopardize a criminal case. We are moving forward and plan to report back to Council on June 19, 2018. It is the full intent of staff to disclose all of the information while still protecting the rights of officers and citizens involved in some of the instances.

Councilwoman Smith moved to withdraw her motion. She then moved to amend the Consent Agenda to include a motion of Council's support for the release of the data sets as presented by the Code of Asheville. This motion was seconded by Councilman Young.

Interim City Manager Ball said that it is the full intent of staff to disclose all of the information while still protecting the rights of officers and citizens involved in some of the instances.

City Attorney Currin advised Council to adopt the Consent Agenda separately because it is supposed to be routine, non-controversial items and then discuss the motion regarding the Code for Asheville datasets request.

Councilman Young called the question.

At Councilwoman Mayfield's request, Councilwoman Smith moved to withdraw her motion to amend the Consent Agenda to include a motion of Council's support for the release of the data sets as presented by the Code of Asheville.

Councilwoman Mayfield moved to adopt the Consent Agenda without any additions. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

Councilwoman Smith then moved that Council support the release of the data sets as presented by the Code for Asheville except legal and personnel information not be disclosed. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. STATE OF THE AIRPORT

Mr. Lew Bleiweis, Executive Director of the Asheville Greater Regional Airport Authority updated Council on the State of the Airport.

B. REDUCING RACIAL DISPARITIES IN TRAFFIC STOPS

Ian Mance Report - Southern Coalition for Social Justice

Ms. Carmen Ramos-Kennedy, President of the Asheville Chapter of the NAACP, said that in early 2017 the Asheville-Buncombe County NAACP Justice Committee contacted the Southern Coalition for Social Justice about the disturbing traffic stops of African Americans by the Asheville Police Department (APD). Using the latest traffic stop data at the time, he found that in the 15 years of the APD's tracking and reporting data, 24% of stops and 46% of searches involved African American drivers which was significantly higher than any other North Carolina department of its size or larger. Implementing mandatory written consent was recommended, amongst several others. She urged Council to implement a mandatory written consent policy.

Mr. Ian Mance, attorney for the Southern Coalition for Social Justice, provided Council with his PowerPoint presentation he used at the April 24, 2018, Public Safety Committee meeting. He then used the following PowerPoint for his discussion:

From the April 26, 2018, APD Traffic Stop Report:

- **APD CLAIM:** "The racial and ethnic composition of communities do not accurately reflect the racial and ethnic composition of drivers on the roadways."
- **FACT:** During Chief Hooper's tenure, the percentage of white drivers stopped by APD (77.7%) mirrors precisely—*to the tenth of a percent*—Asheville's white residential population, according to the most recent American Community Survey estimate (77.7%).
- **APD CLAIM:** Traffic from tourism skews the racial demographics of the local driving population and it "is impossible to break down the racial demographics of these 28,000 daily tourist [sic] in the City of Asheville."
- **FACT:** A 2016 study published on the Asheville CVB website breaks down the racial demographics of tourists, indicating that as a group, they are *less black* than the local population. There is no good reason to believe the driving population is more black than the residential population and multiple reasons to think the opposite is true.

During Chief Hooper's tenure (7/20/2015—present), whites have accounted for 77.7% persons stopped in traffic stops—the same percentage of the local white population. By contrast, blacks account for 20.9% of those stopped during this period, but just 12.2% of the population.

In Asheville, blacks have been consistently stopped at higher rates since data has been tracked (2002). In recent years, these disparities have grown. In 2017, APD posted its most racially-disparate stop and search numbers ever. Drivers stopped were 70% white, 24% black, and 4% Hispanic. Searches were, for the first time, majority minority (49% white, 46% black, 4% Hispanic).

APD reported stopping more than 50% more black drivers (1,720 v. 1,129) in 2017 than it did in 2016, but just 0.1% more white drivers (5,002 v. 4,996).

We can project the impact of APD prohibiting or deprioritizing equipment and regulatory stops on existing racial stop disparities.

Persons Stopped (7-20-15- Present)	Reg/Eqp Stops (7-20-15 - Present)	All Non-Reg/Eqp Stops (7-20-15 - Present)
77.7% White	70.9% White	80.3% White
20.9% Black	28.0% Black	18.2% Black

Eliminating these high-discretion stop causes, which do not implicate public safety, would shrink the racial disparity (+9%) between the black stop rate and the black population in Asheville by approximately 1/3.

Jack McDevitt, Director of the Institute on Race and Justice at Northeastern University in Boston, says stops for defective equipment promote bad faith. "So, when they get pulled over," he says, "their frustration level is, 'Here we go again. I'm being pulled over for some foolish thing so that they can try to see if there's some other violation they can get me on.'" (NPR, All Things Considered, July 25, 2016)

Comparing traffic stop search rates (national, state, local), (1) United States traffic stop search rate: 3.5% (*Source:* US DOJ, Special Report: Police Behavior during Traffic and Street Stops, 2011); (2) North Carolina traffic stop search rate: 2.4% (*Source:* NC DOJ Traffic Stop Data, 2002-13); and (3) Asheville PD traffic stop search rate: 7.6% (*Source:* Asheville PD Traffic Stop Data, 2002-present).

Showing a chart, over the last decade, other than Greenville Police Department, which conducts less than a third as many searches as Asheville PD, no police department of a city Asheville's size or larger has relied more heavily on consent to conduct traffic stop searches than APD.

The majority of APD's traffic stop searches occurred pursuant to motorists' purported grant of consent. Less than a third of these searches recovered any contraband.

A Written Consent to Search Policy was identified as a law enforcement best practice by President Obama's Task Force on 21st Century Policing, a report Chief Hooper has publicly cited as an important document.

Reasons why a mandatory written consent to search policy is appropriate in Asheville: (1) APD searches black motorists pursuant to reported grants of consent at nearly twice the rate as whites. Although FY 2018 Q3 search numbers were low, in 2017, APD had the highest overall

black search rate for a city of its size or larger in the state; (2) APD's consent searches of black motorists have been *less* productive than those of white motorists; (3) Only 3 times during the present chief's tenure has a consent search during a traffic stop uncovered a weapon and led to an arrest. The type of weapons recovered is unknown. (*Note:* In situations in which police have reason to believe a driver may be armed, they are permitted to conduct a limited search of the vehicle for a weapon, even absent probable cause or consent to search. Michigan v. Long, 463 U.S. 1032 (1983)); (4) Over the last decade, APD has relied more heavily on motorists' consent to conduct its searches than any department in NC its size or greater; and (5) Because of differences in how whites and blacks are socialized to deal with the police, black drivers experience greater pressure to accede to requests to search. A written consent to search policy is more racially equitable.

Benefits of a mandatory written consent to search policy: (1) Racial Equity – The policy helps normalize the experience among drivers and provides a safeguard against discriminatory search practices; (2) Reducing Searches of Innocent Drivers – Comparisons between pre- and post- written consent data in Durham and Fayetteville reveal a significant reduction in the number of innocent drivers—particularly black drivers—subjected to warrantless roadside searches; (3) Safeguard Against Coercion – By advising people in writing of their right to refuse and requiring written authorization, the policy helps ensure that people understand their rights and assures them that those rights will be respected; (4) Improved Community-Police Relations – The written consent policies in Durham and Fayetteville have been cited as turning points in community-police relations, which have improved markedly in each city in recent years; and (5) It Does Not Limit APD's Ability to Make Seizures – Written consent can have the effect of focusing police efforts. Durham police made 84 more seizures in traffic stops the year *after* written consent went into effect than they did the year before.

Councilman Kapoor said that in terms of looking at the greatest factor, and Mr. Mance's argument is that race is the greatest factor in terms of the search numbers, this is an issue of race in terms of the stops. What Councilman Kapoor has heard is that these stops are occurring in certain parts of the City where crime is occurring. So, where crime is occurring, you generally have officers there and if the officers are there they are more likely than not to stop someone in that area. He asked if there is a geographical component in Mr. Mance's analysis and whether any regression analysis has been done to try to isolate those data points.

Mr. Mance said that he has been careful not to make claims about what are in officers heads. He tried to focus on outcomes and regardless of why they are occurring, his position is that it should concern Council that African American drivers are stopped roughly twice, or possibly greater than twice, the rate than we would expect. There is a multitude of factors why we have disparities in searches. He questioned whether or not traffic stops are a meaningful way to get at the larger crime issues. He said that he has not done a regression analysis for Asheville. He said we have done multiple regression analyses for all of the different categories for which the state collects data and race is consistently the biggest predictor of whether or not a search will occur.

In response to Councilman Young, Mr. Mance said there have been a number of municipalities that have passed written consent in the recent several years - Fayetteville in 2013, Durham in 2014, Chapel Hill in 2015, and Raleigh has now made written consent mandatory for vehicle and home searches. In terms of alternatives to written consent, there is written consent that you can only do if you articulate certain factors that make that individual suspicious and worth searching, and then some states don't allow consent searches at all or mandate them. His perspective is that consent searches are not a good use of anyone's time.

Police Chief Tammy Hooper Report

Police Chief Tammy Hooper reviewed the APD's commitment to (1) treat all members of the community with dignity and respect; (2) partner with our community to solve problems through evidence based practices; and (3) be accountable for policing our community in a Constitutional manner. The APD understands that the way they operate in these areas has a direct impact on public trust. Quarterly Traffic Stop Reports dig deeper into data and research than others in the state to better understand how they are policing and where they can improve their practices. These reports are posted on the City's website and available to any member of the public.

Our traffic stop report does talk about why we don't consider racial demographics of a community to be a reliable benchmark for traffic stop numbers. That is not APD's claim, but a claim found in a 2015 study by Dr. Deborah Lamm Weisel of the North Carolina Central University of over two decades of research on traffic stops and race. Her report titled "Racial and Ethnic Disparity in Traffic Stops in North Carolina, 2000-2011: Examining the Evidence" states the following: "These studies and others provided evidence that 'residential census populations [were] **the least reliable of the benchmarks** available' 2008).5 Consequently, the U.S. Department of Justice has stated that 'social scientists now disregard comparisons to the consus for assessing racial bias' in traffic stops.6 Gold (2003) stated that 'no reputable researcher uses general population as a yardstick' as research on biased policing has consistently found such measures 'valueless' (p. 396). And Fridell (2004) concluded that census benchmarking 'is of no scientific value for purposes of trying to measure racial bias in policing and in fact, **has very often resulted in misleading and unsupported findings**' (v.iii)." p.7

In traffic stops, potential variables include, but are not limited to: (1) demographics of drivers on the roadways, including visitors and also the 44,000 commuters that come in and out of the City every day; and (2) officers patrolling more in areas of high crime and violence, thus creating higher levels of stops, ticketing, and/or arrests for populations in those areas.

Using a charter, Police Chief Hooper showed Asheville's crime. In 2018 crime in Asheville is extremely high. We have an issue with guns and violence in our community. Does are the things where officers are expected to address when they have discretionary time to do so. Crime prevention patrols, as well as traffic enforcement, also happen during discretionary time for patrol officers. We also have increasing workload demand. Our calls for service in 2017 were 163,000, up from 156,000 in 2016. Officers have less time for discretionary activities. The number or actual traffic stops in Asheville are much lower than other jurisdictions.

Police Chief Hooper used a chart to show the top 5 violent crime locations, along with their residential demographics, traffic stops, violent Part 1 crimes, and directed police efforts.

Regarding APD regulatory traffic stops, Fayetteville, Chapel Hill, Durham and Greensboro do not prohibit regulatory stops. In 2017, APD officers were directed to issue warnings for minor regulatory and equipment violations whenever feasible, particularly if it's the first time a vehicle is stopped for this reason. The purpose of this is to minimize the financial impact on people who already struggle financially. In 2016, regulatory and defective equipment stops combined accounted for 27.9% of traffic stops - White drivers accounted for 18.5% and African American drivers accounted for 9.1%. She then used two charts which one showed the percentage of warnings as enforcement for equipment and registration; and the other was the percentage of warnings as enforcement action total for all stop reasons.

All consent searches, including the obtaining of consent, must be documented using

body worn cameras to ensure that consent is given voluntarily. She noted that Fayetteville is no longer requiring written consent (she believed as of the beginning of 2018). They now have body cameras and the Chief doesn't believe they need to do written consent. Our purpose of using body camera footage is because you can look at the video and determine whether or not consent was given in a free and voluntary manner and whether the officer did their job in terms of advising people. We also have included additional data fields on our Traffic Stop Report to determine the reasons why they are asking for consent. Consent searches as a percentage of overall searches continues to decline. From 2010-2012, the number of consent searches equaled 59% of all searches. From 2013-2016, the number of consent searches equate to 39% of all searches. In 2017, the number of consent searches equate to 31% of all searches. And, year to date 2018, the number of consent searches equates to 24% of all searches.

She then used a chart of ACS Census Data from 2012-2016 for Asheville, Chapel Hill, Fayetteville, Greensboro and Durham.

Using a chart, she showed from open data policing for traffic stops (percentage by race/ethnic composition) for Asheville, Chapel Hill, Fayetteville, Greensboro and Durham, and chart for those same cities with a search data by race/ethnic composition.

Following the presentation in 2017, APD committed to, and has completed the following: (1) emphasize warnings for regulatory stops; (2) updated and enhanced the Traffic Stop Report form; (3) complete monthly Compliance audits; (4) complete a Quarterly Traffic Stop Report available to the public; and (5) continue to train officers regarding issues and concerns around traffic stop disparities and the need to collect accurate data on 100% of stops.

Additional opportunities for improvement that have been/will be implemented include (1) continue to improve and enhance quarterly reports with citizen input; (2) requirement for supervisory audits of body worn camera video for all consent, noting that any person who is in a body camera video can come and watch it and bring a representative; and (3) continue work with the community on Open Data Initiative.

Councilman Haynes asked when the audits of the body worn camera videos are viewed, how many consent searches have been found to not have been done properly. Police Chief Hooper said that no instances have been found, but those have been random audits. However, we will now look at all videos and have those statistics included in their next quarterly report.

In response to Councilman Young, Police Chief Hooper said that the APD has not adopted a written consent policy because she doesn't see there is a reason to do that. We have body camera video that is a 100% record of what happens during a consent stop. What people are told and what they say. There is no better record than that.

In response to Councilman Young, Police Chief Hooper said that the number of consent searches so far in 2018 is 22 - 11 for white drivers and 11 for African American drivers.

Mayor Manheimer asked if people are informed that they have the right to refuse a requested search. Police Chief Hooper did not know if every person is being told that (not a lawful requirement) but she looks at that as a training issue. It would be preferred that officers advise people that they don't have to give consent.

Mayor Manheimer, along with Councilman Haynes, felt it would be beneficial if the verbal consent included some disclosure to the person that they have the right to refuse.

Councilwoman Mayfield asked if Police Chief Hooper would have any problem in

implementing a departmental policy that when an officer is seeking verbal consent to search their vehicle that they disclose that they have the right to refuse. Police Chief Hooper said that as a training issue she will absolutely encourage officers to do that, but it is not a lawful requirement and putting that in a policy might be something that would potentially be an issue in a court session if the officer did not comply with it.

Councilman Haynes felt it will be very clear if someone has given consent if the consent is written.

Councilwoman Smith said that we need to fill in the gap of mistrust between the community and the police. She didn't understand what would be lost if we have mandatory written consent.

Mayor Manheimer has done a lot of research on consent searches and looked at different ideas other communities have adopted. In Fayetteville, the basis for consent search could not be that someone had a prior criminal record, someone was present in a high crime area, or that someone was acting suspicious. Asheville has two of them but not someone being present in a high crime area. When she asked Police Chief Hooper is she would consider the Fayetteville model that removes some of that criteria for consent search, she replied yes.

Councilwoman Mayfield asked for the a comparison of the number of searches this year compared to the other North Carolina cities that have written consent.

When Councilwoman Mayfield asked that we find in consent searches, Police Chief Hooper said several weapons but mostly drugs - methamphetamine, crack cocaine, and some sort of white powder. That information is not included in our reports, but that is data she will start accumulating.

Councilwoman Mayfield noted that there are different ways to look at data. She would love for us to find a way to get a common understanding of the facts. She is in total support of addressing the community's concerns; however, there are too many different views.

Mayor Manheimer said that in Fayetteville they have prioritized stops that support public safety and de-prioritize low level equipment violations. Police Chief Hooper said that we do not emphasis regulatory stops. As far as defective equipment, sometimes that is a traffic safety issue.

Councilman Haynes felt that a written consent policy should be implemented. He then moved to instruct the City Manager to work with the Police Chief to implement a written consent policy and that it apply to backpacks and personal property associated with the vehicular stop. This motion was seconded by Councilwoman Smith.

At Councilman Young's request for a friendly amendment to the motion, Councilman Hayes withdrew his motion.

Councilman Young felt that it's apparent that a mandatory written consent policy is not something that our Police Chief is willing to implement. And, the only reason he has heard that she is not willing to do that is because there could be a possibility of when the officer gets in court that they may have violated their own APD policy.

Councilman Young said that Council can't tell the Police Chief or the Police Department what to do; however, they can tell the City Attorney, City Clerk and City Manager what to do. With that, he moved to direct the City Manager to implement a written consent policy for vehicular searches and searches of the person or personal property associated with the person. This

motion was seconded by Councilman Haynes.

Councilman Young moved to direct the City Manager to implement a policy that the Asheville Police Department not base a consent search on vehicular stops on a person having a criminal record or suspicious movement or behavior. This motion was seconded by Councilwoman Smith.

Councilman Young moved to direct the City Manager to de-prioritize low level regulatory stops. This motion was seconded by Councilwoman Smith.

Councilman Kapoor said that last week he said that Council was surprised about the vote requested on the legislative agenda. That was not on the agenda and Council agreed it was the right idea to go to a Council committee meeting so we can review it and bring it back to Council. Some of Council supported that because they agreed that Council was receiving information brought up and people didn't have the opportunity to discuss it. He felt the same thing is happening now. These are significant policies and he understand they have been discussed by the community quite a bit, but this is the first time as a Council member that he is discussing them. He felt these are important and they should go back to the Public Safety Committee to be studied, along with all of Council members having the opportunity to study them. There are questions about the data and he would feel more comfortable sitting down with the data and trying to understand it. He did not want to close the door on what is being proposed now, but he didn't feel we are at a point where we have discussed these issues to the degree they should be discussed. He respectfully asked Council to have this go to the Public Safety Committee.

Councilman Young said that this has already been to the Public Safety Committee, and Councilman Hayes said that this is the fourth time he has heard this presentation.

Vice-Mayor Wisler said that this item is listed on the agenda as a presentation and not for a public hearing or vote. If you don't tell people that you are going to vote on it, then we haven't given everyone the opportunity to speak if they wish. We have done four motions tonight that we didn't let the public know that Council was going to vote on them.

Councilman Young said that he hears what Council is saying, but he doesn't agree with what they are saying. But, as a Council member, everyone has a right to make a motion. If a Council member does not support the motion or believes this is not the right time, then they can vote against it.

Mayor Manheimer said that typically as a Council, and as a courtesy, we have informal discussion on whether we will move on something that has come up or move it through a committee process.

Councilman Young called the question (with no public comment).

The motion made by Councilman Young to direct the City Manager to implement a written consent policy for vehicular searches and searches of the person or personal property associated with the person, and seconded by Councilman Haynes, carried on a 5-2 vote, with Councilman Kapoor and Vice-Mayor Wisler voting "no."

The motion made by Councilman Young to direct the City Manager to implement a policy that the Asheville Police Department not base a consent search on vehicular stops on a person having a criminal record or suspicious movement or behavior, and seconded by Councilwoman Smith, carried on a 5-2 vote, with Councilman Kapoor and Vice-Mayor Wisler voting "no."

The motion made by Councilman Young to direct the City Manager to de-prioritize low level regulatory stops, and seconded by Councilwoman Smith, carried on a 5-2 vote, with Councilman Kapoor and Vice-Mayor Wisler voting "no."

C. UPDATE ON EQUITY & TRANSPARENCY ITEMS FROM MARCH 20, 2018, WORKSESSION

Interim City Manager Cathy Ball updated Council on equity and transparency items from the Council's March 20, 2018, worksession. She said that on March 20, 2018, Mayor Manheimer and Council held a special work session for the purpose of reaching consensus regarding direction they would give staff to explore and make changes following the Mr. Johnnie Rush and former Officer Hickman incident that took place in August 2017. The purpose of this memo is to provide an update on the status of these requests.

- The first topic discussed was a third-party review of the Asheville Police Department (APD). Specifics include implementation of any recommendations of the review, to include:

  1. All excessive use of force complaints to be reviewed criminally, immediately. **This change has been implemented.**

  2. Change administrative procedures to ensure Council notification of excessive use of force occurrences and/or complaints, and adopt a plan for notifying the DA and the SBI in all cases. **City Legal and APD are working with DA to determine appropriate process.**

- A third-party will conduct a review around Mr. Johnnie Rush and former Officer Hickman and to give Council a set of recommendations around that incident. **21CP began their work early April and will provide a report to the City Manager's Office upon completion. First site visit was completed May 15-17, with another one planned June 13-14.**

- The next topic discussed was the establishment of the Human Relations Commission of Asheville (HRCA) per the Blue Ribbon Task Force recommendations, to include
  - HRCA or Police Advisory Subcommittee to review all use of force occurrences and excessive use of force complaints;
  - Enhance Equity and Inclusion Department staffing. **The process has begun with positions being developed and funding included in the FY 2019 budget.**

  Advertising for the seats on HRCA is currently underway.
- Council instructed City Attorney Currin to explore whether a staff person from the Equity and Inclusion Department is allowed to review APD body camera footage. **Person in the Equity and Inclusion Department is not allowed to to view body camera videos under NC General Statute 132-1-4A. Council is consider requesting a change in this legislation.**

- It was the consensus of Council that the third-party review of the APD include a review of the APD policy of auditing body cam footage, along with a revisit of the 60-day retention

of body cam footage. **The review currently underway by 21CP will include this APD policy.**

- It was suggested that the City explore how it might fund an outside legal position to advocate for individuals filing complaints against law enforcement. At the time, Mayor Manheimer stated the idea is to fund an attorney, perhaps at a non-profit like Pisgah Legal Services, who could represent people who are bringing complaints against law enforcement - APD and/or Sheriff's Department. Some preliminary discussions with the Chairman of the Buncombe County Commissioners and the Mayor about the possibility of co-funding this position had taken place as of the date of the worksession. **Meetings have taken place to explore this concept. City and County Officials have meet to discuss options. The Interim City Manager will be meeting with a local non-profit along with County staff to evaluate their ability to provide this service.**

- The next topic discussed was review of City of Asheville Personnel Policies and Civil Service Board Rules to allow the city to remove employees who demonstrate terminatable conduct. **The City's Personnel Policies are being reviewed and updated. The policy changes have been reviewed with the Civil Service Board. Staff is finalizing these chances with an implementation date of July 1, 2019. Additionally, where applicable legislative changes are underway for consideration.**

- The next topic discussed was to create an aggressive plan to hire minority officers. As Mayor Manheimer stated during the worksession, work is well underway to do this. **The Equity and Inclusion Office, Human Resources Department and others are continuing to work together on this effort. The Equity and Inclusion Plan includes specific action items.**

- The next topic discussed was to encourage and educate people about the process of bringing complaints against law enforcement along coupled with the use of an unbiased policing hotline. **The forms and other contact information are available on the APD internet homepage currently. CAPE and APD will explore methods to further educate on hotline and other ways to report.**

- The final topic discussed was to support legislative changes, to include (1) Support for HB 165 (citizen review of police complaints); (2) Civil Service Board changes; and (3) Personnel law changes (not just for police, but any employee) to allow complainants to learn the results of their complaint. Council voted to support legislative changes to (1) support HB 165; (2) Civil Service Board changes; and (3) Personnel law changes to allow complainants to learn the results of their complaint. **These considerations are underway. A meeting with legislative delegate has taken place and language has been proposed to take these proposals to the legislature.**

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED ON FOUNDERS DRIVE FROM INSTITUTIONAL DISTRICT TO INSTITUTIONAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE

DEVELOPMENT OF ST JDENT HOUSING AND RELATED UNIVERSITY BUILDING(S)

ORDINANCE NO. 4669 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED ON FOUNDERS DRIVE FROM INSTITUTIONAL DISTRICT TO INSTITUTIONAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE DEVELOPMENT OF STUDENT HOUSING AND RELATED UNIVERSITY BUILDING(S)

Councilman Kapoor disclosed that he sits on the UNC-Asheville Foundation Board but he does not have any financial gain regarding this issue. When City Attorney Currin asked if he could consider the information fairly and impartially without any consideration to that position, he replied yes.

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located on Founders Drive from Institutional District to Institutional Expansion District/Conditional Zone for the development of student housing and related university building(s). This public hearing was advertised on May 11 and 18, 2018.

Ms. Bernstein said that the applicant is requesting review of conceptual plans for the construction of a multi-purpose building on the UNCA campus located on Founders Drive with a conditional zoning request from Institutional (INST) to Institutional Expansion (INST EXP) District. This project is considered a Level III development pursuant to Sections 7-7-8 and 7-8-41 of the UDO.

The specific project area is approximately 0.52 acres of a 5.29 acre area on the UNCA campus, zoned Institutional. The area has frontage on University Heights and Founders Drive.

This application was triggered by the request for the construction of a single building. In 2017, a Level II project for student housing was approved by the City in this same location (17-05552 PZ). Pursuant to section 7-5-9(a)(1)c. of the UDO, the review of this building and the Level II must be considered as one development since the cumulative square footage (102,750 SF) is over the Level III threshold.

The multi-purpose building is approximately 4,591 square feet, 2-stories (36 feet in height). The Level II review approved five buildings for student housing and associated parking, landscaping and open space.

The multi-use building has pedestrian access points from University Heights and interconnecting walkways throughout the area to other buildings. The district requires all sidewalks to have a minimum width of ten feet; see condition below. In the overall proposal, the vehicular access is from Founders Drive and there are approximately 73 parking spaces, both within a surface parking lot as well as along Founders Drive (approved under the Level II permit).

Landscaping is required for this project and includes building impact planting for the multi-purpose building. Parking lot landscaping, retaining wall screening and building impact landscaping for the student housing development were approved during their review in 2017. Open space is required and is satisfied with the active and passive recreational and open spaces throughout the campus.

Cross access throughout buildings and into the campus is integrated into this application, including bike lanes on Founders Drive. Sidewalks provide access down to the Glenn's Creek Greenway. Sidewalk throughout the site vary from five to ten feet in width *(see condition)*.

There are standards relating to fenestration, entrances and building appearance in the Institutional Expansion District; the multi-purpose building complies. These standards were not applicable during the Level II review of the student housing buildings; however they do comply with one exception on ground level fenestration *(see condition)*.

The larger site is zoned Institutional and part of the larger UNCA campus. Due to the cumulative size of the development(s), the proposal is evaluated with the Institutional Expansion zoning district. The use is appropriate and the design compliments the campus.

Conditions - The following conditions related to the Institutional Expansion district accompany this application:

1. Sidewalks and walkways are required to have a minimum width of ten feet; there are multiple walkway connectors throughout the overall project site, ranging in width between five and ten feet.
2. Buildings are required to have a minimum of 40% fenestration on the primary ground-level face; Building C was reviewed during the Level II process when this standard was not applicable and has a ground level fenestration of 38%.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on March 15, 2018. The project was approved with conditions by the Technical Review Committee on April 16, 2018. The Planning & Zoning Commission unanimously voted to support this proposal and conditions at their meeting on May 2, 2018. No communication from the public has been received by staff as of the writing of this report.

Level II permit for associated student housing was approved in 2017.

The student housing and multi-purpose building are uses that are appropriate within the zoning district and within the university campus. The design includes multi-modal design elements including abundant pedestrian pathways between buildings and linking to the greater campus and nearby greenway as well as bike lanes along Founders Drive. The use and site layout is well integrated into the existing campus.

This project is aligned with elements in the Comprehensive Plan *(2025 Plan)* that seek to support the University as a part of the community. Goal VIII in the Land Use & Transportation section specifies that the City should enhance its role as the region's education center. Additional goals throughout the *Plan* highlight the need for plan development to include sidewalks, bicycle facilities and greenway connectivity, all of which are supported with this proposal.

The proposal aligns with the 2036 Council vision in the following areas: (1) *Transportation and Accessibility* (multi-modal access opportunities); (2) *A Well-Planned and Livable Community* (multimodal elements and access to greenway and transit); and (3) *A Diverse Community* - UNCA is a public, liberal arts university providing educational opportunities to people of varied backgrounds, races, orientations and abilities, within the greater community.

Considerations:

- Proposal provides for the growth of the university within the current campus area and integrates into the larger area through a variety of multi-modal elements.
- Almost all of the overall project was approved through the Level II review process and complies with the underlying zoning.

- The conditions noted are minor, related to the previously approved application, and do not detract from the ability of the overall project to meet the intent of the expansion district.

Based on policies in the *2025 Plan* and City Council's 2036 Vision Considerations as well as incorporation of standards from the Institutional Expansion District, staff recommends approval of the conditional zoning for the project at UNCA inclusive of the conditions as noted in the B.1 conditions.

The Planning & Zoning Commission reviewed this request at their meeting on May 22, 2018, and voted 6-0 in support of the project .

Mayor Manheimer opened the public hearing at 7:27 p.m., and when no one spoke, she closed the public hearing at 7:27 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to recommend approval of the conditional zoning request for the University of NC Asheville for the project area on Founders Drive and University Heights from Institutional to Institutional Expansion District Conditional Zone (INST EXP CZ), and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on supporting the region's educational uses; (2) The project provides open space, landscaping and a variety of pedestrian and bike connections to the campus and larger community; and (3) The overall proposal meets the goals and intent of institutional expansion zoning. This motion was seconded by Councilman Young and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 63

B. PUBLIC HEARING TO CONSIDER CONDITIONAL ZONING OF PROPERTY LOCATED AT 39 BRADLEY BRANCH ROAD FROM HIGHWAY BUSINESS DISTRICT TO RESIDENTIAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE DEVELOPMENT OF A MULTI-FAMILY RESIDENTIAL COMPLEX

ORDINANCE NO. 4670 - ORDINANCE TO CONDITIONALLY ZONE PROPERTY LOCATED AT 39 BRADLEY BRANCH ROAD FROM HIGHWAY BUSINESS DISTRICT TO RESIDENTIAL EXPANSION DISTRICT/CONDITIONAL ZONE FOR THE DEVELOPMENT OF A MULTI-FAMILY RESIDENTIAL COMPLEX

Urban Planner Jessica Bernstein said that this is the consideration of an ordinance to conditionally zone property located at 39 Bradley Branch Road from Highway Business District to Residential Expansion District/Conditional Zone for the development of a multi-family residential complex. This public hearing was advertised on May 11 and 18, 2018.

Ms. Bernstein said that the applicant is requesting review of conceptual plans for the construction of a new multi-family residential development located at 39 Bradley Branch Road with a conditional zoning request from Highway Business (HB) to Residential Expansion District Conditional Zone (RES EXP CZ). This project is considered under conditional zoning pursuant to Sections 7-7-8 and 7-8-43 of the UDO.

The project site consists of a single parcel, 11.69 acres in size, with frontage on Bradley

Branch Road. The site is currently zoned Highway Business and is vacant. Adjacent parcels are zoned HB to the west (vacant); Commercial Industrial (CI) to the north (vacant), east (commercial/industrial) and to the south is both CI and HB along Airport Road (variety of commercial uses).

The applicant is proposing to construct a multi-family residential development with eight buildings containing 248 units (27 studio, 90 1-bedroom, 110 2-bedroom, 28 3-bedroom) as well as a one-story clubhouse building. The residential structures are all three-stories or ¾ split configurations with a maximum building height indicated as 57 feet. Ten percent of the units are proposed to be dedicated as affordable as a part of the City's Land Use Incentive Grant program (25 units for 15 years - *see condition related to density).*

Vehicular access to the project is proposed via two separate driveways. The first is a 24 foot wide ingress and egress from Bradley Branch Road and the second is from an existing 50 foot private drive from Airport Road. The plans include a total of 414 surface parking spaces distributed around the site.

The project includes sidewalks connecting the site to both Bradley Branch and Airport Road as well as pedestrian pathways connecting the buildings within the development *(see condition related to sidewalks).* The proposed path to Airport Road includes a shared bicycle facility to meet multimodal standards in the district and the applicant has agreed to fund a transit shelter.

Landscaping is required for this project and includes parking lot and building impact landscaping, tree save area, dumpster screening and retaining wall screening. Retaining walls appear to be to a maximum height of 50 feet and will comply with screening requirements.

According to district standards, 2.9 acres of dedicated open space is needed for this project with at least one common park-like area with a minimum of 0.58 acres. The applicant is proposing open space areas but not all are technically compliant *(see condition related to open space).*

The intent of the district is to provide a wide variety of housing types within a single development; the project proposes eight similar apartment buildings in one general style that are not fully meeting this recommendation.

Due to the number of units proposed, the project is evaluated against the Residential Expansion District. There are a number of standards that are not proposed to be fully met by this proposal and would require Council-supported conditions.

Conditions - The following conditions related to the Residential Expansion district accompany this application:

1. Density - the maximum density for the district is 20 units per acre by-right and 50 units per acre with 20% dedicated affordable units. The density proposed exceeds the by-right maximum at 21.2 units per acre with only 10% affordable included.
2. Sidewalks - 10 feet minimum width for multi-family developments; plans show walkways approximately 5 feet wide within the site and out to Bradley Branch Road.
3. Access and mobility standards
    a. Sidewalk and bike lane to development from Airport Road is proposed across a property owned by others. If agreement from the other property owner cannot be obtained, the proposal would not be able to comply with these standards.
    b. Transit shelter - The applicant has agreed to fund a transit shelter.

4. Open space - 500 SF per unit would be required which is 2.85 acres and at least one common open space with a minimum area totaling 100 SF per residential unit with a park or plaza-type features must be provided. The applicant proposes to technically meet the area required per square footage but much of the dedicated open space is within areas of steep grade that will be disturbed (not compliant by code) and the common space is broken up between two locations rather than a single plaza/park.
5. Design and operational standards - "a wide range of housing types within the development" is the intent of the district; the buildings are all similar in size, mass and look.

Projects undergoing conditional zoning review are required to hold a neighborhood meeting; the meeting for this project was held on January 31, 2018. The project was approved with conditions by the Technical Review Committee on April 16, 2018. The Planning & Zoning Commission recommended approval of this project with a 5-1 vote at their meeting on May 2, 2018.

Staff heard from several surrounding property owners concerned about traffic impact from the number of residential units, especially onto Bradley Branch Road. There were also concerns expressed regarding the brownfields remediation process as this site was an unregulated landfill for many years. Those property owners spoke about the possible impacts to their properties once grading and land disturbance begins. They also has questions regarding stormwater and runoff, both in general as the grade of the adjacent properties is well below the front of this site but even more so, the concerns about runoff from the contaminated site. The applicant noted at the Planning & Zoning Commission meeting that they have applied to be included in the state's brownfields program but do not have any details about the remediation plan at this early time.

In 2017, there was a conditional zoning at 390 Airport Road approved for a lodging use (17-08807 PZ) and a Level II project approved for a self-storage use on Glenn Bridge Road (17-04524 PZ). In 2016, there was a conditional zoning for retail use at 352 Airport Road (16-10138 PZ) and a voluntary annexation and zoning to Highway Business at 421 Airport Road.

The project as proposed should be generally compatible with the surrounding area. The Airport Road commercial corridor provides easy access to shops, restaurants and places of employment that can all be reached by sidewalk and transit (*making the connection to Airport Road a key component of this project).* While the immediately surrounding zoning is all HB and CI (with light industrial uses on Loop Road), just past the corridor to both the north and south is a mix of apartment, townhome and single-family development all within Buncombe County jurisdiction. Along the corridor, while CI zoning restricts residential development, Highway Business does allow for high-density residential uses.

Several elements of this proposal are directly aligned with the *Asheville City Development Plan 2025* including "higher-density residential infill development"; density above the minimum necessary to improve and enhance transit; development on brownfields sites and the proposed inclusion of dedicated affordable housing.

Greater compliance with the Residential Expansion District standards (open space and mix of building types) would improve alignment with the City's goals and elements of the *Plan* regarding environmentally-thoughtful design preserving open areas and minimizing impervious surfaces and improving the character of the residential development.

The proposal aligns with the 2036 Council vision in the following areas: (1) *A Well-Planned and Livable Community* – The project is located near stores, services, and transit (although greater compliance with open space and design standards within the development itself is desired); (2) *Quality Affordable Housing* - The development will provide at least 25 affordable

units; and (3) *Transportation and Accessibility* - The developer is working to provide sidewalk and bike access to Airport Road where there is new sidewalk along the corridor and transit (with an offer to fund a transit shelter as well).

Considerations:

- The project will provide higher density infill residential development in an ideal location off of a commercial corridor and includes 10 percent affordable housing units.
- The development cleans up a brownfield site (unregulated landfill).
- The applicant agrees to fund a transit shelter near the site.
- Greater affordability, a mix of building types, wider sidewalks and open space are all standards that are not met.

Based on policies in the *2025 Plan* and City Council's 2036 Vision Considerations as well as incorporation of standards from the Residential Expansion District, staff recommends approval of the conditional zoning for the project at 39 Bradley Branch Road inclusive of the conditions as noted in the B.1 attachment.

The Planning & Zoning Commission reviewed this request at their meeting on May 22, 2018, and voted 5-1 in support of the project.

Mr. Chris Day, representing Civil Design Concepts, explained the project benefits, noting that this is a commercial corridor and there are lots of jobs in the area. He briefly explained the reasons for the conditions and noted that after their traffic mitigation, it will take Bradley Branch Road up a level of service. He said the development does propose a bike/pedestrian path and they are committed to a transit stop.

Mr. Robert W. Oast Jr., representing the applicant, said that the project complies with the Comprehensive Plan and complies with Council's vision. He urged Council to support the conditional zoning request.

In response to Councilman Kapoor, Ms. Bernstein said that even though they don't know what the stormwater mitigation measures will be regarding stormwater control for the people that live behind the project, but there will be no runoff after the mitigation measures are implemented. Those requirements are strictly monitored by our stormwater/erosion control staff.

In response to Vice-Mayor Wisler, Mr. Hobie Orton, the developer of the project, said that the City's land use incentive grant is very much a part of the project. The brownfields clean-up is very expensive and while we don't know what the state's going to require, we do know that it was an unregulated landfill from the 1950's. The debris is somewhere between 30 and 90 feet below the surface elevation. There is a huge potential liability for that clean-up and the mitigation of it. Without the grant, they might not be here requesting the conditional zoning, and they appreciated the HCD Committee's support.

Mayor Manheimer opened the public hearing at 7:49 p.m. and when no one spoke, she closed the public hearing 7:49 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the conditional zoning request for Sweetgrass Apartments at 39 Bradley Branch Road from Highway Business to Residential Expansion District Conditional Zone (RES EXP CZ), and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in that: (1) The proposal supports the strategies found in the City's comprehensive plan on infill

development, affordable housing and transit-supportive density; (2) The development is located with close access to commercial uses, transit and employment opportunities; and (3) The project will be part of the brownfields redevelopment program. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 70

Closed Session

At 7:50 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) to prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. § 143-318.11(a)(5). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 8:41 p.m., Councilwoman Mayfield to come out of closed session. This motion was seconded by Councilman Haynes and carried unanimously.

C. PUBLIC HEARING TO CONSIDER THE MODIFICATION OF A PREVIOUSLY APPROVED CONDITIONAL ZONING FOR THE PRINCESS ANNE HOTEL LOCATED AT 301 E. CHESTNUT STREET TO CONVERT THE EXISTING DINING ROOM TO A PUBLIC RESTAURANT

ORDINANCE NO. 4671 - ORDINANCE TO APPROVE A MODIFICATION OF A PREVIOUSLY APPROVED CONDITIONAL ZONING FOR THE PRINCESS ANNE HOTEL LOCATED AT 301 E. CHESTNUT STREET TO CONVERT THE EXISTING DINING ROOM TO A PUBLIC RESTAURANT

Principal Planner Shannon Tuch saic that this is the consideration of an ordinance to consider the modification of a previously approved conditional zoning for the Princess Anne Hotel located at 301 E. Chestnut Street to convert the existing dining room to a public restaurant. This public hearing was advertised on May 11 and 18, 2018.

T Ms. Tuch said that the applicant is requesting a modification to Ordinance No. 3388 to allow the Princess Anne Hotel to increase the number of seats in of the dining room and to convert the dining room to a restaurant that would be open to the public.

The project consists of a single .59 acre corner-lot with frontage on E. Chestnut St. and Furman Ave. in north Asheville off Charlotte St. north. The property currently supports a small, 3-story, 16-room historic inn, originally constructed in 1922. The property also supports a small surface parking lot on the south side of the bui ding. The property is zoned Institutional - Conditional Zone (INST-CZ) and is owned by Harry & Colleen Eden, PIN: 9649-63-6041.

The applicant is seeking to modify the conditions of the previously approved project (Ordinance No. 3388) approved September 12 2006 to allow a 32-seat dining room be expanded to 44 seats, and to use the dining room to support a full-service restaurant that would be open to

the general public 7 days a week. No building and minimal landscape improvements are proposed.

The Inn is easily accessed from both Furman Ave. and Chestnut St. via existing road and sidewalk infrastructure. The surface parking lot is accessed from Furman Ave. An existing 6-foot back-of-curb sidewalk runs the length of both Furman Ave. and E. Chestnut St.

There is an existing 15-space surface parking lot located on the south side of the Inn property. On-street parking is available on both Furman Ave. and E. Chestnut St. and is heavily used by the neighborhood. No additional parking is proposed.

The 2006 plan included street tree, parking lot and building impact landscaping. No changes to the existing landscape are proposed with the exception of the removal of a 48" sycamore (5 tree credits), to be replaced with new trees.

This conditional zoning was approved by the Technical Review Committee (TRC) on March 2, 2018 and requires review by the Planning and Zoning Commission, City Council and Final TRC prior to zoning permits being issued.

The Planning & Zoning Commission reviewed this request at their meeting on May 11, 2018, and voted 7-0 in support of the project . Two citizens spoke providing general support for a neighborhood based restaurant/business but expressed concern over the lack of off-street parking provided to accommodate the new restaurant activity, particularly given the amount of multi-family and other business uses in the area that utilize the majority of on-street parking. One email from a nearby property owner expressing the same position was also received.

The property was successfully rezoned in September of 2006 (Ord. No. 3338) from RM-16 (Residential Multi-family, high density) to INST-CZ (Institutional-Conditional Zone). The purpose of the rezoning was to allow for the re-establishment of a small hotel/inn on the property. The property had historically been developed as an inn in the early 20's but before 2006 had most recently been used as multi-family residential units. The purpose of this amendment is to establish a restaurant on the property.

Conditions - A condition from the original order limited the uses on the property to:

- A 16 room hotel
- Three apartments for staff
- 32 seat dining room to be used primarily for hotel guests but being open to the public Friday & Saturday evenings and for Sunday Brunch.

The only deviation from the original Ordinance is to: 1) expand the number of seats in the dining room from 32 to 44, and 2) open the dining room to become a full-service restaurant open seven days a week for breakfast, lunch and dinner.

The conditional zoning for 301 E. Chestnut was approved on September 12, 2006. Another conditional zoning was approved at 37 Arlington that allowed for a small residentially zoned parcel to be used for off-street parking for a salon (zoned Office) in February 2006; and a recent conditional zoning for the Patton-Parker house was approved in March 2017. While not recent, the subject property is also less than 500-feet from the edge of the Charlotte St. overlay zoning established in 1999.

The subject property is bordered by RS-8 zoning to the east and RM-16 zoning on the other three sides. The purpose of conditional zoning is to provide for flexibility in the development of property while ensuring that the development is compatible with neighboring uses. Conditional zoning affords a degree of certainty in land use decisions not possible when rezoning to a general

use district.

Across E. Chestnut to the north is the Asheville Arms Apartments, a large muti-family apartment development constructed circa. 1967. Smaller multi-family structures and single family surround the property on all other sides. The conditions proposed for the project are intended to help mitigate any land use conflicts or other concerns related to the structure and/or activities on the property.

The *Asheville City Development Plan 2025* highlights the importance of smart growth and more specifically identifies the need for strategies that support historic preservation and infill development/adaptive reuse, while also recognizing the importance of tourism and the service industry in Asheville's economy. However, the plan also states the importance of protecting, preserving and enhancing existing neighborhoods and that this should be as much a part of the development pattern as promoting new construction, or expanding existing businesses.

This proposal most closely aligns with the 2036 Council vision goal of A well-planned and livable community by allowing for the addition of a new service (restaurant) in a manner that is in keeping with the harmony and character of the existing residential neighborhood.

Considerations:

- No building alteration or expansion will be required. The new use will be contained within the existing historic structure.
- The new restaurant use will require a minimum of 15-20 spaces that cannot be provided on-site.
- On-street parking is available but heavily used.

The Planning & Zoning Commission recommended approval by a 6-0 vote while encouraging the applicant to continue to explore options for new or shared parking.

In response to Councilwoman Smith on if the neighborhood was surveyed regarding on-street parking, Ms. Tuch said that the applicant has held their neighborhood meeting. She noted that two individuals spoke at the Planning & Zoning Commission meeting in support of the project but were concerned about the lack of on-street parking. In addition, she received one e-mail regarding the parking.

Ms. Samantha Fan, applicant, said that they have been looking at other options for new or shared parking and they are looking at encouraging their guests to travel with Uber, with the restaurant picking up that expense.

Mayor Manheimer opened the public hearing at 8:51 p.m., and when no one spoke, she closed the public hearing at 8:51 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the amendment to Ordinance No. 3388 to allow a 44-seat restaurant to be added to the property, and find that the request is reasonable, is in the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) Protects and preserves the historic structure through adaptive reuse; (2) Supports the service and tourism industries; and (3) Provides a walkable neighborhood service and amenity. This motion was seconded by Councilwoman Mayfield and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 77

D. PUBLIC HEARING TO CONSIDER THE FISCAL YEAR 2018-19 OPERATING BUDGET

Chief Financial Officer Barbara Whitehorn said that this is the public hearing to receive public input on the proposed annual operating budget prior to adoption of the annual budget ordinance. This public hearing was advertised on May 11, 2018.

The 2018-19 Proposed Annual Operating Budget was presented to City Council on May 15, 2018. The Proposed Budget presented on that date was balanced with an ad valorem tax rate of $0.4289 per $100 of assessed value, which is unchanged from the current rate. All essential City services are continued in the Proposed Budget. A copy of the Proposed Budget is available for public inspection in the City Clerk's office. The Proposed Budget is also available for viewing on the City's website (www.ashevillenc.gov).

In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 11, 2018. Adoption of the Fiscal Year 2018-19 Budget Ordinance is scheduled for June 19, 2018, at the regularly scheduled City Council meeting. The Proposed Budget may be changed by City Council in any way before adoption. It may also be changed by budget amendment after adoption, with the only exception being the ad valorem tax rate, which cannot be changed once the Budget is adopted.

Staff recommends City Council conduct the public hearing on the City of Asheville Fiscal Year 2018-19 Proposed Annual Operating Budget and include public input in its consideration of the Budget.

At the request of Councilwoman Smith, it was the consensus of Council to direct the City Manager to see if an agreement can be negotiated with Buncombe County to reimburse the City for the 7 officers that we staff at the Family Justice Center. The City has a similar arrangement with the schools for our school resources officers.

Councilman Haynes asked for information related to the lease agreement for McCormick Field and whether or not the lease has expired.

Mayor Manheimer opened the public hearing at 8:56 p.m.

Alison Gooding, Rachael Sparks, Stephen Pinsky and Amanda Bryant all spoke about the importance of the Asheville Museum of Science to the community and asked to be included in Council's budget.

When Mayor Manheimer asked if Buncombe County is providing funding for the Asheville Museum of Science, Ms. Gooding replied the County contributes approximately $15,000 for programming but they are in discussions with them for more funding.

Councilman Young said that he will would meet with Ms. Gooding with the Asheville Museum of Science to learn more about the interaction with other groups and organizations.

Scott Mullins, President of the Asheville Firefighters Association, said that the 2.5% pay increase for City employees do not reflect the City's economic growth rate and requested it be raised to 3%. Employees are a tremendous resource and we need to retain our employees. In addition he asked Council to consider increasing the 457 match for firefighters from 4% to 6%, noting that ultimately the agreement was to reach 6% back in 2007.

Regarding the match for firefighters, Councilwoman Mayfield recalled the Finance Committee discussed this last fiscal year asked that staff provide the minutes of that meeting.

Ashley Cooper spoke about accountability in the budget and the need for participatory budgeting.

Elizabeth Schell, downtown business owner, spoke in opposition to any increase to the Asheville Police Department's budget.

Rondell Lance, President of the Fraternal Order of Police, and Diana Loveland, spoke in support of the Asheville Police Department's funding, and how several initiatives that have been put in place in order to build trust with the community.

Patrick Conant said that when the City fleshes out development performance metrics in the budget, the community should be at the table so departments will align with the community's priorities.

Luke Bernbach felt that if the City wants to focus on reducing crime, we need to invest in programs like the City of Asheville's Youth Leadership Academy.

Rev. Amy Cantrell was not opposed to raises for the police officers, but was opposed to the increase in officers at the Asheville Police Department.

Jonathan Wainscott said that the City has let the lease with the Asheville Tourists lapse since December 1, 2012, and felt we do not have proper management of the City's assets.

At 9:47 p.m., Mayor Manheimer closed the public hearing.

Councilman Haynes did not support a decrease in pay of police officers, as he felt our police officers should be paid more than what they get - they are hard working and it's a dangerous job. He was against the additional officers that were proposed last year and again this year. Last year during the budget process he was opposed to the $1.2 Million increase dedicated to the creation of a downtown police unit. Council was told that an additional unit was needed to deal with the drastic increase in crime in the Central Business District, yet in the poll of downtown residents and business owners, an increased police presence didn't make their list of needs. At the same time, Council was shown data revealing an alarming disparity between blacks and whites in traffic stops and searches. From the homeless community, we were hearing constant complaints about the harassment and over-policing, arresting and issuing citations for low level violations. He still does not support the creation of the downtown unit but instead would like to see an end to broken policies that focus law enforcement to work on low level offenses. If we direct employee's efforts away from these low level offenses, it would free up countless man hours, allowing officers to dedicate their time and efforts towards higher level crimes. Eliminating this increase would allow us to begin fare-free transit or some other use that addresses the root problems that lead to crime. He could not support this budget as long as the increase remains.

Mayor Manheimer said that the ordinance to consider adoption of the fiscal Year 2018-19 operating budget will be considered on June 12, 2018.

E. PUBLIC HEARING TO PURSUE DEBT FINANCING FOR CAPITAL PROJECTS WITH A DRAW PROGRAM THAT INCLUDES THE ISSUANCE OF INTERIM LIMITED OBLIGATION BONDS

RESOLUTION NO. 18-121 - RESOLUTION DIRECTING THE INTERIM CITY MANAGER AND CHIEF FINANCIAL OFFICER TO COMPLETE THE LIMITED

OBLIGATION BONDS FINANCING WITH BANK OF AMERICA FOR THE DRAW PROGRAM INTERIM FINANCING

Chief Financial Officer Barbara Whitehorn said that this is the consideration of a resolution directing the Interim City Manager and Chief Financial Officer to pursue debt financing for capital projects with a draw program that includes the issuance of interim, variable rate Limited Obligation Bonds (LOBs) in an amount not to exceed $48,000,000. The interim LOBs will provide construction financing for projects which, upon completion, will be permanently financed through longer-term, fixed rate LOBs and Special Obligation Bonds (SOBs).

The City has reimbursement resolutions for Council approved capital projects authorized as part of the Fiscal Year (FY) 2018 and FY 2019 Budgets. This LOB draw program will reimburse the City for costs incurred to date, and over the next 24 months, for those projects and allow the City to complete many of the projects.

As a next step in the process, staff is seeking City Council's approval to complete the LOB financing with Bank of America, as the purchaser of the LOBs, which provided the lowest cost financing for the draw program interim financing.

Projects include (1) New Leicester Highway Sidewalk; (2) River Arts District Redevelopment; (3) Neighborhood Sidewalk Program; (4) Site Preparation - Clingman/Hilliard; and (5) French Broad River West Greenway Match.

The resolution also authorizes the Interim City Manager and Chief Financial Officer to proceed with the LOB financing and execute and deliver the necessary documents to complete the financing.

Pro:

- Allows the City to move forward with the Capital Improvement Program and Draw Program financing.

Con:

- None noted.

The initial draw on the LOB facility for costs incurred to date is $20,600,000. At current variable rates associated with this facility (roughly 1.87%), the annualized interest expense on the initial draw is $385 thousand. As further draws are made on the facility, the interest expense will increase accordingly. Funds are included in the City's FY 2018-2019 proposed debt service budget to cover these costs. They are also included in the City's multi-year capital improvements debt model.

Staff recommends that City Council approve the resolution as it is proposed.

Mayor Manheimer opened the public hearing at 9:53, and when no one spoke, she closed the public hearing at 9:53 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-121. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 439

V. UNFINISHED BUSINESS:

A. CONSIDERATION OF LEGISLATION

Mayor Manheimer said that Council discussed this legislation at their May 15, 2018, meeting and it was then reviewed by the Governance Committee. To recap, this is three pieces of legislation (1) request the legislature to enact a local bill to have a Citizen Review Committee that better reflects what the community and Council wants - a Committee to actually have power and not just make recommendations. The legislation includes the power of the Citizen Review Committee to make binding decisions, to have subpoena power, to look at personnel records, to be able to view body-cam footage with a confidentiality agreement, etc. Coupled with the draft bill to establish of a Citizen Review Committee is the repeal of the Civil Service Board; (2) request an exception that would apply to Asheville for the body-camera state law, which does not allow city councils or a citizen review committee to review body-cam footage. This would create an exception for City Council and a Citizen Review Committee to be able to see that body-cam footage if a confidentiality agreement is signed; and (3) request for a bill that asks that the City of Asheville be allowed to disclose limited personnel information. Currently if someone files a complaint against someone in the Asheville Police Department because of the personnel laws the results of your complaint may not be disclosed to the complainant. This bill, modeled after Greensboro, would allow a complainant to actually hear the results of their complaint. She explained this is a part of the larger issues Council discussed at their March 30, 2018, worksession.

Councilman Kapoor supported two of the three legislation requests and also supported looking a the reform of the Civil Service Board including changing it's scope, putting the burden on the employee, and limiting the employees that are covered; however, he could not support the elimination of the Civil Service Board and replacing it with a Citizen Review Committee that has the power to impose discipline on police officers, including suspension, demotion or termination. City Council does not have the power to impose discipline on City employees, and for good reasons. We are not professionals in these area nor are we qualified to make those decisions. The power to discipline employees should remain with the Police Chief and City Manager through the appeal process.

Councilwoman Mayfield and Vice-Mayor Wisler also supported two of the three legislative requests. Her concern was the repeal of the Civil Service Board and establishing a Citizens Review Committee. We have started making changes to our personnel policies and we don't know that the impact will be on the Civil Service Board after those changes are made. They felt we need to explore options between repealing the Civil Service Board and establishing a Citizens Review Committee, and waiting to see the relationship of the personnel policy changes and the Civil Service Board. They suggested we not move forward with the legislative request to repeal the Civil Service Board.

Councilman Young felt we have not rushed into the legislation to repeal the Civil Service Board. His reservations have been clear about how our police interact with the community and the way the Civil Service Board handles reviews of incidents with the Police Department. It may seem like it's on the fast track, but no one has given it any attention until something large happened (Johnnie Rush incident) in the community. He has always had concerns about the Civil Service Board and how they have some type of autonomy over the Police Chief and overturn the Chief's ability to fire someone. We will be changing our policies internally to give the Police Chief more leeway to do what she needs to do but he didn't think that speaks to any volume of what the Civil Service Board can do in return to that.

Councilman Young moved for City Council to move forward legislation to allow the City of

Asheville to disclose limited personnel information regarding complaints. This motion was seconded by Vice-Mayor Wisler.

Councilman Young moved for City Council to move forward with legislation to amend the body-worn camera legislation to allow the City of Asheville to disclose law enforcement recordings to the Asheville City Council and a Citizen Review Board. This motion was seconded by Councilwoman Mayfield.

Councilman Young moved for City Council to move forward with legislation to authorize the City of Asheville to repeal the Civil Service Act and Establish a Citizen Review Board. This motion was seconded by Councilman Haynes.

Scott Mullins, President of the Asheville Firefighters Association, said that the Civil Service Board was formed in 1953 and it protects employees and the citizens of Asheville. It allows due process and they will fight hard not to repeal the Civil Service Board.

Brandon McGaha, representing Southern States Police Benevolent Association, and Rondell Lance, President of the Fraternal Order of Police, opposed the repeal of the Civil Service Board.

Diana Loveland stated that the policies on the City's website conflict and felt those should be updated. In addition she was opposed to the repeal of the Civil Service Board, along with the legislation to allow City Council to view body camera footage because a confidentiality agreement does not give the Police Department confidence that a leak will not occur.

Rev. Amy Cantrell and Matilda Bliss supported moving forward with all three legislative requests.

Patrick Conant supported a Citizens Review Committee and cautioned Council to choose the right people for the Committee.

In response to Councilman Young, City Attorney Currin said that all employees, except for Department Directors and Assistant Department Directors, have the protection of the Civil Service Board.

The motion made by Councilman Young to move forward legislation to allow the City of Asheville to disclose limited personnel information regarding complaints, and seconded by Vice-Mayor Wisler, carried unanimously.

The motion made by Councilman Young to move forward with legislation to amend the body-worn camera legislation to allow the City of Asheville to disclose law enforcement recordings to the Asheville City Council and a Citizen Review Board, and seconded by Councilwoman Mayfield, carried unanimously.

It was the consensus of Council to have the Finance & Human Resources Committee at an in-depth look at the Civil Service Board and the new personnel policies.

The motion made by Councilman Young to move forward with legislation to authorize the City of Asheville to repeal the Civil Service Act and Establish a Citizen Review Board, and seconded by Councilman Haynes, carried on a 4-3 vote, with Councilman Kapoor, Councilwoman Mayfield and Vice-Mayor Wisler voting "no."

VI. NEW BUSINESS:

A. RESOLUTION NO. 18-122 - RESOLUTION APPROVING THE 2018-19 STRATEGIC PARTNERSHIP FUND GRANTS

Community Development Program Director Heather Dillashaw said that this is the consideration of a resolution approving the recommendations of the Housing & Community Development (HCD) Committee for the 2018-19 Strategic Partnership Fund.

The HCD Committee received applications from 21 eligible organizations for Strategic Partnership Funds for 2018-19 for a total of $393,054. The Committee considered these applications at their meeting on March 23, 2018, and now recommends 19 applications for funding. The recommendations are:

AGENCY	AWARD
Asheville Area Arts Council	$2,500
Asheville Art Museum Association	$7,500
Bountiful Cities	$10,000
Children First	$15,000
Christine Avery Learning Center	$30,000
Council on Aging	$12,500
Green Opportunities	$15,000
Just Economics	$5,000
My Daddy Taught Me That	$20,000
OnTrack Financial	$7,500
One Youth at a Time	$7,500
Pisgah Legal Services	$12,500
Project Lighten Up	$4,500
Project Peace - New Mt. Olive Church	$15,000
Read to Succeed	$12,000
The SPARC Foundation	$10,000
Youth Transformed for Life (YTL)	$25,000
YWCA - Swim Equity	$15,900

YWCA - Getting Ahead	$15,000
TOTAL	**$242,400**

Total recommended funding is $242,400. This amount includes $42,000 un-allocated from 2017-18 Strategic Partnership Funds.

Pros:

- Approval of the Strategic Partnership Fund provides operating support to Asheville-based organizations that are providing direct services for Asheville residents.
- The Strategic Partnership Fund reflects the carefully considered recommendations of the City's Housing & Community Development Committee.

Con:

- Budget constraints continue to curtail the availability of funds; supported organizations will need to find alternate sources of program support. All worthy proposals could not be funded.

Strategic Partnership Funds are funded from the City's general fund. The funding recommendations do not exceed the fiscal limits included in the FY 2018-2019 Budget of $242,400.

The HCD Committee recommends approval of the 2018-19 Strategic Partnership Fund grants as presented.

In response to Vice-Mayor Wisler, Ms. Dillashaw said that the Asheville Art Museum grant is for programming for summer programs.

When Mayor Manheimer asked for public comments, none were received.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-122. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 - PAGE 443

B. BOARDS/COMMISSIONS

Regarding the Board of Adjustment, the following individual applied for a seat: Ken Sherlin. It was the consensus of the Council to instruct the City Clerk to re-advertise for the two vacant Alternate Board of Adjustment seats.

Regarding the Homeless Initiative Advisory Committee, the following individuals applied for the vacancy: Val Ball, Timothy Moser, Bill Robinson, Michael Carlebach, Roberto L. Hess, Thomas Cash, Tamarie Macon, Donna Ball and Elvia Diaz. It was the consensus of Council to interview Donna Ball and Elvia Diaz.

RESOLUTION NO. 18-123 - RESOLUTION APPOINTING MEMBERS TO THE HUMAN RELATIONS COMMISSION

Vice-Mayor Wisler, Chair of the Boards & Commissions Committee, said that this is the consideration of appointing members to the Human Relations Commission of Asheville (HRCA).

City Council established a Human Relations Commission on April 10, 2018, to promote and improve human relations and achieve equity among all citizens in the City by carrying out the City's human relations program.

The following individuals who completed both required applications applied for the vacancy: Yvonne Cook-Riley, John B. Christiansen, Anne Greene, Tammy Chandler, Gretchen Gudites, Margaret H. Small, Chris Winebrenner, Michael Carter, Gabrielle Fricke, Tracy Elliott, Rondell Lance, Allison Scott, Davidson Jones, Greta Byrd, Matilda Bliss, Ashley Cooper, Jodi John Pippin, Stephanie Krucher, Patrick Conant, Ingrid Kalwitz, Mychal Bacoate, Sarah Williams, Grant Millin, J. Vann Vogel, Pearl DeBellot, Christine Longoria, Carol Buffum, Tiffany De'Bellott and Delores Venable.

After Council spoke highly of all candidates who applied, and after tallying all votes of City Council, the following individuals were appointed to the Human Relations Commission: Mychal Bacoate, Michael Carter, John Christensen, Patrick Conant, Ashley Cooper, Pearl De'Bellott, Tiffany De'Bellott, Gabrielle Fricke, Anne Greene, Davidson Jones, Christine Longoria, Delores Venable, Sarah Williams and Chris Winebrenner.

RESOLUTION BOOK NO. 39 - PAGE 445

VII. INFORMAL DISCUSSION AND PUBLIC COMMENT:

Brandon McGaha, with the Southern States Police Benevolent Association, said that that fact that the public was not allowed to speak on the three motions regarding the Police Department matters regarding traffic stops, written consent, etc. is disgusting. He had information about how it increases crime across the board, but obviously City Council doesn't want to hear about that. When it comes to traffic stops, any attempts to obstruct an officer's lawful ability to stop a car will be met with legal action from his Association. There may be instances where an officer is dealing with a situation away from the vehicle and may not have access to the consent forms. He noted that most DWI offenses are made off of equipment violations.

Councilwoman Mayfield was interested in hearing about any litigation in Fayetteville surrounding their policies on written consent.

Sgt. Rick Tullis, with the Southern States Police Benevolent Association and Asheville Police Officer, was disappointed that Council did not allow for public comment on a item not even on the agenda. Public comment was given on every other motion. Police officers need to be heard too. Regarding the traffic stop data, he showed a map (available on the City's website) which represents the Asheville Police Department's crime reporting data, and a map which showed the traffic stop reporting. The maps look identical. Police are not stopping vehicles based on race, etc., they are stopping vehicles based on where the crimes are occurring. Any attempt to take away the officers' ability of one of their most valuable tools will have a devastating impact on violent crime.

Mayor Manheimer said that Council's practice is to allow public comment on every motion - they are not required to at all. Councilman Young called the question and procedurally that cuts off debate and they vote.

Ms. Diana Loveland agreed with Sgt. Tullis that the vehicle stops correlate with the crime rate. Writing a citation is not the officer's first action when someone is pulled over for a regulatory

or equipment violation. They are either given a warning, a written warning, or a citation and if a citation they are told if they get the violation fixed, the citation will be dropped. However, taking that tool away from the officer in a violent crime area who is trying to deter crime will make crimes go up. She suggested a program for those who can't afford to have something fixed on their vehicle that they can apply to have a zero interest payment plan. She asked Council to support their Police Department and invited Council to do a ride-along with an officer.

Mr. Patrick Conant said that the NAACP has asked for the top 10 locations of where African American drivers are stopped. He asked for more data to be released on traffic stops.

Mr. Jonathan Wainscott said that only 7 police officers have been killed since 1906 and there are other occupations that are much dangerous, i.e., construction workers.

Mr. Rondell Lance, President of the Fraternal Order of Police, urged Council to let them be a part of the conversation so everyone works together.

Regarding the Council's actions on written consent and search policy, Councilman Kapoor said that this is an important issue, but this was not on the agenda and not advertised to the public, didn't go through the committee process, staff was not expecting it, he wasn't expecting it, and we did not even take public comment on it before voting. We talk about on Council the importance of transparency and democratic process but we violated every tenant of that tonight. What many of criticise Congress and the North Carolina General Assembly for doing, we just did tonight. He was embarrassed and wanted to apologize for the citizens of Asheville. Regardless of how you feel about the substance of that issue, how this was done tonight will be a black eye on this Council for years to come.

VIII. ADJOURNMENT:

Mayor Manheimer adjourned the meeting at 11:00 p.m.

Magdalen Burleson
CITY CLERK

Esther E. Manheimer
MAYOR

Tuesday – June 19, 2018- 5:00 p.m.

Regular Meeting

Present: Mayor Esther E. Manheimer, Presiding; Vice-Mayor Gwen C. Wisler; Councilman Brian D. Haynes; Councilman Vijay Kapoor; Councilwoman Julie V. Mayfield; Councilwoman Sheneika Smith; Councilman W. Keith Young; Interim City Manager Cathy Ball; City Attorney Robin T. Currin; and City Clerk Magdalen Burleson

Absent: None

PLEDGE OF ALLEGIANCE

Mayor Manheimer led City Council in the Pledge of Allegiance.

I. PROCLAMATIONS:

II. CONSENT AGENDA:

Mayor Manheimer announced ground rules for the meeting and announced that Consent N. 1 will be amended to a motion setting a special meeting to hold a public hearing on July 2, 2018, at 5:00 p.m. to consider an ordinance amending the Water Resources System Maintenance and Capital Fee for Fiscal Year 2018-19.

A. APPROVAL OF THE MINUTES OF THE REGULAR MEETING HELD ON MAY 22, 2018

B. RESOLUTION NO. 18-124 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A MODIFICATION TO AN EXISTING AGREEMENT WITH BUNCOMBE COUNTY FOR THE PURPOSE OF BILLING AND COLLECTING PROPERTY TAXES ON BEHALF OF THE CITY OF ASHEVILLE

Summary: The consideration of a resolution directing the Mayor to execute a modification to an existing Agreement ("Modification Agreement") with Buncombe County for the purpose of billing and collecting property taxes on behalf of the City of Asheville.

In June, 2005, the City and County entered into an Agreement instructing the County to bill and collect property taxes on behalf of the City. In return for the billing and collection services provided, the City agreed to pay the County a fee of 1.5% of the City-related tax amount collected.

However, as property values and resulting property taxes rose over the last several years, so too did the billing and collection fees paid by the City. For fiscal year 2018, property tax billing and collection fees amounted to roughly $895,000 - an increase of approximately 13% over the previous fiscal year.

Following negotiations between the County and the City, both sides have agreed to a proposed Modification Agreement that contains the following key points:

- The Modification Agreement replaces a percentage based fee with a flat rate of $795,000 for the upcoming fiscal year. The flat rate will be paid in 4 equal installments at the beginning of each quarter.

- The County will continue to transfer tax revenue to the City's NCCMT account on a daily basis during the heaviest collection periods (Nov 01 - Jan 15). In lighter collection periods, the County will transfer funds on a weekly basis. Finance does not view this as problematic as it represents only a small loss in time value of money.

- The Modification Agreement is interim in nature and only applicable for the upcoming fiscal year. Finance and the County will continue to negotiate a more permanent agreement and will complete it for Council approval by the end of January, 2019.

Pro:

- Lower property tax billing and collection fees.

Con:

- None noted.

The negotiated flat rate fee of $795,000 represents a savings for the City of $100,000 when compared to the current year's percentage based fee.

Staff recommends that City Council approve the resolution as it is proposed and execute the Modification Agreement.

RESOLUTION BOOK NO. 39 - PAGE 447

C. RESOLUTION NO. 18-125 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH FRENCH BROAD PAVING INC. FOR THE FISCAL YEAR 2018 ASPHALT PAVING IMPROVEMENTS - RESURFACING CONTRACT

Summary: The consideration of a resolution authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,889,265 plus a contingency of 15% ($283,389) with French Broad Paving, Inc. for the project known as Fiscal Year (FY) 2018 Asphalt Paving Improvements – Resurfacing, City of Asheville Project K1801.

A list of warranted streets was assembled to be addressed by this contract. The project was advertised on April 23, 2018. Bids were opened on May 10, 2018, with the following results:

French Broad Paving, Inc. of Marshall, NC	$1,889,265.00
Harrison Construction Company of Asheville, NC	$2,485,786.25
Rogers Group, Inc. of Nashville, TN	$2,517,049.40

A 15% contingency ($283,389) has been added to allow payment for any unforeseen costs that typically arise during construction and to do additional street resurfacing. The work produced from this contract would fix a number of roads that are in need of repair. This contract is part of our annual Capital Improvement Program funded resurfacing program.

Pros:

- Will repair approximately 4.3 miles of roadways within the Asheville City limits.
- Will improve mobility and safety on city streets.

Con:

- Construction will be disruptive to adjacent residences and businesses.

The total budget for the FY18 Streets Program is $2.8 million. This funding is our annual repaving project and is not bond funded. The total cost of this contract, including contingency, is $2,172,655. The remaining funds in this budget will be used for other paving needs.

City staff recommends City Council adopt the resolution awarding the contract to French Broad Paving, Inc. and authorizing the City Manager to execute on behalf of the City of Asheville a contract in the amount of $1,889,265 plus a contingency of $283,388.00 (15%) for the contract known as FY18 Asphalt Paving Improvements – Resurfacing, City of Asheville Project K1801.

RESOLUTION BOOK NO. 39 - PAGE 448

D. ORDINANCE NO. 4672 - BUDGET AMENDMENT TO RECEIVE INSURANCE RECOVERY FUNDS RECEIVED FOR HAIL DAMAGE OCCURRING AT THE NORTH FORK WATER TREATMENT PLANT

Summary: The consideration of a budget amendment in the Water Resources Capital Projects Fund in the amount of $146,246.40 from insurance recovery funds received for hail damage occurring at the North Fork Water Treatment Plant.

On May 1, 2016, multiple roofs located at the North Fork Water Treatment Plant sustained considerable hail damage. The City of Asheville (City) filed an insurance claim with the City's property insurance carrier, Berkley Southeast Insurance Group (Berkley) to consider funds to repair/replace the damaged roofs, minus a $25,000 deductible. The City received $121,246.40 from Berkley and deposited them into the City's Property & Liability Fund. The related roof replacement project is complete and City Council authorization is sought to reimburse the Water Resources Capital Projects Fund with the received insurance claim funds.

Pro:

- Payment issuance will result in allocating insurance funds to reimburse the operating department that issued full payment related to the insurance claim.

Con:

- None.

Fiscal impact is $25,000 deductible. Insurance proceeds were received via insurance claim.

Staff recommends City Council authorize insurance funds received and deposited into the City Property & Liability Fund in the amount of $146,246.40 be allocated via budget amendment into the Water Resources Capital Projects Fund to reimburse expended funds for an insurance-related claim.

ORDINANCE BOOK NO. 32 - PAGE 82

E. RESOLUTION NO. 18-126 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A MULTI-YEAR AGREEMENT WITH PAYMENTUS FOR THE WATER RESOURCES DEPARTMENT INTERACTIVE VOICE RESPONSE PAYMENT ACCEPTANCE AND ELECTRONIC BILLING AND PAYMENTS SYSTEM

Summary: The consideration of a resolution authorizing the City Manager to execute a multi-year agreement with Paymentus for the Water Resources Department Interactive Voice Response Payment Acceptance and Electronic Billing and Payments system.

On August 9, 2017, the Water Resources Department (WRD) issued a Request for Proposals (RFP) for an Interactive Voice Response Payment Acceptance and Electronic Billing and Payments system for the Customer Services Division. Currently, customers pay their utility bills over the phone, in person, online, or by enrolling in autopay. The WRD needed to update, improve, and add more user-friendly and flexible ways for customers to pay their utility bills.

The scope of the project includes an interactive payment and billing system that would provide a variety of flexible and user friendly options for customers to access and pay utility bills, including: (1) Interactive Voice Response (IVR) system, which would provide outgoing automated calls as well as acceptance of debit/credit card and e-check payments; (2) Pay-by-Text; (3) Online Quick Pay, which would not require the user to register an account; (4) Paperless eBilling; (5) Pay-by-Email; (6) AutoPay; (7) Kiosk; and (8) Mobile via an in-browser mobileWeb or downloadable mobileApp.

In response to the RFP, the WRD received 7 proposals on October 2, 2017. Companies responding were:

1. Paymentus Corporation; Charlotte, NC
2. Invoice Cloud; Braintree, MA
3. Utilli, LLC; Bethesda, MD
4. Value Payment Systems; Nashville, TN
5. Milsoft Utility Solutions; Abilene, TX
6. Vocantas, Inc.; Ottawa, Ontario, Canada
7. eConn Solution and Services, LLC; Nashville, TN

Following a review of the proposals, City Staff selected two companies for interviews and demonstrations - Paymentus and Invoice Cloud. Based on the interviews and demonstrations, Paymentus was selected because their product provides real-time integration with Munis.

Pro:

- This agreement will provide customers with additional interactive methods to pay their utility bills via text, email, and mobile app.

Con:

- The exact annual cost is hard to predict at this point because it is based on the number of credit/debit card and eCheck transactions, which are expected to increase once the text, email, and mobile app capabilities are in place.

The cost for Paymentus includes a: (1) service fee - full pass through of interchange and assessments plus $0.50 per authorization for all Visa, MasterCard and Discover credit/debit card transactions; and (2) $0.75 flat fee for eChecks, after the first 4,000 each month. That equates to approximately $350,000 annually for the first year with a standard inflationary increase each year thereafter. The annual operating costs for the current system are $250,000. The additional $100,000 per year for this system will allow Water Resources to modernize its options for payment and help to greatly improve customer service with a more user-friendly billing system interface. The funding needed for this agreement will be funded from the Bank Fees line item in the Water Resources Operating Fund and will be adjusted for inflation each year like other operating line items.

Staff recommends City Council adopt a resolution authorizing the City Manager to execute a three-year agreement with Paymentus starting in Fiscal Year 2018-19 with an option to renew annually for an additional two one-year extensions for the Water Resources Department Interactive Voice Response Payment Acceptance and Electronic Billing and Payments system for an amount not to exceed the City's approved budget for each applicable fiscal year period.

RESOLUTION BOOK NO. 39 - PAGE 449

F. RESOLUTION NO. 18-127 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXERCISE THE THIRD-YEAR OPTION TO RENEW THE CONTRACT WITH MS LEAN LANDSCAPING LLC FOR GROUNDS MAINTENANCE SERVICES IN VARIOUS PARKS, GREENWAYS AND FACILITIES IN THE WEST TWO DISTRICT IN ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to exercise the third-year option to renew the contract with MS Lean Landscaping LLC in the amount of $31,740 for grounds maintenance services in various parks, greenways and facilities in the west two district in Asheville in the cumulative amount of $95,220.

The Parks and Recreation Department contracts for ground maintenance services in various parks, greenways and facilities in the City's park system. The City entered into a one-year contract with MS Lean Landscaping LLC in Fiscal Year (FY) 2016-17 in the amount of $31,740 for ground maintenance service in the west two district, and exercised the option to renew for a second one-year contract in FY17-18 with the option to renew for a third year based on contractor performance. By electing to exercise the third year in the amount of $31,740 increases the cumulative amount of the contract to $95,220, an amount which requires City Council consideration and approval.

Pro:
- Supports the efficient delivery of core park maintenance services.

Con:
- None

The $31,740 funding required to support this ground maintenance contract is budgeted in the FY 2018-2019 Parks and Recreation Department operating budget as part of the Parks Maintenance division budget.

Staff recommends City Council to adopt a resolution authorizing the City Manager to exercise the third-year option to renew the contract with MS Lean Landscaping LLCi in the amount of $31,740 for grounds maintenance services in various parks, greenways and facilities in the west two district in Asheville in the cumulative amount of $95,220.

RESOLUTION BOOK NO. 39 - PAGE 450

G. ORDINANCE NO. 4673 - ORDINANCE AMENDING AND REPLACING ORDINANCE NO. 4615 GRANTING A FRANCHISE FOR "HERE TO THERE ADVENTURES" TO OPERATE A PEDAL BICYCLE TAXI SERVICE WITHIN THE CITY OF ASHEVILLE

Summary: The consideration of an ordinance amending and replacing the franchise agreement that was approved for "Here To There Adventures" on October 24, 2017, via Ordinance No. 4615 (second reading).

"Here To There Adventures" was approved to operate in the same service area as Asheville Bike Taxi, LLC which includes the Central Business District, the River Arts District, and the Historic Montford District. In addition, it would be allowed to use SR 3548 (Clingman Avenue) from Clingman Avenue Extension to Hilliard Avenue in order to gain access to the River Arts

District. The N.C. Dept. of Transportation has confirmed that the subject service can use state-maintained streets except for fully-controlled access streets like the interstate system.

The service is prohibited from operating on public streets that have a speed limit of 35 mph or higher. The one exception is the section of Clingman Avenue that provides access to the River Arts District. This section of street has a bicycle climbing lane and the pedal bicycle taxis are required to use it.

The hours of operation would be Monday through Thursday 4:00 pm until 12:00 am with three vehicles operating, Friday 4:00 pm until 3:00 am with three vehicles operating, Saturday 12:00 pm until 3:00 am with one vehicle operating between 12:00 pm and 4:00 pm and three vehicles operating between 4:00 pm and 3:00 am, and Sunday 12:00 pm until 12:00 am with three vehicles operating.

The owner has requested that the operating hours be changed to Monday through Sunday from 8:00 am until 3:00 am with one to three vehicles operating.

In addition, the business owner has changed from Michelle Kelly, 82 Crestfield Avenue, Asheville, NC 28804 to Jude Luc Richard (same mailing address). Michelle Kelly is the administrative member.

The Transportation Department and Police Department have reviewed this request and at this time, there are no concerns. The Police Department would like to reassess the new hours after one year to be sure that no issues were created by the additional hours.

This item was reviewed by the Public Safety Committee on May 21, 2018, and they unanimously recommended that it move forward to City Council for review and approval.

Pros:

- Supports diversified job growth and business development.
- Enhances the visitor experience to downtown Asheville.
- Franchise agreement fees in the amount of $365 per year.

Con:

- Could impact vehicular traffic flow.

There is no fiscal impact for the subject franchise agreement amendment.

Staff recommends that City Council approve an ordinance amending and replacing the franchise agreement that was approved for "Here To There Adventures" on October 24, 2017 via Ordinance # 4615.

ORDINANCE BOK NO. 32 - PAGE 84

H. RESOLUTION NO. 18-128 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A LEASE AGREEMENT WITH THE ASHEVILLE DOWNTOWN ASSOCIATION FOR SPACE AT 29 HAYWOOD STREET

Summary: The consideration of a resolution authorizing the City Manager to execute a lease agreement between the City of Asheville (City) and the Asheville Downtown Association (ADA) for an office and storage space located at 29 Haywood Street.

The Asheville Downtown Association is a non-profit organization committed to preserving the vitality of Asheville's downtown area. For several years, ADA has occupied a portion of

City-owned property at 29 Haywood Street for offices and storage space under a verbal agreement. At this time, the City intends to formalize a written lease with ADA. The City's Real Estate Coordinator and the ADA's Executive Director have been working together to negotiate the terms of that lease and to ensure that ADA is complying with the terms of the City's lease guidelines, as adopted in 2017. In addition to the office and storage space, ADA proposes to lease the interior wall of the hallway that connects the Wall Street parking garage to Haywood Street for the purposes of installing and maintaining a placemaking mural.

The proposed lease has a term of five years with one renewal for four additional years. The lease can be terminated by either party with 180 days written notice. The space was valued using local commercial leasing rates for the downtown area of Asheville. The rate applied for office space in this area is $21.57 per square foot. ADA will be occupying 811 square feet, which yields a value of $1,458 per month. This rate was discounted by 20% because the space does not have private restroom facilities and ADA must share facilities with the Asheville Police Department in the adjoining office, thus reducing the monthly office rate to $1,166. ADA also uses 1,500 square feet of storage space that is valued at $5.97 per square feet or $746.00 per month. The total monthly fair market rent would be $1,912 per month or $22,944 a year. The mural wall is not included in the rent calculation.

ADA presented a detailed proposal that documented the in-kind services that they provide for the benefit of the public. ADA demonstrated how the in-kind services aligned with the City Council 2036 Vision and requested that these in-kind services should be deemed as acceptable compensation for the value of the lease over the lease term. The Real Estate Division recommends that City Council authorize the lease without charge to ADA provided that ADA continues to offer community services throughout the term of the lease.

Pros:

- Continued partnership with the Asheville Downtown Association through a lease of City-owned property.
- This lease contains specific insurance requirements to protect the City's liability.
- Provision of civic events and other activities designed to promote downtown as a community gathering space, a destination, and a business support environment.

Con:

- City incurs a portion of the maintenance costs for this City-owned building.

ADA proposes in-kind services in exchange for rental fees. The City will continue to have maintenance responsibilities for the building but provisions of the lease protect the City's interests and limit liability.

City staff recommends City Council adopt a resolution authorizing the City Manager to execute a lease agreement with the ADA for a downtown office in exchange for conducting a wide array of services for the public good throughout the term of the lease.

RESOLUTION BOOK NO. 39 - PAGE 451

I. RESOLUTION NO. 18-129 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN INTERLOCAL AGREEMENT WITH THE LAND-OF-SKY REGIONAL COUNCIL TO CONDUCT ENERGY AUDITS ON WATER RESOURCES FACILITIES

Summary: The consideration of a resolution authorizing the City Manager to enter into an agreement with the Land of Sky Regional Council to conduct energy audits on 2 water treatment plants and 3 pump stations.

Waste Reduction Partners, a division of Land of Sky Regional Council ("Land of Sky"), provides energy audits on various governmental facilities across the state at no cost to the municipality using grant funds. Land of Sky, which is a multi-county, local government, planning and development organization, has offered to audit two of the City's water treatment plants (North Fork and Mills River) as well as three pump stations (South Buncombe Pump Station, Enka Lake Pump Station, and Beaverdam Pump Station). These sites were prioritized by staff due to their energy intensity and equipment that potentially needs to be replaced or repaired. The City and Land of Sky desire to enter into an interlocal agreement in order to conduct these energy audits.

Pros:

- Supports Resolution 11-77, reducing the City's municipal carbon footprint
- Service is offered at no cost to the City
- May lead to procedures and projects that reduce Water Resources operating costs

Cons:

- None identified

As noted above, there is no cost to the City. Land of Sky is utilizing grant funds to conduct the audits.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into an interlocal agreement with Land of Sky to conduct energy audits on select water resource sites.

RESOLUTION BOOK NO. 39 - PAGE 452

J. ORDINANCE NO. 4674 - BUDGET AMENDMENT TO TRANSFER FUNDS FOR THE RESTORATION OF THE TWO TROLLEY HOUSES AND ONE ROCK WALL STRUCTURES AT E.W. GROVE PARK

Summary: The consideration of a technical budget amendment in the amount of $81,700 to transfer funds from Parks and Recreation's deferred maintenance operating budget in the General Fund to the General Capital Projects Fund for the restoration of the two trolley houses and one rock wall structures at E.W. Grove Park.

The Parks and Recreation Department deferred maintenance cost center in the General Fund is used for minor repairs and improvements for parks and recreation facilities. There are items budgeted there in the current fiscal year that relate to larger projects that should be accounted for in the General Capital Projects Fund. These items include $81,700 for historic restoration assessment, construction observation, and restoration construction of the trolley houses and rock wall at E.W. Grove Park.

Staff is requesting City Council to approve a technical budget amendment to establish a budget of $81,700 in the General Capital Projects Fund from the Parks and Recreation Department deferred maintenance budget.

Pro:

- This action will allow each capital project to reflect all the expenditures related to the construction and design of the project.

Con:

- None

The technical budget is to complete the design and construction of the improvements to the trolley houses and rock wall at E.W. Grove Park. The project budget will authorize expenditures up to $81,700. These expenditures have been fully funded through the transfer of funds from the Parks and Recreation Department deferred maintenance operating budget.

City staff recommends City Council approve the technical budget amendment authorizing the Interim City Manager to establish a budget for $81,700 to support the improvements to the trolley houses and rock wall at E.W. Grove Park.

Ms. Suzanne Escovitz spoke in support of this project.

ORDINANCE BOOK NO. 32 - PAGE 90

K. RESOLUTION NO. 18-130 - RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE THE THIRD-YEAR OPTION TO RENEW THE CONTRACT WITH LOCUST PROPERTY MANAGEMENT, LLC FOR GROUNDS MAINTENANCE SERVICES IN VARIOUS PARKS, GREENWAYS AND FACILITIES IN THE EAST TWO DISTRICT IN ASHEVILLE

Summary: The consideration of a resolution authorizing the City Manager to exercise the third-year option to renew the contract with Locust Property Management, LLC in the amount of $31,300 for grounds maintenance services in various parks, greenways and facilities in the east two district in Asheville in the cumulative amount of $93,900.

The Parks and Recreation Department contracts for ground maintenance services in various parks, greenways and facilities in the City's park system. The City entered into a one-year contract with Locust Property Management, LLC. in Fiscal Year (FY) 2016-17 in the amount of $31,300 for ground maintenance service in the east two district, and exercised the option to renew for a second one-year contract in FY17-18 with the option to renew for a third year based on contractor performance. By electing to exercise the third year in the amount of $31,300 increases the cumulative amount of the contract to $93,900 an amount which requires City Council consideration and approval.

Pro:
- Supports the efficient delivery of core park maintenance services.

Con:
- None

The $31,300 funding required to support this ground maintenance contract is budgeted in the FY 2018-2019 Parks and Recreation Department operating budget as part of the Parks Maintenance division budget.

Staff recommends City Council to adopt a resolution authorizing the City Manager to exercise the third-year option to renew the contract with Locust Property Management, LLC. in the amount of $31,300 for grounds maintenance services in various parks, greenways and facilities in the east two district in Asheville in the cumulative amount of $93,900.

RESOLUTION BOOK NO. 39 - PAGE 453

L. RESOLUTION NO. 18-131- RESOLUTION SETTING A PUBLIC HEARING ON JULY 24, 2018, FOR AN ECONOMIC INCENTIVE GRANT TO GENERAL ELECTRIC CORPORATION AND UNISON ENGINE COMPONENTS INC.

Summary: The consideration of a resolution authorizing a public hearing to be held on July 24, 2018, to consider an economic development incentive grant for General Electric Corporation and Unison Engine Components, Inc.

City of Asheville has been requested by Asheville-Buncombe EDC for consideration of a performance based incentive grant under the City Economic Development policy to an existing Asheville manufacturing facility, operated by General Electric Corporation ("GE"), and Unison Engine Components, Inc. ("Unison"). The purpose of the City's participation would be to induce GE to make additional investments in the City for expenditures to acquire and install machinery/equipment, make facility improvements which increase the tax value as determined by the Buncombe County Tax Department in the amount of $105,000,000, and create 131 new median wage jobs with benefits. The City of Asheville is considering offering a performance based grant in an amount not to exceed $900,960. North Carolina state law requires a public hearing be held before an incentive grant can be officially awarded.

Pros:

- Performance driven grant that is distributed after job and investment is achieved or mutually agreed performance benchmarks are established;
- Supports job creation and capital investment in Asheville;
- Supports regional and state cooperation in the project.

Con:

- Grant is formulated based on use of a portion of the new incremental increase from property tax revenue generated by the project for a 5 year period.

The project has an overall positive fiscal impact on tax revenues received by the city. Initially (during the grant period), the City will receive 50% of the new incremental property tax revenues, as well as the existing property tax revenues from the project. After the grant period of 5 years, the City will henceforth receive 100% capture of all city taxes.

City staff recommends Council approve a resolution authorizing a public hearing to be held on July 24, 2018, on an economic development incentive grant agreement to support existing industry expansion of GE/Unison.

RESOLUTION BOOK NO. 39 - PAGE 454

M. RESOLUTION NO. 18-132 - RESOLUTION AUTHORIZING AN AMENDMENT TO THE ECONOMIC DEVELOPMENT AND PURCHASE OPTION AGREEMENTS FOR WHITE LABS LOCATED AT 172 AND 174 S. CHARLOTTE STREET

Summary: The consideration of a resolution approving amendments to the economic development agreement and option agreement with White Labs, Inc. regarding 172 & 174 S. Charlotte Street to reflect a new option renewal period and that additional economic development activities may take place at either 172 S. Charlotte, 174 S. Charlotte or a combination of both.

In January 2015, City Council authorized an economic development incentive agreement with White Labs Inc., a world leader in fermentation sciences for the brewing and winemaking industries, for a new Asheville facility. This agreement included a five year lease of a City-owned building at 172 S. Charlotte with an option to purchase at the end of the lease term, and an option to purchase the adjacent City-owned property at 174 S. Charlotte Street. Since that time, White Labs has invested over $8.1 Million in machinery, equipment and facility improvements on

City-owned property at 172 S. Charlotte Street and has created 37 new jobs. White Labs has until 2020 to meet all the requirements of the economic development agreement and both job creation and capital investments are on target or exceeding the City's requirements as stated the economic development agreement.

The option agreement on the adjacent site at 174 S. Charlotte Street has now expired and White Labs has requested that the option be renewed for an additional one-year period for a non-refundable fee of ten thousand dollars ($10,000) applicable to the purchase price. The existing terms of the option state that White Labs has the exclusive option to purchase the adjacent 1.67 acre City-owned parcel for 80% of fair market value if substantial additional improvements and jobs are committed to by White Labs, or for fair market value if no additional economic benefits are committed. In order to qualify for the discounted land price, White Labs must enter into another economic development incentive agreement with at least an additional investment of $8.1 Million in improvements and the creation of at least 65 additional median wage jobs. White Labs is requesting that this term is clarified so that the discounted land price can be invoked if additional jobs and improvements are created at 172 S. Charlotte, 174 S. Charlotte or combination of both. As currently written, the Option requires that such improvements and jobs occur only on the 174 S. Charlotte Street property. If approved, the Option will be extended for an additional year and will expire on May 1, 2019 unless exercised by White Labs.

Pros:

- Supports continued job creation and capital investment in Asheville
- If exercised, the sale of the property will activate an underperforming City asset and convert the asset into a taxable property
- Supports development of an identified economic cluster in the City

Con:

- None noted.

An additional non-refundable option fee of $10,000 will be paid upon execution of the amendment and will benefit the City's General Fund. If the Option is exercised, then the City will receive the fair market value of the property or 80% of fair market value plus economic development impact, which will benefit the General Fund.

City staff recommends Council approve a resolution authorizing an amendment of the economic development agreement and option to purchase between the City and White Labs.

RESOLUTION BOOK NO. 39 - PAGE 455

N. MOTION SETTING A SPECIAL MEETING TO HOLD A PUBLIC HEARING ON JULY 2, 2018, AT 5:00 P.M. IN THE COUNCIL CHAMBER TO CONSIDER AN ORDINANCE AMENDING THE WATER RESOURCES SYSTEM MAINTENANCE AND CAPITAL FEE FOR 2018-19 FISCAL YEAR

RESOLUTION NO. 18-133 - RESOLUTION AUTHORIZING THE CREATION OF A CAPITAL RESERVE FUND FOR WATER DEVELOPMENT FEES

Summary: The consideration of: 1) a motion setting a special meeting to hold a public hearing on July 2, 2018, at 5:00 p.m. in the Council Chamber to consider an ordinance amending the Fiscal Year (FY) 2018-19 fees and charges to adopt the Water Resources Department (WRD) "System Maintenance and Capital Fees" and rename it to "Development Fees" and 2) a resolution authorizing the creation of a capital reserve fund to account for all proceeds received from the Development Fees.

System development fees are one-time charges assessed to new water customers for their use of system capacity and serve as an equitable method by which to recover up-front system capacity costs from those using the capacity. North Carolina General Statute 162A Article 8 ("Article 8") provides for the uniform authority to implement system development fees for public water systems in North Carolina, and was recently passed by the North Carolina General Assembly and signed into law on July 20, 2017.

North Carolina General Statute 162A Article 8 ("Article 8") also provides that all proceeds from these fees be accounted for in a capital reserve fund. Therefore, staff is requesting Council approval of a resolution establishing a capital reserve fund (CRF) to meet this statutory requirement. The City may not expend monies directly out of a CRF. Instead, Council must amend the CRF to withdraw the monies and then amend the budget ordinance or project ordinance to recognize the revenue and authorize its expenditure for specific water projects or debt service payments associated with these projects.

Raftelis Financial Consultants, Inc. (RFC) completed the required analysis for establishing system developments fees and a public hearing will be held on July 2, 2018, to adopt the analysis and fees.

Pro:

- Establishes a Capital Reserve Fund to meet statutory requirements.

Con:

- Failure to comply with the conditions and limitations of NCGS 162A Article 8 – "System Development Fees" will constitute a violation of the State statute.

The proposed fund is estimated to capture new revenue of $100,000. As noted above, this capital reserve fund will be used to pay debt service on past water projects or to pay for current and/or future capital projects.

City staff recommends City Council adopt: 1) a motion setting a special meeting for a public hearing on July 2, 2018, at 5:00 p.m. in the Council Chamber to consider an ordinance amending the Fiscal Year 2018-19 fees and charges to adopt the Water Resources Department "System Maintenance and Capital Fees" and rename it to "Development Fees, and 2) a resolution authorizing the creation of a capital reserve fund to account for all proceeds received from the Development Fees.

RESOLUTION BOOK NO. 39 - PAGE 456

O. RESOLUTION NO. 18-134 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO A PROJECT PARTNERSHIP AGREEMENT WITH THE US ARMY CORPS OF ENGINEERS FOR THE SWANNANOA RIVER FLOOD RISK MANAGEMENT PROJECT

Summary: The consideration of resolution authorizing the City Manager to enter into a Project Partnership Agreement with the US Army Corps of Engineers for the design and construction of the recommended Swannanoa River Watershed Flood Risk Management Project.

The Hurricane Recovery Act of 2005 (Senate Bill 7) allocated funds for planning and implementation of projects to aid in flood damage reduction for North Carolina communities hardest hit by the 2004 hurricane season. The Biltmore Village area of the City of Asheville (within the Swannanoa River Watershed) was named as a recipient of this funding. On May 12, 2009 City Council authorized the City Manager to enter into a Federal Cost Share Agreement,

between the City of Asheville and the US Army Corps of Engineers (Corps) for the evaluation of flood mitigation projects within the Swannanoa Basin.

The goal was to identify potential projects throughout the Swannanoa Basin that would reduce flooding. This process identified 48 potential flood reduction projects. Through the detailed evaluation, which included a thorough analysis of cost of the projects versus the benefit provided through flood reduction, the 48 measures were narrowed down to 7 structural measures which included:

1. Biltmore Bank Cut
2. Sweeten Creek Detention Structure
3. Dry Dam at Warren Wilson
4. Lake Craig Dam Rehabilitation or Replacement
5. Black Mountain Levee/Floodwall
6. Bee Tree Dam Modification
7. I-40 Disposal Area Removal

Through additional analysis of the 7 measures, 6 of the measures did not have a positive benefit/cost ratio which is necessary to continue in the Corps process. The Corps has finalized the Section 205, Flood Risk Management Detailed Project Report and Environmental Assessment in which the Corps recommended one project for implementation. The project selected by the Corps is the removal of the floodplain fill both upstream and downstream of the Biltmore Avenue Bridge.

City Staff, along with the Army Corps of Engineers, met with the Flood Damage Reduction Task Force to provide the recommendations from the Corps. The Flood Damage Reduction Task Force was excited to see a project moving forward.

The total project cost is estimated to be $6.4 million dollars with the cost split being a maximum of 65% coming from the Corps of Engineers and a minimum of 35% from the local partner, which is the City ("Non-Federal Sponsor"). The estimated cost to the City (35% of the project cost) is $2,238,950 which would include the costs to purchase and/or acquire necessary property, any utility relocations and staff time (i.e. "in-kind contribution"). If the cost of acquiring properties, utility relocations, etc are above the Corps appraised value, the City could be responsible for a maximum cost of up to 50%. If the cost to the city increases, City Staff will acquire necessary authority from City Council with details of any increase. The Corps of Engineers has included a contingency per their estimating standards in the cost estimate.

There are two property owners within the project area, who as part of the feasibility stage of the project, City Staff acquired temporary easements; for geotechnical exploration. The property owners are aware of the project. It will be the City's responsibility to acquire the necessary property in order for the project to move forward. The specific property needed will be determined from the detailed design by the Corps of Engineers.

City Staff presented the Project Partnership Agreement to the Finance Committee on May 22, 2018, and received approval to move the project forward to City Council.

City staff is requesting Council to allow the City Manager to enter into a Project Partnership Agreement (PPA) with the Corps of Engineers for this project's continuation. Once the PPA is executed, the Corps will begin design later this summer. Design is anticipated to take approximately 18 months. The Corps will ask the City to acquire the necessary real estate for the project. Construction is anticipated to begin in 2021.

Pros:

- Flood reduction of approximately 0.5 feet during the 100 year flood event will be achieved through the implementation of this project.
- The City will be able to maximize funds available through the partnership with the Corps of Engineers.
- Flood reduction benefits from this project will be ongoing for the area.
- Citizens in the area are asking for flood mitigation projects to be constructed.
- The City will be credited for work in kind from staff time associated with the project.
- The Design of the project will begin later this year.

Cons:

- The City would be responsible for a minimum of 35% of the cost combined for design, rights of way and construction.
- The construction process will begin in 2021.

The City will be responsible for $2,238,950 which will be allocated from the Stormwater Utility Fund's Capital Improvement Program (CIP). The funding allocations will be spread out over multiple fiscal years. The City will be able to utilize approximately $965,000 from funds available from the Hurricane Recovery Act of 2005 through the North Carolina Division of Water Resources.

Staff recommends City Council approve a resolution authorizing the City Manager to enter into the Project Partnership Agreement and execute any modifications to the agreement necessary with the Army Corps of Engineers which will allow the partnership to continue the implementation of the flood mitigation project which will reduce damages from flooding in Biltmore Village.

RESOLUTION BOOK NO. 39 - PAGE 457

P. RESOLUTION NO. 18-135 - RESOLUTION AUTHORIZING THE SOLE SOURCE PURCHASE OF CLARKE POWER SERVICES INC. HYBRID BATTERY PACKS FOR TRANSIT BUSES

Summary: The consideration of a resolution supporting the sole source purchase of hybrid battery packs from Clarke Power Services Inc. to replace needed batteries for midlife service of hybrid vehicles and to comply with the Federal Transit Administration's Bus & Bus Facilities Infrastructure Investment Program and the Urbanized Area Formula Program provisions.

In June 2017, the City's Transportation Department was able to repurpose $200,972 under the Fiscal Year (FY) 2009 Section 5307 Urbanized Area Formula Program to purchase hybrid battery packs. This grant, combined with Federal Transit Administration's (FTA) FY 2018 Section 5339 Bus & Bus Facilities Infrastructure Investment Program that is now intended for transit capital purchases, will allow the City to purchase seven hybrid battery packs. According to ART maintenance staff, Clarke Power Services Inc. is the only provider of batteries that can serve Gillig hybrid buses.

Pros:

- Clarke Power Services Inc. is a leading manufacturers of hybrid battery packs
- This action ensures compliance with FTA's Bus & Bus Facilities Infrastructure Investment Program and the Urbanized Area Formula Program provisions.

Con:

- None

On February 13, 2018, City Council approved a budget amendment for the purchase of hybrid battery packs. The current action is administerial and does not affect the budget.

Staff recommends that City Council adopt a resolution supporting the sole source purchase of hybrid battery packs from Clarke Power Services Inc. to replace needed batteries and to comply with FTA's Bus & Bus Facilities Infrastructure Investment Program and the Urbanized Area Formula Program provisions.

RESOLUTION BOOK NO. 39 - PAGE 458

Q. RESOLUTION NO. 18-136 - RESOLUTION AUTHORIZING THE CITY MANAGER TO PARTICIPATE IN DUKE ENERGY PROGRESS' SMALL BUSINESS ENERGY SAVERS PROGRAM AND TO ENTER INTO A SOLE SOURCE CONTRACT FOR THE PURPOSE AND INSTALLATION OF ENERGY EFFICIENCY LIGHTING IN THE FLEET MAINTENANCE GARAGE AT 173 S. CHARLOTTE STREET

Summary: The consideration of a resolution authorizing the City Manager to participate in Duke Energy Progress' Small Business Energy Saver Program and to enter into sole source provider contract for the purchase and installation of energy efficient lighting in the Fleet Maintenance Garage at 173 S Charlotte Street.

The electric utility Duke Energy Progress' Small Business Energy Saver (SBES) Program pays for energy efficiency upgrades up front, and covers up to 80% of the total project costs.

The Fleet Maintenance garage facility provides an opportunity to utilize the SBES program while yielding an estimated $5,448.83 in annual energy savings. In terms of carbon reductions, the project will yield 46.5 MTCO2e towards our annual 4% carbon reduction goal.

The Office of Sustainability has analyzed the potential costs for the project and determined that the SBES Program is a unique opportunity to leverage significant up front capital funding from Duke Energy Progress. The total cost to the City would be $25,762.56, however, utilizing Duke Energy Progress' utility incentive program, the project offsets the cost by 54%. This cost includes parts, labor and project management. The total cost of the project is $10,694.95 and will be funded from the green revolving funds that are part of the Sustainability FY 2018-19 Budget. While this property has been identified to be redeveloped for affordable housing, it is unlikely that this facility would be demolished prior to the 22 month payback period as a new location for the City's fleet has not yet been identified.

The SBES Program is run through a single authorized contractor, Lime Energy. In order to participate in the SBES Program, the City needs to pursue a single source provider contract with Duke Energy Progress / Lime Energy. See Exhibit A and Exhibit B. This is allowable as per N.C.G.S. 143-129(e)(6) which states that "the governing body of a political subdivision of the state shall approve the purchase of apparatus, supplies, material or equipment without formal bidding when (i) performance or price competition for a product are not available; (ii) a needed product is available from only one source of supply; or (iii) standardization or compatibility is the overriding consideration."

These energy efficiency upgrade supports City Council's 2036 Vision through a Clean and Healthy Environment and Smart City; additionally, the scope of work supports Resolution 07-90, establishing energy conservation goals and benchmarks as well as Resolution 11-77, increasing the municipal carbon footprint reduction goal to 4% every year.

Pros:

- Supports Resolution 11-77, reducing the City's municipal carbon footprint
- Leverages a DEP incentive which contributes $13,799.28 to the project cost
- Estimated to reduce operating costs by $5,448.83 annually and energy consumption in one of the City's top 20 most energy intensive buildings
- Payback period is less than 2 years (22 months)
- Will improve work environment for mechanics and technicians in the Fleet Management facility
- LED light installation may be salvaged, or reused, if Fleet is located at a future date

Cons:

- The facility is at the end of its useful life
- This property has been identified for redevelopment of affordable housing.

As noted above the total cost of the project is $10,694.95 with funding utilized from the green savings that are part of the Sustainability budget. Once complete, the upgrade will produce an estimate of $5,448.83 savings of energy costs per year.

Staff recommends City Council adopt a resolution authorizing the City Manager to enter into a sole source contract to purchase and install energy efficiency lighting as part of Duke Energy Progress' Small Business Energy Savers Program.

RESOLUTION BOOK NO. 39 - PAGE 459

R. RESOLUTION NO. 18-137 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A GRANT MODIFICATION AGREEMENT WITH THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FOR RIVERFRONT DESTINATION DEVELOPMENT GRANT

RESOLUTION NO. 18-138 - RESOLUTION AUTHORIZING THE CITY MANAGER TO TERMINATE THE GRANT AGREEMENT WITH THE BUNCOMBE COUNTY TOURISM DEVELOPMENT AUTHORITY FOR THE RIVERFRONT DESTINATION DEVELOPMENT 2.0 GRANT

Summary: The consideration of two resolutions authorizing the City Manager to sign grant amendments with Buncombe County Tourism Development Authority (BCTDA) for the purposes of consolidating grants and adjusting the scope of the grants to align with the current construction funding.

In February 2015, Council approved Resolution No. 15-30 authorizing the City Manager to sign a BCTDA grant agreement for $1.8 million in grant funds to help construct a portion of the Riverfront Destination Development Projects.

In December, 2016 Council approved Resolution No. 16-266 authorizing the City Manager to sign a separate BCTDA grant agreement for $700,000 for the French Broad River Greenway West as part of the Riverfront Destination Development Project 2.0.

In June, 2017 Council approved Resolution No. 17-137 which stated in part that the scope of the TIGER VI project needs to be modified due to the increase in costs, and as such the scope of the French Broad River Greenway West would be removed from TIGER VI and phased for a later date.

In January, 2018 Council approved Resolution No. 18-22 authorizing the City Manager to accept an additional $4.6 million in grant funds from the BCTDA to complete the Lyman street work for the RADTIP project, which is part of the Riverfront Destination Development.

Modifications of the above referenced BCTDA Grants are necessary in order to bring the scope of the grants into compliance with the Council approved Riverfront Destination Development funded construction projects. In addition, staff is also recommending that the grants be consolidated into a single BCTDA grant for clarity in reporting and future BCTDA invoicing.

Council approval is required to authorize the City Manager to sign these grant modifications. These grant modifications are outlined in two separate resolutions: (1) amendments to the BCTDA Riverfront Destination Development grant which aligns the scope of the grant to the scope of the funded construction projects. It also adds increases the funding of this grant by $4.6 million dollars per Resolution No. 18-22 as well as transfers $700,000 from the BCTDA Riverfront Destination Development 2.0; and (2) termination of the BCTDA Riverfront Destination Development 2.0 grant since the full $700,000 in grant funding was transferred to the BCTDA Riverfront Destination Development grant.

Pros:

- City Council has identified implementation of riverfront redevelopment capital investments as a key strategic goal for the city through the creation of Innovation District designation for the greater River Arts District;
- Modification of these BCTDA grant scopes is required to bring the City into compliance and align the grants with the funded construction projects.
- Consolidation of the multiple grants into a single $7.1 million grant will simplify the tracking, reporting and future invoicing.

Con:

- No cons are identified.

Funding from these identified BCTDA grants total $7.1 million dollars and have already been budgeted and approved by City Council. There is no loss of funding with these grant modifications, and therefore no fiscal impact to the already approved budgets.

City staff recommends City Council authorize the City Manager to sign the grant modifications with BCTDA.

RESOLUTION NO. 18-137 - RESOLUTION BOOK NO. 39 - PAGE 460
RESOLUTION NO. 18-138 - RESOLUTION BOOK NO. 39 - PAGE 461

S. RESOLUTION NO. 18-139 - RESOLUTION AUTHORIZING THE CITY MANAGER TO SIGN A LEASE AGREEMENT WITH WEST ASHEVILLE BAPTIST CHURCH FOR A PARKING LOT LOCATED AT REDFERN STREET AND LYNNDALE AVENUE

Summary: The consideration of a resolution authorizing the City Manager to sign a lease agreement with West Asheville Baptist Church that will allow the Adam District of the Asheville Police Department (APD) to use the parking lot owned by the church at the intersection of Redfern Street and Lynndale Avenue as needed to park police vehicles and vehicles owned by police officers working in the district.

West Asheville Baptist Church has been allowing police vehicles to be parked in their overflow parking lot for roughly ten years (Property ID 9628-95-7436). APD has been allowed to use the parking lot free of charge and they have had almost exclusive use of the approximately 20,900 square foot parking lot during that time. Two or three times a year, the church uses the lot

for festivals and special events, and it is not needed for regular Sunday services. The condition of the parking lot has deteriorated over time. It was paved many years ago, but has not been maintained by either APD or West Asheville Baptist Church.

The City would like to continue to utilize this property for APD parking and wishes to enter into a formal lease agreement for this use. The initial lease term will be for five years with one four-year renewal. The Church has asked that the City reimburse them for the repaving of the parking lot as compensation for the lease of the property. This one-time lump sum payment would be in lieu of regularly scheduled rent payments. The Church would be responsible for procuring and contracting the work to be performed by a qualified paving contractor on Church-owned property. The City's reimbursement would be capped at $50,000 and this represents the compensation for the lease. Over the term of the lease, this fee appears to be fair, considering the demand for exclusive, reliable parking in West Asheville. The funds are budgeted by APD for the fiscal year that begins July 1, 2018.

Pros:

- The lump sum payment appears to be cost effective for APD to secure parking services for its personnel.
- APD will continue to be able to use a parking lot that is easily accessible to the district station.

Cons:

- None noted.

The Asheville Police Department will expend up to $50,000 in lease compensation out of its General Fund budget allocation for Fiscal Year 2018-19.

Staff recommends City Council adopt a resolution authorizing the City Manager to sign this Lease Agreement to formalize the relationship between APD and the West Asheville Baptist Church to ensure that the parking lot will be available for police usage.

RESOLUTION BOOK NO. 39 -PAGE 462

T. RESOLUTION NO. 18-140 - RESOLUTION MAKING PROVISIONS FOR THE POSSESSION AND CONSUMPTION OF MALT BEVERAGES AND/OR UNFORTIFIED WINE AT THE BIG CRAFTY EVENT

Summary: The consideration of a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at The Big Crafty.

- Asheville Area Arts Council has requested through the City of Asheville Community & Economic Development Department that City Council permit them to serve beer and/or unfortified wine at The Big Crafty and allow for consumption at this event.

  The Big Crafty will be held on Sunday, July 15, 2018 from 12:00 p.m. to 7:30 p.m. within the boundaries of Pack Square Park as per the area limits referenced on the accompanying site map.

Pro:

- Allows fundraising opportunities for Asheville Area Arts Council

Con:

- Potential for public safety issues

Staff recommends City Council adopt a resolution authorizing the City Manager to approve a resolution making provisions for the possession and consumption of malt beverages and/or unfortified wine at The Big Crafty.

RESOLUTION BOOK NO. 39 - PAGE 463

Mayor Manheimer asked for public comments on any item on the Consent Agenda, but received none.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolutions and ordinances on the Consent Agenda and they would not be read.

Councilman Kapoor moved for the adoption of the Consent Agenda. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

III. PRESENTATIONS & REPORTS:

A. UPDATE ON ASHEVILLE POLICE DEPARTMENT OPEN DATA

Assistant to the City Manager Jaime Matthews said that the goals for the Asheville Police Department (APD) Open data is (1) consistent with City Council's Open Data Policy; (2) provide ample safeguards for the privacy of victims, officers, residents and the integrity of criminal investigations; and (3) increase trust between the city and the community that it serves. She then reviewed the APD open data request. Other dataset updates include (1) use of force data and citizen complaint data - APD is working with the vendor that manages the data for release; (2) emergency calls and citation and arrest data - Information Technology Department and APD are working with Buncombe County to release data; and (3) demographics information on all City employees - review with the Human Resources Department and Equity Office.

B. I-26 CONNECTOR UPDATE

Transportation Director Ken Putnam outlined the various interactions since the last update to Council. A public hearing is scheduled for the late fall of 2018. The Record of Decision is planned for the spring of 2019; and the design build process is scheduled for 2020. The consultant is preparing the draft 6-20-18 summary of recommendations. That will be sent to the N.C. Dept. of Transportation (NCDOT) in early July 2018. There have been document commitments between the NCDOT and the City to move forward to design build process. There also has been review of the tunneling option. They are finalizing greenway recommendations and Council will be appointing an Aesthetics Committee, to which only 6 people applied for the Committee. The consultant and the NCDOT will work with the Aesthetics Committee.

Councilwoman Mayfield said that they thought they had an understanding with the NCDOT that the City would complete their negotiations/discussions and all comments would be reflected in the final EIS. However, the NCDOT is planning to issue the final EIS before our negotiations/discussions are complete. We are not finished talking with the NCDOT about their timeline.

IV. PUBLIC HEARINGS:

A. PUBLIC HEARING REGARDING THE PROPOSED CONSOLIDATED ACTION PLAN FOR FISCAL YEAR 2018-19, WHICH SETS OUT THE PROPOSED USE OF FEDERAL COMMUNITY DEVELOPMENT BLOCK GRANT AND HOME INVESTMENT PARTNERSHIP ACT FUNDS FOR THE COMING FISCAL YEAR

RESOLUTION NO. 18-141 - RESOLUTION AUTHORIZING SUBMISSION OF THE CITY'S CONSOLIDATED ANNUAL ACTION PLAN FOR 2018-19 TO THE U.S. DEPT. OF HOUSING & URBAN DEVELOPMENT

Community Development Director Heather Dillashaw said that this is the consideration of a public hearing and resolution authorizing the City Manager to submit the 2018-19 Consolidated Action Plan for CDBG & HOME programs to the US Department of Housing and Urban Development and to sign all documents necessary to implement the plan. This public hearing was advertised on June 8 and 15, 2018.

The City will have $1,328,798 in CDBG funds and $1,879,467 in HOME funds available for the fiscal year beginning July 1, 2018. The City's Housing and Community Development Committee has made recommendations for the use of CDBG funds, which must be used in housing or community development programs in Asheville, and the Asheville Regional Housing Consortium has recommended uses for the HOME funds, which must be used for housing programs within the four-county Consortium area (Buncombe, Henderson, Madison, and Transylvania counties).

Allocations are consistent with the Consolidated Strategic Housing & Community Plan for 2015-2019, adopted by City Council April 28, 2015.

Pros:

- Approval of the Action Plan paves the way for the receipts of over $3,200,000 of HUD funding to the City and region, which will be used to create affordable housing and create jobs.
- HUD funding will leverage approximately $45,000,000 of additional funding for these projects.
- Reflects the carefully considered recommendations of the City's Housing & Community Development Committee and the Asheville Regional Housing Consortium.

Con:

- It is not possible to fund all the applications received, and most of those funded will receive less than the amount requested.

The Action Plan is fully funded from federal CDBG & HOME entitlement grants, unused funds from previous completed projects, and estimated program income. Staff costs to administer the program are also fully paid from federal sources. The funded programs will provide new construction and other economic activity in the City and region, creating and sustaining employment. The FY 2018-19 budget associated with the Action Plan is included for adoption in the Annual Budget Ordinance that City Council will also be voting on at its June 19, 2018, meeting.

Staff recommends approval of the resolution authorizing submission of the City's Consolidated Annual Action Plan for 2018-19 to the U. S. Dept. of Housing and Urban Development and authorizing the City Manager to sign all contracts or agreements required for the implementation of the Consolidated Annual Action Plan.

Mayor Manheimer opened the public hearing at 5:30 p.m., and when no one spoke, she closed the public hearing at 5:30 p.m.

Councilwoman Mayfield spoke about the great work these organizations are performing.

Mayor Manheimer said that members of Council have previously received a copy of the resolution and it would not be read.

Councilwoman Mayfield moved for the adoption of Resolution No. 18-141. This motion was seconded by Councilman Young and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 466

B. PUBLIC HEARING TO CONSIDER A LAND USE INCENTIVE GRANT WITH SWEETGRASS APARTMENTS, MADISON CAPITAL GROUP

RESOLUTION NO. 18-142 - RESOLUTION AUTHORIZING THE CITY MANAGER TO ENTER INTO AN AGREEMENT WITH SWEETGRASS APARTMENTS, MADISON CAPITAL GROUP, FOR A LAND USE INCENTIVE GRANT

Community Development Director Heather Dillashaw said that this is the consideration of a resolution approving a Land Use Incentive Grant Application for Sweetgrass Apartments, by Madison Capital Group (Developer).

The Housing and Community Development Committee reviewed and recommended a Land Use Incentive Grant for Sweetgrass Apartments, in it's April 17, 2018, meeting and a revised report on May 8, 2018. Madison Capital Group, represented by Hobie Orton, is developing a 11.9 acre site in South Asheville, located at 39 Bradley Branch Road, Asheville NC. The project will consist of 255 residential rental apartments, of which 10% (26) will be made affordable for 15 years per LUIG agreement. The site is within 0.25 miles of transit, 0.25 miles to amenities, and with access to businesses along the Airport Road corridor. The developer estimates a total development cost of $38,000,000 and an estimated tax value of $50,300,000 post completion.

The project, as presented to staff, appears to meet the following Eligibility Requirements,

- The proposed development consists of three or more dwelling units for rent;
- At least 10% of the units will meet the affordability standards set by the City of Asheville for households earning 80% or less of the Area Median Income.
- The affordable units will be affordable to and leased to income-eligible households for at least 15 years.
- The proposed development must be located inside the city limits.
- The proposed development must be located to provide residents convenient access to jobs, schools and services

Scoring

Affordable Rental Housing - The proposed project will provide twenty-six (26) units affordable to households at 80% or less of median income; 10% of total units. Under this category, the project qualifies and received a recommendation of 20 points.

Long term affordability - The proposed project will be committed to serving households at the designated rental rates for the minimum period of fifteen (15) years. This qualifies and received 0 points.

Superior locational efficiency - The proposed project is within .5 miles of public amenity in Aldi's grocery (5 points). The applicant has also made a case for multiple job centers within 1

mile to the site (i.e. Asheville Regional Airport, Progress Energy, Park Ridge Hospital, Sierra Nevada Brewery, Linamar and other manufacturing facilities - 5 points), and proximity to existing bus-stop (within 0.25 miles) served by a 90 minute bus line (10 points). The existing policy defines "Employment Centers" as Downtown, Mission Hospital, and Biltmore Town Square and projects must be located within 1 mile of these centers. The applicant has a made a case for proximity to job centers/resources within 1 mile and ½ mile from the project site. No specifics on number of jobs have been provided. The policy requirements for transit points are bus stops within 0.25 mile to the project (which this project qualifies) and with a 30 minute bus service (which the project does not have). Currently the City has 1 bus line with a 30 minute service (N3). The currently policy does permit the applicant to make a case for these points that fall outside of the policy definitions. The project qualifies for 5 points in this category (per policy), the applicant requests 20 points, and HCD Committee recommends 15 points.

Brownfield Development - The proposed project will receive the North Carolina Brownfield Redevelopment grant, and the applicant has asked to extend the Land Use Incentive Grant by 1 year in order to take advantage of both grants. This does not qualify the project for points, but the applicant requests 10 points and HCD Committee recommends 5 points.

Per current policy, staff has scored the project with 25 points, which qualifies the project for two-and-a-half years (2.5) of the Land Use Incentive Grant. The applicant requests 50 points for the transit stop (10 pts.), proximity to jobs (5 pts.), and brownfield development (10 pts.), which is a 5 year Land Use Incentive Grant. The HCD Committee recommends 40 points for this project, which is a 4 year Land Use Incentive Grant.

Estimated value of Land Use Incentive: The current estimated assessment value for this property is $1,200,000. The developer's estimate of improvement value is $38,000,000 with a completed estimated project taxable value of $50,300,000. The annual estimated city tax post completion, based on the developer's estimate of value, is $215,737, which gives the project and estimated annual and eligible tax value of $210,590. Over a 4 year period, if approved at that level, the total estimated Land Use Incentive Grant would be $842,360, the exact amount to be determined by the length in years, of the grant award, and the actual assessed value of the development upon completion. Based on these estimates, the subsidy per affordable unit would be $32,398. The subsidy amount per affordable unit/year of affordability would be $2,160.

The estimated amount of fees payable for Zoning Permit, Building Permit, Driveway Permit, Grading Permit, Stormwater Plan Review Fee, and Water Service Connection Fee is $40,062. The value of each 10% of eligible fee rebates would be $4,006. The exact amount would be determined by the percentage of fee rebate awarded as part of the Land Use Incentive Grant. If approved at the 40 point level, the fee rebate would be approximately $16,024.

The total estimated Land Use Incentive Grant benefit over 4 years is $858,384, which equals $33,015 subsidy per affordable unit, and $2,200 per unit per year of affordability.

HCD Committee requests that City Council consider the Land Use Incentive Grant request as detailed above with a 4 year benefit.

Mayor Manheimer opened the public hearing at 5:35 p.m., and when no one spoke, she closed the public hearing at 5:35 p.m.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Vice-Mayor Wisler moved for the adoption of Resolution No. 18-142. This motion was seconded by Councilwoman Mayfield and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 467

C. PUBLIC HEARING RELATIVE TO REZONING 339 WEST HAYWOOD STREET AND ADJACENT PARCELS FROM NEIGHBORHOOD BUSINESS DISTRICT TO COMMUNITY BUSINESS I DISTRICT

ORDINANCE NO. 4675 - ORDINANCE TO REZONE 339 WEST HAYWOOD STREET AND ADJACENT PARCELS FROM NEIGHBORHOOD BUSINESS DISTRICT TO COMMUNITY BUSINESS I DISTRICT

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to rezone 339 West Haywood Street and adjacent parcels from Neighborhood Business District to Community Business I District. This public hearing was advertised on June 8 and 15, 2018.

The subject property is 1.23 acres and is currently undeveloped. The property has frontage on West Haywood Street and the rear of the property to the north is adjacent to the ROW for I-240 (NCDOT property). The western edge also borders along NCDOT ROW.

On the easternmost parcel, addressed as 339 W. Haywood Street, there is an existing billboard sign which has a viewshed and vegetation easement to the west of the sign. To the east of the billboard, there is also a utility easement. The applicant has estimated that the billboard and easements reduce the developable land to approximately one acre.

The applicant has requested that the zoning be changed from Neighborhood Business (NB) to Community Business I (CBI) for the purpose of developing single family lots and potentially some commercial development. While there has been no specific proposal submitted for the site, this zoning change would give the owners more flexibility for future development, and would increase the allowed density from 12 to 20 units/acre. The applicant has stated that he not looking for an increase in density, but rather the ability to develop single family lots which are not allowed under Neighborhood Business. Neighborhood Business development standards only permit residential uses on the second floor of a commercial building.

The River Arts District Form Code was enacted in November 2017; the form code district is a quarter mile from the subject parcels.

The parcels to the north of the subject parcels are zoned CBI. To the south of these three parcels, one property is zoned NB, two are zoned RM-8 and the Asheville Transit Center property is zoned Institutional. This section of West Haywood Street was separated from the Central Business District with the construction of I-240 and the Patton Avenue ramps.

The purpose of the *Community Business I* (CBI) district is to allow for businesses and services that serve more than one neighborhood. The maximum footprint allowed is 6,000 sf with overall structure size limited to 12,000 sf. *Neighborhood Business* district is in place to allow smaller commercial development that serves a neighborhood and which do not create conflicts for the surrounding residential areas. The maximum footprint allowed is 3,000 sf and the overall structure is limited to 6,000 sf. The current zoning of Neighborhood Business allows for the development of multifamily housing, to be located on upper floors only, but does not allow for the development of single family detached housing. Both districts have height limits of 40 feet, which is the same as the height limit in the nearby residential district.

For reference in the surrounding area, the Boy Scouts building to the north has a footprint of 8,800 sf, which is larger than would be allowed under either zoning district. The building at 306

W. Haywood Street has a footprint of 3,530 square feet, but it has multiple levels and has a total gross floor area of 11,000 square feet. The area with these particular structures is zoned CBI. In general, these surrounding parcels act as a buffer between the residential neighborhood and the highway. The subject site is also in close proximity to an area of Patton Avenue that has the potential to be redeveloped as part of the I-26 Connector project. Community Business I allows for more flexibility for residential and commercial development. If a multifamily structure was to be built in the future it would be limited in scale due to the building size restrictions in place and the need to provide parking. Staff finds that the potential rezoning would generally be compatible with the area.

Rezoning applications are reviewed by the Planning and Zoning Commission with final consideration by City Council.

At the May 2, 2018, Planning and Zoning Commission meeting several residents spoke against the proposed rezoning. They had concerns about larger commercial development, and would rather see single family residences built on the property. The Commission voted 6-0 in favor of the rezoning.

The 2025 Comprehensive Plan recommends "compatible adaptive reuse and infill development" within the city. Future infill development on this parcel will meet this goal. The draft Living Asheville Plan shows this area as an area for potential expansion of the Central Business District (CBD).

The WECAN Neighborhood Plan developed in the early 2000s suggests that this area is suited best for medium density residential development, similar to the "missing middle" that recent ordinance changes seek to enable. Drawings show small/medium apartment buildings along Haywood Road.

This action aligns most closely with the 2036 Council Vision in the area of *A Well-Planned and Livable Community* - The proposed rezoning will enable infill development to occur where no activity has happened under the current Neighborhood Business zoning.

Considerations:

- Development on the site could potentially help buffer the neighborhood further from I-240 and the noise of the highway.
- Rezoning to Community Business I would allow a variety of housing options for the site as well as small scale commercial business.
- Building size and site constraints will likely limit the ultimate density of any housing built on the site.
- The main access serving this site from Downtown, Hilliard Avenue, has ample width and capacity for additional traffic from this location.

The Planning and Zoning Commission reviewed this project on May 2, 2018. The Commission voted 6-0 in favor of the rezoning and recommended Council approval of this rezoning request.

Mr. Scott Carter, applicant, requested the rezoning due to the challenges Neighborhood Business District zoning presents. Community Business I District will offer more flexibility in potential development, including, but not limited to single family homes. He then explained his meetings with the surrounding neighbors. He asked for Council's support.

In response to Councilman Haynes, Mr. Carter said that his vision is single-family homes with a local community business.

City Attorney Currin reminded Council that this is a straight rezoning and any use allowed in the Community Business I District will be allowed.

Mayor Manheimer opened the public hearing at 5:49 p.m.

Ms. Rachel Larsa, Chair of the West End/Clingman Avenue Neighborhood Association, said that there was not a consensus amongst the Association about what they would like at that location, but overall was the potential for 40 units. There are other units slated for their neighborhood and they were concerned with the additional traffic.

Mr. Alan Ditmore felt that the people in that area can walk to work and shop downtown and hopefully that will reduce the amount of traffic in that area.

Mr. Timothy Sadler suggested live/work units.

Mayor Manheimer closed the public hearing at 5:55 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Councilwoman Mayfield moved to approve the rezoning request for the parcels located at 399 W. Haywood Street (PINs 9648-09-1093 -2131, and -4109) from Neighborhood Business District to Community Business I District (CBI) and find that the request is reasonable is within the public interest and is consistent with the Comprehensive Plan and other adopted plans in the following ways: (1) the rezoning would allow for a greater variety of housing options; (2) development on the site could potentially help buffer the neighborhood further from I-240 and the noise of the highway; and (3) additional housing or commercial activity in this location, near downtown, is an appropriate use. This motion was seconded by Vice-Mayor Wisler and carried unanimously.

ORDINANCE BOOK NO. 32 - PAGE 92

D. PUBLIC HEARING RELATIVE TO REZONING 99999 KENT STREET FROM NEIGHBORHOOD BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

ORDINANCE NO. 4676 - ORDINANCE TO REZONE 99999 KENT STREET FROM NEIGHBORHOOD BUSINESS DISTRICT TO RS-8 RESIDENTIAL SINGLE-FAMILY HIGH DENSITY DISTRICT

Urban Planner Sasha Vrtunski said that this is the consideration of an ordinance to rezone 99999 Kent Street from Neighborhood Business District to RS-8 Residential Single-Family High Density District. This public hearing was advertised on June 8 and 15, 2018.

The subject property is 0.41 acre and is currently undeveloped. The property has frontage on both Kent Street and Shiloh Road. A significant part of the parcel is in the 100- year floodplain and the creek has a 30 foot buffer. The site is currently vacant and has some vegetation on it.

The applicant has requested that the zoning be changed from Neighborhood Business (NB) to Residential Single Family High Density district (RS8) for the purpose of subdividing the parcel and to build houses.

The majority of the zoning surrounding this parcel is RS-8, with the exception of two parcels that are Neighborhood Business. Generally, the character of the neighborhood is single family houses, so additional single family houses or duplexes would fit in with the neighborhood.

Rezoning applications are reviewed by the Planning and Zoning Commission with final consideration by City Council.

At the May 2, 2018, Planning and Zoning Commission meeting, Norma Baynes, representing the Shiloh Community Association spoke in favor of the rezoning. Another resident came to ask questions to fully understand the impact of the rezoning, but did not oppose it. The Commission voted 6-0 in favor of the rezoning.

The 2025 Comprehensive Plan recommends "compatible adaptive reuse and infill development" within the city. Development of single family homes on this parcel will meet this goal.

In the draft Living Asheville plan, this area is identified as a Traditional Neighborhood on the Future Land Use Map.

This action aligns most closely with the 2036 Council Vision in the area of *A Well-Planned and Livable Community* - The proposed rezoning will enable infill development to occur where no activity has happened under the current Neighborhood Business zoning. Existing floodplain and buffer restrictions make a small business development less likely to happen; lower density residential is a more compatible use.

Considerations:

- This rezoning to RS8 would allow residential infill development.
- Future commercial development under the current zoning is unlikely to occur.
- The subject parcel is on an existing transit line, close to the Lynwood Crump Shiloh Recreation Complex and a major grocery store is within one mile.
- Leaders of the Shiloh Neighborhood Association have voiced support to staff for the rezoning.

The Planning and Zoning Commission reviewed this project on May 2, 2018. The Commission voted 6-0 in favor of the rezoning and recommended Council approval of this rezoning request.

Mr. Harry Coleman, property owner, asked for Council's support of the rezoning request.

Manheimer opened the public hearing at 5:58 p.m.

Ms. Norma Baynes, Assistant Liaison for the Shiloh Community Association, said that the association is supportive of this rezoning.

Mayor Manheimer closed the public hearing at 6:00 p.m.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved to approve the rezoning request for 99999 Kent Street from Neighborhood Business to RS-8 Residential Single Family High Density District and find that the request is reasonable is within the public interest and is consistent with the Comprehensive Plan

and other adopted plans in the following ways: (1) Assigns compatible zoning designations consistent with the surrounding neighborhood; (2) the site is a suitable location for housing development which is needed in the community; and (3) the site is on a transit route and close to community amenities. This motion was seconded by Councilman Kapoor and carried unanimously.

ORDINANCE BOOK NO. 32 – PAGE 95

E. PUBLIC HEARING TO CONSIDER ADOPTION OF LIVING ASHEVILLE: A COMPREHENSIVE PLAN FOR OUR FUTURE AS THE NEW COMPREHENSIVE PLAN DOCUMENT FOR THE CITY OF ASHEVILLE

RESOLUTION NO. 18-143 - RESOLUTION ADOPTING THE LIVING ASHEVILLE: A COMPREHENSIVE PLAN FOR OUR FUTURE AS THE NEW COMPREHENSIVE PLAN DOCUMENT FOR THE CITY OF ASHEVILLE

Ms. Laura Hudson, Chair of the Planning & Zoning Commission, said that this this staff Report will serve as the report from the Planning and Zoning Commission as required by Sec. 7-4-2. (b) (3) of the city's Unified Development Ordinance (UDO) regarding adoption of a new comprehensive plan. The updated and amended comprehensive plan, *Living Asheville: A Comprehensive Plan for our Future (Living Asheville),* will replace the city's current comprehensive plan *Asheville City Development 2025* as the basic policy guide for development in the City of Asheville. This public hearing was advertised on June 8 and 15, 2018.

The purpose of the comprehensive plan is to set forth goals and policies for sustainable growth and development over the next 10-20 year period. The plan includes goals and strategies reflecting the community's vision for the location and form of future development, future land use patterns and other policy guidance, while ensuring sufficient infrastructure, parks and community services.

The interest to update and amend the comprehensive plan is the result of the successful growth and popularity the Asheville community has experienced over the past 16 or so years. There are major issues and needs facing the community that are not adequately addressed within the current Asheville City Development Plan 2025. The city's population has grown by over 20,000 people and visits to the city and county have also increased to over 10 million people per year impacting the need for new facilities, accommodations, housing, jobs and infrastructure. The additional growth has put pressure on downtown and existing neighborhoods and has increased the need for affordable housing and strategies to address low wages and limited employment opportunities experienced by many workers in Asheville.

The Planning and Zoning Commission reviewed this request at their meeting on April 11, 2018, and held a public hearing on June 6, 2018, in which they voted 5-0 to recommend approval of the plan. Therefore, the Planning and Zoning Commission recommends that the Asheville City Council adopts the updated and amended comprehensive plan, *Living Asheville: a Comprehensive Plan for our Future*. During the public hearing portion of the review, three members of the community spoke in favor of the plan and recommended its adoption.

Director of Planning & Urban Development Todd Okolichany said that transportation systems and the natural environment have been strained and may be improved by cooperative regional solutions to make positive changes. More paths to economic opportunity are needed through investments in people and well designed public places, private development and infrastructure to improve affordable housing, diversify the local economy, and enhance transportation connectivity. Climate change adaptation and equity have emerged as important

trends that have been incorporated into the plan's strategies. The amended document is needed to ensure the health, safety and welfare of the city.

Developed over a two year period beginning in the spring of 2015, the comprehensive plan update was led by the city's Planning and Urban Design Department working with the consultant team from Skidmore Owings and Merrill with support from an advisory committee established by the Asheville City Council and a technical team comprised of city staff. *Living Asheville* was drafted, expanded and ultimately finalized through an iterative process of continuous feedback between the consultant team, the city and the public with guidance and input from the advisory and technical committees. Through this process the plan evolved to reflect the voice and vision of the community in both an aspirational and practical way.

The planning process was organized into four phases. The initial phase involved an analysis and assessment of Asheville's existing environment, its role within the region, social and economic conditions and projected growth. This phase also explored Asheville's recent planning efforts and compared Asheville to similar cities across the nation. Later phases shaped the strategy and vision for the plan around a process of extensive community outreach and engagement. A public survey, community workshops, focus groups, outreach at neighborhood and special events and input from relevant boards and commissions helped establish the project's key concepts, goals and priorities. These phases yielded the plan's Assessment and Market, Housing and Economic Strategies reports, which helped to inform the plan's strategies. Highlights of these documents are included in the text of *Living Asheville* and the complete reports are included as appendices to the plan.

The plan is organized into four sections, which include Book 1: Introduction, Book 2: Themes, Book 3: Physical Strategies and Land Use, and Book 4: Implementation. The first section, Book 1: Introduction, provides an overview of existing conditions, including data from the the assessment and economic reports and summarizes the plan process. The second section of the plan, Book 2: Themes, contains 39 goals and numerous strategies as well as synergistic strategies, which are organized around six basic principles. These principles provide substantive direction for establishing best practices in comprehensive planning as outlined by the American Planning Association. They are: 1) Livable Built Environment; 2) Resilient Economy; 3) Harmony with the Natural Environment; 4) Healthy Community; 5) Interwoven Equity; and, 6) Responsible Regionalism. Suggested performance measures are also included in this section. While Interwoven Equity is a stand alone theme of Living Asheville, the planning team worked to weave equity into the entire planning process as well throughout the document and consulted with the city's Equity and Inclusion Manager on this effort.

The third section of the plan, Book 3: Physical Strategies and Land Use, recommends three physical growth strategies and provides a growth scenario analysis. This chapter also contains a Future Land Use Map and physical strategies for the five geographic regions of Asheville. The last section, Book 4: Implementation, begins to outline implementation strategies.

Three concurrent efforts rounded out the planning process and contribute to the distinctiveness of *Living Asheville*. The first was the Neighborhood Plan on a Page Initiative. Asheville neighborhoods were encouraged to submit a short plan which described their neighborhood's character, vision, strengths and challenges. This information helped to inform strategies overall, but also helped to flesh out the physical strategies for the five geographic areas. The city received 33 plans through this effort and will continue to encourage neighborhoods to submit a Plan on a Page. These plans are summarized and included as an appendix to Living Asheville.

The city also worked with UNC Asheville's National Environmental Modeling and Analysis Center on the Climate Resilience Assessment Report. This assessment along with NEMAC's

multi-hazard risk tool, assesses Asheville's vulnerability to floods, landslides, droughts, wildfires and other hazards and provides the groundwork for Asheville to address these climate related threats through the identification of options the city can implement to build resiliency; thus, allowing the city to assume a leadership role in the face of climate change. The full report is included as an appendix to the plan and some of the the Assessment Report's results are summarized by geographic area in Book 3. The prologue and essays written by local Ashevillians complete the document, lending an authentic voice to the comprehensive plan.

Considerations:

- Adoption of *Living Asheville* fulfills Council's goal to revise the comprehensive plan.
- Based on the changes and growth that the community has experienced over the past 15-20 years, the effort the planning team has made to listen and incorporate the many voices of the citizens of Asheville in creating the document, and the acknowledgement that the plan will serve to inform future decision making regarding land use regulations and other city policies, staff recommends adoption of *Living Asheville*.

He then outlined the approach to Plan implementation: (1) enhance webpage for the plan; (2) create an action plan (3) integrate the plan into the City's strategic priority planning cycle; (4) review plan progress; and (5) evaluate and selectively update the plan every 3-5 years.

Mayor Manheimer opened the public hearing at 6:11 p.m.

Mr. Alan Ditmore objected to the Plan because he felt it interferes with his objective of the affordable housing market; and that there should be no density cap anywhere in the City.

In response to Mr. Ken Michalove, Mr. Okolichany said that the City's existing plan is on the website.

Rev. Amy Cantrell said that the Comprehensive Plan has a vision; however, it needs to have resources to be implemented.

Mayor Manheimer closed the public hearing at 6:17 p.m.

Councilman Kapoor thanked staff for their efforts on the new Comprehensive Plan, especially their efforts to reach out to neighborhoods. He also appreciated staff looking into the concerns of the neighborhoods and incorporating strategies to alleviate those concerns in the Plan.

Councilwoman Mayfield also thanked staff for their efforts in creating a plan that will honor and move us forward towards Council's 2036 Vision.

Mayor Manheimer said that members of Council have been previously furnished with a copy of the resolution and it would not be read.

Councilwoman Mayfield moved to adopt the updated and amended comprehensive plan, *Living Asheville: a Comprehensive Plan for our Future,* based upon the oral and written comments presented before and at the hearing and the factors set forth in UDO Section 7-4-2(b)(4) including that: (1) Changes in the community have been identified, which are not adequately addressed in the current comprehensive plan, *Asheville City Development Plan 2025*; (2) The updated and amended plan was developed with community input and reflects the community's vision for the future; (3)The plan will help inform future decision making regarding land use regulations and other city policies; and, (4)The plan amendment will promote the health, safety, and welfare of the City of Asheville. This motion was seconded by Councilman Kapoor and carried unanimously.

RESOLUTION BOOK NO. 39 – PAGE 468

V. UNFINISHED BUSINESS:

A. ORDINANCE NO. 4677 - ORDINANCE ADOPTING THE FISCAL YEAR 2018-19 OPERATING BUDGET

Mayor Manheimer announced that there will be no public comment taken on this matter. The public hearing was held on May 22, 2018.

Director of Finance and Management Services Barbara Whitehorn said that this is the consideration of an ordinance to adopt the Fiscal Year 2018-19 Annual Budget.

The Fiscal 2018-19 Proposed Annual Operating Budget was presented to City Council on May 15, 2018. In accordance with the North Carolina Local Government Budget and Fiscal Control Act, a summary of the Proposed Budget along with a notice of the Public Hearing was published on May 11, 2018. City Council conducted a public hearing on the Proposed Budget on May 22, 2018. The Proposed Budget is balanced with an ad valorem tax rate of $0.4289 per $100 of assessed value, which is unchanged from the current rate. All essential City services are continued in the Proposed Budget.

Changes to the Proposed Operating Budget - Since the Proposed Budget was presented to City Council, there have been some minor adjustments per Council direction that have altered the annual operating budget that is presented tonight for Council adoption.

- **Firefighter 457 Retirement Program.** An increase to the City matching contribution to the fire personnel 457 retirement program from 4% to 6%, effective January 1, 2019 at a cost of $155,480.

- **Upgrade Public Records Position to Full-Time.** In order to continue providing timely responses to public records requests, the Proposed Budget included approximately $25,000 in funding to convert a temporary part-time position to a benefited part-time position in the City Clerk's office. The Budget presented tonight for adoption further expands this position to a full-time benefited position at an additional cost of $13,485.

- **Additional Fund Balance Appropriation.** In order to fund the increase in the firefighter 457 contribution and the upgrade of the public records position, staff has adjusted the appropriation from unassigned fund balance in the General Fund from $471,000 to $639,965. The table below, which was included in the City Manager's Budget Message, is updated to show the impact of this additional fund balance usage.

FY 2017-18 General Fund Revenue Estimate	$119,964,653
FY 2017-18 General Fund Expenditure Estimate	$119,881,687
Revenue Over Expenditure	$82,966
Beginning FY 2017-18 General Fund Unassigned Fund Balance (FB)	$21,271,224
Ending FY 2017-18 General Fund Unassigned FB	$21,354,190

FY 2018-19 FB Usage	($639,965)
Beginning FY 2018-18 General Fund Unassigned FB	$20,714,225
FY 2018-19 Proposed General Fund Budget	$124,394,311
Unassigned Fund Balance As % of Proposed Budget	16.65%

Changes to the Proposed Capital Budget - Since publication of the Proposed Budget Document in May, the City has received official notice that it has been awarded $17,817,040 in transportation grant funding from the French Broad River Metropolitan Planning Organization (MPO) for the projects in the table below.

Project Name	Federal	Local	Total Cost
Johnston Blvd. Sidewalk	$1,880,000	$470,000	$2,350,000
New Haw Creek Sidewalk	$1,900,000	$475,000	$2,375,000
Onteora Rd Sidewalk	$912,000	$228,000	$1,140,000
Town Branch Greenway	$3,420,000	$855,000	$4,275,000
FBR West Greenway	$4,000,000	$1,000,000	$5,000,000
Bus Replacement	$4,069,180	$1,017,295	$5,086,475
Bus Expansion	$1,635,860	$408,965	$2,044,825
TOTAL	**$17,817,040**	**$4,454,260**	**$22,271,300**

The local matches and budgets for all of the projects except Town Branch Greenway and French Broad River (FBR) West Greenway were already included in the five-year Capital Improvement Program (CIP) presented in the Proposed Budget Document. The FY 2018-19 Budget Ordinance includes these two new project budgets in the General Capital Projects Fund, and the Adopted Budget Document will also be updated to reflect funding for these two additional projects.

The FY 2018-19 Budget Ordinance also includes budget authorization of $5.5 million in the General Capital Projects Fund for the purchase and installation of park lighting for sports fields and courts. As discussed with the Finance Committee at its May 25, 2018 meeting, the City will be entering into an installment financing agreement for this purchase and installation with debt service payments funded through the Parks and Recreation Department annual operating budget. Council is taking a separate action at its June 19, 2018 meeting to approve a resolution authorizing the installment financing agreement.

This action complies with the Thriving Local Economy and Smart City focus areas of City Council's Strategic Themes. The budget reflects City Council's ongoing commitment to providing a living wage as an example for other organizations in the area and managing the City to the highest levels of fiscal responsibility and prudence.

Pros:

- Ensures City's compliance with North Carolina General Statutes that require local governments to adopt a balanced budget ordinance by July 1 of each year.

- General Fund budget is balanced with minimal fund balance appropriation for ongoing operating expenses and all essential City services are continued.

Con:

- None.

As noted above, the Proposed FY 2018-19 General Fund budget is balanced with a fund balance appropriation of $639,965, which will result in an estimated unassigned fund balance percentage of 16.65% (above the City policy goal of 15.00%).

Staff requests that Council adopt the FY 2018-19 Annual Budget Ordinance with the changes noted above.

Acting City Manager Ball said that while we have worked hard to put together a budget we have identified several opportunities. As we move into the next budget cycle we have made commitments to be able to move forward with improvements. One of our core values is continuous improvement. We have committed to doing participatory budgeting and we are committed to starting that process earlier and allowing the public to give input on that. We do want more public transparency in the budget process and that includes providing more details early on about the Police budget. We want to identify specific programs within the budget and make sure the public understands what those programs cost so they can make choices about what they want to see in the community. We also want more employee engagement in the budget process. There are several ways the budget process has been improved over the years and there are opportunities and way to put together a budget that allows the public, as well as our employee base, to be able to give input. We are committed to moving forward on that in July. We also want to say that we are interested in starting a strategic process around the potential funding that could come from the sale of the Mission Hospital system to HCA. We would love to work with the community and Buncombe County to be able to decide how we can make a difference in our community in the next 20-30 years with those monies we would receive.

Vice-Mayor Wisler said she has heard that our budget process was not transparent, but looking at the 4 budget worksessions and other Council meetings which the budget was discussed, she felt there was compromise making sure that all Council members and citizen voices were heard.

Councilman Kapoor read the following statement: "I will vote in favor of the budget, although it doesn't include everything that I wanted and includes some things that I think we can do without, it takes steps to address the serious issues that Asheville as a whole is facing. I would have liked to see our City employees receive a 3% increase rather than a 2.5% increase. Additionally, I'm sorry that we're not able to support the Asheville Museum of Science in this year's budget, but hope that we can work with them for the next budget cycle just as we've done with the Art Museum. But I don't expect nor am I going to insist that everything needs to be the way I want it to be for me to vote for it. That brings me to the request for funding additional police officers which I support for several reasons. First, and I mean this with all respect to the Chief and the police officers, while I would prefer we spend this money elsewhere or not spend it at all, the fact is we need more police officers in Asheville to deal with the level of service calls APD receives. Right now, our officers are being pulled from other locations in the City to respond to calls Downtown. The purpose of hiring additional officers is so that APD can create a Downtown district that will not only serve Downtown better, but will also allow police officers to better serve other parts of the City. Second, we are also seeing a continued, significant increase in violent crime - especially gun violence - in certain parts of the City. From January to March of 2018, the number of violent Part I crimes (this is homicide, rape, robbery and aggravated assault) are up 33% over the same time period in 2017 on top of a 28% increase from 2015 to 2017. You may also remember a statistic cited that between 2016 and 2017, the number of traffic stops of African

Americans increased by 595 or 53% while for whites it only went up by 15 or 0.3%. On its face, that's a pretty alarming statistic so I asked the question why. It turns out that four areas of the city which were experiencing significant gun violence during that time represented 72.4% of that increase. For example, in Shiloh, residents were complaining about gun violence and drug activity on Brooklyn Road in 2017 so APD directed resources there and saw an increase in traffic stops. The racial demographics of that district was 34% black and 66% white. The traffic stop demographics over that period in that district were 35% black and 65% white. We see similar racial and traffic stop demographic percentages in the other areas where the traffic stops occurred. In response to complaints and data, APD directed significant resources to these locations and has been able to reduce the gun activity there. This analysis was provided to all of Council and I hope we read it and I hope that the public sees it as well. Finally, increasing the number of officers will allow APD the ability to implement community policing which was one of the six pillars of President Obama's Task Force on 21st Century Policing report. The 21st Century Policing report was written in 2015 by a task force of academics, community leaders, police leaders, and police employee representatives. That report has been referenced by Mr. Mance in his presentation and APD has already implemented many of its recommendations. The community policing philosophy cites the need to use partnerships with the community to address the conditions that cause public safety issues. The report talks about police officers actively building positive relationships with members of the community and notes that it required participation to community organizations, local meetings and public service activities. Anyone who has tried to build community knows that it takes time. Well, how do we expect our officers to be able to do that when they're spending all their time on service calls? Additionally, Pillar 6 of the report talks about Officer Wellness & Safety. If our officers are consistently responding to calls, that is going to lead to burnout and turnover. My goal during my time on Council is to ensure that all Asheville residents go to sleep each night feeling safe, fed, healthy and valued. Approving this budget will not only make our city safer, but it will also go a long way to implementing the recommendations of the 21st Century Policing report and I'm proud to support it."

Councilman Haynes said that he did not support the budget because of the increase funding for additional police officers. He felt our community has greater needs than this. We are trying to build community trust between the police department and the community. Adding police officers is counter-productive. He could support this money going towards fare free transit and increased wages for low level city employees, including police officers. There are many good ideas for using this money. He said that when we talk about how our officers are overworked, part of this problem seems to be that a lot of officers' time is spent dealing with low level offenses. By removing this as a requirement for them will free up resources in order for them to deal with bigger issues of crime. He also said that the Asheville Fire Department/Community EMT Pilot Program will also free up officers from being the first responders.

Councilwoman Mayfield said that there is a recommendation in the Transit Master Plan to try some fare free weekends. The concern is going fare free all at once would overburden the system because we don't have enough buses to deal with that. The last time we did a significant fare free effort sent our buses into maintenance much more frequently than before.

Councilwoman Smith felt that the items the Acting City Manager outlined are items that should be been considered during this budget cycle. She believed that informed budget decisions are made with accurate information about how departments are functioning always remains a question with this Council, as it pertains to procedurally how our police force is doing and how we are approaching situations in the community. With that being the question, she didn't believe any other department would receive any type of expansion in those gray areas. Therefore, she didn't believe that in any city in any situation police expansion has actually reduced crime. But what it has caused is a lot of interactions around low level crimes. The root of it all is policing in general. It's not speaking against the officers as we have the mindset to

provide safety in our community, but the office of policing in America has never really benefited the community at large. So, we are policing poverty and the homeless. We have seen a pie chart that showed how much we are putting into policing and she questioned the Council what their day to day procedures look like, what programs are in place to build trust, etc. She didn't think that is in place and she felt we are actually working backwards.

Mayor Manheimer said that members of Council have previously received a copy of the ordinance and it would not be read.

Vice-Mayor Wisler moved for the adoption of Ordinance No. 4677, with the changes to the proposed budget outlined above. This motion was seconded by Councilman Kapoor and carried on a 4-3 vote, with Councilman Haynes, Councilwoman Smith and Councilman Young voting "no".

ORDINANCE BOOK NO. 32 – PAGE 98

Closed Session

At 6:39 p.m., Councilwoman Smith moved to go into closed session for the following reasons: (1) To prevent disclosure of information that is privileged and confidential, pursuant to the laws of North Carolina, or not considered a public record within the meaning of Chapter 132 of the General Statutes. The law that makes the information privileged and confidential is N.C.G.S. 143-318.10(a)(3). The statutory authorization is contained in N.C.G.S. 143-318.11(a)(1); (2) To consult with an attorney employed by the City about matters with respect to which the attorney-client privilege between the City and its attorney must be preserved. The statutory authorization is N.C. Gen. Stat. sec. 143-318.11(a)(3); and (3) To establish or to instruct the City's staff or negotiating agents concerning the position to be taken by or on behalf of the City in negotiating the terms of a contract for the acquisition of real property by purchase, option, exchange or lease. The statutory authorization is contained in N.C. Gen. Stat. sec. 143-318.11 (a) (5). This motion was seconded by Vice-Mayor Wisler and carried unanimously.

At 7:25 p.m., Vice-Mayor Wisler to come out of closed session. This motion was seconded by Councilwoman Smith and carried unanimously.

B. ASHEVILLE POLICE DEPARTMENT EQUITY & TRANSPARENCY

During City Council's May 22, 2018, meeting, following a presentation by Ian Mance (an attorney for the Southern Coalition for Social Justice), and a response by Chief Hooper, Councilman Young made the following three motions, which were seconded, and ultimately passed by a vote of 5 to 2:

- A motion to direct the City Manager to implement a written consent policy for the Asheville Police Department ("APD") for vehicular searches and searches of the person or personal property associated with the person.
- A motion to direct the City Manager to implement a policy that APD not base a consent search on vehicular stops on a person having a criminal record or suspicious movement or behavior.
- A motion to direct the City Manager to implement a policy that APD de-prioritize low level regulatory stops.

The manner in which these motions were presented, debated and ultimately passed appeared to potentially violate several of the City Council's Rules of Procedure, including the

requirement that the public be afforded an opportunity to comment prior to any final vote. For that reason, members of the City Council have requested that the City Manager's Office work with the City Attorney's Office to prepare three separate resolutions rescinding those prior actions so that the specific measures may be presented again in the form of written resolutions open to public comment prior to the final vote.

Pros:

- Resolves potential procedural deficiencies with prior Council actions
- Affords an additional opportunity for public input.
- Clearly and precisely memorializes the City Council's position on these policy matters.

Con:

- None

There is no fiscal impact to this recommendation.

City staff recommends City Council consider adoption of three separate resolutions rescinding City Council actions passed during its May 22, 2018 meeting, and memorializing the City Council's support of certain policing policies.

Councilman Kapoor moved to combine the public hearings on the following three topics, with individual votes taken on each resolution. This motion was seconded by Councilwoman Mayfield and carried unanimously.

Mayor Manheimer said that members of Council have been previously furnished with copies of the resolution and they would not be read.

RESOLUTION NO. 18-144 - RESOLUTION RESCINDING PRIOR COUNCIL ACTION AND AFFIRMING SUPPORT FOR POLICIES REQUIRING THAT POLICE PROVIDE INFORMATION AND OBTAIN CONSENT IN WRITING PRIOR TO CONDUCTING CONSENT SEARCHES AS A MEASURE TO BUILD TRUST BETWEEN THE COMMUNITY AND THE POLICE

Resolution is as follows: "WHEREAS, Recommendation 2.10 of the Final Report on 21st Century Policing states that when there is no warrant or probable cause to conduct a search, law enforcement officers should be required to seek consent before a search and explain that a person has the right to refuse consent, and further states that officers should ideally obtain written acknowledgment that they have sought consent to a search in these circumstances; and WHEREAS, Pillar Two: Policy and Oversight of the Final Report on 21st Century Policing emphasizes that if police are to carry out their responsibilities according to established policies, those policies must reflect community values; and WHEREAS, policies implementing those recommendations further the City's goal of building and maintaining trust between the community and police; and WHEREAS, the City Council of the City of Asheville supports a written consent policy for the Asheville Police Department to apply to searches of vehicles or premises so that all individuals are informed of their rights; and WHEREAS, the Asheville Police Department utilizes written consent or warrants when searching homes; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City Council's action, taken during its May 22, 2018, meeting, directing the City Manager to implement a written consent policy for the Asheville Police Department to apply to vehicle searches and searches of persons and their personal property, is hereby rescinded. The City Council now authorizes the City Manager to work with the Asheville Police Department to implement a policy whereby police officers who request consent to search explain that a person has the right to refuse and obtain a

person's written consent prior to a consent search occurring."

RESOLUTION NO. 18-145 - RESOLUTION RESCINDING PRIOR COUNCIL ACTION AND AFFIRMING SUPPORT FOR POLICIES REGARDING REASONS FOR POLICE TO SEEK CONSENT TO CONDUCT SEARCHES AS A MEASURE TO BUILD TRUST BETWEEN THE COMMUNITY AND POLICE

Resolution reads as follows: "WHEREAS, policies directing police officers to not seek consent to search a vehicle, person or personal property associated with a person, where the sole articulable reason for seeking such consent is the person's criminal record or apparent nervousness, furthers the City's goal of building trust between the community and police; and WHEREAS, Pillar Two: Policy and Oversight of the Final Report on 21st Century Policing emphasizes that if police are to carry out their responsibilities according to established policies, those policies must reflect community values; and WHEREAS, communities in North Carolina and across the country have adopted similar policies; and WHEREAS, City Council recognizes the difference between "apparent nervousness" and behaviors indicative of criminal activity; NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ASHEVILLE THAT: The City Council's action, taken during its May 22, 2018, meeting, directing the City Manager to implement a policy whereby the Asheville Police Department would not base consent searches of a vehicle on the basis that the person involved has a criminal record or because the person displayed suspicious movements or behaviors, is hereby rescinded. The City Council now authorizes the City Manager to work with the Asheville Police Department to ensure that police officers do not seek consent to search a vehicle, person or property associated with a person, where the sole articulable reason for seeking such consent is the person's criminal record or apparent nervousness."

RESOLUTION NO. 18-146 - RESOLUTION RESCINDING PRIOR COUNCIL ACTION AND AFFIRMING SUPPORT FOR POLICIES DE-EMPHASIZING ENFORCEMENT OF MINOR VIOLATIONS OF NORTH CAROLINA MOTOR VEHICLE STATUTES AS A MEASURE TO BUILD TRUST BETWEEN THE COMMUNITY AND POLICE
